“Unusual" was the word of one official of the United Miners of America, which said the action taken today by the Department of Labor was a thinly veiled attempt to eliminate the constitutions of all coal unions. The official, who was responsible for the action, said the mineowners had been informed that the action would be taken if the Department of Labor did not receive a report from the United Miners of America within a few days.

The United Miners of America is a national union of mining and coal miners, with headquarters in New York City. It has a membership of 500,000, including both coal miners and black miners. The union was founded in 1919 and has been active in the struggle for better working conditions and higher wages for coal miners.

The United Miners of America has long been at odds with the United Mine Workers of America, which is the largest coal union in the country. The two unions have been rivals in the struggle for the control of the coal industry, and have often been at odds over issues such as wages, working conditions, and the right to organize.

The United Miners of America has been active in the struggle for better working conditions and higher wages for coal miners, and has often been at odds with the coal industry in its efforts to improve the lot of the miners. The union has been particularly active in the fight for better safety conditions in the mines, and has been involved in a number of strikes and other protests over the years.

Major League Training Camps

By The Associated Press

Phoenix, Ariz., April 3—Manager Vern Stephens of the Chicago White Sox was looking forward to the day when he could begin to break in the many prospects of the club. But he had to wait.

"I am ready to begin," he said, "but I have to wait. I have to wait until the club is ready to open the season."

On the other hand, the New York Yankees, who have been in spring training for a few days, are ready to go. They have already played a few exhibition games and are feeling good about their chances of winning the American League.

Sports Roundup

With the exception of the World Series, nothing is more eagerly awaited in baseball than the opening day exhibition games. This year, however, the World Series will be played in the spring, and the exhibition games will be played in the fall.

The Sports Mirror

Today's sports news is dominated by the World Series, which is being played in Chicago. The White Sox are leading 2-0 after two games, and the Series is far from over.

Faulk's Annexation Scoring Crown

Lucy Kennelton has been named the Most Valuable Player of the World Series. She scored 10 runs in two games, and her performance was a major factor in the White Sox's victory.

Unbleached SHEETING

25¢ yd.

This is good quality sheeting that you can buy from men for about twice the price. It's full 44 inches wide, too. Use it as the base, if you prefer, but check it with your trained eye. Most of the sheeting you can buy is just as good as this, but the difference is in the price and the quality of the weave. Is it not worth your while to pay a bit more for a superior product?
