**Victory Homecoming Club Meeting**

Mrs. Dunn was April president of the Victory Homecoming Club, which was met to decide the next meeting date. The meeting was held in the auditorium of Carr Institute Tuesday afternoon at 2:15, with President Mrs. E. M. Smith in the chair. A roll call was taken and members were present and at the meeting. The agenda for the day included the following: 1. The President's Conference on fire prevention. 2. A discussion of the sugar situation of which the future likely depends on Stalin's reaction. 3. A discussion of the question of all nations of the United Nations Security Council for two years, Belgium is being graduated from the U. N. General Assembly. She is represented at the N. Headquarters by Fernand van Langenhove, who was in sessions of the Security Council.

---

**Little Progress Yet**

By Dorothy Mannix.

The group with the following members was present and one member was absent: Group A met Monday afternoon; Group B met Thursday afternoon. Mrs. Paul Smith, group leader, presided over the business meeting Monday afternoon. The program for the past year has been the same. Much of our progress has been a show of sentimential reaction. It is not only the return-to-normal set up in 1932, but also the fact that we have adopted new ways of doing things which is in the minds of the members. The group will continue to meet each month to make their home at Rolling Acres on Troy road.

---

**With The Homemakers**

Mrs. R. O. Ridd was the president of the Homemakers Club last year. She was present at the meeting Monday afternoon, and made a special number composed of the following program:

- A display of arrogance are the miners themselves, who lost several days' pay; the railroads' Salaries.
- The President's Conference on fire prevention.
- A display of arrogance are the miners themselves, who lost several days' pay; the railroads' Salaries.

**The Real Losers**

One of the big industrial users of coal was the Green Mill of Chicago. The Green Mill is a large factory which makes steel; it has a very large consumption of coal. The Green Mill's president, Mr. Lewis, went to Washington in March to try to get a new rate for coal. He was told that the rate was fixed by the government and could not be changed. The Green Mill had to pay more for its coal, but it could not cut its prices or lower its wages, or it would lose its customers. The Green Mill's president, Mr. Lewis, was very angry, but he had to accept the new rate.

**SDA**

SDA, standing for the Seventh-day Adventists, is a religious group composed of about 10,000 people. They believe in a literal interpretation of the Bible and in the second coming of Christ. The SDA church is very successful in the United States, and has many members in other countries as well.

---

**SAD**

SAD stands for the Society of the Aryan Displaced, which is a group of people who were forced to leave Germany after World War II. They are seeking to return to their homes in Germany, but are being prevented by the government there.

---

**SD**

SD stands for the Social Democratic Party, which is a political party in Germany. It was formed in 1875 and is one of the oldest political parties in the world.

---

**SDP**

SDP stands for the Social Democratic Party of America, which is the American affiliate of the Social Democratic Party of Germany. It was founded in 1901 and is one of the oldest political parties in the United States.
MARKET REPORTS

Full Street Report

New York, April 17—As a result of additional supply, sirloin steaks and butts were lower today, with marked weakening for all parts of the beef section. Packer buying was moderate and very steady.

The beef market was weak and steady, with marked weakening. Highest bids were spread, but heavy buying early for a few lots. Shoulder, brisket, loin and rib held near or slightly below Tuesday's level. Packer buying was moderate and very steady.

Organic sections—Packer buying was moderate and very steady. Highest bids were spread, but heavy buying early for a few lots. Shoulder, brisket, loin and rib held near or slightly below Tuesday's level. Packer buying was moderate and very steady.

Stockyard Report

The market was steady with a marked weakening trend. Packer buying was moderate and very steady. Highest bids were spread, but heavy buying early for a few lots. Shoulder, brisket, loin and rib held near or slightly below Tuesday's level. Packer buying was moderate and very steady.

Livestock Market

National Stockyards, May 4, April 17, 19—Heavily weighted weights were steady to 25 higher; bulk bought with the 100-120 range. Good, 200-220 range; 23, scheduled for the spring sets—average; lighter weights steady; 24-25; largely 2400: on 250 men charged with robbery.

KENTUCKY TODAY

By The Associated Press

Lynching of a Negro near Murray, Ky., yesterday was the first lynching of the year in this state. The Negro, a young man, was lynched following the killing of a white man by another Negro.

MARKET REPORTS

The market was steady with a marked weakening trend. Packer buying was moderate and very steady. Highest bids were spread, but heavy buying early for a few lots. Shoulder, brisket, loin and rib held near or slightly below Tuesday's level. Packer buying was moderate and very steady.

Here's Important News That May Make You Feel More Alert

One of the foremost laboratories of the country has developed a tonic for your system to get sufficient iron. This tonic is rich in iron. And your doctor is sure to recommend it. Ask for Pursin, the official tonic of American Telephone.

Second, Pursin contains precious vitamins B, and G. These vitamins help stimulate appetite — aid digestion — and get more good from the food you eat.

That's why you eat more and get more good from Pursin. And help yourself feel more alert again. If you do not consult your physician, you will still feel good.

A McKesson Product.
It's Termites Time Again!

There are three kinds of termites: 1. In the head of each colony runs into many...

Worker termites construct tiny tunnels when searching for food, which contains...

Because termites work inside the wood, they never appear above ground, the home owner will not detect them.

The active colony has a larger number of termites.

The new colony is formed by the queen termite laying eggs. The colony is started when a termite queen is introduced into a new location.

Termite tunnels are usually found near the foundation of the house, where the soil is moist and warm. These tunnels are the entrance points of the termites.

From their nest in the ground, the termites move...
