Barry, Fulton's county health department commissioner, today released the following information concerning the DDT spraying program sponsored by the Fulton county mosquito control association:

Barry stated that the spraying is being done to control the mosquitoes that carry malaria and yellow fever. The spraying will be done every two weeks for the next two months.

British Crisis Still Is Acute

The British are not giving up hope that a peaceful solution to the current crisis will be found. They are working hard to prevent a military conflict.

British military commanders have ordered all non-combatant personnel to leave the country. The order is intended to prevent further escalation of the situation.

Gales That Lashed Antarctic Task Force Subsidy

The gales that lashed the Antarctic task force earlier this week have been blamed for the subsidy that has been involuntarily placed on the vessel. The subsidy is being paid to the crew to cover the cost of additional food and fuel needed during the storm.

The vessel, which was on its way to the Antarctic, was forced to turn back to avoid the storm. The crew was forced to ration their supplies and cut down on food and fuel.

Location Of New Antarctica Discovery

The location of the new Antarctica discovery was announced by the British government today. The discovery was made by a team of scientists who were on an expedition to the Antarctic.

The discovery was made near the South Pole and is the latest in a series of discoveries that have been made in recent years. The scientists believe the discovery may be of great scientific interest.

Some Fear Tax On Sales, Bets

A few legislators say that the tax on sales and bets will not be enough to cover the cost of the new vehicle. They say that the tax will hurt the economy and lead to a decrease in sales.

Parole Officer Explains How Prisoners' Background Checked

In answer to the question, "What does the parole officer do?" C. B. Reaves, parole officer, today explained that he is responsible for checking the background of all inmates who are released on parole. He checks the prisoner's home address, employment, and any previous convictions.

The parole officer must ensure that the inmate has the support of a parole officer in his home community before being released. He also must ensure that the inmate has a job and is not likely to commit crime.

The parole officer must also check the inmate's background to determine if he is likely to be a danger to society. He checks the inmate's previous convictions and any other factors that may indicate a risk to society.

The parole officer must also ensure that the inmate has a stable living situation before being released. He checks the inmate's living arrangements and any other factors that may indicate a risk to society.

The parole officer must also ensure that the inmate has a plan for employment after release. He checks the inmate's job history and any other factors that may indicate a risk to society.
Scouts Set Example

The two new sets on the Boy Scout line for 1937 are different and exciting for they are the first of their kind. They are designed to provide a varied and interesting trail of adventure and learning for boys in the fields of Scouting, camping, and world citizenship. The two new sets are known as the "World Scout" and the "National Scout." They are intended to provide a basis for boys to develop leadership and citizenship skills through participation in Scouting activities.

Defense Strengthened

The United States has strengthened its defenses in recent years, with the establishment of new military bases and the expansion of the armed forces. The country has also increased its military spending, with the aim of maintaining a strong defense capability against potential threats. The government has also taken steps to improve the readiness and effectiveness of the military, with the goal of ensuring the country's security and stability.

Definitely Planned Leaves

A few of the basketball fans are already planning to take their leaves for the upcoming basketball season. They are looking forward to attending the games and cheering on their favorite teams. Many will be traveling to other cities to watch the games, while others will be staying close to home and watching the games on television.

The Arlington Aces lost a game on Saturday. A few of the basketball fans were disappointed with the outcome of the game. They are looking forward to the next game and hope that their team will bounce back in the next match.
