Detroi., April 9—(P)—Henry At midnight tonight, the vast Ford, honored in death as he was in life, received the final tributes today of his fellow roving watchmen will light the plants across the nation and workers.

Milan, Tenn., April 9—(P)—Bishop W. T. Watkins, presiding bishop of the Louisville district, will address a meeting of Methority and only the lamps of roving watchmen will light the plants across the nation and tonight.

The Memphis conference of Women's Society of Christian Service opened a three-day meeting yesterday.

Bishop Watkins will speak on

Truman Plans All-Out Attack On High Prices Wage Stability

Before Cabinet

APPEALS TO INDUSTRY

cabinet to an extraordinary mid-week session today to draw battie plans for an attack on lofty prices—now at their highest point since boom-and-bust 1920.

"Wage uncertainty" appeared certain to be a prime discussion point among members of the chief executive's official family during the White House huddle set to begin at 9 a.m. C.S.T.
Edwin G. Nourse, chairman of
the President's Council of Economic Advisers, told a reporter in advance of the meeting that the wage question is one of the obstancles to price cuts by in-

Nourse was asked by Mr. Truman to discuss the problem with his top-level government policy makers after the economist sub-mitted a memorandum to the President yesterday on what he called the "serious" inflation-

ary threat.
"The President wants to can-vass the situation with the cabinet." Nourse said later. "The question in mind is whether ofquestion in mind is whether of-ficial steps should be taken."

From Capitol Hill came one challenge to the view that the government should take any steps. Rep. Mason (R-III), de-cried the "mistaken notion that a mythical, paternalistic Uncle Sam has magical powers to bring about higher wages and lower

The housewife has the reme-dy in her own hands, Mason said in a statement.

This Might Pave Way For Decision On Other Points CONCILIATORS BUSY

Washington, April 9-(AP)-A crack in the telephone strike deadlock was reported possible within hours today as negotiators went on with day and night the negotiations on long distance

Persons in close touch with the negotiations on lng distance lines phases of the national dispute said the only obstacle to a strike-settling agreement for that industry segment was: Who will pay the cost of arbitrating about five issues between

American Telephone and Telegraph Company's long distance division and the American Union of Telephone Workers? With that question settled, the informants said. the proposed agreement could be re-ferred to the policy committee

of the 49-union National Federation of Telephone Workers for approval. The policy committee had scheduled a meeting at 2 An agreement as to long distance lines would leave strikes of various local Bell System operators unsettled but might pave the way for settlement of p. m. (CST).

the entire strike.

As for the money to pay arbitration costs, these informants predicted:

It will come from somewhere." At a night session running far into the morning, it was learned, federal conclusions wrote a 101-point contract for the long-lines dispute. It would have left a few of the national issues to be settled by arbitration.

settled by arbitration.

The the question arose of who would pay arbitration costs which might run \$20,000.

The union said they couldn't

and the labor department said lacked the appropriations to The questions to be submitted

The questions to be submitted to arbitration in the proposed settlement all involve money, the informants said, although they did not specify the exact issues other than to say that the NFTW's demand for a \$12 week-

ly increase was among them.

Top flight arbitrators get \$100
a day, and the record would cost other \$200, the union figured, making a total of \$500 a day. The case would run about 40 days, the bargaining committee

said. As a compromise the union offered to assess its members \$1 apiece, if the company would check it off the workers' pay-checks. This the company refused to do, and the stalemate on that point forced postpone of the negotiations strategic in the whole nationwide picture until 10 A. M.

Past practice has been for the government to assume arbitration costs in emergencies, but partment lacked funds to do so in this case.

Representatives of the

pany, union and the govern-ment conciliation service said at the end of a conference which lasted until 4 A. M. that they had come close to reaching agreement on disputed issues.

The following statement by the Southern Bell Telephone and Telegraph Company gives the status of telephone service

"At the beginning of the sec-ond day of the strike local exchange telephone service was being provided on a substantially normal basis to more than 1,-425,000 of the 2,335,000 tele-

Out Of The Frying Pan

By Dewitt MacKenzie,

AP Foreign Affairs Analyst

The Big Four foreign ministers in Moscow

have broken their conference deadlock, but

the way it looks from here they've done so by

the unprofitable expedient of jumping from

What has happened is this: the parley got

badly bogged down in the miry arguments

over German reparations and the form of

government to be installed. In order to es-

cape this predicament and prevent a com-plete collapse of the meeting, the ministers yesterday agreed to take up other subjects. And first on the agenda is the problem of

the German frontiers-one of the most con-

troversial issues, because the bitterly debat-

ed Polish-German boundary is involved.

So while there still is life in the conference,

it doesn't follow that where there's life there's

hope. The chances for early accord over a German treaty are about the size of a mus-

The argument about what form of pro-

visional government should be given Ger-many had been long and hot. Russia had in-

sisted on a highly centralized government.

The Western Allies had stood out for a loose

federation, the idea being to break the coun-

try into its component parts and thus pre-

vent a centralization of power which might

enable the Germans to undertake further

Finally Soviet Foreign Minister Molotov

proposed that the German people be permit-

ted to chose by plebiscite the form of gov-

ernment they desire. America, Britain and

France promptly stepped on this as inviting more trouble from the Reich. Western diplo-

mats also figured that Molotov's proposal was

put forward with the idea of placating the

German public in the matter of Russian demands for \$10,000,000,000 reparations from

Observers have noted another possibility in

connection with the Soviet proposal for a tentralized government. Such a set-up might

make it easier for Moscow to acquire politi-cal control of all Germany, which is the key

position for any power aiming at domina-tion of the continent.

Of course a German government must be constructed as to carry out the original

Allied agreement to extirpate militarism and

Nazism, and to make sure that the country

neves again will threaten world peace. With

this in view the Western Allies have been

encouraging the Germans to establish state and local governments and, so far as feasible

to run their own affairs under guidance of

the occupation authorities. There has been recognition, however, that it would be dan-

gerous to allow political coalescence of the German population before Nazism and the spirit of aggression had been eradicated. It will take a long period of education to

achieve these results. As I've reported in pre-vious columns, when I was in Germany last

year the spirit of Hitlerism-which was an

Regarding the border questions, the Polish-German frontier along the Oder river was

settled—so far as the Poles and the Russians

were concerned—before the war ended. Russia awarded Poland the rich Silesian area of

eastern Germany as compensation for the eastern half of Poland which Moscow an-

nexed when Hitler overran the western part at the beginning of the world conflict.

Western Allies agreed to this Polish-German frontier, while the latter say there was

no definite settlement. Furthermore, the Western Allies express the belief that Ger-

man economy has need of some of the re-

The Polish-German frontier question pres-

ents a particularly tough problem because

the Poles already are in occupation of the

territory—and the wise men say possession in nine points of the law. Not only have the

Poles occupied the area but they have evici-

ed large numbers of Germans and replaced

Thus one can see that if and when a Ger-

man treaty finally is drawn up it will represent a lot of bargaining among the powers.

A Fairer System

Once again the question of installing water meters in Fulton has been brought before the city council. It seems reasonably safe to predict that the council will proceed with plans to obtain and use the meters at their earliest opportunity, which will depend in part upon the report of the consulting engineers making a survey of the city, and the means by which money to purchase and install the me-

ters is to be obtained.

This is a progressive, money-saving step that should meet with approval from practically all city water users. Few cities the size of Fulton have delayed so long in putting meters into use, and many smaller communities have had them for some time

The flat-rate charge system is patently unfair. Some pay more for their water supply than they should; others pay far less than

It was stated at the city council meeting Monday evening that the city of Fulton pumps almost as much water per month as Paducah, which condition would be ludicrous if taxpayers were not paying for water allowed to run wastefully for hours at the time.

There will be some, we have no doubt, who will oppose installation of the water meters, and perhaps there are valid arguments on their side. But it appears that the present system of supplying water in Fulton is outoded and excessively expensive to the city, and that a change to meters is advisable for the community as a whole.

No Law Bars Progress

Ownership and operation of a coal mine is but a small part of the whole picture when It comes to producing coal for the nation. Actual production depends on many factors apart from the coal industry. It is the buyers of fuel who, in the last analysis, keep the coal industry functioning. Both John L. Lewis and the coal mine operators have to satisfy his needs in a competitive market before they can prosper.

better example of this can be offered than a seemingly insignificant item that re cently appeared in newspapers. It said: "Officials of United Mine Workers declare they will fight in the state legislature the Pennsylvania Railroad's plans to replace some coal-burning locomotives with diesel en-gines. According to the union officials, every a steam engine is driven off the rail roads, two miners are out of jobs. The railroad's 25 new diesels will cut coal demand 2,750 tons a day."

The Pennsylvania is only one road that is adding diesel locomotives.

Without going into the merits of the diesel ngine as compared with coal burners, there question but that the highhanded tactics of the United Mine Workers in causing country to suffer from annual strikes coal shortages have been one of reatest incentives to developing the diesel

The United Mine Workers may be able to force their demands on the coal industry but they cannot force the public to endure hardships if it can find fuel substitutes for coal. As almost every industry in the country has en more or less dependent on coal for its peration, Mr. Lewis' tactics are forcing the use of substitute fuels to prevent interruptions in operations.

It is time for the United Mine Workers to realize they are cutting their own throats through their policy of boosting costs regard-less of the effect on coal's markets.

Mama's At Convention

Daddy is in charge this week, The house gets his attention. We pray that Fate be good t While Mamma's at Convention

Each child was told just what to do And how to help his Dad, And try for once to get along-Not make each other mad.

For Daddy's taking over (He has theories of his own; And He's bound to try them out While Mama's not at home),

We only hope that while you're Dick won't develop a cough, And that Ron, the only curly-Won't have all his hair cut off.

And we hope the cat won't have her kittens And the neighbors' kids don't

And that someone will remember The garbage Thursday night! And that Daddy won't forget

To braid the daughter's hair. And though the boys may beg

That he keeps Carolyn from drowning
While she's in her bath,
And checks on Dick's "experi-

And helps Ron with his math. And that the house won't catch on fire
And no one calls the cops,
And that they eat the food we've

Not "burgers" and paddle-pops For Dad will have his hands full Just keeping them well and fed. And like us will be exhausted

When the last one's put to bed And though our hearts go out to In sympathy, oh, brother! Daddy's surely learning What it means to be a Mother!

Lefty Truman Looks Good **Opening Day** Won Approval on First Mound Try

HE FOLLOWS THROUGH

In April, 1946

By Arthur Edson Washington, April 9—(P)—The first ball thrown this baseball season probably will be the best Presidential pitch since the days of William Howard Taft.

There has been no official announcement, but Mr. Truman has promised that—barring complications—he will drop around April 14 for the opening game between the Washington Senators and the Yankees. Yankees.

Since the President looked very good last year in his first try in the majors, he doubtless will look even better this April.

And that will be very good indeed

The authority for this is Morris A. Bealle, the town's No. 1 fan and author of the just "The Washington

In his book Bealle says it was Taft who started this Presiden-tial habit of throwing of the first ball. Taft threw a high, hard one. But look at those who follow-ed him! Wilson, Harding, Coo-

lidge, Hoover, Roosevelt. Grumbles Bealle: "They all used the bean bag stance of a bloomer girl debutante.

But Truman, how refreshingly different. "No bean bag stuff," says Bealle admiringly. "The follow-through was perfect." Oddly, that first Presidential toss, by Taft in 1910, started one of the firest opening games in

of the finest opening games in baseball history.

The late Walter Johnson was on the mound for the Senators, and he turned back the Philadelphia Athletics, 3-0.

There was at least one unsued blow Frank Baker.

usual play. Frank Baker, the home run king, connected with one of Johnson's pitches for what looked like an easy fly to

right field.

But the crowd was large, and just outside the ropes sat a typically stubborn Washington

The outfielder went back for the fly. The character didn't budge.
The outfielder tripped over the character's feet. The ball flopped down safely a few feet away.

Betz Suspension Sets Up Battle For Tennis Crown

New York, April 9—(P)—The suspension of Tennis Champion Pauline Betz by the U. S. Lawn Tennis Association means, among other things, that there will be a feminine battle rolay at For-est Hills late in August such as hasn't been seen there in some

Miss Betz, who with Mrs. Sarah Palfrey Cooke was removed from the amateur ranks yesterday because of a projected tour of the pair as professionals, had come to dominate the women's division almost as thoroughly as Alice Marble did just before her but there has been a terrific

scrap for second place.

As the executive committee of the Tennis Association, which of the Tennis Association, which could hear an appeal by Miss Betz, will not meet until September, there is no possibility of her defending the title.

Louise Brough, Margaret Os-borne and Mrs. Dorothy Canning Todd, all Californians, and Doris Hart of Miami form the contending quartet. . any one of them could take the title, and there always is a possibility that a flaming newcomer or two might project themselves

This Telephone Strike Doesn't Make Sense

WE DEEPLY REGRET THE INCONVE-NIENCE BEING CAUSED YOU BY THE TELEPHONE STRIKE, AND WE APPRE-CIATE THE FINE SPIRIT OF COOPERA-TION YOU HAVE SHOWN IN MAKING ONLY EMERGENCY CALLS.

THE COMPANY DID EVERYTHING IT COULD TO AVERT A STRIKE. WE COULD SEE NO EXCUSE FOR THE STRIKE BE-FORE IT OCCURRED, AND WE CAN SEE NONE NOW.

The demands made by the Union are exorbitant. They would increase the cost of providing telephone service by \$69,000,000 a year. This would make our payroll alone over \$2 million more than the total of all the money we took in last year. In terms of the average telephone bill, it would amount to an increase of about \$3.30 per month for each of our customers.

Telephone employees get good wages, which have been increased by 75 percent since January, 1941. These wages compare favorably with those paid by other businesses in the community for work requiring similar skills. Our employees have steady work, good working conditions, holidays with pay, vacations with pay (one, two or three weeks, depending on length of service), sickness and death benefits and pensions, with full cost paid by the Company.

> The Union's demands, therefore, mean either that the Union; (A) Does not agree that the wages of its members are good-which we have offered to settle by arbitration, or (B) It wants its members to be in a highly preferred position in the community in relation to other workers performing jobs re-quiring similar skill and equivalent training. This makes no sense to us and we think won't make sense to you who must pay the bill. We don't believe telephone customers will willingly accept tele-phone service rates based upon employees' wage rates far above the level of wages which they themselves pay or receive.

SOUTHERN BELL WAGES SHOULD BE SETTLED IN THE SOUTH

The Union has also demanded that wages and certain other bargaining matters for Southern Bell employees be settled on a national, rather than on a regional basis. We believe-and we think you will agree-that the wages of Southern Bell employees, paid for by Southern Bell customers, should be settled by considering conditions prevailing in the South. 80 percent of Southern Bell's revenues are from business handled within each of the nine states in which we operate. Telephone employees work and live in their own communities, and pay the prices which prevail there. All rates within the state, both local and long distance, are regulated by state authorities. Wages must be fixed on a local basis too if they are to be fair alike to employees and telephone users.

WE OFFERED TO ARBITRATE OUR

Careful studies which we have made show that our wages compare favorably with those paid other workers in the community with skills similar to telephone employees. However, to remove any doubt and to avert a strike we offered to arbitrate the wage matter and to renew our contract with the Union until such arbitration could take place. This offer was rejected by the Union, placing the responsibility for the strike squarely where it belongs—on the shoulders of Union leadership.

> We hope the public will have no hard feelings toward telephone employees as a result of the strike. They are a grand group of people, who have been misled by inexperienced and immature leadership.

A telephone strike is bad business any way you look at it, and this one should bring home to Union leadership a sense of its responsibility to the public.
