Don Travis Wins Puerto Rico Trip

Donald Travis, a partner in the firm of Radio Service Center with Jack Proctor, has won an all-expense-paid trip to Puerto Rico.

Donald won the trip for outstanding sales of the RCA Whirlpool line, ranking 6th in the entire Memphis district of RCA. And incidentally, it was the first year that Radio Service Center had sold the RCA Whirlpool lines of refrigerators, washers, etc.

Donald will leave Memphis by jet plane next Wednesday, Oct. 18, for Puerto Rico. He will stay at the famous Casa Blanca Hotel in San Juan, along with the other salesmen who won the trip.

Travis and Proctor have been operating Radio Center for 11 years, and a few months ago moved into their handsome new quarters on North Main St. in Benton.

GAF Will Build Big Addition

General Aniline & Film Corp. soon will build an expensive addition to its Calvert City plant, Board Chairman John Snyder announced last week.

The expansion will cost "several million dollars" and actual construction is expected to get under way about the first of next year.

The new facility will increase the GAF Calvert City payroll by 50 per cent. One hundred seventy-six employees work at the plant now.

Lester B. Woolfenden, GAF plant manager, said the 50 per cent pickup in employment "will be over a period of several years."

Also, the addition will turn Calvert City GAF into a "prime" chemical plant. It now is what is known in the chemical world as a "satellite."

As a prime plant GAF will require "satellites" of its own.

The chairman said Calvert City was selected for the expansion because the plant is the newest of the GAF installations. Also, he added, "it encompasses new types of chemicals not found anywhere else in this country."

The chemicals include "brand new derivatives from acetylene" and other chemicals which are making a spectacular rise on the consumer market.

Snyder, who said he was elated over his company's record and prospects, in the immediate future, cited GAF's ability to create new products, and do so in large volumes.

He termed GAF's four expansions in five years as "amazing."

Calvert City GAF operates entirely in the field of acetylene chemicals.

He said he couldn't say just how much the new building will cost but that the expansion would be the largest of four made by the company since the Calvert City plant was built in 1955 and opened in 1956.

The most expensive of the other three expansion projects cost about a million dollars.

"This one will cost several million," said Snyder.

Bill Osborne Semifinalist In Merit Tests

Principal Reed Conder of South Marshall High School has announced that one of the school's students has been given recognition for high achievement in the initial stage of the seventh annual National Merit Scholarship competition.

Osborne was one of approximately 10,000 seniors throughout the country who attained semifinalist status through high scores on the qualifying examination, a test of educational development given last March in more than 15,000 high schools.

The semifinalists will take another examination Dec. 2, 1961.

Students whose scores on the second test substantiate their performance on the qualifying test and who are endorsed by their high schools will become finalists in the competition. In past years more than 97 per cent of the semifinalists have become finalists.

Uncle Ned . . . From Dogtown

DEAR MISTER EDITOR:

I see where one of them column writers says the 16th Amendment that gave the Federal Government the right to levy income taxes came to only 31 words. That was in 1913, and in 48 years the laws covering the collection of them taxes now runs to 440,000 words.

He claims a good tax lawyer can take them 440,000 words and do a marvelous job for his client.

The great trouble, Mister Editor, is that our pore folks can't afford to hire a tax lawyer. I see, for instance, where the lawyers for a Hollywood movie actor is trying to get a \$32,000 refund on his income taxes on account of what he spent taking glamour gals to night clubs.

His lawyers is claiming it's part of his business to make these social contacts. And the chances are that he'll get the refund.

I don't care how much refund he gets, but it just goes to show you how complicated them 31 words has got in 48 years. I reckon that feller got a few hand-squeezes and some Sears & Roebuck kisses from them glamor gals, but if he gets \$32,000 out of the deal, he's doing pretty good.

Back in my day, afore we got them 440,000 words, if you took a gal to the county fair and bought her a red lemonade, the only reward you got was to take her home, set under the shade

of a tree and squeeze the lemonade out of her—the gal, not the tree. I doubt if the national debt was more'n \$32,000 at that time.

It seems to me that we got a nation-wide conspiracy going on in this country to crush the pore man with high-faluting words and complicated red tape. Take, for instance, the liability insurance policy I carry on that old beat up car of mine. I never drive more'n 25 mile a hour on account of knowing what kind of forms I'll have to fill out if I have an accident.

Well, Zeke Grubb's preacher come by the store fer a few minutes again Saturday night. Said he couldn't stay long on account of being on his way to perform a wedding ceremony. But he stayed long enough to give the fellers a few tips on matrimony. He allowed as how wedding rings was now gitting so small it took a magnifying glass to see 'em. He claims a preacher has to wear his bifocals at the ceremony to tell when the ring is put on. They ain't meant to last more'n a few years, he says, on account of folks changing wives and husbands so often.

Back in the old days they made 'em thick and heavy because they was meant to last a lifetime.

What we need today he claims is a old style wedding ring, a heavy one that keeps the wimmin folks steady and weighed down in the home.

He talks mighty brave, Mister Editor, fer a feller that's got a small house and big wife.

Yours truly,

Uncle Ned.

20 Years Ago

Twenty years ago, the "dry" forces in Marshall County were presenting the "Prisoner at the Bar" at schools and churches throughout the county. In the cast of characters were Walter Prince, Revs. Roy Williams, L. G. Gatlin and E. A. Phillips, Carl Seay, Mr. and Mrs. Walter Hoshal and Mrs. Gatlin.

Marshall County folks living in Washington, D. C., had held a big picnic and E. F. Blomington had written a story for the paper.

Those enjoying the picnic back in 1941 were:

Mr. and Mrs. E. F. Blomington, Mr. and Mrs. Guy Blomington, Messrs. Joe Wayne and Wendell Blomington, Miss Mary A. Blomington, Mr. and Mrs. Virgil Brown, Mrs. Modena M. Chester, Mr. George Cooper, Mrs. Molly Cooper, Mr. Stanley Cothan, Mr. and Mrs. J. A. Cotton, Miss Donna Cot-

ton, Mr. Crate Crowell, Mr. John Duley, Mrs. Pearl Duley, Mr. and Mrs. Archie Ford and children, Betty and Douglas, Mr. William Greenwald (visitor), Mrs. Kelly Griffith, Mr. Kelly Griffith Jr., Miss Lera Griffith, Mr. and Mrs. Terry Griffith, Miss Shelby Griffith.

Mr. Elmer Grimes (visitor), Mr. and Mrs. Eulis Harrison, Mr. Delmer Harrison, Mr. James Harrison, Mr. and Mrs. Reece Harrison, Miss June Harrison, Mr. Wally Hitchcock (visitor), Mrs. J. H. Horton, Misses Mary Alice and Ruby Nell Karnes, Miss Opal Kilsay (visitor), Mrs. Otis L. Mohundro, Miss Sarah Ruth Mohundro, Mr. Carl Pullen (visitor), Mr. and Mrs. S. A. Shelton (visitors), Miss Pauline Shelton, Master Sergeant and Mrs. Joseph Story, Miss Ruby Story, Mr. Milton Stovall (visitor), Mr. and Mrs. Gay G. Walker, Misses Mary Louise and

Norma Walker, Messrs. John Chas. and Clay G. Jr. Walker.

A new farm building has been completed at Sharpe High School. The National Youth Administration (remember that one?) furnished the labor. Louie Bradley was NYA superintendent.

Holland Rose had been elected president of the First District Education Association at its meeting held in Murray.

Joe Little, son of Mr. and Mrs. Hardy Little, had been elected vice-president of the student council at Murray College.

A new game warden had been named for Marshall County. He was J. D. Woods of Gilbertsville.

The Birmingham correspondent reported that only 35 stu-

dents were enrolled in the high school—because TVA had bought the town, including the school. The correspondent reported that Birmingham folks "were moving to their new homes with sorrow in their hearts."

The Briensburg correspondent reported that Brent Hastings had returned to Tulsa, Okla., after visiting his brother and sister, S. A. Hastings and Miss Lizzie Hastings.

Also that Mr. and Mrs. Marvin Culp had had as their Sunday guests: Mr. and Mrs. Herman Holley, Mr. and Mrs. Lum Holley, Mr. and Mrs. John Houston, Mr. and Mrs. Wes Johnson, Mr. and Mrs. F. N. Holley and Mrs. Florence Heath.

And that's all the 1941 news for now. See you soon.

LOOK AT PLYMOUTH NOW! BOYD MOTOR CO.

at Benton, Ky.

Come in and take a good look at the car that makes the beautiful difference in the low-price field!

This year, beyond any doubt, the real luxury car of the low-price field is '62 Plymouth. Beautifully different outside, with crisp, new, action-inclined lines—richly new inside, with handsome, color-harmonized fabrics.

BEAUTIFUL—AND BUILT TO LAST

Most outstanding of all, however, is the lasting character of Plymouth's new beauty. Built in by Chrysler Corporation's quality-engineering, it is evident in Plymouth's Unibody construction, Torsion-Aire suspension, and battery-saving alternator. It is further apparent in '62 Plymouth's new, pre-lubrication system,

that permits 32,000 miles between "lube jobs" on major chassis points—its new, twice-as-long oil change interval—and many more quality-engineered refinements.

Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.

ASC News & Facts

R. O. Wilson, chairman of the ASC State Committee, has announced that ASC county offices have been making final 1961 feed grain payments to farmers who reduced their plantings of corn and grain sorghum.

Final payments should exceed seven million dollars, which means that Kentucky farmers will receive a total payment, including the advance made to them at the time they signed their applications, of approximately 15 million dollars.

Latest production figures indicate that 1961 corn production in Kentucky will be reduced 21-999,000 bushels below the 1960 production, in spite of an all time record yield expected for the 1961 crop. The 1961 crop grain sorghum production is being reduced 264,000 bushels.

This amounts to a 25 per cent reduction in the 1961 Kentucky corn and grain sorghum production.

Payments are being made in certificates that are redeemable in government grain or the farmer can surrender the certificate to the county office for cash and authorize the Secretary of Agriculture to sell the corn for him.

The feed grain program is a self-supporting program as all money paid out under the Program will come from selling CCC stocks of grain.

Wilson said the objectives of the program had been met as it has definitely increased farm income, prevented further build-up of feed grain surplus, and helped assure the consumer of fair and stable prices for meat, poultry and dairy products. The program has also meant a savings of 500 million dollars to the taxpayers.

Wilson went on to say that the 1961 feed grain program was such a success that Congress has extended the program for another year and has added barley to the feed grains which may be taken out of production. Also, the Congress has made available a wheat stabilization program that is similar to the 1961 feed grain program.

Wilson said that ASC county offices are in the process of taking applications for the reduction of 1962 crop barley and wheat, and that they will continue taking applications through Dec. 1, 1961. Sign-up period for corn and grain sorghum will be conducted in the Spring of 1962. Sign-up dates will be announced later.

Marshall County farmers who have complied with the 1961 feed grain programs are receiving their payments now. The total payment for the county including the advance payment made last Spring for the feed grain program, will be approximately \$200,000. An additional \$12,000 will be paid to wheat farmers if they will divert their maximum acreage under the new wheat stabilization program.

Children home alone, the youngest ones especially, would be helpless to escape if fire should strike while you're away.

This tragedy happens every day and actually is the cause of one out of every three child fire deaths.

Never leave small children alone. Even if it is necessary to leave the house for only a few minutes ask a neighbor to stay with the children. And whenever you must go out for a longer time, leave the children in the care of a baby sitter who not only has been told what to do in case of fire but who is also physically and mentally capable of carrying out such instructions.
