Waterfield Promises To Be On Side Of People," Against Privileged Interests In Race

Bases Plea For Support On His Record In Office To Prevent Derogation

A resolution of the Kentucky General Assembly that was introduced in the state house of representatives in Frankfort Tuesday, March 24, is an effort by Representative Waterfield of Fulton to assure the Democratic party that he will not be affected by the outrage over his spending a mother's inheritance.

Waterfield announced in his address to the committee that he will not be affected by the outrage over his spending a mother's inheritance.

"I have had a check on my spending a mother's inheritance," Waterfield said. "It is not my fault, but mine.

"I have been on the side of people, and against the interests of the privileged race.

"I have been on the side of people, and against the interests of the privileged race.

"I have been on the side of people, and against the interests of the privileged race.

"I have been on the side of people, and against the interests of the privileged race.

"I have been on the side of people, and against the interests of the privileged race.

"I have been on the side of people, and against the interests of the privileged race.

"I have been on the side of people, and against the interests of the privileged race.

Aiming At Communism

President Truman's order for a housecleaning among government employees which placed the label "disloyal" on any one who became a member of a Communist organization, is a move toward the recognition of the importance of the status of the individual and the need to establish a clear-cut definition of the word "disloyal." The order is to be applied to any person who, in the opinion of the government, is or has been a member of a Communist organization.

The order is to be applied to any person who, in the opinion of the government, is or has been a member of a Communist organization.

One story is that modern communism is to be replaced by a more democratic system, in which individuals are given the right to express their opinions freely. The government, however, has not yet clarified what it means by "disloyal." The order is to be applied to any person who, in the opinion of the government, is or has been a member of a Communist organization.

The order is to be applied to any person who, in the opinion of the government, is or has been a member of a Communist organization.

Gigantic Windmills Suggested To Produce Cheap Electricity

By Robert E. Cooper

Washington Special

Underwood

To harness the energy of the wind, it would be necessary to build a tower 250 feet high. Each blade on a windmill would have a capacity of 6,500 cubic feet of air per minute and would cover an area of 750 square feet. Each windmill would generate 2500 horsepower. The capacity of a windmill is limited by the height of the tower and the weight of the blades. The windmills, generator and other equipment required to prove the feasibility of cheap electricity from wind power would cost about $500,000. The windmills would be installed in areas where the wind blows at a constant rate of 10 miles per hour.

The wind has been used to produce electricity in the past, but the results have been disappointing. The wind is a variable energy source, and it is difficult to predict how much power it will generate at any given time. The windmills suggested by Robert E. Cooper would be able to generate electricity consistently, even in areas where the wind is not always strong.

The windmills would be installed on towers 250 feet high, with each blade covering an area of 750 square feet. Each windmill would generate 2500 horsepower, and the capacity of a windmill is limited by the height of the tower and the weight of the blades. The windmills would be installed in areas where the wind blows at a constant rate of 10 miles per hour. The windmills, generator and other equipment required to prove the feasibility of cheap electricity from wind power would cost about $500,000.
