FORBES & BRO.

Under the above caption the New York Journal a few days ago had the following:

"The trusts, we learn on their own authority, are merely 'capital's last development,' and anybody who objects to their activities is a 'pestiferous demagogue.'"

Time is looking up for the demagogue. He has long been in bad odor as a person of low cunning, playing upon the ignorance and passions of the people for his own advantage. Now, however, the name is to be applied to the citizen who protests against the spoliation of the many by the leagued few.

who objects to the Government being seized by wealth and run as an agency to increase wealth's illegitimate profits; who defends the rights of the public against the rights of private interests. If to be that is to be a demagogue (and the trusts insist upon this definition) the difference between demagogue and patriot disappears.

Consulting the same dictionary, we find that the citizen who knuckles humbly to the trusts, the lawyer who hires out his brain and tongue to them, the politician who in return for his service asks their support, the official who becomes their lackey—we find that all these are good men, deserving well of their country. Similarly, the newspaper which acts as the attorney, the value of predatory wealth, represents the public, high minded, conservative press, whereas the newspaper that could hear of, but got no relief; the citizen who sits up in a chair; was induced to try Dr. King's New Discovery, and was cured by it of two bottles. For past three years he has been attending to business, and says Dr. King's New Discovery is the greatest remedy ever made, and for others in his community. Dr. King's New Discovery is guaranteed for cough, cold and consumption. It doesn't fail. Trial bottles free at R. C. Hardwick's drug store.

NEIGHBORHOOD NEWS

Happenings at Lafayette, Cadiz, Elton, Dawson and Other Pennycuik Towns.

A \$10,000 fire happened at Crofton Friday morning.

The big merchandise establishment of David Bourland, and a warehouse, in which a large lot of farm implements were stored, of J. E. Croft were consumed together with nearly all of their contents.

When the fire was discovered the flames had almost gutted the Bourland store, and spread rapidly to the warehouse.

The citizens turned out en masse and worked hard, but were unable to save the buildings.

Fortunately no wind was blowing, otherwise several frame residences located near the burning stores would have been destroyed.

It is believed that the fire was of incendiary origin.

Mr. Bourland's loss is not less than \$5,000. He has \$4,000 insurance with Higgins & Son, and \$2,500 with Callis & Wallace.

Mr. Croft's loss is between \$1,500 and \$2,000, with no insurance.

OUR ABUSED LIVERS.

REV. DR. TALMAGE ON THE HEALTH OF THE BODY.

A sermon that mostly concerns this life, yet spiritual and physical conditions are largely dependent upon each other.

WASHINGTON, May 16.—Dr. Talmage's sermon of today has come to us with a warning against all forms of dissipation. That, however, is not the main point of his message. He has shown us that the body and the soul are so interwoven that the health of the one is dependent upon the health of the other. He has shown us that the liver is the great center of the body, and that it is the duty of every man to keep it in good health. He has shown us that the liver is the great center of the body, and that it is the duty of every man to keep it in good health.

In the text he reveals that he has studied the largest gland of the human system, the liver, and that he has found it to be the great center of the body. He has found it to be the great center of the body, and that it is the duty of every man to keep it in good health. He has found it to be the great center of the body, and that it is the duty of every man to keep it in good health.

Galen and Hippocrates ascribe to the liver the most of the world's ills. It is the great center of the body, and it is the duty of every man to keep it in good health. It is the great center of the body, and it is the duty of every man to keep it in good health. It is the great center of the body, and it is the duty of every man to keep it in good health.

When the doctor keeps of congress fell from the scene, it was because of the liver. It was the liver that was the cause of the trouble, and it is the liver that is the cause of the trouble. It was the liver that was the cause of the trouble, and it is the liver that is the cause of the trouble.

And the liver is the great center of the body, and it is the duty of every man to keep it in good health. It is the great center of the body, and it is the duty of every man to keep it in good health. It is the great center of the body, and it is the duty of every man to keep it in good health.

First, let the sufferer avoid the mistake that they are all wrong. It is not the liver that is the cause of the trouble, but it is the liver that is the cause of the trouble. It is not the liver that is the cause of the trouble, but it is the liver that is the cause of the trouble.

My friend, Rev. Dr. Joseph P. Jones of Philadelphia, a trained spiritualist, wrote a book entitled, "Man, Moral and Physical," in which he shows how different people are. He shows how different people are, and he shows how different people are. He shows how different people are, and he shows how different people are.

So, my brother, the road you are traveling is the same as the road that I am traveling. It is the same as the road that I am traveling, and it is the same as the road that I am traveling. It is the same as the road that I am traveling, and it is the same as the road that I am traveling.
