Capt. James Is Here On Way to Labrador

Martha Lou and Jim James, and their daughters, Celia, 6, and Nancy, 4, are visiting Martha Lou's mother, Mrs. T. A. Chambers, 209 W. 12th street, Benton.

The married couple, Capt. James, who is a captain in the U. S. Air Force, has been reassigned from the 42nd Bomb Wing, Loring Air Force Base, Maine, to the 4082nd Strategic Wing, Goose Air Base, Labrador.

Both are Strategic Air Command units.

Jim will leave for McGuire Air Force Base, New Jersey, the first week of October, and fly from there to Goose Bay, Labrador, and the girls will remain here for a few months before joining him, as Jim must put his name on a waiting list for the limited number of government quarters at Goose.

Celia has entered the first grade at the Benton school.

Cold and snow—an accumulation of 3 to 4 feet last winter—did not stop Lou from being active. During their 2 1/2-year stay at Loring, Lou taught in the Sunday School and sang in the choir of the United Baptist Church of Caribou (the town mentioned in the weather report).

Jim's position at Goose will be Information Officer, the same that he held during the 2 1/2 years at Loring. His duties will include supervision of the Goose television station (an Armed Forces radio and television service outlet), the weekly history of the 4082nd Strategic Wing.

Pinball Machine Seized In Calvert; Cafe Man Charged

County officials seized a pinball machine at the Gypsy Tearoom in Calvert City this week and charged George Lucas, operator of the tearoom, with operating a gambling machine.

Lucas made a \$1,000 bond when arraigned before County Judge Artelle Halton. His case will be investigated by the grand jury at the October term of Marshall Circuit Court.

Lucas is accused of making cash payments to a player who won on the pinball machine.

Last week, County Attorney Marvin Prince, County Judge-elect John Rayburn and County Sheriff-elect Sam Myers went to Frankfort and checked on gambling stamps issued to Marshall County persons.

They learned that two such stamps had been issued, one to Lucas and one to Nath King, operator of a pool hall at Calvert City, Prince said.

After returning from Frankfort, Prince said, he made a trip to Calvert City and asked that pinball machines be removed.

While visiting the Gypsy Tearoom, Prince said, a cash payoff was made to a player of a pinball machine.

The county attorney returned to Benton, and a warrant was issued for Lucas and the pinball machine was seized and brought to the courthouse.

Police Give Warning On Double Parking

Motorists who double-park on Benton's Court Square were warned this week by Police Chief Charles Carrell to stop the practice.

20 Years Ago

Twenty years ago (1941) war was flaming over Europe and this country was getting ready to enter World War 2. And the first Selective Service GI from Benton, had written home from Port Knox that he had been promoted to buck sergeant.

Today (1961) the sons of World War 2 veterans are beginning to wonder if they are to be called to fight World War 3.

TVA was working furiously to clear land to make way for big Kentucky Lake. And timber makes good fire wood.

So the farmers in the Aurora section were getting for FREE all the fire wood they could haul home. They were happy.

in Louisville. Joe Duke, age teacher here in those days, went to Louisville with the Henson lad for the FFA event.

Mr. and Mrs. Harley Houser had opened a cafe in Benton. It was located back of the old Benton theater.

Robert B. Holland, son of Mr. and Mrs. H. B. Holland of Benton, had been graduated from Air Force flying school at Barksdale Field in Louisiana. He previously had been a student and football player at Western State College, Bowling Green.

S. J. Rudd had celebrated his 68th birth anniversary. Friends and relatives gathered at his home for a big dinner.

County Agent Homer Miller (how long has that guy been around) was passing out cigars in celebration of the birth of a son, James Ronald, at Fuller-Gilliam Hospital in Mayfield.

Family Finances

Don't try to keep up with the Joneses! When your neighbor makes an addition to his home, takes an expensive vacation or gets a new car, resist that strong temptation to imitate or go him one better. This can quickly tax your budget and make you spend your income contrary to your own real tastes. Besides, Jones may just naturally have more money and you may never be able to really catch up.

Instead, make a list of the expenditures you feel are really important to you. They may not be items you can show off in front of your home but they should be ones which give you a basis for real security.

Forget the temptation to keep up with anyone — BUT YOURSELF. This will help assure the stability of your own economy, and is bound to be a lot more satisfying to you.

LEE CURTIS
Paducah Manager

TWO MILLIONTH SHARE OWNER! The owners of A. T. & T. stock now number 2,000,000 — people from all parts of the country, all walks of life. A great many are small share owners. 335,000 people hold between one and ten shares. And some are "small" in another way—quite a few BABIES own shares given them by proud relatives! In addition, more than 300,000 Bell System employees own A. T. & T. stock purchased through payroll allotments. Needless to say, we phone company employees are mighty proud of this convincing vote of confidence for our business.

SEPTEMBER SONG—School bells are ringing again and they remind me of the unusual way students at the Glen Ridge, N. J. High School use telephones. Members of the Senior Class interview leaders in government, business, labor and finance by phone as part of a course in American Economic History! The telephone interviews are conducted in the class by an extension from the school's switchboard with an amplifier to allow students to hear the conversation!

TALK, TALK, TALK—A survey has brought out the startling information that the average man, in his lifetime, spends 8,760 hours telephoning—the equivalent of one full year! It didn't mention how much time was spent in getting to the phone when it rings. If it did, we're sure the figures would persuade everyone to have phones in convenient locations—at home and at work!

SPEAKING OF EXTENSIONS—

isn't now a good time to go ahead and install that Princess Phone in the bedroom? Besides saving time and steps, a bedroom extension gives you a wonderful sense of security on nights when you're alone. Just give us a call, and we'll install a Princess—in the color of your choice—right away.

SO MUCH FOR SO LITTLE. What is it that works for you 24 hours a day, every day of the year, and never costs you a penny extra? Your telephone! Talk about a bargain! You can make as many local calls as you like—use your phone for all it's worth—at no extra cost. Maintenance is never a problem, either. Your telephone company is ready around-the-clock, around-the-year to keep your service trouble-free.

Do You Remember?

How's your memory? Remember when you wound up the Victrola after each record? ... Folks went to the park for the band concert—though you could hear it anywhere in town? ... And how you tuned in your squeaking Atwater Kent radio?

What was the name of the pianist who played at the William S. Hart shows? ... Remember when gals wore black bloomers? ... Have you forgotten the town supported two blacksmith shops? ... The nights when dad brought ice cream home and you had to eat it before dinner, or it melted? ... Is the town depot still there—the one where you had to go send a telegram—but no one ever did unless someone died? ... And whatever happened to the retired brakeman, the one who shuffled out of the little house at trackside—and held up the "Stop" sign while the 4:38 clanged through town? ... Were not those the days when doctors wore beards? ...

Test your memory: remember when Happy Hooligan was your favorite comic strip? ... Farmers grew any crop they wanted and got whatever they could for it? ... When you shunned friends after a haircut because you smelled like a girl? ... The day you sipped your first soda

seated on a wire chair at the drug store? ... Remember how the richest man on your block drove a Chandler—with a red light on one running board and a green one on the other? ... And you cranked your Model T and held the choke via a two-party system? ... The afternoon you ran two miles to watch a plane land in a pasture? ...

When you first had the house wired for electricity, didn't it come on at 6 p. m. and go off at 11? ... Who can forget the poor postman—who had to deliver the boxes of baby chicks the same day they arrived in town? ... Didn't he bring you the BB gun you got for selling 436 packets of garden seed? ... Those were the days, we remember, when na diaper was always three-cornered ... When a dime bought 100 "ladyfingers" on the 4th of July and lasted until breakfast ... When corn cobs made good kindling for the

Huge Watermelons Grown Near Hardin By Clarence Grubbs

Home grown watermelons are plentiful now in Marshall County, and some of them are really whoppers.

Clarence Grubbs of Hardin Route 1 brought five big melons to Benton last Friday. The melons weighed from 48 to 68 pounds each. And they were dandies.

Mr. Grubbs raised three-fourths of an acre of watermelons on his place on Hardin Route 1 near Jonathan Creek. He said it was the best crop of melons he ever raised.

Mr. Grubbs recently moved back to Marshall County from Michigan, where he worked for U. S. Rubber Co. for 31 years. He's retired now on a company pension and Social Security, and plans next year to raise another big crop of melons.

Mr. Grubbs said he's been reading the bank ads in them big Sunday papers and he ain't saw a single one that didn't list four or five vice presidents. Everybody knows, says Ed, that all banks is making money, paying dividends and ain't never been known to operate in the red.

It's on account of them vice presidents claims Ed. If a bank needs four or five vice presidents to operate real good, Ed allows

as how the Government will never git the budget balanced with just one.

Then Clem Webster shook up the meeting with the news that this feller James Patton, head of the National Farmers Union, is asking the Congress to make it unlawful to farm without a license. He claims that farmers can't practice law or medicine and it ain't right fer lawyers and doctors to be raising their own vegetables.

All the fellers was in favor of this license business and Zeke Grubb said he was going to write his Congressman right away.

A rancher can't run an extension cord to his barn on account of him not having a electric license, and I don't see how come them electric fellers has any right to be raising their own peas and corn without a farm license.

In some states a farmer ain't allowed to unstop his kitchen sink without calling a plumber, and a plumber ain't got no right to be hurting the price of beef fer raising himself a steer.

They ought to be certain requirements afore you city fellers can git a license to lift a hoe. I'd say offhand that you ought to have at least two hogs, a silo, two hound dogs, a cow, 40 hens, and a rooster that crows fer 20 minutes at daylight.

On top of that, you ought to have to fill out them rotating and estimating forms and read all them pamphlets they send out from the farm agencies.

I'm in favor of making doctors, lawyers, plumbers, barbers and all them other professions that protects their business with licenses, stay out of the farm business. It ought to be a \$10 fine fer a doctor to even raise a blue-top turnip. Us farmers need some protection in this business.

And speaking of protection, it's gitting to be a pretty complicated item in Washington. Fer instant, Bobby Kennedy is aiming to indict a heap of folks fer fixing prices outside the farm and brother Jack is workin on plans to fix prices inside the farm. You figger it out, Mister Editor.

Yours truly, Uncle Ned.

DEAR MISTER EDITOR: Several serious items was took up by the fellers at the country store Saturday night. First off, Ed Doolittle announced he has discovered accidental a important weakness in our form of Government.
