## WELL KNOWN CITIZEN OF PADUCAH

Paducah, Ky., March 15.—Wm. G. Whitefield, aged 77, died last Thursday afternoon at his home on Seventh and Kentucky Avenue, after a short illness of senility, or feebleness due to old age. Mr. Whitefield was first taken ill February 28, though he had been rather feeble at times.

William Gaston Whitefield was born September 17, 1838, in Person county, N. C. In 1861 he enlisted in the Confederate army, serving through the Civil war. He was a brave soldier and was respected as such. His first wife died in 1877, leaving three children, two of whom are now living, Mrs. Inez W. Howe and William B. Whitefield. In 1879 he was married to Miss Kate Woolfolk, of this city, who also with her daughter, Mrs. J. D. Rowlett, of Murray survive him. He was a devoted member of the first Christian church and was a regular attendant at the services. He met his death calmly, perfectly conscious, trusting in the mercy of God, dying like a brave soldier that he was.

Mrs. Hanbery was a life-long member of the Baptist church and was a noble Christian woman loved by a large circle of devoted friends.

She is survived by her husband and four children: Mrs. Sudie Shryer, of St. Louis, Judge J. T. Hanbery, of Hopkinsville, Mrs. J. T. Savage, of St. Louis, and Mrs. Cordie White, of Cadiz.

The burial took place in Riverside Cemetery, of Hopkinsville.

### Lands a Good Job.

B. B. Wear's many friends are

rejoicing with him over the fact that last week he received notice of his appointment as deputy collector of customs, a position created under the new federal law regulating the sale of narcotics. Mr. Wear has been a life-long resident of Murray and has hundreds of friends throughout the county. The position pays a salary of \$1,600 per year with a traveling expense of \$800 annually. This state will have two such officials, and each is required to be a registered pharmacist. Mr. Wear will assume the duties of the place at an early date.

Here's hoping, old ho'se, and may the job last a thousand long years. You have the distinction of getting the first and only job Ollie James ever gave a Calloway county man.

### Recommends Chamberlain's.

"I take pleasure in recommending Chamberlain's Cough Remedy to my customers because I have confidence in it, I find that they are pleased with it and call for it when again in need of such a medicine," writes J. W. Sexson, Montevallo, Mo. All dealers.

### Murray Boy Honored.

Mark Butler Keys, formerly one of Murray's young men, has been appointed Deputy District Attorney of the county of Los Angeles.

## CANDIDATE FOR REPRESENTATIVE

Mr. Geo. W. Aycock, of this city, is a candidate for representative in the state legislature from this county and places his announcement before the voters of Calloway through the columns of the Ledger this week in a card to which your attention is directed. Mr. Aycock has been a resident of this place for many years and has been engaged in contracting and building during the greater part of the time, but for the past few years has been manufacturing concrete material. He is a well known citizen with many friends and will actively prosecute his candidacy before the people. Mr. Aycock briefly sets forth measures he will support in case of his election in his card which follows:

### To the voters of Calloway Co.—

Having long cherished an ambition, which I believe a laudable one, to serve my people in the Legislature of Kentucky, I am taking this method of announcing my candidacy for the Democratic nomination for Representative for Calloway county.

If my ambition is gratified, I promise to serve all the people, and not a favored few. I purport, if elected, to serve alike the high, the low, the rich and the poor, and no powerful influences, designing lobby maintained by such interests shall influence my vote in any manner.

I am opposed to the laws requiring burial permits, licensing undertakers, in favor of abolishing such useless offices as Fire Marshal, Hotel Inspectors. Am opposed to consolidated schools, and am irrevocably opposed to laws seeking to change school books every few years in the interest of book trusts.

I favor laws that will give to juries only the power to fix the term of all persons convicted in our courts.

I believe that all convicts should be worked on the public highways of our counties.

I am opposed to the law enacted at the last term of legislature which permits the shipping of whiskey into local option territory. On the question of State wide prohibition, I favor submitting this question to the voters for their decision.

Hoping to see each voter in person and explain more fully my position on various questions of interest to our state, and soliciting the consideration of my candidacy by the voters of Calloway county. I am Respt.

GEO. W. AYCOCK.

## AVIATOR BEACHY IS KILLED AT FRISCO

WAS TRYING SENSATIONAL DROP TO ELECTRIFY THE CROWD AT THE FAIR.

### MONOPLANE'S WINGS BREAK

Trick Aviator Falls 7,000 Feet Into San Francisco Bay—Wings of the Aeroplane Collapsed and Machine Plunged Into Bay.

San Francisco.—Lincoln Beachy, aviator, was killed while making an exhibition flight at the Panama-Pacific Exposition. At an altitude of about 7,000 feet Beachy began a sharp descent. The wings of his aeroplane collapsed and the machine plunged into San Francisco Bay.

Beachy was completing his second flight of the day when the accident occurred in view of thousands of spectators. Having previously electrified the crowd with a series of aerial stunts, the aviator sought to add an additional thrill with one of his sensational perpendicular drops.

The fatal fall was attributed to the fact that Beachy entrusted his life for the first time in several years to a monoplane.

On the first flight all went well and the aviator's familiar tricks were indulged in with the exception of the perpendicular drop. Beachy had saved this for the climax. It proved too much of a strain for the frame of the monoplane.

The machine was at an altitude of about 7,000 feet when Beachy shut off the power. For several thousand feet it dropped head-on for the earth, and then the aviator grasped his control levers to adjust the planes for a graceful descent.

The wings crumbled and the aeroplane, turning over and over in its fall, plunged into San Francisco Bay, narrowly missing a vessel at the government transport docks.

Thousands rushed to the nearby waterfront, but with the exception of a few splintered fragments of the aeroplane floating on the surface of the bay no signs of the wrecked machine could be seen.

### THE PRESIDENT MAY ATTEND

If Possible For Him to Leave Washington He Will Visit Chattanooga Conference Next Month.

Washington.—"The south wants President Wilson," said Senator Shields before leaving here for Tennessee, referring to the invitation which has been extended the president to attend the southern conference for education and industry, which will be in Chattanooga, the last week in April.

"The president has been assured of the earnest wish of the south that he will come down and give us the benefit of his great wisdom and sage counsel in this crisis through which our people are passing on account of the war."

President Wilson has assured all who have joined in the invitation that the objects and purposes of the conference appealed to him strongly, and that he hoped to be able to accept. He said he would do so if it was possible for him to leave Washington at the time.

Senator Shields said the importance of the Chattanooga meeting was evidenced by the fact that the governors and state superintendents of education in practically all the southern states had joined with Tennessee in extending the invitation.

### HALLEY WILL HELD VALID

State Sought to Make an Escheat of the Property—Case Dates Back to 1910.

Jackson, Tenn.—The celebrated case of the State of Tennessee vs. Abe Goodman, administrator, involving the disposition of the \$240,000 estate of the late Edw. J. Halley of Memphis, was decided by the court of appeals, Judge Frank P. Hall rendering the decision affirming the decree of the chancellor to the effect that the will was valid and that the state could not recover any portion of the big estate. The case came back to 1919, when Mrs. Johanna Madden, foster mother of the late Ed Halley, died in Memphis, and upon investigation it was found that she had hidden in the walls ceiling and about her storehouse \$185,000 in gold coins.

The will was probated in Memphis, and Abe Goodman became administrator. The state of Tennessee, entered suit to escheat the property and other part of the estate, asking that it be reverted back to the commonwealth.

Mrs. John D. Rockefeller Dead.

New York.—Mrs. John D. Rockefeller died at the Rockefeller country home at Pocantico Hills, just outside of Tarrytown. She had been ill for some time. While Mrs. Rockefeller had been an invalid for many months her death came unexpectedly. Her husband and her son were at Ormond, Fla., and were advised that her condition had taken a critical turn for the worse. Mrs. Rockefeller died at 10:15 a. m. immediately after a special train, leaving Jacksonville, Laura Spelman Rockefeller was born in Westborough, Ohio, Sept. 9, 1839.

### DENIES BLAME IN MEXICO

Carranza Expresses the Hope That Americans and Other Foreigners Leave at Once.

Vera Cruz, Gen. Carranza, in answer to the protest addressed to him by Secretary of State Bryan has addressed a reply to President Wilson. He denied responsibility of the constitutionalists for the situation, but expressed hope that Americans and other foreigners will lose no time in departing from Mexico until tranquility shall be restored.

The constitutionalist chief pledges himself to provide every facility for the exodus he recommends. He suggests that if foreign residents do not desire to leave the country they should seek safer places in the republic. Gen. Carranza declares that he always has tried to safeguard the interests of Americans and other foreigners and intends to continue this course.

The charges that Gen. Obregon deliberately fostered disturbances in Mexico City are denied by Carranza, who declares every possible effort has been made to distribute food supplies.

He contends that the present situation has been aggravated by the conduct of merchants who have protested against the imposition of a humanitarian relief tax.

The reply, in part, says:

"In faces of the charges expressed by the international committee in its complaint to the state department, I point you to the fact that Gen. Obregon has been in the possession of the City of Mexico since January 26 until now without mobs, assassinations, looting or any other of the outrages which are apt to occur and which frequently occur in times of war."

"During all this time large amounts of food supplies have been taken into Mexico City and large quantities of supplies have been distributed among the distressed people."

"While it is proper to state as to evacuation that the right to occupy or to evacuate Mexico City or any other place in the republic must at all times be reserved, the obligation on the constitutionalist army to safeguard the lives of foreigners is fully understood and realized. You will therefore permit me to assure you that at the time of the evacuation of Mexico City every facility within my power will be afforded to all foreign residents in that city to depart the country or to go to other and safer places of the republic."

"I have always tried to give, and have given, the largest protection possible to the lives and interests of Americans and other foreigners. I purpose to continue the same line of conduct and have decided to take all measures possible to avoid all damage to foreign residents."

With this purpose in view, I addressed a note to the diplomatic corps in Mexico City, which I have repeated twice, inviting them in case of evacuation to come either to this port or to any of the cities under control of constitutionalist forces."

### UNEASY FEELING IN MEXICO

President Wilson's Reply Indicates a Determination to Put a Stop to Blockade.

Vera Cruz, Mexico.—Gen. Carranza and his advisers do not conceal their apprehension regarding the step that seems to be the inevitable consequence of President Wilson's reply to the American president on March 5, containing guarantees to protection to American interests in Southern Mexico, held by the Carranza forces.

The receipt of the reply of President Wilson, which was made known by Gen. Carranza to his advisers, indicates a determination on the part of the American government to compel the abandonment of the blockade of the ports of Vera Cruz and Progress by the Carranza government without further delay and for reasons of paramount interest to the United States as yet unrevealed in the correspondence between Washington and Vera Cruz.

The alternative offered by the United States is plain to even the most defiant of the Carranzistas in the coming of additional warships with instructions to open the closed ports at once.

Say Losses Were 10,000.

London.—According to a report issued by the war office, the Germans delivered several minor attacks, which were all repulsed. The total number of prisoners taken in three days was 1,726, while it is estimated that the total German losses were not far short of 10,000.

British airmen have been active again and have destroyed a train at Don, near Lille.

The Belgian army continues to gain little by little at the bend of the River Yser, and in Champagne, the Arzonne and the Vosges there has been fighting. The Germans again have been repulsed. Ypres, Solomons and Ruesling, in the latter two towns the Germans have suffered.

Report Subjects Assassinated.

Washington.—Senator Riano, the Spanish ambassador, has informed the state department that four Spaniards had been assassinated in Mexico City and presented reports of looting and burning of private residences.

Gen. Carranza's reply to the American president was laid before President Wilson and afterward it was indicated in administration circles that the situation looked somewhat better. Carranza's efforts, however, will be hindered by the United States to assure unbroken communication between Mexico City and Washington.

## DEMANDS ARE MADE TO GENERAL VILLA

MEXICAN SOLDIERS WHO KILLED McMANUS MUST BE PUNISHED.

### INDEMNITY TO THE FAMILY

Villa's Washington Representative Pleads for Time Gen. Salazar Has Promised Punishment to Killers of McManus.

Washington.—Demands by the United States upon Gen. Salazar, Zapata commander in Mexico City, for the punishment of soldiers who murdered John B. McManus, an American citizen, and adequate reparation to McManus' family were repeated to Gen. Villa.

"As Villa and Zapata," said Secretary Bryan, "have been co-operating, I thought it was a good idea to make representation to Villa as well, so that the offenders would be punished."

As finances of the Villa-Zapata government have been practically in control of Gen. Villa, the question of an indemnity to the family of McManus, it is believed, will be settled by the northern chief. Gen. Salazar has already promised to punish those guilty of killing McManus.

Earlque C. Ligon, Villa's representative here, issued a statement regarding the McManus case, which says, in part:

"There are certain features about the McManus case which give rise to a suspicion that the deceased might not have been entirely without fault. If, as stated, he was guilty of having killed three Zapatistas when the latter entered Mexico City some months ago, it is equally possible that he might have been detected in sniping last week when the same troops again entered the capital. In that case he may have been shot by way of reprisal, which circumstances would tend to relieve the Mexican government from responsibility."

"On the other hand, he may have been wantonly shot by an irresponsible group of soldiers. Should investigation develop that such was the case, the American people may be assured that the provisional government of Mexico will make due reparation through the payment of money indemnity to the family of the deceased."

"In this incident we will be guided by the policy of the United States in cases in which foreigners have met death by mob violence within its territory. In conformity with that policy we desire only a reasonable time within which to complete an investigation, and when that is accomplished prompt and suitable action will be taken."

### THE BRITISH TAKE VILLAGES

Nine Miles North of Lille the British Troops Have Occupied Epinette.

Paris, via London.—The war office made public the following official communication:

"To the east of Lombaertzyde (Belgium) we have taken a German fort about 160 meters in front of our line of trenches."

"Three kilometers (1.86 miles) east of Armentieres, France, nine miles north of Lille, the British troops have occupied the village of Epinette. In the sector of Nueve Chapelle the progress of the British army has been followed up. After repulsing two strong counterattacks this army took possession of that part of the German line between the hamlet of Piere and the mill of the same name and captured about 400 prisoners, including five officers."

"In Champagne we carried, in front of the enemy trenches, and took some prisoners, including officers."

"Further west, parallel with the Tarn road, northeast of Souilly, we have occupied several of the German trenches."

"On the heights of the Meuse parts of a trench in which the Germans had succeeded in gaining a footing, were captured by us."

"At Reich Ackerjont we repulsed night attacks and advanced 200 meters (about 660 feet)."

The official statement issued by the war department says:

"On the remainder of the front nothing has taken place to add to official statement."

Petrograd.—About a million men engaged in the great battle which began with a renewed German raid from the north in the direction of Lompa and spread over a front of 80 miles, starting from 1000, 20 miles south of Juchimsburg, East Prussia.

Would Refuse Japanese Demands.

Hankow.—A Chinese mass meeting here to discuss the Japanese demands upon China resulted in the dispatch of a message to the government at Peking advising that the Japanese demands be refused even if it resulted in war.

Probi Wins in Vermont.

Montpelier, Vt.—The prohibition referendum, held previously, adopted by the voters, passed the second time. It is approved by Gov. Gates. The question of state prohibition will be decided at a popular election in 1919.

### AMERICAN KILLED IN MEXICO

Dispatches Advise One British House Looted and Many Persons Injured When Zapata Troops Enter.

Washington.—John B. McManus, a prominent American in Mexico City, was shot and killed in his home by Zapata troops as they were occupying the Mexican capital after evacuation by Gen. Obregon's Carranza forces. Official dispatches received in diplomatic quarters from other legations in Mexico City said one British house was looted and 100 persons were injured in the disorder which prevailed between the evacuation of Obregon and the entry of the Zapata troops.

After a conference between President Wilson and the cabinet, a formal demand was sent to Gen. Salazar, insisting that the Zapata troops guilty of the murder of McManus be punished, and that adequate reparation be made to the family of the victim.

Dispatches from the Brazilian minister in Mexico City, reporting the affair to the state department, say the American flag was floating over McManus' house and that his doors had been closed and sealed by the Brazilian consul.

The Brazilian minister's dispatch intimated that the killing may have been one of revenge. It was charged that when Zapata troops recently occupied the capital, McManus had killed three of their number.

The fact that the American flag had been hoisted over the house, and the doors sealed by the consul of a neutral power, was taken by officials here to indicate that either McManus felt he was in danger or that all foreigners were fearful of their safety with the entry of the Zapata troops, and took steps for protection. The killing of the American is described in the official dispatches as having caused great emotion in the foreign colony. McManus was said to have been originally from Chicago.

The Brazilian minister reported that Gen. Salazar, the Zapata commander, had promised to find the guilty troops and punish them.

It was said that the American's hat was shot full of holes with evidence, that the firing was at close range.

Mr. Bryan said no representations would be made pending receipt of further details from the Brazilian minister. He said very full investigation would be made.

### TRY TO BREAK RUSSIAN LINE

Bring Up Troops Which Have Been Operating in Region of Grodno.

London.—Balked at other points, the Germans are making another attempt to break the Russian line in Northern Poland. They are advancing from Khorjole, on the East Prussian frontier along the Orzye river, and by the roads leading southward to Przasnysz. This is one of the routes the Germans took in their great drive from East Prussia in February, which finally ended in their defeat at Przasnysz.

For their new attempt they have brought up troops which have been operating in the region of Grodno and some of the new army training since the outbreak of the war.

The point selected for the attack is the most favorable along the East Prussian front. The splendid railway system can bring troops and their supplies to the border and good roads lead to Przasnysz.

A battle of almost equal importance is in progress farther north, in the region of Suwalki, where the Russians have pressed the Germans back to their own border.

The Russians appear to have countered successfully the German offensive on the Pilica river.

### CRUISER AT NEWPORT NEWS

Prinz Eitel Friedrich Sunk the William P. Frye, an American Sailing Ship.

Washington.—While the German cruiser Prinz Eitel Friedrich is undergoing repairs at Newport News, the neutrality board of the United States government having made a report to favor the allowing of such repairs being made as to make the vessel "seaworthy" under supervision of American naval authorities, a searching investigation into the sinking of the American sailing ship William P. Frye in the South Atlantic will be made.

### May Repudiate Captain's Action.

Washington.—Germany probably will repudiate the action of the captain of the Prinz Eitel Friedrich in sinking the American ship William P. Frye and make reparation for the loss of the vessel and cargo, in the opinion of German officials here.

Inasmuch as the United States and Germany are in accord on the question of shipping foodstuffs from a neutral country to civilians in belligerent territory, no issue is expected to be raised by Germany over the right of the cargo to be sent to its destination without interruption.

### Says Divorce Luxury of Rich.

New York.—Rev. William T. Manning, rector of Trinity church, condemning the wealthiest parish in New York, if not in the country, declared in a sermon in that church that divorce was "the shameful luxury of the rich and well-to-do." "The poor man," said Dr. Manning, "cannot afford divorce, and so he simply follows the example of the illustrious names he reads of in the papers and deserts his home. That is his way of accomplishing the same thing the rich man can accomplish by law."

No "bulk coffee" is a satisfactory substitute for French Market Coffee. For this famous old secret blend cannot be successfully imitated.

The blend of Coffees that produce that rich, aromatic flavor peculiar to the genuine French Market Coffee is a secret of the French Market Mills.

### SAGE TEA AND SULPHUR DARKENS YOUR GRAY HAIR

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Adv.

### KIDNEYS CLOG UP FROM EATING TOO MUCH MEAT

Take Tablespoonful of Salts if Back Hurts or Bladder Bothers—Meat Forms Uric Acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, thinking you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the gold of grapes and lemon juice, combined with lithia and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active. Adv.

## GRAND PRIZE GOES TO ADAIR

MRS. W. L. RUSSELL GETS SENATOR JAMES' \$50 IN MOONLIGHT SCHOOL CONTEST.

## CENSUS OF ILLITERATES

Two Old Men, One From McCreary, the Other From Hardin, Divide the Camden Premium.

Western Newspaper Union News Service.

Frankfort.—Adair county took the grand prize in the "moonlight school" contest, when the Kentucky Illiteracy Commission awarded to Mrs. W. L. Russell the \$50 in gold offered by United States Senator Ollie M. James for the teacher making the best record in "moonlight school" work. Mrs. Corn Wilson Stewart, chairman of the commission, said the contest was close for first prize as well as the others, but Mrs. Russell, after all the reports were analyzed, was deemed entitled to it. She had an average attendance of sixty-three, enrolled twenty-six illiterates and taught twenty. The prize of \$50 offered by former Senator J. N. Camden for the school trustees doing the most to promote "moonlight schools" was divided between two men, each of whom is 79 years old, the Rev. J. A. Fryrear, of the Richardson district, Hardin county, and W. P. Johnson, of the Barren Creek district, McCreary county. Mr. Fryrear and his wife solicited pupils for the schools and they served meals for the workers. Mr. Johnson taught a school, besides soliciting, and he climbed a cliff every night to reach the school house.

## STOCK YARDS ARE OPEN

Louisville, Ky.—After a closed period of more than 20 days, on account of the prevalence of foot and mouth disease in Jefferson county, the four stock yards opened for business. The reopening of the yards is expected to result in an influx of cattle, hogs and sheep from all sections of Kentucky and Tennessee where the disease does not prevail. In an effort to prevent a fresh outbreak of the disease the farmers of Jefferson county will hold a meeting with stockmen in the county courthouse. No employee at the stock yards will be permitted to enter the yards without rubber boots and clothing.

## A LARGE STRAWBERRY CROP

Bowling Green, Ky.—Eighty thousand berry crates, the total cost of which will be \$16,000, were ordered by the members of the Warren County Strawberry Growers' association who met at the court house to make final plans for 1915. The contract for the crates went to the Paducah Box and Basket Co. at Paducah. This order is by far the largest ever made by Warren county growers. Manager Hubert D. Graham says 1,150 acres will be planted in berries. This means the shipment of from 240 to 280 car loads.

## BACK TRACKS RID BY RAILROAD

Lexington, Ky.—Colonel Robert B. Franklin came to Lexington from Louisville with a check for \$100,000. The check represents four-fifths of a judgment awarded by Judge Quarrels in the chancery division of the Jefferson circuit court in the case of the Highland Park graded school district of Jefferson county against the Southern Railway Railroad Company for taxes from 1907 to 1914. The company has been claiming its home in this school district, but had paid only \$20,000.

## COAL MINERS MAY STRIKE

Prestonburg, Ky.—A strike of several thousand coal miners, working in the Eastern Kentucky fields, was threatened when several hundred miners gathered here and voted not to accept a cut of 20 per cent in wages made by the Middle Creek Coal Co. No union exists in the Eastern Kentucky fields, but it is said by the miners that a strike in this district would affect 50 per cent of the coal mined in Kentucky. Almost all the miners in the district are Americans, and they claim that practically all of the mine owners have agreed to reduce wages on the same basis as that made by the Middle Creek Co.

## BAPTISTS HOLD BIG MEETING

Elizabethtown, Ky.—The association of the Baptist churches of Kentucky, which met here in annual session, has adjourned. Conferences were held—discussing the Bible plan of financing the kingdom of God, missionary day of the Sunday schools, which will be observed this year on March 28; the layman movement in the Baptist churches; and other subjects of vital interest. The conference was led by the Rev. C. D. Graves, of Nashville, Tenn., and by the Rev. F. R. Walther, enlistment worker, and was participated in by the members of the Sevier Valley association. Mrs. Kate C. Hinkle, secretary of the W. M. F. of Kentucky, addressed about 100 women on "Woman's Work in the Baptist Churches." The Rev. J. H. Benson, a returned missionary from Mexico, made an address upon the subject, "A Vision of Missions."

## NUMBER OF SALOONS CUT DOWN

Lexington, Ky.—The number of saloons in Lexington is decreased from 121 to 110. This is attributable to the increase of the annual license to \$750 and to the separation of groceries and restaurants from saloons. Only one of those applying for renewal of licenses was refused. Chief of Police J. J. Ragan recommended this in the case of Mrs. Lizzie M. Johns, who had a place on South Broadway. Mrs. Johns is the widow of Thomas J. Johns, an engineer, for whose death the Louisville & Nashville Railroad Company paid her approximately \$30,000 in 1913.

PHILOSOPHY OF HIGH ORDER  
Colored Bootblack Added Quaint Reason for Demonstrating the Folly of "Kicking"

Somewhere near the geographical center of that rather indefinite region which the popular imagination conceives to be "the South" is a sizable railroad station where the shoe-shining privilege is controlled by a negro whose hair is beginning to whiten and who is minus his nether limbs. Notwithstanding these infirmities and the fact that he has a family of numerous children, he is known far and wide as the most cheerful individual imaginable, always having a cordial smile and friendly word for everyone.

The story is told how he was formerly a brakeman employed by the railroad, but met with an accident which resulted in the amputation of both his legs above the knees. The railroad company paid all his hospital expenses and then, recognizing further liability, offered him \$5,000 cash or the shoe-shining privilege he now enjoys to be his as long as he should live. Being wise in his generation, he took the shining privilege, and now owns his home and is in comfortable circumstances.

Recently a traveler who had heard of him took opportunity while his shoes were being glossed to question the negro. "How does it come," he asked, "that you are always so happy? They tell me you have eleven children, and here you are crippled and maimed for life and have to work hard every day—most folks would think they had a right to be grouchy all the time."

"Hit 'em," don't you know," was the chuckling reply, "hit 'em no use for a feller 't kick—mo' special w'en he ain't got no laigs."—Louisville Times.

We have not asked you for that dollar or two that you owe us for so long that we have almost forgotten how to do it. But, anyway, if you are in town next fourth Monday, the big day of the year, try and drop around and leave a little of the amount with us. Our supply of prunes is about exhausted and it will be some time yet before May apples, paw-paws and black berries are ripe. Help us tide over till then and we will be very much obliged to you.

The Mayfield Messenger's rather lame support of Stanley and its fight against a platform convention before the primary is rather an amusing mixture. The Stanley crowd is whooping 'em up for the primary in hopes that a convention might be controlled by those forces and a declaration placed in the platform opposing state-wide prohibition. But the Messenger's support of Stanley at this stage of the game reminds us of the condition of a much battered auxiliary cruiser limping into port for repairs. In the senatorial race the Messenger fought Stanley "tooth and toe nail", but at present is at least a surface supporter of the Henderson man in his race for the Democratic nomination for governor. Haven't fully determined just what Jim is after yet, but rest assured his eye is on the pie counter.

Keeps their system clean and healthy and enables them to fatten quickly without falling a prey to the usual diseases. The B. A. Thomas Hog Powder is not stock food. It's straight medicine, and we took the agency because it enables you to feed out your hogs much earlier. -Sexton Bros.

### Where the Ocean is the Saltiest.

In the March American Magazine Cleveland Moffet, writing a remarkably entertaining article entitled, "Living Wonders of the Deep Sea," describes important discoveries recently made by oceanographers, fishing at a depth of three or four miles. In the following extract taken from his article Mr. Moffet describes discoveries oceanographers have made as to the salt in the sea:

"Another regular task of the oceanographers is to take obser-

vations of the saltiness of the sea, which varies greatly in different localities. They do this by sending down on the trawl fine brass specimen bottles arranged to fill and close at any desired depth. Thus it has been learned that the North Atlantic is considerably saltier than the North Pacific, and that the saltiest of all the great seas are the Mediterranean, the Red, and especially the Adriatic. Also, on either side of the equator, in both Atlantic and Pacific, there have been discovered 'trade wind patches' that are excessively salt. Some patient statistician has calculated that if all the salt in the sea were evaporated and spread over this country, it would cover the entire United States with salt more than a mile and a half deep."

### Negro Charged With Murder.

She was about 34 years of age and a well known young woman of that section of the county. The burial took place Saturday in the Almo cemetery after funeral services by Rev. Pool.

At a meeting of the board of trustees of the Hazel school district held last Saturday night, Prof. T. Rafe Jones was elected, by a unanimous vote, principal of the school for another year. Prof. Jones has demonstrated his ability as a teacher, and the Hazel school under his care the past year has forged to the front as one of the very best in this section of the state. Mr. Jones is the present representative from this county and is a candidate for re-election.

While in Murray recently Mr. A. L. Noe, general manager for the State Mutual Life Assurance Co., of Worcester, Mass., appointed the firm of Jordan & Falwell, of this city, district agents for the Purchase counties. This company is one of the oldest in the country, incorporated in 1844 and is one of the strongest and most conservatively managed companies of the nation today. The appointment of the local firm is a deserving one and the business of the company in their keeping will be given careful business attention.

Uncle Buck Hicks, who lives east of Murray several miles, was made very happy last week. Uncle Buck was 72 years old Thursday of last week and his neighbors and friends to the number of over half a hundred gathered at his home and spread a dinner, completely surprising their host. It was pronounced one of the most enjoyable occasions ever held in that section of the county and full justice was done the feast spread. Uncle Buck was filled with joy and his gratitude was boundless. He is an old confederate soldier and is one of those old soldiers for whom the State passed the pension law but it seems that Uncle Buck has not yet been able to secure favorable consideration upon his claims. He is a splendid citizen and the writer is glad to number him among his friends.

## A MURRAY INTERVIEW

Mr. Ellison Tells His Experience.

The following brief account of an interview with a Murray man several years ago, and its sequel, will be read with keen interest by every citizen.

J. A. Ellison, Murray, Ky., says: "I suffered for a long time from lame back and often was hardly able to stoop. The trouble was worse when I got up in the morning, in fact, often I was hardly able to get out of bed. I took a great many remedies, but had no benefit until I began using Doan's Kidney Pills. Before I had finished two boxes, I was feeling like a different man and all the symptoms of the trouble had gone. I have had no occasion to use any kidney remedy since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison had. Foster—Milburn Co., Props., Buffalo, N. Y.

## MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated,  
give "California Syrup  
of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs." Then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

## A BAD CASE AND ITS RELIEF

Lady Tells Details of Ten Years  
Of Suffering Which Now Lies  
Behind Her.

Wallace, Va.—Mrs. Mary Vest, of this town, says: "About ten years ago, I had very poor health, and for five years it steadily got worse. I could not stand on my feet. I got so I could only drag about in the room. Most of the time I was not able to do my work."

I had terrible bearing-down pains, my back ached all the time and was very weak. I could scarcely carry anything and suffered agony when I lifted anything. The muscles in my abdomen were so weak I could scarcely lift myself up straight, and I thought I would surely grow crooked. I had difficulty in walking, it was so painful. I suffered in hips and back and could hardly raise up at all. At times, I couldn't sit on the chair, would have to lie down. I was in such agony. I just sat around and cried.

At this time, about five years ago, I began to take Cardui, at my mother's insistence. After two or three weeks' use I saw an improvement. The pains passed. In two months I could walk without pain and could do most of my work. For about three years my improvement was steady and continued until I had back my health and strength.

The cure has been permanent, for I have been in good health for the past two years, due to my having taken Cardui, which effected the cure. All druggists sell Cardui. Try it—Adv.

I at once applied your Liniment to the affected part and in less than five minutes it was perfectly easy. I think it is the best of all Liniments I have ever used."

## IS NOT CONSISTENT

Foolish Criticism of President  
Wilson by Republicans.

Appointments of Trade Commissioners Have Been Wisely Made—Spirit of Progressiveness Is to Govern Its Actions.

The appointment by the president on the trade commission of one Republican Progressive and one pure Progressive is resented by a Republican newspaper as an extreme display of animosity to the Republicans. The showing of resentment is hardly consistent with the recent Republican claim that Progressives are safely back in the Republican party. So far as party division between Republicans and Progressives is concerned the selection seems a little slow in date. If the president wished to draw the distinction, he got in his selections fully three months behind time. If Republican organs wish to welcome the recent wanderers in strange political paths, they should make it plain that they do not grudge them an occasional share of the nice things in politics.

It is not possible to credit the president with a desire to inspire in the new commission a spirit of progressiveness that will govern its action? If we understand his position, the trade commission is one of the agencies by which he hopes to bring government and business into harmonious relations. We do not assume to define precisely how he expects the commission to perform that task. But, supposing it is to do work of importance, it is certainly legitimate to suppose that a man of progressive line of thought should be more valuable for its work.

**Reason for Good Cheer.**

The United States Steel company has more unfilled orders on hand now than at any previous time for a year.

The farmers of America have pocketed the record prices of a decade for everything but cotton and apples.

Every shipyard in the land is working overtime, trying to get out orders. The New Republic affirms that one of the shipbuilding concerns alone has enough contracts to keep 6,000 men busy for nearly three years.

With these facts in mind, will someone please rise and tell the excuse for keeping up talk about "depression" and hard times?

There isn't any excuse. Granting the waste and destruction of war, granting the unequal impact of high prices, granting all the deductions that must be made from what conditions would be if the death of an archduke had not been made the pretext for world strife, the fact remains that America has a solid basis and a very good superstructure of prosperity.

The tariff grafters who think to get back their ancient privileges by winning over hard times might as well stop their dolorous chorus and get to work. This country is going forward, not back, and Aldrichism already belongs to ancient history. Be cheerful and get busy.

**Tribute to Able Statesman.**

Among men in the United States who prefer country before party there will be general regret that with the ending of the last session of the Sixty-third congress there will be a possible ending of the public service of Senator Elihu Root of New York, whose term expires March 4. Mr. Root, though a strong party man, was greater and broader than his party. He did great service on exigent occasions in breaking away from partisan narrowness and helping to bring lesser men up to a plane of bolder and more beneficent statesmanship. Not only the great states he represented, but the whole country, will miss him. He has just passed his seventieth birthday, February 15, and is entitled to rest from his labors, but in the present perilous state of international affairs the fact that he is still within reach, when entangling complexities call for cool and capable adjustment, is a reassuring fact. His party has not an abler man left in its ranks—Philadelphia Record (Dem.).

**Flaw in His Argument.**

When President Alva Johnson of the Baldwin Locomotive works, gives the tariff as one of the three causes for the company's diminished operations in 1914 he ought to particularize a little. Certainly no locomotives have been imported to compete with those made by his corporation. If the prices of steel products have been brought down by a reduction in duties, that must have an advantage, not a detriment, to the Baldwin company as a purchaser. If memory does not fail us, the year 1905, following the Roosevelt panic of 1907, was one of unusual hardship for the company. Does Mr. Johnson attribute that to the Dingley tariff that was then in force?

**Steel Mills Again in Full Blast.**

"There is no better indication of a revival of business than in the activity of the steel mills," said J. G. Butler, Jr., vice-president of one of the large steel mills of Youngstown, Ohio. "Ever since the interstate commerce commission granted the requested increase in freight rates there has been an upward movement. Most of the big steel companies have taken back the employees they were obliged to lay off, and nearly all are running on full time. In my own city we are working at capacity."

## NO DOUBT THAT RESINOL DOES HEAL SICK SKIN

When you know physicians have prescribed resinol for 20 years in the treatment of eczema and other itching, burning, unsightly skin eruptions, and have written thousands of reports saying: "It is my regular prescription for itching," "Resinol has produced brilliant results," "The result it gave was marvelous in one of the worst cases of eczema," etc., etc., doesn't it make you feel that "this is the treatment I can rely on for MY skin-trouble?"

The moment resinol ointment touches itching skin, the itching stops and healing begins. With the aid of resinol soap, it almost always clears away every trace of eczema, ringworm, pimples, or other tormenting eruptions quickly, leaving the skin clear and healthy. Sold by all druggists.—Adv.

# A Message To Women

Those of Middle Age Especially.

When you have found no remedy for the horrors that oppress you during change of life, when through the long hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period.

Read what these three women say:

**From Mrs. Hornung, Buffalo, N. Y.**

BUFFALO, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak."

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. HORNUNG, 91 Stanton St., Buffalo, N. Y.

**Made Me Well and Strong.**

MACEDON, N. Y.—"I was all run down and very thin in flesh, nervous, no appetite, could not sleep and was weak, and felt badly all the time. The doctors said I had poor blood and what I had was turning to water. I took different medicines which did not help me, but Lydia E. Pinkham's Vegetable Compound made me well and strong, and I am recommending it to my friends."—Mrs. FRED CHACE, R. No. 2, Macedon, N. Y.

**The Change of Life.**

BELTSVILLE, Md.—"By the use of Lydia E. Pinkham's Vegetable Compound I have successfully passed through a most trying time, the Change of Life. ## FROM REMOTEST PARTS OF WORLD

Famous Medicine, Tanlac, Draws Ingredients From Distant Points.

Louisville, Ky., Jan., 17. - L. T. Cooper, the man who electrified the larger cities with his philanthropy, health theories and medicine, is now meeting hundreds daily in Louisville and explaining the nature of his celebrated preparation, Tanlac.

To a group of friends at the Seelbach, where he is stopping, Mr. Cooper stated that the medicinal elements or properties, which go to make up his medicine, Tanlac, came from many remote sections of the globe. The Alps, Appenines, Pyrenees, Russia Asia, Jamaica, Brazil, West Indies, Mountain States near the Rocky Mountains, Asia Minor, Persia, India, Russia, England, France, Germany, Mexico, Columbia and Peru were among the points he mentioned as furnishing the ingredients for the premier preparation.

In his principal laboratory, the roots, barks and flowers or the medicine in its rough, is assembled under the personal direction of a German chemist of note and skillfully made to obtain of the high state of efficiency that is shown by the uniform preparation, Tanlac.

In sterilized bottles made for the purpose, Tanlac is placed, labeled, inspected and then shipped out over the world where the demand requires.

Mr. Cooper, having made an extensive study of catarrhal affections, was asked to express himself upon that subject. He said:

"Most of the so-called stomach, liver and kidney troubles are due almost entirely to a catarrhal inflammation of those organs. The constant coughing up of mucus, dull, throbbing headaches, pains in the pit of the stomach, and the persistent susceptibility to coughs and colds, are common symptoms from which so many suffer."

"Tanlac, the preparation I am introducing to combat this condition, preserves your health, gives you renewed energy, brightens your spirits, lengthens your life and is an unmistakable, unfailing comfort to the thousands who suffer from catarrh and its distressing consequences."

Tanlac can now be bought in Murray at Dale & Stubblefield's drug store, exclusive agent.

## Look Out for Swindlers.

Farmers in different parts of the country are being made the victims of a swindle that is operated by some clever individuals that usually go in pairs. These swindlers, taking advantage of the present high prices for all food products, pass themselves as representatives of some mammoth grocery house in Chicago, which, on account of the great volume of its business, can and does sell groceries much cheaper than they can be bought for from the home merchant. They make flour and sugar the special bait as both of these commodities are high, and quotes such low prices on these products that many farmers have bought in liberal quantities and then many other things besides, all of which were, of course, "special bargains." Here comes the rub of the proposition: Because of the extremely low prices on flour and sugar, the farmer is told that these two items have to be paid for in advance, and many have done so. The rest of the groceries were to be sent C. O. D., but the trouble is that they were not sent at all, and those who were susceptible to the smooth talk of the smooth gentlemen were out their money, but never received any groceries. So, if the same proposition comes to you, you will know how to meet it.

Perry Melan and Family arrived here the first of the week from Central City where they have been residing for the past several months. His family will remain here for the present while Mr. Melan will be in Paducah where he accepted a position with the Evening Sun.
