Ladies, do you suffer from headache, backache, idease, waist-pain, irregular habit, weakness, nervousness, irritability, general malaise and loss of appetite? If so, much of your pain and suffering is needless, for it is due to diseases peculiar to your sex, which can be cured by proper treatment. For over 50 years Cardui's Woman's Relief has been helping these diseases in the persons of over a million women, of whom Mrs. H. G. Cox, of 232 H Clark St., Chicago, is one. She writes: "I was taken sick three years ago and was unable on account of this sickness. Since then I have been free of headache, backache, high-spirits and awful beating-down pains. I could get no relief until I began to take Wine of Cardui. I have now been taking it about six weeks and I feel as if I had a new heart. My heart is steady now." To try this wonderful medicine at home you may send for our Free Circular.

At Every Drug Store in $1.00 Bottles
Kentucky Avenue Presbyterian. "Probabilities are that the protracted morning on "Children of Grace Episcopal church, at Fourth and Wyoming this evening or tomorrow afternoon.

At Duluth's Fine Showing On Municipal Ownership.

If it is not in the corporate ownership of big corporations owning public utilities there can never be a complete and adequate solution of the rates to be fixed in the case of common carriers and the consumers of these services. Mr. Robert McC. Burchett has brought this point before the people of Duluth, Minn., in a most cogent way in a recent paper which appeared in the St. Louis Republican on September 8. The following is an extract from that paper:

The cost of municipal ownership has decreased from $95.48 cents in 1899 to 50 cents in 1911, or from 63.05 cents in 1899 to 17.95 cents in 1911, and the interest and taxes from $83.40 in 1899 to $28.00 in 1911, and the average of the two years is largely in favor of municipal ownership. The cost of gas has been reduced from $1.90 cents in 1899 to 90 cents in 1911.

The cost of the gas plant is given as $95,488, of which $25,000 was laid out for repairs, $30,000 was paid for the plant, and $40,000 is the amount spent on account of the saving in gas, and $5,000 for light and 95 cents for heat and $1 for fuel.

The advantage of municipal ownership over private ownership, over half a million dollars, has been spent in the city of Duluth, Minn., in the construction of a gas plant, and the cost of the plant has been largely defrayed by the consumers of gas. The cost of the plant is $10,000,000, and the interest and taxes on the investment and at once raised the annual cost of gas from $1.90 cents in 1899 to $2.75 cents in 1911, and the average of the two years is $2.50 cents.

The cost of gas is now just half what it was when under private ownership. The reduction in rates amounted to over $154,000, and the cost of gas decreased from $1.90 cents in 1899 to 90 cents in 1911.

This is a fact that cannot be denied, and the people of Duluth are paying too per cent. more for gas in the city of Duluth as a result of the municipal ownership. If gas were owned by private corporations and not by the people of Duluth, the cost of gas would be $1.90 cents in 1899 and 90 cents in 1911.

The city of Duluth has been able to reduce the rates to the people by reason of the municipal ownership. The city of Paducah, Kentucky, is an article giving the experience of the city of Paducah, and it is a city which is not satisfied with the rates charged by the private corporation. The people of Paducah are paying too per cent. more for gas in the city of Paducah as a result of the municipal ownership, and they are paying $1.90 cents in 1899 and 90 cents in 1911.

The people of Duluth are paying too per cent. more for gas in the city of Duluth as a result of the municipal ownership, and they are paying $1.90 cents in 1899 and 90 cents in 1911.

The cost of gas in the city of Paducah is $2.75 cents in 1911, and the cost of gas in the city of Duluth is $1.90 cents in 1899.

The advantage of municipal ownership over private ownership has been realized by the city of Duluth, Minn., and the city of Paducah, Kentucky, in the construction of a gas plant, and the cost of the plant has been largely defrayed by the consumers of gas. The cost of the plant is $10,000,000, and the interest and taxes on the investment and at once raised the annual cost of gas from $1.90 cents in 1899 to $2.75 cents in 1911, and the average of the two years is $2.50 cents.

The cost of gas is now just half what it was when under private ownership. The reduction in rates amounted to over $154,000, and the cost of gas decreased from $1.90 cents in 1899 to 90 cents in 1911.

P. Prompt Payment

Prompted by fear of the consequence of non-payment, the management of the National Freight Association, at a meeting of its directors, has recently voted to adopt a comprehensive system of prompt payment. The system is expected to be in operation within a few days. All shippers are urged to make use of this system, as it will materially aid in reducing the cost of transportation.

TODAY IN HISTORY.

1844—George M. Bibb, of Kentucky, was born.

1567—Mary of Scotland defeated at Carberry Hill.

1849—James K. Polk, eleventh president of the United States, was born.

1894—Erastus Winn convicted of forgery.

1949—House of Representatives passed the statehood bill for Hawaii.

steep declivity. Orders had been issued by the flash of musketry, which warned General Worth that his separation had been discovered. At 4 o'clock on the morning of the 24th, an army was effectively defeated by a movement conducted by the constant pressure of musketry. The American soldiers, who made the earnest effort, were taking the whole of the Kentucky avenue school property which they were to follow up the battle of the Confederates. The American soldiers had been engaged in a desperate battle for a long time, but the battle was not entirely over. They were engaged in a desperate battle with the enemy. The American soldiers were engaged in a desperate battle with the enemy. The American soldiers were engaged in a desperate battle with the enemy.
