## Plan Civilian Defense Demonstration In City

### Local Organization To Put on Show at School Stadium

"In an effort to familiarize the citizens of Murray and surrounding communities with the part they must play in the Civilian Defense setup," according to Max B. Hurt, Calloway county Chairman Civilian Defense, "there will be held at the Murray High school stadium a public demonstration of air raid activities on Friday night, September 11, at 8 o'clock. All patriotic citizens are invited to be present on this occasion."

For the past two months many local men and boys have spent much time and effort to become qualified members of the local Civilian Defense organization and on this occasion will be presented certificates, air badges and other equipment. Following the presentation of certificates they will then be fully authorized officers as set forth by the government.

According to tentative plans, two short speeches will be given by forceful speakers who will endeavor to explain in detail the necessity of having a well trained Civilian Defense Corps as well as having a cooperative and enthusiastic civilian populace during these critical days in the history of the United States.

To acquaint persons with their Air Raid Warden and his numerous helpers, the huge field at the Murray High stadium will be marked off into 16 sectors, representing the outlay of Murray and College Addition.

Under the supervision of Bryan Tolley, chief air raid warden, a number of demonstrations will be given, including proper methods of blacking-out homes, combating of incendiary and demolition types of bombs, gas bombs, first aid methods, and many other important phases.

Within a few days following this demonstration the Warden and assistants of each sector will make a house-to-house canvass to gain the following information: (For Each Family)—Name, address, telephone number, number of persons in family, number of aged or invalids in family, number of children under five years of age, whether the house has 1, 2, or 3 stories, number of persons sleeping upstairs, number of persons usually at home at night, whether you have a car, do you use city water, have you a garden hose, have you a fire extinguisher, if so what kind, do you use an oil stove, do you have a basement, etc. Each family will be asked to point out the room to be used as the blackout room and give the location of master light switches and probably other bits of information that will prove helpful to the Warden in case an air raid should occur. The Warden and all his helpers are under oath not to release any information gained from this canvass nor will he make known any facts found in any home other than those concerning his official duty.

### Heads Net Squad

JOHN MILLER

John Miller was appointed head basketball coach at Murray College yesterday by Dr. James H. Richmond. Mr. Miller has been coaching the freshmen basketball and football squads, but these are being abolished this year.

Coach Miller will also assist Roy Stewart, head of the Thoroughbred grid squad. With his appointment the college football coaching staff is completed. When Coach Jim Moore, who headed the Thoroughbreds last year let this summer to enter the Navy, Roy Stewart was placed in charge.

Next Rice McGinty, assistant football coach, resigned to become grid coach at Tighman high in Paducah.

The football lineup now is Stewart head coach and Miller assistant for the Thoroughbred grid. Their first game is September 25, here, with the Springfield, Mo., Teachers.

Miller is no stranger at Murray State. He graduated there during his college career as a letterman and an outstanding athlete in basketball, football, baseball and track.

### A MILLION WOMEN ARE WORKING IN WAR ARMAMENT PLANTS

Director Public Information, Canada

Like their pioneer ancestors who helped the Indians so that they might hunt out settlements and farms along the rocky New England coast and in the forests the American women of today are working day and night in war armament plants throughout the country. Thirteen million women are employed in the United States and of that number almost a million are assisting in building fighting planes, tanks, guns, munitions and other arms of war.

Copper and brass and other copper alloys have been withdrawn from the field of commerce for the duration to be used exclusively in our all-out War Program. In the center picture Miss Irene Free is shown bending copper tube for use in "Flying Fortresses" and Ventura Bombers "Somewhere on the West Coast." Copper wire and copper and brass for instruments are being used in our fighting planes. The illustration at the upper left shows two young ladies inspecting brass artillery shells in one of the large munition plants "Somewhere in Canada." Several hundred thousand women have been working in Canadian plants since the outbreak of World War II. On the right a young lady is stamping and packing 75 mm. brass cartridge cases for artillery in one of the U. S. Army Arsenals. Not only are young girls doing this arduous work but there are

### Blackouts Here Likely Before Thanksgiving

Kentucky will have its first statewide practice blackout within three months—which will be before Thanksgiving, according to Major David J. Williams, Jr., Ft. Hayes, Ohio, officer assigned to Kentucky civilian defense work.

Before a statewide blackout can be held, each county must hold preliminary practice blackouts with advance warnings and without advance warnings. Four of these have already been held, including one at Louisville and one at Frankfort.

It is believed that Murray will be ready for its first practice blackout within a month. Graduation exercises and a public demonstration by wardens, fire-watchers and fire-fighters, and others of the Murray organization has been set for a week from Friday night. Complete details will be given in next week's Ledger & Times.

Members of the organization met last Friday night at the Woman's Clubhouse where a miniature blackout was held within the building. With an electrical warning set, made by Warden Everett Jones, the calls came through and each member of the organization went through its routine according to the warning received. The air raid warning, a siren outside the building, sounded and the building was blacked out. The 17 Wardens patrolled their areas, the fire-watchers, fire-fighters, auxiliary policemen, the messengers, and the Chief Warden did their respective tasks. Reports from the different sectors were called in to the Chief Warden over a specially designed communication line.

Clothing leaders of homemakers clubs in this county will attend a district training school in Mayfield Friday, September 4. Miss Iris Davenport, clothing specialist of the University of Kentucky, who will have charge of the meeting, will discuss recent developments in clothing due to government restrictions, proper care of clothing to prolong its usefulness and bringing old clothing up-to-date by remodeling. Transportation arrangements for the clothing leaders are being made by Miss Rachel Rowland.

### 1,471 Enroll In Calloway High Schools

A total of 1,471 students have enrolled in the six county high schools which opened Monday of last week.

The enrollment by schools are: Almo, 228; Paxon, 200; Hazel, 315; Kibbey, 228; Lynn Grove, 300; and New Concord, 203.

F. H. Speeland is the new principal at Hazel, succeeding Lowry Rains who resigned recently.

Prentice L. Lassiter, county superintendent, has announced that, according to a letter received from George L. Evans, secretary to the state board of education, there will be only two school holidays this school year. These are Labor Day (next Monday) and Christmas Day.

Mr. Lassiter issued the following statement for the local press regarding the opening of the county high schools:

"We are highly pleased with the number present on the opening date, and we are confident of a successful year, although we are faced with many factors that tend to lower the efficiency in school. Each of us should be willing to lend assistance and aid to our Government in any way possible. Before we can do this it is necessary for us to stop and consider our great subject, 'The Job that is yours.' What is your job? I am not attempting to answer this question, but we know some will go into the armed forces and others help at home. The job for the child in school is to work hard and never give up."

"Our country needs trained boys and girls. Education is more important today than formerly. We should utilize every opportunity that presents itself, for we are living in an age that requires facts and not theory. The boy or girl that does not render the best service possible in school is a slacker. What does being an American mean to you? The freedom that we enjoy was made possible by the efforts, blood and lives of our forefathers. We are falling short of our duty if we are not doing our best."

Mrs. Essie Dixon, wife of Harvey Dixon, magistrate of the Brinkley district, died quite suddenly Monday afternoon about 4 o'clock at her home near Goshen. Although she had been ill about three weeks, her death came suddenly and unexpectedly.

Funeral services are to be held today at the West Fork Missionary Baptist church, of which she was a member, with the Rev. J. H. Thurman and the Rev. Billy Jones officiating. Burial will be in the West Fork cemetery.

Survivors include her husband, Mr. Dixon; three sons, J. T. and Boyce, both of whom are in Detroit, Mich., and Leroy, who is with the U. S. Army at Camp Butte, N. J.; and three sisters, Mrs. Chloe Beaman, Mrs. Beulah Castleberry, and Mrs. Nora Zell.

Mrs. Dixon died on the day of her husband's birthday. Just three years ago on the same day of the month, her daughter died. And August further proved unfortunate for the family as Mrs. Dixon's mother died on August 28 a year ago and three years ago on August 6 her brother died.

### FINE HARVEST WEATHER

Calloway is enjoying some fine harvest weather these days, and farmers are busy cutting their tobacco crops. A few have already begun to fire their tobacco. The crop is unusually good this year.

### Leathernecks at Home in the Pacific

U. S. Marines have stolen the show in the South Pacific with their brilliant victories over the Japs. Now in complete control of the Solomon Islands, fighting has shifted to New Guinea, a large island North of Australia which is largely unoccupied by the Japs. Allied forces have maintained a foothold at Port Moresby on the island throughout the war, but 60 miles away, across the mountains, the Japs long ago secured a foothold. Fighting, with consequent Japanese losses, have centered around Milne Bay in New Guinea the past few days.

Evidently U. S. Marines (Leathernecks) occupy a number of islands in the Pacific. In the photos above are shown barracks in the style of native houses on those islands. The picture below is an interior view. The Marines have become expert in building such native houses for barracks.

### August Bond Quota Made by Narrow Squeeze

Calloway county still has its reputation for never failing to make a quota, but the August war bond quota for the county was made by a very narrow squeak.

The total purchases of war bonds in the county during August was \$71,150. The quota was \$85,000. A week ago all indications were that the county would not make the quota, but a rush of last minute buying put it across.

The quota for September for this county is the same as the August quota—\$85,000.

To promote the sale of bonds The Ledger & Times this week is beginning a series of full-page advertisements, which are being sponsored by business men of the county. These advertisements are specially prepared by the U. S. Treasury Department.

### Ernest Elvin Lamb Rites Held Saturday

Funeral services for Ernest Elvin Lamb were held at the McDaniel cemetery Saturday afternoon at 2:30 o'clock with the Rev. L. F. Shaffer officiating. Burial was in the McDaniel cemetery.

Mr. Lamb died Friday at 1:20 a.m. at the home of Will Duncan, his brother-in-law, on Route 1, Dexter. He had been ill about 15 months. He was 62 at the time of his death.

Mr. Lamb was a member of the Hazel Missionary Baptist church. He is survived by his wife, Mrs. Little Lamb; three sons, Ray, Gilbert and Hugh, all of Kansas City, Mo.; a brother, Rip Lamb of Lynn Grove; and five sisters, Miss Connie Lamb of Hazel, Mrs. Lewis Cosby of Hazel, Miss Beulah Lamb of Hazel, Mrs. Ruby Yates of Louisville, and Mrs. Bertha Taylor of Flint, Mich.

### Truman Jones Joins U. S. Marine Corps

LOUISVILLE, Aug. 28.—Truman E. Jones, 20, Route 6, Murray, son of Mr. and Mrs. Elmus Jones of the same address, was recently enlisted in the U. S. Marine Corps.

He and several other newly enlisted men left Louisville the same day of enlistment for the Marine training camp at Parris Island, S. C. While at the Island they will receive the regular six weeks basic training course and after that will be transferred to another Marine base for advanced instructions in various phases of Marine warfare.

Jones graduated from high school at Lynn Grove, Ky.

### Cotton Leaf Worm Well Established In Calloway County

The cotton leaf worm is well established in the county, according to Howard G. Tilton, nursery inspector, who reports that the cotton section of the county this week.

To date very little damage has been done to cotton fields inspected, but when the next brood emerges they will be in numbers large enough to cause serious damage to the crop. The life cycle is about 30 days. Control is simple if arsenates can be secured. A light dust on the tops of the plants will get them because they eat so much.

This is a tropical insect and reaches this far North only when the winds are favorable for blowing the moths in. Usually they reach this far North late in the season and the damage done is too late, because the plants are mature. This is not so this year, however, and dusting will have to be done to save those crops that are not through their growth. Thus cotton farmers should be ready when the little worms are seen again, and dust at once.

### All Grocery Stores Now Buying Waste Fats for Explosives

Practically all grocery stores in Murray are now buying waste fats and are paying from 3 to 4 cents a pound for it.

There is an urgent need for waste fats for use in making explosives. The glycerine in the fats is what is used for this purpose.

Every household can save some fat for the war effort. Instructions are as follows:

Save all your waste cooking fats. Save pan drippings from roast beef, lamb, and poultry. Save brooder drippings from steaks, chops, veal, and bacon. Save deep fats, whether lard or vegetable shortening, from fried potatoes, fish, doughnuts, etc.

Pour into clean, wide-mouthed cans. It is best to pour into a wide-mouthed can, such as a coffee or vegetable shortening can. Be sure the can is spotlessly clean. And strain your fats as you pour them in, so that all foreign matter is removed.

Keep in refrigerator or a cool, dark place until you have collected at least 1 pound.

Take to your meat dealer, who is cooperating patriotically in this drive. He will weigh your can of fat, pay you the established price for it, and start it on its way to the war industries. Frozen-food locker plants will also accept your salvaged fats.

Don't take less than one pound at a time to your meat dealer. Don't take your fats to the meat dealer on week-ends if you can avoid it. Help him by returning them early in the week.

The Army Quartermaster Corps maintains the country's largest fleet of ocean-going vessels and has a truck fleet of 250,000 vehicles.

### ● HERE ARE SOME OF THE THINGS WE CAN DO

Last week this newspaper deplored the lack of civilian direction by the government during this time of war. While the people do want to be told what to do to help, there are a number of things they can do right now and should not need to be told any further about them.

First, and most important, every one must SAVE! Says LIFE magazine, "When you THINK WAR you know that every item you consume takes some critical material or machine or energy which should be concentrated on the enemy. Therefore, when you THINK WAR you live as frugally as possible, and if you can save any money by living frugally you put it in war bonds. When you THINK WAR you report bootleggers to the authorities and you despise those persons who patronize them. When you THINK WAR you put up a lot of your own preserves and vegetables in your own kitchen, because you know that commercial cans take essential war materials. And, if you are lucky enough to have a war job you give it all you've got."

When you THINK WAR you ACT WAR. You will begin doing what you can to help. Here are a few things the OGD suggests:

You can prepare your home against attack; conserve food, clothing, transportation, and health; salvage critical materials; abstain from the spreading of rumors; and buy War Bonds and Stamps.

All men and women with even a small amount of spare time can enlist their services with the Red Cross and the Civilian Defense Corps.

Farmers can conserve their farm machinery and keep it in good repair; use their cars sparingly so as to save rubber, oil, and gasoline; reuse their baling wire, utilize binders twine economically; renovate old machinery; share farm machinery and equipment with their neighbors and help one another by the exchange of work; use smaller quantities of higher-analysis fertilizer; salvage waste materials and scraps; return all usable burlap to their dealers; grow and preserve as much food as they can for their own use; call on the U. S. Employment Service or U. S. D. A. War Board for farm labor; extend hospitality to boys at nearby Army camps or Naval bases; and urge their farm organizations to increase their war activities.

The people of this county and country are NOT thinking and acting war to the extent that they should. That is true, whether it springs from a lack of leadership or not. But if it is from a lack of leadership, perhaps it's high time the people took stock of the situation. Realize they are living in a country where each is a part of the government, and began directing himself.

For one thing, there is entirely too much auto driving in Calloway county. As this newspaper, stated before, no man or woman has a right to use his tires unnecessarily until they are worn out just because they are his. He should think of his tires as being his only when he uses them for useful, needful purposes. Some day those tires will be needed by him or his neighbor or someone else here for needful purposes because other tires are worn out.

Whether there is plenty of rubber or not, we here can be certain that we in Calloway county will not be allowed tires. The situation is much more critical than most people are willing to believe. Here are the facts, if you are willing to read statistics, published by the War Transportation Authority a few days ago:

"Our supply of rubber from all sources, including all synthetic rubber production, for 1942, 1943 and 1944 . . . is 2,895,000 tons.

"The United States and the United Nations will urgently need 2,965,000 tons of rubber for military and vitally essential civilian use in 1942, 1943 and 1944.

"This means that we will need, for military and vitally essential civilian use, 573,000 tons MORE rubber than we actually will have.

" . . . for years to come there will not be ANY tires or ANY repairs for non-essential civilian automobiles and even now only one out of every five war workers can get tires or repairs.

"Many vital automobile repair parts are no longer available. This shortage is getting more serious every day. In a few months it will be critical. Many cars will be put out of service simply because they cannot be repaired."

And here's what the War Transportation Authority says to do about it:

"Stop all unnecessary driving—AT ONCE.

"Use your automobile as little as possible—and when you absolutely must use your car—drive very slowly (under 30 miles per hour) and drive very, very carefully. Walk—wherever possible—always.

"Use street cars and buses.

"Take care of your precious tires. Have your wheels realigned and rebalanced NOW. Rotate your tires and spare to get long, even wear. Have your tires inspected frequently for cracks, breaks, uneven wear, imbedded glass, nails, etc. Have even the most minor defect repaired before it gets worse and cannot be repaired at all. Check your tire inflation at least twice a week.

"Take care of your car—it's your most valuable possession. It cannot be replaced—and many vital repair parts are no longer available. Have your car thoroughly inspected by a capable mechanic—AT ONCE. Have it completely reconditioned now—to avoid a serious breakdown or which would require unobtainable repair parts.

"Use the SHARE-A-RIDE plan. Five persons riding in ONE car instead of FIVE cars—save four cars for future use—reduce total car and tire waste 80%—make cars and tires last FIVE TIMES LONGER."

### This Week On The Home Front

Battles in the far corners of the earth are tied by strong invisible hands to what happens in our kitchens, our corner grocery, drug store, shoe shop, drygoods store, laundry, lumber mill, paint shop, hardware store and movie theatre. If we freely acquire everything we want, many of our fighting men would lack shoes, clothing, mattresses, and even medical supplies. There would be fewer guns, tanks, planes and ships. Our enemies would profit from our "normal standards of living."

On the other hand, if the sellers of goods took advantage of that greatly increased national income, which is competing for the limited amount of goods available, another kind of enemy—the war agitator—would score a victory.

The Office of Price Administration warns us that the threat of inflation, of high living costs, is not lacking.

Our surplus buying power—still is mounting, while farm products and wages are loopholes in the price control program, which will need serious attention. If living costs are not to soar as they have in previous wars, farmers will have to take heed for their products. Workers will have to give up the idea of unnecessary wage boosts, and business profits will have to be cut.

Outside the uncontrolled danger zone, however, price ceilings are being steadily expanded to protect our pocketbooks.

In many lines, as present stocks are exhausted, such replacements are diverted to war needs. We must expect to save what we have or do without.

We are painfully learning that in total war what touches one of us touches all of us. This principle applies both to the individual citizen and to our great pools of manpower. All of us and physically fit men face the possibility of being called into selective service. Their places must be filled by women, older men.

To our mobilization of manpower and womanpower, we are about to add mobilization of our youth and children. The National Institute of Education has called upon educators from all parts of the country to consider the most effective way to make use of all the students in the country, from elementary grades through college.

The need for a better distribution of manpower is matched in importance by the need for scrap metal to feed the plant and factories. The scrap "drive" is not for this month or the next—it is for the duration and must be sustained.

The national determination to defeat our enemies has been underscored in WPB Chairman Donald M. Nelson's second war production report. The munitions output in July was three and one-half as great as our output in November 1941. For that month, aircraft production was up 31 per cent over June, ordnance up 26 per cent, naval construction up 22 per cent, and merchant ship tonnage 6 per cent—all over the June figure.

Some 1,250 Labor-Management committees, participating in the War Production Drive, had much to do with these increases.

Concentration of production—the pooling of industry's resources—is being studied by a WPB committee. This may help small plants and businesses which have been threatened by loss of their supply.

Dealers in used bicycles have been warned by the General Maximum Price Regulation, which puts a ceiling on prices at the highest levels charged in March for similar bicycles. Second-hand prices in March were considerably under the prices of new bicycles.

The Office of Civilian Defense accepted the offer of authorities in charge of Civilian Public Service camps to provide organized groups of conscientious objectors to assist in local Civilian Defense operations in case of emergency. Camps in which such crews have been organized include those at Cynthiana and Marietta, O.

Robert C. Huber, Dayton, O., building contractor, has been heavily penalized by the WPB for starting work on three houses after the April 9 deadline.

### Letter To Editor

Dear Editor:  
 I read Emmett Bucy's letter in your paper, and am reminded of my residence in Texas; and now, if I may draw somewhat upon my memory and imagination . . .  
 I was working in my garden, sweating like a mule, intent upon my work, when my wife came to the rear door and called me to come in, that a North was coming. I looked up, and in the distance I observed a cloud apparently the size of a bed sheet, but notwithstanding the seeming small size, I knew the portent.

I immediately went in and kindled a fire in the fireplace, which gave out a welcome warmth. Well, a few days later I was telling a neighbor about it, when he said: "Shucks, you ain't saw nothin' yet; why, a few years ago, we had such a cold spell that the wells froze. I saw a hawk flying across the sky and shot him, but it was so cold he just stayed up there." I told him that the law of gravity would have brought him down. 'Aw that dang thing was froze too."

### 31 Calloway Boys at Camp Swift

August 30, 1942

Editor, Ledger & Times  
 Dear Sir:  
 It is with great pleasure that I write back to you and dear old Calloway county the place we love so well. We are doing our best to keep the free rights which we have been enjoying. We hope that we can reach our goal and all of us return back home soon. Being down here in Camp Swift, Tex., is not so bad for this reason—every time you go out of your barracks you see a dear old Murray boy and do they look good and how.

I am enclosing a list of Calloway boys, who are trying awfully hard to do what you people are expecting of them. I would like to explain some of our work but through our general's order we have learned it is not best to do this. All we know to do is do our work well and you will know what we have done in the end.

To the boys who are being called now: Just remember you will soon be a soldier, keep your chin up and be a real one.

It is very hot down here. This afternoon it is windy and the sand is so thick we can hardly see. We are 30 miles from Austin, Tex., which is a beautiful town.

Here is the list of boys from Calloway who are at this camp: Pats Ray Rolf, Roy H. Swann, Roy B. Smith, John R. Burton, Robert H. Hutchens, Eugene D. Hutchens, Joe Jackson, Harley A. Robertson, Wilmont S. Cochran, Trevaugh D. McCutcheon, Morris E. Lamb, Fred B. Lassiter, William B. Schroeder, William C. Donelson, Richard J. Lassiter, William C. Wilson, Harry M. Sled, Charles V. Farmer, Euel B. Wells, Alton J. Rumbelt, Wesley P. Russell, Jr., Sampson Schneider, Otto M. Erwin, Robert F. Steele, Robert L. Hendon, Frank H. Bucy, Corlas D. Erwin, Noble L. Packard, Howell T. Shanks, Thomas B. Culpepper and Eulin D. Jones.

There may be others that I don't know who are down here.

## Miss Linn and Mr. Wilson Are Wed in Home Ceremony

An announcement of cordial interest to a wide circle of friends of both the bride and groom is the following:

Mr. and Mrs. John Melas Linn announce the marriage of their daughter Rachael Mae to Mr. George Robert Wilson on Friday, August 22, 1942, at 11 o'clock, at the home of the bride's parents, 11 o'clock on Friday morning at the home of the bride's parents with the Rev. J. E. Skinner reading the single ring ceremony in the presence of the immediate families. The ceremony, which was one of beauty and simplicity, took place before an improvised altar in the archedway between the living and dining rooms with a background of ferns and clematis flanked with standard baskets of pink and white gladioli.

A program of nuptial music was rendered by Mrs. Clarence Maddox of Fulton, "Dawn" from the Venetian Suite by Nevin, was played preceding the ceremony. The Bridal Chorus from Lohengrin by Wagner was used as the processional and Mendelssohn's Wedding March as recessional. During the pledging of the vows, "Venetian Love Song" was softly played.

Little Misses Margaret Ann Tarry and Shirley Ann Bradley, small nieces of the bride, were ring bearer and flower girl, and the only attendants. They wore identical frocks of ruffled white dotted swiss and carried bouquets which were miniature copies of the bride's.

The bride was attired in a French crepe frock of solid blue with "dubnet" accessories, and carried an arm bouquet of white roses and rubrum lilies.

Mr. and Mrs. Wilson left immediately after the ceremony for a short wedding trip. For traveling the bride wore a teal blue Botany flannel frock with brown accessories.

Both the bride and groom are graduates of Murray High school and attended Murray State College. The groom, the grandson of Mr. and Mrs. Rob Lee, formerly held a position with the TVA and is now stationed at Norfolk, Va. where he is a petty officer in the yeoman's group. He has returned to Norfolk to resume his duties, and Mrs. Wilson will remain for the present at the home of her parents.

Out-of-town guests for the wedding included Mr. and Mrs. Ed Bradley and daughter, Shirley Ann of Evansville, Ind. Mr. and Mrs. Clarence Maddox of Fulton, Mrs. Sterling Bennett and daughters Rosalyn and Diane of Fulton.

## Presbyterian Auxiliary Holds Meeting Tuesday Afternoon

The Presbyterian Auxiliary met Tuesday afternoon at the church. Mrs. W. D. Lewis presided over both the regular meeting and the executive meeting preceding. The members were asked to donate new and old clothing for home sewing to be made into reading books for children, Bibles and Testaments. Mrs. Bolander conducted an interesting devotional appropriate to the times, based on verses from the first and fourteenth chapters of St. John. Mrs. B. B. DeWitt discussed, "The West Indies," with particular stress on Cuba, its history and customs and its place in world affairs of today. The minority problems, "The Alien in This Country," was discussed by Mrs. George M. Baker.

I. Brandon.

After the noon-hour conversation and music were enjoyed. All left wishing Mr. Brandon many more happy birthdays.

## Elder and Mrs. C. H. Wilson Celebrate Silver Wedding

Last Sunday Elder and Mrs. C. H. Wilson celebrated their silver wedding with all of their seven children at home for the first time in 20 years.

Pious, Estelle and Earl live in Detroit. "Clemis, Moody and W. C. live in Texas, and Ruby Carolyn in Frankfort. All of the in-laws were present except Moody's wife. Her mother was not able for the wedding ceremony was said in the home of Dr. W. M. Wood.

The family got up early Sunday morning and went to Dexter to Sunday School. Then Bro. Wilson preached to them "Some of them and never heard him before"—18 in number of the family. Then they came back to their home in Murray on North Sixth street and enjoyed a sumptuous meal, composed of nearly every thing good to eat. There were 20 seated at one table all together.

Many nice gifts were presented to father and mother, most of which were silver. Minute speeches were made by all present.

In the afternoon, before those living in Texas started back home, a short thanksgiving service was conducted by Mr. Sidney Bishop (Estelle's husband) in the basement.

## Shower Compliments Mrs. Hays

Mrs. Caswell Hays, a recent bride, was honor guest on Monday afternoon when Mrs. Marvin Fulton and Mrs. H. B. Bailey were hostesses at a miscellaneous shower at the home of Mrs. Fulton. A color scheme of pink and white was used in the decorations throughout the rooms.

Three many lovely gifts were displayed in the sun room. A huge pink and white umbrella made the background against which they were arranged.

In the dining room the chosen color scheme was beautifully developed. The table was covered with a lace cloth and held a centerpiece of pink roses and tuberoses flanking two tall pink tapered silver holders. Dainty cookies, sandwiches, mints were in pink and white. Miss Jane Sexton presided at the punch bowl and was assisted in serving by Mrs. Arthur Farmer, Miss Joanne Fulton and Miss Helen Kee.

Approximately 30 guests were present.

## Murray Couple Wed in Detroit, Michigan

Mr. and Mrs. W. F. McCage of Knight, Ky., announce the marriage of their daughter, Opal Mae to G. C. Smith, son of Cleo Smith, Gracely, Ky.

The impressive double ring ceremony was read in Detroit by Rev. William Sedduth, in his study, before a desk banked with white gladioli. Saturday afternoon, August 21, their only attendants were Mr. and Mrs. Ernest Mayfield.

The bride wore for the occasion a street frock of navy blue and white triple sheer, with matching accessories. Her flowers were a shoulder corsage of gardenias.

Mrs. Mayfield wore black triple sheer with black and white accessories. Her flowers were red rosebuds and baby breath in a shoulder corsage.

Mrs. Smith, a graduate of New Concord High School, and formerly an employee of the Murray Hosiery Mill, has been employed for the past few weeks in Detroit.

Mr. Smith, a former machinist of the Murray Hosiery Mill, is also employed there in a defense plant. They will be at home to their friends at 90 Davenport, Detroit, Mich.

## Woman's Society Meets At Methodist Church

The Woman's Society of Christian Service met Tuesday afternoon at the Methodist church with the president, Mrs. J. T. Cochran, presiding.

The meeting was opened with quiet music at the piano by Mrs. Roy Farmer, followed with silent prayer. Routine business was disposed of and plans were made for the fall mission study to be held the week of September 28. Plans were also made to prepare a box for the Wesley Institute at Memphis, the articles of food and clothing to be collected at the regular meetings later in the month.

Mrs. Roy Farmer was program leader. Quiet music, "I Need Thee, O Lord," was played by Mrs. J. F. Dale. ## Magazine Club Meets With Mrs. Meen

On Thursday afternoon at 3 o'clock the Magazine Club met with Mrs. F. D. Meen at her home. The rooms were beautifully decorated with roses and other cut flowers.

In the absence of the president, Mrs. A. C. LaFollette, the meeting was called to order by the vice-president, Mrs. Mellen. Routine business was attended to, following which the members enjoyed with the visitors present, a most delightful program. Miss Louise Putnam sang two vocal selections with Miss Frances Sleds as accompanist. Mrs. George Upchurch read a most able paper, followed by one by Mrs. W. W. McElrath on "The Family," following the general theme of the year's program on "The American Way of Life."

During the social hour's delicious party plate was served by the hostess. A special feature of the social hour was the book auction. The librarian of the club sold to the highest bidder a number of books which the club had on hand; the proceeds from the sale to be used for buying new books for the club.

## Lippincott-Currier Wedding Solemnized in Paris Tuesday

Paris' social spotlight was turned Tuesday night to one of the loveliest weddings of the season—that of Miss Dorothy Currier, daughter of C. P. Currier and the late Mrs. Currier of Paris, to James Wesley Lippincott, son of Mr. and Mrs. J. W. Lippincott of Grenada, Miss.

Before the strains of "At Dawning" began about 8 o'clock, the church was filled with relatives and friends of the bride and bridegroom. The altar of the church was banked with deep green ferns, flanked on either side by two large palms, all against a background of ferns intermingled with white gladioli and clematis. The tiers of white cathedral-candles which illuminated the setting were entwined with soft green fern.

From "At Dawning," the organist, Miss Elizabeth Porter, softly played, "Sweet Mystery of Life," "Indian Love Call," and "Libertine." Mr. Clinton Matthews sang "Because" by Guy D. Harder, and Miss Lavinia Currier, aunt of the bride, sang "Oh Promise Me," by Reginald De Koven, followed by a duet by Miss Currier and Mr. Matthews, Depee's "Oh Moment Could I Bless." Miss Currier wore hand-embroidered net over ivory satin, which was her mother's.

The bridal party entered the church on Mendelssohn's "Wedding March," and on the appearance of the bride, Lohengrin's "Wedding March" sounded.

The bridesmaids, Miss Frances Lippincott, sister of the groom, from West Point, Miss Helen K. Currier, cousin of the bride, Paris; and Miss Neva Gray Langston, schoolmate of the bride from Murray, Ky., were dressed in identical frocks of yellow organza.

They carried colonial bouquets of tall grasses, Baby's Breath and tuber roses. Groomsmen were Messrs. George Herndon, cousin of the bride; Mac Fleming, James Smith and Raymond Solb all of Louisville Baptist Seminary, Louisville, Ky.

The maid of honor, Miss Alma Boyd, of Murray, Ky., a schoolmate of the bride, wore green tulle and her flowers were yellow roses. Baby's Breath and tuber roses. Mr. Lippincott's best man was Mr. John J. Hamilton of Louisville Baptist Seminary, Louisville, Ky.

The bride, exquisitely gowned in ivory satin, designed on Princess lines, was given in marriage by her father. Her veil of illusion was fastened by a dainty bridal coronet of orange blossoms. Her only ornament was a strand of pearls. She carried a cascading bouquet of tuber roses, white roses, white orchids and gardenias.

Rev. H. H. Stembbridge, Jr., of the First Baptist Church assisted Rev. John McGinnis, of the Louisville Baptist Seminary, in officiating. The double ring ceremony was performed, while the organist softly played "I Love You Truly." Bro. Stembbridge's closing prayer was to wish the young couple success in the groom's chosen work, the ministry.

After the ceremony, the couple left for a reception to be given at the home of Mrs. J. K. Currier, Jr., after which they were to leave for a southern honeymoon.

## Knowledge Changes Food Habits

Increased information on nutrition has greatly increased the consumption of protective foods.

The most important of these protective foods is MILK!

In 1921 the production of milk in these United States totaled about 78 billion pounds for the year. Of this, about 3 billion pounds were fed to livestock, leaving about 75 billion pounds of milk and its products for human use. With a little over 107 million people, the per capita consumption of milk in all its form was about 699 pounds.

Twenty years later, in 1941, production of milk in the United States totaled 115½ billion pounds. Of this 109½ billion pounds were used by the 131 million people—an average consumption of 834 pounds of milk per person in its various forms.

Pure milk is recognized as making a major contribution toward the building of a strong nation. The goal is at least a pint of milk daily for adults; and more for children.

THE ALCOHOL PROBLEM: PAST AND PRESENT

LESSON TEXT—Genesis 13:13; 19:25-26. Development—19:33-35. Amos 6:1-7. GOLDEN TEXT—The way of the ungodly shall perish—Psalm 1:6.

The necessity for using to the limit every resource—man power and material—in this time of national crisis should make every American doubly alert to the devastation and loss which has come (and is coming in increasing measure) to us as a result of the use of intoxicants.

This is no time for us to be ever a time when "men should put their enemy in their mouths to steal away their brains; that we should with joy, pleasure, revel and applause transform ourselves into beasts! To be now a sensible man, by and by a fool, and presently a beast!" (Shakespeare).

Christians—and especially Sunday school teachers—should use this lesson to drive home anew the great lesson of moral accountability, of the importance of man's choice of a way of life, and the certainty of judgment.

I. Man is Morally Responsible (Gen. 13:13; 19:25-26).  
Life is not just a careless drifting from day to day, from pleasure to pleasure, from sin to sin. Man was created in the likeness and image of God, which means that he is a personal being, knowing right from wrong and possessing the power of choice. Sodom and Gomorrah drew upon themselves the judgment of God because of their determination to persist in horrible wickedness. What happened to those cities, terrible as it was, is but a prophecy of the greater judgment to come (Luke 10:12).

If man chooses to do right, he may count on all the resources of the omnipotent God to uphold him. But if he chooses to go in the way of sin, he must look forward to the judgment of God. It is important to remember that.

II. He Chooses His Own Way of Life (Deut. 32:31-33).  
Moses contrasts the Rock—Jehovah—in whom his people trusted, and the corrupt standards of their heathen neighbors, of Sodom and Gomorrah; but note it well, each one made his own choice.

One greater than Moses, our Lord Himself (Matt. 7:13, 14), spoke of the two ways, and noted with sadness that many go down the broad road to destruction and few follow in the narrow way of life.

It is a vital matter that we teach our boys and girls the great and noble spiritual standards of Christianity; bring into their lives the power of God through faith in Christ that they may choose well for themselves and be able to lead a bewildered, war-shocked world in the right way.

The need of humanity is great now, but it will be even greater in a post-war world of broken homes, broken lives and broken hearts. We must be ready to minister in the name of Christ.

III. Neglect and Ignorance Are No Excuse (Amos 6:1-7).  
Surprise attack is always doubly effective. "Remember, Peard Harbor." Yes, and remember man's defeat in spiritual things.

Satan would like to lull us to sleep with the assurance that all is well. The heart of man is prone to cherish optimistic thoughts; to magnify that which encourages him to take his ease; to keep away the fear of reality by sweet music, good food, and a glowing bowl of wine.

The people of Amos' day, to whom this message was given, had come to the point where prosperity had made them at ease, when they should have been actively alert; foolishly serene, when they should have been vigilant and ready for battle.

Who can say that the same is not in all too large a measure true of the people of our own beloved America. Many elements enter into that dangerous situation, but not the least of them is our increasing use of intoxicants. It may shock some to learn that the per capita use of alcoholic beverages has increased greatly throughout the country. The appalling fact is that the city of Washington, D. C., which should in these days set an example of sobriety and sanity, has led the nation in the increase of the use of strong drink.

That way is the way of captivity (v. 7) unless we repent—and that right soon, America needs to awaken to the dangers which threaten its precious liberty—and, we repeat, the logical conclusion is not the least of these problems. We must win a victory over it soon, or we may find that it has won the victory over us—which may God in His mercy forbid!

## Teacher, Bus Shortages Face State Schools

Shortages of teachers and of school bus transportation face Kentucky's public schools this year.

"Out of the 19,000 public school teachers in the state, some 2,000 substitutes will have to be used regularly," said State Superintendent of Public Instruction John W. Brooker.

"Many of these are, strictly speaking, not qualified, but will have to be issued temporary licenses to meet war conditions."

"School bus transportation will have to be drastically changed with fewer stops and no side trips and be confined strictly to carrying pupils and teachers between their homes and the public schools."

Out of the approximately 500,000 public school pupils in Kentucky, 100,000 are hauled daily to and from school in 1,800 buses. Education department records show these buses use up around 5,000 tires each year, and that means trying to get that many new ones or having old ones recapped during the coming school year.

## Lion Club Notes

At their regular meeting Tuesday evening, September 1, the Murray Lions Club resolved to take the lead both in Kentucky and in International Lionism by promoting the noblest spirit of public service.

The resolution was the result of the report made by Past-President S. A. Ruskier, who recently represented the Murray Lions Club at the International Convention in Toronto, Canada.

In the midst of the first global war, the vast Lion organization is actively advancing human welfare. Delegate Ruskier reported that the 10,000 Lions assembled in Toronto were enthusiastic for the promotion of democratic good will and the destruction of tyranny.

Already more than 6,000 Lions are bearing arms and more than 14,000 Lions are doing auxiliary service for democracy. Today about 15 per cent of Lionism is in active service, tomorrow possibly 20 or 25 per cent will be fighting for the liberties of the human race. Every one of the 11 warring nations in which the Lions are organized is fighting against slavery and for freedom.

Unlike the public behavior of many delegates of some fraternal organizations, the public conduct of the representatives of Lions International was exemplary. The leaders at Toronto exemplified through word and conduct sobriety, good will, and general helpfulness. In the great parade the delegates of the several foreign countries represented and of the 48 states of the Union, with one or two exceptions, conducted themselves as true Lions, as gentlemen. Three hundred thousand persons viewed the parade, in which Lion Ruskier was possibly the only representative from the Purchase counties.

The Murray Club decided that it would urge Lionism—local, state, and international—to set the perfect example of decent good spirit to lift fraternal organizations and to mankind.

The decision took the form of a "recommendation" to the War Production Board by the Requirements Committee, composed of representatives of the Army, Navy, Lend-Lease Administration, W.P.B., the Office of Price Administration, Board of Economic Warfare and the State and Agriculture Departments.

Inasmuch as the committee is the top food control agency in the government—its recommendation was considered tantamount to a final decision.

Under the recommendation, the rationing would take effect by the first of the year or sooner if the rationing machinery can be set up.

In the meantime, packers' sales for civilian use will be curbed by a War Production Board order assigning quotas for civilian sales. The order, expected in about two weeks, will apply to beef, veal, pork, lamb, mutton, and sausage.

A government campaign for voluntary reduction in civilian consumption, possibly including "meatless days", will be instituted shortly to cut average consumption to about two and one-half pounds a person each week—about the average of the last ten years.

## Three Freight Trains in Crash Near Mayfield

Three freight trains were in a wreck at Lowes, nine miles north of Mayfield Monday morning about 5:30 o'clock. The engineer on one train was injured, and several cars of gasoline were destroyed.

Three northbound freights were involved in the crash. One, a Paducah bound freight, Extra 8012, was taking water at the Lowes tower, when the second freight, Second 72, slipped to avoid a collision with the Paducah train. A third freight, Third 72, crashed into the rear of the second freight in a dense fog.

The engine of the third train left the rails and plunged into a ditch beside the tracks. Eight or ten of the big tank cars left the rails and broke into flame. Trainmen succeeded in separating the remaining tank cars and they were moved far down the tracks from the blazing tanks.

## OUR DEMOCRACY

THE MIRACLE OF AMERICAN PRODUCTION HAS BEEN PERFORMED BY AMERICAN WORKERS — AND FINANCED BY THE AMERICAN PEOPLE THROUGH THEIR INVESTMENTS IN WAR BONDS AND STAMPS, SAVINGS ACCOUNTS, LIFE INSURANCE POLICIES, BUILDING AND LOAN FUNDS.

STRAIGHT-LINE EFFORT: SHORTEST DISTANCE TO VICTORY.

## YOUR SCRAP CAN WIN THE WAR!

## What You Buy With WAR BONDS

The 155-millimeter gun is the modern version of the old "GPF" of World War 1 days. It has a range fifty per cent greater than the old gun, having a 95-pound projectile approximately 15 miles. It is capable of high road speed and each one costs \$50,000.

Arsenals of America are working at terrific speed turning out this long range, effective weapon for our armed forces. You and your neighbor working hand-in-hand in unity can make possible the purchase of an adequate number of these guns by buying War Bonds. Put 10 per cent of your income in War Bonds to help reach your county quota, every day.

## To You

A silver moon, a restless breeze  
A hidden nook, neath sighing trees  
You and I alone together  
Talking softly of the weather.

A glassy lake, a birch canoe  
A setting sun and lovely you  
Baiting hooks and casting reels  
—And you just tell me my nose peels.

Stand still, breathless beside the sea  
Nobody there but you and me  
Look at the moon, I whisper, "Dear!"  
And you pretend that you don't hear.

A narrow road, an ancient bridge  
A starlit sky behind the ridge  
This, my love, is lovers lane  
And you are wishing it would rain!

Oh, my dear heart! if you just knew  
How much that I could care for you  
If you would just remember dear,  
Not only you, but I am here!  
—Mickey Dawson, Murray

## Wm. M. Slayden Now Major, USA

Word has been received here that Wm. M. Slayden, a former resident of Murray and employee of the Tennessee Valley Authority, has been promoted to the rank of Major in the Army of the United States.

Recently Major Slayden was transferred from the Military Intelligence Division of the War Department in Washington to the Command and General Staff School at Fort Leavenworth, Kans., as an instructor. He received his promotion as a result of this transfer to the faculty of this school which is the highest school for officers the Army operates. Major Slayden attended the school as a student just prior to his selection as an instructor.

Major Slayden was head of the local Property Management Office of the Tennessee Valley Authority when he was called into the Army as a 1st Lieutenant in December, 1940. Shortly after war was declared, Major Slayden was promoted to Captain, and upon the expiration of the minimum of six months in grade he received his promotion to Major.
