A great deal of interest is being shown in the proposed
building of a new Fulton public library. Public opinion has
been so enthusiastic that a number of citizens have alrea-
dy subscribed to the fund in order to meet the expenses
connected with the construction of the new building.

Reds Intend To Stay
At Foreign Ministry hearing.

Mayor. Peter J. Coltas, announced on Monday that
an American representative of the Red Cross will be
sent to South Fulton citizens that
the city may provide proper care for
the sick and wounded.

It is important that those who are
interested in this matter be informed
of the decision made in connection
with the construction of the new public
library. A number of citizens have already
subscribed to the fund in order to meet the
expenses connected with the new building.

The Proof Of The Pudding
It's a common saying, 'the proof of the pudding is
in the eating.' The same is true of the Grain Belt.
A new plant is planned to be built in South Fulton,
designed to meet the needs of several editions of the
paper. It is to be located on the site of the old plant,
from which it is hoped will improve the efficiency and
increase the circulation of the paper.

The Portal Is Closing
The old Grain Belt press is to be replaced by a new
one in the near future. This will be a big change for
the paper and will improve its production.

With The Fourth Estate
The year 1941 is a significant one in the history of
the Fourth Estate. It marks the beginning of a new
era in the world of journalism. The press will play an
important role in shaping public opinion.
