Robt. Burrow Re-Elected YMBC Head Business Session Held Following Beelerton Dinner

CLUB BOOSTS CHICKS

Robert Burrow was re-elected president of the Young Men's Business Club for another six-months term last night at a business meeting in the club-room on Lake street. Club members met there following a fried chicken dinner at Beelerton school.

Other officers for the next six months named last night were: James Meacham, vice-president; Clifford Fields, secretary (re-elected); Happy Hogan, assistant secretary; Bertie Bogue, treasurer; Raymond Stalins and Lewis Bizzle, sergeants-at-arms; and Milton Exum, Frank Higgins, Joe Treas and Frank Homra, members of the board of directors.

The YMBC will sponsor the opening game of the Kitty League season here May 6, when the Chicks play the Union City reynolds at Fairfield Park. Last night club members were given "booster" tickets, priced at \$1 each and good for admission to any regular season game, sell prior to opening day. Each member present took 10 more tickets. Ticket committee members are Carter Olive, Clifford Shields, Foad Homra and Neal Looney.

Billy Blackstone was appointed chairman of a committee to arrange a special program for the opening game. Working with him will be Happy Hogan, Garfield Merryman and Hugh Ashton.

The club also voted to sponsor dance in the clubroom, with proceeds going to the Girl's Rescued fund. The club also elected a new board of directors. The new board consists of: Roy Greer, Malcom Bell and Sterling Bennett.

It was suggested at last night's meeting that the club send a telegram or letter to Governor Willis, asking that he call a special session of the state legislature to appropriate additional funds for school purposes.

After considerable discussion, the club decided not to make this request as an organization, but the president urged members to send individual letters or wires to the governor. Members were told to contact Foad Homra or Billy Blackstone if they planned to take such action.

Taylor Held Valid Choice

State Fair Board Election
Of Lewisport Man OK'd
By Atty. General Dummit

Frankfort, Ky., April 23—(P)—The election of C. W. Taylor, Lewisport, as manager of the Kentucky state fair, was valid act of the state fair board, Attorney General Eldon S. Dummit said in an opinion yesterday given to State Commissioner of Agriculture Elliott Robertson.

Robertson, who opposed Taylor at the fair board meeting in Louisville April 14, had questioned the right of two board members to serve on the board, and had challenged legality of Taylor's election as fair manager.

Dummit said W. T. Forsee, Owensboro, lost his place as a member of the board by filing his declaration for nomination as state commissioner of agriculture. He also declared that Charles E. Whitte forfeited his \$5,000 a year post on the state public service commission by accepting appointment to the fair board.

The attorney general said, however, that election of Taylor was not affected by participation of Whitte and Forsee in the meeting.

Forsee was named by Gov. Simeon Willis last Dec. 12 for a four year term on the fair board. Dummit's opinion cited statutes to show that no members of a state administrative board may become a candidate for elective office without first resigning from the board. Forsee filed for the Democratic nomination as agriculture commissioner April 12.

On Friday, April 18, the board of trustees of the camp committee of the Memphis Conference assembly grounds, met at Pilot Knob Park, adjacent to the assembly ground property near Camden, Tenn., to inaugurate plans for the development of the assembly grounds. The Rev. A. L. Dickerson, pastor of First church at Humboldt, Tenn., was elected president of the board of trustees, the Rev. R. Y. Horton, pastor of St. Paul's Methodist church, Memphis, was elected secretary. The Rev. J. L. Leggett, pastor of First church, Camden, was appointed to direct finance and

publicity. Hal H. Fry, of Camden, was elected treasurer. An office for the financial campaign is being set up in Camden.

The campaign will be inaugurated May 31. The director will visit each of the seven districts of the Memphis annual conference to give publicity to the effort to raise a minimum of \$25,000. It is planned that the assembly ground will be in operation in 1946. The following amounts were allotted to the districts: Brownsville, \$3,000; Jackson, \$3,500; Lexington, 2,500; Memphis, \$4,250; Paducah, \$3,750; Paris, \$3,250. The slogan "Double Our Quota" was adopted.

The assembly grounds were given to the Memphis annual conference by the people of Camden and Benton county. This assembly will be patterned after Lake Junaluska Assembly in North Carolina. There will be an area for individuals and churches to erect their own lodges. There will be roads and trails, points of inspiration, recreation grounds and many other attractions.

'Tain't Funny To NBC When Stars Poke Fun At Vice-President; Skelton, Hope Are Cut Off

Hollywood, April 23—(P)—It's no joke to the National Broadcasting Company when its high-priced comedians poke fun at their bosses.

The network, which cut Fred Allen off the air briefly Sunday when he sought to comment on the activities of a mythical NBC vice-president, gave Bob Hope and Red Skelton the same treatment last night when they essayed a little ribbing on the Allen case.

Red was silent for about 12 seconds when, after an exchange of quips with his straight man, he said:

"Be careful, we might ad lib something that will hurt the dignity of some NBC vice-president. Did you hear them cut Fred Allen off Sunday?"

That's when they pulled the plug on Red, but he went right on for the benefit of his studio audience:

"You know what NBC means, don't you? Nothing but cuts, nothing but confusion, nobody essayed a little ribbing on the Allen case."

He had the last word, anyway, because when they put him back on the air he commented, "well, we have now joined the parade of stars."

Hope got in bad after referring to Las Vegas, Nev., wide open gambling resort city, as the "only place in the world where you can get tanned and faded at the same time." He then added "of course, Fred Allen can be faded anytime," and the switch was thrown.

Network officials were silent beyond the brief statement that the censored material was "objectionable to NBC." Edna Skelton, Red's writer and former wife, said the deleted material in the script had been disapproved by the network but that

In the beautifully wooded hills that slope down to the waters of Kentucky Lake, soon will be heard the happy cries of the young people of the Methodist churches of West Tennessee and West Kentucky. The woods and glens will resound with refrains of the hymns of the Methodist church, and the words of the speakers of Methodism.

The dreams of a conference-wide assembly ground will be a reality in a place where every phase of the conference will have a meeting place.

On Friday, April 18, the board of trustees of the camp committee of the Memphis Conference assembly grounds, met at Pilot Knob Park, adjacent to the assembly ground property near Camden, Tenn., to inaugurate plans for the development of the assembly grounds. Complications

Lewis E. Lawes, 63, who for 21 years was warden at Sing Sing prison at Ossining, N. Y., and was one of the nation's outstanding authorities on prison problems, died early today at his home here.

Lawes had been seriously ill for 10 days. He died of a cerebral hemorrhage at 1:30 a. m. He had retired from his post at Sing Sing July 16, 1941.

While warden at the "Big House" at Ossining, Lawes virtually rebuilt the prison and instituted many novelties such as football games between the prisoners and outside teams. Prison dramatic clubs also were permitted to perform for visitors from the outside.

His policy of being fair with prisoners, yet firm, helped overcome problems that had arisen at Sing Sing, problems which the late Alfred E. Smith, then governor, had picked Lawes to correct.

Mr. and Mrs. Raymond Hoffman, holding their 15-month-old triplets, have problems in the offing. They are being evicted—and Mrs. Hoffman is expecting twins. Here they are at Los Angeles, Calif.

Present Bill "Too Mild" For Ohio Senator

MAY ASK AMENDMENTS

Washington, April 23—(P)—Its approval given to an important new foreign policy-aiding foreign governments resist Communism—the Senate turned today to the vital domestic subject of labor legislation.

Up for consideration was the Senate Labor Committee's bill—milder than one already approved by the House—to curb strikes and union activities.

To Senator Taft (R-Ohio), Labor Committee chairman, went the task of opening the debate although he was not completely satisfied with the bill as the Committee wrote it. He wanted it tougher. To that end, he plans to present several amendments reinserting in the measure provisions which the group took out over his objection.

As it stands the bill bans the closed shop, authorizes the government to obtain court orders halting strikes involving national health or safety, makes unions subject to unfair labor practices and requires them to file annual financial reports.

Among other things Taft wants to insert bans on jurisdictional strikes, secondary boycotts and union-administered health and welfare funds.

Bearing out claims of sponsors, the Senate approved late yesterday President Truman's \$400,000,000 Greek-Turkey aid bill. The vote was 67-23.

The measure now goes to the House which today took up another administration bill—one to appropriate \$350,000,000 for foreign relief. The staff department has said relief is to be provided for Italy, Greece, Austria, Hungary, Poland and China.

Rep. Herter (R-Mass) criticized this bill yesterday as a "blank check" and said he will seek to have it expressly amended to be aid to the countries to be aided. He argued that Poland and Hungary are Communist dominated and China "partly so."

As the Senate Finance Committee recalled Secretary of the Treasury Snyder back for further testimony on the subject of an income tax reduction, several members predicted the committee will recommend some kind of a tax cut. The House already has voted a reduction.

Snyder, reiterating the administration position, opposed the legislation in his testimony yesterday.

U. M. T. Bill Unlikely

These were other matters of Congressional interest: Universal training—Congressional leaders said there is little or no chance of passing universal military training legislation at this session. One leader said he sees no immediate urgency for such legislation and that with Congress aiming at July adjournment "we just can't get around to it."

Un-American.—Chairman J. Parnell Thomas (R-NJ) of the House committee on Un-American Activities, said he is asking President Truman to direct Attorney General Clark to prosecute Communists. He said many House members showed dissatisfaction yesterday "with the lack of prosecution" of Communists. The House yesterday voted contempt actions against Eugene Dennis, Communist party secretary, and Leon Josephson, described as head of a ring that forged American passports for Russian agents.

TVA—Senate leaders have agreed to permit debate tomorrow on confirmation of Gordon R. Clapp as Tennessee Valley Authority director. The Senate Public Works Committee voted 7 to 5 against recommending the confirmation but Clapp supporters were hopeful of favorable Senate action anyway.

Russia Probably Wouldn't Chance A War

By Dewitt MacKenzie.

AP Foreign Affairs Analyst

Secretary of State Marshall has cabled from Moscow that he regards the Greco-Turkish aid program as indispensable and urgent, but thus far he hasn't explained publicly what he figures will happen if these two Balkan states aren't given assistance to safeguard themselves against Communist aggression.

To a good many people the position apparently presents a picture of huge Red armies rolling out of the North against Greece and Turkey. The fact that Marshall is credited with being the greatest military expert of our time may tend to encourage this martial thought. However, the immediate threat doesn't strike me as presenting any such contingency.

These two countries are in the path of the Communist advance, all right, and are in danger. But there isn't the slightest sign that Russia plans to intervene militarily. To do so would be to precipitate another world war, and that's the thing which Moscow wants least this time.

Where then lies the danger to Greece and Turkey? Well, it's an old saying but nevertheless true, that there's more than one way to skin a cat. Communism works in two ways—by direct action and by indirection. It's largely the latter method which is being used against the two Balkan states, especially in the more vulnerable Greece.

Communism is boring from within in Greece, trying to create a rebellion which will overthrow the monarchy and permit establishment of a Soviet republic. The Greek government charges that rebellion is being fostered and aided by neighboring Albania, Bulgaria, and Yugoslavia, all satellites of Moscow. The United Nations Security Council has a commission on the northern frontiers of Greece watching this explosive situation.

The aid which America proposes to give Athens is to enable the Greek government to defend itself against this aggressive Communism. And where does Turkey come into the picture? The answer is one which this column has given before: Greece is the strategic bastion that guards the Turkish flank, including that all-important Dardanelles strait. If Greece should fall, then Turkey would be trebly vulnerable.

Now of course such a situation might produce a war, that is, a conflict among the Balkan states. However, one would expect Russia to keep her little satellites sufficiently in leash to prevent the present maneuvers from causing another war.

And surely if a Balkan conflict should break out Moscow would do everything possible to avoid becoming militarily involved, because that would again set all the mills of the war gods to grinding for another global upheaval.

So, to repeat, American aid would be calculated to equip Greece and Turkey so that they could stand off Communism by themselves, without active help from outside. That will be a hard fight, for Communism will continue its fifth-column activities from within and its pressure from the Red countries on the North. There will be no quarter.

Naturally Turkey and the Dardanelles are what Moscow has its eye on. Control there would give Russia the land bridge between Europe and Asia and the waterway from the inland Black Sea into the Mediterranean—an aim of the cars for generations.

But the Soviet won't go to war now to gain this position.

The point which Washington has made in urging the aid to Greece and Turkey is that the security of the western world would be endangered at some distant date if these strategic countries came under the domination of Russia.

TERRY NORMAN P-TA HAS LAST MEETING OF YEAR

Mrs. L. N. Gifford presided over the April meeting of Terry-Norman Parent-Teachers at the school building. She gave highlights of the district conference at Paducah April 10.

The secretary, Mrs. Joe Bowers, read the minutes of the previous meeting, and also a report of the Paducah meeting. The treasurer's report was given by Mrs. Don Hill.

During the business session the group voted to bear expenses of writing certificates to the students. They also voted to present a president's pin to Mrs. J. L. Patterson for her services as leader of the P-TA in the years of 1944-45 and 1945-46.

In her untiring efforts as president, the objectives of the Parent-Teacher Association were met, members said. She was a source of inspiration and led the members to many goals not previously attained.

The district president, Mrs. John Kirksey, has asked Mrs. Patterson to serve as district magazine chairman.

Goals attained: Terry Norman was one of the nine locals of the state with 100 per cent membership; a radio was given to the school; Scouts were sponsored; money was given to both school and public libraries; they entered one of the two scrapbooks at the district meeting; and established a precedent with presentation of the president's pin.

New officers were installed by Mrs. Gifford in an impressive ceremony. Mrs. Elbert Johns is president; Mrs. H. E. Reams, vice-president; Mrs. Clyde Wood, secretary; Mrs. Don Hill, treasurer.

The program was supervised by Marilyn Butler in a piano solo. A lovely prayer by Gary Cleveland Myers was read by the leader.

Kentucky Utilities showed a picture on "Better Lighting for the Home." The audience enjoyed the helpful picture.

Members anxiously anticipate the coming year of work, and the responsibility of being joint-hostesses to the district Fall conference in Fulton.

"Churchanity Or Christianity" Is Methodist Topic

"Churchanity or Christianity" will be the subject of the third of a series of studies on "The Meaning of Methodism" to be held at the First Methodist church tonight at 7:30.

The Methodist Episcopal church, the first religious body in America to work out an independent and national organization, was organized at the Baltimore Christmas Conference in 1784. Disavowing the "institutional" theory—that interpretation of Christianity which regards spiritual life as wholly dependent upon and inseparable from a divinely revealed organization—the Methodist church has from the beginning followed a policy of cooperation with all Christians.

The public is invited to attend tonight's study.

THE CHARLATAN IN THE ATTIC

Don't trust this fellow! Have nothing to do with him! He has no interest in you except what he can siphon from you. Here he is, busily engaged concocting some nostrum which will soon be offered as a cure for practically any and all human afflictions. All he needs is an attic, an assortment of kitchenware, and free access to the water faucet. He has no medical training. If you yield to his wiles, you suffer in finance, health, and general welfare. Your real friend in time of illness is your own family physician. You can safely place yourself in his care. When he writes a prescription bring it to us. It will be filled accurately and promptly with the best medicines obtainable.

Sports Roundup

Hugh Fullerton, Jr.
New York, April 23.—(AP)—Baseball is having a day for Babe Ruth Sunday and Ernie Lanigan has provided a flock of figures and facts about Babe's "first" to mark the occasion—Ruth's first professional game for Baltimore against Buffalo April 22, 1914.—In the first inning the Babe walked, got mixed up with first baseman Gleichenman on a pop fly and hit a batsman to load the bases. But he got out of that trouble and went on to pitch a six-hit shutout—the next day he appeared as a pinch-hitter and hit a triple—in all, Ruth started 33 International League games for Baltimore and Providence and finished all but five of them. He also played four as an outfielder—on July 10, 1914,

the Babe played left field for the Orioles; the next day he pitched and won for the Red Sox against Cleveland.—When Jack Dunn sold the Babe, Ernie Shore and Ben Egan to Boston, the Federal League was grabbing players right and left. So Jack sent Billy Wicks along to guard the athletes en route and owner Jack Lannin rewarded Billy with \$100 for safe delivery—that \$100 was the same amount as Ruth's first monthly pay check.

ONE-MINUTE SPORTS PAGE

Heavyweight champion Joe Louis and his featherweight (125 pounds) manager, Marshall Miles, are due here tomorrow to talk over that summer title bout some more.—Kentuckians say crafty Adolph Rupp isn't even looking for basketball stars this year because he already has so many, but he still came up with Bob Koozitz, 6-foot-4 All-West Virginia forward from Huntington.

KEY TO THE SITUATION

Columbus, Ga., golfers aren't as high on Walker Cupper George Hamer as they are on 16-year-old Billy Key, whom they tab as "maybe a second Bobby Jones."—Billy, son of a bank president, seldom goes over 75, has a sound game, good temperament and likes to play.—When Joe Kirkwood saw Billy, he asked: "where have you been keeping this boy? He could

Wall Street Report

New York, April 23—(AP)—A number of leading industrial stocks gave up some ground in the stock market today after three successive rising sessions, although selected issues continued to improve.

The pace of dealings subsided after a fairly active opening. Near midday fractional declines were well distributed throughout the list.

Commission houses reported a modest amount of profit-taking was a factor, while concern persisted over tax relief legislation and prospects for price adjustments in the face of widespread wage boosts.
