Wedding Of Convenience

A number of Kentucky Democrats during their week at the national political convention in Chicago opposed the practice of the party's 1946 convention of concluding all its business in one day by the adoption of its platform. Strict time limits for debate were evident for this purpose. But while in Chicago, Senator John B. Stennis, of Mississippi, supported the practice of holding the convention in one day, as an efficient procedure. He was quoted as saying that the Democrats' platform was "as long as an album." When the platform was adopted, Senator Stennis sneered at the "insanity."
