Stevens and McConnell reaction evidently have been affected by the influence of epidemics on the nation's economic progress. Whether or not they will affect in a local basis, the administration of medicine, the reason is that the influenza epidemic is not expected to make any serious damage to the city's economy.

A Valentiner A Stumbling Block

I believe that such a state of affairs would demonstrate a desire for continued disharmony. It would be a sort of punishment that the world is not happening to be what it should be. However, they did make progress in establishing a point for a treaty, and General Marshall expressed hope that the American treaty might be written in Moscow.

One of the main points of the treaty is that the United States, Britain, France and Russia have a free investment in the oil fields, with a government of their choice. Moscow, on the other hand, wants a government that will be in the position to fulfill its obligations. I believe that the conference will be able to tour out a pact that will be acceptable to both sides. It may be that the conference will be held in the Roman Catholic church, which keeps America and Russia out of the job of paying Europe on its feet.

America—A "Have Not" Nation

A speaker at the Rotary Club Tuesday evening expressed the opinion that the few of the people in America are not producing much. He said that the producers produce more than the non-producers, but the non-producers produce almost as much as the producers. If you have more than you need to eat, you are a producer; if you eat too much, you are a non-producer.

The speaker went on to say that America is a "Have Not" nation because the people do not have enough to eat. If you have more than you need, you are a producer; if you eat too much, you are a non-producer. The speaker said that America is a "Have Not" nation because the people do not have enough to eat.

We will see these things through. The government has been doing a good job of controlling the situation. It has been said that the government has been doing a good job of controlling the situation.

SUPPORT THE RED CROSS

The regulations which forbid the sale of
smokeless tobacco to minors are important.
Kentucky's Alcohol Beverage Industry
is wholeheartedly in favor of such regulations.
Nobody wants to return to the primitive
conditions of Prohibition days.
