REGISTRATION FOR KEROSENE RATION BEGINS

All Users Must Apply at High Schools This Week

Registration for the rationing of kerosene and fuel oil in Calloway county began today in all high schools.

Every person who uses kerosene in any way must register and obtain his ration book if he wants to continue buying. This includes kerosene for cooking, heating, running tractors or washing machines or other motors, refrigerators, lamps, or any other use.

Registration in the six county high schools is from 9 A.M. to 4 P.M. today and Friday. Teachers are doing the registering and will be on hand from 9 to 12 Saturday morning to finish their work.

Registration at the Murray high school and at the Training School will be from 2 to 6 this afternoon and tomorrow (Friday) afternoon and from 9 to 12 Saturday morning.

Each person who registers is expected to go to the high school nearest his home. He should go today or Friday; and not wait until Saturday morning.

Ration books will not be given out when a person registers, as was done in the case of sugar. With sugar rationing each person was permitted to have the same as another. But in kerosene and fuel rationing, different persons will need different amounts. Therefore, the application blanks will have to be sent to the local rationing office, and a base determined. Then the books will be issued.

In the meantime kerosene may be purchased if a written promise is given the dealer that the purchaser will turn in coupons after he gets his book.

Those who want fuel oil and kerosene for heating purposes, excepting heating water, will not be registered at the high schools. They will be taken care of in the local rationing office in Murray.

Farmers who register for kerosene for their tractors should bring the motor number, name of make and year of make of their tractor with them when they register.

Claude L. Miller, is chief clerk of the war rationing board in this county, and is in charge of the registration. The superintendents, principals and teachers are doing the actual registering at the schools.

Seiburn White, Gulf distributor, will help the local rationing office in registering those who want fuel for heating their homes.

Several Local Masons Named on Committees

W. Z. Carter, who last week was elected Grand Master of Masons in Kentucky, has announced the appointment of several local Masons on Grand Lodge committees.

W. E. Clark was appointed grand senior deacon; George Hart, committee on credentials; Peter Kuhl, chairman of the committee on dispensation; B. H. Robbins and G. C. Ashcraft, committees on Our Homes; A. O. Woods, committee on By-Laws; Harold Van Winkle, committees on Publicity; and Max B. Hurt, committee on Necrology.

Rev. R. F. Blankenship of Dunaway Lodge at Kirksey was appointed to the Committee on visitors.

Dog Field Trials Set Nov. 8-15 By Calloway Club

The Calloway County Conservation Club has decided to hold its annual field trials for all-age shooting dogs before the open bird season this year. The trials are to begin Sunday, November 8, and continue on November 15, and end November 22, providing enough dogs are entered to fill up the first two Sundays. Puppy trials will also be held on November 22.

Drawings for positions will be at 7 P.M. Monday, November 2, at the city hall here. Anyone interested in having his dog compete should be present and pay his entry fee, or send the money with instructions for someone to draw for him. The fee is \$1 for members, \$2 for non-members.

Wasp Sinking No News to Survivors Visiting Murray

When the sinking of the U. S. Aircraft Carrier Wasp was announced Monday night over the radio, this was no news to the Province twins visiting here. They were on the Wasp when she went down in the Pacific near the Solomon Islands.

The Wasp was sunk September 15. The sinking was announced only last night. Martin and Milburn Province were aboard her, were rescued when they abandoned ship, and returned to the United States. They are now on a furlough, and during the past week visited their cousin, R. B. Province, who operates the Province grocery in Murray.

One of the boys was in the water 30 minutes before being rescued, the other six hours. They have been in the Navy two years and two months.

The Province twins went to high school at Murray, played on the Tiger team in 1935-36. They also attended Murray College one year.

HALF OF SCRAP METAL QUOTA IS REACHED

1,100,000 Lbs.
Piled Up; Exact
Total Not Known

Calloway county has collected approximately 1,100,000 pounds of scrap metal since the present collection campaign began.

Exact figures are lacking because not all reports are in, but it is expected that by next week a complete, detailed report can be given.

To date the WPA has hauled in 261,400 pounds and Shroff Bros. have hauled in 261,513 pounds. E. C. Sherman of Harris Grove has sold 25,000 pounds in Paducah and has about another 1,000 to go.

The city of Murray Monday sold an abandoned road roller in Paducah. It weighed 20,000 pounds. About 90,000 pounds have been taken from the Training School pile, and 27,495 from Faxon high school. Kirksey has sent in 35,190 pounds. Lynn Grove has about 24,000 pounds to send off yet; Hazel about 20,000; Almo, 8,000; and the Murray high school, 50,000.

There is some duplication in the figures so far sent in, and many amounts are yet to be reported.

J. T. Cochran, county agent and county salvage chairman, has asked that every person who sold scrap metal direct to Paducah make a report to him not later than Saturday of this week as he has to make a report to state headquarters at the end of this week for the entire county.

The quota for Calloway was about two million pounds.

Coffee Rationing To Begin Nov. 28; Sales Stop Nov. 21

Coffee will be rationed starting at midnight, November 28, at a rate of one pound every five weeks for each person over 15 years of age. The Office of Price Administration has announced.

On the basis of 35 to 40 cups to the pound, the ration means slightly more than a cup a day per person.

Retail sales will be halted at midnight, November 21. Price Administrator Leon Henderson said for a week-long freeze during which grocers will stock their shelves for the start of rationing.

The first rationed coffee will be purchased on the last stamp in the sugar ration book, stamp No. 28. Subsequent rations will be issued by working backwards through the sugar book, using stamps No. 28 to No. 19, in sequence.

Full details of coffee rationing, including the method of distribution to hotels, restaurants and other commercial users, will be announced in the near future.

JOE IRVAN TO TAKE BARNEY WEEK'S PLACE ON CITY POLICE FORCE

At the meeting of the city council Friday night, Joe Irvan, was elected city policeman to take the place of Barney Weeks, who is leaving to join the Navy November 1.

Mr. Irvan has been employed at the National Stores for the past 12 months.

NATION GOES TO POLLS TO VOTE TUESDAY

Reelection of Chandler, Gregory Is Not Doubted

Next Tuesday, November 3, the Congress of the United States must renew its mandate from the American people. Calloway voters will have an opportunity to vote for two Senators, A. B. (Happy) Chandler and Congressman Noble J. Gregory, both Democrats and incumbents. Opposing them on the Republican ticket are Richard J. Colbert for Senator and Walter L. Prince for Congressman.

That Senator Chandler and Congressman Gregory will be re-elected is generally accepted as a fact. For that reason there is little interest in the election here and voting is expected to be light.

However, everyone is being urged to go to the polls and cast his vote. This country, it is pointed out, is the only one left that has free elections. Elsewhere elections are out for the duration, in England by tacit consent. As a means of preserving our democracy, every voter here has voting as a duty, regardless of foregone conclusions regarding the results of the election.

On the ticket is the name, Jack E. Fisher, for railroad commissioner, unopposed; and Gus M. Thomas, for appellate court judge, listed under both the Democrat and the Republican party.

In the Murray city graded school district, three men are to be elected to the school board. There are three candidates (Luther Robertson, J. W. Outland and Dr. A. D. Butterworth), so there is no opposition.

Devey Grogan is the candidate for membership on the county school board from the Hazel (No. 1) district—unopposed. Willard Gordon and Tom Wells are candidates for the county school board from the Almo (No. 3) district. Only one of them will be elected.

The film tells the heroic story of the gallant band of Marines who held their tiny speck of Pacific sand for 16 days against everything the Japs could throw at them from land, sea and air. It tells the story in a manner that makes you grit your teeth and vow to take Tokyo apart in little pieces and throw it to the sharks.

Such a picture is "Wake Island," which will be shown next Thursday and Friday at the Varsity theatre here, and for its making we salute Paramount. It is a great tribute to heroic men against insuperable odds.

THE SHOW MUST GO ON—NOV. 5 AT COLLEGE

"Lady Be Good" Full of Laughs For Audience

The comedy, "Lady Be Good," will be presented November 5, in College Auditorium at 8:14 p.m. After four weeks of rehearsals, the cast is still saying, "Lady Be Good." But the lady has a temper which results in comedy for the audience. Note—Comedy for everyone in the audience.

The poor cast has sore jaws, sore fists, and black and blue spots scattered throughout their anatomy, trying to conquer the "Spoiled Brat," but the show must go on! Anne Berry is the brat otherwise known as the lady (?). Donald Stroud is the bewildered father; Curtis Hughes, the jilted lover; Bertie Jo Potvin, the girl who should be a "piece" of loving; Jean Ryan the man who has the jaw that has to take it and James Fletcher the man who gives it; Robert Shanklin and Hilda Farley, the two who are thankful for good clothing that can't be torn off with a snatch; Jane Corbin and Jane Jones who haven't decided if the pay is worth the price of their skin; and Virginia Swyers who does a lot of deciding for everyone including herself.

The technical staff consists of: Jean Hicks, student director; Martha Quirey, Kenny Keane, Margaret Holland, Lucy Wilfred, Jane Gibbs, and Barbara Harris as electricians; Angie Apperson, Emily Fields, Henerita Medlock, Mary Evelyn Jordan and Jeanne Greene as make-up artists; Patsy Cunningham, Edwina Jones, Josephine Crawford, Martha Belle Hosi, Ruth Nall, Charles Ralph and Norma Billington as ushers. The scenery was painted by Mildred Whitlow assisted by club members.

John Shenaut of the music faculty has charge of the theatre orchestra this year, and Helen Thornton is the director of "Lady Be Good."

NEW RATION CLERK

Claude L. Miller has taken the place of Freeman Pitts as chief clerk of the Calloway War Rationing Board.

125 to 200 Tons Of Lime Coming Into County Daily

Many inquiries are being made at the County Agent's Office by Calloway farmers as to when their lime will be delivered. The Lime Co-op and Carlin Riley, trucker, are making every possible effort to move the lime to farms as rapidly as possible. Mr. Riley has a fleet of trucks moving from 125 to 200 tons of lime per day into the county. However, due to shortage of trucks, additional trucks are not available to put on the job.

Farmers who desire to get their lime spread should contact Mr. Riley at Kirksey. He has a built-in lime spreader on one of his trucks and can spread lime directly from the truck, at a reasonable cost-per-ton, for those farmers wanting this service.

Also, farmers who want lime to be spread in the spring should order it now so as to be sure to have it in time.

However, everyone is being urged to go to the polls and cast his vote. This country, it is pointed out, is the only one left that has free elections. NO GASOLINE UNTIL OWNERS LIST TIRES

Gov. Buying All
Over Five Each
Car Owner Has

Gasoline rations will be issued to private-passenger cars only after their owners list all their tires by serial number and certify that they have no more than five tires in their possession for each such car.

A false statement about tires is an offense punishable by a fine up to \$10,000 and imprisonment up to 10 years.

Car owners that have more tires than five for each of their cars must sell them to the government. This is easy to do. Simply take them to the Railway Express office where they will be shipped to a government warehouse. The Express office will give the owner a receipt for his tires. He will receive a check for them later from the government.

Car owners should keep their five best tires, and sell the others. Registration for gasoline rationing is to begin November 9. No one with more than five tires per car may register.

Those who passed for sure and are ordered to report for induction at Ft. Benjamin Harrison on November 10 are:

Ural C. Story, Alton Garland, William F. Pollard, John S. Thurman, Ross B. Smith, T. J. Kirks, Herbert E. Boyle, Everett Nanney, John E. Scott, Augustus W. Russell, Clyde G. Lynn, J. C. Dunn, Ivan B. Lack of reserve strength is the only thing bothering Basketball Coach Miller at the present time although it is over a month and a half before the varsity team will swing into action against other colleges.

Miller, who was named basketball coach at Murray State when J. Rice-Montjoy resigned, will have only four members of last year's varsity squad returning this season. They are Joe Fuls, Hy Grimmer, Herb Hurley and Ed Ellison. Miller hopes to build his squad around those four. Two boys who played on last year's freshman squad, John Padgett and Leggett West, will be available this season as will Leonard "Red" Metcalfe, who starred on the freshman team two years ago. Metcalfe was out of school last year but re-entered this fall.

A couple of freshmen upon whom Coach Miller is counting for help are Odell Phillips, Brookport, Ill., and Philip Thompson, Edmonston, Ky.

Thus with only nine men listed on the squad, Miller is faced with the task of finding several more boys so that the reserve strength of the club will be up to par.

More Jerseys To
Be Classified
Here Oct. 30, 31

Arrangements have been made for classifying more Jersey cattle in this county and nearby Friday and Saturday of this week. Prof. Salisbury of Ohio State University will do the judging.

Among those who have arranged to have cattle classified are the College, Hoyt Craig of Hazel, and W. F. McMurray of Paducah.

Dr. J. M. Melvin of Sedalia and Mr. Whitlow, whose heifers have freshened since June, will have their heifers classified as older cattle. W. R. Morris & Son of Hopkinsville will have their large herd classified. J. C. Askew & Son plan to have all their heifers rated last year, and possibly some older cows reclassified. Others not yet reported here may have sent in applications.

Any one interested in Jerseys should arrange to attend some of these classifications. The public is welcome.

Girl Scouts to
Hold Meeting

The Girl Scouts will hold a meeting Friday, October 30, at 4 p.m. in the Carr Health building at the College.

All girls over the age of 10 who are interested in becoming scouts are urged to attend this meeting.

"The Mission Had Been Accomplished"

"A running fight between the bomber and the 18 Japanese pursuit planes continued for 75 miles . . . continued until the remaining pursuit ships exhausted their ammunition and turned back. With two engines gone and the plane practically out of control, the American bomber returned to its base after dark and made an emergency landing. THE MISSION HAD BEEN ACCOMPLISHED."

—President Roosevelt, in his Fireside Chat, April 28, 1942

THERE, in the words of President Roosevelt, is one of the war's most stirring episodes—a demonstration of how, with one man killed, another man's hand shot off, and a third man injured, our American boys stuck to the fight, bombed their objective, and brought their plane home.

Undoubtedly you felt a thrill when you heard it over the air, and maybe you'll have another thrill reading it again.

But your thrills won't win the war!

It takes planes—thousands of them—and tanks—thousands of them—and shells—millions of them—and bullets—billions of them! It needs ships and guns and jeeps . . .

It takes money.

It takes the money of all of us—the girls at their typewriters, the men at their machines—the clerks,

the farmers, the messengers, the bookkeepers and the salesmen.

It needs a surging, patriotic Nation of people who love their country enough to buy a share of America by investing 10% of their wages every payday—a dime from every dollar—in War Bonds.

It needs—and it's getting it!—the cooperation of Labor and Management to put the Payroll Savings Plan over the top.

Your money in War Bonds—10% of your salary every payday—not only will help pay the bill to create the most powerful blasting force ever put together—but you'll do yourself and your family a favor, too.

Because every time your savings amount to \$18.75, you'll get a War Bond—worth \$25 in ten years.

You don't give your money—you invest it, both for Victory, and for your own personal security.

That's your mission—will you accomplish it?

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood. You may suffer nagging backache, rheumatic pains, headache, dizziness, getting up nights, leg pains, swelling, bloating, urinary and scanty urination. With smacking and burning is another sign that something is wrong with the kidneys of bladder. There should be no doubt that prompt treatment is wise and needed. Use Doan's Pills. What It Costs France To Support Nazi Foes

The Fighting French delegation in Washington said this week that every day of occupation by the Germans cost France enough.

1. To pay a yearly salary to 20,000 unemployed workers in France.

2. To build 2,500 modern workman's homes.

3. To build 80 miles of railway lines, complete with signals, bridges and stations.

4. To buy 450 locomotives.

the 150 acre farm of the late J. C. Dunn in order to settle the estate. If you are interested in a farm for a home or as an investment you should be at this sale to get at your own price one of the best combination crop and livestock farms in West Kentucky. About 1/2 mile of this farm is first bottom land of Duncan's Creek and the remainder lies well for pasture and hay and occasional tillage. Limestone has been spread over much of this place in recent years.

In addition to being an ideally balanced and fertile farm for crops and livestock, it is within a few hundred yards of a black-topped state highway, close to a well graded school, two churches, post office and general stores. Electric current is near the farm. This place is in an excellent community and joins excellent neighbors. With some attention to the improvements this can be made a most attractive place. The five-room residence has practically a new roof. If you are not in position to own this place write or tell a friend about it and give them the date of sale. See Mrs. Genella Lawrence at the Hardin Post Office to inspect the farm.

Rev. Smith, On Emergency Million Campaign, to Speak Here Sunday

The Rev. F. E. Smith of Indianapolis, Ind., will be the visiting speaker at the morning services of First Christian Church Sunday.

Rev. Smith comes in the interest of the Emergency Million Campaign of the Disciples of Christ.

This is the second year of the campaign which was launched as a two-year effort on July 18, 1941. This is, however, the first visit of the Emergency Million effort to the state of Kentucky.

The effort thus far has reached 38 states. Eight states have exceeded their goals. Five hundred twenty churches have exceeded their goals. Six hundred thirty-nine thousand dollars have been raised in cash and pledges. Over one half of the amount has been cash.

This campaign is to meet the emergencies of the educational and missionary work of Disciples of Christ, both of the regular work and the additional work brought about through the participation in the world war. Among these are loans to churches in defense areas and provision for suitable leadership to meet the pressing demands brought about by shifts in population. Enlarged service to chaplains in the service colleges strangled by large losses of students, the rescue of stranded missionaries and the increased expense of those still in service and a large number of other emergency needs make the raising of this fund necessary.

Rev. Smith has an intensely interesting story to tell of our work throughout the world in war times and the public is cordially invited to hear him. No attempt

at money raising will be made at this service. A capable speaker, Rev. Smith has held many offices of responsibility in his brotherhood and was delegate to the Lausanne World Conference of Faith and Order and to the Annual Conference of British Churches.

RETONGA A BLESSING SAYS ELDER P. B. MAY

Best Of All The Sluggish Elimination And Soreness And Cramps In His Muscles Are Relieved, He States, Eats Better; Feels Stronger

Hundreds of men and women all over this section are coming forward with happy and grateful praise of Retonga, and among the latest is Elder P. B. May, the fifty-year-old minister of the Church of Christ, who resides at Great Northern Hotel, Terre Haute.

"For the last few years constipation had such a grip on me that I had to take laxatives or purgatives, even then I felt full of toxins," states Elder May. "Many days my muscles felt so sore, especially in my legs, it was hard to get about. I felt sluggish and let down, and at night the muscles in my legs cramped so badly that it was difficult to get much sleep."

"Retonga gave me splendid relief. I have a better appetite, I seem to digest my food better, and I have less sleep. But best of all, the sluggish elimination is relieved and so are

the soreness and cramps in my muscles. It is a blessing to have such a grand medicine as Retonga."

Elder May is a native of Orange County, Retonga is intended to relieve such symptoms as described by Elder May when they are due to loss of appetite, insufficient flow of gastric juices in the stomach, constipation, and Vitamin B-1 deficiency. Accept no substitute. Retonga may be obtained at Wallis Drug—Adv.

Morning and evening worship services at the First Baptist Church are at 10:30 and 8:00 o'clock respectively. You are cordially invited to worship with us. The morning and evening message will be brought by the pastor. We should now turn to God and worship Him as never before. It is only with Him that we can find comfort in these troubled times.

Sunday School for all ages with fine teachers for all begins promptly at 9:30. Parents who are urged to come and bring your children to this vital period of Bible study and worship.

Training Union starts at 6:45. You are invited to come and start in this vital program of training in Church membership. The motto of the Training Union might be "Every Christian a Growing Christian."

Mid-week prayer service at 7:30 Wednesday evening. Join other fine Christians in this hour of prayer and meditation.

THE CHRISTIAN VIEW OF MARRIAGE

LESSON TEXT—Genesis 2:18-24; Matthew 19:3-6; John 2:1-5.

GOLDEN TEXT—Marriage is honorable in all—Hebrews 13:4.

The home is not just one of the institutions of our social order, it is a part of God's plan for man. It thus holds a position of greater importance than institutions of society, and should take first place in our thinking.

Home and the life which centers in it has lost much of its meaning and value in recent decades. It is appropriate and timely to study for four weeks in our Sunday schools the foundations of marriage, the home and to learn how we may hinder or help it in its influence. Teachers will wish to make much of this vital series.

We begin right where we inquire what the Bible teaches about marriage, and we find the instruction plentiful and to the point. Concerning marriage we learn:

I. Its Origin—Ordained by God (Gen. 2:18-24).

Nations and states have marriage laws, and certain social customs must be met. But true marriage from the Christian viewpoint is far more than a civil contract. It is an ordinance which God Himself ordained from the beginning for the welfare of man.

As Adam gave names to the animals (which, incidentally, tells of his ingenuity and ability), they passed before him. It became evident to him that there was no true fellowship between man and beast, that there must be a "help meet" for man, one of his own kind, with his capacities of personal being.

God quickly and adequately meets every real need of man, so He created out of Adam's own flesh one who was his true companion. "If man is the head, she is the crown," said Matthew Henry. "The man was dust refined, one move further from the earth. She was not taken out of his head, she is the crown, not out of his feet to be trampled upon by him, but out of his side to be equal with him, under his arm to be protected, and near his heart to be beloved."

So God ordained marriage, but down through the ages man has seen fit to tamper with God's holy arrangement, adjusting them to suit himself, so we need to be reminded of the truth.

II. Its Control—Not Subject to Man (Matt. 19:3-6).

Because of the hardness of man's heart Moses permitted divorce (Mark 10:4-9), but God did not intend it from the beginning. The Jewish rabbis had so stretched the interpretation of that act of Moses that a wife could be divorced for almost any reason. The same was true among heathen nations.

Our Lord makes it very clear that man has no authority to determine such matters at all, that the union of life in true marriage is by the act of God, and that no man has power to sunder such a relationship.

The whole trend of thought on marriage has been away from its sacredness as a divine institution, and we need to return to a proper appreciation of it as such. All too often, marriages are mere civil agreements, hastily made before a justice of the peace. We need to encourage our young people to recognize

III. Its Dignity—Sanctioned by Christ (John 2:1-5).

The wedding ceremony tells us that marriage "is an honorable estate, instituted by God in the times of man's innocency, confirmed by the teaching and hallowed by the presence of our blessed Lord, and likened by St. Paul to the holy union that exists between Christ and the Church; and therefore is not by any means to be entered into unadvisedly, but reverently, discreetly and in the fear of God."

At the very beginning of His public ministry Jesus performed His first miracle as His share of a wedding feast. It is true that He does share every occasion of joy and sorrow of His people, but it seems to be significant that this first occasion for His miraculous power was a wedding.

It was there to rejoice with and to bless those who had exchanged their vows in marriage. Should He not be the unguessed guest at every wedding? Whether in the home or in the church, whether the occasion be a simple or an elaborate one; whether a host of friends attend or only the witnesses—always and everywhere Jesus Christ should be recognized as the One who stands by to bless, and to unite the two lives for His own glory.

This means that the ceremony should be a Christian one, with prayer as a part of it, and the will of God paramount. Then indeed, God may and will join together that which no man can put asunder.

Applications For Trees May Be Mailed or Phoned

Last week there appeared in this paper an announcement of the tree planting program sponsored by the TVA and the Agricultural Extension Service. Due to the necessity of saving as much mileage as possible, applications for trees will be accepted by phone or mail. Simply write or call Dick Sandefur, Assistant County Agent, Murray, Ky., giving name and acreage needed to be set to trees.

Upon receipt of application, the TVA Forester will visit the proposed planting site and discuss planting methods with the land owner. Trees will be delivered and set in the early spring when farm work is not making demands on the farmer's time.

Every acre should be in production. If you have waste land not now producing, make application for trees to be set on this type land today.

Six Hundred Million Extra Lbs. of Poultry Is Goal for Farmers

A call to farmers and poultrymen of the country to help beat the meat shortage by raising 200 million extra chickens this fall and winter has been issued by Secretary of Agriculture, Claude Wickard.

"This needed increase of six hundred million extra pounds of poultry is not due to a smaller production of red meat," explained M. D. Royce, chairman of the Kentucky State USDA War Board. "This year's production of red meat will set an all-time high of 24 billion pounds, but this country's consumption of meat which previously ran around 17 billion pounds a year has increased to 21 billion pounds and this consumption increase does not account for meat sent to our boys overseas."

Some Early History

By JOHN W. HOLSAPPLE
Temple, Texas

During the Civil War gunboats destroyed a thousand barrels of salt at Newburg on the Tennessee River. Salt was at that time selling for \$25.00 a barrel on the east side of the river but brought \$30.00 on the west side.

Boats burned wood in those days. Newburg was one of the wood landings at which boats took on wood for fuel.

There were only a few railroads in the country at that time and the rivers afforded main arteries of transportation. Gunboats went up both the Tennessee and Cumberland from the Ohio in order to penetrate the South. Ports were built on the banks of each to keep the Federals from passing. Fort Donelson was built on the Cumberland and Fort Henry on the Tennessee, only a few miles apart.

General Grant went up to Fort Henry and attacked it on the 6th of February, 1862. Capturing Fort Henry, Grant moved over to Fort Donelson on the Cumberland and routed the Confederates from that stronghold. During the fight Col. Morgan Smith's cigar was cut from his mouth by a bullet; a soldier handed him another which he lit and went on. I remember hearing the exclamation of that battle: Our home was only a few miles away. This victory took Kentucky and Tennessee from the South, caused the evacuation of Columbus, Bowling Green and Nashville and greatly depressed the South. All over the North-gossips were saying to one another, "This fellow Grant seems to be a good man—who is he? U. S. Grant—Un-"

conditional Surrender Grant, I suppose."

When the war was over and Calloway's fighting men had returned there were several wounded ones among them. They were highly honored. For a long time one of the best qualifications a candidate for most any county office could produce was the fact that he was a Confederate soldier. To the honor and credit of all such, it can be truthfully said they were worthy—and next to impossible to defeat at the polls. That applied to practically all counties of the old First Congressional district. Not long after the war Oscar Turner had such a grip on the voters of the district that it seemed impossible to defeat him. Finally a one-legged Confederate Veteran, W. J. Stone, offered for the place and was elected. Stone's most appealing speech consisted of a recital of his being wounded on a southern battlefield and nursed back to life by a beautiful Southern girl whom he persuaded to become his wife. Old Timers will readily recall the names of several ex-officials who were all first ex-Confederates. I expect my first vote was cast for a Confederate Veteran. While I was not old enough to be in the war I have been a chaplain for the United Daughters of the Confederacy for several years, and delivered several addresses at their memorial services. On one of these occasions I recited the following original poem:

The men who wore the suits of gray
Are passing fast from earth away.
As comrades they together meet
But often note a vacant seat.

As one by one from earth they go
We sing a requiem soft and low
And try to pay some homage due
The memories of brave hearts and true.

And as we count their virtues o'er
We're made to love them more
And more;
For men they were whose lives
Were filled
With deeds which oft our hearts
Have thrilled.

But while on these we meditate
We're forced also to contemplate
A time and scene which soon must come
When veterans' all are gone but one.

The thoughts which him must then possess
Will surely be of loneliness;
If of the now alone he thinks,
The cup is bitter which he drinks.

But his future then be bright
There'll come to him almost in sight
"Meeting place for all the good
Who fought with Johnson, Lee or Hood.

He soon may walk the Golden Street
The loved and lost again to greet
And with them there forever stay
Where life is one eternal day.

But when his spirit then shall go
His body must remain below
And some one it must lay away
To await the resurrection day.

And some one too a service hold
In memory of the soldier old;
Some resolutions shall be read
And something must be also said.

Does some one now the question ask
Who'll take this sad and solemn task?
The answer quick as lightning—
course—
The loving hands of veterans' sons.

They'll gladly do such deeds of love
And hope to meet their sires above
Where partings never more will come.
But all remain in Heaven at home.

YOUR EYES AND YOU

By Orris C. Wells, O. D.

Civilization has lifted burdens from the shoulders of human beings but it has added extra burdens to our eyes, and the resulting eye fatigue interferes with the proper functioning of the whole body—just as one badly adjusted part will wreck the smooth efficiency of an automobile. It is our duty to keep our eyes functioning as near normally as possible and thus "tune" the machines that are our bodies.

The world of today is one of rapidity. We live fast and we play fast, and this condition adds to the burdens of the human eye. In consequence thereof slight defects of vision which may not have disturbed our rural ancestors are of supreme importance to us of today.

Keen sight is a blessing, but sight may be clear and sharp and yet lack comfort or efficiency. Because of reserve power it is difficult to distinguish between health and disease; between the normal and abnormal. The eyes especially have great reserve. With the adaptability of the retina, the pupillary responses, and finally the assistance of the muscles and eye-lids, good vision is possible often with eyes that are fatigued, or abused, or even definitely defective.

The eyes use a large part of the energy of the body and listlessness and a "draggy" feeling may not be laziness, or "spring fever," it may be fatigue due to the eyes using more than their rightful allotment of energy. Imagine the tremendous energy you would expend during a day trying to distinguish, for instance, if a certain distant object were a horse or a cow, or in trying to decide the exact location of certain objects. Then you may understand why a person with impaired visual efficiency would be totally exhausted by nighttime.

Too few of us realize how many of our physical organs are closely related to the eyes, and how improper functioning on the part of any one of these organs can affect a "reflex" in our visual functioning. For example, the stomach and the eye are so closely related that any disturbance in the functioning of the stomach is readily manifested in the eye and can be detected by an Optometrist. There are many diseases which manifest first in the eye. Thus we see that good vision comes largely by excellent health.

Optometry has delved so deeply into causes that now we know that much eye trouble is due to improper diet. Vitamin has been an over-worked word in the past few years, nevertheless we know that a deficiency in the diet may result in a sort of "night blindness" making it difficult to see under faint light. The eyes are the television sets of the brain—the brain directs the entire functioning of the body. A diet which weakens certain portions of the body must necessarily reflect on all parts of it.

A body so unbalanced as to have skin disturbances may show corneal ulcers, mucous inflammation and other destructive changes as eye symptoms related to skin disorders. Children, allowed excessive amounts of sugar and candy often suffer from inflamed lids and corneal troubles. A diet of sugar and starches will often develop astigmatism, manifesting itself at its commencement by increasing myopia (near-sightedness) and a accompanying changes in the retina.

The eye is the only organ into which you can look and see changes in the tissues and blood. Optometrists who have "dedicated our lives to the conservation of human vision" often quote a little motto which I might use as a fitting conclusion to this article. It is simply, "Take care of your eyes and your eyes will take care of you."

Guardsmen Quartet To Give Concert Here November 10

The second in a series of concerts sponsored by the Murray State music department will be given November 10, at 8:15 p.m. in the auditorium by the Guardsmen Quartet.

This male quartet has been together since 1930 and has been constantly engaged in motion pictures, radio and concert. They have appeared with such personalities as Lawrence Tibbett, Grace Moore, Gladys Swarthout, Nelson Eddy, Bing Crosby, Dorothy Lamour and many other motion picture artists. They have also worked under Stokowski, Kostelanetz, and many other noted orchestra conductors.

The Guardsmen Quartet has been in Murray before and music lovers are pleased to learn of this return engagement. Prof. Price Doyle, head of the fine arts department, said.

Has Your Property Insurance Been Brought Up To Present Needs and Requirements?

Murray has just experienced one of the worst, if not the worst, mercantile fires in its history, from a dollar-and-cents standpoint. Certainly we are sorry that this loss occurred; and also we are indeed sorry that some of our good friends were not adequately protected with sound "Capital Stock Insurance" protection.

While a fire loss gives to both the owner of the building and to those who may be occupying the building priority of commodities and articles for replacement, it is also true that many of those articles and commodities cannot be purchased today even with priority.

But you can purchase Standard Insurance Protection to cover your loss, including any loss on rents and/or rental values or leases or leasehold values.

Any member of this agency always has plenty of time to discuss your insurance problems with you without obligation on your part.

Ask those for whom this agency had insurance in the recent disastrous fire loss whether we are interested in seeing that their claims are promptly and adequately adjusted.

Student Artist, Barbara Mitchell

Few people ever see the art student's work that has been done on the campus. One very talented student has a very interesting collection of water-color, oil paintings, wood carvings, crafts, and clay figures done while attending Murray State College.

The student, Miss Barbara Mitchell, senior, Glasgow, Tenn., is a transfer from Judson College, Marion, Ala. She not only is an art student but played on the basketball and tennis team at Judson and tennis team at Murray.

One of Barbara's most valued possessions is a life size portrait of her sister Anne that she modeled in clay (picture above). Another large work was a garden figure modeled in clay.

Lionel Carries on As Dr. Gillespie

Ever-popular Lionel Barrymore is still continuing his role as Dr. Gillespie in Hollywood. In a series of pictures he was cast with Lew Ayres, but Lew was drafted a few weeks ago. He decided he was a conscientious objector and was sent to a camp for objectors. Shortly thereafter he changed his mind and is now serving with the U.S. Armed forces.

In the meantime a man was found to take Ayres' place. He was Philip Dorn, who plays a leading role in "Calling Dr. Gillespie" with Lionel Barrymore. This picture, a medico-mystery, is due at the Varsity here Saturday, October 31.

Letter To Editor

Flight C 355th Tech. School Sq. U.S. Army, Jefferson Barracks, Mo. Dear Sir:

As my thoughts were wandering back to Murray, I thought I would write you a few lines. I arrived at Jefferson Barracks, Mo., Monday night from Ft. Harrison, Ind. Only a few came along from Calloway with me. There is all I know of—Cecil Eldridge, Herman Todd and Ralph Johnson—and myself, and G. R. Outland, who I almost forgot.

If any of you people from Murray happen to be over at St. Louis I would be glad to see you. Jefferson Barracks are located a few miles out of St. Louis.

Us boys over here as well as all over the nation are only doing what you people are expecting of us, and of course we are all expecting and hoping for an early Allied victory—one where Adolph Hitler can never encourage another Pearl Harbor attack and we feel that you people are really going to do your part.

We can never give those boys at Batann and the Solomon Islands too much praise and we all appreciate that gallant stand of the Red Aviators. They are not giving just 100 per cent but 150 per cent. Of course we boys would like to tell of some of our work but we have found out it's probably best not to do so. Will close for now.

Sincerely,
Pvt. Charlie Lassiter

production which was generally pronounced one of the most beautiful entertainments ever given in Paducah. This presentation was arranged by the president of the Kentucky division and Mrs. H. C. Corn of Murray, chairman of the sequacious committee. Mrs. John L. Woodbury of Louisville prepared and read the script. Chairmen of the production committee were Miss Mildred Hatcher and Miss Fay Champion of Paducah, who were assisted by Miss Mildred Beale and Mrs. W. Z. Carter of Murray. Mrs. Walton of Paducah was property manager.

Among those from the J. N. Williams Chapter taking part in the pageant were Mrs. Tom Rowlett, Miss Myra Bagwell, Mrs. Lester Farmer, Miss Hazel Tarry, Mrs. Ben Crawford, Miss Hilda Dulaney, Mrs. Henry Elliott, Mrs. H. C. Corn, Mrs. E. J. Beale, Mrs. George Hart, Mrs. Hall Hood, Mrs. Neva Waters, Mrs. Tom Banks, Sr., Mrs. Gingles Wallis, Miss Lula Clayton Beale, Mrs. Ray Munday, Mrs. B. W. Overby, Mrs. Bertha Jones, Mrs. H. P. Wear, Mrs. Fred Gingles, Mrs. Wallace Key now of Paducah, Mrs. J. D. Peterson of Benton, and Mrs. J. V. Stark of Kirksey. Special numbers during the pageant were given by the following Murray talent: Mrs. Gingles Wallis, Miss Lula Clayton Beale, Miss Jane Jones, and Miss Lochie Fay Hart, with Mrs. Bertha Jones as accompanist.

A highlight of the convention was the presentation of trophies and awards to various chapters and individuals throughout the state. The J. N. Williams chapter of Murray received the award for the greatest increase in membership, won by the W. J. Stone chapter of Frankfort. It is hoped that members of the Children of the Confederacy in Murray and Calloway County will, in the future, compete in greater numbers for the awards offered for essays and outstanding work.

On her return from the convention in Paducah, Mrs. Swann was accompanied by Mrs. W. T. Fowler, who was a distinguished guest in the Swann home during the week-end. This year, Mrs. Fowler, who is a past president of the Kentucky Division, UDC, was chosen by the Golden Rule Foundation as the Regional American

mother of five sons and one daughter, and in addition to the family, Mrs. Fowler and her husband have educated a number of other boys and girls. She won her law degree and admission to the bar when she was fifty years of age.

In appreciation of the cooperation of the Murray group, Mrs. Swann entertained them at an informal party at her home Monday evening to meet her house guest, Mrs. Fowler.

Mrs. Swann will leave next week to attend the general convention of the United Daughters of the Confederacy which meets in St. Louis November 4, 5, and 6. Miss Mary Prince Fowler of Lexington will be her page at the convention.

Delegate to the convention from the J. N. Williams chapter will be Mrs. J. D. Peterson of Benton, who will accompany Mrs. Swann.
