POL. NO. 51

MURRAY, KENTUCKY THURSDAY, MARCH 4, 1915

\$1.00 PER YEAR

## 2 CHARGED WITH MAIL TAMPERING

Gilbertsville, Ky., Feb. 28. — Postoffice Inspector Fred Ashton, after some quiet but effective work at this place, furnished sufficient information yesterday to justify the arrest of Mrs. Attie Chestnut local agent of the Illinois Central railroad, and her sister, Miss Nellie Houston, on the charge of the theft of parcel post packages from the United States mails. Mrs. Chestnut and Miss Houston were arrested following information furnished by Magistrate Draffen, of Calvert City, by Inspector Ashton, who has been working on the case for some time. The arrest of the two women followed the use of five decoy packages mailed by Mr. Ashton, two of which he was able to locate in their home while an attempt was being made to burn them in the stove. For several months packages, mostly parcel post, have been disappearing at Gilbertsville. The mail for that point arriving on Sunday is allowed to lay over in the depot until Monday when it is taken to the postoffice. It was the fact that most of the missing packages were those arriving there on Sunday which first aroused the inspector's suspicion. He handled the job alone and through good work was able to secure evidence which he considered sufficient for the arrest of the parties. The women were released on \$500 bond each and will be given an examining trial Thursday, March 4.

A daughter was born the first of the week to Lee Caraway and wife, at their home just south of the city limits.

## TOBACCO SALES AND OUTLOOK

Paducah, Ky., March 1.—The report of sales for the past week and the present outlook of the market is reviewed by W. B. Kennedy as follows:

Association receipts  
For week . . . . . 12 Hhds  
For year . . . . . 45 "

Sales  
For week . . . . . 55 "  
For year . . . . . 271 "  
On hand . . . . . 556 "

The Association sales this week were practically all lugs selling at 4 1/2 to 6 cents. The greater part of them being around 5 cents, and they are dickering with buyers for some much larger lots, and expect to make rather a large sale in the next day or two. Then there is some prospect of them selling considerable of their common leaf, but so far they have made no sales of leaf this week.

I also hear of some sales of lugs at Murray, Ky., and Martin, Tenn. From these points about 100 hhds. were sold this week direct from the dealer, and this leaves very few decent old lugs in first hands.

The weather has been very favorable during the past week for handling loose tobacco, and deliveries have been rather heavy at all of the prize houses, and the condition shows a great improvement over earlier deliveries, and I think we will find tobacco being delivered in good condition from now on, because farmers see the advantage in having their tobacco in good order. The market continues firm and prices unchanged from last week. The crop is bring-

ing for the better crops from 7 to 8 1/2 cents round, and for the common and medium crops from 5 to 6 1/2 round, where they are bought at round prices, but the greater part of the crop is selling at split prices, which means so much for the leaf and so much for the lugs, and where it is sold this way the leaf is bringing from 5 to 10 cents according to quality and the lugs from 2 to 4 cents according to quality, and while prices are not what the farmers were expecting, they are accepting them very much more readily than heretofore and it seems that values are pretty well established and farmers who are not willing to accept the prices will have their tobacco prized and held in store for later market.

The weather for the past two weeks has been very favorable for burning and sowing plant beds and farmers have taken advantage of this and most of them are through with this work and more preparation is being made than we thought for earlier, but it is impossible at this time to judge what the acreage will be, but the indications point to a considerable reduction of their preparations for the past several years.

Are You Rheumatic?—Try Sloan's.

If you want quick and real relief from rheumatism, do what so many thousand other people are doing—whenever an attack comes on, bathe the sore muscle or joint with Sloan's Liniment. No use to rub it in—just apply the liniment to the surface. It is wonderfully penetrating. It goes right to the seat of trouble and draws the pain almost immediately. Get a bottle of Sloan's Liniment for 25c. of any druggist and have it in the house—against colds, sore and swollen joints, lumbago, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.

Hymon Hints.

Stripping tobacco has been the order of the week. Some few farmers give their tobacco away and are even doing the hauling for nothing. I am not going to give mine away yet awhile.

Cabe Hart's folks went to the flats Saturday and returned home Monday feeling fine.

Nonar Bucy is all smiles. It's a boy. Also a boy was born to Mr. and Mrs. Coy Elkins the 15th of February.

Mr. S. R. Fox and wife have returned home from Texas. They say it is a black muddy country.

No weddings to report, but think there will be one soon if the little bay horse keeps going down the road.

Miss Willie Marr went home with Roy and Cecille Marr and stayed a week, though she was only gone three days.

Mr. Jerry Albritten and family visited Roy Marr and family Saturday night.

Nearly all of the young people of the Hymon section are wanting to marry, but are afraid of the hard times.

Brown Eyes.

Don't Drench Horses.

Use Farris Colic Remedy. Simply drop it on the horse's tongue with the medicine dropper that is furnished with every 50c bottle. Cures fifty-nine times out of sixty, and the women can give it when you are away. Money back if it fails.—Sexton Bros.

100 Mules Wanted.

50, from 14 to 14 1/2 hands high, 5 to 10 years old. 50, from 15 1/2 to 16 hands high, 5 to 10 years old. Will be at Murray, Ky., Saturday, March 6th, 1915.

## BALLARD COUNTY VOTED \$300,000

Wickliffe, Ky., March 1.—By a vote of 2,000 to 730 Ballard county Saturday decided to issue \$300,000 in bonds for the graveling of the county's roads. Every precinct has been heard from. While the weather was slightly cold, it did not keep a big majority of the voters of the county from going to the polls to cast their ballot on the question.

Much credit is due the Ballard County Good Roads Association for the great victory in Saturday's election. This association, organized only a few days ago, has done wonderful work in the campaigning of the county for the proposition. The association secured John M. Moore, of La Center, to stump the county for the bond issue, while the members themselves did good work. Much credit should also go to Messrs. J. V. and J. W. Wear for the publicity and support given the issue through their respective newspapers.

With the \$300,000 secured from the sale of bonds Ballard county will be able to boast of roads inferior to none in the state.

Ryan Godwin Instantly Killed.

Information was received here the latter part of the past week by Mr. Nat Ryan conveying the intelligence that Ryan Godwin, son of D. W. and the late Mrs.

Alice Godwin, former resident of this city and a daughter of Mr. R. L. Ellison, of Ft. Worth, Texas, was instantly killed by a street car. Mr. Godwin was riding a motor cycle and had stopped to let the car pass when the street car left the track and crushed the life out of the young man. Mr. Godwin was about 23 years of age and was married about one year ago to a young lady of Lebanon, Tenn.

His mother, Mrs. Alice Godwin, died in this city very suddenly some few years ago. The news was quite a shock to relatives in this place. The burial was at Ft. Worth.

Health Promotes Happiness.

Without health, genuine joy is impossible; without good digestion and regular bowel movement you cannot have health. Why neglect keeping bowels open and risk being sick and ailing? You don't have to. Take one small Dr. King's New Life Pill at night, in the morning you will have a full, free bowel movement and feel much better. Helps your appetite and digestion. Try one tonight.

Famous Song Writer Dead.

Fanny Crosby, the famous blind hymn writer, died at Bridgeport, Conn., Friday, aged 95 years. Her mother lived to be 102 and her grandmother 106. She was the widow of Alexander Van Alstyne, but wrote under her maiden name. "Safe in the Arms of Jesus" was written in fifteen minutes without a moment's notice.

## VALUABLE STOCK BURNED IN FIRE

Fire destroyed the large stock barn owned by W. L. Whitnell, located just west of the fair grounds, last Saturday night between 11:00 and 12:00 o'clock. How the fire originated is unknown but it is generally accepted that it was of incendiary origin. Calvin Morris and Raymond Tolly in company with young ladies returning from a party given at the home of Mr. Luter, south of the city, discovered the blaze and gave the alarm. However the fire was under such headway at the time that it was impossible to remove any of the contents of the building.

Four fine stallions and one fine jack were burned to death in the building. The horses were Sprague Patch, Braden Gentry, Mason's Hamlett and The Algerian. The jack was Carmack. All the stock was of the very finest blood and the loss is not only heavy to Mr. Whitnell but also to stock breeders of this section. Quite a large amount of feed stuff, implements, wheat, tobacco-barn equipment were also burned. Two jacks were saved from destruction by being placed in stalls with a door leading to a pen in the lot adjoining. Mr. Whitnell only carried \$3,500 on the animals and the building, while his loss will reach about \$12,000.

Another Candidate For Clerk.

The Ledger this week contains the formal announcement of Mr. S. L. Evans, of the east side of the county, as a candidate for the office of circuit court clerk of Calloway county. Mr. Evans is a widely and well known citizen, competent and qualified to discharge the duties of the office to which he aspires and will make an active canvass for the place. He presents his candidacy to the voters in a card published herewith:

After months of careful meditation and earnest solicitations from so many, I have made up my mind to make an honest and strong effort for the office of circuit court clerk of Calloway county, and announce my candidacy subject to the action of the August 7 democratic primary. I have served as deputy tax assessor, deputy county clerk, under Keys, Falwell and now under Broach; also a number of years in the school room. Not boasting, but all of which, I feel, has been to my credit.

I think this experience helps to qualify me to serve more people. Hence, for the first time, I am asking the good citizens of the county for this responsible position.

My opponents are gentlemen

## Special Edition of the Ledger to be Issued About the 1st of April

The management of this paper has agreed to turn over to the missionary society of the Methodist church of this place one edition of the Ledger. All the profits of this edition will go into the treasury of this society, and it is the purpose to issue the paper about April 1st. It will be a paper of twenty-four or thirty-two pages the size of the regular issue of the Ledger and will be largely devoted to history of local churches, societies, schools, lodges, and contain much other matter of special merit, and will be worthy a place in any library for future reference. About five thousand copies will be printed and circulated, and the society is asking only regular advertising rates for space. Every local merchant should be represented in the edition as a matter of local pride. It cannot be a source of any profit to the Ledger, as every dollar of revenue becomes the property of the society. Those who have contracted for space and those preparing articles for the edition should get their copy to the ladies in charge by March 15th.

in the broadest sense of the word. I am glad they have no faults (at least, known to me.)

If I am elected I do not expect to go into office on the demerits of other men. I will not raise myself up by pulling others down. My motto and experience in public life has always been to treat the high and little, young and old, rich and poor, alike.

I was born and reared on a farm. Under many adverse circumstances I finally qualified myself and near sixteen years ago and since have held a first class certificate in Kentucky since then. I have worked on the farm six months in the year and in my humble way worked in the school room near the other six.

The pleasant associations of the past with the public, and the fond hopes of the future prompts me to ask all men to search my public record; If you find me worthy, give me your vote and a kind word.

If elected, I promise all, honest service alike and that no man shall have cause to regret his vote. Then the cherished ambition of my life will be satisfied. Respectfully,

S. L. EVANS.

You Won't See It Again.

Here is a bit about the moon that is given out in time for everybody to keep tab on it. February, 1915 passed without having a full moon, a thing that has not happened since 1866 and that will not happen again until 2,500,000 years from February. The moon in January was full on the 1st and 30th. In March it will be full on the 1st and 31st and that cuts off any possibility of February having a full moon. It is an odd combination of circumstances. If there is anything in signs, 1866 was a peace year after a big war.

## DOGS "TREED" IN COURT HOUSE

Blood hounds were brought to Murray from Paris Thursday to trail the thief or thieves that entered the L. M. Overby & Co. store Wednesday night when \$5 in money and a considerable quantity of goods were stolen.

The dogs were brought here in an automobile, arriving about 10 o'clock a. m. They readily took a trail and started out North Curd street and on out the Wadesboro road to the Melugin place, thence across to the railroad and back to the negro cabins along the right-of-way north of the depot. After trailing there a while they came up the street and went to the court house and into the basement. The only person in the basement at the time was Hazel Ingram, colored. No arrests have been made at this time.

## THE ALLIED FLEETS STORM INNER FORTS

THE OUTER FORTS AT DARDANELLES ENTRANCE ARE DESERTED.

### 20 WARSHIPS OF ALLIES

Paris War Office Statement Claims Enemy Sprayed Trenches With a Burning Liquid, Necessitating Abandonment.

London.—Twenty warships of the allied fleet entered the Dardanelles and bombarded the inner forts, according to a dispatch from the Athens correspondent of the Exchange Telegraph company.

After having completed the destruction of forts at the entrance of the Dardanelles, the allied fleet of British and French warships, the greatest which has ever been in action, attacked the inner forts, which heretofore stood between Turkey and invasion by the sea.

Apparently the outer forts could not withstand a great bombardment, and when they had been leveled and deserted by their defenders, men were landed from the ships to complete the work of demolition, while mine sweepers cleared a passage for ships in the straits.

Paris.—The war office gave out this statement:

"Our artillery in the Argonne exploded an ammunition depot near St. Hubert. In the wood near Melincourt, between the Argonne and the Meuse, the enemy again sprayed one of our advanced trenches with burning liquid, necessitating abandonment of the trench, the occupants of which were seriously burned. A counter-attack immediately checked the Germans, who suffered losses, including a number of prisoners.

"In the region of Verdun and on the heights of the Meuse, our heavy artillery wrecked some German guns, exploded about 20 ammunition wagons, annihilated a detachment and destroyed an entire camp. In the Bois Brule the battle continues to our advantage."

London.—The Russian offensive operations appear at the present time to extend along their whole front—an indication that they have brought strong reinforcements into the field. They have checked the German advance in North Poland, where the Germans are reported in retreat, and the recapture of Przrasny after severe fighting has given them an excellent pivot point from which to carry on further operations.

All the Petrograd correspondents refer to the capture of a large number of Germans as a new phase of the war, and credit it to a lack of officers among the German armies and the large number of young, untrained men drafted into them.

The Russian offensive extends to what is now known as the Buzza-Rawka front, where they successfully opposed Field Marshal von Hindenburg's attempt to advance on Warsaw in December and January.

### THREE SHIPS ARE DAMAGED

Official Report on Bombardment of Dardanelles Declares Battleships Were Damaged.

Constantinople, via London.—Three warships of the allies were damaged in the bombardment of the Dardanelles Feb. 25, according to announcement at Turkish army headquarters here. The text of the announcement follows:

"Ten big armored vessels Feb. 25 bombarded the Turkish forts at the Dardanelles for seven and a half hours. At the conclusion of this operation they retired in the direction of the island of Tenedos.

"One ship of the Agamemnon type and two other armored vessels were damaged by the fire from the forts on the Asiatic side of the straits."

### NOT OPPOSED TO OPEN DOOR

Wants China to Attain Real Dignity of Independence.

Tokyo.—The Japanese premier, Count Okuma, said that in presenting his demand to China, Japan had no intention of trespassing on China's rights or interfering with the open door policy. Japan's desire, he said, was that China should attain the real dignity of independence and not fall prey of any nation. Count Okuma's remarks were made to Prof. Shaller Mathews of Chicago and Prof. Sydney L. Bullock of New York as they were taking leave of the premier.

### May Stop All Shipping.

London.—Great Britain, France and their allies have advised neutral countries that they hold themselves at liberty to stop all shipping to and from Germany and the countries of her allies. Public announcement of this action is expected at any time. The text of the declaration will set forth that this decision is necessary because of the German submarine attacks, but that Great Britain and France will respect the lives of crews and passengers in any stops they take.

## WARSHIP STRIKES A MINE

Was Acting as Convoy For Boats Carrying Provisions for Montenegrins.

Paris.—The destruction of the French torpedo-boat destroyer Dague in the Adriatic sea is announced by the French ministry of marine. The official announcement follows:

"The French torpedo-boat destroyer Dague, while escorting a convoy with provisions for Montenegrins, struck an Austrian mine off the port of Antivari (Montenegro) and sank.

"Thirty-eight of the crew disappeared. The accident did not hinder finishing the work of provisioning and the return of the convoy.

The French cruiser Desaix made a demonstration against Akabah (Arabia). A landing party, aided by the ship's cannon, dispersed and put to flight a small band of Turks occupying the village."

### BERLIN ADMITS A CHECK

German Men Make Successful Stand on Northern Rivers—Italy's Attitude Accentuated.

London.—A report from Berlin says that further obstacles have arisen to prevent the invasion of Russia and this would seem to confirm reports from Petrograd that the Russians are making a successful stand against the invaders along their fortress line on the northern rivers.

The Russians, from all accounts, are holding back the Austrians in Bukovina and it is stated in official dispatches that they have re-occupied the important railway center of Stanislau.

There has been little or no change in the Carpathians where grim fighting has been going on for two months. In the west the region around Perthes and the Vosges apparently are the only centers of fighting of importance. Significance is attached by military circles to operations near Perthes, as a successful French offensive there would relieve Rheims.

The campaign northwest of Verdun has a similar object in view, the French hoping to drive the Germans into the Meuse, which has been strongly fortified, and thus deliver a fatal blow to the German plans for capturing Verdun.

According to a Berlin dispatch concern in that city regarding the attitude of Italy has been greatly accentuated. Nothing is known in London as to any changes in the Italian policy, except reports that the neutrality party has been gaining adherents, particularly among business men, who are doing so well out of the war that they do not desire Italian participation.

### SECOND WEEK OF BLOCKADE

Small Vessels Rent in Twain By Explosion Under Hull—Sailor Is Killed.

London.—The second week of the German blockade of the British Isles by submarine and mine opened with reports showing two other British vessels had been sunk.

They are the small steamers Western Coast and the Deptford. The Deptford went down within twenty minutes after an explosion rent her in twain, off Scarborough in the North Sea, and the Western Coast was destroyed in the English channel, off Beachy Head. One sailor, the carpenter of the Deptford, was killed and the other fifteen members of the crew were landed at South Shields. The entire crew of the Western Coast was landed safely at Portsmouth.

A wireless dispatch received here from Berlin says dispatches from North Sea ports say the Norwegian steamer Oria, when coming through the English channel recently, sighted floating wreckage in which were British military uniforms. It was supposed this clothing was from a British transport which had been sunk.

### THE GERMANS LOST 50,000

French Expert Says Position of the Russians Is Very Strong.

Paris.—At least 50,000 men were lost by the Germans in their attack on Russian positions on the Rawka river and in the regions of Borjmov and Gumbin, according to Ludovic Naudeau, the Journal's correspondent, who witnessed the operations. He considers the general situation highly favorable to the Russians.

"The Germans are being gradually but implacably worn down," he says. "Whether they attack or merely defend themselves, their armies melt away from day-to-day. Their feverish activity and frightful sacrifices show they realize they are fighting against time."

### Will Revoke Tax.

Mexico City.—The French minister was advised officially that the portion of the special tax of 20,000,000 pesos levied by Gen. Obregon which applies to foreigners will be revoked. Gen. Obregon's decree stated this money was to be used for the relief of the poor.

Americans in Mexico City, at a recent meeting, contributed a considerable sum of money for the assistance of the poor.

## ALABAMA HAS NEW CHILD LABOR LAW

RAISE OF TWO YEARS MADE IN THOSE EMPLOYED IN ALABAMA—BILL DRASTIC.

### OYSTER COMMISSION ENDS

Ref. Warden to Have Charges of Protecting Industry That Was Legislated Out of Existence—Alabama Commission Closes.

Montgomery, Ala.—Gov. Henderson affixed his signature to the Weakley child labor bill, which was passed by the legislature during its closing days. It prohibits the employment of children under 14 in any gainful occupation after Oct. 1, 1916, and any child under 13 until Oct. 1, 1916. It also prohibits the working of minors in any cotton mill more than 60 hours a week, 10 hours a day or six days a week.

The state prison inspection department will be charged with the enforcement of the law. Heretofore there has been no child labor statute relating to the employment of children in any public place except cotton mills, and the age limit in this instance was 12.

Under the new law a raise of two years is made. The Alabama oyster commission passed out of existence with the stroke of a pen in the hands of Gov. Henderson. In its place there will be a reef warden appointed by the governor, who will be charged with the enforcement of the law providing protection for the oyster industry.

In the future the oyster department will be a part of the office of the secretary of state, and that office will have supervision over the work of the reef warden.

### IS INCLINED TO ACCEPT

Proposal Allowing Foodstuffs to Go Through May Succeed—Opposition by Neutrals Responsible.

Washington.—Great Britain has submitted to her allies, France and Russia, proposals made by the United States, designed to settle the menace to neutral commerce arising from retaliatory measures of the European belligerents toward each other.

Briefly, the American proposals, submitted to both England and Germany, seek the elimination by Germany of the recent prescribed war zone, with its dangers to neutral shipping and the adoption by all the belligerents of a definite policy as to shipments of foodstuffs to the civilian population of their enemies.

From such preliminary observations as American diplomatic officials abroad already have made, there is said to be some encouragement in the manner of the reception of the proposals at London. Germany is inclined toward acceptance of the suggestions, it is understood, but on Great Britain's attitude depends the next move.

The strong opposition which other neutrals have assumed toward the retaliatory measures adopted by the belligerents is playing a considerable part in the situation. Although the American proposals have not been communicated to other neutrals, it may be said that virtually all the European neutrals are in accord with the Washington government.

### HEAVY SEAS SAVE SHIP

Extinguish Flames on Norwegian Oil Tanker La Habra.

San Francisco.—Heavy seas, which drenched her decks, saved the Norwegian oil tanker La Habra from destruction after her mail oil tanks and deck structures had been ablaze for three days, off Portugal, according to advices received here. While the fire was at its height five men put off in a lifeboat and were never heard from. Eighteen thousand tons of cargo, 500 tons of fuel, the structures amidships, the ship's papers and navigating instruments were destroyed.

La Habra departed from San Francisco for London Nov. 25. After the fire the vessel put into Fayal, Portugal.

### WATER SUPPLY IS RESUMED

Zapata Leader Relieves Drought at Mexico City.

Washington.—Col. Federico Cervantes, one of the Zapata leaders, the state department was informed, will permit the water supply for Mexico City to be resumed for the sake of humanity. The principal source has been cut off for some time by Zapata forces, who occupy the suburbs of the capital. Carranza authorities are rushing work on fortifications at Tampico.

### Wants National Board.

Cincinnati, O.—C. A. Prosser, of New York, secretary of the National Society for Promotion of Industrial Education, declared before the department of superintendence of the National Education Association that a nationwide system of industrial education is necessary to the economic prosperity and supremacy of the country. Governor Wood of Ohio, he contended, and regulation of the employment and training of the youth in industry is necessary to this nationwide system.

## R. R. MONOPOLY IS ALLEGED

The Interstate Commerce Commission Makes Its Report to the Senate.

Washington.—The Interstate Commerce commission's report on its investigation of the finances, rates and practices of the Louisville & Nashville and allied railroads, sent to the senate charges the Louisville & Nashville with acquiring competing lines and with carrying on for years at a cost of millions of dollars, elaborate political and publicity campaigns, to eliminate competition and influence public opinion.

Further inquiry, and, if possible, inspection of the railroad's correspondence, was said to be necessary. The report was written before the supreme court handed down its opinion holding that the commission was without power to force the company to submit its correspondence as well as its records and books to scrutiny.

The investigation was directed in a senate resolution mainly to discover whether the Louisville & Nashville, through control of the Nashville, Chattanooga & St. Louis railway and smaller lines had restrained competition; whether the one-time control of the Louisville & Nashville by the Atlantic Coast Line railroad operated to the same end in a wider field and what amount of money the Louisville & Nashville and related roads have contributed in blocking the entrance of competing roads, through political agents or through public sentiment favorable to their cause.

In all these questions the commission gives an affirmative answer. It qualifies its declaration that the Louisville & Nashville wilfully restrained competition by pointing out that in some instances it was trying to meet the competition of other large systems.

In the recital of political activities of the roads, the commission announces its inability to set forth all the money these carriers may have expended in political and publicity work, but the items which its investigators discovered and which it has placed in the report under the head of political contributions run into the millions. In connection with the Tennessee Railroad association, formed by carriers in 1884 to combat adverse legislation in Tennessee, the report is specific in its allegations.

### PLAN FOR AMERICAN LEGION

To Be Composed of Former Army, Navy and Militia Men—Reserve Volunteers.

New York.—Formal announcement was made here of the formation of an organization of first reserves to be known as the American Legion, to be composed of former army, navy and militia men, which will better insure the nation's preparedness in case of war.

Capt. Gordon Johnston, aide de camp of Maj. Gen. Leonard Wood, made the announcement on behalf of a group of army and navy men acting in an unofficial capacity with civilians in promoting the movement. Capt. Johnston said it was planned to establish within a short time a first reserve of between 250,000 and 300,000 former army and navy militiamen for instant call in case of emergency.

Maj. Gen. Wood has given the plan his unofficial endorsement and former President Roosevelt has written a letter approving the proposal. Numerous other public men have endorsed the project and a statement by the promoters says that former secretaries of war and of the navy have agreed to act in an advisory capacity.

Asserting that he and his four sons will become members of the legion, Col. Roosevelt in a letter to the organizers says in the event of war he intends to ask Congress for permission to raise a division of cavalry. Mr. Roosevelt's letter, in part, says: "I and my four sons will gladly become members. I very earnestly hope and pray that there will be no war; but the surest way to avert war is to be prepared for it; and the only way to avert disaster and disgrace in war is by preparation in advance."

### NEW USE FOR POTATOES

If Wheat Remains at Present Price Suggestion Is Made.

Washington.—"If wheat remains at its present figure or continues to rise in price and if there is a corresponding increase in the price of bread, scientists in department of agriculture suggest that the ordinary household will find it advantageous to eat more potatoes and less bread," says a statement issued at the department.

With potatoes at 60 cents a bushel, 10 cents worth—or 10 pounds—will give the consumer a little more actual nourishment than two one-pound loaves of bread at five cents each. It prices change sufficiently to make it desirable from a financial point of view, there is no scientific reason why potatoes should not be substituted to a great extent for bread.

## TWO MILLIONS ON GOOD ROADS

BETWEEN 800 AND 1,000 MILES OF ROADWAYS WILL BE CONSTRUCTED IN KENTUCKY

### UNDER EXPERT SUPERVISION

Sixty-Three Counties Already Have Asked for State Aid in Work—Through Routes Planned.

(Special Frankfort Correspondence.)

Frankfort.—Kentucky will spend approximately \$1,700,000 on her public highways this year under the state aid plan, and construct or permanently improve between 800 and 1,000 miles of main traveled highway, providing so much is possible of accomplishment within the time limit of working days. This means the amount stated will be spent and the miles estimated will be improved according to plans and specifications furnished by skilled engineers of the state road department, the contracts will be approved by Commissioner of Roads R. C. Terrell and engineers from his office will inspect and supervise the work before the money is paid for it.

The amount is easily calculated. The state road fund will amount to \$600,000; the counties must raise and expend on construction an equal amount to get the state aid and Bell county has voted \$250,000 in bonds; Greenup \$200,000, and Lewis \$150,000.

Opening Up Kentucky.

It is a vast engineering project, comprehending first by preference of the act of 1914, inter-county seat and state line roads. Sixty-three counties already have asked for state aid in varying amounts, and the routes selected by them have conformed in many instances to through automobile routes, that will open picturesque and historic Kentucky to tourists from all over the country. The immediate revenue from passing auto traffic and attention attracted to Kentucky from the outside are easily appreciated if not appraised.

According to the requests from various county authorities that have conferred with one another before filing their applications, or, as in most instances have been brought together by Commissioner Terrell, a route will be opened from Cincinnati through the Blue Grass and over the old Wilderness Trail, or Boone Way, through the mountains and Cumberland Gap into Virginia's magnificent improved highway system that leads to the South Atlantic Coast. Another route out of Cincinnati leads eastward along the Ohio and up the Big Sandy into Pike. Yet another, turning from the route in the heart of the Blue Grass, carries the tourist along the Kentucky river highlands, via the Capital, to Louisville, where they strike the Lincoln homestead in Larue and extends on to Nashville. By branch routes is reached the Jefferson Davis Way through Todd county, the Pennyroyal and to the furthest confines of Jackson's Purchase. Another route extends from the Tennessee border through the Pennyroyal northward to Henderson and thence into Indiana.

Picturesque Routes.

Taking them in order, the first route leads out of Kepton county through Grant, Scott, Fayette, Jessamine and Garrard. From Fayette a route will be through Madison to the Boone Way, and Lincoln, Rockcastle, Laurel, Knox and Bell have asked for state aid along the inner-county highway corresponding to this route.

From Campbell county, another route runs through Pendleton, Bracken, Mason, Lewis, Greenup, Boyd, Lawrence, Johnson, Floyd and Pike to Pound Gap. From Lexington to Louisville the route is well known, while the Lincoln-Jackson Way runs to West Point, thence to Elizabeth town, with a side trip to the Lincoln Farm, Munfordville, Glasgow, Scottsville and to the Tennessee line in Allen. From this route a branch leads to Bowling Green, where the Jefferson Davis Way is struck, passing through Russellville, Elkton, the Jefferson Davis homestead, Cadiz, Benton and Paducah.

Wild Cat Caught in Game Preserve.

Kentucky's new game preserve in Pine mountain produced a 45-pound wild cat, that stepped into a trap baited with a dead deer. The warden sent a hind foot of the cat to the office of the game and fish commission. One of the recently acquired deer was hurt on the trip from Michigan and died. Tracks of the wild cat were found, and as it was a menace to the fawns, the deer was dragged to the trap and the wild cat fell prey to its hunger.

Big String of Fish Caught.

Tom Thomason and Walter Overton, who rank among Frankfort's most enthusiastic and successful fishermen, returned to the city after a day spent on the river at the mouth of Glens creek, with a string of 28 fish, averaging 1/2 of a pound each, some of them, weighing 1 1/2 pounds. The catch would have been considered a splendid showing even at the height of the fishing season and is more remarkable from the fact that up to this time the only fish of any consequence have been taken from Benson creek.

## 15 CENTS ON THE DOLLAR

\$100,000 Loans and Discounts Prove To Be Worthless.

Central City, Ky.—The deeper the probe is sunk into the affairs of the Central City Deposit bank, which closed its doors, the worse the situation becomes, and from present indications the depositors will be lucky if they get 15 cents on the dollar. Each day more and more of the assets are found to be worthless. It is probable that of the loans and discounts of more than \$147,000, at least \$100,000 will be found worthless. As these loans and discounts are all of the assets, with the exception of the banking building and fixtures and less than \$1,000 in cash, the extent of the failure can be guessed. Already of these notes about \$20,000 have been pronounced forgeries and nearly \$100,000 more are notes which the makers sweat were either paid or renewed, but not canceled, and continued on the books as an asset. Of the \$147,000 in Paper, about \$80,000 has been pledged in the Southern National bank of Louisville to secure loans amounting to about \$22,000.

WILL MEET IN LOUISVILLE.

Executive Committee of Bankers' Association Will Gather on March 10.

Louisville, Ky.—Announcement was made today by Arch Davis, secretary of the Kentucky Bankers' Association, that the Executive Committee will hold its annual meeting at the Seelbach, March 10, at which time the place of holding the annual meeting will be fixed. An invitation to hold the convention in Louisville will be extended by the Louisville Clearinghouse Association and the Louisville Convention and Publicity League. Last year's convention was held in Lexington. The convention usually brings together between 600 and 700 Kentucky bank presidents and members of their families. W. C. Montgomery, of Elizabethtown, is chairman of the executive committee, and President M. J. Stoll, of Lexington, is an ex-officio member. The other members are P. T. Dickinson, Glasgow; W. F. Bradshaw, Paducah; C. N. Manning, Lexington; H. C. Sharp, Maysville; M. M. Waller, Morgantown; George P. Archer, Prestonsburg; John H. Welsh, Nicholasville; A. M. Larkin, Newport.

## FIFTY MILLION FEET OF TIMBER

Will Be Cut in Large New Mill at Lombard, Ky.

Winchester, Ky.—According to H. Green Garrett, state railroad commissioner and general manager of the big Broadhead-Garrett lumber interests in the Kentucky mountains, the new mill at Lombard, which will be the largest ever constructed in the Kentucky mountains, will start the first week in March. The company will use this mill to cut up the 50,000,000 feet of timber recently purchased on the head waters of Red river and said to be one of the very few remaining tracts in the Kentucky mountains of such dimensions.

## SONS OF REVOLUTION ELECT.

Lexington, Ky.—The annual election of the Kentucky Society, Sons of the American Revolution, resulted in the selection of Edward Bassett as president, the re-election of President Emeritus Otis Seth Tenney, the oldest Son of the Revolution in America, and the following additional officers: First vice president, John R. Allen; second vice president, James A. Todd; treasurer, Gen. W. R. Smith; secretary, O. H. H. Harrison; registrar, J. Craig Shelby; chaplain, the Rev. Charles Lee Reigold; historian, Judge Samuel M. Wilson; Board of Managers, Desha Breckinridge, John T. Shelby, W. E. Estill, C. B. Ross, W. R. Smith, John R. Allen, W. A. McDowell, W. E. Barron and James A. Todd, Dr. C. C. Riske, of Shelbyville, and William Perry Drake, of Lexington, were elected to membership.

## ARE TO BUILD A MODEL ROAD.

Carlisle, Ky.—Arrangements are being made to build a model road from Sharpshurg to Carlisle via East Union during the coming spring and summer. Plans to that end are now under way on the Bath county end of the road, and it is said that considerable money has already been raised by subscription in Nicholas county for the enterprise.

## MULES ARE BECOMING SCARCE.

Somerset, Ky.—Pullaski county mules, as a rule, do not measure up to the requirements of these foreign powers now engaged in war. This was demonstrated when a buyer of this class of stock canvassed the county. He has purchased several hundred mules for the French army, but in this section they are found to be very scarce.

## GAME PRESERVE IS SECURED.

Winchester, Ky.—Several local sportsmen headed by Col. A. R. Sphar have secured from State Game Warden Quincey Ward a number of ring-necked pheasants, which will be used on a game preserve in this county in the hope of replenishing the depleted hunting grounds in this vicinity. On the farms of Mr. Sphar and one or two others there are about 1,200 acres and these will afford ample breeding grounds for the new shipments of pheasants as well as quail.

## INDORSE GIRLS' DETENTION HOME

Women's Federation Directors Hear Reports for Segregation of Epileptics and Feeble-Minded.

Louisville, Ky.—Directors of the Kentucky Federation of Women's Clubs, in session here, indorsed the movements for woman suffrage, segregation homes for epileptics and the feeble-minded, and a detention home for girls.

The executive board met and adopted a resolution, introduced by request of Mrs. James A. Leach, instructing the legislative committee to do everything possible to aid in putting suffrage measures through the next legislature. The board indorsed Mrs. Leach for membership on the board of directors of the National Federation. Directors of the Kentucky Federation met and indorsed the actions of the executive board. Mrs. Leach spoke on the division of the state into districts, saying the results were highly satisfactory. District meetings drew many persons who could never attend state meetings, she said, and interested many additional women in the work of the federation.

Mrs. Helen Bruce, in her report as first vice president, urged the need of a detention home in Louisville for girls and "segregation homes for epileptics and feeble-minded men and women, and praised the work of the Kentucky illiteracy commission. Her report was indorsed. Mrs. Cora Wilson Stewart gave a report of the Third district meeting, held at Paris. Miss Frances C. Simpson, chairman of the educational committee, reported Kentucky was leading all states in a movement for stamping out illiteracy, and that other states were sending here for literature and advice. Mrs. J. H. Dickey was empowered, by resolution introduced by Mrs. Charles S. Neid, to investigate the matter of the establishment of a state organ.

## SEVENTY-ONE SALOON LICENSES ASKED FOR.

Revenue To the City Will Be \$15,000 Greater Even if 21 Saloons Drop Out.

Lexington, Ky.—Seventy-one of the 121 saloonkeepers of Lexington have filed application with City Clerk James J. O'Brien for a renewal March 1, of their spirituous, vinous and malt liquor licenses. Clerk O'Brien estimates there will be at least 100 saloonkeepers who will renew their coffee house licenses. Beginning March 1, the coffee house license will advance from \$500 per annum to \$750. The 121 saloons now pay into the city exchequer \$60,500, and at the increased rate, with 100 saloons doing business, the license money collected will be \$75,000.

## BORROWS FROM RESERVE BANK.

Lexington, Ky.—Under the direction of Commissioner K. G. Pulliam, of the department of finance, City Solicitor James G. Denny and City Attorney J. Embury Allen have prepared the necessary papers and ordinance for the city to borrow from the Cleveland Reserve bank the sum of \$170,000 in anticipation of the first half of the 1915 city taxes. The papers embodying the specifications under which the money may be procured were sent here several days ago and were carefully gone over by Commissioner of Finance Pulliam, who became convinced that the loan would be a good thing for the city and would mean a considerable saving to the municipality in the way of interest.

## BLUE GRASS BRIEFS

Lexington, Ky.—This city will have a style show the week of March 22d to 27th. It will be in charge of the retailers' organization.

Mt. Sterling, Ky.—The Montgomery fiscal court has decided to ask the state for an appropriation of \$3,000 and has appropriated a similar amount for a model road.

Louisville, Ky.—Final steps have been taken in a deal by which the distilling concern of W. L. Weller & Sons, the oldest whisky house in Kentucky, and the firm of Frost Bros will consolidate.

Lexington, Ky.—Under amended articles of incorporation filed here the Kentucky Union Co. reduces its capital stock from \$500,000 to \$450,000 and its stock from \$10 to \$9 per share. The company owns a number of coal and timber properties in Eastern Kentucky.

Georgetown, Ky.—The entire official board of the Georgetown Christian church has resigned. The pastor, Rev. M. B. Ainsworth, resigned last December, and the church is thus left for the present, at least, without any head, leadership or organization to conduct its affairs.

## MORGAN BUYS \$7,500,000 BONDS.

Lexington, Ky.—Another step in the contest for the control of the Eastern Kentucky coal fields, which was begun several weeks ago when the Baltimore & Ohio Railroad Co. filed a mortgage in Whitesburg, Letcher county, for five million dollars to cover its intended operations in that territory, was taken in New York when the Louisville & Nashville Railroad Co. contracted to sell to J. P. Morgan & Co. \$7,500,000 of the bonds of the Lexington & Eastern railroad.

## CALOMEL MAKES YOU SICK, UGH! IT'S MERCURY AND SALIVATES

Straighten Up! Don't Lose a Day's Work! Clean Your Sluggish Liver and Bowels With "Dodson's Liver-Tone."

Ugh! Calomel makes you sick. Take a dose of the vile, dangerous drug to night and tomorrow you may lose a day's work.

Calomel is mercury of quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, causes it to break into pieces. This is when you feel that awful nausea and "all knocked out" if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour. Just try a spoonful of harmless Dodson's Liver-Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver-Tone. Take a spoonful tonight and if it doesn't

straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver-Tone is destroying the safe of calomel because it is real liver-medicine! Entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver-Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver-Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

## NO CHANCE TO WIN GLORY

Youthful Recruit Found He Was Not Adapted by Nature for a Drummer Boy.

The irreverent man had been aroused by talk of the war to tell an anecdote, and those about him really thought that the gravity of the subject would make him reverent this time. He said:

"At the time of the Spanish-American war I was a boy at school. I was fired with tremendous patriotic zeal. I decided to steal away unbeknownst to my parents and enlist as a drummer boy. You see, I was old enough for that, and I was a robust young fellow, as I expected no trouble at all with the military authorities."

"So, instead of going to school tomorrow, I hurried to a recruiting station and told the officer in charge that I wanted to be drummer boy."

"Ah, me! Though years have passed, it is still an awful memory. He sighed. Those listening were much impressed."

"Didn't they take you on as a drummer boy?" they inquired.

"No," he groaned.

"Why?"

"Because—because I had no ear for music!"

## The Zealous Youth.

The Employer—If my wife calls up say that I have just gone out.

The Office Boy—Yes, sir, I'll say it every time she calls up.

The Employer—You mustn't do that. My wife would have a poor opinion of your truthfulness.

The Boy—Yes, sir; she has it now.

The Employer—What do you mean?

The Boy—Why, she called up this morning and asked me if I was the new boy. An' I said, "Yes, ma'am." And she said it was no place for a truthful boy. She said you had no use for a truthful boy. Then she said, "Did you ever tell a lie?" And I said, "No, ma'am."

"And what did she say?"

"She said, 'You'll do!'"—Cleveland Plain Dealer.

## Precaution.

Nodd—You don't mean to say you keep a diary?

Todd—Not quite so low as that. I'm just looking up to see what day I was married. This year I propose to pass a safe and sane wedding anniversary.

## MAY BE COFFEE

That Causes all the Trouble

When the house is afire, it's about the same as when disease begins to show, it's no time to talk but time to act—delay is dangerous—remove the cause of the trouble at once.

"For a number of years," wrote a Kansas lady, "I felt sure that coffee was hurting me, and yet I was so fond of it, I could not give it up. At last I got so bad that I made up my mind I must either quit the use of coffee or die."

"Everything I ate distressed me, and I suffered severely most of the time with palpitation of the heart. I frequently woke up in the night with the feeling that I was almost gone—my heart seemed so smothered and weak in its action. My breath grew short and the least exertion set me panting. I slept but little and suffered from rheumatism."

"Two years ago I stopped using the coffee and began to use Postum and from the very first I began to improve. It worked a miracle! Now I can eat anything and digest it without trouble. I sleep like a baby, and my heart beats strong and regularly. My breathing has become steady and normal, and my rheumatism has left me."

"I feel like another person, and it is all due to quitting coffee and using Postum, for I haven't used any medicine and none would have done any good as long as I kept drinking with coffee." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pages.

Postum comes in two forms: Regular Postum—must be well boiled—15c and 25c packages. Instant Postum—Is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious, and cost per cup about the same. "There's a Reason" for Postum. —sold by Grocers.

## TOO MUCH FOR TENDERFOOT

Discovery That Western Life Was Not What He Had Anticipated Proved Fatal.

"Tough luck about the last tenderfoot that struck town," said Chuck wagon Cal.

"What happened to him?"

"Well, you know he come out here in fear and tremblin', thinkin' some cowpuncher here in Cactus Center was sure goin' to shoot at his feet and make him dance."

"Yes."

"And likewise he was sure some body was goin' to git him on the hurricane deck of a pitchin' boss and bust his neck."

"Uh-huh."

"And he was dead sartin that the first time he stepped out on the street some frolicsome blade was goin' to rope him and drag him half a block jest for fun."

"Of course."

"Well, none of them things happened, and we buried him today—jest natchelly killed by the shock of disappointment."—Judge.

True wisdom never thinks itself wiser than it really is.

## Uric Acid in Your Food

Even dogs can eat too much meat. Certainly, many people "dig their graves with their teeth." Few get enough exercise to justify a meat diet, for meat brings uric acid. The kidneys try hard to get rid of that poison, but often a backache, or some other slight symptom will show that the kidneys need help. The time tried remedy, there, is Doan's Kidney Pills.

## A Mississippi Case

W. H. Punderbark, R. F. D. No. 1, East man, Miss. says: "My kidneys were disordered, my health was run down, my feet and ankles ached, my normal size and my weight was shot and dry. My sight was dim and I often wished that death might come and my misery end. My doctor prescribed six boxes of Doan's Kidney Pills restored me to good health and I can't be too grateful."

## Sprains, Bruises, Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof

Charles Johnson, P. O. Box 108, Lowen's Station, N. Y., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window at midnight ago. I went on crutches for four months, then I started to use some of your Liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your Liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

Court of Calloway County, subject to  
the action of the Democratic pri-  
mary, August, 1915.

We are authorized to announce  
COLUMBUS W. ADAMS  
as a candidate for the Democratic  
nomination for clerk of the circuit  
court of Calloway county, subject to  
the action of the Democratic pri-  
mary, August, 1915.

### For Circuit Judge.

We are authorized to announce  
HON. J. T. HARRIS, of HOPKINS-  
VILLE, KY.,  
as a candidate for the Democratic  
nomination for judge of the Third  
circuit court district of Kentucky,  
subject to the action of the democra-  
tic primary, August, 1915.

### For Representative.

We are authorized to announce  
T. RAFE JONES  
as a candidate for the Democratic  
nomination for representative from  
Calloway county, subject to the ac-  
tion of the Democratic primary, Aug-  
ust, 1915.

## CALLOWAY'S WEALTH.

"I said in my haste, all men are liars."  
—Psalm 116:11.

After you have read this arti-  
cle and reviewed the table show-  
ing the taxable wealth of Cal-  
loway county, we believe that you  
will agree that, had the  
Psalmist deliberated at length, he  
would have reached a similar  
conclusion to the above.

There is published in this is-  
sue of the Ledger a recapitula-  
tion of Calloway's taxable wealth  
as shown by the final supervi-  
sion of the assessor's books as of  
date Sept. 1st, 1914. This arti-  
cle is worthy the attention of all  
taxpayers, and will be a source  
of much information to most of  
the people of the county.

When David, the poet laureat  
of divine law, made the above  
declaration he was evidently  
looking down the avenue of time  
with a prophetic eye and saw  
the present generation of men  
listing their property for taxa-  
tion, that they might "render  
therefore unto Caesar the things  
which be Caesar's," by which all  
revenues are collected for their  
government, embracing every  
branch and vocation of life.  
What a travesty upon truth and  
integrity is here shown. Men  
who would resent as insult the  
lie if given direct, making false  
statements to a tax assessor and  
doubly perjuring themselves in  
the statement, cheating and de-  
frauding their state, county,  
schools and towns of a revenue  
to which they are justly entitled.

Review the figures, not all of  
them, but just a few and see if  
these charges are justifiable.  
The total amount of cash on de-  
posit with the Calloway county  
banks last September, according

to the assessor's books, was only  
\$186,301. How near the truth  
do you consider these figures?  
The Citizens Bank, of this city,  
and the Bank of Hazel had on  
deposit the first of last Novem-  
ber, according to the statement  
issued by the state banking com-  
missioner when these institu-  
tions closed, a sum considerably  
in excess of the amount listed  
for taxes, in fact these two in-  
stitutions showed total deposits  
amounting to \$155,789.23, while  
the Bank of Murray, Farmers &  
Merchants Bank, Bank of Kirk-  
sey and Lynn Grove Bank show-  
ed total deposits amounting to  
\$424,520.18, making a grand to-  
tal on deposit in all banks at that  
date of \$580,310.47. Deducting  
\$136,310.00 listed for taxation  
from the total amount on deposit  
in all the banks, we have a bal-  
ance of \$444,000.47 in actual  
cash that escaped its just burden  
of the cost of government. David  
wasn't so far wrong after all,  
was he? Had this money  
been taxed for county purposes  
at the rate of 50 cents on the  
hundred it would have produced  
a revenue of exactly \$22,000, or  
\$3,765.04 in excess of the total  
tax collected last year for the  
general expense fund of the co-  
unity. What do you think of that?

The poor devil who owns a little  
patch of ground about the size  
of a bed sheet, plastered over  
with a mortgage, and other ear-  
thly possessions consisting of one  
sow pig, a bull yearling, a blind  
mule, nine young 'uns and a hound  
pup really comes near bearing  
the burden of the load after all,  
doesn't he?

The list is replete with similar  
evasions. All the diamonds in  
the county are worth but \$737.  
All the stocks of merchandise,  
including all store fixtures in the  
125 stores in the county, were  
only worth the measly sum of  
\$171,125, while the 1,242 town-  
lots were worth, including all  
improvements, only \$734,839. As  
evidence that Calloway folks are  
not burdened with indebtedness,  
on open account, is shown by  
the fact that they owe only the  
paltry sum of \$53,987, that much  
being listed for taxes. All notes  
secured by mortgage amounted  
to the small sum of \$170,598.  
And thus the items run through-  
out the entire list.

Calloway property that escapes  
taxation would pay the court  
house bond indebtedness every  
year and leave a neat surplus  
besides, or would pay a road  
bond issue of \$100,000 every two  
years. There is sore need of  
remedy in our revenue laws and  
it is a question that should com-  
mand the studied and serious at-  
tention of our legislators. Hidden  
wealth should be compelled to  
pay its share of the burden,  
and assessors should be given  
access to every means that will  
enable them to discover such  
wealth. A law requiring the  
publication of every list in the  
county would be a source of con-  
siderable embarrassment to many  
but would in a large measure  
remedy the existing condi-  
tions. The Ledger is seriously  
considering the advisability of  
publishing the entire list this  
year for the benefit of the public.

The Mayfield circuit court was  
opened last Monday with prayer.  
According to the Messenger  
Judge Platt, in his charge to the  
grand jury touching the lynch-  
ing of Tom Tinker, said: "I do  
not doubt but what he deserved  
the death penalty, but can you  
uphold the act committed by  
this band of unknown men. The  
prison board will parole a man  
and if there is to be any criti-

## Asthma-Catarrh and Bronchitis

Can Be Greatly Relieved by the New  
External Vapor Treatment.

Don't take internal medicines or habit-  
forming drugs for these troubles. Vick's  
"Vapo-Rub" Salve is applied externally  
and relieves by inhalation as a vapor and  
by absorption through the skin. For  
Asthma and Hay Fever, melt a little Vick's  
in a spoon and inhale the vapors, also rub  
well over the nasal column to relax the  
nervous tension. 25c, 50c, or \$1.00.

claim it is to that law and not the  
juries. It was unsafe to have  
had that man turned loose on so-  
ciety. Evidently the mob that  
hung Tinker agreed with the  
judge, and as convincing evi-  
dence that Tinker will no longer  
tinker with property not his own,  
he was summarily jerked to king-  
dom-come, and an obliging pho-  
tographer pictured the work in  
order that the deed might be  
preserved to posterity. It would  
be in order to close that court  
with a solemn benediction.

Get busy. A chance to obtain  
state aid in road building and  
give our needy people work.  
Will our county officers act?  
Calloway Times of this week.

Well, well, well. Just woke  
up and the band wagon is almost  
out of sight. Somebody ought  
to send Uncle Billie the Ledger  
for the next year anyhow. Dang  
we don't cut the price to 23  
cents if someone will pay the  
bill for him. Just hate to see a  
fellow grow up in absolute ig-  
norance of what is going on  
right here at home.

When the announcement of  
Hon. H. V. McChesney, of Frank-  
fort, is made for the democratic  
nomination for governor watch  
the little fishes seek shelter in  
the crawfish holes near the  
banks. Harry is a first district  
man, a native of Livingston, and  
as sound as a dollar, 99-100 sup-  
erfine, all wool and a yard wide,  
and is certain to unravel a boast-  
ing braggart's chance for the  
nomination. Up and at it, Harry,  
the first and last trenches are  
yours for the scrap.

Maurice E. Gilbert, of Padu-  
cah, is a candidate for circuit  
judge in the district composed  
of the counties of McCracken  
and Marshall. Maurice is a Cal-  
loway product, and a brave son,  
or he wouldn't be tackling Judge  
Reed.

The Ledger sincerely hopes  
that the jar from the charge of  
dynamite in the Rickman joint  
in Benton last week did not loose  
the jaw of those belligerent par-  
sons of that good town for an-  
other attack on each other.

## "Me for 'GETS-IT' When I Have Corns"

Simple As Saying It; Never Fails.

It does your feet good to see how  
easily and quickly any corn comes out  
when you put "GETS-IT" on. And then  
when you've gone along for years trying

everything, when you've set up nights  
writhing up your toes in anguish,  
smearing on salve that rubs off or swells  
up the corn, putting on cotton patches  
that make corns pop-eyed, slaughtering  
your toes with razors, jabbing them with  
knives and prunings to the quick with  
poison, and then you put on 2 drops of  
"GETS-IT" and see your corn fall right  
off—why, it just looks like a miracle. Just  
try it. "GETS-IT" never fails. No pain,  
no trouble. Use it for any corn, callus,  
wart or bunion.  
"GETS-IT" is sold by druggists every-  
where, see a bottle, or sent direct by E.  
Lawrence & Co., Chicago.  
Sold in Murray and recommended  
as the world's best corn cure, by H.

## MCCHESNEY MAY BE A CONTENDER

Patience, which is merely a  
virtue in others, is a quality  
that enters into the character of  
a fisherman, and H. V. Mc-  
Chesney, of Frankfort, is one of  
the best fishermen in these parts.  
Also he continues to be much  
talked of as a likely candidate  
for the Democratic nomination  
for Governor; but with true re-  
gard for the ethics of his favor-  
ite pastime, he is not doing any  
of the talking. He smiles ex-  
pansively, but that does not dis-  
turb the fish.

Mr. McChesney's name was  
placed in the list of eligibles  
many months ago, when there  
were more candidates, active  
and prospective, than there are  
today. He has stumped the  
State in the last two years more  
thoroughly than any other man  
except Senator-elect J. C. W.  
Beckham, and he cheerfully con-  
fessed even then to the receipt  
of considerable correspondence  
anent the subject of the govern-  
orship from various parts of  
the State, particularly the First  
district, where he first saw the  
light, and was discovered politi-  
cally the year he was elected  
State Superintendent of Public  
Instruction. After that he was  
Secretary of State and there-  
after remained in Frankfort and  
calls this his home.

But while exposing the de-  
sires of his friends, he then, as  
now, concealed his own inten-  
sions behind a smile as enigma-  
tic as it is friendly. That Mr.  
McChesney has not told his  
friends he will not run is the  
only known quantity in the sit-  
uation as regards him; that he  
believes he hasn't lost any op-  
portunities while gaining in the  
dramatic effect of his entry by  
waiting until the people had be-  
come accustomed to the candi-  
dacy of opponents appears pro-  
bable, and that he may get in  
before long is not beyond the  
range of possibility.—Frankfort

## LIV-VER-LAX

All the Effectiveness, Not  
the Effect of Calomel.

LIV-VER-LAX is one of the  
most important medical discover-  
ies of recent years. For a long  
time medical experts, realizing  
the harmful effects of calomel,  
have been striving to find a liver  
cleanser that would be just as  
effective as calomel, and yet be  
absolutely harmless in its action.  
Recently this remedy was actual-  
ly put forth by L. K. Grigsby,  
in his LIV-VER-LAX.

LIV-VER-LAX is a harmless  
vegetable compound, designed  
solely for the treatment of liver  
complaints. The immediate fa-  
vor it has met with in thousands  
of homes is proof positive of its  
real value.

If you feel worn out, tongue  
coated, and skin sallow, don't  
delay until it becomes danger-  
ous nip the trouble in the bud with  
LIV-VER-LAX. Insist on the  
genuine, bearing the signature

## The Delinquent Tax List.

There are about 300 or 400  
persons who have not paid taxes  
and are reported delinquent.  
Their receipts are now in the  
hands of the several magistrates  
for collection. The names of all  
those who do not pay by April  
1st will be published in both  
county papers. Now get busy,  
see your magistrate and pay  
your taxes if you don't want  
your name published as delin-  
quent tax-payer. Adv. 343

Hanley Coleman, son of Sam Coleman, and Miss Lucy Parham daughter of Jas. Parham and wife, well known and popular young people of the Concord section of the county, were united in marriage the past week at the home of the bride's parents. They have many friends to wish them a long and happy wedded life.

Deputy Game Warden Cornwell, of Benton, was here this week and made arrangements with Sheriff Patterson to furnish this county with fifteen Mongolian or ring-neck pheasants. These birds will be liberated in sections of the county affording the most protection for breeding, and hunters are warned that a heavy penalty is attached for killing them. Calloway affords much fine breeding grounds for the birds and if they are not molested for several years will multiply at a rapid rate.

Ed Lillard, a well known citizen of near Dexter, died the past week after a lingering illness of consumption. He was about 43 years of age and is survived by six children. The burial took place in the Gordon grave yard after services by Rev. Pool.

Joe Parker has moved into his residence on West Price street, and Clint Broach has moved to his new home just west of the city limits. The Wells residence vacated by these parties, formerly the Love place, just north of the square, will be occupied by Mrs. Sale.

Winchester & Roberts last week sold several hogheads of very inferior leaf tobacco of the 1914 crop at \$7.50. A member of this firm stated to a Ledger representative that the tobacco was the very lowest grade of leaf and that the price received was very satisfactory.

Herman Gingles, of Arkansas, arrived in the city the first of the week to be the guest of relatives for some time. Mr. Gingles fell on the ice during the winter and sustained a broken leg and for the past several weeks has been a patient in St. Joseph's Hospital, of Memphis. For some time it was feared that he would lose the injured leg.

### To the Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of minor ailments and are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you'll find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.

### Settlement With Sheriff and Treasurer.

At a regular meeting of the fiscal court held last Friday and Saturday final settlements were made with Sheriff Patterson and Treasurer Gilbert for the fiscal year and a quietus was issued Mr. Patterson. The total amount of taxes collected by the sheriff for the year for the different funds are as follows:

Road and Bridge Fund \$11,381.24  
General Expense Fund 18,234.96  
Court House Fund 7,514.56  
School Fund 10,104.92  
State Tax, including Dog Tax 26,517.70

Total tax \$73,753.38

The treasurer's settlement together with amount of tax remitted by the sheriff to the state and county superintendent of schools showed the following expenditures and balance on hand Feb. 27:

Amount Road and Bridge Fund \$11,381.24  
Amount expended 6,670.92

Balance \$4,510.32

Amount General Fund \$18,234.96  
Amount expended 16,257.56

Balance \$1,977.40

Amount Court House Fund \$7,514.56  
Interest on Bonds 2,002.50

Balance \$5,512.06

Grand total balance \$11,999.78

Calloway has outstanding warrants against the general and road and bridge funds of approximately \$24,000. The bulk of these claims are for the court house furniture and small iron bridges bought during the administration of the preceding court. The sheriff's settlement showed about \$1,000 delinquent taxes for the year and these sums have been turned into the hands of the different magistrates for collection.

## TRIGG PRESENTS NEW CANDIDATE

Below is the announcement of Prof. B. E. Thom, of Trigg county, for state senator. Trigg county has not furnished the senator from this district for nearly twenty years. Prof. Thom is widely and favorably known throughout the district, having taught school in three of the counties. His former students are now among the leading citizens and the heads of families throughout the district.

Besides being one of the prominent educators of the state, Prof. Thom is a successful farmer, and a practical man of affairs whose ability to analyze public questions cannot be doubted. His father was an officer in the Confederate Navy, and participated, on board the famous Merrimac in the battle with the Monitor—the first fight of ironclads the world ever saw.

If elected, Prof. Thom will stand for better schools, good roads, economy in the expenditure of public money, improvement of agricultural conditions, and such revision of our tax laws as will enable the state to pay off the large debt that is rapidly growing year by year. The state needs more money, that we may do greater things for the people in the way of better schools, good roads, and increased industrial facilities. This larger income and larger opportunity for civic and economic betterment can be accomplished by economy and by wise revision of our revenue laws, so as to tax those who now avoid paying their share, and reducing, where possible, tax burdens that are already too great.

plished by economy and by wise revision of our revenue laws, so as to tax those who now avoid paying their share, and reducing, where possible, tax burdens that are already too great.

To the voters of the Third senatorial district:

I respectfully submit my candidacy for the state senate, subject to the action of the democratic party in the primary to be held in August 1915. In taking this step I am not unmindful of the many and various duties, and of the great responsibility resting upon the man who would fill this office. If elected I can say with the immortal Lincoln that while acting as the representative of the people I shall be governed by their will on all subjects upon which I have the means of knowing what their will is; and upon all others I shall do what my own judgement teaches me will best advance their interests.

I realize the deplorable condition of the state's finances and pledge myself to a business administration, and a curtailment of the state's expenses wherever possible. No fads, no freak legislation will receive my support.

If nominated and elected I shall endeavor so to conduct myself as to give the voters of the Third senatorial district no cause for regretting their choice.

Trigg county has had no representation in the state senate for sixteen years.

Soliciting your votes and influence, I remain,

Sincerely yours,

B. E. THOM.

## FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

## GIRLS! GIRLS! TRY IT. BEAUTIFY YOUR HAIR

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any store and just try it. Adv.

## FOR MORE REVENUE

Administration Is Facing a Hard Problem.

Democratic Organ Favors the Restoration of the Duty on Sugar or Export Taxes Upon Grain and Meat.

It is difficult for the government to reduce expenses. We have been plunging for so long a time that the road to frugality is a hard road to travel and we fear it will never be traveled until some crushing disaster such as has overtaken Europe falls upon us and renders extravagance automatically impossible. Therefore, invoking the taxing power is all that remains to us.

It is doubtful if increased taxation on whiskey, beer and tobacco will produce more revenue. Indeed the taxes upon these commodities have already been increased to the point where a reduction of revenue from those sources is threatened. Even if that were not true, further taxation, resulting in increased prices of the taxed commodities, might anger laboring men, the very class that consumes most of them.

In order to get the revenue with the least friction, it will be necessary to raise the income tax rates on the large incomes or restore the duty on sugar. The sugar duty is the only revenue-producing device that would not be grievously felt by the working classes of the country. They would pay it, of course, but so indirectly they would not be apt to feel it. Another indirect method would be to levy export taxes upon grain and meat. It is true that the American consumer pays the import duty, then it must follow that the foreign consumer would pay an export duty.

But we warn our Democratic friends against bringing into the range of the income tax several millions of persons who are now exempt. What they would do at the polls—well, it is good policies to soft pedal on further income tax legislation. Houston Post.

### WHAT MR. TAFT OVERLOOKED

Problems That Democrats Have to Solve Are Results of Republican Management.

In dealing with an ex-president one feels like going gently and using only language with parliamentary sanction, but if President Taft's arraignment of the democracy for failure to keep the platform pledge of economy is not impotence it is something bearing a blood relationship to that quality. The Democratic party received, as Republican legacies, the tariff question, the currency question, the Panama tolls snarl and the conservation question. The G. O. P. had done just nothing at all with the second and fourth of these, and had done exactly the wrong thing with the first and third. The democracy proceeded to pass a tariff act such as the country had been promised, and to pass a great constructive currency and banking law, in a field where the Republicans had merely paltered and conversed for 40 years. It solved the Alaskan conservation question and undid the wrong of the Panama tolls act. Then came the war, with a whole jungle of new problems—war risk insurance, special financial needs, etc. And President Taft points to our still chaotic government finances—chaotic because of the Republican performances of 50 years—and reads to us a lesson of responsibility undeserved and dutifully forgot! "Wal, b'gosh!"

### Plenty of Funds to Invest.

If any proof were needed of the abundance of money awaiting safe investment the fact that the New York Central railroad's new bond issue of \$100,000,000 was largely oversubscribed would supply it. This rush to invest is especially significant because it comes so soon after the failure of a railroad's very successful floating of a bond issue of \$49,000,000, which was five times oversubscribed. If a railroad has been carefully managed and is in good credit there seems to be no difficulty in its securing all the money needed for improvements or refunding operations. This state of affairs is in marked contrast to that of a few months ago, when the European war had so upset everything that no new financing was possible.

### Coming Business Prosperity.

These are good reasons for business prosperity. Crops greater than ever in our history, and crop conditions more promising than we have ever known; big prices and plenty of money in our banks; tremendous foreign orders pouring into every large industrial center; the settlement of the railroad rate controversy, and the price of materials at a point where things can be bought cheaply.

### Not Confined to Democrats.

A Republican contemporary refers to the existing division of sentiment among the Democratic senators on the shipping bill as "one of the reasons why the Democratic party should not be entrusted with national power." This is amusing when one recalls the bitter animosities between Presidents Roosevelt and Taft and a large proportion of the Republican senators, culminating in the historic split of 1912. The Democratic performance is not edifying, but it is in no way different from dozens of G. O. P. breaks.

## BROUGHT BACK NATURAL HEALTH

The Facts About an Interesting Case Of Serious Female Trouble Benefited By The Use of Cardui.

Walnut Cove, N. C.—Mrs. E. A. Rothrock, of this town, says: "About two years ago I was in very bad health for three or four months."

At this time I had a serious female trouble, which lasted severely for nine weeks. I got awfully weak and could scarcely go, and my doctor said I ought to be in bed.

My two sisters, who had used Cardui with good results and who now use it as a tonic, recommended it highly to me, saying it is a fine medicine.

I felt if I lived I must have something to help me, and as other medicines had failed to relieve me, I thought I would try Cardui, the woman's tonic. At this time I was almost skin and bones.

I assumed to improve after the use of the second bottle of Cardui. The trouble stopped. I suffered less pain, and began to get back my strength and health. I took five more bottles and got back my natural state of health, also my flesh, and could do my work easily.

This spring I was run down in health; had over-worked myself. I took nearly three bottles of Cardui, as a tonic, and it brought me back to my natural state of health.

Last week I put up 78 jars of fruit, which I could not have done before taking Cardui. I am glad I heard of it, and I hope other women will too.

Your case may not be as bad as the above, but even if only a mild case, we suggest that you begin today to try Cardui, the woman's tonic. Adv.

IF HAIR IS TURNING GRAY, TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair. A well-known druggist says every body uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Adv.

## IF BACK HURTS CLEAN KIDNEYS WITH SALTS

Drink Lots of Water and Stop Eating Meat for a While if the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases. Adv.

## BECKHAM TO BE WELL CARED FOR

Washington.—Senator-elect J. C. W. Beckham of Kentucky, has something real good coming to him in the line of committee assignments, according to Senator John W. Kern, of Indiana, the democratic floor leader of the senate.

Mr. Kern incidentally took a fling at Senator Camden, whom Senator-elect Beckham will succeed March 4, by drawing a comparison between the Beckham and Camden brands of democracy, to the disparagement of the latter. Learning that Senator-elect Beckham had arrived in Washington he made the following carefully dictated statement last night:

"Senator-elect Beckham will be well taken care of in the matter of committee assignments. A man of his ability, character and democracy need have no fear and he will be given committee assignments commensurate with his ability and standing. He comes here with the good will of everybody, and the contrast between his brand of democracy and that of Camden will be so striking that there will be a very general desire to show our appreciation of Kentucky's good taste in sending him here, and the best is none too good for him."

One assignment probably will be to the committee on foreign relations. Mr. Beckham had lunch at the capitol with Senator James, and left last night for home. He and James are on friendly terms. It was remarked that with these two young men in the harness Kentucky will be represented by senators

whose combined age is under that of the senators representing any other state. James is forty-three and Beckham forty-five. The age of Senator Isaac Stephenson, of Wisconsin, only lacks two years of being equal to the combined ages of both James and Beckham.

Mr. Beckham said that he expects to go to Florida with his family soon.

## SMALL AMOUNT STATE AID ASKED

At the regular adjourned meeting of the fiscal court held last Friday and Saturday a resolution was adopted by the court asking for state aid for the improvement of inter-county seat roads of Calloway county, and \$3,000 will be set aside by the court out of the 1915 levy for that purpose, and an equal amount will be furnished by the state for the same purpose. It is the purpose of the court to expend this money on the highways leading from Murray toward the county seats of adjoining counties on which citizens will donate the largest amount in cash or labor. This sum, totaling \$6,000, to which will be added an equal amount in labor or cash by citizens, will be expended under the direction of state engineers, and while it is a small amount for road purposes, will prove of vast benefit to the people and is a start toward a system of improved highways that is destined to extend to every section of the county.

A petition will be presented in the county court at the regular meeting in this month asking that an election be called for the last of May to take the census of the people upon a bond issue for road purposes. This matter is, already being agitated throughout the county and as soon as the election is ordered, the time fixed and the amount decided upon it will become one of importance to the people of Calloway county.

All road overseers of the county are ordered to meet the fiscal court in Murray on Saturday, March 20. This meeting is for the purpose of formulating plans for working the roads this year, and should be attended by every overseer in the county.

### Night Riders In the Pulpit.

Madisonville, Ky., Feb. 24.—Fifty masked men waited on the congregation of the Mt. Carmel Methodist church at Nortonville during evening services Saturday night. The leader, armed with a bundle of switches, accompanied by several comrades carrying guns, asked permission of the pastor to address the congregation. The pastor gave his consent. Members were then told to quit smoking, drinking, selling whiskey, gambling and to quit shooting at a church in the neighborhood.

"No person must leave the church for thirty minutes," the leader said. "It is safer inside than out."

The regulators then left the building and the pastor proceeded with his sermon.

Some of the ladies in the audience thought it best that they remain in the building all night. Ah! The Invigorating Whiff of the Pine Forest.

## COOPER TALKED TO MANY FARMERS

Great European War Will Not Affect Distribution of Tanlac.

Lexington, Ky., Jan. 4.—Thousands of Farmers from Fayette and adjoining counties heard L. T. Cooper, the great philanthropist, in Lexington recently. Cooper gave one of his famous lectures on health and hygiene, in connection with an interesting demonstration of the merits of Tanlac, the remarkable medicine he is introducing to the American people.

Several score of these same farmers took part in the agricultural exposition conducted by Cooper at his own personal expense in Lexington. Many of the displays excelled the exhibits seen at the county fairs, and have attracted widespread attention throughout Kentucky.

In speaking of Tanlac and the remarkable cures his great medicine is fulfilling, Cooper said to the farmers:

"Tanolac, gentlemen, is not a common patent medicine. Tanlac is not a common patent medicine. Tanlac is a proprietary medicine—the kind of medicine recently spoken of by Hon. Oscar Underwood, the democratic leader of the House of Representatives in our national Congress at Washington, D. C. You all know that Mr. Underwood was a candidate for the democratic nomination for president, and that he is a man of great ability and integrity. He is a native Kentuckian, too."

"Realizing what a real hardship it would bring to the thousands of American people who daily use Tanlac and similar proprietary medicines, should these preparations be included among the popular commodities upon which a special war revenue tax was placed, Congressman Underwood, with characteristic safeguard of the people's rights, placed himself on record as unalterably opposed to anything that would increase the price of proprietary medicines, or which would tend to deprive the working man of his best friend."

"The result was that Tanlac and similar proprietary medicines were stricken completely off the war revenue bill. Thus, it is, gentlemen, that the thousands of sufferers in this country are enabled to obtain Tanlac now at a price within reach of the most modest means."

Here, Cooper, holding the attention of the great assemblage, explained the causes and enumerated the symptoms of stomach, liver and kidney troubles.

"Most of the so-called stomach, liver and kidney troubles," said the noted student, "are due almost entirely to catarrhal inflammation of those organs. The constant coughing up of mucus, dull throbbing headaches, pains in the pit of the stomach, side and kidney region, lost appetite, nervousness, lost ambition, depression of spirits, and susceptibility to coughs and colds, are common symptoms of this miserable condition from which so many suffer."

Cooper then produced hundreds of testimonials from Lexington people as convincing evidence of the genuine merits of Tanlac.

Tanolac is now sold in Murray by Dale & Stubblefield.

### Residence Burned Tuesday Morning.

The residence recently vacated by J. F. Morris, in South Murray, was destroyed by fire Tuesday morning at about 6:30 o'clock by fire of unknown origin. Mr. Morris sold the place the first of the year to Mr. Frank Wilson and had just vacated and moved to his farm north of the city. Mr. Wilson and family cleaned and scrubbed the house Monday preparatory to moving within a few days. Some fire was left in a grate Monday but it is hardly possible that the fire that destroyed the building originated from that source. There was some insurance on the building.

### Old Fiddlers Contest.

## CHANCE TO MAKE KENTUCKY GREATEST HOG RAISING STATE

10,000 Hogs Fattened From Slops and Distillers' Dried Grains In Davies County Alone Last Year

(By Stephen Bolles, in Bourbon Stock Journal.)

Kentucky can easily be made the greatest hog-raising state in the Union. That has been demonstrated by Davies county farmers. Last year about 10,000 hogs were fattened in that county on distillers' slops and dried grains.

So successful were the experiments that the L. & N. Y. railroad provided switches along their lines for the use of farmers to utilize this by-product of the distilleries for feeding

### Officially Tested Out.

The official tests of this feed have been very satisfactory in every way. It has the stamp of approval of the best chemists in the agricultural world. Men from experiment stations who know all about food values of different grains and foods have given it the highest recommendation. The richest agricultural states in the Union are those which lead in hog production. Iowa, with its vast field of corn, Illinois, Missouri and Indiana in the order named, have thousands

of rich farmers who make their money out of hogs. They feed the raw grain to the porker and sell him at the highest price in the biggest markets of the country. They have no such advantages as the Kentucky farmer has. At our very doors, and at a much lower cost than even the Iowa and Indiana farmer feeds, we have the feed that will produce the best pork in the world.

### The Farmer's Opportunity.

"The greatest single industry in Kentucky is its distilleries. This industry pays more taxes for the maintenance of the State than all other manufacturing industries combined. Thousands of tons of slops containing nutritious, fat-producing elements are dumped into the waste heap simply because Kentucky feeders have not waked up to their opportunity. A comparatively small portion of this by-product is dried and shipped to Europe to be used as dairy feed and for fattening hogs."

But why ship any of these dried grains to Denmark and Holland when we can use them here at some up to the full capacity of every distillery in the State, thereby increasing the profits of hog-raising and adding many millions of dollars annually to the wealth of the farmers of the State.

### Cheaper Feed Than Corn.

Farmers should sell the corn they raise at the high price it usually brings and buy for less money, more and better feed in the form of distillers' dried grains. By doing this they can fatten more hogs at less cost and sell them in the market for larger prices. It is a simple business proposition that should not be overlooked by any farmer.
