THE MURRAY LEDGER.

VOL. 88. NO. 11.

MURRAY, KENTUCKY, THURSDAY, JUNE 8, 1916

5.00 PER YEAR

A BLOODY AFFRAY IS UNEARTHED.

Under a scare head that swept across four columns of space the Parisian of last week unearthed one of the bloodiest shooting affrays that ever occurred in Henry county. However, the facts do no warrant this publicity given the affray by the esteemed Parisian. Butler lives with Bud Dick, in the southeast part of Calloway, and while slightly wounded some three weeks ago is again "sighting back" for Mr. Dick, and when asked some few days ago if the bullet, which entered his cheek, had been removed remarked that "he guessed that he would spit the dang thing out 'fore long." The fact that Butler was wounded was given publicity in the Ledger three weeks ago but here is the way the Parisian describes the affair:

"One morning last week Granville Butler was shot and seriously wounded by Taylor Owens, who used a 22 calibre rifle, in a bloody affray at the latter's home on Eagle Creek, several miles east of Buchanan. One bullet entered Butler's right side and the other his right eye. According to reports reaching Paris, which were very meagre, Butler attempted to enter Owens' home, threatening to whip him, when the latter fired.

"The first bullet entered Butler's right side, inflicting a flesh wound, and this only served to enrage him the more and he then tried to rush into the house and get at Owens, it is said, when the second shot brought him down.

"While it was impossible to get any late information, it is said that Butler, although dangerously wounded, has a good chance of recovery. So far as could be learned no warrant has been sworn out for Owens and no attempt has been made to arrest him. Butler is about 45 years of age, while Owens is probably not more than 26 or 27. Both are farmers of the Eagle Creek section.

"According to reports reaching Paris trouble had been brewing between Butler and Owens for several months."

Former Murray Girl Entertained.

The Mayfield Messenger of last Saturday contained the following account of a social affair in that city in which the bride, Mrs. Gorman, formerly Miss Jewel Ferguson, of this city, was the guest of honor:

"On Friday afternoon at the

home of Mr. and Mrs. F. T. Gorman on South street a miscellaneous shower was given in honor of Mrs. W. A. Gorman, a recent bride. The color scheme, red and white, was carried out in the decorations of the house.

"The guests were met at the door by Miss Evelyn Gorman. After the arrival of the guests little Miss Jeanette Watson entered the room carrying a large red basket filled with many beautiful gifts and presented them to the honoree.

"After the opening of the presents the guests were served by Misses Evelyn Gorman and Nell Puryear with ice cream and cake, in red and white. The guest list included Mesdames J. E. Watson, Jones Griffith, Bates Haskins, Pat Happy, D. M. Bonner, L. H. Dodson, J. W. Frisbie, D. L. Brown, J. J. Castleberry, W. H. Albritton, Slayden Covington, George Covington, James Lochridge, Will Norman, Willard Blalock, Will Robinson, Bunk Gardner, Ellis Wickersham, Chester Byrn, Ben Covington, Jack Harper, Roy Tibbs, Slade Quinn, J. U. Kevil; Misses Nell Puryear, Katie May Creason, Kittie Albritton, Sophie Sharp, Margaret Norman, Bessie Usher, Madeline Murphy, Onie Happy, Sarah Barbee, Jeanette Watson."

Two Fires at Dexter.

At 2 o'clock Monday morning the residence of W. A. Threatt, formerly of this place, burned to the ground. Mr. Threatt and wife barely escaped in time to save their lives. They lost all their household effects but one trunk. The fire originated from a defective flue. Loss about \$1,000, partially covered by insurance. Mr. Threatt and wife are moving back to Hardin to reside. The residence of Carlis Copeland caught fire about 10 o'clock Monday morning and was destroyed. Mr. Copeland saved a portion of his household goods and had some insurance.—Hardin Enterprise.

Miss Mamie Hood Married Sunday.

Dyersburg, Tenn., June 6.—Miss Mamie Hood, of Belfield Chamblin of this city were married Sunday afternoon at Covington, Rev. Burke Culpepper performing the ceremony. They returned to Dyersburg immediately after the ceremony and are now at home here at the residence of the groom's mother on Troy avenue. Mr. Chamblin is an employee of the American Express Company and a young man of sterling qualities. The bride is the daughter of Rev. R. W. Hood, pastor of the Methodist church, and is popular among the younger set.

PLANTERS PLAN TO REORGANIZE

At a conference of officials held in Clarksville, Tenn., Thursday, plans for the reorganization of the Planters' Protective Association, an organization that has been suspended for the past year, were laid and a committee appointed to supervise the campaign of reorganization. Messrs. W. R. Nagel, of Paducah, and W. B. Blakemore and S. Wells, of Martin, Tenn., were appointed on the campaign committee.

According to Mr. Nagel the reorganized association will start an immediate campaign for members, and thinks that under the improvement of conditions the new association should prove complete success. New members to the association will be added, as well as a majority of the old members.

Disturbed conditions resulting from the European war were responsible for the suspension of the old association, but now that conditions have become normal again, in that the American tobacco men know what conditions to expect in Europe, they think that the protective association of growers will be a success.

Among those in attendance at the conference were Messrs. W. R. Hocker, of McCracken county; C. E. Betts, of Ballard county; and J. S. Turnbow, of Craves county.

W. O. W. Unveiling.

The monument erected to the memory of Gov. R. C. Stubblefield in the cemetery at Coles Camp Ground will be unveiled the third Sunday in this month at 2 o'clock by Almo camp, W. O. W. All members of the camp are urged to attend the meeting at Almo Saturday night before the date of unveiling, and an invitation is extended to all Woodmen to attend the unveiling services.—Pat Beale, Sov. Com.

Beware Sale of Spoiled Eggs.

Seeking the mutual interest of farmers, hucksters, merchants and all dealers in eggs, produce dealers have sent broadcast circulars of warning against the sale of bad eggs and an appeal to establish a reputation for marketing eggs of the first quality is made.

Persons selling eggs showing five per cent loss can be prosecuted under the state and federal laws. A penalty of \$200 is

fixed and for subsequent offenses a fine of \$300 and imprisonment can be made. The jail sentence runs as high as one year.

The co-operation of the producer, country merchant, huckster, commission merchant and warehouseman as well as the retailer, is requested. Farmers are requested to gather their eggs every day—twice a day in hot weather—and to store them in a cool, dry place—not a cellar, but a cool and well ventilated room. Eggs should be marketed once a week in winter and two or three times a week in summer. Country merchants should insist on this and keep their eggs on the move to market.

Bynum Horse Again Winner.

Billy Sunday, fast pacer owned by Messrs. W. H. and Sam E. Bynum, walked away with the straight heats yesterday afternoon in a match race at the West End Fair Grounds with Rolly Canewood, owned by D. A. Dunn, of Smithland. Billy was driven by Binkley and proved beyond a doubt that he was the better horse of the two. The best time was 16, flat.

In the first heat Binkley trailed Rolly Canewood, who had the pole for over a half mile, but on the back stretch opened up and at the turn took the pole and finished two lengths to the good. The second and third heats Billy waltzed around in 2:16 and 2:16 1/2, leading all the way. Canewood was driven by Haynes Dunn.

A number of horse fans were at the track to witness the contest. Canewood was the favorite before the first start.—Paducah News-Democrat.

Saw That Yellow Label.

Wewoka, Okla., June 3. The Murray Ledger.

Dear Mr. Jennings:—Enclosed please find \$3.00 which we are sending to you for your valuable paper which we have read with great interest and care. As it is our old home paper we are always glad to get the good old Ledger. With best wishes to the Ledger and its many readers, I beg to remain,

Yours very truly,
N. R. Outland.

Tobacco Company Loses.

The first of the tobacco contract suits to be tried in circuit court resulted in a victory for the defense yesterday when a jury returned a verdict in favor of W. A. Miller, defendant in an alleged violated contract suit brought by the Dickerson Tobacco Co.—Paducah News-Democrat.

STORM SWEEPS WEST KENTUCKY

Mrs. Sam Brewer, wife of a well known Marshall county farmer, was seriously injured Monday night when the storm and rain which visited West Kentucky demolished the Brewer home, twelve miles north of Hardin. Mrs. Brewer sustained a broken rib and a dislocated shoulder from the falling debris, while Brewer himself received a deep cut on the chin. Their home is a total wreck.

Marshall county barns were damaged severely by the storm. Hardly a barn in the vicinity was left standing. The barn of Dow Gardner, farmer, was struck by lightning and slightly damaged, while the wind blew down a barn belonging to Willis McKendron, two miles north of Benton. Three horses and one cow were killed, and the loss will approximate \$2,000. The roof of the Methodist church near Hardin was blown off, while a horse belonging to Zack Wade was killed when lightning struck his barn.

Damage to crops in Marshall county, where the storm seemed most severe in West Kentucky, was heavy, and the loss will be large. Trees were snapped off by the wind and lightning, and a general petty damage caused from the storm.

In McCracken county the storm reached its height at Heath, where trees were torn down and crops damaged. Elsewhere the damage was slight.

Telephone and telegraph wires suffered from the wind and lightning. At Metropolis several buildings were unroofed while trees and wires were blown down. At one residence a porch column was stripped from a house and hurled across the street. There was no damage to life.

Considerable damage was done in Mayfield and vicinity by the heavy wind of Monday night. The roof was torn off of a large flouring mill in the Graves county capital and several houses were moved from their foundations.

Mule's Kick Fatal.

Paducah, Ky., June 6.—After hovering near death for several days, Charles Kindred, aged 45 years, a farmer residing near Kevil, died from wounds caused by the kick of a mule. While lifting a trace chain the mule planted both feet on Kindred's left side causing internal injuries. The force of the kick is said

to have burst Kindred's liver. No hope for his recovery was entertained by the attending physician. He is survived by five children. The deceased was a prosperous farmer.

(Mr. Kindred was at one time a resident of this city and is well remembered by many of our citizens. He is a brother of Alf Kindred, also a former resident of this city, now located in Oklahoma City, Ok.)

Father's Millions in New Channels.

In the June American Magazine Albert W. Atwood says: "John D. Rockefeller and his brother William are too old to tread upon unbeaten paths or found new industries. But William Rockefeller's millions, it is important to remember, are now in the aggressive hands of his son, Percy A. Rockefeller. It is the son's initiative which made the family money available for the giant steel merger of this new era of mergers, and he it is who has struck out boldly into a new field, more untried and bewildering than the oil industry could ever have been.

"Percy Rockefeller is the morning spirit and largest stockholder in what is likely to prove one of the two most ambitious efforts yet made in this country to extract nitrogen from the air. The world as we know it cannot go on without nitrogen. It is infinitely more fundamental to our existence than petroleum or steel, or anything else except perhaps, the oxygen which we breathe. There seems to be no likelihood of the oxygen in the air failing us, so humanity is not threatened with suffocation. But the soil, which produces all food, threatens to 'wear out' and starve the human race unless it is artificially replenished with nitrogen."

100 Pound Catfish.

The largest catfish ever caught out of the Cumberland river was brought to Paducah about noon today by Tom Hayes, a fisherman, and sold to E. D. Iverell fish market. The monster weighed 100 pounds exactly and was caught on a trot-line which was baited with the head of a hog. Both jawbones of the hog were found in the fish's stomach, the meat of the head having been digested.

The fish was caught near Dyersburg, which is about twenty-five miles above the mouth of the Cumberland.

Dr. Will Mason received a six-foot alligator from Florida the past week and has it confined in a cage at the hospital. The animal was caught in a steel trap by a cousin of Dr. Mason.

SEVEN BIG DAYS OF CHOICE INSTRUCTION AND ENTERTAINMENT

CHAUTAUQUA WEEK HERE JUNE 17 TO 24

GERMANY WINS IN GREAT SEA FIGHT

HIGH SEA FLEET OF ENGLAND CLASHES WITH GERMANS OFF JUTLAND.

BRITISH LOSS IS HEAVY

Heavier Tonnage Engaged and More Tonnage Sunk Than in Any Previous Naval Engagement in World's History.

London.—Picking its way from its base in the Kiel Canal, the German high sea fleet on the afternoon of May 31 emerged into the North Sea, and off the coast of Jutland engaged a British fleet through the afternoon and night in what was the biggest naval battle in the world's history so far as tonnage engaged and tonnage destroyed was concerned.

When the battle ended Great Britain had lost the battle cruiser Queen Mary, indefatigable and invincible, the cruiser Defence, Black Prince and Warrior and eight torpedo destroyers, while the German battleship Pommern had been sent to the bottom by a torpedo and the cruiser Wiesbaden sunk by the British gunfire. In addition several German torpedo craft were missing and the small cruiser Frauenlob had been seen badly listed and was believed to have gone to the bottom. These losses have been admitted by Great Britain and Germany.

Aide from Great Britain's conceded losses Germany claims that the British battleship Warspite, sister ship of the Queen Elizabeth, and one of the largest and most powerful ships afloat had been sunk; that the battleship Marlborough, a vessel of 25,000 tons, had been hit by a torpedo and a submarine had been destroyed.

Great Britain also added to Germany's acknowledged losses with the claim that one dreadnought of the German kaiser class—vessels of 24,700 tons and carrying a complement of 1,688 men—had been destroyed by British torpedo craft; that another battleship of the same class was believed to have been sunk by gunfire; that one battle cruiser had been blown up and two others damaged, and that a submarine also had been sent to the bottom.

Great Britain's admitted loss in tonnage was 114,810 for the six battle cruisers and cruisers. That of Germany, excluding the tonnage of the Wiesbaden, of which vessel there is no record, was 15,712. The tonnage of the capital ships sunk by the Japanese in their fight with the Russians in the battle of Tsushima in May, 1905, aggregated 93,000. Twenty-one Russian craft were destroyed in this fight, including six battleships and four cruisers. The remainder of the sunken craft comprised coast defense and special service vessels and torpedo boats.

That the casualties in the fighting off Jutland were heavy is indicated by the fact that of the crew of some 900 on board the indefatigable only two men are known to have been saved. Full details of the fight, in which Zeppelins are declared to have taken part, are being gathered by the British admiralty, and pending their receipt the censor is withholding permission to correspondents to send out stories from London.

GERMAN LOSSES GREATEST

London Says That the Enemy Lost More Ships Than They Reported.

London.—The great naval battle fought by the British and Germans off the coast of Jutland last week continues the all-absorbing feature of the war. While Germany still holds to her original announcement of losses—a battleship, three cruisers and several torpedo boat destroyers—the British admiralty says there is no strongest grounds for supposing that the Germans lost two battleships, two dreadnought battle cruisers, four light cruisers, nine torpedo boat destroyers and a submarine—18 vessels in all. The admiralty says that with the destruction of these ships Germany's losses were not relatively, but absolutely, heavier than those of the British.

German Battle Cruiser Pursued.—Copenhagen.—A dispatch from Ribe, Jutland, says that the German battle cruiser Seydlitz was sighted Thursday, June 1, 38 miles west of Faeroe Islands, going south, pursued by British warships. She was badly damaged and had two large holes aft.

Different Kinds of Wood Being Used.—Washington.—News print paper, made from hitherto unused woods, under direction of the forest service laboratories, has been successfully tried by two large newspapers and in all 11 kinds of wood never used before have given promise of being suitable. A number of others have been found suitable for making paper by different processes. It is practically unused woods in its search for a substitute for the fast diminishing supply of pulp wood.

DEMANDS U.S. SOLDIERS OUT

Carranza Government Declares American Expedition is an Act of Invasion—Situation Untenable.

Mexico City.—Claiming that the words and protests of the United States have been entirely in contradiction of their acts, and that in spite of protests not to intervene in the affairs of Mexico soldiers of the United States are in Mexico without the consent of the Mexican government and in violation of Mexico's sovereignty, the Mexican government now asks for the immediate withdrawal of those troops. The request is made in a 12,000-word note which has been made public at the foreign office.

The note recites that the American troops crossed the border after the Columbus incident without the permission of the Mexican government. The act was not considered one of invasion then solely because the United States said they had misinterpreted the attitude of the Mexican government. When the second expedition crossed the line after the Glenn Springs incident, the note maintains, the plea that this was done with the consent of the Mexican consul at Del Rio, Texas, is untenable, and that act can only be considered as one of invasion.

"The Mexican government therefore invites the United States to bring to an end this unsupportable situation," the note concludes, "and to support its protestations and declaration of friendship by an immediate withdrawal of American troops."

Maintaining that the protests of friendship by the United States and the expressed desire for non-intervention has been contradicted by the acts of the Washington government, the note says the time has arrived when Washington must declare itself clearly and unequivocally as to its future intentions toward Mexico.

After reciting the facts which led to the first crossing of the frontier by the American troops after the Villa raid at Columbus, the note insists that in contradiction of the word of Gen. Scott and Funston another expedition crossed the boundary line, thus violating all the precepts of international law and committing an act of invasion.

WILL BE NO WITHDRAWAL

Carranza Has Not Shown His Ability To Control.

Washington.—Gen. Carranza's latest note bluntly questioning the good faith of the United States government and with a threat of armed resistance, demanding withdrawal of American troops from Mexico, was presented at the state department by Eliseo Arredondo, the Mexican ambassador designate. A translation of the voluminous document, about 12,000 words long, was laid before President Wilson, who at once began considering how it should be answered.

No one in official circles would attempt to forecast just what course the president might decide upon. There was complete unanimity, however, in the belief that there would be no immediate withdrawal of the Pershing expedition. High officials said the de facto government so far had utterly failed to demonstrate its ability to protect the border against bandits and expressed the opinion that the troops would stay in Mexico until this was done.

FRENCH CAPTURE POSITION

Dead Man's Hill Is Scene of Capture of German Prisoners With Seven Machine Guns.

London.—The French troops north-west of Verdun, in the region of Le Mort Homme, have turned on the offensive against the Germans, and in a spirited attack have captured a strongly organized position on the slopes southwest of Le Mort Homme. Seven machine guns and 225 prisoners were taken in the attack, which was the only infantry fighting reported in the latest French official communication.

The town of Avocourt and Hill 304, in this immediate vicinity, are under a heavy bombardment, and shells of large caliber are being used. Bombardments also are in progress north of Verdun from the Meuse river to Fort Vaux and in the Hartmannsweilerkopf region of the Vosges mountains.

Fight in Haiti.

Washington.—Col. Waller, commanding the American marines in Haiti, has advised the navy department of a fight between bandits and native police under the command of Lieut. John Dixon of the marine corps, which occurred near Croix de Boquet. The bandits attacked in overwhelming numbers, but were driven off, the only casualties sustained being a wound in the arm of Corporal Greenish, a policeman. Lieut. Dixon captured five bandits.

Submarine Fired Upon.

Berlin.—The following official communication was issued: "A submarine has just returned from the Atlantic, where it was pursued and fired upon by two freighters. It had attempted to halt. The first steamer was a 3,000-ton vessel without neutral distinguishing marks, which the submarine tried to stop May 2 near Usant by firing a warning shot. After a few minutes the steamer opened fire with a five-centimeter gun. The U-boat escaped by putting on high speed."

REPLY TO MEXICO WILL BE SHARP

AMERICAN DOCUMENT TO CARRANZA WILL BE IN NO UNMIS-TAKABLE TERMS.

TROOPS REMAIN IN MEXICO

Anti-American Feeling Being Stirred Up in Durango—Funston Places Artillery to Defend Pershing's Communication Line.

Washington.—A sharp reply to Carranza's note will be drafted early this week and probably sent forward before the Republican national convention adjourns.

Because of the political motives imputed to the administration and the expected attacks on President Wilson's Mexican policy by Republicans, it has been decided to couch the reply in the most severe terms and indicate unmistakably that the American troops will not be withdrawn until peaceful conditions prevail.

One official intimated that it would be the strongest diplomatic document yet drafted by the administration.

Information reaching the war department from a confidential source is to the effect that Carranza and his subordinates threaten to provoke a clash with the American troops. Details of the disposition of all Mexican troops near Gen. Pershing's forces were also received.

It was explained that evidence of an intended hostile movement by the Mexican commanders against American forces was the cause of the Funston concentrating the whole Sixth Field Artillery with 24 guns at Douglas, Ariz. This force is expected to protect the motor-truck service line, which it is believed would be one of the first objects of attack by Carranza forces.

Much anti-American sentiment is being developed in the state of Durango, according to reports to the state and war departments. There is as yet no official confirmation of the report that Gen. Francisco Murguia, military governor of the state of Durango, is inciting the people to arms against Americans. It is known that intense feeling against Americans prevails in that section and that there is a systematic dissemination of anti-American sentiment throughout the whole of Mexico.

Officials are inclined to give much credit to reports from Southeastern Chihuahua that an attack on American troops is being preached there.

SENTENCED TO DIE JULY 10

Motion For New Trial Is Overruled—Waite Thanks Court and Attorney.

New York.—Dr. Arthur Warren Waite was sentenced to die in the electric chair during the week of July 10—the penalty for the murder of his father-in-law, John E. Peck, of which he was convicted.

When Dr. Waite was presented to the bar his counsel moved that he be granted a new trial. This was denied by the court and the sentence was then imposed.

When Justice Shearn concluded the sentence, Waite delivered a short speech, in which he expressed appreciation of the manner in which his trial was conducted, and his thanks to the court, the prosecutor and his own attorney. Dr. Waite said he was very sorry for his crimes and for the trouble and suffering he had caused others. He declared that he hoped that by surrendering his body for punishment he would compensate in some small degree for the deaths of his victims.

Villa Is Alive.

El Paso, Texas.—Pancho Villa is not dead, as reported by a Mexican to the correspondents with Gen. Pershing at the front in Mexico. He is much alive and as ambitious to make trouble as ever, according to his El Paso friends. It is reliably reported that the bandit chieftain is in almost constant communication with a former member of the Carranza cabinet, who is well known in the United States. Relatives of this man say an open letter from Villa announcing his future plans may be expected soon.

Old Masonic Order Meets.

Indianapolis, Ind.—The forty-fourth annual assembly of the grand imperial council for the United States of the Order of the Red Cross of Constantinople, one of the oldest of the Masonic orders, was here June 2.

Brandeis Confirmed.

Washington.—The nomination of Louis D. Brandeis, of Boston, to the supreme court to succeed the late Joseph Rucker Lamar, was confirmed by the senate by a vote of 47 to 22. The vote, taken without debate, ended one of the bitterest contests ever waged against a presidential nominee.

Destroyer Disabled.

Washington.—The torpedo boat destroyer Warrington, which was disabled by striking a submerged breakwater off Rockport.

HOUSE FAVORS BIG NAVY

Bill Carrying Approximately \$270,000,000 Is Passed Almost Unanimously—Provides for Five Cruisers

Washington.—The second of the big preparedness measures, a naval appropriation bill larger by many millions than any ever before considered in congress, has passed the house almost unanimously. It carries a building program for next year of five battleships, four coast cruisers, 10 destroyers, 50 submarines and 130 aeroplanes; provides for a government armor plate plant; authorizes an increase of nearly 17,000 enlisted men, and appropriates a total of \$260,000,000.

As passed the bill is substantially the same form as framed by the naval committee. Only a few amendments were adopted during the week of debate and a final effort by Republican leaders to have the measure recommitted with instructions to add two battleships, two coast cruisers and 10 destroyers were beaten, 189 to 183. The fight for an increase in the building program, at least by the addition of two battleships, will be renewed in the senate when the measure is taken up there late this month, and administration leaders believe it will be successful.

Only four representatives voted against the passage of the bill to 353 favoring it, and as the roll call progressed the overwhelming majority of "ayes" stirred the Democrats to repeated cheering. The four negative votes were cast by Representatives Browning, New Jersey and Graham, Pennsylvania. Republicans; Randall, California, Prohibitionist, and London, New York, Socialist.

With the passage of the bill the house completed the major portion of its share in the preparedness program. Of the three bills carrying the important provisions of the program—the army, naval and fortifications measures—only the last named remains to be considered.

CONGRESS WILL MARK TIME

Little Session Will Be Transacted While Members of Both Houses Attend Conventions.

Washington.—Under an agreement to permit senators and representatives to attend the national political conventions, congress will do little but mark time during the coming two weeks. The senate will not meet until June 8, and then only to recess after complying with the constitutional provision limiting recess periods. While the house will continue its daily sessions, only routine business will be considered and the proceedings will be virtually on a unanimous consent basis.

Scores of members of both houses already have left for Chicago, and enough more probably will go to St. Louis later in the week to reduce attendance at the capitol to the smallest percentage it has reached during any session of congress for several years. Speaker Clark, Democratic Leader Kitchin and Republican Leader Mann, however, have announced their intention of remaining here.

WILL WALK IN WASHINGTON

President Will Head Preparedness Parade on June 14 and Will Deliver Flag Day Address.

Washington.—President Wilson, marching on foot, will lead the preparedness parade here Flag Day, June 14. Afterward he will review the procession and deliver a Flag Day address to the marchers.

When a local committee asked the president to review the parade, he replied enthusiastically that he not only would review it, but would march in it.

The president also promised that if possible he would give permission to all government employees in Washington to march. He said that he would start with the procession at the beginning and march to the reviewing stand, and then drop out for the review.

The members of the president's cabinet and other officials probably will march with the president, who feels that by marching himself he will most emphatically show his personal interest in the demonstration.

BAD MEXICAN KILLED.

Dominguez Brothers Engage in Pistol Battle With Rangers.

Presidio, Texas.—Two state rangers, in a pistol battle with Francisco Dominguez and his brother, on the border near Pulvo, 25 miles southeast of here, killed one of the Mexicans. The other escaped.

The Mexicans were known as bad men. They were with Villa at the Columbus raid and are believed to have taken part in the Glen Springs raid. They crossed the line to steal cattle, it is said.

For "America First."

New York.—The celebration of American Liberty Day by German-American, Austro-American and Irish-American relief societies, held in the New Sheepshead Bay speedway June 4, was participated in by 20,000 persons. The demonstration was declared to be a protest against the "attempt to question our loyalty because of a national sympathy with the land of our forefathers." The speakers read resolutions advocating adequate preparedness and the principle of "America first."

ARE WITH WILSON

Voters Recognize Good Work of Administration.

Politicians Who Are Predicting Democratic Defeat Are Not in Touch With the Real Sentiments of the People of the Country.

"If the political prophets of Washington are right in their views, the president has not a chance to be re-elected, but the opinions expressed here in the national capital are not at all in harmony with the expressions one hears in the cities and rural districts of New England and other sections," said H. W. Quinlan, a Boston business man, in an interview with a representative of the Washington Post. "Since coming to Washington I have talked with a number of persons, including politicians on the Hill and elsewhere, and I have got the impression that the president will surely be beaten in the election. But up in New England the people take a directly opposite view. They believe that Mr. Wilson will be re-elected beyond a question. In Boston there is a very strong sentiment for the president, and I believe he will carry Massachusetts."

"When you come down to issues, the Republicans have none that will appeal strongly to the people. The tariff cannot be used effectively, for everybody is at work who wants to work, and when it comes to talking to the workman about Democratic mismanagement and Democratic free trade it will not have any great influence. The man with a job and a full dinner pail doesn't care much about a tariff. Furthermore, there is a well-defined and settled conviction among the people, particularly among those of the rural districts, that President Wilson has kept the nation out of war, and they are grateful to him for that."

"Down here, however, the politicians are predicting with much gravity that the Republicans are sure to win, and that the president is fast losing whatever hold he had on the voters," but "here is no reason in their attitude."

Credits Kansas to Wilson.—"My sincere conviction is that Kansas will cast its electoral vote for Woodrow Wilson," remarked M. H. Mulroy of Hays, Kan., in an interview with a representative of the Washington Star. Mr. Mulroy is a Democratic leader in his section of the state, having served several terms in the Kansas legislature.

"The people of Kansas," he continued, "have profound confidence in the ability and patriotism of the president. His policies have met with most favorable and cordial recognition, and knowing what he has done to promote the welfare of the great mass of American citizens they are intent on giving him another term in the White House. At the present time six of the seven representatives in congress from our state are Democrats, and it does not appear that there is any danger of the loss of any one of these districts, in spite of the fact that several of them are fairly close."

Export Figures for February.—American exports for February reached a total of \$409,836,525, according to an announcement by the bureau of foreign and domestic commerce of the department of commerce. This is the highest point ever reached by the export trade of this country and exceeds the high mark for December, 1915, by \$50,000,000. It exceeds the total for January by \$83,000,000. The decline in January had been taken in some quarters to mean that the record figure for December had marked the high tide in the flow of American exports. The total exports for the first eight months of the fiscal year 1916 are \$2,556,301,570, and it now seems probable that the exports for the whole fiscal year will reach \$4,000,000,000.

Voters' Verdict Assured.

Upon what issue does Mr. Wilson base his campaign before the country? His moral or his official record? He would doubtless find one as difficult to defend as the other, with never a hope of expressing an acceptable and satisfactory explanation of either.—San Antonio Republic.

The "issue" will be President Wilson is a safe man and has succeeded in keeping the country out of trouble—this, and nothing more, major dear. The Republicans may raise "issues" to suit themselves, and doubtless will do so, but the people are not going to be interested in them.—Houston (Texas) Post.

Endless Communication.—It will not be very long before the secretary of the navy can sit in his office in the department and communicate verbally with ships all over the world.—Joseph Daniels.

Shows Wise Administration.

Secretary McAdoo has notified congress that it will have to provide the means for raising only \$150,000,000 additional revenue, instead of the \$200,000,000 originally estimated, owing to the fact that increases are now expected from sources that were unexpected some time ago. That means a saving of 50 cents a year apiece, unless the administration's present expectations have unexpectedly to be revised.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health.

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 616 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicine ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice—it will be confidential.

Attractive color picture, special, see women even for inexperienced workers. Free sample and catalogue. Domestic Supplies Co., Huntington, W. Va.

Some men are born liars, and the rest speak the truth occasionally.

For sprains make a thorough application of Hanford's Balm, well rubbed in. Adv.

It's as hard for a young woman to lose a millionaire as it is for a strong man to lose an heiress.

A HINT TO WISE WOMEN.—Don't suffer torture when all female troubles will vanish in thin air after using "Femina." Price 50c and \$1.00.—Adv.

Recipe or Pattern?

Stella called on her newly married friend Bella and found her attired in a businesslike overall, while her arms were full of fashion papers and cookery books.

"Hello!" she exclaimed. "What are you going to make?"

"Some cakes," replied the young wife proudly.

"But why have you got out those fashion papers as well as the cookery books?"

"You see," confessed Bella, rather shamefacedly, "I'm a bit of a novice at cooking. Tell me, do you make cakes from a recipe or a pattern?"—Philadelphia Public Ledger.

No False Teeth.

Many words of housewifely wisdom had her mother imparted to the fair young bride on all subjects from managing husbands to tackling tramps. And some of them were now being put to the test.

He was a particularly dirty-looking specimen, but he had told the tale with the pathos of an expert. The youthful house mistress felt touched, but determined to follow her mother's precepts.

"Now, my son," she said when he had finished, "I will give you something to eat if you will take that chopper—"

"Oh, mum, I shan't need it," the tramp reassured her. "My teeth are all right."—Pittsburgh Chronicle-Telegraph.

Concentrated Satisfaction

A great many former users of tea and coffee have learned that there is a pure food beverage made from wheat, which has a delightful flavor.

It never exacts of its users the tribute of sleeplessness, heart-flutter, headache and other ills often caused by the drug, caffeine, in coffee and tea.

Instant Postum

suggests the snappy flavor of mild java coffee, but is absolutely free from caffeine or any harmful ingredient. Instant Postum is in condensed, soluble form, and wonderfully convenient for the home—for the picnic—for travel—everywhere.

If tea or coffee interferes with comfort or success, as it does for many users, try a shift to Postum.

"There's a Reason"

chinch bugs. Wild fruits are next in importance in the flicker's dietary. Of these sour gum and wild black cherry stand at the head. The food habits of this bird are such as to recommend it to complete protection.

What Interested Her.

"Now, about this life insurance contemplate taking out, premium vary." "Premiums," chirped his wife, "I want a plush-covered postcard of you, John."

Here's the Good June Sale of White and Colored Tub Fabrics

It's a good sale because it's good merchandise that the people want right now. Everyone knows that we have had a backward spring. This has made it necessary for us to put extra "pop" in our selling qualities in order to be able to meet our **BILLS**. These **BILLS** will have to be paid, so it's up to us to sell the goods, and if the **BEST GOODS AT THE LOWEST PRICES** count for anything we will pay our **BILLS** alright.

Look these prices over then make out your want list and come to our store, it will mean a big saving to you. Remember, our goods must be the best for the least money or it's no sale.

Opposite Baptist Church.

Notice.

Notice is hereby given to all persons that I have this day set my sons, Clony Vasseur and Tony Vasseur, free to sue and be sued and to contract and be contracted with as if they were of lawful age. And all persons are warned that I will not be responsible for any debts that they might contract in their names or in my name. This May 22, 1916.
—U. P. Vasseur.

Superintendent Gilbert of the state education department, announces that he will enforce the new law requiring county school superintendents to devote their entire time to the duties of their offices. Heretofore county superintendents have enjoyed rather a wide range, but the new law requires that all their time be devoted to the work which the people elected them to perform.

Strawberry Shortcake.

While there are a few people who are unable to partake of strawberries without discomfort, the majority of us will agree with Dr. Butler that "doubtless God could have made a better berry, but doubtless God never did."

Of course, the juiciest berries will be reserved for eating au naturel, while those less perfect are frequently utilized in some form of dessert, the favorite of all being the strawberry shortcake.

2 cupfuls flour, 2 teaspoonfuls baking powder, 1 teaspoonful salt, 2 tablespoonfuls sugar, butter the size of an egg, milk, strawberries.

Sift together the flour, salt and baking powder, add the sugar and rub the butter in lightly with the fingers. Mix with enough milk to make a rather soft dough, divide in two and roll out about two-thirds of an inch thick. Place one round of dough in a pie-plate or biscuit-pan, brush it over with butter and put the second round on top of this, brush the top again with butter and bake in a moderately hot oven. Split apart when done, butter generously and place a liberal portion of strawberries slightly crushed and well sweetened, between the two layers. Put the finest of the berries on top and serve at once, with or without cream.—Pictorial Review.

240 Pound Pigs.

With corn above 50c hogs eat their heads off very quickly. The hog that takes two or three months to get on full feed never brings you a profit.

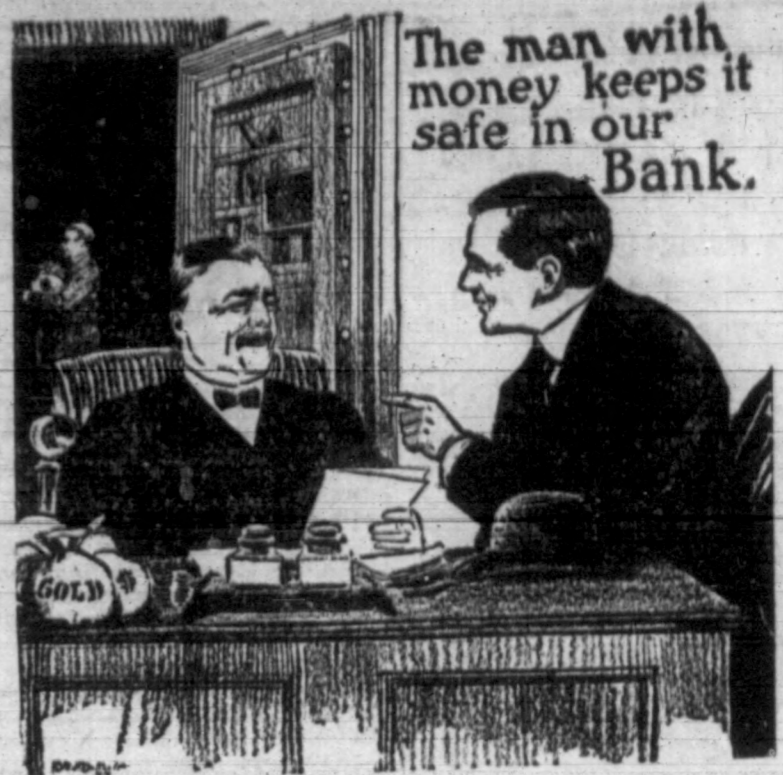

When you are ready to put your shoats on feed, begin with the B. A. Thomas Hog Medicine. Use regularly and watch your shoats round out into fat hogs in nine months—hogs going well over 200 pounds and as high as 240 pounds. Figure the average feeding and you why the B. A. Thomas medicine is a good investment. Try feeding out your hogs on this plan and if you are not more than pleased, we will refund the cost of the medicine.
—Sexton Bros.

Settlement Notice.

All persons having claims against the estate of Monroe Hodges, deceased, will present same properly proven to the undersigned on or before July 15th, 1916, or be forever barred from the collection of same. All persons owing said estate will come forward and settle same by said time or I will be compelled to file suit for a full settlement on said claims as I am compelled to wind up this estate. Any person due said estate when in Murray and can not find me, can leave the amount with N. B. Barnett and be receipted for same, or file their claims against this estate for proper attention.—Felix L. Bailey, Admr.

When baby suffers with croup, apply and give Dr. Thomas' Electric Oil at once. Safe for children. A little goes a long way. 25 and 50c. At all drug stores.

Chas. Scarbrough, who has been making his home in Texas the past year or more, is in the county on a visit to relatives. The Ledger learns that he is anticipating returning to this county to again make his home.

The only safe place for your money is in the **BANK**. You always know where it is and you can get it when you want it. In our bank you can open a household account and pay your bills with a check. This will give you "a standing" with the merchants—and your checks are legal receipts. It also helps you to keep your accounts straight.

Put YOUR money in OUR bank.

We pay 4 per cent interest.

W. H. Finney, President. Dr. Ben B. Keys, Vice-President.
T. H. Stokes, Cashier.

THE FIRST NATIONAL BANK

On Long Hike.

The Ledger office was paid a visit Monday of this week by a very interesting person in Marquis De La Campomonte, naturalist and scientist of New Orleans, and who is representing the Central American Exploration Society, of Spanish Honduras, of which country he is a citizen. He is on a journey from New Orleans to Boston and Chicago and return, embracing a walk of about 4,000 miles. He served the United States as surgeon in the army for four years and was stationed in the Philippine Islands and in the Panama canal zone during the time. He is now also representing the national museum of Washington. He is a full blood Spaniard and speaks many languages, having been in the service of four nations of the earth and has visited almost every country on the globe. He is an entertaining talker and told of many thrilling escapades in the pursuit of his nature study. He has been bitten so often by poison snakes and other reptiles that he is immune from their venom. He carries a complete camping outfit besides other equipment for the work in which he is engaged, and his pack will weigh about sixty pounds which seems to be a very small task to him. He is a splendid specimen of manhood, a total abstainer, using neither tobacco in any form or liquors of any kind and when he left this office for Paducah, strode away with his burden with the ease and grace of the ordinary person would show in going to market with a hand basket.

Home Demonstrator Agent Here.

Mrs. Helen B. Wolcott, state home demonstrator agent, was in Murray Monday morning of this week and delivered an address at the court house on the

subject of organizing girls' canning clubs throughout the county. Mrs. Wolcott was given close attention and immediate action will be taken by local club women to secure an appropriation from the county to be supplemented by a like appropriation from the federal government to provide for a county agent for Callaway. This endeavor is one of the most commendable ever undertaken and should meet the hearty approval of the citizenship of the entire county and the fiscal court can make no mistake in providing the very reasonable appropriation that will be asked for.

A great variety of pictures and frames at Churchill's.

"Why Swear, Dear? Use 'Gets-It' for Corns!"

It's the New Plan. Simple. Sure as Fate. Applied in a Few Seconds.

"Why, John, I never knew you to use such language! I've told you several times it's no use to try those bandages, salves, tapes, plasters, and

contraptions for corns. Here's some 'Gets-It' it's just wonderful how easy, 'clear and clean' it makes any corn come right off. Takes but a few seconds to apply. It dries at once. Put your sock on right over it—there's nothing to stick or roll up, form a bundle of your toe, or press on the off a log. Now put away those knives, razors and scissors, use 'Gets-It' and you'll have a sweeter disposition and no more corns and calluses. 'Gets-It' is sold by druggists everywhere, 25c, a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Murray and recommended as the world's best corn remedy. —H. P. Wear.

It's an Interesting Fact

That the two most successful Chautauquas of the entire 120 towns and cities visited by the Redpath Chautauquas last season were

Jacksonville, Fla., and Chicago

That the large cities are now **AWAKE TO THE VALUE OF A REDPATH CHAUTAUQUA**, in turn, but emphasizes the Chautauqua's importance to the smaller city.

All institutions must eventually stand or fall on their merit. For the Chautauqua to find a permanent place in cities like Jacksonville and Chicago at once speaks for itself.

Season tickets for the forthcoming Chautauqua in this city are now on sale with the local auspices at \$2.50 each. After the opening day the price advances to \$3.00.

Chautauqua Week Here June 17-24.

STATE UNIVERSITY CLASS GRADUATES

COMMENCEMENT EXERCISES ARE HELD—GOVERNOR STANLEY MAKES ADDRESS.

PRESIDENT AWARDS DIPLOMAS

To Nearly 150—Ceremonies Are Carried Out in Usual Custom in Tent on Campus.

Western Newspaper Union News Service.

Lexington, Ky.—With a graduating class of nearly 150 students, one of the largest in the history of the institution, the school year of the University of Kentucky was brought to a close with the annual commencement exercises. Governor Augustus Owsley Stanley delivered the commencement address and President Henry Sikes Barker, of the university, awarded the diplomas. The College of Agriculture led with the largest number of graduates, having thirty. The College of Law was second with twenty-six students while the Mechanical and Electrical Engineering College had twenty-three. The College of Mines and Metallurgy is in sharp contrast with the others in that it had only one graduate this year.

The College of Arts and Sciences had five honor graduates out of the nine in the university. Of the other four, one is of the College of Agriculture, two of the College of Mechanical and Electrical Engineering and one of the College of Mining Engineering. To be eligible for honors, a student must have 50 per cent A's during the course, 40 per cent B's and 10 per cent C's, and no conditions during the four years of the course. Eighteen others graduated with their master degree in the Graduate School, making a total graduating class of nearly 170. As has been customary in past years, the exercises were held in a large tent on the university campus. The graduating class was garbed in the usual caps and gowns.

ANNUAL BANKERS' MEETING

More Than 100 of Fourth District Attend Session at Bardstown.

Bardstown, Ky.—More than 100 bankers were here attending the seventh annual meeting of the Fourth Congressional District Bankers' Association. The meeting was called to order by R. H. Cox, of Bardstown, president. The address of welcome was made by B. P. Grigsby, sr., president of the Bardstown Commercial Club. The response was made by E. H. Shelman, of Irvington. "The Lost Opportunities of Education" was the subject of an address of Max B. Nahn, president of the Kentucky Bankers' Association. Rev. C. J. O'Connell, pastor of St. Joseph's church, of this city, offered an elegant address. H. M. Grundy, of Springfield, whose subject was "Kentucky Banks and Advantages in Operation," spoke. The subjects for general discussion were "Pros and Cons of Federal Reserve System," "Taxation of Banks as Compared with Other Property," "Uniformity in Size of Checks." Following this was the report of committees and the election of officers.

DUCK HUNTING TO BE ALLOWED.

Hickman, Ky.—Sportsmen in this city as well as in all of the territory adjacent to the Mississippi river north of Memphis, are much pleased with the announcement made a few days ago by the Biological Survey, of the Department of Agriculture, that shooting on the Mississippi river will be permitted next spring. No duck shooting has been permitted on the river north of Memphis during the past two years.

RYLAND HAS DECLINED OFFER.

Georgetown, Ky.—A telegram was received by President M. B. Adams, of Georgetown College, from Dr. Garnett Ryland, stating that he had not accepted the chair of chemistry in Richmond (Va.) College, as dispatches from Richmond sent to the papers had stated. Dr. Ryland will leave at the close of school to do special work at Johns Hopkins University, and will be ready to continue his duties here in August.

TWO PASS CADETSHIP EXAMS.

Richmond, Ky.—Gordon Barnes, son of the Rev. E. B. Barnes, and Earle McDougall, son of Dean McDougall, of the Eastern Normal School, were successful in passing the examination at Louisville to enter West Point. Both have gone to Columbus, Ohio, for further instructions.

OIL PROSPECTING IN SCOTT.

Georgetown, Ky.—The Melick Producing Co., of Illinois, large oil promoters, have leased 1,990 acres of land from Watson Showalter, Jack Showalter, Rhodes Ashurst, Thomas Ashurst, Otis Ashurst, John Pluke and Irvine Davis, with the expectation of boring for oil. David Melick, of Roseville, O., president of the company, thinks the land is in the direct line with the big vein in Estill county. Four hundred more acres will be leased before boring.

KENTUCKY BREVITIES

Bedford, Ky.—The proposition to issue \$90,000 of road bonds in Trimble county carried by vote of 524 to 135.

Russellville, Ky.—C. J. O'Connell was appointed Master Commissioner of Logan county by Judge J. S. Rhea. Mr. O'Connell has served as clerk in the auditing department at Frankfort several years.

Lexington, Ky.—Miss Mary Garnett Fisher, Danville, has resigned as matron of Patterson Hall (girls' dormitory), at the University of Kentucky, and will return to her home at the end of the present school term.

Carlisle, Ky.—The Women's Missionary Union of the Bracken Association of the Baptist Church of several counties met here. Miss Priest, a missionary to China, and Miss Wilson, a field worker, delivered addresses.

Russellville, Ky.—Dr. Walter Byrns, Jr., has been appointed on the reserve medical corps of the Kentucky National Guard with the rank of first lieutenant. He recently passed an examination at Louisville for the appointment.

Carlisle, Ky.—Eighteen hundred and one men attended Sunday-school at the Christian Church, possibly the largest Sunday-school ever assembled in Kentucky. This closed the contest with Cynthiana, Carlisle winning by 346. Cynthiana's attendance on the same day 1,672.

Lancaster, Ky.—Crab Orchard is to have a handsome building in the way of a new depot to be erected by the Louisville & Nashville railroad within the next few weeks. The appropriation has been made and the plans drawn. This is the result of the efforts of the Crab Orchard Commercial Club.

Paducah, Ky.—After two weeks' military training the local high school delegation has returned from the Culver Military Academy at Culver, Ind. The Paducah Rotary Club made it possible for the boys to participate in the training at Culver by making an appropriation of \$150 toward their expenses.

Whitesburg, Ky.—United States Deputy Collector Claude F. Beverly and possemen, of Big Gap, made another moonshine raid along the Kentucky-Virginia border, where they cut and destroyed two large illicit moonshine stills with complete paraphernalia and several hundred gallons of beer.

Paducah, Ky.—The Kentucky Tax Commission, with Chairman Hite Hufaker, of Louisville, met here and many local business men appeared before it. Paducah business men gave the commission their views of laws regulating Kentucky's taxing system. The members of the commission then left for other points in Western Kentucky.

Carlisle, Ky.—Veterans of both the blue and gray have been invited to meet with the members of the Nicholas County Old Settlers' Association in their annual reunion, which will be held in Carlisle next week. Memorial services for deceased soldiers and members of the Old Settlers' Association will be held.

Stanford, Ky.—In the case of the Garard Bank & Trust Co., administrator of Thomas Oaks, against H. C. Anderson, the jury returned a verdict for the defendant. Mr. Oaks died last January as a result of injuries caused by being run over by Mr. Anderson's automobile, and suit was filed for \$15,000 damages.

Winchester, Ky.—Mayor Matlack just arrived home from Fort Oglethorpe, Ga., where he has been "maneuvering" as a citizen-soldier with Uncle Sam's troops and the people of Winchester are breathing easier, as since his leaving members of the council have made an effort to elect themselves mayor pro tem.

Carlisle, Ky.—Brice Ham, a farmer of near this city, was badly stunned by lightning, which struck a tree near his home. When he recovered consciousness he was unable for a time to tell what had happened. Miss Hazen Kimbrell, a telephone operator, was also struck and rendered unconscious and severely injured.

Lancaster, Ky.—The board of trustees of the Lancaster graded school and high school has selected Prof. T. H. Hopkins, of Georgetown, superintendent of the Lancaster schools, to fill the vacancy caused by the resignation of Prof. M. L. Caneer. The other members of the faculty were retained with the exception of Misses Parke, Hatcher and Webb, who had tendered their resignations.

Columbia, Ky.—The little daughter of Mr. and Mrs. Gideon Dehoney Pickets, of Chapel, Adair county, who was struck by lightning is still living, but she has not spoken since the shock. The bolt split her right arm and also injured her head.

Paducah, Ky.—To superintend the anti-tuberculosis sanatorium Mrs. T. N. Cartee was elected matron by the McCracken Fiscal Court. The patients will be taken care of by a trained nurse employed at a salary of \$40 per month and her board.

STATE GETS AWAY FROM OLD METHOD

COUNTIES NOW AVAILING THEMSELVES OF SERVICE OF GOOD ROADS ENGINEERS.

FRANKLIN COUNTY IN LEAD

Bridge Work of the Past Has Represented Big Waste of Public Funds—Difference Is Seen.

(Special Frankfort Correspondence.)

Frankfort.—The 1912 session of the state legislature created the department of roads and one of the many duties required of the department is to furnish plans, specifications and estimates of cost for all bridge and culvert work costing over \$500. It is not compulsory for the various counties to adopt the plans prepared by the department, except under state aid, but the various counties are required by law to receive bids on said plans. The various counties were at first slow to take advantage of the free engineering service offered, because such a procedure was a radical departure from the old time method of letting contracts for highway bridges. Under the old system the various bridge companies were notified of the intention of the counties to build a bridge to span a certain creek and very seldom were the counties represented by an engineer who knew anything of the design or construction of bridges.

After receiving notice of the intention of the county to build the bridge, various bridge companies would send their representatives to the site to secure sufficient data from which to prepare designs. Each bridge company prepared its own design and specifications and very seldom did the counties stipulate the capacity of the bridge desired. The usual custom was to open the bids and award the contract to the lowest bidder on their own plans and specifications.

Plans of Health League.

Retirees from the campaign conducted by the Franklin County Health and Welfare League were not completed, but if new memberships continue to come in as they have, several hundred dollars will be realized from the campaign. It is the plan of the league to use the membership fees for the building of shacks, screening of porches and purchasing of supplies. The league especially desires to be able to place in each county three trained nurses to combat the "white plague." The league also will try to secure five per cent of the county tax from every county in Kentucky for the erection of a sanatorium in every ten or twelve counties, so that at least nine will be established throughout the state. While the chief purposes of these sanatoriums will be the treatment of consumptive cases, other cases, too, will be taken care of.

Pay Statute Confusing.

The language of the twice-a-month pay bill passed by the last General Assembly is proving confusing to many corporations. Some of them are considering paying employees on the eighth of the month for the first half and on the third of the succeeding month for the latter half, while others are proposing to pay on the third of the succeeding month for the first half and on the eighteenth for the second half, thus being two weeks behind with the payroll. There is a penalty for noncompliance with the law and the officers of corporations are seeking a construction of the law that will save them.

Calhoun Is Honored.

Kentucky Congressmen and other Kentuckians in Washington sent congratulations to Capt. C. C. Calhoun, of Lexington, who was elected president of the Southern Society. Although a member of the society only three years, the Kentuckian has been one of the leading workers to make it a success. Capt. Calhoun succeeds Surgeon General William Gorgas, formerly of Alabama, who received the thanks of Congress for his fight against yellow fever in Panama. Capt. Calhoun has been chairman of the Executive Committee for three years.

Re-Arrested at Prison Gate.

Will White, of Kenton county, released from the reformatory at the expiration of his sentence, was arrested at the prison gate by Sheriff Smith on a charge of housebreaking preferred by Guard J. D. Spencer, who charged that White escaped from the reformatory farm a year ago, and took a suit of clothes, \$6 and a pistol from Capt. Spencer. It is alleged in the affidavit accompanying the warrant that White was captured in August and brought back to serve out his term. He is now in the county jail awaiting the hearing.

Red Cross Proposed.

A Red Cross chapter in Kentucky is the outcome of the class, which has been organized in Frankfort by members of the Chevy Chase camp at Washington, where women studied Red Cross work. The local class is composed of Miss Amelia Weitzel, Mrs. L. M. Maus, Miss Ann Baker, Mrs. Baker, Mrs. Joseph Rupert, Mrs. Samuel J. Shackelford, Miss Marie Lockitt, Mrs. William Pruitt, Mrs. Margaret Taylor, Mrs. John Milam, Mrs. Thomas P. Averill, Mrs. Joetta Henry and Mrs. W. E. Bradley and others.

Bankers Make Protest.

The tentative assessment of 100 per cent on the capital stock and 80 per cent on the surplus and undivided profits of banks in Kentucky has been made final by the State Board of Valuation and Assessment. The assessment was made at the last meeting of the board on the motion of State Treasurer Goodpastor as a compromise between an assessment of 100 per cent on the capital stock, the surplus and undivided profits and the customary 80 per cent. Secretary of State Lewis held out for the 80 per cent assessment, because he is of the opinion that the book value of the stock generally would not justify a greater assessment. A large delegation of bankers representing every section of the state were present to protest against the assessment, but the board decided to make no change.

Camps Are Selected.

The First Regiment, K. N. G., probably will camp at Carrollton the first half of August. The Second will camp at Richmond as soon as the First breaks camp, and the Third will camp at Earlington, going there about the middle of July. Adj. Gen. J. Tandy Ellis, who inspected the proposed camp site at Carrollton with Col. Colston, of the First, said, upon his return, that they have not decided; but it was learned at the department that if a suitable maneuver ground is furnished, the regiment will go to Carrollton this year.

Woodford County Offices O. K'd.

Woodford county offices were found in good condition by State Inspector and Examiner Nat E. Sewell, who turned into the state treasury \$15,996, collected in the office of Circuit Clerk C. A. Witt, for various small costs and penalties, that had not yet been collected. His office was well conducted and County Judge A. H. Nuckols, County Clerk R. H. Gray, Sheriff Joe McDonald, and P. M. Smith, trustee of the jury fund, had accounted for all the money received by them.

Recovery of \$25,573.64.

Depositors of the George Alexander State bank of Paris recovered from the American and Southern National bank of Louisville \$25,573.64, which will be distributed as a dividend as soon as additional money owing the Alexander bank is collected. This recovery was made by State Banking Commissioner Thomas J. Smith in the case of the American and Southern National bank of Louisville against Smith, which was decided by the appellate court in favor of Smith and the depositors.

Buildings in Kentucky.

A report from Washington states that appropriations for several new federal buildings in Kentucky will be carried in the bill which the committee on public buildings and grounds, of which Representative J. Campbell Cantrell is a member, decided to report favorably. The vote of the committee in executive session was 7 to 2 to report the measure to the house for consideration during the next regular session.

Life Sentence Affirmed.

A breath of scandal, which blighted three homes and culminated in a tragedy, started the train of circumstances that will place Joe Chilton, of Anderson county, behind the prison bars for life. The court of appeals, in an opinion by Commissioner Clay affirmed the sentence imposed on him for killing his brother-in-law, Dollins Hawkins.

Dr. Dunning Wilson Named.

Governor Stanley just made two appointments. J. Lewis Lettelle, of Harrods Creek, was reappointed a member of the State Board of Agriculture, and Dr. Dunning Wilson, of Louisville, was appointed to the Kentucky Tuberculosis Commission to succeed Dr. Everett Morris, formerly of Sulphur, but now living in Chicago.

Several Banks Have Paid.

State Auditor Greene announced that the State Board of Valuation and Assessment has taken final action on the assessment of banks and fixed them at 100 per cent of the capital stock and 80 per cent of the surplus and undivided profits. Several of the banks already have paid their taxes on this basis.

Surveys Commenced Again.

Promoters of the interurban link between Frankfort and Shelbyville, completing the line from Louisville to Lexington, declare the project soon will be a reality and surveys have been commenced again. A meeting of the Chamber of Commerce here will be called shortly to consider the proposition.

One Woman Jailer.

Mrs. A. W. Stone, of Eddyville, is the only woman jailer in Kentucky. She sent in her first claims to the state auditor this month. Her husband was jailer, and when he died she was appointed to fill the vacancy. There are 13 candidates for the office entered in the August primary.

Rabies in Cattle Herd.

Rabies developed in a herd of dairy cattle near Hopkinsville recently and State Veterinarian S. F. Musselman, who has just returned from there, said six had died and two others were ill when he left.

Dinner at Mansion.

Gov. Stanley and Mrs. Stanley entertained at dinner at the mansion State Chairman Charles A. Hardin, of Harrodsburg, and the members of the State Democratic Central and Executive Committee.

CALOMEL SICKENS! IT SALVATES! DON'T STAY BILIOUS, CONSTIPATED

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Don't Lose a Day's Work!

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver.

If you are bilious, feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working. You'll be cheerful; full of vigor and ambition.

Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone

under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you can have your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist or storekeeper about me. Adv.

BLACK SNAKE HUGGED JAM

Woman, Annoyed by Reptile's Partiality, Writes "Finis" With an Ax.

Going to a cupboard Mrs. Ella Norton of Oliver, Pa., saw what she believed to be a piece of rope, wound about a crock of jam, but closer investigation proved it to be a large blacksnake. Now Mrs. Norton is not particularly frightened of snakes, but she does object to their taking liberties with her jam closet.

Procuring a double-bitted ax from the wood pile she carved the word "Finis" deeply in the anatomy of the reptile. It proved to be one of the blue racer species and measured five feet.

Sure Way.

"Senator, I wish you'd recommend this young man for office."

"But I know of no office I could get him."

"That's all right. I don't really want him to get any office. But he wants to marry my daughter, and if he has done anything shady in the past I'd like to have the facts brought out."

Louisville Courier-Journal.

Enlarged View.

Stranger—What sort of a man is your neighbor, John Bragg?

Native—Oh, he's all right—but he has a telescopic imagination.

Stranger—A telescopic imagination!

Native—Yes. John can't even tell the truth without getting it two or three sizes larger than it really is.

Acknowledged His Guilt.

Muggs—Behold in me a self-made man.

Diggs—I congratulate you because of your charitableness.

Muggs—Beg pardon?

Diggs—it is certainly charitable of you to assume the blame.

A Caution.

"Look out for that widow. I think her pretty mournful air is merely assumed."

"I think so, too. In fact, you can tell she is out for conquest by the catch in her voice."

Advice Gratefully Received.

Clerk—These soft-cuff shirts are very much in vogue, sir. I always wear them myself.

Customer—I'm glad you warned me. Let me see some with a stiff cuff, please.—Judge.

A Mistake.

"After all, there's no reason in the world why women shouldn't vote if they choose."

"Very true, and if we men hadn't been foolish enough to oppose the idea they never would have wanted to."

A Colored Malaprop.

Mistress—So the automobile almost ran you down, did it, Hannah?

Hannah—Hit sho did, Missus Arthur. Hit's nothin' but a dispensary or Providence dat I'm libin' ter tell de tale.—Boston Evening Transcript.

IMITATION IS SINCEREST FLATTERY

but like counterfeit money the imitation has not the worth of the original. Insist on "La Creole" Hair Dressing—it's the original. Darkens your hair in the natural way, but contains no dye. Price \$1.00.—Adv.

Innocent.

Mamma—Didn't I see Harold throwing kisses up at you on the balcony?

Mario—Those weren't kisses, mamma; he was just practicing a new curve throw.

ON FIRST SYMPTOMS

use "Renovine" and be cured. Do not wait until the heart organ is beyond repair. "Renovine" is the heart and nerve tonic. Price 50c and \$1.00.—Adv.

When the mother of a small boy

calls him to dinner he never replies: "Wait till I get some of this dirt off my hands!"

THE WORST EXAMPLES A SMALL BOY

ever encounters are in his arithmetic.

Most stimulants are poisons.

EAT QUEER THINGS IN PINCH

Find Satisfaction in Stew Made of Vest, Shoelaces and Sledge Gear.

There is naturally much talk in war time rations and food supply, and the possibility or probability of starving out one or other of the belligerents. But it is amazing what people will eat at a pinch.

A recent arctic explorer seriously advised the wearing of skin clothing in preference to woolen, simply and solely because, if the worst came to the worst, one's outfit could be stewed for a meal, or at any rate given to the dogs!

Well, when a man finds enjoyment and a sort of inward satisfaction in a stew made of his vest; his shoelaces, and his sledge gear, he must be pretty "peckish," and when he gets back to civilization he will make a model husband, never likely to turn up his nose at cold mutton on washing days. The bishop of Yukon thinks nothing of eating his boots. He had probably declared he was ready for that operation many a time when he was a boy, but he has actually done it since he came to man's estate—in his case, the great gold fields of arctic Alaska.

LOOK YOUNG AND HANDSOME AGAIN BY DARKENING YOUR GRAY HAIR WITHOUT DYES.

While it is no disgrace to have gray, streaked, or prematurely gray hair, it is unnecessary in this day and time. Simply shampoo your hair and scalp with Q-Ban Hair Color Restorer. After doing this a few times hot a trace of gray can be seen, but all your gray hair and entire head of hair will have become so evenly dark, soft, fluffy and healthy that no one would suspect you had applied Q-Ban. It is no dye, but a ready-to-use liquid, absolutely harmless. Big bottle sent prepaid for only 50c by writing Q-Ban Laboratories, Memphis, Tenn., or sold by druggist. Be careful not to accept substitutes or harmful dyes, but insist on having Q-Ban Hair Color Restorer.—Adv.

Not Entertaining 'Em.

"I can't find any old clothes to put on the scarecrow," said Farmer Cornsossel.

"You might use some of the fancy duds our boy Josh brought home from college," suggested his wife.

"I'm only tryin' to scare the crows; not to make 'em laugh themselves to death."

Difficult Riddance.

"We'll have to get rid of graft," said the indignant citizen.

"Yea," replied Senator Sorghum; "and we'll have to devise some system by which getting rid of one kind of graft doesn't create tempting possibilities of another."

Pleasing Mother.

"Will you dance this dance with me?"

"Mother has forbidden me to dance with you."

"So it wouldn't be any fun. When she comes back I'll give you a dance."

Too Much of It.

"I'd like to talk to you, sir, about some sweeping reforms we are contemplating—"

"Can't listen, sir. My wife is cleaning house just now, and there are too many sweeping reforms for me going on at home."

The Difference.

"The marriages among savages are more businesslike than among us."

"How do you mean?"

"The savages have to buy their wives, but with us, brides are given away."

Paw's Theory.

Little Lemuel—Say, paw, why do they always portray justice with a bandage over her eyes?

Paw—Probably because the lawyers have talked the poor woman blind, son.

LADIES CAN WEAR SHOES

One size smaller after using Allen's Foot-Ease, the antiseptic powder for the feet. Shaken into shoes and used in foot-bath, easy, and gives instant relief to sore and aching feet. Try it today. Sold everywhere. For FREE trial package, Address: Allen's, Cincinnati, Le Roy, N. Y. Adv.

It's the thing you don't want the people are always willing to hand you.

What the Farmer's Wife Must Do.

In the June Woman's Home Companion is an article by a farmer's wife who resents the pity that is bestowed upon farmers' wives throughout the United States. In it she says: "I don't pretend to say that I think farm life is easy. Farm life means hard work for the man and hard work for the woman."

"Of course, she's got her house to take care of, and three meals a day to cook, put on the table and clear up after. You don't telephone to the butcher and the green-grocer for your supplies. You kill and dress your chicken yourself, or you go out to the smoke-house and take a ham off the hook and cut a slice off with your own hands. If it's winter the vegetables must be brought from the down-cellar. If it's summer they must be brought right out of the field."

If you want sweet corn, you go down to the sweet corn patch, pull all you need, bring it up alongside the cow pound, husk it, throw the husks over into the pound, then carry your basket of corn up to the kitchen, where it must be silked before it's ready for the kettle. And if you want potatoes very likely you've got to get a hoe and go down to the patch and dig them. Tomatoes have got to be picked, and so have lima beans and string beans and okra and egg plant, and any other 'garden-sass' that figures on your menu. And it's the same way with fruit."

"Besides the meal getting, there's the washing and ironing and sewing and cleaning, both inside the house and out, this last, for the most of us like to brush up the yard around the house once or twice a week, and

in the fall the leaves must be raked and carried off. Maybe the men folks will find time to cut the grass—and then again, maybe they won't. Don't count on it."

"And then there's the milking. We have five cows, and many a time it's I who milk them, night and morning, because we can't get a hired man who will. Once the milk's in the bucket, it's got to be taken care of, and if there is anything that has to be surgically clean it is the pans and crocks and buckets and strainers and churn."

\$100 Reward. \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

Lost a Boy!

Not kidnapped by bandits and hidden in a cave to weep and starve and rouse a nation to frenzied searching! Were that the case one hundred thousand men would rise to the rescue if need be.

Unfortunately the losing of the lad is without any dramatic excitement, though very sad and very real. The fact is, his father lost him! Being too busy to sit with him at the fireside and answer trivial questions during the years when fathers are the great and only heroes of boys, he let go his hold upon him! Yes, his mother lost him! Being much engrossed in her teas, dinners and club programs, she let her maid hear the boy say his prayers and thus her grip slipped

Heads Parish Players' Company, Who Appear Here on Third Night of the Chautauqua

Photo by Moffett, Chicago.

FERN HOBART DOUBLEDAY.

MISS FERN HOBART DOUBLEDAY, who heads the Parish Players' Company, which is to appear here on the third night of the Chautauqua, is a brilliant young actress of great personal charm and vivacity. She has played leading parts with the Victoria Players and the Boyd-Nolan Players.

and the boy was lost to the home. Aye, his church lost him! Being so much occupied with sermons for the wise and elderly who pay the bills, and having good care for dignity, the ministers and elders were unmindful of the feelings of the boy in the pew, and made no provision in sermon or song or manly sport for his boyishness, and so the church and many sad-hearted parents are now looking earnestly for the lost boy.

He must be found! He can be found! Found just where those two careless but pious parents en route from worship in Jerusalem found their lost boy. In that particular spot in the church where interested men were willing to meet Him and answer in simple fashion the direct questions of His awakening manhood concerning the realities of life and duty. Here is where the lost boy will be found by men who are willing to look for him.—Exchange.

Impure blood runs you down—makes you an easy victim for disease. For pure blood and sound digestion—Burdock Blood Bitters. At all drug stores. Price \$1.00.

Buyers read the Ledger ads,

GO NO FARTHER

The Evidence is at Your Door.

Murray proof is what you want and the statement of this highly respected resident will banish all doubt:

J. T. Wells, clothing dealer, Murray, Ky., says: "I have used Doan's Kidney Pills when I have had kidney trouble and they have always done me good. Another of my family also took them. Although the patient's condition was much worse than mine, Doan's Kidney Pills, procured at Dale, Stubblefield & Co.'s drug store, did more good than anything else ever tried."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wells had. Foster-Milburn Co., Props., Buffalo, N. Y.

Bartlesville.

Bartlesville, Okla., June 1. Editor Ledger:—Well, I am now a resident of Oklahoma and of the city of Bartlesville. This city has a population of about 15,000 and bank deposits of over \$5,200,000 and money laying around in the banks to loan, with

no borrowers. Tulsa, south of here about 50 miles, has a population of about 40,000 and has \$27,000,000 in the banks. Pretty good, don't you think? I still love old Kentucky and her people, but I do think this is the place to make money. I am right in the center of the mid-continent oil fields, the largest in the world. There are six big smelters here, all going full blast. The ore is sent here on account of the cheap fuel, natural gas. No one in Oklahoma ever builds a fire; simply turn on the gas and things soon warm up. The payroll at the smelters alone brings in over \$100,000 every two weeks; the lowest wage paid being \$2.95 per day and from that up to \$7.00. Send the Murray Ledger to yours respectfully,

J. M. Luton.

Men and Collars.

"The business men who are slaves to the laundered collars are now entering into another long summer with no relief in sight," laments the Tulsa Democrat, editorially. "Some day, however, one of these sufferers will invent a sweat proof linen collar, and when he does his name will go down in history as the liberator of his race."

"Humph!" Ejaculated a woman who read the paragraph. "What fools and cowards men are, anyhow! Why wear high collars in summer at all?"

And isn't there a good deal of

sense in her question? What have high, starched linen collars to do with comfort, beauty or even dignity? Is dignity dependent upon a strip of starched linen? If so that kind of dignity had better be dispensed with. The dignity which comes from mental and spiritual power can be manifested quite as easily by the man in the soft shirt.

Men may polk fun at women in summer furs, and be entirely justified. But after all, the summer fur is merely a passing fad. And year by year lives on the high starched collar. Women liberated themselves from high collars a few summers ago, and no style dictator has been able to foist back upon the sex those instruments of torture. Last summer shirts for men with low, comfortable rolling collars came into a small vogue. They had everything possible to commend them and nothing against them. They were comfortable, good looking, sensible. Yet only a few men were brave enough to adopt them. The others sweltered, agonized—and jeered at the heroes.

Scrawny Calves.

What makes a calf scrawny—off its feed? Germs—parasites—in the intestines. Why not free them of this trouble? If you will give the calf some B. A. Thomas Stock Remedy in its feed, within a week you will see it brighten up and in four or five weeks you won't know the calf. Costs you but a few cents and we will refund that if it doesn't do as we say.—Sexton Bros.

BOURBON HOG CHOLERA REMEDY

Prevents and Cures

CHOLERA, WORMS, COUGH, THUMPS.

It destroys disease germs, regulates the bowels, aids digestion and causes hogs to fatten quickly. Use it in the feed and drink and your hogs will never have cholera. Costs only 5c a month for each hog. Don't wait until they get sick. Begin giving your hogs this medicine now and keep them free from worms and disease. At All Druggists.
