V.J.L. 87. NO. 40.

MURRAY, KENTUCKY, THURSDAY, MARCH 23, 1916

\$1.00 PER YEAR

CITIES SWEEPED BY
TERRIBLE FIRES.

Nashville, Tenn., March 22.—A ball of yarn, lighted and tossed by a boy into the dry grass on a vacant lot, started a conflagration in Nashville at noon today which was not under control until late this afternoon after thirty-five residence blocks were swept by fire. The loss is estimated at \$1,500,000.

Tonight it was estimated that 3,000 are homeless. The Tennessee National Guardsmen are on duty.

A fifty mile wind fanned the burning grass into a torrent of flames, which quickly leaped from building to building, until at least six hundred residences were destroyed. The East Nashville sub-postoffice burned down and the big Warner public school and several churches were reduced to ruins.

Pitiful scenes are everywhere in evidence tonight. The fire spread with such suddenness that members of many families have been separated. Men are vainly looking for their wives and parents are seeking their children.

It is believed that most of the missing will be located in the homes of Nashville residents, where the homeless people were taken after the fire.

Thrilling rescues were made of several women saved by men who risked their lives by rushing through the flames.

Eight hundred children were at recitation at Warner school, second largest grammar school of the city, when the flames reached that block. Teachers continued the lesson, and not until after the sparks had set fire to the window sashes and the cupola of the building were the children dismissed. They made their

escape safely, but many of them had to pass through the fire district in order to get home. Later the school building burned to the ground.

Paris, Tex., March 22.—With approximately 10,000 homeless, the entire business district wiped out and from 1,500 to 2,000 dwellings destroyed, the fire which started late Tuesday afternoon was still burning early today. The property loss, it is estimated, will reach approximately \$3,500,000.

Reports were circulated that from ten to thirty persons had lost their lives. Confirmation, however, was lacking.

Thousand of homeless were being cared for today in private residences, railway stations and the few remaining public buildings. The question of making definite arrangements to care for them was taken up by the city authorities. Food supplies will be the most serious problem, as every hotel, restaurant and grocery in the city having been destroyed. The wind was blowing a gale when the fire started.

Augusta, Ga., March 22.—Fire caused a damage estimated at \$2,000,000 in the downtown section of Augusta tonight and at a late hour was eating its way unchecked down Broad street where the city's principal business houses are located.

Greensboro, N. C., March 22.—Spray, north of here, is burning this afternoon. The business district is reported destroyed and the flames are spreading. Spray is a town of 10,000.

B. S. Adams and wife, of Eu-la, Texas, arrived here the past week and will possibly remain for the next two or three months the guests of relatives. Mr. Adams is a son of Mrs. T. J. Adams, southwest of the city, and his wife is the daughter of Josh Ellison, of this city. Mr. Adams recently sold his mercantile business and has not yet determined what he will do in the future.

GROWERS URGED
TO TEST THE SEED

Washington, D. C., March 22.—Farmers who take the advice of Carl Vrooman, the assistant secretary of the United States Department of Agriculture, will test every ear of seed corn this year before they plant it. The seed corn situation, Mr. Vrooman says, is probably more serious now than it has been for years. On account of the late, cold season and the early frosts in the early part of last October, very little corn, especially in the northern half of the corn belt, ripened naturally and at the time of the first hard frosts much of it still contained a large amount of moisture.

"Testing seed corn is always a wise precaution," said Mr. Vrooman, "but this year it is a necessary one. Every farmer should test his seed this spring by the individual ear test. No matter how much confidence you have in the man you buy seed from, make a test and know for yourself that the seed is good. If the seed is not good, you can get some other that is."

"A number of seed men who have well constructed seed houses report that they find the early picked seed tests very satisfactory, but the seed picked later, even if properly dried, is very unsatisfactory. One test in Northeastern Nebraska showed 90 per cent of the early field-picked seed to be good while only 68 per cent of the crib-selected seed germinated. In many sections of Northern Iowa and Illinois the percentage of good seed is much lower, even when the seed was picked before frost and properly dried, while seed picked from the wagon at husking time, or from the crib, is practically worthless as seed. One reason for this is that many farmers in this section are raising corn of a very large variety which requires a full growing season, and this corn did not ripen before the early frosts.

"Under these circumstances, testing each ear is simply good insurance. One ear of corn will produce about five bushels, if all the grains grow. With corn at 60 cents a bushel, planting a dead ear or an ear that will produce only weak unproductive stalks, means a loss of \$3. If you catch only one bad ear, your testing has paid you a good day's wages. If you catch the average number, you've saved a week's pay in a winter afternoon."

Church of Christ.

Many expressed deep regrets that C. M. Pullias could remain no longer than Sunday night in our meeting. Expressions that Pullias was the greatest gospel preacher that ever came to Murray, came freely from men capable of knowing, and who are not members of the Church of Christ. To these and all we are glad to announce that T. B. Larimore,

of Nashville, Tenn., will be with us next October. Then Pullias will return for three Lord's days in April 1917 and four Lord's days in October 1918.

Several additions resulted from the meeting just closed; many others deeply interested. All services will continue regularly as heretofore. Bible classes Wednesday and Friday nights. The Lord's day morning bible classes meet at 9:45. Preaching at 11 and 7:30 o'clock. Subjects, "Communion, or Lord's Supper," and "How may I know I am a Christian." Do you want to know what the Church of Christ teaches about these things? We especially invite you to hear these two subjects.—T. B. Thompson, Minister.

Wells-Russell Marriage.

A wedding of much interest was that of Miss Nadine Wells to Mr. Eura Russell, of Almo, last Monday evening at 2:30 o'clock at the home of the bride. The parlor was decorated with ferns and smilax, while the altar was made of palms. The bride was gowned in a beautiful suit of Copenhagen blue with all accessories to match, and carried bride's roses. Prof. A. J. Wells, of Hardin, played Mendelssohn's wedding march, and Miss Elizabeth Brelsford sang, "O, Promise Me." Rev. J. A. Hassell, pastor of the Methodist church, of Murray, performed the ceremony.

The bride is a daughter of Mrs. M. L. Wells, formerly of Dukedom, Tenn., and is well known in Murray. Mrs. Wells being engaged in the millinery business here. The groom is a son of F. J. Russell and is a promising young man. The young couple left on the early train Tuesday morning for Summerville, Tenn., to make their home. The groom has a position there as railway telegraph operator.

Youtsey May be Paroled.

Frankfort, Ky., March 21.—Daniel E. O'Sullivan, chairman of the state prison commission, in a statement here today announced that at the next meeting of the commission, April 4, he will present the name of Henry Youtsey, convicted of the murder of Governor Goebel for parole.

Sullivan said, "the time has come when I must vote to give Youtsey the benefit of the parole law. He is entitled to it by reason of length of service, by continuous valuable work for the state, by provisions of law, and by every dictate of fairness and humanity. He has served more than sixteen years for his crime. The law under which he was sentenced entitles him to parole after five years. He has served more than three times the five years, and for twelve years he has been eligible."

The United States shipped 678,443 horses and mules, worth \$131,914,000, to Europe for the allied armies in the last year and a half, according to export figures assembled in the bureau of foreign and domestic commerce.

PLEASE NOTICE
YELLOW LABEL

The Ledger list, with the exception of some few who have paid their subscriptions since Tuesday of this week, is corrected, and we invite every subscriber to notice the yellow label on which his name appears and the date of expiration of subscription and see if it is correct. Changing our list to the present form was one of considerable expense and labor and it was done solely for the benefit of our subscribers. This label with name and date acts as a receipt for amount paid and a reminder of expiration date.

Some few of our readers do not quite understand the label and we are again making endeavor to explain it. Here is a complete illustration, and we would appreciate your careful reading of it. Take the following name for an illustration:

John Perkins Rt. 2
Mch 23 14

This label indicates the time of expiration of subscription to be March 23, 1914, and Mr. Perkins would be due us \$2 up to March 23, 1916. When the \$2 is paid the label will be corrected to read March 23, 1916, and Mr. Perkins will have a receipt for his money on the label. This should make the matter plain and we will appreciate it very much if every subscriber will look at the yellow label on his

paper and try and adjust the date at the very earliest convenience. We are going to expect you next Monday.

A. B. Colley Dies at Farmington.

Another good man and prominent citizen has been called to final rest in the death Sunday night of A. B. Colley at his home in Farmington. He was about 60 years of age and had been ill for some time of stomach trouble. He was one of the best known men in that section of the county. He is survived by a wife and a son, Dr. Lube Colley, of Farmington, and a daughter, Mrs. Jake Meyer, of Hazel. Funeral was held Monday at noon with interment in Farmington cemetery.—Mayfield Messenger.

Lynn Grove.

A little child of Curtis Jones is right sick.

Mrs. Albert Parks is improving slowly.

Mrs. Henry Darnell is on the sick list.

Rev. J. C. Rudd filled his regular appointment 3rd Sunday with good attendance.

There will be singing at Lynn Grove next Sunday. Everybody invited.

Miss Eura Adams, of Shiloh, visited relatives near here the past week.

Cecil Beaman and family visited relatives near Coldwater Sunday.

Dr. Harris and family have moved back from Mexico.

Wade Crawford and family were the guests of his mother, Mrs. Jennie Crawford, Sunday.

Much success to the Ledger and its readers.—For-Get-Me-Not.

J. T. Bynum, the 12 year old son of Tom Bynum and wife, of the country, underwent an operation at the Murray Surgical Hospital some few days ago for appendicitis. He is recovering rapidly.

You can get 80c per bushel in trade for good shelled corn Monday at Bucy Bros.

HAD AWFUL WEAK SPELLS

Suffered So Much Felt She Had to
Have Relief. Says Cardui
Made Her Well.

Elba, Ala.—Mrs. M. T. May, of this place, writes: "I was not especially strong when I married... but after my marriage, I seemed to get very much worse. About two months after I was married, I began to have awful weak spells. Would have had spells of headache, simply felt bad all the time, could hardly do a thing... I suffered so much pain in my left side and had the swelling of the head and congestion and heartburn very bad. In fact I suffered so much I thought I would die. I kept getting worse and felt I must have some relief. I had some pain and difficulty in walking..."

"Mr. —, who ran a store in —, recommended that I take 'Cardui,' and my husband bought me a bottle, which did me so much good that he bought me another, and after the use of three or four bottles I was well; was up doing my work after the use of the first bottle. It's the finest tonic I know of. I got into better health than I had been since my marriage. I advise all women... who have weak spells... to take it."

The thousands of letters, which come to us every year, like the above, certainly are proof of the merit of Cardui, the woman's tonic.

For sale by all druggists.

Considerable of a Snub.
Mr. Asquith recently administered a grudge to a certain M. P. Some time ago, on the death of a noted public man, there was a great deal of gossip as to who should succeed him. The M. P. in question had a friend whom he wished to get the appointment, and determined to be first in the field, he went to Mr. Asquith on the day after the late holder of the post had died. "May my friend So-and-so have Mr. Blank's place?" he asked, eagerly. "He may," answered Mr. Asquith, gravely, "if he thinks the coffin will fit him comfortably!"—London Mail.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath,
Sour Stomach and
constipation.

Get a 10-cent box now.
No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Ninety-Year-Old Tree Bears.
Apples plucked from the oldest apple tree on the Pacific coast, in Vancouver Barracks, have been sent to the department of agriculture by A. A. Quarnberg, exhorticulture inspector of that district. This famous tree is almost ninety years old and produced a fair crop of apples last year.

YOUR GRAY, FADED OR GRAY-STREAKED HAIR EVENLY DARKENED WITHOUT DYES

Do this: Apply like a shampoo Q-Ban Hair Color Restorer to your hair and scalp, and dry hair in sunlight. A few applications like this turn all your gray, faded, dry or gray-streaked hair to an even, beautiful dark shade. Q-Ban also makes scalp and entire head of hair healthy, so all your hair (whether gray or not) is left soft, fluffy, lustrous, wavy, thick, evenly dark, charming and fascinating, without even a trace of gray hair showing. Insist on having Q-Ban, as it is harmless—no dye—but guaranteed to darken gray hair or money returned. It's bottle 50c at druggists' or sent prepaid. Address Q-Ban, Front St., Memphis, Tenn.—Advertisement.

Neutrality.
"We are maintaining a strict neutrality."
"Hardly! We are praying that the right side may win and are quite convinced as to which is the right side."

A NEGLECTED CHILD.
Is often followed by pneumonia. Before it is too late take Laxative Quinine Tablets. Gives prompt relief in cases of Coughs, Colds, La Grippe and Headache. Price 25c.—Adv.

The Reason.
"Why do they call a baseball a sphere?"
"Because it is whirled."

CONGRESS TO QUIT IN THE SUMMER

PREPARATIONS ARE BEING MADE
TO END THE SESSION EARLY
IN JULY.

WAR TALK IS OUT OF WAY

House To Pass Army Increase Measure in Next Few Days—Democrats Are Co-operating On the Measure.

Washington.—Evidence of co-operation between President Wilson and congress which may lead to an early adjournment at the capitol is seen by administration officials in the action of the senate and house in advancing preparedness legislation and practically removing the European and Mexican questions from the field of debate.

Although some congressional leaders, notably Speaker Clark, say congress will be in session until fall, administration officials predicted that adjournment would come late in June or early in July.

A great legislative program still awaits action. It includes the army and navy bills, rural credit legislation, several appropriation and revenue bills, shipping legislation, revenue measures and the immigration bill.

The president is desirous that congress act on important matters pending before the political convention in June. Work on the Democratic platform already has been begun on the assumption that this can be accomplished.

The house will pass the Hay army reorganization bill by Thursday, March 22, at the latest. In the discussion of this measure there has been evidenced more solidarity among Democrats than had been exhibited at any time since the session began. In fact, the general support which has rallied around national defense legislation has been a surprise to the administration leaders, who had expected to encounter bitter antagonism.

RAID ON ENGLISH COAST.

German Aeroplane Shells East Kent and Kill Nine—Many More Are Injured.

London.—Nine persons were killed and 31 injured in a raid of four German seaplanes over the east coast of Kent on March 19. It has been announced officially. A British airman brought down one raider over the sea, the German observer being killed. The official statement of the raid issued March 19 reads:

"Four German seaplanes flew over East Kent today. The first pair appeared over Dover at a height of 6,000 to 6,500 feet, one at 1:57 p. m.; the second at 2:02 p. m.

"The first dropped six bombs in the harbor; then went northwest, dropping bombs on the town. The other raider, after passing over Dover, appeared over Deal at 2:13 and dropped several bombs. The second pair appeared over Ramsgate at 2:10. They dropped bombs on the town. One of this pair went west, the other north, pursued by a British aeroplane. One bomb is reported to have been dropped on Margate.

"The second machine appeared over Westgate at 2:20. Here several of our aeroplanes went up in pursuit. No bombs were dropped on Westgate.

"The total casualties so far reported are: Killed, three men, one woman and five children; injured, 17 men, 5 women and 9 children.

"As far as ascertained, 48 bombs were dropped altogether."

LIEUT. ZELL A SUICIDE.

Melanicholia Overcame Member of the Eleventh Cavalry.

San Antonio, Texas.—Word was received at Southern Department headquarters from Houston of the suicide of First Lieutenant Edward M. Zell, Eleventh Cavalry, at Columbus, N. M. Lieut. Zell's regiment was a member of Gen. Pershing's command. Melanicholia is given as the cause.

Lieut. Zell was famous at West Point as a star member of the baseball and football teams, having returned to the school several times to coach. He is survived by his widow and two children, at Fort Ogelthorpe, near Chattanooga, Tenn.

Blast Injures Five.
Kenil, N. J.—The explosion of 1,000 pounds of smokeless powder at the Hercules Powder plant here injured five employees, three seriously.

Finds Sweetheart Dead.

San Francisco.—After searching for two years, Charles Howard Shaw of Los Angeles sped to San Francisco to claim Mrs. Margaret Skelly as his bride, only to find she had died ten minutes before he arrived.

Wilson Wears Shamrock.
Washington.—President Wilson celebrated St. Patrick's day by wearing a green necktie and a sprig of shamrock sent him by John Redmond, Irish nationalist leader in the British parliament.

NEUTRAL VESSEL IS SUNK

Dutch Liner Tubantia Sent To Bottom Off Coast of Holland—Disaster Charged To Torpedo.

Amsterdam.—The newest and finest steamship sailing under the Dutch flag, the Tubantia, of the Holland-Lloyd line, has been sunk 30 miles off the Dutch coast.

Although it is not positively established whether the sinking was due to a mine or a torpedo, there is a singular unanimity on the part of those who were on board in attributing it to a submarine's act. The crew base their belief in this regard chiefly on the intense violence of the explosion and in the fact that it occurred amidships. The vessel was outward bound from Amsterdam to South American ports, carrying a crew of 394 and 82 passengers, the latter, mostly neutrals, including, it is said, three Americans. The ship bore the usual identification marks of her neutral character, including an illuminated name and flag.

It is now believed there was a small number of lives lost in the sinking of the Tubantia, either in the explosion or in an accident which attended launching of a lifeboat. The steamship remained afloat several hours.

According to all reports there was no panic, every one on board behaving splendidly.

The boats were launched in their appointed order and the passengers were all taken off first. The rescue work was difficult owing to the darkness, the heavy mist and the rough sea. The boats were several hours in finding the Noordhinder lightship, which was two miles away.

The captain and part of the crew remained on the gradually sinking ship for some time, the wireless operator keeping up the working of guiding Dutch vessels to the rescue. The captain was on the vessel for two hours after she was struck and was the last to leave. The rescuing vessels took the passengers and crew to Flushing, Amsterdam and the Hook.

The loss of one of Holland's finest steamships has stirred the country deeply. The sinking of the Tubantia, valued at \$1,600,000 and insured for \$1,240,000, means loss of valuable cargo space not easily replaced.

TWO AMERICANS ARE KILLED

Refugees From Torreon Section Say Ranchers Were Shot During Anti-American Demonstration.

Galveston, Texas.—Two American citizens were murdered on a ranch west of Torreon on the night of March 13, according to advices reaching here from the border. The story of the murder of American citizens by Mexicans was brought to the border by refugees, foreign and domestic, who are leaving that section of the country. It is said the Americans were killed during an anti-American demonstration, in which half a hundred Mexicans participated. The bodies of the dead Americans were left at the ranch house when the enraged Mexicans took up their march northward, hoping to join some squad of Villa soldiers. Mexican refugees declared the American consulate had been closed and that feeling against Americans and American interests is intense.

HERO IN PRISON CAMP.

Kroonland Crew Member Gets Congressional Medal For Bravery.

Washington.—Secretary Redfield located in a British prison camp another one of the crew of the American steamer Kroonland awarded medals by Congress for rescuing passengers from the burning liner Volturino in the Atlantic. The man is Emil Dohme, a German, captured on the western battle front. A medal has been sent him. Thirteen men, still unlocated, are believed to be in the trenches, where some of the other forty were found.

Battleship Kentucky Sails.

New Orleans.—The battleship Kentucky has sailed from here for Vera Cruz, where she was ordered by the navy department. Capt. D. E. Dismukes said the warship carried her full complement of officers, bluejackets and marines.

Submarines Are Active.

London.—Between March 1 and March 18, 19 hostile ships of the entente allies, aggregating 40,000 tons, have been sunk, says an Amsterdam correspondent, crediting the statement to a well informed source in Berlin.

Prize Rooster a Tramp.

Fort Jervis, N. Y.—Edward Monroe is calling his \$250 prize rooster a damned old tramp. The fowl escaped at a show in New York and walked home, 88 miles, announcing himself by quarreling with his long lost wives.

Want More Airships.

New York.—Despite the fact that the Aero Club of America has received a telegram from Secretary of War Baker stating that the expedition into Mexico, has all the aeroplanes necessary, Allan R. Hawley, president of the club, has sent to President Wilson a message asking for the immediate appropriation of \$1,000,000 to equip four aeroplanes. In the message made public Mr. Hawley stated that the aeroplanes requested "may save the lives of 10,000 American soldiers on the Mexican border."

U. S. TROOPS 110 MILES IN MEXICO

AMERICAN EXPEDITION IS BELIEVED TO HAVE LOCATED
VILLA AND HIS BAND.

CONTINUES HIS OUTRAGES

Raids American Colonies and Slaughters the Inhabitants—Gen. Pershing Personally Leads Flying Column On Chase.

With the American Army (Via Wireless) to Columbus, N. M.—After marching more than 110 miles into Mexico in record marching time of 47 hours, which would indicate a speed of about 32 miles a day, the American punitive expedition on Sunday, March 19, received information apparently locating Pancho Villa, the object of their chase. Disposition of the troops began at once for the task of hunting him down. Meanwhile Villa was reported continuing his outrage upon Americans.

The exact place the expedition has reached was not allowed to be published by the censor. But at this town the expedition was informed that the Mexican leader passed through this place only a few days ago. The latest information of Villa's present whereabouts placed him on the ranch of Candelario Hernandez, one of the subchiefs with him on the raid against Columbus.

Gen. Pershing personally led the flying cavalry column in the 110-mile dash. Every man in his command was mounted. They pressed through a section of Mexico where water was scarce. For such a large body of men the speed maintained was remarkable, and the good condition in which they came through was inspiring.

Only a few cavalry horses and pack mules were lost, the victims of a hard-riden trail. The men reached the camp thirsty and hungry, but otherwise in good condition, fit for action and eager for the pursuit of Villa to begin in earnest. Here they were met with reports that Villa had raided the American colonies in the vicinity of his mountain retreats and that he had killed residents of these colonies.

VILLA RAIDER IS EXECUTED.

Mexican Minister of War Decries That Bandits Are Beyond Pale of the Law.

Mexico City.—The minister of war, Gen. Obregon, has issued a decree declaring all participants in the Columbus raid outside the law. The decree gives the right to any citizen to apprehend and kill, if necessary, the followers of Villa who crossed the American frontier.

The first victim of this decree was summarily executed in the city of Hermosillo, near which place he was captured by men who denounced him as one of the raiding party. The execution was carried out on direct orders of the minister of war, who personally sent instructions to Gen. Calles, military governor of Sonora, to take into custody, but was not executed owing to lack of evidence. He will be taken to Saltillo, where he will be tried by courtmartial.

AMMUNITION IS DEMANDED

Request of Carranza Consul for 300,000 Rounds of Cartridges at Douglas Is Refused.

Douglas, Ariz.—Ives G. Lelievier, Carranza consul here, has demanded that the local express agent turn over to him 300,000 cartridges consigned to Gen. Calles and ordered held by the American military authorities. The request was refused.

Consul Lelievier then telegraphed to Eliseo Arrendondo, representative of the de facto government at Washington, asking him to obtain permission of President Wilson for delivery of the cartridges. Consul Lelievier said that Gen. Calles had been instructed by Gen. Alvaro Obregon, Carranza minister of war, to co-operate with American troops in pursuit of Villa, and that he could not do so without this ammunition.

Allies Will Confer.

Rome.—Premier Salandra, Baron Sonnino and Gen. Cadorna have left Rome for Paris to participate in a conference with diplomatic and military representatives of the allied nations.

Roumania Is Preparing.

Bucharest.—Roumanian military preparations are being hurried forward. All those formerly exempted from military service, as well as those in foreign countries, have been called to the colors. The war office has requisitioned large quantities of copper and tin. Hopes of Germany that Roumania would maintain a neutral position have almost vanished. The visit of M. Filippescu, leader of the Unionists, to the Russian front has a close connection with the future attitude of Roumania.

WILL OPEN CANAL APRIL 15

War Department Makes Prediction Upon Advice From Acting Governor—Big Ditch Nearly Clear.

Washington.—An official prediction that the Panama canal will be reopened by April 15 for the passage of deep-draft vessels has been announced by the war department.

Conditions in Galliard Cut, scene of the principal earth movement which blocked the waterway last fall, are regarded as justifying the forecast.

Col. Harding, acting governor of the canal zone, has telegraphed the war department as follows:

"Conditions in Galliard Cut justify predictions that the canal will be available for ships of 30-foot draft on April 15, subject to probable temporary delays thereafter to meet exigencies of dredging fleet in completing canal to full depth and in removing shoals that may possibly develop."

Until this report came, canal officials had refused since the closure to make any estimate of the probable date of reopening.

Barth movements in the canal began in September and were at first regarded as comparatively unimportant. Early reports said the canal would be closed only a few weeks. This became months later as the earth movements continued. Finally it was announced that no estimate worthy of consideration could be made.

Maj. Gen. Goethals, governor of the canal zone, was on leave in the United States when the canal was blocked. He had asked to be retired under the act of congress granting him that privilege, believing his work done.

In October he hastened back to the canal zone after advising President Wilson that he did not wish any action taken on his resignation until the extent of the slides was determined. When he found that a huge new task had been set him by nature, he promptly withdrew his resignation.

Reopening of the great waterway is regarded as an engineering feat second only to the construction of the canal. Millions of tons of rock and earth have been torn out of the collapsed excavations. Now dredges of a size and capacity never before employed have labored night and day for months. Steam shovels have driven their way into the obstructions wherever there was ground sufficiently firm to hold them.

U. S. CONSUL LEAVES MEXICO

Many Americans Flee From Torreon in Box Cars to the Border—Refugees Fear Trouble.

Laredo, Texas.—Traveling the entire distance in box cars, Consul C. A. Williams and 45 other Americans have arrived here from Torreon, Mexico, having left the Mexican city, they said, because they were convinced it was the best thing to do. Their departure, they said, was not caused by any overt acts on the part of Mexicans or failure on the part of de facto government officials to offer protection. Eleven Americans joined the party at Monterey.

There were a number of American women in the party, including Mrs. Williams. Consul Williams said he would remain at Laredo or near the border pending instructions from the State Department. He refused to discuss his leaving Mexico.

Other members of the party said a few unmarried men remained in Torreon, but the entire American party had voted to leave because Torreon was considered to be in Villa territory and therefore unsafe for Americans. They believed the Carranza garrison was strong enough to hold the city of Torreon against a Villa attack.

Food conditions at Torreon, also, it was said, caused the decision to leave, the city depending almost entirely upon supplies from the United States. Durango City, it was stated by several of the American refugees, is entirely cut off from all manner of communication with the outside. There are said to be at least 20 Americans there. The American colony feared Torreon might be similarly isolated by Villa adherents.

24 DIE IN EXPLOSION.

Fourteen Victims of Accident at Monterey, Carranza Soldiers.

Laredo, Texas.—Fourteen Carranza soldiers and 10 civilians were killed in an explosion of a carload of grenades and artillery ammunition in the yards of the National Railroad lines at Monterey, Mexico, recently, according to passengers reaching here from Monterey.

The news was suppressed by the Carranza authorities because of the tension existing between the United States and Mexico.

All the dead and injured were Mexicans. Immediately after the explosion a mountainous cloud of smoke spread over the city and the cry, "The Americans have arrived!" rang throughout the poorer sections.

Urges Battle Cruisers.

Washington.—Immediate construction of eight or nine battle cruisers to provide an element of strength now sadly lacking in the American fleet has been urged before the house naval committee by Capt. Sims, commanding the battleship Nevada.

Ministry Enters Mexico.

Deming, N. M.—The Twenty-fourth and Twenty-fifth infantry, negro organizations, have entered Mexico from Columbus, according to dispatches reaching here.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrous.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Adv.

Improved Process of Freezing Fish.

It is announced that a Danish company, with headquarters at Copenhagen, is utilizing a new process for freezing fish, which is declared to be a decided improvement over previous methods. Recent demonstrations resulted in the freezing of herring in a half hour, which, under the system previously employed took several hours.

KIDNEYS CLOG UP FROM EATING TOO MUCH MEAT

Take Tablespoonful of Salts If Back Hurts or Bladder Bothers—Meat Forms Uric Acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

It May Be.

"I see jonquils and daffodils on sale. How is it that the early flowers are always yellow?"

"Dunno. Guess spring is bifarious like the rest of us."—Louisville Courier-Journal.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated,
give "California Syrup
of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

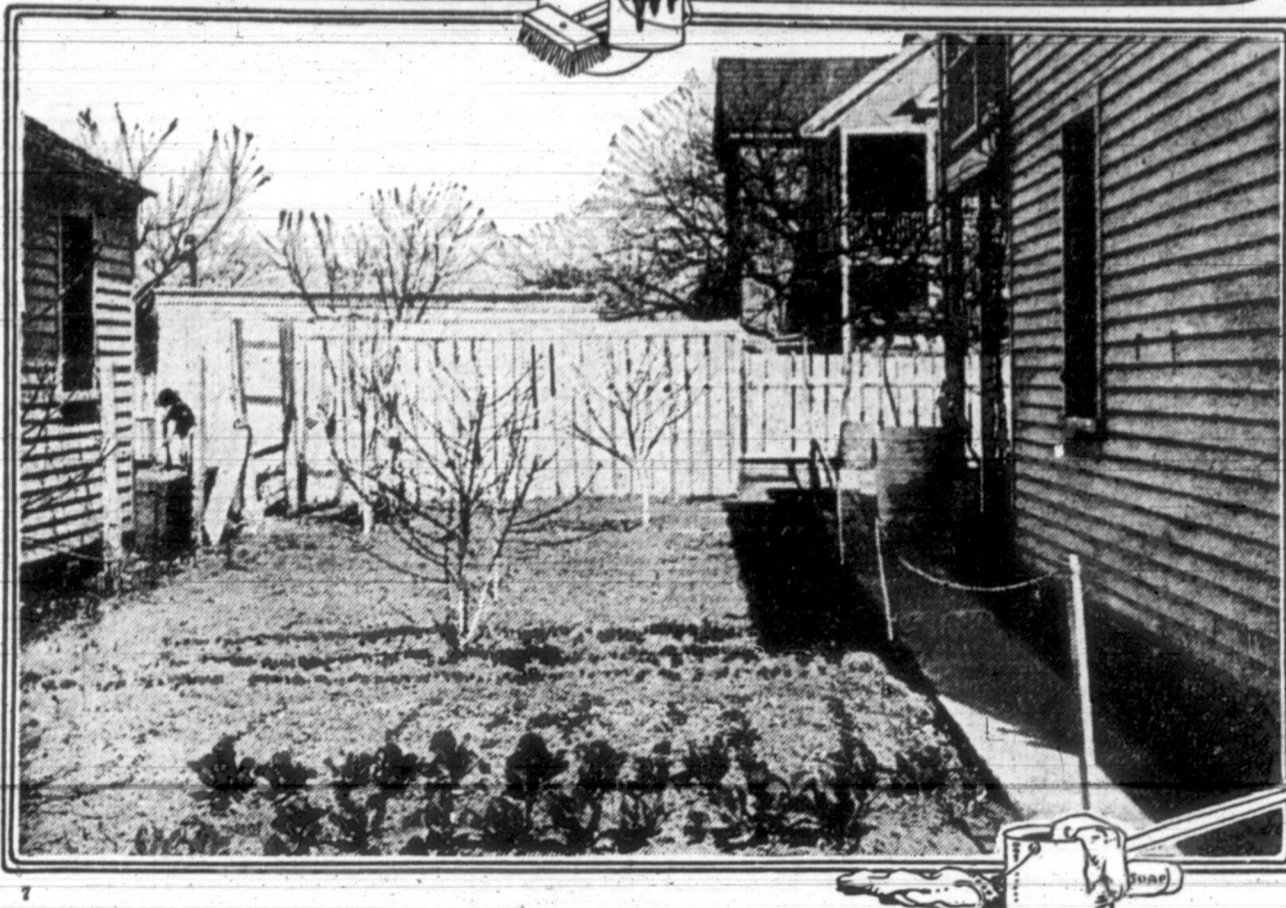

"Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat, or any other children's ailments, give a teaspoonful of 'California Syrup of Figs,' then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour-bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough 'inside cleansing' is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of 'California Syrup of Figs,' which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

The fool never stops to count the cost until the bill collector calls.

How "Clean Up and Paint Up" Started

THREE years have made the movement successful in hundreds of cities and towns. Every farmer should apply the idea to his premises. How it improves rental property.

The upper picture shows a vacant lot in a southern town before a Clean Up and Paint Up campaign. It was rid of all the trash by negro children in the neighborhood. Then they planted a vegetable and flower garden on the plot and had fine success with the enterprise. Can't we do something equally good with some of the vacant lot eyesores in this town? The lower picture shows what can be done with a ragged, good-for-nothing side yard. It took a great deal of persuasion to wake up the owners and tenants of the property, but once aroused they made up for lost time—as the neat garden indicates. This is a lesson for us.

"CLEAN UP and Paint Up" has become a nation-wide slogan in the interests of homes and towns beautiful since Allen W. Clark, a St. Louis publisher, organized the National "Clean Up and Paint Up" campaign bureau in May, 1912. Mr. Clark, for many years identified with the American paint trade, sought to arouse and organize into a single national movement the "clean up" spirit which stirs each spring in every normal man and woman and nearly every thriving community.

The first year something like 1,000 towns and cities conducted local clean up and paint up campaigns based on plans suggested by the national bureau. This number has increased each year until in 1915 approximately 5,000 local campaigns were organized. Each of these took the form of a real civic movement.

Where Everybody Helps. City and town officials, women's club leaders, boards of trade, health officials, fire insurance and fire prevention leaders, school children, boy scouts and the local paint men all co-operated in the interests of a more beautiful, more sanitary and more homelike home town. Individual property values were increased, loss through disease and fire waste was lessened, and the importance of cleanliness, thrift and civic pride in any movement for homes and towns beautiful was convincingly pointed out everywhere.

The weakness of the old-time "clean up day or week" orgy of the "annual bath" order is eliminated from these campaigns. Permanent results and ultimately a year-round effort are sought.

Clean Up the Farm Too. With the idea of making the farm home more attractive and more healthful a farm clean up day has been suggested. Why not this idea long ago? Cities, towns and villages have had their clean up days, and because of these and similar influences beauty

has been brought in and disease driven out.

The creator, gave to the country a peculiar charm. Beauty—beauty of blade and blossom, of hill and hollow, of day and night—comes as the birthright of every person who is country born. In the springtime nature writes in pink her orchard proclamation of plenty, and in late summer and fall time fills the fields with grains of gold. Sometimes civilization has cluttered, but never has nature. Whatever there is of ugliness in the great out of doors is man made.

Means Better Health.

Beauty is a part of the farmer's unearned increment. Health, too, should be for him and his—health and happiness, best of ancient blessings so often wished for friends. Because we "absorb environments," a farm clean up day may result in better living, higher thinking—yes, and better health. It may also play no small part in the solution of a big problem, that of keeping on the farms of the nation a large number of agriculturally trained and efficient men and women. Such as these will find in their work not only a living, but a life. They will share in the spirit of joy in the excellence of production.

There is much work for a farm clean up day. It may be that there are disease breeding places that need attention. The appearance of the barnyard—often such as to suggest that various old vehicles and farm implements had taken fright and backed into the corners—might be changed for the better. Maybe there is a compost heap—rich in nitrogen, phosphorus and potassium and valuable as a fertilizer if spread over the fields, but in its present place an incubator for insects and dangerous as a possible source of fever.

Flowers and New Paint.

If mother is fond of flowers, and usually she is, the farm clean up day might mean a new flower bed or perhaps a fence fixed so as to protect an old one. There may be a gate that too

long has sagged and creaked or that needs painting, and it so the R. F. D. mail box is sure to need brightening up. Whitewash on poultry or other buildings will work wonders. Before the day's work is done, prompted by a new pride in the place, it may be that the farmer will display the farm name near the main entrance to the place. States, counties, communities, churches, schools or farmers' clubs may proclaim farm clean up days, but best of all each individual farmer may have his own.

Don't Neglect to Paint. It is apparent to even the casual observer that many property owners let their rented houses, or houses for rent, go too long without painting. This neglect makes the houses look unsightly but also hastens the day of decay. A little paint is a good investment from every viewpoint. It preserves the wood and it keeps the houses rented. The writer visited an Illinois town last spring and after a careful observation found not a single house which was not well and fairly recently painted. There had just been a clean up and paint up campaign. The impression left was one of a thriving town where a man would like to live and bring up a family. The yards were well kept, with lawns, flower beds and shrubbery, and each householder seemed to vie with his neighbor in making his place look attractive.

New Sterilizing Agent.

German scientists have found that glycerin is a valuable sterilizing agent. Various deadly germs, when heated in it to a temperature of 245 degrees Fahrenheit, were completely killed in one minute. This process is particularly valuable for sterilizing surgical instruments, for the reason that the metal is not attacked nor is the temper affected. Rubber tubes can be sterilized in it, and, instead of being injured, the elasticity of those which have become brittle is restored by the treatment.

His Fate.

"Did you hear how Smithers got caught in a copper corner?" "No; how was it?" "He had been taking a little too much, and ran whooping into a bunch of policemen just as he turned around the street."

Consistency.

"There is one thing which ought to be done, but does not go with the unwritten law."

"What?"

"Payless lawyers."

Kin Hubbard Essays

OUR FATE AN' TH' ZODIAC

"Durin' a Mayoralty Campaign or Some Great Public Upheaval or Crisis, an Aquarius Born Withdraws Within Himself Like a Turtle an' Remains Neutral."

By KIN HUBBARD.

In his address, last night, before the Ford club, an organization more or less scientifically inclined, Prof. Alex Tansey confined himself to an astrological talk on the Zodiac, which is herewith given in parts as follows:

"Th' Romans dedicated th' first month o' th' year to a two-faced god. They called him Janus, th' origin o' his double physiognomy explainin' it self in th' fact o' th' sun passin' thro' two successive signs o' th' Zodiac ruled by th' planet Saturn. Persons ushered int' life durin' th' latter half o' this month or th' earlier half o' th' next, take up th' responsibilities o' life under th' personal supervision o' Aquarius an' equinoctial sign indicatin' progressive tendencies, a receptive mind an' a little dash o' genius inclin' toward any o' th' fine arts. Many o' our great writers an' painters an' paper hangers an' musicians belong to this sign. Miss Fawn Lippincott an' Prof. Clem Harner are, we might say, Aquarius heirs."

"While th' vibratin' impulse o' Aquarius usually finds its outlet in poetry, music an' painting, it often dabbles in other things that require as little physical output an' which are equally as unremunerative. When an Aquarius heir does attain anything it allus in spite o' his leisurely habits an' lack o' ambition. He finds it much easier to dream than to knuckle down to work. His mind evolves many wonderful things which his hands never put across. But occasionally we find an Aquarius heir who is sufficiently

practical an' industrious to keep a hungerin' humanity wonderin' as to what he might accomplish if he wuz single or had a little ginger."

"Aquarius heirs are students, thinkers, reformers an' supporters o' all innovations, that tend toward th' unobtainable, but they won't work. I say supporters, for they absolutely refuse to assume any responsibility or assist in puttin' a thing on its feet. They'll vote, but they keep away from th' primaries. They suffer th' spirit o' th' times to pass thro' their minds with impunity, but they don't get out an' boost. They prefer to reach their fellow men by sendin' communications to th' newspapers, rather than take th' stump. Although brilliant writers they're tedious temporary chairmen, lackin' that personal magnetism an' dramatic manner o' expression so often noticeable in fellows who git th' goods. 'Tis with Aquarius heirs as with waters—th' shallows murmur but th' deeps refuse to commit 'emselves. So these silent self-centered folks maintain a quiet reserve an' often gain reputations as intellectual giants."

"Durin' a mayoralty campaign or some great public upheaval, or crisis, an Aquarius born withdraws within himself like a turtle an' remains neutral. Closely resemblin' th' merchant he takes no chances on durin' his business."

"When life's stormy waters have ebbed t' their last dread silence an' th' time to cross to another shore, th' Aquarius born, true to his nature, 'll be found at th' shallowest ford."

Th' Attitude o' th' Father Toward th' Son

"Suddenly th' Older o' th' Two Said, 'Hurry! Beat It! Here Comes th' Main Squeeze!' an' They Both Rushed Panic Stricken Across a Lawn an' Were Soon Lost in th' Shrubbery."

Professor Alex Tansey addressed th' Men's Club at Melodone Hall last night, takin' for his subject "Th' Attitude o' th' Father Toward th' Son." Th' cream o' his lecture is given forthwith:

"Does your boy run up an alley when he sees you comin'? If he does, why does he? Why don't he run down t' th' corner to meet you? If he don't, why don't he? Does he boast o' 'my paw' t' his companions, or does he refer to you as 'th' ole man'? Does your boy place his order for a new bicycle tire, or a haircut, or a pair o' shoes, thro' his mother, or does he come direct to you? If he don't, why don't he? Is your boy afraid o' you? If he is, why is he? Is it because you're a receiver for a cannin' factory where your word is law, or because you're a director in two or three business concerns an' feel your importance? Is it because you've been prominently mentioned for county treasurer?"

"If your boy is afraid o' you because you are great it is only a question o' a few years till he gets on t' you. Then he'll laugh—or run away. He'll find out that after all you are only a human bein', an atom with nothin' new t' offer. A plain man with a little downtown responsibility."

"Ther's nothin' funnier than a fellow who tries to conceal th' fact that he's a human bein'. An' if he happens to be your father his attempt to hide th' fact is uproariously funny."

"Do you come home in th' evening with a knif brow an' sink heavily int' th' best chair an' pull out your watch? At th' evenin' meal do you ever shove th' butter over where your boy kin reach it, or show him other little attentions to make him feel that he's your son an' that you're goin' to see him thro' till he gets on a payin' basis? Or do you scowl when he timidly looks at his mother an' lifts an egg t' his plate?"

"Confide in your boy. Take walks with him an' point out all th' fourflushers you meet, an' explode all th' nonsense that's likely to appeal to him. Fight off ole age with its warped view o' life by makin' a chum o' your boy."

boy. Make him respect you an' discipline 'll take care o' itself.

"Not long ago I wuz strollin' along th' street in th' residence district o' a city when I came upon two youngsters who were discussin' croquet. Suddenly th' older o' th' two said, 'Hurry! Beat It! Here Comes th' Main Squeeze!' an' they both rushed panic-stricken across a lawn an' were soon lost in th' shrubbery. Turnin' about, I saw a pompous gentleman approachin'. His chin wuz well up an' he seemed to be entirely unconscious o' th' fact that any other livin' thing existed besides himself. That he wuz a gentleman o' rare ability ther could be no doubt, but in what callin' or profession he excelled I wuz unable to figure out. I walked leisurely t' th' corner an' halted. I wished to study him at close range. My hopes were shattered when he turned t' enter th' residence across th' lawn of which th' boys had disappeared. I watched him. He never limbered or seemed to forget th' fact that he wuz great. His bearin' never changed. He entered th' house, an' thro' a window I caught a last glance o' him. His chin wuz still pointin' heavenward, I wuz much interested. I asked a gentleman who chanced t' pass who lived in th' house. He replied, 'Th' cashier o' some public service monopoly. I've never heard his name.'"

(Copyright, Adams Newspaper Service.)

Coffee Cup a Barometer.

You can tell what the weather is going to be by the appearance of your morning cup of coffee. When the bubbles collect in the center of the cup, and form a "kiss," you can tell the day is going to be fine. When they rush to the side of the cup, you had better look out for squalls. Rain is not absolutely certain, but it's very likely. Of course, it is the condition of the atmosphere that affects the tiny bubbles.

Miserable Happiness.

"Some folks," said Uncle Eben, "is so terrible busy tryin' to look like dey was happy, dat dey makes deir self's puffy like miserable."

Take This Man's Advice

TRY THE GREAT KIDNEY REMEDY

It always gives me pleasure to recommend anything that is right and so I feel it my duty to herald the praises of Dr. Kilmer's Swamp-Root.

For years I was troubled with kidney disease and it was so intense that I was bedridden for days at a time. I gave up all hope and doctors for miles around gave me no help. Incidentally I tried several patent remedies and at last tried Swamp-Root. From the first it gave me relief and it was no time before I was able to be up and around and now I am perfectly well and able to work as I used to before my terrible sickness.

So now let me thank you for your wonderful discovery and take this opportunity to recommend it to all who suffer from kidney troubles.

Yours very truly,

WALTER SHIVER,

317 North Main Street, Hope, Ark.

Subscribed and sworn to before me, this 25th of March, 1912.

A. V. WARE, Notary Public.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

A Prediction.

Knicker—Who will be the presidential candidates?

Bocker—"Very" and "I."

THICK, GLOSSY HAIR

FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any store and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. Adv.

Accounted For.

"What was it your client failed to put a good face on the matter?"

"He changed countenance."

GAS, DYSPESIA

AND INDIGESTION

"Pape's Diapepsin" settles sour, gassy stomachs in five minutes—Time it!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness, its certain, unfailing action in regulating sick, sour, gassy stomachs, its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over. Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any dealer and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food; remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

One of the Cocc.

"So Kitty said I had a thick head of hair."

"Oh, she didn't mention the hair."

HOW WONDERFULLY RESINOL

SOOTHES ITCHING SKINS!

If you have eczema, ringworm or other itching, burning, sleep-destroying skin-eruption, try Resinol Ointment and Resinol Soap and see how quickly the itching stops and the trouble disappears. Resinol Ointment is also an excellent household remedy for dandruff, sores, burns, wounds, chafings and for a score of other uses where a soothing, healing application is needed.

Resinol contains nothing of a harsh or injurious nature and can be used freely even on the most irritated surface. Every druggist sells Resinol Ointment and Resinol Soap.—Adv.

When a man makes a fool of himself over a woman, it's a sign that it doesn't require much of an effort.

POSTSCRIPTS

Automobile tires made of synthetic rubber by a German inventor have shown no signs of wear after having been run more than 4,000 miles.

With the idea of resisting earthquakes a hospital in San Salvador has been built of pressed steel plates bolted to a wrought iron frame.

A computing scale has been invented that shows the amounts of the ingredients required for different quantities and mixtures of cement.

At the present rate, \$1,000,000 will be expended in electric ranges this year.

The adjutant or marabou bird of India, which is valued on account of its feathers, will swallow a hare or a cat whole. It stands five feet high and has a 15-foot expanse of wing.

Many of the western boards of education are equipping high schools and colleges with electrical cooking apparatus, and in state and city institutions, especially hospitals, the cooking is done by electricity.

Coughs at Night worry the patient and disturb the sleep of the whole family. For a good relieving remedy use

BALLARD'S HOREHOUND SYRUP

It Eases the Lungs

It checks coughing, relieves chest pains, Hoarseness, Loss of Voice, Sore Throat, Wheezing and Difficult Breathing. Good for children or adults.

Price 25c, 50c and \$1.00 per Bottle

Buy the \$1.00 size. It contains five times as much as the 25c size and you get free with each bottle one Dr. Herring's Capsicum Plaster for the chest.

Entered at the postoffice at Murray, Kentucky, for transmission through the mails as second class matter.

THURSDAY, MARCH 21, 1916

BENTON MAN SUES CAR COMPANY FOR \$25,000 DAMAGE.

Lexington, Ky., March 20.—The suit for \$25,000 damages on account of the death of Eldridge S. Griffith, of Benton, Ky., a freshman at the University of Kentucky who was fatally injured last fall when a street car struck a cable which Griffith and his classmates were dragging through the streets in celebration of victory in a tug of war, was called to trial in Circuit Court today. The suit was filed by Griffith's father, and administrator of his estate, against the Kentucky Traction & Terminal Company, which operates the cars. Hunt & Bush are attorneys for the plaintiff, and Col. John R. Allen, Richard C. Stoll and Wallace Muir counsel for the traction company.

More than two hours was consumed and twenty-seven veniremen were examined before the jury was accepted.

Griffith died at St. Joseph's Hospital October 15, the result of a broken neck. The freshmen had that day won the annual tug of war from the sophomores by dragging their opponents through a pond near the

university grounds, across which was stretched a steel cable 800 feet long, with the members of the two classes, respectively, holding to each end. In celebration of their victory Griffith and several hundred other freshmen paraded through the streets of the city, dragging the cable. They had visited Hamilton Female College and had proceeded back down Broadway and were turning into Third street, on the way to Sayre Female College to exhibit their trophy, when a street car came down Broadway, it is charged, and struck the cable which was being dragged across the track. The impact of the car with the steel rope hurled a number of the students who had hold of the cable to the ground, the petition charges, Griffith's neck being fractured.

Pure Strain White Leghorn Eggs for Sale.—My hens took the blue ribbon at the Calloway county fair last fall. 50 cents for setting of 15 eggs at my home in Murray, Ky. Will mail them at purchasers expense. Mrs. Lee Rowlett.

Miss Gracie Rogers, of Calloway county, has been on a visit for several days past to the family of Mr. Sam Ford near Lexington.—Cadiz Record.

Harold Schroeder and wife were the guests of her parents in Trezevant, Tenn., last week.

For Sale or Exchange.—3 horse power gasoline engine.—E. E. Smith, Harris Grove, Ky. Misses Voline and Clotile Pool were the guests of Mrs. P. G. Melan, of Paducah, the past week.

Buy your spring suit at Murray's first and only exclusive tailor-made clothing store.—T. J. Stubblefield.

If you are undecided as to what your spring suit shall be, drop in and let's look it over.—T. J. Stubblefield.

Mr. Ira Lawrence and family, of Calloway county, are on a visit to relatives and old friends in Trigg.—Cadiz Record.

Robie Fair is now with Hood & Fain, dealers in groceries and hardware, and would be glad to have his friends call and see him.

Mr. W. D. Outland and wife, of Murray, Ky., are visiting the latter's father, G. B. Jones, of Standing Rock.—Dover Courier.

We want your eggs, chickens, hams, shoulders, jowls and bacon and will pay highest market price.—Hood & Fain, west side court square.

We want your eggs, chickens, hams, shoulders, jowls and bacon and will pay highest market prices.—Hood & Fain, west side court square.

Stock.—Fine Jersey male will make the season at 75c, cash, or \$1 time. Duroc pigs for sale, males and females.—N. M. Laster, 4 miles east of Murray, 2nd.

Mrs. S. Higgins returned home the latter part of the past week from Pensacola, Fla., where she spent the past two months with her son, Van Higgins, and wife.

Mrs. D. W. Morris has moved to Henry, Tenn., where she will reside in the future, making her home with her parents. Many friends in Murray regret to see this estimable woman leave.

Mr. John R. Wade, one of the best and most honored citizens of Trigg county, died last Sunday morning between 1 and 2 o'clock at his home in Wallonia district after an illness of nine weeks. His trouble started with a severe attack of grip, and other complications arose which hastened the end.—Cadiz Record.

The Civic League, of Murray, has inaugurated a fly-swatting campaign, and as a result of their first week of endeavor about six hundred of the little disease spreading pests were swatted by the children of the city. The league made arrangements with the management of the picture show for a large number of tickets and for each ten flies killed and presented to the committee of the league the child received one ticket. The campaign will continue possibly throughout the summer. It is the proper remedy for the extermination of this pest and the league should be aided and commended in "taking time by the forelock" in their fight to eradicate this pest that spreads more filth and diseases than all others combined.

C. M. Claypool, state auto license inspector, dropped into town last Friday night and for about forty-eight hours had auto owners who had not secured their 1916 license on the anxious seat. Warrants were issued for about seventy-five persons and a number were arraigned before the city judge and fines aggregating \$18.65 assessed against each offender. Judge Schroeder set the fines aside on Monday and will hold judgment in all other cases until April 1st. Owners of machines in Calloway who have not secured their license should do so at the very earliest date possible, as fines positively will be assessed after the first of April. Should indictments by the grand jury result for failure to secure license the fine and costs would total about \$75.

River Hills.

Mrs. Hopson, of this section, died of pneumonia a few days past. She was a dear, good woman.

Ottis, the elder son of Sidney Raborn, has been on the sick list but is reported better at this writing.

Mr. Raborn and Vaughn each are clearing a nice new ground for S. L. Evans.

Mr. J. B. Hale, better known as Jim Hale the Blood river island man, made a couple of sales of real estate, selling to Walter Hale and J. T. Chambers.

But A. O. Cook wears the blue ribbon, completing four deals in one day, making two to Mr. Andy Outland, one to Henry Outland and one to J. J. Ellis. In the same deal the Outland Bros. also made a deed to some land they were interested in to Mr. Cook. In fact it seemed to be a wholesale land deal. S. L. Evans did the writing and said it was the most complicated affair he had ever undertaken.

Land deals are numerous in the river hills, there having been a number of deals since Christmas in this section, involving thousands of dollars.—Ho Bo

The Market Elsewhere.

Mayfield, Ky., March 21.—25,000 pounds of tobacco were sold on the loose floor market Monday and prices had a stronger tendency than at any time this season, all grades being \$1 in advance of the week previous. There was no good leaf offered and the low leaf brought from \$6 to \$8 a hundred and lugs from \$4 10 to \$4.65 a hundred pounds. There was no sale at Murray today and for that reason the regular auctioneer, H. P. Farris, did not go. Mr. Farris will go to Paducah Wednesday, where there will be a sale and to Lancaster Thursday for the sale and then back to Paducah for a sale to be held on Friday. Considerable tobacco is being hauled to Mayfield this week from the country and it is expected to continue to roll in now until the crop is delivered.

Clarksville, Tenn. March 21.—The tobacco market was very lively Saturday and about 200,000 pounds of loose tobacco was sold at prices ranging from \$6.50 to \$11, and \$3 to \$5.75 for lugs. Every loose floor dealer had sales and prices seemed to be satisfactory to the farmers. Hoghead sales are increasing daily and much tobacco is being stripped. There are only a few sales reported at the barns, the seller preferring to bring his goods to an open market light, and warehouses are filling up.

"Money to Loan on Farm Lands.—We represent a strong financial company who can make immediate loans on Calloway county farm lands for 5 to 10 years. Interest payable annually. No loans taken for less than \$1,000. Will make loans up to 40 percent of value of land. Prompt service will be rendered.—Asher Graham, agent. 3234

Mrs. Elizabeth S. Jefferson breathed her last at the Jefferson home in this city last Monday afternoon at 6 o'clock. Mrs. Jefferson had not enjoyed the best of health for a number of years, but for only a few weeks had she been confined to her bed, and death was due largely to the infirmities of age.—Cadiz Record.

Don't forget that Thursday, Friday, Saturday and Monday 23, 24, 25, 27, are the days set apart by us for our grand opening. Do not fail to visit our store these days. We will have a surprise for you.—Hood & Fain, groceries and hardware, west side of court square.

Have you formed the saving habit? If not begin now by buying your groceries, feed and hardware from Hood & Fain, west side of court square.

In other words, we are willing to sell you the above list of goods at cost for these four days in order to broaden our acquaintance and get you to come to our place of business, believing that you once give us a trial you will continue to be our friends and trade with us.

Did you ever before have an opportunity to buy 25 pounds of Granulated Sugar and \$4 worth of other first class, fresh merchandise for the sum of \$5?

To our friends in the country we wish to say that we can handle your chickens, eggs, hams, shoulders and bacon and will give you the market price for them and take them in exchange on the above list of goods on the dates mentioned.

HOOD & FAIN

West Side Court Square, Murray, Kentucky

We are going to offer you an unheard of bargain on Thursday, Friday Saturday and Monday, 23, 24, 25, 27. If you fail to visit our store on these dates and take advantage of this bargain it will be a direct loss to you.—Hood & Fain, west side court square.

Don't fail to come to see us Thursday, Friday, Saturday and Monday, 23 24 25 and 27. We will give you a surprise that will please and pay you.—Hood & Fain, groceries and hardware, west side court square.

Mules Wanted.

I will be in Murray on fourth Monday to buy mules 15.1 to 16 hands high, 1050 pounds and up, 5 to 10 year old.—Geo. Clark.

We handle all kinds and sizes of Vulcan plows and repair parts. Hood & Fain, hardware, groceries and feed, west side square.

The fair grounds property was sold at public auction last Saturday as previously announced and was purchased by W. L. Whittell at \$5,600. It is announced that a new fair association will be organized and take over the property and continue the fair. The provision was reserved in the sale that any company or organization might become the owner of the property within sixty days provided that the property was to be used for fair purposes only.

At the home of her daughter, Mrs. Gabe Boas, at Franklin, Tenn., Mrs. Mary Brown, age 65 years, wife of the late Dr. Brown, of Graves county, Ky., and sister of H. B. Douthitt, of Paris, passed away Monday morning after an illness of several weeks.

WANTED

Every School Boy and Girl under ten years of age to come to our store Friday afternoon, March 24. We have something to give you.

Mrs. Inez Brown Sale's

Let us remodel your old hats.

There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

ROYAL BAKING POWDER CO.

LOCAL and PERSONAL

McElrath always pays more for your eggs.

Wanted:—White girl to live with aged couple as one of the family. — D. C. Clark, Lynn Grove, Ky. 3232

You can read it in red on the right page of this section of the Ledger, and it is worth your while to read it.

It began to look like for a few days during the past week that old Mrs. Summer was going to catch Miss Spring spooning in the lap of old man Winter.

E. J. Cook has moved to town from the southeast part of the county and is occupying the new residence recently built by him in the southwest part of the city.

Miss Willie Baker is associated with Mrs. M. L. Wells, the milliner at Wadlington's, as trimmer and invites her many friends to call and see her before making a spring purchase.

Murray is to have its first sale of registered hogs, to be sold here next fourth Monday at public auction. Read the announcement of the sale on the first page of section two of this issue of the Ledger.

Frank Turner died last Sunday at his home near Faxon after a lingering illness of consumption. He was about 65 years of age and is survived by a wife and children. The burial took place in the Ivey grave yard.

H. C. Waldrop, of Wichita, Kas., a native of Calloway and a son of Esq. Waldrop, of the Coldwater section of the county, was married the past week to Miss Lexie Boyd, of Graves county. The couple departed immediately after the ceremony for their home in Kansas.

Can't look well, eat well, or feel well with impure blood. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean, and good health is pretty sure to follow. \$1.00 a bottle.

Seed oats at McElrath's, 68c per bushel, by the bag.

For Sale.—Pair black mare mules 3 years old this summer, also good brood mare. Come and see them and get terms.—W. M. Bryant, 6 miles north Murray 4

J. A. Jones has accepted a position with the Acme Harvesting Company, of Peoria, Ill. For the past several years he was connected with the Carter Hardware Co.—Mayfield Messenger.

The sympathy of many friends in Murray goes out to Mr. E. P. Crowe, former resident of this city now located in Dexter, Mo., in the death of his esteemed mother, who passed away the 13th inst. at the advanced age of 79 years.

The Dees Bank, of Hazel, has been incorporated and the new institution expects to be ready for business at an early date. Mr. S. H. Dees, of the Bank of Murray, Jake Mayer, Fry Rose and other well known citizens are interested in the institution.

Judge A. J. G. Wells, warden of the Frankfort penitentiary, was in the city transacting business the first of the week. It is generally conceded that under the terms of the bills just passed by the legislature that Judge Wells will not hold his present position after September 1st, this year.

A coal oil stove in the kitchen of Mrs. Inez Brown Sale came very near causing a fire last Saturday afternoon. The stove was left burning and evidently the supply of oil was greater than needed and ignited on the outside, resulting in quite a little blaze. The paper on the kitchen wall caught fire but prompt action prevented any serious results.

Mrs. J. C. Looney died Monday night of this week at her home near Paris, Tenn., after a brief illness of pneumonia. She was about 70 years of age and one of the prominent ladies of Henry county. Mr. Looney, her husband, is a brother of Mrs. Frazier, of this city. Con Frazier attended the funeral which took place Wednesday.

Bucy Bros., want your hardware and grocery trade.

Saturday will be egg day at McElrath's bring them in.

Miss Eunice Oury has been quite ill the past two weeks of tonsillitis.

J. R. Kennedy and wife spent several days of this week in Nashville, Tenn.

They want your hams, shoulders, jowls and sides at Bucy Bros., 4th Monday.

Mrs. Clyde Collie, of Luray, Tenn., is in the county the guest of relatives and friends.

Mrs. Lem Lassiter, of Paris, was the guest of friends in Murray several days of last week.

Mrs. Annie Walker, of Hickman, Ky., is in the city the guest of her mother, Mrs. Stubblefield.

Mrs. Nat Ryan and Mrs. Emma Brame were the guests of relatives in Paducah the past week.

On the sixth page of this issue of the Ledger will be found a synopsis of all the bills passed by the recent legislature.

Mrs. John Futrell, who lives a few miles northeast of the city, is very low of cancer of the stomach and her recovery exceedingly doubtful.

You don't have to wear "misfit" clothing, neither do you have to pay a premium to get the kind that fit "right."

A call and a very few minutes of your time will prove it, the test is invited, without any obligation to buy.

DELKER BUGGIES

Don't be Deceived

Buy the Genuine George Delker Buggy

The Buggy that has a reputation behind it. The Buggy that gives the best satisfaction of any ever sold in Calloway county. Prices right. Best quality of Kelly Springfield Rubber carefully put on all our buggies. Neat line of good quality Harness. We also have other brands of buggies. We want your trade.

SEXTON BROTHERS

Saturday I want your eggs. Get my price before selling.

Aunt Vina Caldwell, colored, aged about 95 years, died last Saturday night of the infirmities of age. She was a former slave of the Wells family and was possibly the oldest person in the county. She was buried at Martins Chapel.

J. M. Clayton, who has been in Murray at the home of his sister, Mrs. Jane Melan, for the past three months was called to Appleton, Mo., Monday morning of this week on account of the serious illness of his brother, Wm. Clayton, who is very low of cancer of the stomach. Mr. Clayton is also a brother of Mrs. Melan, Mrs. Jake Lassiter, Robert and Dan Clayton of this county.

Mary Green, the three-year-old daughter of Mr. and Mrs. Ray Green, of near Florence Station, in Graves county, was fatally burned Sunday evening about 6 o'clock when a kettle of boiling water was spilled over the girl when she fell near the open grate fire. Death came Monday afternoon about 2 o'clock after several hours of awful agony from the burns.

Evidently the Ledger readers took us seriously last week when we stated that Bro. Mac Pool was a splendid judge of the good things to eat because of the fact that he had partaken of so many of the good things of life at the other fellow's table, and as a result Bro. Pool was the recipient of quite a large donation from his many friends of the city and for the next several weeks he can enjoy many things at home. He asks the Ledger in behalf of himself and wife, to extend their sincere appreciation of the kindness shown them and to wish for each individual who participated in the donation the very best life holds in store in the way of health, happiness and prosperity.

Seed Irish potatoes at McElrath's. My price is right. Hardware, ranges and oil stoves for sale by Bucy Bros.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulets. They operate easily. 25c at all stores.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment is fine for skin itching. All druggists sell it, 50c a box.

Friends in Murray are in receipt of the following announcement of the approaching marriage of a former popular young Murray girl: "Mrs. Dollie Curd requests the honor of your presence at the marriage of her daughter, Mary Allen, to Mr. Samuel Solon Allen on Wednesday evening, April the fifth, at eight o'clock, at the West Blockton Baptist church, West Blockton, Ala."

Get your hardware, ranges and oil cook stoves, from Bucy Bros.

For Rent.—Three large rooms in Mrs. Dollie Curd's house, \$6 per month. Possession after April 5th.—Mrs. Sallie B. Holt.

For any pain, burn, scald or bruise, apply Dr. Thomas' Electric Oil—the household remedy. Two sizes, 25c and 50c, at all drug stores.

J. B. Swann, son of William Swann, of the west side of the county, was with the first assignment of American troops to cross the Mexican border last week in pursuit of the outlaw bandit, Villa. Mr. Swann is a member of Co. K., 6th infantry, and has been stationed at El Paso, Texas, the past two or three years. In a letter to home folks he expressed himself as delighted to go and expressed confidence that the American boys would be successful in their man hunt.

CASTORIA

Children for Farm Work.
The Kent (England) education committee has again decided to release children twelve years of age and upwards from school attendance for employment in agriculture during the summer months. Children of not less than twelve years of age are also to be released this year for employment in home duties if thereby their mothers can be employed in agriculture.

WOMAN'S CROWNING GLORY
is her hair. If yours is streaked with ugly, grizzly, gray hairs, use "La Creole" Hair Dressing and change it in the natural way. Price \$1.00.—Adv.

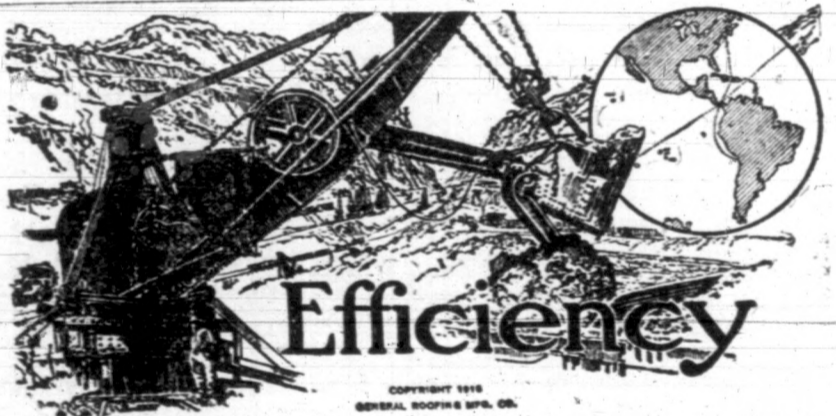

Her Idea.
"Do you think Cholly Primrose ever thinks?"
"If he does, he takes pains to hide it."

All things come with the waiter who serves an order of hash.

No Barber Bill to Pay.
There is a barber's shop in Cape Town at which Sir Leander Starr Jameson can always have a haircut and shave for nothing. Years ago "Doctor Jim" then in practice, attended the barber's wife during a dangerous illness. Through his skill she recovered. The husband was deeply grateful; but he was not in a position to pay. Instead, he offered to give "Doctor Jim" a free haircut and shave for the rest of his life. Whenever Sir Leander is in Cape Town he goes to the shop, and the barber carries out his bargain.

Good Advice.
"I intend to bag an heirless."
"Look out that she doesn't give you the sack."

Theodore Roosevelt was the youngest man ever elected to the presidency of the United States.

Efficiency built the Panama Canal, after inefficiency failed. The efficiency of the Panama Canal doubled the effectiveness of the U. S. Navy without adding a ship to it. It took over 8,000 miles out of the trip from New York to San Francisco and changed the highway between London and Australia from Suez to Panama. Efficiency insures against lost motion—it produces the utmost service out of equipment and yields the finest product, at the least cost.

Certain-teed

Roofing
is an efficiency product

Every advantage that men, money and machinery can offer is used to increase the production, maintain the quality and lower the cost. Each of the General's enormous mills is advantageously located to serve the ends of efficient manufacture and quick distribution. Each is equipped with the most up-to-date machinery. Raw materials are purchased in enormous quantities and far ahead of the needs of manufacturing, thus guarding against increased cost due to idle machinery. This also insures favorable buying, and the pick of the market.

Expert chemists at each mill are employed to select and blend the asphalts, and every roll of CERTAIN-TEED is made under their watchful care.

CERTAIN-TEED resists the drying-out process so destructive to ordinary roofing, because the felt is thoroughly saturated with a blend of soft asphalts, prepared under the formula of the General's board of expert chemists. It is then coated with a blend of harder asphalts, which keeps the inner saturation soft. This makes a roofing more pliable, and more impervious to the elements than the harder, drier kind.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it lasts longer.

OFFICIALS WILL ENFORCE LID LAW

LIQUOR DEALERS WILL HAVE TO OBEY NEW STATUTE, SAYS ATTORNEY GENERAL.

LOOPHOLES ARE NOT FOUND

Sheriff Is To Be Called When City Officials Fail in Their Duties—Law To Be Construed in Detail.

(Special Frankfort Correspondence.)
Frankfort—Atty. Gen. Logan supplemented the statement given out by Gov. Stanley recently that the Sunday-closing laws in Kentucky would be rigorously enforced. "The men in the liquor business will be compelled to obey the law under the provisions of the Hutchcraft screen bill," said Atty. Gen. Logan. "If they figure on loopholes to escape, or if they think the law will not be enforced they will be disappointed, for the governor has said he would rigorously enforce the law, and he will have my assistance in whatsoever way that he can. This law will close the saloons on Sunday, or put the men out of business who violate it."

Attorney Thomas P. Carothers, Newport, accompanied by Jules Plummer, of that city, were here to get Atty. Gen. Logan to construe that section of the law which imposes the duty upon the sheriff to enforce the law. They discussed every feature of that portion of the bill, and Atty. Gen. Logan told them the sheriff would be called on to enforce the law in the city only when the mayor and chief of police failed or refused to do their duty, or when a complaint was made directly to the sheriff by affidavit.

Atty. Gen. Logan will construe the law in detail. He was asked to construe the law in writing, as the mayors, chiefs of police and other officers in cities in which liquor is sold, seek to know what their full duty will be. The only prosecuting officers mentioned in the law are the commonwealth's attorney and the county attorney. The city attorneys and the city prosecutor who do the police court work have been left out of the provisions of the bill. The question has arisen whether the police courts will have jurisdiction to try offenses under the law, as the second offenses in the cases provide for the forfeiture of licenses, and that would, it is believed, take the jurisdiction from the police and county courts and give it to the circuit courts only.

Governor Signs Many Measures.
Governor Stanley has signed the anti-lobby bill, the anti-trust bill, the new fire insurance code, the bill prohibiting the condemnation of the right of way of railroads for telephone or telegraph poles, the bill providing for the agricultural extension work under the Smith-Lever act of the federal congress, the bill providing for a \$2,500 monthly appropriation for the confederate home, the semi-monthly pay bill, and the bill providing for the ten-year payment plan for street improvements in cities of Hite Huffaker's bill to revise the fire insurance laws of the state. He presented the gold pen with which to sign the bill to Senator Huffaker. The bill of Representative Treadway to require corporations to pay employees semi-monthly was signed by the governor. Senator Stricklett and Representatives Treadway and Tartar were present when he signed the measure and were given the gold pens which he used in affixing his signature to the measure. Represented on the board of control by Gov. Stanley, has resigned from the legislature.

McGlone Pays State.
Atty. Gen. Logan received a check from J. E. McGlone, former circuit clerk of Carter county, for \$7,841.74. This amount covers the money that McGlone is said to have received from the state on alleged fraudulent warrants. He was given a credit of \$846 for alleged warrants, which were returned. McGlone is indicted in the Franklin circuit court on the charge of fraudulently forging witness claims to defraud the state of Kentucky. It is probable that no effort will be made to prosecute him.

125 Bills Pass.
Measures that passed during the session of the legislature are as follows:
Anti-pass act.
To permit counties containing second-class cities to acquire law libraries.
To provide for stenographer in State Inspector and Examiner's office.
To amend state adoption of textbook, limiting changes to three branches in any one year.
To create office of Matron of Louisville Police Court.
To regulate terms of Circuit Court in the Twenty-first District.
To regulate time of holding Circuit Court in the Sixth District.
To make desertion of children under 16 years of age a felony.
To create State Board of Accountancy and license accountants.
To permit third-class cities to improve streets on the ten-year installment plan.
To permit competing telephone companies to compete for franchises in the constitution, amending Section 201 of the constitution.
Voice-Speech copyright practice act.
Hutchcraft substitute for the Green anti-screen bill.
All of these measures have been approved by Governor Stanley.
To authorize co-operative assessment insurance companies to organize on stock or mutual plan.
To permit fiscal courts to appoint commissioners to handle road bond issue.
To provide for appointment of notaries at any time by Governor without confirmation by Senate.

To provide for four clerks and five stenographers in the Department of Education.
To provide for submission of question to substitute County Commissioners for Plenary Court any general election.
To permit fifth-class cities to sell water front to United States Government.
Knight-Duff, woman's compensation act.
To pay one-half claims for cattle killed on account of the foot and mouth disease.
To make Ashland third-class city.
To recede common school laws.
To provide for working convicts on highways and quarries and in farms.
To change name of Kentucky Institution for the Education of the Blind to Kentucky State School for Blind and provide \$20,000 appropriation.
Senator Zimmerman's bill to regulate lobbying.
To prohibit fishing except with time.
To fix non-resident hunting license at \$7.50 and regulate issuing of licenses and penalties for illegal hunting.
Senator Glenn's anti-trust bill.
To provide for paroles in discretion of Prison Board of prisoners after serving half their sentence, or after eight years in cases of life imprisonment.
To authorize jury to fix punishment in criminal cases and to allow ten days each month commutation of sentence for good behavior.
To prohibit interfering with convicts working outside prison walls.
To permit non-resident children to apply to state performances.
To aid second-class City School Board to acquire real estate.
To protect birds and game animals.
To regulate trapping of fur-bearing animals.
To place common carrier under jurisdiction of Railroad Commission.
To empower Prison Commissioners to convey land to Government for the purpose of building locks and dams.
Reorganization of the militia laws.
To require suits for malpractice to be filed within one year.
To permit Governor to appoint aid, clerk or stenographer in his office.
To permit graded school districts to levy 25-cent tax and poll tax.
To make no payment for Governor payable January 1.
To regulate corporations and prohibit competing railroad lines from consolidating.
Pure food bill.
To revise fire insurance legislation.
To provide for agricultural extension work under Smith-Lever act.
To provide separate houses for girls at the House of Reform.
To provide for employment of prison officers and guards for terms of four years, beginning September 1.
To authorize payment of bonded indebtedness of Western State Normal School.
To appropriate \$15,000 for the Eastern State Hospital.
To prohibit buying and selling patients by physicians.
To permit Fiscal Courts to anticipate revenues and borrow money for less than 10 per cent.
To amend Section 3727a, Kentucky Statutes, creating Examining Board for nurses.
To permit incorporation of real estate companies.
To regulate publication of reports of the Department of Agriculture.
To provide for interest-bearing state warrants with specified date of maturity.
To require mortgages to be filed before becoming valid against creditor without notice.
To regulate times of holding Circuit Court in the Twentieth District.
To provide for commitment to city workhouse of prisoners convicted of petit larceny in Police Court.
To amend statutes relating to striking fund of second-class cities.
To provide police protection for Stage Franchises.
To provide for poll tax in third-class cities.
To repeal charter of Fairview.
To permit taxpayers to pay their portion of special levy to fifteen years of age and be exempted for liability.
To require registration in all precincts of Jefferson County.
To permit adjacent counties to maintain joint high schools.
To permit graded school districts with endowment to issue \$30,000 bonds to maintain high schools.
To give infants whose land has been sold for taxes in Louisville one year after becoming delinquent to redeem.
To provide bookkeeping in State Library.
To provide stenographer for Jefferson County Attorney.
To permit use of highways by co-ops producing electricity.
To authorize water power electric companies to exercise right of eminent domain.
To place 25 per cent penalty on omitted delinquent property or holders of state's funds into back tax reserve fund.
To create county commission in Jefferson County.
To repeal charter of Flat Gap.
To aid second-class city School Boards to purchase real estate.
To appropriate \$5,000 for two years to the Hite Huffaker Commission.
To regulate terms of Circuit Court in the Thirteenth District.
Pure seed bill.
To require co-operative or assessment life and casualty companies to have \$100,000 guaranty fund before doing business.
To regulate fraternal benefit societies.
To appropriate \$1,500 monthly for Confederate Home at Pewee Valley instead of \$175 annual per capita.
To prohibit fraudulent advertisements.
To permit appeals from Circuit Court in annexation proceedings by fourth-class towns.
To regulate assessment and co-operative fire insurance companies.
To make second violation of local option law a felony.
To regulate time of holding Circuit Court in Fifth District.
To authorize examiners appointed by Superintendent of county where school is located to grant county teachers' certificates to normal school pupils.
To regulate toll bridges erected across state boundary navigable streams.
To regulate petition sale of vested real estate where one party is of unsound mind.
To provide for three state depositories.
To authorize co-operative assessment insurance companies to organize on stock or mutual plan.
To exempt one dog to head of family.
To appoint guardian of infants or committee of idiot or lunatic to lease mining rights.
To provide for School Board of new members in fourth-class cities.
To regulate control of streets in fourth-class cities.
To regulate grading and packing of apples.
To provide for appointment of Director of Attendance by School Board in Louisville.
To provide for collection of delinquent taxes in fourth-class cities.
To provide for progressive tax on inheritance.
To license itinerant merchants.
To authorize Regents of normal schools to issue certificates as teachers to pupils under condition of act.
To designate February 12 as legal holiday in commemoration of Lincoln's Birthday.
To authorize municipal water and light plants to supply products to other cities.
To make initial carrier liable to holder of bill of lading for cargo.
To amend civil code to enforcement of liens.
To require corporations organized prior to present constitution upon amending their articles in any way to pay original taxes.
To require graded districts to maintain high schools or pay tuition and to provide for abolishing graded districts.
To authorize J. W. Ray 16 sue state for fee in law suit.
To appropriate \$5,250 for Kentucky Normal and Industrial Institute.
To prohibit declaring of bank dividends until surplus equals 10 per cent.
To regulate veterinarians.
To license roving horse traders.
To authorize second-class city School Board to create insurance fund.
To require road contracts to be let to lowest and best bidder.
To correct law Hart County State's latest in Rio Bridge Company.
To permit Louisville to get apart 3 cents of levy for support of university.
To repeal act providing for erection of school building in Hawesville.
To regulate time of holding Circuit Court in Twenty-ninth District.
To permit vehicle license in one city to operate in another without paying additional license there.
To regulate fees of County Judges, Magistrates and Police Judges.

UGH! CALOMEL MAKES YOU SICK! CLEAN LIVER AND BOWELS MY WAY

Just Once! Try "Dodson's Liver Tone" When Bilious, Constipated, Headachy—Don't Lose a Day's Work.

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel, because it makes you sick and you may lose a day's work. Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning, because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.

Exceptions.
"Women have no idea of applied science in ordinary life."
"How about chemical blondes?"

Whenever You Need a General Tonic Take Groves'
The Old Standard Groves' Tasteless Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Explained.
The Ancient Mariner shot the albatross.
"I mistook it for a neutral canary," he explained.

FIERY RED PIMPLES.
Soothed and Healed by Cuticura Soap and Ointment. Trial Free.

Smear the affected skin with Cuticura Ointment on end of finger. Let it remain five to ten minutes. Then wash off with plenty of Cuticura Soap and hot water. Dry without irritation. Nothing like Cuticura for all skin troubles from infancy to age. For sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Americans Great Match Users.
"Every man, woman and child in this country uses an average of ten matches each day," remarked J. A. Hunter of New York, representative of a large match company. "It is estimated that the match manufacturers of the United States turn out every day more than 1,700,000,000 matches. Of this output 1,000,000,000 are consumed in this country. Our people have come to be very extravagant in the use of matches. A decade ago a pipe smoker might keep his pipe going by way of the kitchen fire and a pipe lighter; today he wouldn't think of it. The greater use of cigarettes also has increased the consumption of matches, as have gas and gasoline stoves, which are continually turned off and relighted.
"There has been an increased manufacture of patent lighters and a new style of gas stove with patent lighter attached, and these have helped to cut the sale of matches, but only to a small extent."

Easy Victim.
"You seem to be in a melancholy mood this morning."
"Yes, I've been thinking about the thousands of poor fellows being killed in Europe."
"Still, that isn't your fault."
"I know it, but you see, I don't own any war stocks and there is nothing to prevent my yielding to acute depression."

MORE THAN EVER
Increased Capacity for Work Since Leaving Off Coffee.

Many former coffee drinkers who have met with work to perform day after day, have found a better capacity and greater endurance by using Postum instead of coffee. An Illinois woman writes:

"I had drank coffee for about twenty years, and finally had what the doctor called 'coffee heart.' I was nervous and extremely despondent; had little mental or physical strength left; had kidney trouble and constipation.

"The first noticeable benefit which followed the change from coffee to Postum was the improved action of the kidneys and bowels. In two weeks my heart action was greatly improved and my nerves steadier.

"Then I became less despondent, and the desire to be active again showed proof of renewed physical and mental strength.

"I formerly did mental work and had to give it up on account of coffee, but since using Postum I am doing hard mental labor with less fatigue. Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled, 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.
"There's a Reason" for Postum.

DRINK HOT WATER AND RID JOINTS OF RHEUMATIC RUST

Why rheumatism and lumbago sufferers should drink phosphated hot water each morning before breakfast

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material which if not completely eliminated each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste material, toxins and ptomaine-like poisons, called uric acid, is formed and then sucked into the blood where it continues to circulate, collecting grain by grain in the joints of the body much like rust collects on the hinge as shown above.

Men and women who suffer from lumbago, rheumatism or sore, stiff, aching joints should begin drinking phosphated hot water, not as a means to magic relief from pain, but to prevent more uric acid forming in the system. Before eating breakfast each morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This will first neutralize and then wash out of the stomach.

Unpleasant Outlook.

First Tommy (in the trenches)—"Wot'er lookin' so blue ababt, Bill?" Second Tommy—Jest got a letter from the missus, ter say 'er sister is puttin' up wiv 'er and 'as got 'er measles. It ain't best to go, it ain't wis, me goin' 'ome on leave tomorrow, and a dangerous trouble like that in the 'ouse.—London Opinion.

STOP THAT HACKING COUGH. Mansfield (formerly Hungarian) Cough Balsam heals the inflamed and lacerated membranes and quiets the tickling nerves that lie underneath the infected portions. Invaluable for babies. Price 25c and 50c.—Adv.

Men can't understand why women worry over trifles and women can't understand why men do not.

To Build Up After Grippe, Colds, Bad Blood

Take a blood cleanser and alternative that starts the liver and stomach into vigorous action, called Dr. Pierce's Golden Medical Discovery because of one of its principal ingredients—the Golden Seal plant. It assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. "The organs work smoothly like machinery running in oil. You feel clean, strong and vigorous. Buy 'Medical Discovery' to-day and in a few days you will know that the bad blood is passing out, and new, rich, pure blood is filling your veins and arteries.

The Soldier's Estimate.

A member of the first Canadian contingent, writing home, says: "I guess the first seven years of this war are going to be the worst."—Canadian American.

Throw Off Colds and Prevent Grip. When you feel that LAXATIVE BROMO QUININE. It removes cause of Colds and Grippe. BROMO QUININE. B. W. GLOVE'S signature on box. Etc.

Women never criticize the grammar of men who pay them compliments.

A mule has one admirable trait; he refuses to stand for flattery.

Bolivar Women Endorse "Outside" Treatment For Children's Colds

Instead of Dosing Delicate Little Stomachs They Recommend the External Treatment—Vap-O-Rub.

Mrs. M. J. Porter, and Mrs. J. Jacques, of Bolivar, Mo., and Mrs. M. B. Ferrel, on Rural Route No. 2, like all intelligent mothers, believe internal medicines are bad for children, and yet cold troubles must have some kind of treatment. When Vick's Vap-O-Rub was introduced here from the South last season these ladies found it filled the need exactly. Vap-O-Rub is a salve, which, when applied to the warmth of the body, is vaporized by the body heat. These vapors, inhaled with each breath, carry the medication through the air passages to the lungs, and, in addition, Vick's is absorbed through the skin, relieving the tightness and soreness. This two fold action makes Vap-O-Rub useful for a wide variety of inflammations—from inflammations of the air passages and lungs, such as head colds, catarrh, asthmatic troubles, bronchitis and deep chest colds—down to inflammations of the skin and tissues, such as

ach, liver, kidneys and bowels the previous day's accumulation of toxins and poisons; thus, cleansing, sweetening, and freshening the entire alimentary canal, such morning before putting more food into the stomach. A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to make any rheumatic or lumbago sufferer an enthusiast on the morning inside bath. Millions of people keep their joints free from these rheumatic acids by practicing this daily internal sanitation. A glass of hot water with a teaspoonful of limestone phosphate, drank before breakfast, is wonderfully invigorating; besides, it is an excellent health measure because it cleanses the alimentary organs of all the waste, gases and sour fermentations, making one look and feel clean, sweet and fresh all day.

Those who try this for one week may find themselves free from sick headaches, constipation, bilious attacks, sallowness, nasty breath and stomach acidity.

A Question.

"This is the 29th of February, isn't it?" "It is." "There's one thing I can't figure out." "What is it?" "Where was I this day a year ago, and what was I doing?"

DEATH LURKS IN A WEAK HEART. so on first symptoms use "Renovine" and be cured. Delay and pay the awful penalty. "Renovine" is the heart's remedy. Price \$1.00 and 50c.—Adv.

A man's intellect doesn't seem to have anything in common with his happiness.

Man is a mister; woman is a mystery.

BACKACHE, LUMBAGO

Uric acid causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on uric acid within the body.

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's Anuric Tablets, full treatment 50c. or send 10 cents for a trial package of "Anuric" Tablets to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

How to Talk to the Wounded.

"What the boches can't stand, you know, ma'am, is cold steel." "Yes, I suppose it gets very cold this time of the year."—London Punch.

Use Murine after Exposure to Cold, Cutting Winds and Dust. It Refreshes and Promotes Eye Health. Good for all Eyes that Need Care. Murine Eye Remedy. Chicago. Sends Eye Book on request.

However, many of us are for any brand of reform that's fashionable.

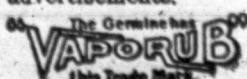

Potters are not the only people who make family jars.

burns, bruises, stings, piles and muscular soreness.

Mrs. Porter says—"Vap-O-Rub is very fine for sore throat, rheumatism, etc. I take pleasure in recommending it." Mrs. Jacques says—"I have used several bottles of Vick's Vap-O-Rub, and have found it better than internal medicines."

Mrs. Ferrel writes—"We have given Vap-O-Rub a fair trial and find it excellent for croup, colds, sore throat, etc. It is certainly fine for children. We have also found it very good in cases of sunburn, fever sores and muscular rheumatism." Three sizes, 25c, 50c or \$1.00.

NOTICE:—Last winter, in order to acquaint their customers with Vap-O-Rub, a number of druggists throughout the state presented complimentary cards to a few of their customers, on condition that they give this preparation a thorough trial and report the results. By kind permission these reports are now being used in our series of advertisements.

WELL-LIKED DAINTIES

CONFECTIONS THAT ARE LIGHT AND TOOTHsome.

Excellent for the Breakfast or Lunch on Table—Sweet French Buns. One of the Best—Good Recipe for Dinner Rolls.

Sweet French Buns.—One cake yeast, one cupful milk, scalded and cooled, one-quarter cupful lukewarm water, one tablespoonful sugar, four cupfuls sifted flour, one-quarter cupful sugar, three tablespoonfuls butter, one egg, one-half teaspoonful lemon extract, one teaspoonful salt.

Dissolve yeast and one tablespoonful sugar in the lukewarm liquid. Add enough flour to make an ordinary sponge—about one and one-half cupfuls. Beat until perfectly smooth. Cover and set aside in a warm place to rise for fifty minutes, or until light. Add sugar and butter creamed, egg beaten, lemon extract and about two and one-half cupfuls of flour, or enough to make a moderately soft dough, and the salt with the last of the flour. Knead until smooth and elastic. Place in greased bowl, cover and set aside in a warm place to rise until double in bulk—about one hour. Turn out on board and shape as clover-leaf rolls, or any fancy twist. Let rise until light, about one hour. Bake in hot oven fifteen minutes.

Oatmeal Muffins.—One cake yeast, one-quarter cupful lukewarm water, three tablespoonfuls sugar, two tablespoonfuls butter, one cupful hot milk, one cupful rolled oats, one-half cupful whole wheat flour, one-half cupful sifted white flour, one teaspoonful salt.

Roll oats and butter in milk one minute. Let stand until lukewarm. Dissolve yeast and sugar in lukewarm water, and combine the two mixtures. Add flour and salt, and beat well. The batter should be thick enough to drop heavily from the spoon. Cover and let rise until light, about one hour, in a moderately warm place. Fill well-greased muffin pans two-thirds full. Let rise about forty minutes, bake twenty-five minutes in a moderately hot oven.

Dinner Rolls.—One cake yeast, one cupful milk, scalded and cooled, one tablespoonful sugar, three cupfuls sifted flour, one egg, one-half cupful whole wheat flour, one-half cupful sifted white flour, one teaspoonful salt.

Dissolve yeast and sugar in lukewarm milk. Add one and one-half cupfuls flour and beat until smooth, then add white of egg, well beaten, lard or butter, remainder of flour, or enough to make a moderately firm dough, and the salt. Knead lightly, using as little flour in kneading as possible. Place in well-greased bowl. Cover and set to rise in a warm place, free from draft, until double in bulk—about two hours. Mold into rolls the size of walnuts. Place in well-greased pans, protect from draft, and let rise one-half hour, or until light. Glaze with white of egg, diluted with water. Bake ten minutes in a hot oven.

English Bath Buns.—Two cakes yeast, one-half cupful milk, scalded and cooled, one tablespoonful sugar, one-half cupful butter, melted, four eggs, four cupfuls sifted flour, one-half teaspoonful salt, five tablespoonfuls sugar, one cupful almonds, chopped.

Dissolve yeast and one tablespoonful sugar in lukewarm milk. Add butter, eggs unbeaten, flour gradually, and the salt, beating thoroughly. This mixture should be thick, but not stiff enough to handle. Cover and let rise in warm place one and one-half hours, or until light. Sprinkle balance of sugar and almonds over top, mix very lightly and drop into well-greased muffin pans. Cover and let rise until light, which should be in about one-half hour. Bake fifteen to twenty minutes in a moderately hot oven. These buns should be rough in appearance.

Raisin Pie.

Add to one quart of boiling water two dessert spoonfuls of cornstarch dissolved in half cupful of cold water, add half cupful sugar (or more if preferred), level teaspoonful of salt, butter size of a walnut, two tablespoonfuls vinegar or juice of one lemon. Add one pound speeded raisins. Let set while you are mixing your crusts. This makes two good-sized pies.

Icing That Will Keep Soft. Add a pinch of baking powder to the whites of the eggs that you are going to use in your white frosting for cakes. Do this before beating them. Then pour the boiling hot sirup over the beaten whites in the usual way, and your icing will not get hard.

Almond Cookies. Yolks of six eggs, one and one-half cupfuls of sugar, three-quarters of a cupful of butter, one cupful of almonds chopped; one tablespoonful of cinnamon, three cupfuls of flour. Beat well, drop small spoonfuls on a well-greased pan and bake lightly.

Sauce for Cutlets and Croquettes. Two and a half tablespoonfuls of butter, one-fourth cupful cornstarch or one-half cupful of flour, one cupful milk, one-fourth teaspoonful salt, few grains of pepper.

Foamy Pudding Sauce. Have one cupful of milk boiling, beat two eggs and one cupful sugar until light, stir into boiling milk and set in steam of teakettle 15 or 20 minutes.

WITH THE PRESIDENT

Small Doubt That the Country Will Uphold Him.

Minnesota Politician Gives Convincing Reasons Why Democratic Victory in the Coming Election is a Practical Certainty.

Fred B. Lynch of St. Paul, Democratic national committeeman for Minnesota, whose name has been frequently mentioned as probable chairman of the national committee, denied in an interview at Washington that he had announced he would not serve in that position. A report from the West was to the effect that neither Chairman McCombs nor Mr. Lynch would direct the campaign of the president in the event of Wilson's nomination at St. Louis.

"The selection of a chairman of the national committee is a matter to be decided, in my opinion, after the Republican convention is held," said Mr. Lynch. "The action of the Republicans should and probably will influence the choice of a chairman of the Democratic committee. If Roosevelt should be nominated, for instance, it might be wise to name one man to direct the campaign against him, while if Root were the choice of the Republicans or Burton or Weeks another Democrat would likely be better fitted to act as chairman of the Democratic committee."

I have no idea what may happen, but I have never said I would not accept the chairmanship if offered me. "The Democrat who goes into the campaign with the idea that the party is going to win without a struggle is a very foolish Democrat," continued Mr. Lynch. "It's going to be a very hard-fought campaign. The president has opposition in some sections undoubtedly. I have not talked with him since early in January, but I have no doubt that he has never entertained the thought of not meeting the call of his party. He will be nominated without opposition, but I realize that it is going to be a stubbornly fought contest from the time the candidates are named until the election."

"The dominant issue? The big issue of the campaign will be the president himself. And it is for this reason that I believe Colonel Roosevelt will be named by the Republican party, though the cards just now appear to be stacked against him. He is the only man among the Republicans who has come out squarely and declared that he has been president he would have pursued a different policy from what the president has pursued. He is openly anti-Wilson."

"I am confident we shall win, for while there may be opposition to the president, while he may not be so popular as he was in the fall of 1914, he is still strong with the people. The great moral force of the nation is with the president."

Too Clearly Partisan.

The speech of Elihu Root is accepted by Republican papers and leaders as the "keynote" of the campaign by which the G. O. P. will seek to regain control of the country. It is worthy, perhaps, of such an honor, being marked by all the adroitness of argument and all the eloquence of language for which Mr. Root is famous; it states the Republican case better than anyone else could hope to state it; and yet, it fails to satisfy the candid reader.

It fails to satisfy, because it is an address of partisanship rather than of patriotism; because Mr. Root clearly is thinking more of party advantage than of national security; because the ablest and in some respects the most high-minded leader the Republicans possess cannot refrain from trying to get help for the ancient tariff graft out of the present world-wide calamity.

How About It?

Some of the largest textile mills of New England have sold their entire product almost a year in advance, and at high prices.

Are these, perchance, the mills whose owners are howling themselves hoarse about the "danger" to American industries, after the war ends, and demanding the election of a Republican congress to re-enact the good old Aldrich tariff?

Two Views of the Situation.

Before the outbreak of the European war the disastrous effects of this (Democratic) tariff were already felt throughout the land.—New York Republican Platform.

And before the outbreak of the European war, or in 1907-8, the far more disastrous effects of the Republican tariff were already felt throughout the land.

The President is President.

President Wilson is evidently committed to the theory that there is room for only one president at a time in Washington.—Chicago Herald.

Record Prices for Wool.

It is worth noting that under the Democratic policy of free wool and a moderate tariff on woolen goods the American Woolen company has for the first time began to pay dividends on its common stock, which probably represents little underlying value. Such an outcome does not jibe with the prophecies of Senator Penrose and other opposites to the free wool policy. The economic fact just the same. Wool is now higher than it has been since the Civil war.

Hair Turns White in a Night.

That hair ever turns white in a single night has been emphatically denied by some doctors, in spite of historic instances—such as that of Marie Antoinette—to the contrary. But Doctor Lebar called the attention of the Societe Medicale des Hopitaux of Paris to an actual case. It was that of a young French soldier who was blown into the air by a mine and buried in the earth, from which he extricated himself with difficulty.

The man was deafened by the detonation, his face was burned, and there were several bruises on his head. He was taken to a neighboring hospital, where the following day he noticed four islets of white hair on the fronto-parieto-occipital region of his head. The loss of color was complete from the roots to the ends of the hairs, and the white hairs were as firmly in his scalp as their brown neighbors.

There are more than 7,000 men in Paris who are blind as a result of injuries sustained in the war.

A woman doesn't realize her strength until she discovers a man's weakness.

GUARD YOUR FAMILY

PERUNA protects the family against coughs, colds, catarrh, bronchitis, catarrh of the stomach, liver and kidneys. It is just as sure to relieve a case of catarrh of the bowels as it is a case of catarrh of the head.

Anyone suffering from catarrh, severe or mild, acute or chronic, in any organ or part of the human body, should at once get a bottle of PERUNA.

As soon as the value of PERUNA is fully appreciated in every household, both as a preventive and a relief from catarrhal affections, tens of thousands of lives will be saved and hundreds of thousands of chronic lingering cases will be prevented. PERUNA, indeed, is a household safeguard.

A course of PERUNA never fails to bring relief in such cases, since there is no remedy like it, as thousands of people have testified.

Peruna Tablets are now available in convenient tins. Easy to take.

Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. FRANK KNOBL, 1642 Fulton St., Harrisburg, Penn.

Hardly Able to Move.

Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like them."—Mrs. F. E. Yost, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—"Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day."—Mrs. CLEMENTINA DUKERINO, 34 Gardner St., Troy Hill, Pittsburg, Penn.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

Synthetic Eggs.

An Austrian scientist of Graz is said to have been making synthetic eggs. He has been able to extract the albumen contained in the blood of bullocks, sheep, pigs and other animals slaughtered for human consumption, and to present it in such a form that it has no trace of its origin, either in taste or smell. As prepared by his system, it is a coarse, yellow powder to which he has given the name of haematolab. His process has already been applied in a number of German and Austrian abattoirs, and haematolab is in use in many hospitals of the central empires as a substitute for eggs. It dissolves in water, and can also be used in the preparation of pastry and other dishes.

STOP THOSE SHARP SHOOTING PAINS "Feminalin" is the wonder worker for all female disorders. Price \$1.00 and 50c. Adv.

Even the man who is tired of this world is seldom in a hurry to move on to the next.

Don't blame a girl for assuming a striking attitude when she's trying to make a hit.

PARKER'S HAIR BALM

In fact, we can see no reason for with-holding quotations in this line anymore than on a suit of furniture. -Note the following prices:

We Will Sell Until Further Notice at the Following Prices:

No. 1 Coffin, our price \$10.00, usually sold at \$15.00.

No. 2 Coffin, our price \$12.00, usually sold at \$20.00.

No. 3 Coffin, our price \$15.00, usually sold at \$25.00.

No. 4 Coffin, our price \$20.00 usually sold at \$35.00.

No. 5 Coffin, our price \$25.00, usually sold at \$40.00.

No. 6 Coffin, our price \$30.00, usually sold at \$50.00.

No. 7 Coffin, our price \$35.00, usually sold at \$60.00.

No. 8 Coffin, our price \$40.00, usually sold at \$65.00.

No. 9 Coffin; our price \$50.00, usually sold at \$75.00.

Metalic Caskets, our price \$150.00, usually sold at \$200.00.

BURIAL VAULTS AS LOW AS \$30.00

Don't Forget That We Have First Class Embalming Done.

Now if you wanted a casket that is usually sold for \$50, why not come here and buy it for \$30 or \$35, or one usually sold for \$75 get it here for \$50, and so on.

If you were going to buy a fine piece of furniture for one of your family would you go to just one place and get what they might have on hand or would you get the best in town for the money?

RURAL SCHOOL CHILDREN SCIENTIFIC FARMERS

IN the Cook County, Illinois, schools they learn arithmetic, marketing, household chemistry, dairying and other important studies by working out practical problems in everyday life. Opportunity for our children.

Robert H. Moulton
COPYRIGHT BY WESTERN NEWSPAPER UNION

WHEN little Johnnie Jones of Niles Center, Cook county, Ill., reaches the little red schoolhouse these fine mornings he does not place a big red apple on the desk of dear teacher. Instead, Johnnie takes a couple of fresh eggs from each pocket of his coat.

Behind a table at the front of the schoolroom the secretary of the boys' egg club is waiting. On each egg, as it is brought in, is written the number of its owner and the date it was laid. And during each school day the eggs are packed and sent by parcel post to one of the club's customers in Chicago.

The arithmetic lesson in several of the Cook county rural schools now consists in keeping books on the receipts and sales of fresh eggs by members of the egg clubs. Once a week, instead of the old-fashioned review of lessons, in which the pupils had not the slightest interest, the weekly remittance for egg shipments is received and divided by the boys among themselves in proportion to the number of eggs each has contributed. To them the study of arithmetic has become a very real, important and interesting matter. All through the 150 rural schools of Cook county the same new spirit of life has been put into the dry bones of study.

Boys and girls are studying botany, for instance, by testing the seed corn which their fathers are planning to plant next spring; that brings in again the study of percentage. And when father is shown that, on the average, only 43 per cent of his proposed seed corn will actually germinate, he is likely to get a new idea of and a new interest in the country school.

There are few things of which Chicago has a greater right to be proud than that the rural schools of the county in which it is located are probably the most advanced and progressive country schools in the United States. The division of these schools into five districts, with a trained teacher, who is also a graduate of an agricultural college, at the head of each as director of rural life and of schools, has proved a tremendous step in advance.

County Superintendent of Schools Tobin, who persuaded the county board to make an appropriation of \$10,000 to cover the salaries of the five rural life directors for the year, has just received the reports of these directors covering the work done during the fall and early winter months. To read them is to wish that one might be again a country-school boy going down the farm road every morning to the little red schoolhouse.

Almost every schoolhouse has been a social center for the rural community of which it is the center. Gas and wood ranges have been put in many schools and the girl pupils prepare hot lunches every day for all the pupils. They demonstrate their skill in household chemistry, also, by preparing and serving on special occasions dinners at which their parents are the guests of honor.

Day after day the boys and girls bring samples of milk to school and test them with a milk tester for richness in butterfat. After a series of such tests they are able to help their fathers decide which cows are worth keeping and which are only unprofitable "boarders."

In many neighborhoods the parents of the pupils have been organized into agricultural clubs and have begun to take an active and eager interest in all the work of the school. On the long winter evenings the parents and pupils have frequently met in one of the schoolhouses to take part in and watch an old-fashioned spelling bee, based on lists of 500 common words sent out at the beginning of the year by the county superintendent.

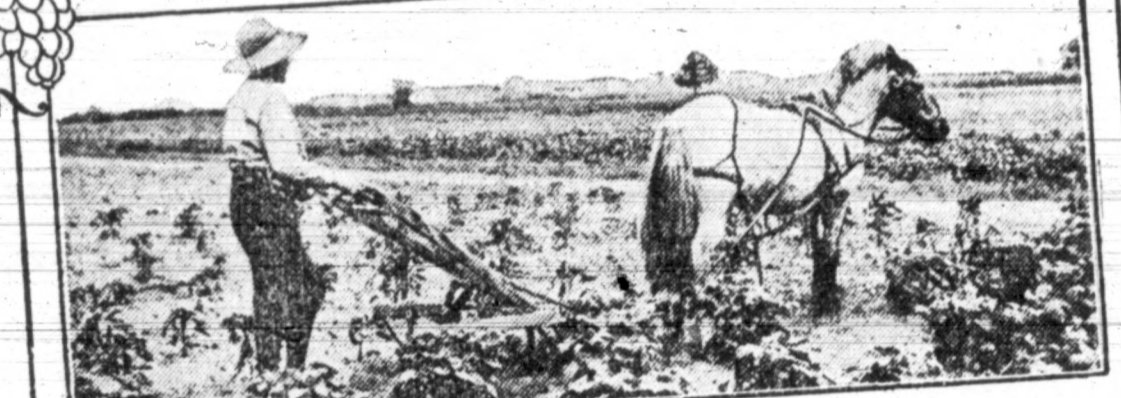

Especially interesting and important is the plan to keep the schools—or at least the school activities—in evidence all through the summer months. With that end in view, a large number of garden clubs were organized a year ago, on a basis which would keep the children interested, enable them to apply their newly acquired knowledge, and put a more or less definite financial reward on them to try for.

Each member of one of the country school garden clubs rented from his parents last spring, at the regular rate prevailing in the neighborhood, a small piece of land for cultivation of which he was to be entirely responsible. All the money resulting from the sale of garden products grown on that piece of land was to belong to him.

By way of adding additional zest to the competition among the schools and among the individual pupils, a series of prizes were awarded re-

WALTER WARHENTHEIN CLEARED \$100 ON TOMATOES

ALPHER GROSS RAISED BEANS, RADISHES AND ONIONS EARNING \$97

MAHEL BAITMAN SPECIALIZED IN ASTERS AND RECEIVED \$62.50

pupil also kept an exact account of his expenses, including rent for the land occupied, and, after selling his product, figured his gross receipts and net profits.

The twenty-nine pupils of this school, whose ages range between ten and fourteen years, earned between them a net profit of \$1,185.25, with total expenses of \$191. The largest amounts earned by individuals were \$105.10 and \$102.16, and it is noteworthy that in each case the successful pupil was a girl.

Little Alma Kutz, thirteen years of age, the first prize winner, made her money from the sale of tomatoes and asters grown on one-eighth of an acre. All the work of planting and harvesting the crops she did herself, with the exception of the first plowing of the land early in the spring. She prepared hotbeds for her tomato plants, and made a covering of window glass for them. Next she bought 200 small flowerpots, and when the tomato plants were well up transplanted them into the pots.

While the plants were growing she marked off the plot into rows thirty inches apart, and a short time later transplanted the tomato plants from the pots to the plot. The next few weeks she was busy cultivating the plants, keeping the rows entirely free of weeds. When the plants had spread out so much that she could not hoe them any more she went between the rows and pulled out the weeds with her hands.

About the twentieth of June there were many nice ripe tomatoes on the vines and she gathered her first box, which she sold for \$1. As fast as the tomatoes ripened she picked them and packed them carefully into crates, and every day her father carried them in to the Chicago market along with products from his own truck garden. In all she gathered 225 boxes of tomatoes, which brought her \$113.

On a part of her plot she planted asters late in the season and from the sale of these she realized \$9, finding a ready market for all she could offer to the florist shops of Chicago. The flowers were shipped in fresh by parcel post each evening. Her total expenses were \$16.90 for the two crops, thus leaving her a net profit of \$105.10. This money she has loaned to her father at 6 per cent interest, and she expects next season to double the amount of her land and her income.

American Patience Tried

The friendship of the United States is one of the greatest assets of the British, according to Sir Gilbert Parker, who in the course of a recent interview had much praise for the American government and the policy it has adopted in the present war. He said in part:

"There has never been a war in modern times when a neutral nation did not challenge a belligerent nation because of its interference with neutral rights. The United States has certainly been greatly tried by our orders in council. There has been, indeed, a series of difficulties. In this business of neutral rights the American people have been called the pedants. There may be pedants among them, but beneath all is a deep-seated respect for international law, for the keeping of treaties, for a perfect observance of the rules of civilization.

"From the beginning I have thought that the United States took a course almost inevitable in her position. Here is a conglomerate population. The war was a European business. What did we do in 1870 when France, our then friend, was set upon by Germany? The American people loathe war; so far they have stood out; only an overpowering sense of duty would drive them into war.

"We have sensationalized our own shortcomings; we have overemphasized our own stolidity; we have had our family quarrels in public; we have, to paraphrase a mordant enigma, wheeled our council table into the street apparently indifferent to the fact that neutral nations like the United

States were being influenced against us by evidence provided by ourselves.

"They are not averse to their government bringing pressure to bear upon Great Britain in regard to the blockade and all the questions involved in it; but war against Great Britain has never been in their minds, while at the same time there were circumstances which might very easily have drawn them into war with Germany after the sinking of the Lusitania. They have not forgotten Manila and what the British fleet did there, in aid of Admiral Dewey, to defeat German purposes against the United States.

"I think the governments of both countries have preserved the very highest traditions of diplomacy. Never has diplomatic correspondence been maintained on a higher level, and never the firm thing said with greater good feeling on both sides.

"We have tried our friends in the United States greatly; we have tested their confidence in us to the full.

"We shall do well to remember that the people of the United States must, sooner or later, be a vast controlling factor in the destinies of modern nations. There is the population; there is the wealth; there is the character. The Civil war showed what that character is; when an occasion arises the test will only be itself, the supreme advantage of the world. It will be well for us, while preserving principle, to remember that friendship with the United States is one of the greatest assets in this time of our trouble and poignant endeavor."

SIM'S HOARD

By HAROLD CARTER.

Sim Lane was the meanest man in Colville. Though he came of a decent old family, and had, in fact, had the chance of going to college in his youth, his father's impoverishment seemed to have turned the wine of life into vinegar for him. He settled down on what was left of the farm, and eked out a miserable existence together with his slatternly wife and the daughter who always looked half starved.

It was a shame, everybody agreed. His miserliness had grown on him with age. The cottage was cold as an icehouse in winter because he burned fagots, picked up in the woods, instead of coal. Mrs. Lane looked more and more disreputable, and the daughter more hungry. He was unpopular in the village, and the boys used to shout taunts after the skulking figure.

A new barn had to be built, and, after much haggling, Lane skipped down the contractor to the lowest figure for shoddy work. Then, to save money, he set to and started on the foundations himself. It was while he was digging them—dynamite being an expense to which he would not cater—that his pick struck something harder than earth and more resonant than stone.

Presently Sim unearthed a metal box, rusted with age. With trembling fingers he managed to get it open. In-

With Trembling Fingers He Managed to Get It Open.

side was a linen bag, and in the bag he found eight thousand dollars in Revolutionary era gold.

Nobody saw Sim make the discovery except two village boys who were watching him furtively through a crack in the fence. The story, spread through the village, recounted that, after the find, Sim sat down and ran his fingers through the gold for half an hour and more.

Everybody soon had news of the treasure. For a week nobody saw Sim Lane or his wife or girl, except that the druggist fancied he had seen the women hurry with averted faces through the streets toward the depot one evening. However, a week later there was a sensation in Colville.

Mary Lane, looking ten years younger, and Amanda, the girl, walked quietly up the street toward the church one Sunday. They were dressed in decent clothes, there was a gold bracelet on Amanda's wrist, and they were altogether transformed. Youths who had never favored Amanda Lane with a second look stared after her. She was positively beautiful.

A great sensation followed the next day, when the local builder called to excavate for the barn and talked of renovating the farmhouse. The coal dealer followed, and then a furniture man from the city. And on the Sunday following Sim Lane went to church with the women, in white linen and a new broadcloth suit. And soon there were callers at the cottage.

Mrs. Lane opened her mouth not unreluctantly to her friends.

"Now you'll see that you misjudged Sim," she said. "You see, the thought that Amanda would have to grow up without any chances just drove him wild. And you can't blame him if he got a mania for scrimping money together. It got so that he hoarded every penny in the hopes of some day getting enough to start where his father left off. They called him a miser, but he's the best man in the world."

Amanda's smiles were eloquent testimony too. The young man who was calling on her for the first time was obviously infatuated.

"Then, you know, he discovered this colonial money. Eight thousand dollars, which his great-grandfather must have buried at the time when the British were here, and if it doesn't rightly belong to us I don't know who can claim it."

"Sim was like a man in a daze when he brought the money into the house that night. He couldn't believe it. There we sat counting and counting it over, and eight thousand dollars it was, all in big, new, twenty-dollar discs. There were four hundred of

them, with King George's head stamped on one side, and St. George and the dragon on the other.

"Presently Sim said to me, 'I've got four thousand more, and I guess our scrimping days are over, wife.' Well, at first I didn't understand. But then he told me. And as the four thousand is going to be spent—yes, spent. Ma'am, and the eight thousand Sim has got laid away where no bank's going to get hold of it and then burst up on him. Amanda's going to enter college next term, and—I guess the neighbors won't think so hardly of Sim in future, when they see that it was all on account of his wife and child."

There was no doubt as to the magnitude of the change that came over Sim Lane. The whole nature of the man had changed. By the time his daughter came back from college the village had forgotten his miserly reputation. Secure in the knowledge of the eight thousand gold dollars hidden in the mattress, he spent freely. With this change, too, his farming began to prosper. Ten years afterward, when Amanda was happily married to the young man who had called, and the mother of children, Sim Lane was elected mayor.

Of the two boys who had watched him through the fence, one was a thriving lawyer, the other who attended Sim in his last illness. Mrs. Lane had died the year before, which made the lawyer's ordeal less hard. A few weeks after the funeral he had a private interview with Amanda, who first looked indignant, and then laughed. She could afford to laugh, for her husband was the richest young man in Colville.

If Sim Lane, on his deathbed, had known what the watchers knew, he might have smiled ironically at the life he was leaving, wherein shams pass for truth, and delusion for reality. All the eight thousand, and fifteen thousand more, he left—his daughter. The mourners followed the body to the grave, and then the truth came out.

"Jim and I," said the lawyer, "had often debated about the old man, as boys will; but it was Jim who conceived the idea. You see, Jim had always had a hankering for theater folks, and when the P. Smett troupe went broke and started to walk back to the metropolis along the ties, they had to sell the property for what it would fetch."

Nobody was willing to give more than a few dollars for the scenery, and then only a long speculation. But some of the stuff brought in enough to pay the ladies' fare halfway. And there were odds and ends left over that nobody wanted to touch. They were all afraid of the property money. It looked too real—lead stamped and gilded. Country folks have vague fears of the law.

"That's how Jim got that bag of fake gold, and he said to me what a joke it would be to bury it in the old man Lane's barn, and watch his face when he found it. We didn't know that we were bestowing God's providence upon his wife and daughter. Changed the whole nature of the man and sent him happy to his grave. Yes, sir, life is a queer problem, but the moral I got out of it is, 'let the morrow take care of itself.' At least, Sim's fears and terrors might have been with him to the grave, instead of being dropped when he sewed up eight thousand dollars of fake money inside the mattress."

PROPER DIET FOR INVALID

Food That Will Be Agreeable to Sick Room Should Be Subject of Much Consideration.

The following mixture will prove of great value as a tonic, toning up and feeding the nerves and preventing sleeplessness. Take several beetroots, cut up and boil until very tender. Remove from the water and boil the liquid down until it becomes a syrup. Take this in doses ranging from a small wine glassful to half a pint, two or three times a day before meals.

The beet is full of valuable substances that make it one of the most effectual tonics that can be taken. The good effects on the nerves and general health quickly become apparent. Rest and careful dieting, with plenty of milk, are also advisable in order to secure permanent relief.

Very often good boiled custard can be served with advantage with fruit to invalids. The fruit adds attractiveness to the custard and so tempts the appetite. A few prunes, neatly cut in pieces, can be covered with custard and dates can be used in the same way. Orange pulp, cut in dice can also be added to it, or a spoonful of apple snow can be placed on top of a dish of custard.

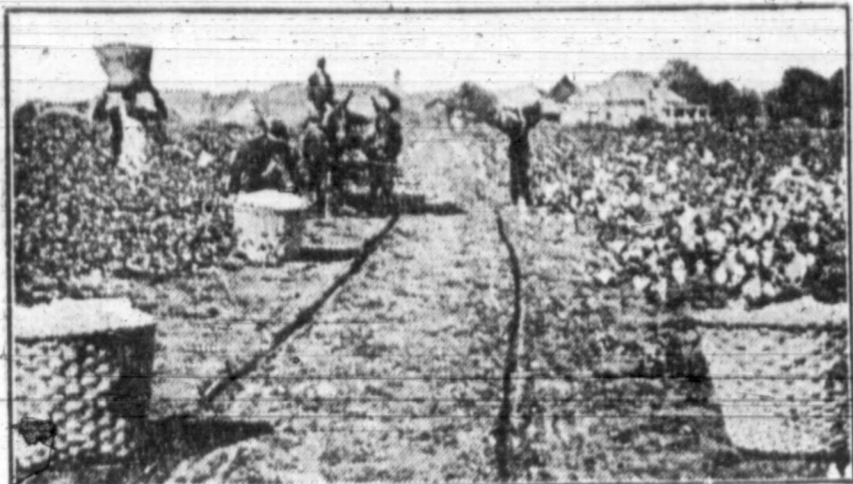

Spinach on toast is also nice to serve. Cook some well-washed spinach for 20 minutes in boiling salted water, drain and rub through a sieve. Have ready a piece of buttered thin toast, which has been quickly dipped in boiling water. Moisten the spinach with a little melted butter, season with salt and pepper, and pile neatly on the toast.

Sharp Rebuke.

A woman lawyer in San Francisco made an argument in court that enraged her opponent. When he came to reply he lost his temper. "A woman," said he, "ought to be in better business than wrangling in court with men. She had better be at home raising babies."

"A woman," she rejoined, "had better be in any business than raising babies; to become such men as this creature."—Case and Comment.

COTTON BOLL WEEVIL ADVANCES RAPIDLY

Scene in Southern Cotton Field.

(From the United States Department of Agriculture.)

Under normal conditions the boll weevil advances into new territory at the rate of about fifty miles each year, but during a period of only two weeks during the present season there was an advance of about one hundred miles. This movement carried the insect into Georgia for the first time, and 23 counties in that state became infested. Several counties in Florida have been infested for several years, but eight additional ones became infested by the same movement. Twenty additional counties in Alabama were also invaded. All of this spread took place between the 15th and 31st of August.

There were several conditions, according to the entomologists of the department, which contributed to this unusual dispersion. One of them was the drought in Alabama and Mississippi, which caused the plants to cease fruiting and deprived the weevils of the squares upon which they prefer to feed. The more important condition, however, was a series of very high winds which began on August 15 and blew continuously for several days toward the northeast. The weevils were thus carried much farther than they would have gone by natural flight or even by the aid of ordinary winds.

The department has placed all available forces at work to assist the farmers in the territory that has just become infested. Most of the cotton is now open and this will allow an unusually early picking so that the fall

broods of the weevil can be destroyed by uprooting and burying the plants or burning them where necessary. The department strongly urges the burying of the plants wherever this can be done promptly, as the humus thereby placed in the soil is of very great importance. The state agencies are co-operating with the agents of the department, and a very active effort will be made to reduce the number of weevils to the extent that will allow an approximately normal crop to be produced in the infested territory next season.

Another feature of the boll-weevil problem which is attracting considerable attention is the damage that is being done in Texas this season. There is a more or less general impression in the eastern part of the cotton belt that the boll weevil has died out in the state of Texas, but the investigations of the department show that the abundance of the insect in that region depends on climatic conditions. During the present season these conditions have been extremely favorable, with the result that the insect has been as abundant as at any time since it invaded the state. The lesson to be drawn from this fact is that the planters in the eastern part of the cotton belt must make a strenuous fight and should realize that since the boll weevil has not died out either in Texas or Mexico, it is not likely to do so in any other region that may become invaded. They should adjust their systems of farming to boll-weevil conditions without delay.

FINDING BUTTERFAT OF MILK

Directions for Making Correct Test Given by Expert of Oklahoma Agricultural College.

(By CHARLES P. UNWIN, Dairy Department, Oklahoma Agricultural College.)

Testing milk is the process of finding the amount of butterfat it contains. In order to make an accurate test a correct sample must be taken in this manner: The milk should be poured from one vessel to another and the sample quickly taken, for if the sample is not taken at once, more or less cream will rise, and a sample would not be correct.

After getting the sample for testing, the next step would be to measure 17.5 cc with the milk pipette into the milk bottle and then add about the same amount of sulphuric acid, depending on the strength of the acid. The specific gravity of the acid should be 1.82 to 1.83 for the best results. The acid should be added with the acid cylinder, revolving the bottle while adding the acid. Mix acid and milk by rotary motion. Place them in tester so that the machine is balanced. Run the machine for about five minutes. Then add hot water until the fat rises into the neck of the bottle. Then run the tester about two minutes and add enough water so the fat has risen above the zero mark on the neck of the bottle. The bottle may be read by using a pair of dividers to measure the fat column.

PRAYING MANTIS IS BENEFIT

Insect Feeds on Other Soft-Bodied Forms, Consequently Egg Masses Should Be Protected.

While pruning trees, do not allow egg masses of the Praying Mantis to remain on the wood that is pruned out, especially if this wood is burned. The Mantis is a beneficial insect, since it feeds on other soft-bodied forms, consequently the egg masses should be protected. They are small, waxlike bodies about one-quarter of an inch in diameter and one inch in length, and are of a dull straw color. These egg masses should not be confused with the egg masses of the Tent Caterpillar. The eggs of the Tent Caterpillar are deposited in the form of a small hard completely encircling the smaller twigs, while the Mantis eggs are attached to one side of the twigs. The Tent Caterpillar eggs should be destroyed.

Weaving Is Incurable. Weaving is an incurable vice, but may be less practiced if the horse is worked or exercised every day and allowed a monthly box stall. If the horse is stabled in an ordinary stall, he will with two ropes so that he cannot swing his head.

Fertile Hatching Eggs. It does not pay from any standpoint to not obtain eggs during the winter, so it is well to study every method to obtain winter eggs and also fertile eggs when hatching time comes.

MAXIMUM SERVICE OF FENCE

Absolutely Necessary That It Should Be Well-Built, With Corner Posts Placed Solidly.

To get the maximum service out of a fence, it is absolutely necessary that it should be well built, says United States department of agriculture bulletin 321. The corner posts must be placed solidly in the ground in such a manner that they cannot be heaved by frost or drawn loose by the pull of the fence. The fabric should be strung tightly to the end posts, but it ought not to be tightly stapled to the line posts. In such a manner that the wires may move in a horizontal direction to take care of the contraction and expansion due to changes in temperature and to distribute the force of a blow along the fence line, so that the strain will not come entirely on any one or two posts or any one point of the wire. A barbed wire should be placed a short distance above the top of the woven wire to prevent cattle and horses from crowding it down when reaching over or rubbing against the fence.

BIRDS BATTLE BOLL WEEVIL

Mississippi Audubon Society Gives List of Songsters Valuable in Fighting Cotton Pest.

According to the Mississippi Audubon society, the following birds eat the boll weevils and are valuable in the order named: "Cliff swallow, bank swallow, olive-sided flycatcher, barn swallow, night-hawk, least flycatcher, alder flycatcher, orchard oriole, American kingbird, pipit, yellow-breasted chat, phoebe, Carolina wren, killdeer, meadow lark, dickcissel, purple martin, painted bunting, towhee, shrike, field sparrow, savanna sparrow, cardinal, mockingbird, white-throated sparrow, yellow warbler, tufted titmouse, cowbird, red-winged blackbird, brown thrasher, bronzed grackle, lark sparrow, bob white."

Forty-seven weevils have been found in the stomach of one cliff swallow.

Right Breeds.

Many fall with sheep because they do not keep the breeds best adapted to their farms, and do not raise the kind that the market demands and is ready to pay the highest price for.

Overtur Turkey. Avoid overfeeding turkey breeding stock during the winter, so that they are moderately thin by spring. The bill of fare should contain less corn and more oats, wheat and clover.

Important Consideration. Good fall and winter pasturage is an important consideration on every farm where live stock is kept. Too little attention is given to provide it.

Most Prosperous Farming. Live stock, permanent agriculture and prosperity go together. Grain farming and poverty also usually are found in the same community.

GOOD POULTRY ADVICE

Dry Quarters, Suitable Feed and Exercise Are Essential.

All Perches Should Be Built on Same Level—Permanganate of Potash Recommended for Roup and Colds—Mustard Also Good.

Dry quarters, plenty of feed and exercise are necessary for the getting of winter eggs. The surplus milk will return a larger profit when fed to the hens than when fed to the hogs.

The dust bath is essential to good winter management of hens. All perches in the poultry house should be built on a level. When built one above another, step-fashion, the hens will fight for the higher perches with the result that some of them will become injured or eggs will be broken in them.

For roup and colds, dissolve permanganate of potash in the drinking water until the water is of a deep wine color, and keep this before the sick fowls all the time. Ground mustard, fed in the wet mash, is also good. A teaspoonful to each ten or twelve birds is about the right quantity to feed. A good way to insure an even mixture is to dissolve the mustard in water and use the water to moisten the mash.

The droppings give an indication of the health of the fowls. In health, the droppings are of sufficient consistency to hold their shape. They are dark in color, tapering off into grayish white. If the droppings are soft and of a yellowish or brownish color, an excessive quantity of fat-forming foods in the ration is indicated. If, on the other hand, the droppings are watery and dark, with streaks of mucus in them, it indicates that too much protein, ex-

A Mixed Flock of Fowls.

pecially animal protein, is being fed, and the meat food should be greatly reduced or omitted entirely for a time from the ration. A greenish watery diarrhea indicates unsanitary conditions, filthy water or food.

Feed for Winter Eggs.

To get winter eggs something must be fed to take the place of the insects that the hens pick up in summer. Skim milk is good. So is ground green bone—about an ounce to each hen three times a week—or commercial meat scraps. And don't forget grit and lime.

Keep Hens Hungry. In feeding it is a good idea to keep the hens slightly hungry during the day and never fully satisfy their appetites until just before they go to roost at night.

Clean the Incubator. If the incubator has been used be sure to give it a good cleaning and disinfecting before putting it into use, as this will clean it of all forms of disease that might have been left in it from the previous hatch, and in the end might save us a lot of trouble.

Supply Layers Green Food. If your hens are laying strong, as they should be, keep up the daily supply of green food and see that they have plenty of crushed shells, gravel and sand.

Dampness Bad for Hogs. Hogs take cold from exposure and often have sore throats. It is as bad for a pig to have wet feet as it is for a man.

Top Price for Horse. A horse that is offered for sale will bring a better price if he is in good flesh and is sleek and glossy.

Give Supply of Charcoal. Supply the bird with plenty of charcoal and they will always show vigor and bright red comb.

Where Alexander Was Born. British travelers at Saloniki may easily make the excursion of a few miles to the birthplace of Alexander the Great—and whistle. "The British Grenadiers" while doing so if they choose. But they will not find much there, observes the London Chronicle. The name of Pella still lingers in the district, but the great Macedonian city of Pella, where Alexander was born, on a night of storm and darkness in October, 336 B. C., has vanished, according to the testimony of Mr. D. G.

BALANCED RATION FOR HORSE

Condition of Animal Depends Largely on Treatment He Receives From His Caretaker.

A hard-working horse, when he first comes into the stable, should be given a medium forkful of well-cured mixed

Splendid Type for General Farm Work.

hay and should not be given grain until the hay is consumed. The food will then be digested while he is resting.

The proper food for a working horse to make a balanced ration is: Sound oats, four quarts; wheat bran, two quarts, and shelled corn, one quart. The grain feed may be reduced when the horse is not working. For old horses, crushed oats, mixed with wheat bran, makes an excellent ration. For horse at steady work, eight pounds of crushed oats and five pounds of mixed hay, three times daily, except when idle, with mixed feed on Sundays is the regular feed for horses at steady work in some stables.

The condition of the horse depends largely on the treatment the animal gets. A careful teamster, one who loves his team, will accomplish the maximum amount of work without overworking his team.

SANITATION OF IMPORTANCE

More Essential Than Rotation From Standpoint of Disease Control—Burn All Rubbish.

While it may not be possible in some cases to rotate garden crops owing to a lack of available ground, sanitation can always be practiced, and this from the standpoint of disease control is probably more important than rotation.

Practically all the diseases of garden plants live over from one season to the next on living or dead portions of the host plant.

These can be controlled only by the burning of all dead and waste plants. If this plant is followed systematically each year trouble with plant disease will be minimized.

Quick Returns From Hogs. Hogs give quick returns on a small investment of capital.

SOME SIMPLE POTATO RULES

Prepare Roomy Seedbed So as to Give Plenty of Room for Development of the Tubers.

Here are some simple rules for getting the most from your potato crop. Plant potatoes only about three inches deep if the land is heavy or rains are frequent. In average soils plant four inches deep; in semiarid regions five inches, or even more. Prepare a roomy seedbed so as to give plenty of room for the tubers to develop. Never apply stable manure to land on which potatoes are to be planted within a year. Fresh manure seems to promote potato disease.

Opinions differ as to the best ways of seeding. Single eyes will usually return the largest yield of a given amount of seed potatoes used, but the best practical way is to cut a medium-sized potato into about three pieces, each of which has two or three good eyes. Plant one piece in each hill. Do not use large potatoes for seed, as too large a proportion of the crop will be unmarketable.

Top Price for Horse. A horse that is offered for sale will bring a better price if he is in good flesh and is sleek and glossy.

Give Supply of Charcoal. Supply the bird with plenty of charcoal and they will always show vigor and bright red comb.

Where Alexander Was Born. British travelers at Saloniki may easily make the excursion of a few miles to the birthplace of Alexander the Great—and whistle. "The British Grenadiers" while doing so if they choose. But they will not find much there, observes the London Chronicle. The name of Pella still lingers in the district, but the great Macedonian city of Pella, where Alexander was born, on a night of storm and darkness in October, 336 B. C., has vanished, according to the testimony of Mr. D. G.

By JULIA BOTTOMLEY

AMONG THE COATS FOR SPRING.

A candidate for favor, among the coats of spring, that needs only to be seen to provoke approving smiles, presents its plainness and its gracefulness and its modishness all at one glance. The charm of simplicity belongs to it, or, at any rate, it looks simple, but with a simplicity which attests that it has been thought out by an artist.

A material in black or a very dark color with a narrow but pronounced stripe in white gives the garment a very fine start in the good graces of fashionable women. Its lines are correct, assuring one of the two accepted silhouettes, and it is distinguished by certain original touches in its finishing. All of which goes to prove that it belongs to the smart set in the world of apparel.

As pictured, the coat is made in black and white and fastens down the front with five large black buttons having varying stripes of white on them. No two are exactly alike. The coat sleeves, as plain as can be, are finished with oddly shaped cuffs that evidence no intention of following the example of the sleeves in the matter of plainness. They are adorned with two buttons, like those on the front, but in a smaller size.

A slit pocket is set in at each side. And, since it would never do for pockets to be negligible this season, they make opportunity for shaped bands, applied about the slit and a garniture

two of the accepted modes in millinery for spring. At the left of the group a straw sailor has a wide, flat brim. The crown is covered with faillie ribbon put on in four sections. Over this ribbon covering "ladder" bows extend from the center to the base of the crown at the middle of the front and back and of the two sides. They terminate in loops and ends that lie flat on the brim.

A milan hemp, in gray, is shown at the right. It is covered with gray crepe. At the right side the brim turns up sharply. A band of narrow velvet ribbon encircles the crown, finished with a bow at the left side. The striking feature in this hat is its bead embroidery. The peacock feather motif appears on the front and side brim and on the crown, embroidered in small beads set close together.

A bell-shaped black hat at the top of the picture is a perfect example of a popular type. It is of lustrous straw trimmed with loops of taffeta ribbon perched on top of the crown. Lacquered rose foliage covers part of the crown, and springs up among the loops of ribbon. This hat is all black except for the large pink rose at one side.

Lacquered or varnished flower and foliage trimmings are immensely popular. Everything has a shiny, brilliant surface, covered either with transparent or with black lacquer.

WELL SETTLED STYLES IN HATS.

of four buttons, like those on the sleeves. There is a velvet inlay on the back of the collar.

The sailor hat and black-and-white laced boots, worn with this coat proclaim a sense of clothes which promises distinction for its possessor.

There are wide hats and high-hats and variety enough in both sorts to insure several shapes that will be coming to each face. But the variety is not confusing as it was a year ago. The styles are very well settled and the fashions beautiful.

Each of the hats in the group of three pictured displays some one or

A fancy detached skirt yoke of sheer material is gathered to a skirt yoke which is already full. Little shoulder capes appear on both dresses and coats.

Silver and gilt buttons, shaped, are especially effective as trimming for taffeta frocks.

DALE & STUBBLEFIELD

A good dinner awaits you the
fourth Monday in this month in
the basement of the Methodist
church.

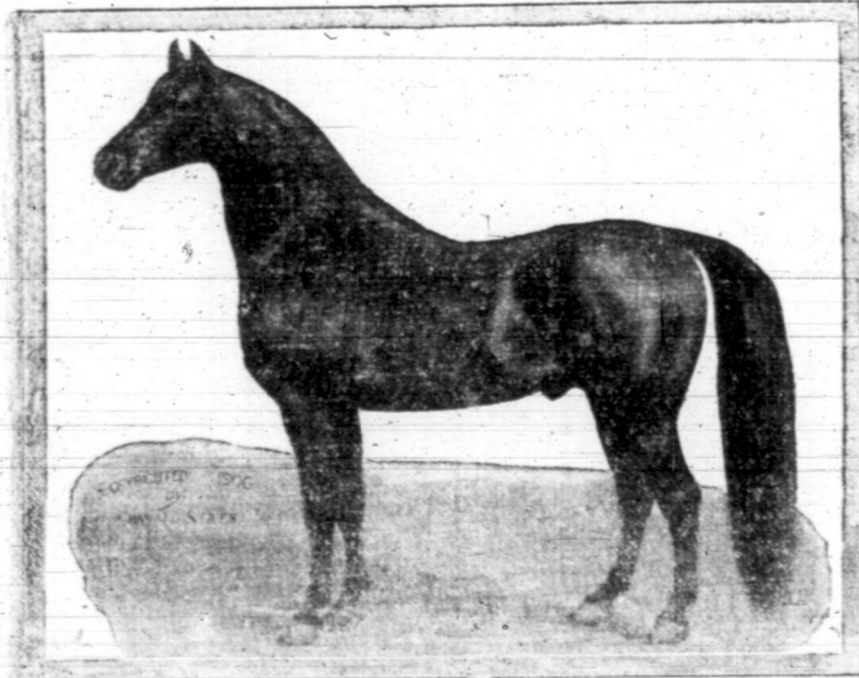

The Methodist ladies of Mur-
ray will serve dinner in the base-
ment of the church fourth Mon-
day in March.

Artist Charmer 2391 This fine Register-
ed Saddle Stallion
will make the season of 1916 at my stable 6 miles west of Murray
and 2 miles northeast of Lynn Grove, at \$10.00 to insure a living
colt 8 days old. 20 per cent discount if you pay when colt is 8
days old. If you want a prize winner breed to this horse. He and
his colts have won more premiums at our county fairs than all the
others combined. He is a dark bay 15 $\frac{1}{2}$ hands high. This is a
true picture of him.

Black Joe, Jr. This jack will be at same place at
\$6.00 with \$1.00 off same as above.

I. T. Crawford, Lynn Grove, Ky.

MORGAN PATCH NO. 6726

This fine registered stallion will make the season of 1916 at
my barn 1 $\frac{1}{2}$ miles north of Coldwater on the Coldwater and Back-
usburg road on what is known as the Sam Kelley farm at \$10.00 to
insure a living colt 8 days old. Description and pedigree: Mor-
gan Patch No. 6726, is a bay stallion, 4 years old, 16 hands high,
1700 pounds. He is a combined saddle and harness horse. First
sire, Sprague Patch, he by Dan Patch 135. First Dam Lizzie Dud-
ley, she by Clegg's Morgan, son of Bullet 2108; second dam Rau-
cetta; third dam Bessie, by Mountaineer 676, son of Streeter 674;
fourth dam Solomon Berry Sheffields, he by Robert Gray 3241.
Morgan Patch was entered 8 times in county fairs and won four
first premiums.

E. B. ADAMS, Farmington, Ky., R. F. D. 2

Walter Farris Stock.

Rowdy Tom. This fine jack will
stand at my stable, about 1 $\frac{1}{2}$ miles
from Murray, on Murray and Con-
cord road, at \$8 to insure a living colt.
Rowdy Tom is of medium size
weighs 900 pounds, dark brown, and
was sired by Long Tom, out of a fine
black jenny. Colts from this jack
took premiums at the Murray Fair
and have never been turned down at
fairs.

Dr. Batten, Jr. This fine horse will
make the season at the same place
under the same conditions, at \$10.

Dr. Batten, Jr. sired by Dr. Bat-
ton, No. 3984, registered standard
bred trotting horse, sired by Ashland
Wilkes, record 2:17 1-5. He by Red
Wilkes, sire of more than 100 in 2:20
list. He by George Wilkes, the found-
er of the greatest trotting family
known to the world. He by Ham-
bletonian 10. First dam, Onita, by
Simmons sire of Semicolon, 2:12, and
more than 100 others; he by George
Wilkes. His mother was a Morgan
and fine saddle stock.

Dr. Batten, Jr. is a dark bay, 16
hands high, 7 years old, weighs 1,050.
—Walter Farris. 3:34*

J. H. Ellis Stock.

De Woods. Will make the season
of 1916 at the residence of J. H. Ellis
on the Concord and Boydsville road.
This season at \$10.00.

He was sired by Red Medium, 2:20
1-4, sire of L. Maud, 2:07 1-2, sire
Dorch Medium, 2:01 1-4 and 12 others
in the list making him the sire of
speed of any living horse at 13 years
of age. Dam, Miss Glendora Wood,
dam of Glenora, 2:11 1-4. De Woods
is a half brother to Red Timoka, 2:27
one of the greatest show stallions in
the north. This combines one of
the strongest blood lines ever seen in
trotting. He is known as the "Ma-
son horse."

De Woods is six years old, and one
of the best formed horses that man
has ever looked upon. Is blood bay.
He won the blue ribbon in his class
at the Henry county fair and at the
Murray fair. While he is a trotting
bred horse, yet he goes all the gates
making him very desirable for those
who like a double gaited horse. A
brother of De Woods won two races
in one day. De Woods is pronounced
by horsemen to be the best combina-
tion horse in West Kentucky.

Dr. Hartman, 2:85. This fine 3-
year-old jack will make the season at
the same place, at \$10.00 to insure a
living colt, under usual conditions.
He is 15 1-2 hands high, big bone, fine
head and ears.

One Starlight jack, 2:84, 3-year-old
15 hands high, will make the season
at same place, \$8.00 to insure a living
colt, under usual conditions. Season
premiums will be given for best colts
halt for second best.

Some one on the farm at all times
to wait upon you. J. H. Ellis. 3:33*

Meloline for the Face.

The man who shaves himself
will find the greatest satisfac-
tion is using Meloline. It is
ready for instant use as poured
from the bottle. Allays irrita-
tion, is antiseptic, healing and
soothing. Try it and if you don't
like it you can have the money
back. 25c at Wear's drug store.

Eat with the Methodist ladies
fourth Monday. Basement of the
Methodist church.

Order of Election.

Notice is hereby given to the
qualified voters of the City of
Murray that on the twentieth
day of May, 1916, there shall be
held in the City of Murray an
election for the purpose of tak-
ing the census of the qualified
voters of the said city whether
the said City of Murray shall or
shall not increase its present in-
debtedness in the sum of Twenty
Thousand Dollars (\$20,000.00),
for the purpose of constructing,
operating and maintaining an
electric light and power plant in
the City of Murray for the pur-
pose of furnishing light and po-
wer to the said city and its en-
virois, and for the further purpose
of improving the present system
of water works as now owned
and operated by the said City of
Murray.

Should the required number of
qualified voters of the City of
Murray, as is required by law,
vote in favor the creating the
said indebtedness for the pur-
poses herein set out, then there-
after, until the said indebtedness
shall be paid, which period shall
not be less than two years and
which shall not exceed twenty
years after the contracting of
the said indebtedness, there shall
be levied upon all real and per-
sonal property, subject to taxa-
tion within the City of Murray, in
addition to the then present tax
levied upon all real and personal
property within the said city
subject to taxation, an annual
sum which shall not be in excess
of two thousand dollars (\$2,000)
or an amount sufficient to pro-
vide for both the interest and
sinking fund for the year in
which same is levied, from which
sum there shall be deducted an
amount sufficient to pay the in-
terest on the said indebtedness
which shall not exceed a period
of twenty years, and at no time
shall the additional tax herein
provided for exceed the constitu-
tional limit for municipal cor-
porations of the fourth class.

Signed:

H. E. HOLTON, Mayor.

C. M. SMOOT, Clerk.

Z. G. CONNER, Attorney.

Sold by all druggists, 75c.
Take Hall's Family Pills for con-
stipation.

JOHN HARTEMAN.—A four-
year-old registered jack No. 10-
291, will make this season at my
barn three miles northwest of
Murray, at \$6.00 to insure liv-
ing colt eight days old. I will
give two season premiums, one
for the best mare mule and also
one on the best horse mule.
This jack stands 14 $\frac{1}{2}$ hands high
and weighs about eight hundred
pounds. Come and get the best
and cheapest mules, as the best
is none too good and the cheap-
est is none too cheap. Thank-
ing you for your patronage, I
remain yours for business. —
C. M. Brinn. 3:34

Does Pain Interfere?
There is a remedy

**Sloan's
Liniment**

Read this unsolicited grateful
testimony—
Not long ago my left knee be-
came lame and sore. It pained
me many restless nights. So se-
rious did it become that I was
forced to consider giving up my
work when I chanced to think of
Sloan's Liniment. Let me say—
less than one bottle fixed me up.
Chas. C. Campbell, Florence, Tex.

"Talls Oaks From Little Acorns Grow"

But you know that tall oaks only grow from the little acorn that
is sound and full of vitality—the weak acorn produces the snarls and
scrubs.

GOLDEN HARVESTS and PROFITABLE CROPS are grown
from **GOLD MEDAL SEEDS**

The Sure Growing Kind.

THAT'S WHY WE URGE YOU TO USE THEM

Sexton Brothers, : Murray, Kentucky

Read What Uncle Jake Taylor Says
About Horse-Joy Tonic.

I wish to state that I have
been using the Condition Pow-
der made by H. P. Wear, and
now known as Horse-Joy Tonic,
for several years and have found
it to be the very best remedy
for stock I have ever used. If
an animal is not doing well, puny,
or won't eat to your satisfac-
tion, this preparation will
improve all these conditions rap-
idly and will make the hair
smooth. It is also very fine for
poultry. —Jake F. Taylor. 3:24

For Sale or Trade.—Groceries,
horses, hogs, pigs, cows, second
hand buggies, etc.—Y. E. Wil-
liams, at Cole's grocery. Hams
and shoulders wanted. 3:16*

Eggs That Will Hatch.

You want eggs that will hatch.
You want these chicks to grow
and thrive and ripen into matur-
ity in the earliest possible time.
These chicks are made in the
shell. If the parent stock is in
a weakened condition, how can
you expect to get fertile eggs
and strong sturdy chicks. B. A.
Thomas' Poultry Remedy tones
up the system of fowls, puts
them in condition to lay, thereby
producing eggs that are fertile
and will make chicks that live
and grow. We guarantee it. Sex-
ton Brothers are distributors for
Murray and vicinity.

Card of Thanks.

We wish to express our heart
felt thanks and appreciation to
the physician, many friends and
neighbors, who were so kind
during the illness and death of
our dear little twin boys. For
the physician, who watched over
them so faithful, we can not say
enough. Words can not express
our thanks toward the friends,
relatives and neighbors and the
Spring Creek neighborhood for
their kindness in putting them
away. When sorrow or death
comes to your home may you be
surrounded by such kindnesses
as we had.—T. A. Phelps and
family.

Have you seen the Chevrolet
car? If not, come in and take a
look at it. It is the juiciest piece
of pie that exists in the automo-
bile business today. For sale by
Geo. W. Downs.
