# THE MURRAY LEDGER.

VOL. 87, NO. 40.

MURRAY, KENTUCKY, THURSDAY, MARCH 9, 1916

\$1.00 PER YEAR

## MURRAY CITIZEN TO BE DELEGATE

Princeton, Ky., Feb. 29.—The Hazelp faction of the first district Republican convention was decisively defeated here this afternoon in the convention which selected two delegates to the national convention in Chicago, June 7th, a district chairman and an elector. The delegation of fifteen to the convention in Louisville was not definitely instructed, but it is known to be for Charles W. Fairbanks for president.

Carl Henderson, of Marion, and Dr. Mason, of Murray, were elected delegates to the national convention, over Thomas N. Hazelp, of Paducah, and ex-Senator W. J. DeBoe, of Marion. Henderson and Mason received 101 72 80 votes, while DeBoe and Hazelp received 5 75 80 votes each.

Ed R. Miller, of Paducah, was elected district chairman over James T. Burns, of Paducah, by a vote which ran along with the delegate vote. L. W. Keys, of Mayfield, was elected elector from this district, over Charles Anderson, of Mayfield.

The alternate delegates are W. H. McGridley, a negro, of Trigg county, and W. L. Prince, of Marshall county.

The Hazelp delegation from McCracken county was seated by the committee on credentials, after a hot fight. The fight for all of the offices was a spirited one, and it was only after a hard battle that the Hazelp faction was defeated.

The following counties voted for Henderson and Mason for delegates, the figures indicating their number of votes: Ballard 7, Caldwell 15, Carlisle 5, Hickman 1, Lyon 8, Trigg 14, Marshall 12, Graves 9 9 16, Calloway 3 3 7. The following counties voted for DeBoe and Hazelp:

Livingston 5, Hickman 6, Crittenden 17, Fulton 6, McCracken 30, Graves 7 7 16, Calloway 4 4 7.

The vote for delegates indicated the way each county also voted for district chairman, and the other offices.

George B. Thomas, of Cadiz, acted as chairman of the convention, with William E. Jones, of Princeton, secretary.

Clarence Luter left the past week for Louisville and Lexington to spend some time. Mr. Luter expects to secure employment while absent and may not return to Murray for some time.

## AN EFFORT MADE TO STEAL MILLION IN U. S. CURRENCY

New York, Feb. 28.—The robbery of four valuable registered mail packages in an what appears to have been an attempt to steal at least \$1,000,000 in currency signed to New York banks, became known here today.

The robbery occurred last Saturday morning, when a United States mail auto truck was entered while on a ferry bound to New York from Communipaw, N. J.

According to unofficial reports one of the pouches contained \$200,000 from Washington. Post-office inspectors asserted they would be unable to state the exact loss until they heard from the Washington and Baltimore senders of the packages. There were three packages from Washington and one from Baltimore. The inspectors said the robbery was by some one who had the keys to both the truck and the pouches.

The republican county mass convention held at the court house here last Saturday afternoon resulted in the usual convention split. A contest was carried to the district convention resulting in both local factions being partially recognized, the Calloway vote being divided.

## CALLOWAY SELLS \$25,000 BONDS.

The Calloway County Fiscal Court sold \$25,000 worth of refunding bonds at its meeting Wednesday of this week to Well-Roth & Co., Cincinnati, Ohio, brokers. The bonds are redeemable after five years and are not to run longer than fifteen years with an average of eleven years, will bear 4 1/2 per cent, interest and brought a premium of \$6 on the thousand. These bonds were issued and sold by the court for the purpose of paying all outstanding warrants against the county and which are bearing 6 per cent, interest. The bonds will be dated March 15 and the money will be available after that date for the payments of the warrants upon presentation to the county treasurer.

This action was taken by the court after much deliberation and the Ledger believes the people of the county, and especially those holding the old warrants, will endorse the action of the court in the matter. It was not possible to pay these claims out of current funds of the county and leave any funds available for bridge and road work needed throughout the county.

Bids for the construction of the Pine Bluff road were received and opened, and also bids for the concrete bridges to be built on the road. Joe Clark of the east side of the county, was the only bidder on the road work while a number of bids were received for the bridge work. No action was taken by the court in these matters, but will be given consideration when the court convenes again Saturday.

Children".—Mrs. Joe Parker.

"Piano Duet".—Mrs. Randolph and Miss Owen.

"Punishment of Children that Educates".—Mrs. Inez Sale.

The Mothers Club has an especially attractive program which will be given at the school house Thursday afternoon. This program is as follows: "Piano Solo".—Mydelle McElrath.

"Chorus".—

"Reading".—Mrs. Swann.

"Piano Solo".—Martha Wadlington.

"Piano Duet".—Frances Bradley and Roberta Holton.

"Reading".—Mrs. J. W. Jones.

"Lullaby".—Ruth and Frances Sexton.

"Vocal Solo".—Frances Coleman.

"Story Telling".—Mrs. Swan.

"Piano Solo".—Miss Wilson.

"Dialogue".—Horace Wadlington and Lula Clayton Beale.

Ask for the Tombstone.

Hopkinsville, Ky., Feb. 4.—

Even the tombstone which was given to Mr. and Mrs. James Herbert Tweddell, the leap year bride and groom, by McClaid & Armstrong, has been called for by the young couple.

The groom's father died last September and when Mr. and Mrs. Tweddell were in town last week gathering up their gifts they instructed McClaid & Armstrong to inscribe the stone which they selected and it will be placed at the head of the grave of Mr. Tweddell, Sr. When it came to selecting the stone, McClaid & Armstrong didn't have a \$25 size in the house, so they gave a \$35 stone instead.

To make the thing complete, V. M. Williamson, with his customary generosity, offered a wagon and team to haul the stone from this city to the burying ground where it is to be erected.

## THREE WOUNDED ACCIDENTALLY.

The home of Will Barnett, a few miles northeast of Almo, was thrown into gloom last Sunday night at an early hour when a shotgun in the hands of Mr. Barnett was accidentally discharged, the contents finding lodgment in the bodies of three inmates of the home.

Mr. Frank Hopkins and Miss Aggie Ryan, who made her home with Mr. Barnett, were united in marriage Sunday in Paris and had returned to the Barnett home to spend the night. Together with members of the family they were happily engaged in discussing plans for their future. Mr. Barnett had been notified that a crowd of young people, friends of the newly wedded couple, were coming to his home to serenade Mr. Hopkins and his bride. Mr. Barnett remarked to others in the home that he was going to have some fun and, frisking the serenaders, and taking his shotgun from the rack stepped out of the house and in alighting from the porch the weapon was accidentally discharged, the load entering the room he had just left through the window and finding lodgment in the face and head of his eight year old son, Van Barnett, Ulous Goodwin and Frank Hopkins.

The boy's wounds are very serious and the sight of one eye totally destroyed. Hopkins' wounds are very painful but not considered serious. While Mr. Goodwin was only slightly wounded. Mr. Barnett is a well known citizen of his section of the county and has many friends who deeply sympathize with him on account of the occurrence. He is almost prostrated with grief over the affair.

Marshall County Weddings. On the evening of the 16th at 5:30 o'clock a few words of ceremonial nature were spoken by the Rev. M. L. Davis, of the Olive charge, which united Mr. Clyde McDaniel and Miss Grace Harrison in marriage.

After the ceremony the company gathered at the home of the groom's father, Uncle Jim McDaniel where all partook of a most delicious supper set by Mrs. McDaniel. A most enjoyable social hour was spent after supper by both old and young who were present.

On the 16th of February at 3 o'clock in the afternoon in the home of Will Daugherty, his daughter, Miss Lola Daugherty and Mr. Elvin Crick were united in marriage. While the ceremony was pronounced by the Rev. M. L. Davis, pastor Olive circuit a most beautiful wedding melody was given by Mrs. Jackson, of Murray, Ky.—Benton Tribune-Democrat.

J. R. Miller, for many years a resident of Calloway and who lived a few miles north of the city, left about ten days ago for Nashville, Tenn., where he expects to reside. Mr. Miller has a son who has been a resident of that city for some several years and another son who expects to enter school there and for these reasons he decided to move to Nashville to reside.

Dogs Trail Fire Bogs.

Bloodhounds from Sebree were taken to Stewart county, Tenn. Sunday night a negro school house was burned and Tuesday night the Big Meadow white school house in the same neighborhood was burned. This is the section between Big Rock and

Rose Hill, where night riders were troublesome last fall.

The approaches to the scene were guarded all day Wednesday and the dogs were put on the trail at 11:00 o'clock Wednesday night. They went at once to a house occupied by Lem McGregor and Ewell Cowherd, colored, and both were arrested by Deputy Sheriff Chester, of Dover, after a spirited resistance. The negroes opened fire from the house and the shots were returned, McGregor being hit in the right side. Mr. Griffith was powder-burned by a shot close to his face. The negroes were taken to Dover for trial.

## CORRUPT PRACTICE BILL WILL BECOME A LAW OF THE STATE

The Vance Speer corrupt practice bill passed the house, Frankfort by a vote of 80 to 8. The bill also passed the senate and will become a law. The measure as adopted fixes the maximum amount of money that may be spent by any candidate for an office in Kentucky, including the primary and general election, and is as follows:

Governor, \$20,000; other state officers, \$10,000; railroad commissioners and judge of court of appeals, \$6,000; circuit judges and commonwealth attorneys, \$5,000; county officials in counties having cities of the first class, \$5,000; county officials in counties having cities of the second class, \$4,000; county officials in counties having cities of the third class, \$3,000; county officials in all other counties, \$2,000; representatives, \$700; senators, \$2,000; for any other office, city, county or district not mentioned \$1,000.

The bill repeals the statute which requires two witnesses to convict for bribery in elections. The amount of money spent by candidates must be filed for publication fifteen days before the election and fifteen days after elections, and a fine of from \$100 to \$1,000 for failure is provided.

## Population of State of Kentucky For Year 1916 is Placed at 2,379,639.

The census bureau has issued an estimate of the population of the country and the states, which shows that while Kentucky had a population July 1, 1915, of 2,365,185, the population of the state of Kentucky in 1916 will be 2,379,639, a gain of 14,454.

Report of bureau of census shows the population of the United States to have been 101,208,315, January 1, 1915, with a gain of million more expected by July 1, 1916. This is growing at a rapid rate, but there are some states that are increasing more rapidly and the estimates show there are twenty-two states growing more rapidly than the country as a whole. Of these twenty-two states three are in the south: Texas, Florida and Oklahoma.

Of states denominated southern states, generally speaking, Texas and Oklahoma show the greatest increase from July 1, 1915 to July 1, 1916, but all southern states show an increase.

Kentucky shows an increase of 11,444 for the year, while the sister state of Tennessee shows an increase of 16,625. Other states show material growth.

Samuel L. Rogers, director of the census, in issuing the figures, had this comment to make:

"These estimates are those used by the federal government and by various state offices and public service corporations in computing birth and mortality rates and per capita figures of many kinds. In making them

## RAILROAD BUYS A LARGER HERD

Such gratifying results have been obtained by the Nashville, Chattanooga & St. Louis Railway in its efforts to improve live stock and farming conditions in the territory contiguous to its lines, that the road has recently purchased another foundation herd of Short Horn cattle and will place them upon its demonstration farm at Paris, Tenn.

This herd consists of one bull, two yearling heifers, three two-year-old heifers and two three-year-old cows, each with a heifer calf at foot, all being the pick of the famous Lespedeza farm herd which was recently sold at Memphis, Tenn.

The Paris demonstration farm of the company consists of 160 acres of which 125 acres will be cultivated this year, the balance being put in pastures and orchard. The road invested \$4,200 in the foundation herd and expects to materially improve the grade of cattle in that community.

Splendid results have been secured by the road with the first foundation herd of Short Horns which it purchased a year ago, these being from the herd of Maj. Cowan, of Max Meadows, Va., and the results obtained being through the inauguration of the "community bull" plan. Such interest has been awakened in the work of the company through its live stock plans and through the work of its demonstration farms that additional farms are to be established in connection with the promotion of better live stock. This work is under the supervision of Mr. Joseph H. Judd, special agricultural agent of the company.

Johnson wants you to read his 9c ad, and then go and get some remarkable bargains for 9c.

## Baby Week, March 4-11, Promises to be of Unusual Interest to People.

Commencing with the exhibit at the court house Saturday of this week of those little things the baby must have and then continuing for the entire week, a program of interesting and instructive entertainments has been arranged by Murray women for the benefit of the people of Murray and Calloway county. Even every old "pap" and "dad" is invited to attend, and assurance is made that they will be jointly entertained and instructed.

One of the unique features, and one of the most valuable, of the exhibit given by the women of the city is a device designed to prevent asphyxia neonatorum, the death of the newly born because of deficient respiration.

Asphyxia is one of the principal causes of death among newly born infants. To meet this condition and give to the newborn babe the chance to live, the Infant Lungmotor was devised for the use of the attending physician. This simple device fills the lungs of the newly born child with life giving air and oxygen, performing the act of breathing for the infant until respiration is established and the child is able to breathe normally.

Through the co-operation of the Life Saving Devices, Inc., of Chicago, the club women of Murray have obtained one of these instruments for exhibition purposes and demonstration. One hundred and fifty of the devices have been loaned to vari-

ous women's organizations throughout the state for use during Baby week.

The Music Club will give the first entertainment next week, Monday at 3:30 at the school house, and the complete program will be as follows:

Piano solo.—Mrs. Robert Mason.

Mother goose rhymes, to music.—Jack and Jill. Dickory, Dickory, Dock. There was a crooked man. Simple Simon. Humpty Dumpty. Little Tommy Tucker.—Miss Wilson.

Vocal solo, "Little Bo Peep" (in costume).—Mildred Graves.

Piano solo.—Ruth Sexton.

Paper, "The Value of Music in Character Building".—Mrs. J. H. Coleman.

Vocal solo, "The Death and Burial of Cock Robin".—Mrs. Swann.

Piano solo.—Miss Ruth Parker.

Vocal solo.—Miss Wilson.

Vocal solo, "His Lullaby".—Bonds.—Mrs. George Gatlin.

The program of the Alpha department of the Womens Club will also be rendered at the school house Wednesday afternoon as follows:

"Death Rate of Babies in Murray for 1911-15".—Miss Erie Keys.

"Vocal solo".—Miss Mary Coleman.

"Physical Care of the Baby from Birth to Three Years".—Mrs. Rainey Wells.

"Whistling Solo".—Mrs. J. W. Jones.

"Early Mental Training of

## BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines; instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

**Wireless Men in Demand.** Radio operators are enlisting in great numbers in the ranks of the beligerent nations of Europe. It is reported that in the British navy alone more than 5,250 radio operators have enlisted. Among those serving on warships one has earned the Victoria cross, one the cross of the Legion of Honor and four the distinguished conduct medal.

## MEAT CLOGS KIDNEYS THEN YOUR BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You—Drink Lots of Water.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat—forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications. Adv.

**Seasonal Activity.** Mrs. Knicker—What is your trade? Weary Willie—I shovel rain, mum. New York Sun.

## YOUR GRAY, FADED OR GRAY-STREAKED HAIR EVENLY DARKENED WITHOUT DYES

Do this: Apply like a shampoo Q-Ban Hair Color Restorer to your hair and scalp, and dry hair in sunlight. A few applications like this turn all your gray, faded, dry or gray-streaked hair to an even, beautiful dark shade. Q-Ban also makes scalp and entire head of hair healthy, so all your hair (whether gray or not) is left soft, fluffy, lustrous, wavy, thick, evenly dark, charming and fascinating, without even a trace of gray hair showing. Insist on having Q-Ban, as it is harmless—no dye—but guaranteed to darken gray hair or money returned. Big bottle 50c at druggists or sent prepaid. Address Q-Ban, Front St., Memphis, Tenn.—Advertisement.

**Scientific Hints.** How do you manage to get so many joy rides? "Oh, I practice auto suggestion."

When a leap-year girl attempts to kiss a young man, to his credit he said, he never threatens to call for help.

**Throw Off Colds and Prevent Grip.** Nothing for colds coming on like LAXATIVE BROMO QUININE. It removes cause of colds and grip. Only One "BROMO QUININE" W. O. GIBBY'S signature on box. See.

A Miss is better than a mile. No man would care to kiss a mile.

For lame back use Hanford's Balm. Rub it on and rub it in thoroughly. Adv.

The age of reason depends altogether on the man; some men never attain it.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach. Adv.

The true secret of feminine beauty is to be born pretty.

## Kin Hubbard Essays

### LONGEVITY

By KIN HUBBARD.

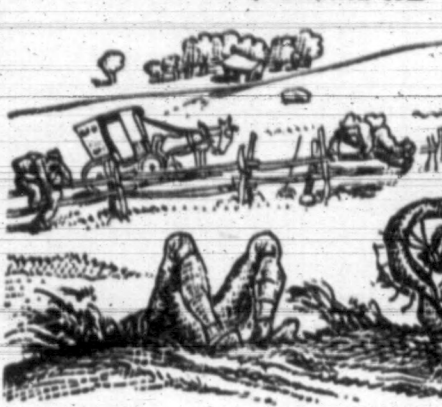

There kin no longer be any doubt that a strong an' bitter enmity exists between longevity an' a life o' excitement an' wealth an' prominence. Men an' women active in all th' affairs o' th' world are constantly bein' snatched from th' game o' life at fifty-one, while th' so-called plain, simple nobuddys o' th' world hang on an' on till they fall weak from th' infirmities o' age on th' shores o' th' great dark river.

There's so many things in th' life o' t' day that are in league with th' grim harvester that it hustles him t' git out his orders. Ever'where about us lurks some new device t' make th' designer o' floral wreaths work overtime. Th' hearse builder chuckles as he reads th' evenin' papers an' th' obituary editor sighs as he thinks o' to-morrow. We read:

"Ash Putnam, aged fifty-one, president o' th' Blue Valley Traction com-

pany, vice-president o' th' Silver Lake Ice an' Coal Company, treasurer o' th' Farmers' Exchange, prominent club man an' real estate dealer, o' so an' so, wuz instantly killed this mornin' when his tourin' car dashed int' a stone quarry, near Akron, Ohio. He wuz takin' a much needed rest on th' advice o' his physician an' wuz influential an' wealthy."

Ash Putnam, with all his wealth an' business activity, might have lived till he wuz fifty-two if his doctor had told him t' smoke less instead o' gittin' out in th' air.

"Yesterday Harley Maine wuz thrown agin a Butternut Tree an' Killed. His Doctor Told Him t' Cut Out Meat Instead o' His Motorcycle."

Clean up t' th' last she had full possession o' her faculties, her final words bein', "I'm goin' back t' my ole brand o' coffee when I git up." She could tell without th' least apparent difficulty who ran for president on th' Democratic ticket in 1904, an' as late as one month before her death she could call off Taft's cabinet without falterin'. One o' th' most memorable events in her life, next t' missin' a cup o' coffee in 1872, wuz her introduction t' General Marquis de Lafayette at Marietta, Ohio, in th' early thirties. Grandma Angel outlived her family doctor an' ever-buddy she owed, an' her clumsy breakfastin' held a dagger-type o' her husband on whose face reposed an expression o' meek resignation.

But after all, Grandma Angel had the right idea. She did things t' live. She didn't live t' do things.

A doctor ought t' study a feller a little before he tells him what t' stop.

Yesterday Harley Maine wuz thrown agin a butternut tree an' killed. His doctor had told him t' cut out meat instead o' his motorcycle.

A doctor ought t' study a feller a little before he tells him what t' stop.

## Meeting Requirements of Modes in Model in Perfect Taste

A party frock for the social bud, which does its American designer no end of credit, tells its pretty story in the picture above. But half its charm must be left to the imagination, since it lies in combination of colors. Delicate, but not too pale shades of pink and blue, with the introduction of silver lace, make up a flowerlike conception which it is an inspiration to look at.

The undershirt of pink silk net contrives to be fairly full about the hips, and very full about the ankles, by the simple and lovely expedient of the band of silver lace insertion set in, like a girle, below the hips. It is piped at each side with a cord, covered with pink satin, and the net is gathered to it. This allows the flounce to be much fuller than the upper portion. The flounce is bound at the bottom with a cord covered with satin. Over this undershirt a second skirt of blue net falls, covering its entire length. It is bound with blue satin, which causes it to stand out about the bottom.

The bodice is cleverly designed of blue satin, with a square piece set

on in the middle of the front and back, forming points above and below the waist line. The side bodies are cut into points at the bottom and extend to the arms. There are small ruffled straps over the shoulders. A yoke of the pink and blue nets is filled in at the top of the bodice and gathered to form a narrow ruffle about the round neck. Short puffed sleeves are made of the two nets also. The waist line is defined by two bands of narrow silver gauze ribbon, and the narrowest of silver edging outlines the ruffle about the neck.

All the requirements of the modes of the hour are met by this model of good taste in using them. The very full skirt, the close-fitting bodices and the airy fabrics that fashion approves find expression in it.

The combination of blue and pink, which is a French suggestion, is only one of several combinations of color that might be embodied in a frock made in the same way. But pink and blue used together are met with so often in displays of spring apparel, (notably in millinery) that it promises to be a feature in coming fashions.

## CALOMEL WHEN BILIOUS? NO! STOP! ACTS LIKE DYNAMITE ON LIVER

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Doesn't Make You Sick!

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crumbles into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a

spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot enslave or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

True religion makes a man feel that it is just as cold for his wife to get up and light the fire as it is for himself.

According to French statistics, only one-fourth of the aviation accidents are due to defects in aeroplanes.

If a woman is homely she tries to persuade herself that she has a classic face.

### A New Remedy for Kidney, Bladder and all Uric Acid Troubles

Dear Readers:

I appeal to those of you who are bothered with kidney and bladder trouble, that you give up the use of harsh salts or alcoholic medicines and in their place take a short treatment of "Anuric." I have taken many of Dr. Pierce's medicines for the past twenty-five years with good results. I suffered with kidney trouble for some years. I recently heard of the newest discovery of Dr. Pierce, namely, his "Anuric" Tablets. After using same I am completely cured of my kidney trouble. A doctor pronounced me a well preserved woman for my age, all due, I believe, to Dr. Pierce's aid.

MRS. MELINDA E. MILLER.

If you suffer from backache, lumbago, rheumatism, get "Anuric" now.

### BETTER TO HAVE KEPT STILL

Candidate Gained Little by "Calling Down" Men Who Had Interrupted His Speech.

Henry Ford has very rarely voted, and at a dinner in his native Dearborn he once said:

"I have taken, perhaps, less interest in politics than I should have done. But politics has always seemed to me a confused and quarrelsome business. When I think of politics I think of the political meeting anecdote:

"A candidate at a political meeting was heckled by a fat man. This heckling after awhile got on the nerves of another member of the audience, and he roared at the fat man:

"Shut up, you ass!"

"At this a third member of the audience shouted:

"Oh, you shut up, too!—The pair of you are asses!"

"The candidate on the platform took a sip of water. Then he said:

"There seem to be a lot of asses on hand here tonight; but, gentle, for the love of Mike, let's hear one at a time."

"Well, you go on, then," yelled a chap in the gallery.

A little nonsense then and now may stir up an awful row.

A dyspeptic can eat his cake and still believe he has it.

And they have a charming new flavour—delicious, different, the true essence of the corn—not found in corn flakes heretofore.

The intense heat of the new process of manufacture raises tiny bubbles on each delicious brown flake and these little puffs are the identifying feature.

These new flakes are firmer, crisper, and don't crumble in the package—in comparison, ordinary corn flakes are as "chaff."

Your grocer can send you a package of

## New Post Toasties

## They Stand Up—

Unlike common corn flakes, the New Post Toasties don't mush down when milk or cream is added.

perpetual progress of the world, moving ceaselessly onward, through the times through bitter rivers of blood, sometimes the ruins of national reputations and of once-vaunted civilizations."

## WHO'S WHO—AND WHEREFORE

W. W. VENABLE, ORATOR

Although the tradition that new members of congress, like children, should be seen and not heard, is not respected now as it was in former days, rarely do freshmen of the house make such an impression within a week of their arrival as did Representative Venable of Mississippi, a young man recently elected to succeed the late Representative Witherspoon.

Rising to answer an attack by a Texas Democrat upon the president's advocacy of preparedness, young Venable delivered a speech that placed him at once among the great orators of congress and earned him the plaudits of Democrats and Republicans alike.

One of his illustrations, emphasizing the benefits of preparedness, is still being repeated in the cloakrooms.

It has been my pleasure during my lifetime," he said, "to be intimately and personally acquainted with two dogs. One of them was a little rat terrier who had a little tail curled over his back like a corkscrew.

"That little dog's life was one long sad wall of misery. He was kicked by every man he met and whipped by every dog he ran across. I knew another dog, a magnificent gentleman of his race. His great head reared stately above his shoulders as the head of a lion. He was thrown and sinewed like a gladiator, and his curved forelegs and stanch haunches spoke of tremendous strength. He lived his life respected by dogs and men. I owned him for five years and I caressed him when I felt like kicking him. Why? He was a prince of the house royal, a gladiator of his kind and he was prepared.

"As a result, he lived his life in peace, with all his institutions intact and his personal and property rights thoroughly respected."

## M'CREEARY QUILTS PUBLIC LIFE

After thirty-two of his seventy-five years spent in public service, James B. McCreary, who recently retired from the governorship of Kentucky, announces that he is through with public office.

Mr. McCreary served six years in the Kentucky legislature and was elected governor of the state in 1875 when he was thirty-two years old. After that he was elected to the house of representatives, where he served twelve years, and then was transferred to the other end of the capitol as a United States senator.

For several years after the expiration of his senatorial term he was a private citizen, only to enter again the political field as a candidate for governor, and he is the only man on record who was twice elected governor of Kentucky after a long lapse of years.

"I look back on my first campaign for governor with a great deal of pleasure," said Governor McCreary. "It was that campaign that probably gave to the United States Supreme court bench one of its most respected and valuable members. My opponent in that fight was John Marshall Harlan. Not long after the election I had the opportunity of recommending that President Hayes appoint Harlan to the Supreme court bench."

Said Eve unto Adam: "It gives me a pain to see you walking the floor with a Cain."

A mean man always attributes his dislike of his neighbor to envy.

## Careful St. Jo. Mothers Treat Children's Colds Externally

They Say Internal Dosing Harms Delicate Little Stomachs—"Outside" Applications Better.

Careful mothers everywhere realize that internal medicines are injurious to the delicate stomachs of the little folks. Still croup and cold troubles must have some form of treatment. The answer to this problem is the Southern "external" treatment Vap-O-Rub. This was introduced in St. Jo., Mo., for the first time last winter, and a number of ladies were presented with complimentary jars by their druggists on condition that they give Vap-O-Rub a thorough test. Here are the reports from several of these ladies—

Mrs. Sam House, 1206 Prospect Ave., writes—"My little daughter had Diphtheria last fall, and now every little cold she takes settles in her throat. We have thought twice she was going to have Diphtheria again, but during one of her bad spells my druggist sent me a jar of Vap-O-Rub. I used it for four nights on her throat with such good results that now I don't like to be without it. I have used it on myself and my husband for bad colds and have found it just fine."

Mrs. John Paynter, 2432 S. 17th St., writes—"My druggist sent me a trial jar of Vap-O-Rub, which I soon had occasion to try on my 'croupy' baby. Before putting her to sleep for the night, I applied the salve over her chest and throat with my fingers. The results proved very satisfactory, and now I would not be without it."

Mrs. M. A. Myers, 2943 Sylvan Ave., says—"When our three year old boy had a severe cold, about a month ago, I tried a jar of Vap-O-Rub. I rubbed it on his chest and let him inhale it, and he was relieved almost immediately, and got better in a few days. I think your remedy is the best thing for colds we have ever used."

Vick's Vap-O-Rub comes in salve form, and when applied to the heat of the body the ingredients are vaporized by the body warmth. These vapors, inhaled all night long, carry the medication with each breath, through the air passages, to the lungs. Vick's will be found better than internal medicine for all forms of cold troubles—from head colds, catarrh and asthma to troubles—down to deep chest colds, bronchitis, sore throat or incipient pneumonia. Three sizes—25c, 50c and \$1.00.

## MIYATOVICH'S BRAVE WORDS

perpetual progress of the world, moving ceaselessly onward, through the times through bitter rivers of blood, sometimes the ruins of national reputations and of once-vaunted civilizations."

Cheddo Miyatovich, Serbian diplomat and poet, who visited America on a mission from his country declares that until hope is dead Serbia will not die. "Our friends speak of our national tragedy," says he. "We are grateful for their generous sympathy. But our tragedy has not yet seen our tears, nor shall it ever see them."

"Our women suffer silently; our men die silently; we bear our sad burden silently."

"Yet our tragedy is illumined by the light of hope. We lost, in honest struggle, all the territory of our kingdom which we raised up from ruins by faithful love of national inheritance, by the self-sacrificing efforts of generation after generation. But in this the darkest hour of our country's history we have not lost faith in God and his justice; we have not lost faith in ourselves, in our allies or in humanity; we have not lost faith in the progress of the world, moving ceaselessly onward, through the times through bitter rivers of blood, sometimes the ruins of national reputations and of once-vaunted civilizations."

# THE MURRAY LEDGER

O. J. JENNINGS, EDITOR.

Entered at the postoffice at Murray, Kentucky, for transmission through the mails as second class matter.

THURSDAY, MARCH 2, 1910

## LEDGER CORRESPONDENTS.

We find the names of quite a number of persons on our mailing list who are there by reason of their obligating themselves to this office to act as correspondents from their respective neighborhoods. We have taken off a number of these names because of the fact that these persons have not furnished a communication for a long time. The Ledger would be glad to have a real live representative in each section of the county but we do not want you on our list if it is your desire to get the paper and give no service in return. It is not necessary for this paper to carry such names in order to find readers. If you are of those who have been receiving our paper as a correspondent and have not been writing you will understand why the paper is not coming to your address. If your name is on our list as a correspondent please try and give us a communication as often as possible.

## THAT YELLOW LABEL

Watch the date on your label. It is a reminder of the expiration and also acts as a receipt for payments made. It will not be possible for us to correct the list each week but will make corrections once every two weeks and often if possible. Quite a number of our subscribers have paid us since last week and the new date will be placed to their credit next week. Watch for it. Those of you who have not paid are reminded that the date on your label shows the exact amount due on subscription.

A Calloway taxpayer who has followed the proceedings of the present session of the Kentucky legislature has turned poet and hands us the following right off the reel, stating that it better expressed the sentiment of the people in his section of the county than anything he has read regarding the legislature:

"Little men  
With double faces,  
Low grade men  
In high grade places  
Digging claws  
At public taxes  
Ignoring laws  
And grinding axes"

Dr. Will Mason, Jr., of this city, and Judge Carl Henderson, of Marion, were elected delegates to the republican national convention which convenes in Chicago June 7. Dr. Mason defeated Thos. N. Hazelip, of Paducah, for the honor. Every Calloway citizen, regardless of party affiliation will rejoice to know that decency prevailed and that Hazelip, who owes his political prominence to negro domination, was defeated and that a respectable gentleman from Calloway administered the rebuke.

The democratic legislature adjourned Tuesday on account of the republican state convention in Louisville. But we can stand for most anything from the present legislature and the oftener it adjourns the better for the taxpayers of the state.

Buyers read the Ledger ads,

## HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles? Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows. Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat. Scott's is prescribed by the best specialists. You can get it at any drug store.

Scott & Bown, Manufacturers, N. Y.

## No Opposition to Barkley.

If there is to be any opposition to the re-nomination of Alben W. Barkley for congressman from the First Kentucky district, it has yet to put in its appearance and political dopsters generally concede that no Democrat will offer himself in the face of Barkley's prominence as a member of the National House of Representatives.

Voris Gregory, county judge of Graves county, is reported to have his eye on the job which the former judge of McCracken county has occupied for about four years, but it is believed hardly possible that he will become a candidate for the Democratic nomination next August.

Barkley has not only made good in Washington but he has made good "back home." He has lent a helping hand in every progressive movement, especially in the Good Roads' propaganda which has assumed such big proportions in West Kentucky during the past two years.

Not only had Barkley ably defended Democratic principles and supported Democratic measures in the lower branch of congress, but he, out of several hundred representatives, was selected and requested to introduce a bill providing for prohibition of the sale of liquor in the National Capitol.

Twelve and one-half of the counties of Barkley's district, are "dry" and have been for years. Paducah is the only wet spot in it, so Barkley made no political mistake when he introduced that measure on behalf of the Anti-Saloon league.

It is not at all certain that Congressman Barkley will be able to get back to his district before the August primary. The situation in Washington today is such that an extraordinary session of congress may be called at the end of the regular session. Barkley was kept in Washington by his duties two years ago, and had no trouble winning. His friends, and they are legion, say there is no necessity for him leaving his post this year.—Paducah Sun.

## British Tobacco Embargo.

It is the merest rot to talk of putting an embargo, by act of congress, on the exportation of war munitions to Great Britain in retaliation for her action in shutting off imports of tobacco, and such talk should receive no consideration at the hands of the tobacco growers here. There is not the slightest chance of anything of the kind being done. Aside from its impracticability, it would be an unneutral step; and, if such a step were possible, it would result in more harm than good.

The power to adopt means to solve the situation lies with the growers themselves, and the sooner they realize it the better. Sometimes it takes a catastrophe to reform methods and the act of Great Britain in shutting off altogether imports of tobacco coupled with the serious difficulties of selling to other foreign countries may prove the blow that ultimately will redound to the prosperity of the growers of the export types of tobacco.

A year ago the south was the bluest part of the country. It had sold a record breaking crop of cotton at ruinous prices. Today the south is rolling in wealth, the transformation within a year being one of the marvels of the present general prosperity. It has been estimated that the agricultural products of the south last year, possessed a value of

\$200,000,000 greater than in the year 1914. It planted less cotton and more of other crops with the result that it received a good price for the cotton and raised almost enough corn and other crops to feed itself. If it had stuck to a full acreage of cotton it would have remained in the slough of despond, for exports during the present crop year have run far behind the previous year.

Tobacco growers of Kentucky and Tennessee, who grow the export types, can raise other crops than tobacco and should take the "bull by the horns" as it were, and break away from the old ways and diversify their crops and by doing so they will place themselves in a position to take John Bull by the horns on the question of tobacco supplies later on. By raising other crops the problem of starvation prices may be solved.

Great Britain claims to have a two years' supply of tobacco on hand. Her people are consuming almost as much as they do under normal conditions despite the high prices due to the war tax, but she is selling less to the other countries. She is in need of breadstuff and war munitions and is experiencing difficulty in providing ships to transport them. Ocean freight rates are prohibitive on things that can be dispensed with, and this situation will grow worse as long as the war lasts. The prohibition against imports of tobacco is a war measure.

Let tobacco growers begin raising other crops and rejuvenating the soil and in time there will be a demand for tobacco and they will hold the whip hand, for they will have become independent of the foreign tobacco buyer and he will have to pay prices that will justify the farmer in raising it.—Louisville Times.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters is recommended for strengthening stomach, bowels and liver and purifying the blood.

Mrs. J. B. Roberts of Route 8, went to Murray Tuesday to participate in the 75th anniversary of her father, Rev. J. Mc Pool.—Benton Tribune-Democrat.

"Did You Ever See the Like? No Wonder! 'Gits-it' is the Biggest Selling Corn Cure in the World!"

See, right there,—don't be afraid,—that's it—feel how smooth the skin is! Well, that's where the corn was! "Gits-it" works on all corns, every corn, every time. It's the new, simple corn cure that's been waiting for you to say bye to all foolish contraptions like bundling bandages, sticky tape, plaster, and all the other things that make diggers such as knives, razors and scissors. "Gits-it" stops pain. Applied to the corn, it makes you feel like to stick to, hurt or press on the corn.

"Gits-it" is sold everywhere, 25¢ a bottle, and is made by J. Lawrence & Co., Chicago, Ill.

Sold in Murray and recommended as the world's best corn remedy.—H. P. Wear.

## INDIGESTION, GAS OR SICK STOMACH

Time it! Pape's Diapepsin ends  
all Stomach misery in five  
minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Diapepsin, let this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eruptions of undigested food. Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or bad stomach. Adv.

**Sentimentousness Facetious.**  
A minister who lives in a small town is noted for his sentimentousness both in and out of the pulpit. As he was coming down the street one day a man accosted him with: "Sir, can you tell me how to find the sheriff's office?"  
"Yes, sir," was the instant reply.  
"Every time you earn five dollars spend ten. And he walked on, leaving the astonished man gazing after him.—Harper's Magazine.

## FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle  
of Danderine Right Now—Also  
Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any store, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. Adv.

**In Backward Borneo.**  
According to the Horrelless Age there are only five automobiles in British North Borneo, and 2,400,000 in the United States. Now you understand why there are no gasoline mill lions in North British Borneo.—Richmond Times-Dispatch.

## FRECKLES

**Now Is the Time to Get Rid of These Little Spots.**  
There's no longer the slightest need of feeling ashamed of your freckles, as the prescription—double strength—guaranteed to remove these homely spots. Simply get a double strength—double strength—from your druggist, and apply a little of it night and morning, and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

**In Different Lights.**

"Focillite is convinced that in a year he'll be stalling."  
"That's all moonshine."

## RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

**Up His Sleeve.**  
Patience—Looks as if he had something "up his sleeve," doesn't he?  
Patience—He has. It's a wrist watch.

**PROMPT RELIEF**  
can be found in cases of Colds, Coughs, LaGrippe and Headaches by using Laxative Quinine Tablets. Does not affect the head or stomach. Buy your winter's supply now. Price 25c.—Adv.

Nowadays we hear more about the shiftless son-in-law than about the prodigal son.

**THIS IS THE AGE OF YOUTH.**  
You will look ten years younger if you darken your ugly, grizzly, gray hairs by using "La Creole" Hair Dressing.—Adv.

He is a wise son who knows that he knows less than his father.

## GERMANY ISSUES SUBMARINE ORDERS

COMMANDERS ARE DIRECTED TO  
SINK ARMED SHIPS WITHOUT  
WARNING.

TOOK EFFECT ON FEB. 29

Germany Says Assurances Given In  
Lusitania and Arabic Cases Are  
Binding—Von Bernstorff No-  
tifies Lansing.

Washington—Germany has instructed Count von Bernstorff to inform the United States government that the assurances regarding the future conduct of submarine warfare given in the Lusitania and Arabic cases still are binding, but that they apply only to merchantmen of a peaceful character. The German government is understood to contend that armed merchantmen have, without regard to the nature of their armament, shown themselves not to be peaceful, and therefore are subject to destruction without warning.

The instructions direct the German ambassador particularly to tell Secretary Lansing that British merchantmen armed ostensibly only for defense carry guns for the special purpose of attacking German submarines. To support this claim the Berlin foreign office has sent the ambassador for presentation to the state department a list of at least 20 incidents where it is claimed British merchant ships have attacked submarines.

Confidential advices from Berlin state that German and Austrian submarine commanders have received their new orders and that from midnight, Tuesday, Feb. 29, they are authorized to sink without warning all armed merchant ships of German's enemies. It was said also that many of the submarines probably had left their bases on cruises, and that even should the United States request the postponement of the opening of the campaign it would be impossible to get word to many of the submarines. Count von Bernstorff declined to discuss the instructions from Berlin in any way.

## ARMED SHIP ROW HELD UP

Congress Will Not Embarrass Wilson  
In Diplomatic Dealings With  
Germany—Conference Held.

Washington—Congress has settled down to await developments in the submarine controversy between the United States and Germany, with an overwhelming majority of both houses apparently very definitely determined to take no action which might embarrass the administration in the present stage of diplomatic negotiations. A few of the more ardent advocates of legislation to keep Americans off armed ships continued their activities, and former Secretary Bryan's support for them was shown in the form of a telegram.

So far as the administration is concerned, it is stated authoritatively that while any agitation of the issue just now is undesirable, there was no disposition to oppose a vote on the pending armed ship resolutions if their sponsors tried to force one. It was declared that reports from the capitol showed conclusively that both the senate and the house would stand behind President Wilson.

## COMMISSION FOR WATERWAYS.

Mississippi River Will Be Given Im-  
mediate Attention.

Washington—Adoption of the commission plan of dealing with the waterways problem of the country which would include continuing annual appropriations has been agreed upon as a general policy to be recommended to the president in a conference between cabinet officials and a committee of senators.

For some time conferences between representatives of various ideas of waterway improvement have been going on, with the result that a policy was agreed upon which, it is believed, President Wilson will recommend to congress in the near future.

It is proposed that there shall be given special, immediate attention to the lower Mississippi river below Cairo and that approximately \$10,000,000 shall be appropriated for 1917 for this project. In accepting this proposal the advocates of levee appropriations were won over to the general commission policy.

What is known as the Newland-Broussard waterway measure, which would appropriate \$60,000,000 annually, will be taken as the basis for the proposed new plan.

## REFUSED TO TESTIFY.

Mexican-German Banker Put in Cus-  
tody By Marshal.

New York—Federico Stallforth, a Mexican-German banker, has been ordered committed to the custody of the United States marshal by Federal Judge Dayton for refusing to answer questions before the federal grand jury which is investigating the alleged efforts of German agents to foment trouble between this country and Mexico and to instigate strikes.

## VERDUN BATTLE IS TERRIFIC

Throbbing Thunder of Heavy Guns  
Mark World's Mightiest Struggle.  
Germans Gaining Steadily.

London.—The fifth day of the tremendous battle north of Verdun, which, it is maintained by some experts, is likely to decide the fate of France, was marked by a further German advance toward the great French stronghold. That advance was equal to the average the Germans have maintained throughout the drive—about a mile a day. The main German force is now only two miles from the outer defense works. Heavy German and Austrian guns of 15 and 17-inch caliber have been brought up. More than 400 guns are massed behind the German front and the cannonade of the French redoubts and forts is described as the most sublime spectacle of destruction and thunder since the world began.

The French officers who saw the French bombardment of German positions in Artols last spring and the French cannonade of the German positions in Champagne last autumn describe them as mere displays of fireworks compared with the tornado of steel which the German batteries are now launching.

So terrible is the fire of the big German guns and the reply of the French artillery that the throbbing thunder is plainly audible at Barle-Duc, nearly 30 miles from the scene of the battle.

Gen. Joffre has gone to the front to take command personally, according to a report from Paris, and the great master minds of the war—the kaiser in the north and Joffre in the south—are now pitted against each other in what promises to be the greatest struggle of the war.

The opinion is growing, both in Paris and London, that if the Germans succeed in breaking through at Verdun the French capital must fall, and that in that case London itself will be seriously menaced.

The French have been compelled to evacuate Beaumont, about five miles north of Verdun, and have taken up a new position on the heights east of Champagneville and south of Ornes. They report a terrific attack in strong force on LaCote du Polvre, four and a half miles north of Verdun, but declare it was repulsed.

Berlin reports the capture of all the French positions as far north as the Rise of Loudemont, just below Beaumont. The number of prisoners taken has been increased to 10,000.

Losses on both sides have been appalling. A semi-official French estimate places the German loss at more than 150,000 men in four days. The Germans say their losses are "normal" and about what was to be expected.

It is estimated by the Paris Matin that the army of the crown prince has been re-enforced to the strength of 350,000 men, who are being hurled against the French lines with systematic and utter disregard for human life.

The curtain of fire maintained by the French batteries has annihilated whole regiments, and the ridges north of the Verdun fortress and the rolling hills along the Meuse are piled high with dead.

"The battle of Verdun is infinitely more bloody than the battle of Ypres," says the Matin.

## BRITISH SHIP SINKS.

Big Passenger Vessel Bound for Bom-  
bay Strikes a Mine.

Dover.—The passenger steamship Maloja, a 12,431-ton vessel belonging to the Peninsula and Oriental Line, struck a mine and sank within a half hour two miles off Dover, Feb. 27. It is estimated that 147 persons were drowned or killed.

The Maloja left Tilbury for Bombay with mail, 119 passengers of all classes aboard and a crew numbering about 200, most of them lascars. Other passengers were to board the ship at Marseilles.

The steamship was opposite Shakespeare Cliff when an explosion shook her from end to end. She listed immediately to port. High seas were running and the captain tried to run her aground, but the engine room was swamped and the ship became unmanageable.

The plight of the vessel was observed on dozens of craft went at full speed to her rescue. One of them, the British tanker Empress of Fort William, of 2,181 tons, struck another mine and sank near by.

Just before she went to the bottom the vessel turned turtle, and for a few seconds the keel was visible above the surface. According to eyewitnesses there was a second explosion, and while under the water the vessel righted herself; the masts became visible and then she went down.

## Zapata Meets Defeat.

Galveston, Texas.—The defeat of Zapata forces which attempted a surprise attack upon constitutionalists at the village of Mihuatlan, near Oaxaca City, is reported in a dispatch received by the Mexican consulate here.

## Senate Confirms Fletcher.

Washington.—The senate has confirmed the nomination of Henry Prather Fletcher as ambassador to the government of Mexico. The vote was 49 to 16.

## NO ABRIDGEMENT AMERICAN RIGHTS

WILSON SAYS U. S. CITIZENS WILL  
NOT BE WARNED TO KEEP  
OFF SHIPS.

NATION'S HONOR INVOLVED

Following Dissent in Congress Over  
Germany's Armed Ship Plan, the  
President Announces Stand  
Situation Is Serious.

Washington.—President Wilson, at the end of two days of agitation in congress for action warning Americans off armed merchantmen, wrote a letter to Senator Stone, chairman of the senate foreign relations committee, stating that he could not consent to the abridgment of the rights of American citizens in any respect.

"The honor and self-respect of the nation is involved," he said. "We covet peace and shall preserve it at any cost but the loss of honor."

The president expressed hope that explanations of the declared intentions of the Central European powers to sink all armed merchant ships without warning would put a different aspect on a situation which now seemed to present insuperable obstacles.

"We have had no reason to question their good faith or their fidelity to their promises in the past," he added, "and I for one feel confident that we shall have none in the future."

The letter was in answer to one written by Senator Stone outlining the situation existing at the capitol, where persistent demands had been made for some action which might lessen the possibility of war between the United States and Germany. The president's statement was repeated to Speaker Clark, Representative Kitchen, majority leader, and Representative Flood, chairman of the house foreign affairs committee, who asked for an engagement in order to explain the position in which the house found itself and asked the president for a statement of the administration's views.

## ROW ON GERMAN POLICY

Congress Splits on Warning Ameri-  
cans Who Travel on Armed Ships  
of the Allies.

Washington.—Agitation in congress for action warning Americans off armed ships of the European belligerents suddenly grew to such proportions on Feb. 23 that the Democrats of the foreign relations committee voted to canvass the sentiment of the house on several pending resolutions of that nature.

Sentiment in the senate in favor of such action also was openly expressed, but at the end of a day the surprises, tension and agitation such as had not been seen in congress in some time, the word came that President Wilson was unalterably opposed to any such action by congress, and the canvass was held up.

The sudden developments at the capitol brought surprise and apprehension to the administration leaders. While confronted with the possibility of congressional interference, with all its grave aspects ranging from a defection from the administration policy to downright embarrassment of the president and the secretary of state, the leaders were confident they would control the situation and leave the executive branch of the government free to carry on diplomatic negotiations with Germany.

At no time did the question come out openly on the floor of either the house or the senate, but about a score of congressmen who announced they were in favor of warning Americans, even if it involved a repudiation of the administration policy, if thereby they thought war would be averted, kept both houses in a state of tension that practically blocked business.

## AUSTRIANS ATTACK TRAIN.

They Cut Air Hose on Freight Carry-  
ing War Supplies.

Tacoma, Wash.—A Great Northern freight train loaded with automobiles and war supplies for shipment to Russia was attacked in the Union freight yards by a half dozen or more men said to be Austrians.

A pitched battle between the attackers and the trainmen occurred after the air hose had been cut in five places between the cars, and the train cut in four sections. Two of the men were arrested.

## Sighted No Submarines.

Boston.—The White Star liner Canopic has arrived here from Mediterranean ports, Madeira and the Azores without having sighted either a submarine or a German raider. A four-inch rifle, mounted on the Canopic while in the Mediterranean, was removed.

## Czar Goes To Front.

Petrograd.—Emperor Nicholas, who visited the duma at its opening session and delivered a brief address to the members, has left for the front.

## URGE PROBE OF EXCHANGE

Congress Hears That New Yorkers  
Have a Conspiracy To Hold Cot-  
ton Prices On Low Level.

Washington.—Democrats of the house from the cotton growing states held a conference at the house office building and determined to urge congress to investigate the New York Cotton Exchange to ascertain whether there is a bear conspiracy to depress the price of cotton. It also was agreed to propose a bill to further regulate cotton exchanges.

The committee also is to draft a bill for the further regulation of the cotton exchanges of the United States and to submit it to the next meeting of the conference, when called for that purpose by the chairman.

The text of the resolution follows: "Whereas, the New York Cotton Exchange has been manipulated so as to depress the cotton market and prevent prices warranted by supply and demand; and,

"Whereas, said exchange has depressed the price of the future contract so as to keep it below the price of cotton in the spot markets of the south; and,

"Whereas, such price juggling and manipulation discloses crooked dealing and unfair methods in influencing cotton prices; and,

"Whereas, the belief exists among producers of cotton and others engaged in the cotton business that there is a bear conspiracy among certain speculators on the New York Cotton Exchange to depress and hold down the price of cotton; and,

"Whereas, the necessity exists for further and better regulation of cotton exchanges so as to confine future dealing to fair and legitimate speculation; therefore be it

"Resolved, that the chairman of this convention be, and he is hereby authorized and requested to appoint a committee to be composed of one representative in congress from each of the cotton growing states to draft and introduce into congress a resolution calling for an immediate, full and complete investigation of the New York Cotton Exchange; and be it further

"Resolved, that it shall be the duty of said committee to draft a bill for the further regulation of the cotton exchanges of the United States and to report the same to this convention when it shall be called for that purpose by the chairman."

## HELP FOR FLOOD-SUFFERERS.

Government Boats Make Rescues and  
Carry Supplies In Louisiana.

Natchez, Miss.—Government snagsboats have been reported as being put to active use by relief workers in the flooded districts of Concordia parish, from where urgent appeals for assistance had come. The boats are running in the Black river, and a large number of people and live stock have been removed through their use to places of safety.

In the black country, however, it was stated that there were many white farmers in need of supplies for themselves and food for their cattle. They asked that these supplies be sent to them, as they desired to remain on their farms so as to be able to plant crops when the water went down. Shallow water prevented snagboats from penetrating that district. Ten tons of hay were sent to the white farmers by the Natchez relief committee as temporary relief for live stock.

The negroes of Concordia parish were reported to be in worse condition than the white inhabitants, and unless relief came within a few days it was declared that many would be facing actual starvation.

## Astor Awarded Cross

London.—Capt. John Jacob Astor of the First Life Guards has been awarded the Chevalier's cross of the Legion of Honor for gallantry.

Capt. Astor is the son of William Waldorf Astor, recently made baron of Hever Castle. Capt. Astor was wounded in battle in France in October, 1915.

## Sarrail Sees Greek King.

Athens.—Gen. Sarrail, commander of the French troops in the Balkans, arrived here and had an audience with King Constantine. The king said he was delighted with the interview which he was confident was the first step toward clearing up difference.

## Two Are Drowned.

Chicago.—A petty officer and an apprentice seaman at the naval training station at Lake Bluff, near here, were drowned when a heavy sea dashed a boatload of reserves against the breakwater.

## Villa Still Going.

El Paso, Tex.—Francisco Villa has burned several houses at San Buenaventura and occupied El Valle, according to official reports received by Gen. Gabriel Gaviro, commandant at Juarez.

## A Company of Ministers.

London.—An entire company composed of Welsh clergymen and theological students has just had its first parade at Rhyl. It has 230 members and is attached to the Royal Army corps. All denominations are represented.

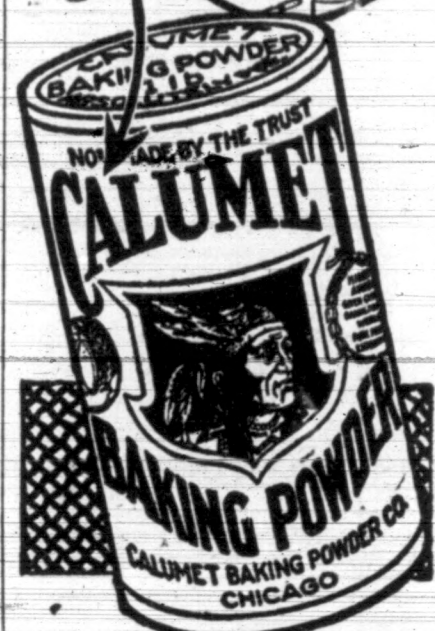

**Experiments  
with  
Baking Powder  
are  
Costly**

Millions of housewives know this is the truth—they realize the cost of a single bake-day failure. That's why they stick to Calumet.

Be on the safe side—avoid disappointments—use Calumet next bake-day—be sure of uniform results—learn why Calumet is the most economical to buy and to use. It's pure in the case—pure in the baking. Order now!

Powder  
Is It in Your  
Can?

**Be Safe—  
Use**

Cheap and big can Baking Powders do not save you money. Calumet does—It's Pure and far superior to sour milk and soda.

## KICKED A BARREL OF BEES

Supreme Court of Georgia Gets Case  
of Negro Who Was Bending  
Over It.

The supreme court of Georgia must decide the unique point of whether a swarm of bees can be considered a "deadly weapon," the Atlanta Constitution states.

The case originated in a criminal court in Atlanta and involves the most astonishing defense ever put forward in a case of assault with intent to murder.

An Atlanta negro, Roscoe Richards, was standing last summer over a barrel full of watermelon rinds. The barrel was also full of bees feeding on the rinds, a fact which Roscoe didn't know. As he bent his head down into the barrel to see if there wasn't something worth picking up another negro kicked the barrel. The bees arose angrily and lighted all over Roscoe's ebony head and face.

Roscoe turned over in the air, but when he alighted he came down like a cat on his feet and his razor was at hand and open. He is said to have attacked the other negro and literally cut him to pieces. Richards employed lawyers and when the case came to trial recently he pleaded not guilty and interposed the simple plea of "self-defense."

His lawyers produced evidence to show that in many cases people had been stung to death by bees. They proved the facts of the case and let it go at that. The defense, independent of Roscoe Richards' personal interest in the outcome, has brought up one of the prettiest points in the history of the Georgia criminal courts.

## Extreme of Red Tape.

An English officer who had been, through mistake, reported "killed in action," on his return from the front went to his bank to cash one of his checks. The clerk at the counter, instead of asking the welcome question, "How will you take it?" looked doubtful and puzzled, stared at the soldier, and finally hurried away to seek advice elsewhere. He presently returned with the news that the check could not be cashed. "But you know me, and that is my signature!" exclaimed the astonished officer. "M—yes," said the clerk hesitatingly; "but the fact is, sir, that you're—you're dead, you see, and I'm told we shall require you to give proof to the contrary before we can pay the money."

Instead of wearing a laurel wreath the modern poet struggles along without a hair cut.

**AVOID A DOCTOR'S BILL**  
on the first of the month by taking  
now a bottle of Mansfield Cough  
Syrup for that hacking, hollow cough.  
Price 25c and 50c.—Adv.

**Its Place.**  
"What shall I do with this rasping  
cough?"  
"Put it on fire."

**If You Can't Get It in Town.**  
Someone in almost every town in  
the United States sells Mansfield's  
Syrup of Myrrh. If you can't get it,  
write G. C. Mansfield Mfg. Co., Syra-  
cuse, N. Y. Price 50c and \$1.00. Adv.

**Its Kind.**  
"Is your husband's desire to be an  
aviator a trial to you?"  
"Oh, it is a real affliction!"

### CLEANSE THE PORES

Of Your Skin and Make It Fresh and  
Clear by Using Cuticura. Trial Free.

When suffering from pimples, black-  
heads, redness or roughness, smear  
the skin with Cuticura Ointment.  
Then wash off with Cuticura Soap and  
hot water. These super-creamy exfoli-  
ants do much for the skin because  
they prevent pore clogging.

Free sample each by mail with Book.  
Address Postcard, Cuticura, Dept. L,  
Boston. Sold everywhere.—Adv.

**Its Transformation.**  
"This," said the messenger sadly as  
he looked on the broken form which  
had been knocked out of his hands,  
"was once an article of electricity."  
"Well, what of it?" asked a by-  
stander.

"And now it is a piece of current  
pl."

### HAD PELLAGRA; IS NOW WELL

Ringgold, La.—Mrs. S. A. Cotter, of  
this place writes: "Will say that I am  
perfectly well and the happiest soul on  
earth. Wish every pellagra sufferer could  
know of your great remedy. I know how  
to appreciate health and sympathize with  
those that are not so blest as I. Am grow-  
ing stronger, gaining in weight and can  
do anything I ever could. Oh, I know I  
am well of that horrible disease, and my  
heart is full of rejoicing. I feel that I  
have come out of a dense cloud into the  
bright sunshine. God be praised! He  
has spared my life for some good, and I  
feel that I have just begun to live."

There is no longer any doubt that pel-  
lagra can be cured. Don't delay until it  
is too late. It is your duty to consult the  
responsible Bingham.

The symptoms—hands red like sunburn;  
skin peeling off, sore mouth, the lips,  
throat and tongue a flaming red, with  
much mucus and choking, indigestion and  
nausea, either diarrhoea or constipation.

There is hope; get Bingham's Big Free  
book on Pellagra and learn about the  
remedy for Pellagra that has at last been  
found. Address American Compounding  
Co., box 2098, Jasper, Ala., remembering  
money is refunded in any case where the  
remedy fails to cure.—Adv.

**Uneasy Seat.**  
"My," said little Alfred, as he  
looked up from his book, "this sailor  
must have been an acrobat!"  
"Why, dear?" queried his mother.  
"Because," replied Alfred, "it says  
in the book, 'Having lit his pipe he sat  
down on his chest.'—Youth's Com-  
panion."

### GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea  
and Sulphur to Bring Back Color,  
Gloss, Thickness.

Almost everyone knows that Sage  
Tea and Sulphur, properly compound-  
ed, brings back the natural color and  
lustre to the hair when faded, streaked  
or gray; also ends dandruff, itching  
scalp and stops falling hair. Years  
ago the only way to get this mixture  
was to make it at home, which is  
messy and troublesome. Nowadays,  
by asking at any store for "Wyeth's  
Sage and Sulphur Hair Remedy," you  
will get a large bottle of the famous  
old recipe for about 50 cents.

Don't stay gray! Try it! No one  
can possibly tell that you darkened  
your hair, as it does it so naturally  
and evenly. You dampen a sponge or  
soft brush with it and draw this  
through your hair, taking one small  
strand at a time, by morning the gray  
hair disappears, and after another ap-  
plication or two, your hair becomes  
beautifully dark, thick and glossy.—  
Adv.

**Blown Up.**  
Groans—My uncle lost his life last  
week in an explosion.  
Grins—So? Wife or boiler?

**To Drive Out Malaria**  
—And Build Up The System  
Take the Old Standard GROVES  
TASTELESS CHILL TONIC. You know  
what you are taking, as the formula is  
printed on every label, showing it is  
Quinine and Iron in a tasteless form. The  
Quinine drives out malaria, the Iron  
builds up the system. 50 cents.

**Its Advantage.**  
"Is there much in this real estate  
business?"  
"Oh, yes; there are lots to sell."

For hot grease burns apply Han-  
ford's Balm lightly until the fire is  
extracted. Adv.

**Exactly.**  
"Have you dyed your hair black?"  
"That isn't a fair question."

If a man can afford to sit down and  
wait for a golden opportunity to come,  
along he doesn't need it.

### COOKING LIMA BEANS

MATTER WORTHY CAREFUL AT-  
TENTION OF HOUSEWIFE.

Food Specialists Suggest Some Meth-  
ods of Preparing the Dried and  
Canned Product to the Best  
Possible Advantage.

Food experts have long been insist-  
ing upon the importance of dried  
beans, peas, cowpeas and similar  
legumes, and in one form or another  
such foods are an accepted part of the  
diet in most families. In order that  
she may make the best use of them,  
the housekeeper's advantage to know  
a number of good ways of serving such  
foods, and so the home economics ex-  
perts of the department have made  
some suggestions based upon their  
studies of foods and their uses in the  
home.

Fresh green lima beans when at  
their best have a delicate, spicy or  
pungent flavor, which to some palates,  
at least, suggests curry, a fairly well-  
known (any grocer can get it) though  
not very common spice, which is per-  
haps most familiar in such dishes as  
"curried lamb" or "curried veal." This  
suggested the possible use of curry as  
a seasoning for lima beans, and the  
tests which have been made gave very  
satisfactory results with dried and  
canned as well as with fresh beans.  
When preparing dried lima beans,  
soak them an hour or two (or even  
longer), according to dryness, and  
cook until tender. Then add the curry  
powder (in the proportion of one-half  
teaspoonful (level) to each pound of  
dried beans) rubbed into a tablespoonful  
of butter and mixed with a few  
spoonfuls of hot water. Add salt  
and pepper to taste and cook slowly  
until the curry flavor is well dis-  
tributed through the beans.

That the method can also be fol-  
lowed with good results in preparing  
canned lima beans for the table is of  
interest to housekeepers as well as to  
the canning clubs organized as a part  
of the department work and for whom  
some special studies of the use of  
canned vegetables have been under-  
taken. In this case, as with dried  
beans, the amount of curry powder  
should be just sufficient to give a deli-  
cate flavor. A quarter of a teaspoonful  
(level) is sufficient for a quart can  
of beans.

For variety a little onion may be  
used, with or without curry. Cut the  
onion very fine, cook it in a covered  
steepdown with a little butter and a few  
tablespoonfuls of water until it is ten-  
der, and then add to the beans.

Another good combination is canned  
lima beans with pimientos or sweet  
peppers, with or without the addition  
of the finely-chopped onion, cooked  
until it is tender. The pimientos, be-  
cause of their red color, add to the at-  
tractiveness of the dish as well as to  
the flavor. One-half of a good-sized  
pepper, cut into small pieces, is suf-  
ficient for a quart can of beans. Stir  
into the beans and cook with them  
long enough to distribute the flavor  
through the beans.

**Molded Salmon With Celery Salad.**  
Separate salmon into flakes. Have  
ready a clear, gelatinized mixture, made  
by dissolving in two cupsful and one-  
half of boiling water two tablespoonfuls  
of granulated gelatin which have  
soaked fifteen minutes in half a cupful  
of cold water. Add one-half cupful  
of lemon juice. When cool, stir  
in the flaked fish, together with slices  
of hard-boiled egg, previously sea-  
soned with pepper, salt and onion  
juice. Turn into a wet border mold.  
To serve, unmold on platter and fill  
center cavity with celery and lettuce  
dressed with mayonnaise. Decorate  
edge of platter with small, curving let-  
tuce leaves holding additional mayon-  
naise.—From the Delineator.

**English Plum Pudding.**  
One pound suet, one quart rolled  
cracker crumbs, one pint flour, one  
pound currants, one and one-half  
pounds raisins, one-half pound citron,  
one cupful sugar, one-half cupful mo-  
lasses. Beat two eggs, pour a little  
cold water over them, one-fourth tea-  
spoonful cassia, one-half allspice, a lit-  
tle clove, two nutmegs. Mix pretty  
stiff with flour and steam six or seven  
hours.

Sauce for It—One and one-half cupful  
sugar, one tablespoonful butter,  
one teaspoonful flour. Beat to a foam  
and pour in boiling water. Flavor to  
taste.

**Ethel's Muffins.**  
One-half cupful graham flour, one-  
half cupful bran, one-half cupful rye  
flour, one-half cupful white flour, one-  
third or one-half cupful cornmeal, one-  
half cupful sugar, one teaspoonful salt,  
two well-rounded teaspoonfuls baking  
powder. Mix all these ingredients, then  
add about one and one-half cupfuls  
of milk, one beaten egg, one table-  
spoon melted butter. Bake in moder-  
ate oven.

**Cocoa Doughnuts.**  
One egg, three-fourth cupful sugar,  
one-half cupful sweet milk, one-fourth  
teaspoonful salt, one-fourth teaspoonful  
extract cinnamon, two cupfuls flour,  
two teaspoonfuls baking powder, one-  
fourth cupful cocoa. Add a little more  
flour if needed.

**Cracker Gruel.**  
Two tablespoonfuls cracker crumbs,  
one cupful milk, one-quarter teaspoonful  
salt; mix crumbs and milk and  
cook in double boiler twenty minutes;  
add salt and serve.

### BIG VOTE FAVORS PAY DAY MEASURE

MURPHY'S SEMI-MONTHLY PAY  
DAY BILL IS CALLED FROM  
ORDER AND PASSED.

### SOLOMON IS CONGRATULATED

Fate Befalls Representative Lasey in  
Effort to Get Anti-Screen Pro-  
posal on Its Passage.

(Special Frankfort Correspondence.)  
Frankfort.—Representative John T.  
Murphy, Covington, called the semi-  
monthly pay bill from the orders of  
the day and had it passed by the vote  
of 57 to 32. Representative Greene  
protested against having bills taken  
out of their regular order and placed  
ahead of his anti-screen bill. The  
house supported Representative Mur-  
phy and the semi-monthly pay bill was  
reported. Representative Murphy and  
Treadway spoke in favor of the bill.  
Representative Lasey opposed it, de-  
claring there is no public demand for  
such legislation. In one of the best  
speeches of the session Representative  
Murphy declared that 18,000 or  
20,000 laboring men are united in favor  
of the measure. He was congratulated  
warmly after the passage of the  
bill, even by those members who  
fought it. The motion of Representa-  
tive Lasey to take the anti-screen bill  
from the orders of the day and put it  
on its passage was defeated, 46 to 41.  
The purpose of taking up the anti-  
screen bill at this time was to offer  
the substitute for it, favored by Gov-  
ernor Stanley and Attorney General  
Logan.

### Special Session.

That a resolution will be adopted  
by the General Assembly before the  
close of this session of the legislature  
requesting Gov. Stanley to call an ex-  
tra session of the legislature to con-  
sider and pass a revenue and taxation  
bill is regarded as certain here. The  
resolution will provide for the election  
of three members from the House and  
three from the Senate and the selec-  
tion of the third member by Gov. Stan-  
ley to constitute a committee to draft  
a bill to be submitted to the legisla-  
ture. The program is the plan of the  
Tax League and of the Bankers' As-  
sociation. It is thought that the regu-  
lar session is too far advanced now  
to consider a taxation measure that  
would be acceptable to the people.  
Any bill passed providing for the clas-  
sification of property for taxation  
must be submitted to the people for  
adoption.

### University of Kentucky.

The name of the State University  
is changed to the University of Ken-  
tucky by the bill reorganizing the ex-  
tension work of the State College of  
Agriculture and revising the entire  
Agricultural Department of the State,  
introduced in the Senate by Senator  
Peak, of Trimble county. The univer-  
sity will have fifteen trustees ap-  
pointed by the Governor, one from  
each of the other Congressional Dis-  
tricts, and five from the Seventh, only  
three of whom can reside in Fayette  
county. One-fifth of the number must  
have been students of the university  
for at least two years. There are  
six trustees elected by the alumni,  
and the Governor, State Superintendent,  
members of the Board of Agri-  
culture and the president of the uni-  
versity are ex-officio trustees.

### Child-Actor Bill.

Under certain conditions, children  
will be permitted to perform in thea-  
ters in this state if the Robertson bill,  
S. B. 148, which passed by the legisla-  
ture, is enacted into a law. It amends  
the existing child-labor law by permit-  
ting non-resident children under 16 years  
of age to perform in playhouses of  
this state when accompanied by their  
parents, guardians or tutors. In urg-  
ing its passage Senator S. L. Robert-  
son, of Louisville, its author, called at-  
tention to the Eddie Foy episode in  
Louisville recently, when the children  
of the comedian were prevented from  
going on the stage with their father,  
notwithstanding that they were also  
accompanied by their tutor. The bill  
passed by a vote of 24 to 5, Senators  
Brock, Frost, Hiles, Lewis and Wil-  
liams voting in the negative.

### Measure Is Tabled.

By a vote of 13 to 9, the Senate  
tabled the Lewis bill, S. B. 186, to au-  
thorize the State Board of Education  
to issue certificates to graduates of  
normal schools other than the State  
University and the State Normal  
Schools, to teach in the rural schools  
without the examination now required  
of teachers. It had been amended to  
apply only to white teachers.

### Interest Bearing Warrants.

Senator Hiles has been making  
an effort to pass his bill provid-  
ing for interest-bearing state  
warrants with fixed date of matu-  
rity. An objection was raised to  
the bill. The bill, Senator Hiles ex-  
plained, is endorsed by the adminis-  
tration, and is agreed upon by the  
bankers of the state, who had held a  
conference here with Gov. Stanley on  
this subject. The bill calls for an  
appropriation of \$1,200 annually for  
the treasurer's office, for additional  
clerk hire.

### Extra Help Is Provided.

By a vote of seventy-two to six the  
house of representatives passed a bill  
providing for clerks and stenogra-  
phers for the department of education.  
The court of appeals recently decided  
Superintendent of Public Instruction  
Gilbert did not have authority to em-  
ploy any of the clerks and stenogra-  
phers in his office, and State Auditor  
Greene refused to issue warrants for  
the salaries of the clerks and stenog-  
raphers who had been employed by  
Gilbert. The bill authorizes the em-  
ployment of a chief clerk, at \$1,500  
per annum; a first clerk and a second  
clerk, at \$1,200 each; a third clerk, at  
\$1,000; a fourth clerk, at \$850—a total  
of five clerks, at the aggregate salar-  
ies of \$5,750 per annum. Two stenog-  
raphers, at \$1,200 each per annum;  
two stenographers, at \$1,000; one  
stenographer, at \$850—a total of five  
stenographers, at an aggregate ex-  
pense of \$5,300, also are authorized,  
which makes a grand total of \$11,050  
for the ten assistants.

### Would Aid Kentucky.

Commissioner of Roads R. C. Terrell  
has communicated with the coun-  
ty authorities of the State, requesting  
them to ask the Kentucky Senators in  
Congress to support national road aid  
legislation. Commissioner Terrell  
said the Shackleford bill would give  
Kentucky approximately \$750,000, du-  
plicating the State-aid funds. The  
bill has passed the House. Commis-  
sioner Terrell believes that the best  
plan of operation for national aid is  
for the State Roads Departments to  
designate the routes subject to the  
National Bureau of Highways, and  
suggests three plans for co-operation,  
the national fund, state, county and  
abutting property owners or subscrip-  
tion funds to pay a fourth each; the  
government, state and county to pay  
a third each, or the government and  
state each to pay half.

### Report on Williams Case.

Majority and minority reports were  
filed by a special committee who in-  
vestigated charges against J. E. Wil-  
liams, Republican-judge of McCreary  
county. The majority report sustains  
the charges and recommends that the  
house send articles of impeachment to  
the senate. The minority report,  
signed by Representative White, the  
Republican member of the committee,  
recommends that the impeachment pe-  
tition be dismissed.

### LEGISLATIVE NOTES

The bill of Senator Huntsman to  
provide for poll tax in third class cit-  
ies passed 26 to 1.

The bill introduced by Senator  
Speer calls for an appropriation for  
the erection of a reservoir at the Ken-  
tucky Peeble-Minded Institute.

Senator Combs introduced a joint  
resolution appropriating \$250 for an  
assistant to the Superintendent of  
Public Printing during the legislature.

John Frost, son of Senator Frost,  
was made a page for several days  
without compensation in order that he  
might enjoy the privileges of the  
floor.

Notwithstanding the fact that the  
legislature is practically on its last  
lap bills are still being introduced  
in the upper branch, six being of-  
fered.

Representative Dowling submitted  
a petition from residents of Anderson  
county urging the passage of the bill  
appropriating \$20,000 for the illiteracy  
commission.

The prediction was made by Sena-  
tor Zimmerman that if the Lewis bill  
were enacted into a law, it would tend  
to unload a real army of unqualified  
and incompetent teachers on the state.

A bill seeking to protect railroad  
companies in the use and enjoyment  
of their rights by prohibiting the con-  
demnation of their property for other  
purposes was offered by Senator Rob-  
ertson.

Bills regulating and defining certain  
kinds of co-operative insurance on the  
mutual plan, and changing the time  
of holding circuit court in the Twen-  
ty-ninth district were introduced by  
Senator Montgomery.

Representative Minor's joint resolu-  
tion properly observing the 175th an-  
niversary amendment to the Federal  
Reserve act permitting national banks  
to establish branches in the city or  
county where located, was adopted  
without dissent.

The creation of a State Art Com-  
mission is provided for in a bill of-  
fered by Senator Combs. The same  
Senator offered a bill to amend Sec-  
tion 786 of the Kentucky Statutes re-  
lating to the blowing of whistles and  
ringing of bells by steam locomotives.

### CLAIM AID OF STATE ROAD FUND.

Lexington, Ky.—The fiscal court of  
Fayette county will claim aid to which  
it is entitled from the state road fund,  
according to a decision reached at a  
recent meeting held. Under the law,  
Fayette county may claim not to ex-  
ceed 2 per cent of the state road fund  
for use in the improvement of turn-  
pikes of the county, and Judge F. A.  
Bullock said that this would amount  
this year to about \$15,000. The money,  
in all probability, will be used in build-  
ing roads of some improved material.

### SEES PARTY SUCCESS

Senator Smith Confident of Dem-  
ocratic Victory.

Arizona Statesman Points to the Ex-  
ceptionally Good Business Condi-  
tions as Evidence of the Suc-  
cess of the Administration.

Senator Marcus A. Smith of Ari-  
zona, arrived recently at Washington  
for the session. He went to Kentucky,  
his native state, to attend his brother,  
who has been seriously ill, and  
then took a trip to the Pacific coast,  
going as far as Vancouver, British Co-  
lumbia.

"The most striking condition that  
came under my observation during my  
visit West was the great improve-  
ment everywhere in the business situ-  
ation," said Senator Smith. "Busi-  
ness is booming on the coast and in  
Arizona, from where I have had re-  
ports every day. Everybody is as  
busy as can be. The copper mines  
are working overtime, and instead of  
a low price for copper, as was feared  
at the beginning of the European war  
because copper is contraband, the  
price soared until it reached a record  
mark, and it looks like it's going to  
stay up. In every other line of in-  
dustry things are better."

"This is all good for the Democratic  
party. In the midst of prosperity the  
people are certainly not going to talk  
tariff, and they are not going to vote  
for a change of administration. I have  
no doubt that the president will be  
renominated and re-elected. His  
strength among the people is wonder-  
ful. I have had leading Republicans  
everywhere tell me they intend to vote  
for the president."

"I do not know, of course, what the  
administration program may be re-  
garding national defense, but I can  
say that I am in favor of any program  
that provides for adequate prepared-  
ness, and I believe the people all over  
the country favor it."

**Overwhelmed With Prosperity.**  
One of the great trunk-line railroads  
has issued notices that it will accept  
no more freight consigned for export  
for an indefinite time to come. Its  
tracks are full of loaded cars from  
New York to Buffalo and hundreds of  
cars are hopelessly stalled on side  
lines. Other trunk railroads are also  
overwhelmed with traffic which is  
dammed up and sets back as far west  
as the Ohio line.

We shall hear it said that the roads  
have been starved into an insufficiency  
of facilities to handle the business of  
an ordinary degree of prosperity. This  
is not the trouble at all. The trouble  
is at the seaboard, and the trouble  
there is not an absolute scarcity of  
shipping but a scarcity relative to ex-  
port business far surpassing all re-  
cords.

Our actual exports are running in  
value 25 to 35 per cent beyond the  
usual volume of the season. This  
means that more ship tonnage is of-  
fering than ever before in spite of the  
tie-up of German shipping and the  
great losses and diversions of English  
and French shipping because of the  
war. Upper New York bay is full of  
vessels loading from lighters—vessels  
drawn from every quarter of the world  
by high rates and a demand which  
still vastly exceeds this extraordinary  
supply of any old tonnage that will  
float.

### Republicans in Hard Straits.

Ability has apparently become a  
crime in the Republican party. The  
leaders are suspicious of it. The col-  
onel and the rest of the Bull-Moose  
herd might resent it. Even Justice  
Hughes is looked upon with more or  
less distrust, and about the only ac-  
tive support that he has comes from  
men who think it would be a good  
thing to prostitute the United States  
Supreme court in order to placate  
the Roosevelt Progressives.

Elihu Root must have been deeply  
touched by the honeyed compliments  
of Mrs. Depew's speech; but if the New  
York Republicans have such exalted  
respect for Mr. Root, why are they  
afraid to get behind him and make  
him their candidate for president?

### Are Republicans Afraid of Brains?

"We have had great leaders in the  
past," said Chauncey M. Depew in  
his speech at New York; "we have  
great leaders now; but the greatest  
of them all is the man who sits right  
here," meaning Elihu Root. Kind  
words, but how many parsnips do  
they butter?

Elihu Root is unquestionably the  
greatest leader in the Republican  
party. Mentally he towers head and  
shoulders above any other Republican;  
yet nobody dares to propose him se-  
riously for president. The Republican  
party is evidently afraid to nominate  
its ablest man.

### Our Policy in Mexico.

In Mexico the president has avoided  
armed intervention and yet eliminated  
Huerta, who, even if not implicated in  
the murder of Madero, was the fool of  
the men who committed that crime,  
and the president has secured the  
nearly complete tranquillization of the  
country under the man who comes  
nearer than anyone else to represent-  
ing the constitutional elements in  
Mexican policies. If the Republicans  
think more ought to have been done,  
they will have to admit they wish the  
nation had been made a party to war.

### Jump from Bed In Morning and Drink Hot Water

Tells why everyone should drink  
hot water each morning  
before breakfast.

Why is man and woman, half the  
time, feeling nervous, despondent,  
worried; some days headachy, dull and  
unstrung; some days really incapac-  
itated by illness.

If we all would practice inside-bath-  
ing, what a gratifying change would  
take place. Instead of thousands of  
half-dazed, anaemic-looking souls with  
pasty, muddy complexions we should  
see crowds of happy, healthy, rosy-  
cheeked people everywhere. The reason  
is that the human system does not  
rid itself each day of all the waste  
which it accumulates under our pres-  
ent mode of living. For every ounce  
of food and drink taken into the sys-  
tem nearly an ounce of waste material  
must be carried out, else it ferments  
and forms ptomaine-like poisons which  
are absorbed into the blood.

Just as necessary as it is to clean  
the ashes from the furnace each day,  
before the fire will burn bright and  
hot, so we must each morning clear  
the inside organs of the previous day's  
accumulation of indigestible waste and  
body toxins. Men and women, when-  
ever sick or well, are advised to drink  
each morning, before breakfast, a  
glass of real hot water with a tea-  
spoonful of Limestone phosphate in  
it, as a harmless means of washing  
out of the stomach, liver, kidneys and  
bowels the indigestible material,  
waste, sour bile and toxins; thus  
cleansing, sweetening and purifying  
the entire alimentary canal before put-  
ting more food into the stomach.

Millions of people who had their  
turn at constipation, bilious attacks,  
acid stomach, nervous days and sleep-  
less nights have become real cranks  
about the morning inside-bath. A quar-  
ter pound of Limestone phosphate will  
not cost much from your druggist or  
at the store, but is sufficient to dem-  
onstrate to anyone, its cleansing,  
sweetening and freshening effect upon  
the system.—Adv.

Calling a Bluff.  
"My brother is a very sound organ."  
"That may be, but I know a belle  
who can wring it."

### SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating,  
harsh physic into a  
sick child.

Look back at your childhood days.  
Remember the "dose" mother insisted  
on—castor oil, calomel, cathartics.  
How you hated them, how you fought  
against taking them.

With our children it's different.  
Mothers who cling to the old form of  
physic simply don't realize what they  
do. The children's revolt is well-found-  
ed. Their tender little "insides" are  
injured by them.

If your child's stomach, liver and  
bowels need cleansing, give only deli-  
cious "California Syrup of Figs." Its  
action is positive, but gentle. Millions  
of mothers keep this harmless "fruit  
laxative" handy; they know children  
love to take it; that it never fails to  
clean the liver and bowels and sweet-  
en the stomach, and that a teaspoonful  
given today saves a sick child tomor-  
row.—e

Ask at the store for a 50-cent bottle  
of "California Syrup of Figs," which  
has full directions for babies, children  
of all ages and for grown-ups plainly  
on each bottle. Adv.

The instrument.  
"I want to sweep the cobwebs from  
my brain."

### Helpless From Kidney Trouble— Obtains Permanent Relief

I was afflicted about five years with  
kidney and bladder trouble; there was  
one year during this five years that I  
was not able to do anything; in fact, I was  
helpless. I tried several doctors and  
several remedies, and my family doctor  
advised me that I would have to be  
operated on. I was then advised by a lady  
friend to try Swamp-Root; after using  
seven bottles of Dr. Kilmer's Swamp-  
Root I was restored to good health and  
have not been bothered with kidney or  
bladder trouble for the last ten years. I  
cheerfully recommend Swamp-Root to  
others for kidney or bladder trouble.

Yours truly,  
MRS. J. R. TURNER.  
212 West Dalton St.,  
Hugo, Okla.  
Personally appeared before me this  
27th day of February, 1915, Mrs. J. R.  
Turner, who subscribed the above state-  
ment and made oath that the same is  
true in substance and fact.

J. H. FINCHER,  
Notary Public.  
**Prove What Swamp-Root Will Do For You**  
Send ten cents to Dr. Kilmer & Co.,  
Binghamton, N. Y., for a sample size bot-  
tle. It will convince anyone. You will  
also receive a booklet of valuable infor-  
mation, telling about the kidneys and blad-  
der. When writing, be sure and mention  
this paper. Regular fifty-cent and one-  
dollar size bottles for sale at all drug  
stores.—Adv.

Greenheart wood from British  
Guiana is said to inflame iron or steel  
when used under water.

From the bulldog's point of view this

## MIGRATORY LAW STILL EFFECTIVE

Washington, D. C. March 2.—A misleading statement has recently become current in newspapers of the Mississippi Valley and elsewhere, to the effect that the Department of Agriculture has suspended the enforcement of the Federal regulations under the Migratory Bird Law and by this means has enabled sportsmen, under State laws, to shoot wild fowl the coming spring.

Under the Federal regulations as they now stand, the season on all migratory wild fowl is closed until next autumn throughout the United States. Federal inspectors and wardens are required, and others interested in the protection of wild fowl are requested to report to the Department of Agriculture all cases of violations of the regulations, in order that proper action may be taken.

The Department of Agriculture has no power to suspend the law or to pardon violations of the regulations. Doubtless the erroneous impression, on which the newspaper statements are based, has grown out of the pendency of litigation involving the constitutionality of the Act of Congress approved March 4, 1918, under which the regulations were promulgated. The lower Federal courts disagreed as to the validity of the statute and the issue was carried to the Supreme Court of the United States. The case was argued in the Supreme Court in October, 1915, but has not been decided. Following the lower court decisions, congress appropriated money for the purpose of continuing the enforcement of the law. The department of agriculture is bound to report to the department of justice violations of the regulations if the supreme court should declare the law constitutional. All persons should, therefore, be warned of the danger they incur from failure to abide by the regulations.

State of Ohio, city of Toledo, ss.

Lucas county

Frank J. Cheney makes oath that he is senior partner or the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence this 6th day of December A. D. 1886.

(Seal) A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists. 75c. Take Hall's Family Pills for constipation.

Relatives in Calloway.

Mr. William J. Crisp, known as "Uncle Billie" to his intimate friends, died on Wednesday afternoon of last week about two o'clock at his home on Little river in Trigg Furnace district, seven miles west of Cadiz. He had been ill for a month or more with gripp and other complications, and for several days before his death had been unconscious.

Mr. Crisp was born in Stewart county, Tenn., in 1836, and if he had lived until the fourth of next September he would have been 80 years of age. He came to Trigg county in early life and as a young man was united in marriage to Miss Lucy Marberry, of this county. Four children were born to this union. Miss Anna died when a girl and the three sons are still living, as follows: A. C. Crisp, formerly of Canton but now living in Calloway county, and T. J. and R. G. Crisp, of this county. Cadiz Record.

## THE COUNTY LIVE STOCK RAISERS.

In the distribution of pure bred live stock in communities seeking to improve both the quality of the animal produced and the prevailing customs of live stock husbandry, the county live stock association plays an essential and important part. No community can hope to attain general and substantial advancement in agriculture and live stock raising without active mutual co-operation on the part of those interested. The local organization furnishes the co-operative medium. The county association, as a community, enables its members to interest breeders of acknowledged integrity in distant sections to supply the local demand for breeding animals through the agency of local public sales, promoted and directed under the auspices of the county organization. The best blood of the breeds is thus brought practically to the farmer's door and offered to him at his own prices and upon his own terms. The farmer sees what he is purchasing and he is the best judge of whether he is getting value returned for his investment.

The traffic department of the Nashville, Chattanooga and St. Louis Railway has been actively engaged for many years in pioneer work of promoting and fostering improved agricultural and live stock husbandry in the territory served by its lines, and the unqualified success attending its efforts through co-operative organizations verifies the view just expressed. The initial work of the company in community betterment in live stock production was the organizing, with the aid of others, of a community live stock association in every county traversed. Where sufficient interest developed to warrant a public sale, breeders of acknowledged reliability were induced to contribute stock to the sale, and none but registered animals of a popular breeding type was allowed to be offered for sale. Many of the associations thus organized have been active in distributing, through auction sales, breeding animals of unquestioned merit among their members. Indeed, in the counties traversed by the Nashville, Chattanooga and St. Louis Railway, substantially 3,000 head of registered breeding animals have been distributed in recent years, through the medium of approximately 50 auction sales. In no instant has friction arisen

in the conduct of sales by the associations, and the members have been and are co-operating in sympathetic harmony. This view of promoting improved methods in live stock breeding is held with a thought directed solely to a practical co-operation in the distribution of pure bred breeding stock, and it is conceded that the local live stock association may be utilized with equal efficiency and mutual help in both handling the business of live stock farming and marketing the product of the breeding establishment.

River Hills.

Mr. Silas Vaughn and wife are on the sick list.

There has been some real estate transfers in this section; the Miller brothers selling to S. L. Evans and J. C. Childers.

## Each Season Finds Us Better Prepared

The Assortments Are Larger, the Models More Diversified and the Prices Lower

### Women's and Misses' Spring Suits

An excellent collection, in the most desirable materials, colors and models; featuring copies of French designs, including the new Oil Cloth Checks. Our usual popular prices

\$15.00, \$20.00, \$25.00

### Women's High-Class Dresses

Unusually attractive assortments, reproductions of Imported Models in all the newest Colors and Materials, including Taffeta, Crepe De Chine, Georgette, Chiffon, and Soiree

\$12.00 \$15.00 \$17.50 \$20.00 \$25.00 \$30.00

### Special Values in Women's Spring Coats

Smart Street Coats in Whipcord, Star Checks, Bolivia Vicuna, Velour Checks, Poptins, Gabardine, Corded Velour and Chin-chilla. Silk Coats in Taffeta and Faille. One of the most comprehensive assortments in the city, and the prices are lower than elsewhere.

### BACKACHE IS DISCOURAGING

Nothing is more discouraging than a constant backache. Its hard to work or to rest. Backache often indicates bad kidneys and calls for prompt treatment. The best recommended remedy is Doan's Kidney Pills. Profit by this nearby resident's experience:

L. C. Claypool, machinist, Ivan St., Paris, Tenn., says: "My back was weak and ached terribly. The kidney secretions were too frequent and painful in passage and I had to get up at night. Doan's Kidney Pills rid me of the trouble and I haven't been bothered much since. Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Claypool had. Foster-Milburn Co., Props., Buffalo, N. Y."

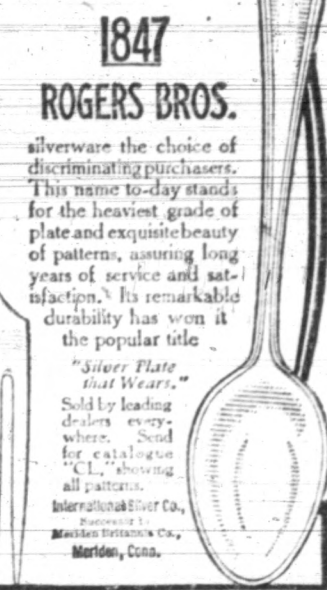

Bucy Bros. guarantee every package of Hess Stock Tonic and Poultry Panacea. Not as good as any, but the best. 2174

### Another Crack-Brain Explodes.

Mr. C. D. Moody, who lectured at the First Baptist church last Sunday, is a commercial traveler and the son of a minister. His venerable father, Rev. J. B. Moody, sat on the stand with him while the son spoke at night to one of the largest audiences ever crowded into the church. Mr. Moody lectured in the morning on "The great Commission." At night his subject was the third of a series of lectures on Christ. "The Second Coming of Christ" was the theme and Mr. Moody made the prediction that this would come to pass within five years. He said the prophecies were being fulfilled one by one and that upon the conclusion of the present world war, the Jews would return to Palestine and this would fulfill the last of the prophecies and

### Choosing Silver

Artistic design, correct style, brilliant finish, combined with honest value, make

1847 ROGERS BROS. silverware the choice of discriminating purchasers. This name-to-day stands for the highest grade of plate and exquisite beauty of pattern, assuring long years of service and satisfaction. Its remarkable durability has won it the popular title "Silver Plate that wears." Sold by leading dealers everywhere. Send for catalogue "C" describing all patterns. International Silver Co., Waterbury, Conn.

the coming of Christ would not be delayed. Mr. Moody is a good speaker and there is a general desire that he be heard on the other subjects upon which he has prepared lectures.—Hopkinsville Kentuckian.

### Eggs That Will Hatch.

You want eggs that will hatch. You want these chicks to grow and thrive and ripen into maturity in the earliest possible time. These chicks are made in the shell. If the parent stock is in a weakened condition, how can you expect to get fertile eggs and strong sturdy chicks. B. A. Thomas' Poultry Remedy tones up the system of fowls, puts them in condition to lay, thereby producing eggs that are fertile and will make chicks that live and grow. We guarantee it. Sexton Brothers are distributors for Murray and vicinity.

Itching, torturing skin eruptions disfigure, annoy, drive one wild. Doan's Ointment is praised for its good work. 50c at all stores.

## Telephones on Farms
