## Warns Against Exposed Foods

County Sanitarian Tells Customers To Be Wary of Unwrapped Food Items

"Don't buy food that is stored on counters, refrigerators, etc., unless it is wrapped in tight packages," advises Harry A. Barry, sanitarian, Fulton and Hickman county health department. "All store managers have been notified a number of times not to display meat, cheese, cakes, candy, dried fruit, dried beans, pies and doughnuts where they will become contaminated by the filthy rat, the diseased customer, flies, etc."

Mr. Barry explained, "The public Health Service has found this type of food unsafe. In talking to clerks, they inform me that you, the buying public, will buy more food from open displays and more meat and cheese from the top of the meat counter where hundreds of people have coughed, sneezed and breathed on it before you got there. We know that droplets will float 12 feet."

"The Kentucky law gives us the right to quarantine all exposed food. We are not in all the stores, so hundreds of pounds of exposed food may be sold between inspections. This is to warn you not to buy exposed food. It might be contaminated."

## Mrs. Russell Dies At Home In Texas

Mrs. M. I. Boulton received a long distance telephone call this morning telling her that her sister-in-law, Mrs. Everett Russell, died early today at 6 o'clock at her home in San Benito, Tex.

Funeral services for Mrs. Russell will be held in San Benito Sunday afternoon, May 11, with interment following, also in San Benito.

ington he was bowing out of the race, in which Attorney General Eldon S. Dummit, Lexington, and Jesse W. Knox, Frankfort, already are entered.

Morton said in a statement he thought his candidacy would contribute to "party disunity" and would not promote a GOP victory in the November general election.

Upon being notified of Morton's action, Dummit termed it "a very noble act," the attorney general asserted it was "a great contribution to party unity."

Morton's action, Dummit added, "will long be remembered by all party leaders as well as the rank and file of the Republican Party."

The Louisville and Jefferson county GOP organization announced its support for Dummit. Republican leaders in Louisville, through their executive committee, recently had endorsed Morton.

The organization's action was disclosed formally in a statement issued by J. H. Ross Todd, GOP Jefferson county chairman, and Edward C. Black, Third Kentucky District GOP chairman.

Following the Louisville representative's withdrawal, the statement said, the organization "overwhelmingly agreed" upon support for Dummit's candidacy. "We share with all the Republicans of Kentucky the hope that an intra-party fight has been avoided and we confidently look forward to victory in November."

Gov. Simeon Willis, who had endorsed Morton's candidacy, was not available immediately for comment.

## New Fire Truck Delivered Monday

### Ordered July, '46

Fulton's new fire truck, bright red and rarin' to go, was delivered yesterday afternoon.

The chassis was purchased from City Motor Co. for \$1250.15, and the remainder of the fire-fighting equipment came from Oren Fire Apparatus Co., Roanoke, Va., at a cost of \$3,435.

The truck was ordered in July, 1946. The chassis is one and one-half ton size. The pumping capacity is 500 gallons per minute, and 500 feet of new hose has been secured for use on the new truck.

The city plans to sell the larger of its two old trucks, if possible. Also, the interior of the fire department will have to be re-modeled to accommodate the new truck, which is larger than either of the present fire-fighters.

## 40 & 8 "Goofs", Two Of Fulton, Initiated In Paducah Sunday

Paducah—Strollers and drivers on Broadway Sunday afternoon may have thought the invasion from Mara was on when the street was taken over by a large group of men dressed in blue smocks, orange ties and peaked caps, but it was only part of the initiation of new members into the 40 & 8, honor society of the American Legion.

The men in smocks were standing guard over a group of 12 others who were painted like Chief Paduke might have been but were dressed like he never was. Signs on the backs of the

Madisonville, Ky., May 6—(P)—City officials announced here today that the city council has authorized enlargement of the municipal water filtration plant from a capacity of 1,000,000 gallons a day to 2,000,000 gallons.

Jones and Donnan, Madisonville civil engineers, have been ordered to prepare plans and specifications for the project, estimated to cost about \$90,000.

The present filter plant, constructed 12 years ago, was terminated at the time adequate for 35 years, but the demand is greater than the supply, city officials say.

## U. K. Dean To Deliver Madisonville Address

Madisonville, May 6—(P)—Dr. William S. Taylor, dean of the College of Education at the University of Kentucky, will deliver the commencement address at Madisonville high school May 16, it was announced here today.

The class of 72 seniors is the largest in many years, school officials said.

12 labelled them as "poor goofs" and they were garbed in everything from a woman's black slip to the bathing suit of Miss America of 1930. Hanging on to a large rope pulled by a truck, the initiates were dispersed along Broadway, with some being required to wash clothes at Sixth and Broadway and others forced to wash windows in the Citizens Bank Building.

When the group of "goofs" were gathered into trucks for the return trip to the home of Chief Paduke Post 31, a large group of idlers on Broadway were left with sides near the splitting point.

The initiation was topped off with dinner at the Legion home in honor of the new members. Representatives of Legion posts from over the first district, which make up Volume 921 of the 40 & 8, were present at the festivities.

Among the initiates were Jack Speight and Paul Durbin of the Marshall Alexander Post 72, Fulton, and 10 members of Chief Paduke Post, Paducah.

## Three Admit Robbing Bank

Another Man Accused Of Clay Holdup Pleads Not Guilty At Owensboro

Owensboro, Ky., May 6—(P)—Three men pleaded guilty and a fourth innocent after they were indicted by a federal grand jury here yesterday on charges of robbing the Farmers Bank at Clay, Ky., of \$10,250 last Monday.

Those entering pleas of guilty, officers said, were Robert Neal Allen, 20, and William Charles McCormick, 30, both of St. Louis, Mo., and Glenn Ellis Messamore, 40, of Henderson, Ky.

Federal Judge Mac Swinford set trial Thursday for the fourth defendant, Rudy Carrier, 32, also of Henderson, who pleaded innocent. Action on the other three cases was deferred until after the trial. Officers said Carrier, described as the regular driver of the taxi-cab in which the four men and a woman were captured last Tuesday, contended he had no part in the robbery.

No indictment was returned against Miss Clara Harper, 27, Indianapolis, who police charged was driving the cab when it upset in Evansville, Ind. However, authorities said she was held as a witness. Police reported recovery of most of the money.

At Clay, an inquiry was under way into circumstances leading to the suicide of George E. Price, assistant cashier of the bank, who had related how the robbery occurred. Coroner J. M. Blue said Price shot and killed himself last Friday. Officials of the bank disclosed a shortage had been found in the bank's books but said the loss was covered by insurance.

## Kesselring Gets Death Sentence

Former Nazi Commander In Italy Held Guilty Of Crimes Against People

Venice, May 6—(AP)—A British military court today sentenced Field Marshal Albert Kesselring, former supreme German commander in Italy, to death by shooting after convicting him of war crimes against the Italian people.

Kesselring's counsel, Dr. Hans Latenser, had declined to ask for clemency after the verdict was announced, saying:

"He expressly asked me not to address the court any further."

After announcing the verdict, the five-man court deliberated 40 minutes to reach the sentence. When Kesselring heard the words, translated by the interpreter, he sat down abruptly in a chair. Then he was led from the courtroom by British military police.

C. L. Stirling, the judge advocate, announced that both the conviction and the sentence were subject to review by "the appropriate military authority"—in this case, Lt. Gen. S. R. John Harding, commander of British General Mediterranean forces.

## Austrian Girl Is Grateful

Thanks Mrs. O. R. Bowles For Clothing Sent Her In UNRRA Program

Mrs. O. R. Bowles, 301 Fourth street, received the following letter from a little girl in Austria last week. The letter was written in grateful appreciation of clothing received which had been donated by Mrs. Bowles.

The letter comes from that part of Austria under Russian domination and bore a censor's stamp.

Wiesmath Near Neustadt, Aus. Jan 15th 1947.

Dear Lady:

Herewith I have the honour to inform you that I am the happy possessor of your cloak given by Unrra. I send you many, many thanks for this beautiful gift.

I am 12 years old and the eldest daughter of a joiner. You can see me with papa, mamma and my two brothers on the enclosed portrait, but 4 years ago—

I learn only two years English and I hope I have not made too many faults in this letter.

I shall always think of you, my lady in the distance!

Yours truly,

Erna Fuchs

## Scattering Cities Called No Answer To A-Bomb Threat

Cincinnati, May 6—(P)—Decentralization of cities is not the answer to the atomic bomb threat, says Dr. Louis Wirth, University of Chicago sociologist.

Speaking last night during a panel discussion at the annual conference of the American Society of Planning Officials, Dr. Wirth said there were "only two ways to escape an atomic bomb, or for that matter, modern aerial bombing of any kind."

"You can go underground," he declared, "or move out of town. Obviously, it is impractical to move a whole city or even a large part of it underground. It also is impractical to decentralize a modern city enough to escape destruction by atomic bombs and still use it as a city."

"When all is said and done," he declared, "we might as well try to make the best of the situation by outlawing war through the United Nations, or the development of some similar method."

## A. T. & T. States Nearly A Quarter Of Force On Job

U. M. W. OWNERS CONFERENCE

By The Associated Press  
Federal conciliators prepared for "important" negotiations in the month-old telephone tie-up today as more than 17,000 strikers in five midwest states accepted a weekly wage increase averaging \$3.50.

In Washington, conciliators said settlement of all questions involving the strategic long lines division of the American Telephone and Telegraph Company was "quite possible" before nightfall.

Governor Luther W. Youngdahl of Minnesota announced successful conclusion of negotiations between the Northwestern Bell Telephone and 17,000 members of the North-western Union of Telephone Workers in Minnesota, Iowa, Nebraska and north and south Dakota. However, Matt C. Weir, president of the Minnesota unit, said picket lines of three other unions negotiating on a national basis would be respected. The union is an affiliate of the National Federation of Telephone Workers.

With the St. Paul settlement, acceptance of a \$4 weekly raise by 37,000 members of New York unions, and agreement by two of three unions in Illinois, the A. T. & T. said nearly one fourth of the 340,000 workers made idle by the April 7 strike had agreed to work terms.

## Seek Coal Agreement

In Washington, bituminous mine owners and officials of the AFL United Mine Workers were summoned for another try at a contract get-together today by coal mines administrator N. H. Colson.

The administrator brought to the meeting information about Southern coal mine problems in an attempt to reconcile the refusal of Southern operators to enter into industry-wide bargaining for a contract and the insistence of John L. Lewis' union for that scale of negotiation.

## Other Strikes

At Worcester, Mass., a state conciliator attempted to bring about an agreement to end a strike of 1,900 workers at the Pullman Standard Car Manufacturing Co., called yesterday because no contract had yet been agreed upon to replace one which expired March 24.

A one-day shutdown of operations at the Hudson Motor Car Co. at Detroit ended after it was agreed to ask a National Labor Relations Board election to determine the bargaining agent for 72 plant protection workers whose walkout made 8,000 employees idle.

A strike was averted at the American Locomotive Company's Schenectady plant yesterday by agreement on two new work contracts providing hourly boosts of 15 cents for 5,000 plant workers and 12 1-2 cents for 1,000 office workers. Both groups were members of the CIO United Steel Workers union.

## Taft, Ball Differ

As the Senate convened for resumption of debate on its omnibus labor bill, Senator Taft (R-Ohio) said he will oppose proposals of Senator Ball (R-Minn.) to outlaw industry-wide strikes and the union shop.

These amendments, he told a reporter, "go too far."

Pending before the Senate is another amendment, sponsored by Ball and supported by Taft, to restrict industry-wide bargaining by forbidding national unions to dictate contract terms to their locals. It would deny collective bargaining rights to national unions in most cases.

Taft said he "wouldn't want to go any further than the restriction on bargaining at this time."

Senator Russell (D-Ga.) also said he would vote against a proposal to ban the union shop.

"Their catcher (Bruce Edwards) is the best in the league except when Walker Cooper is having a good day," Dyer maintains.

"Eddie Stanky is up in the lead-off spot on my all star team and Peewee Reese is the best shortstop in the league." Improvement Note: Last season Ted Williams made only two home runs off Yankee pitching, the first on Aug. 10. This season Ted's first hit against the Yankees in their first clash of the year was a homer.

## Walker, Mullin Leading Hitters

Bum Basher Has .439 Tiger Star Has Hit .425; Two Others Over .400

New York, May 6—(AP)—Dixie Walker of Brooklyn, a dependable swatter with a fine .439 spring average, and Pat Mullin of Detroit, whose .425 mark indicates a return to his pre-war form after a dreary 1946 season, top the major leagues in batting after three weeks of play.

The 36-year-old Walker, who was supposed to have a tough time fighting off younger aspirants for his right field job, has collected four doubles in his 18 hits and has driven in 13 runs, only one less than New York's Johnny Mize, the National League leader.

Thirteen points behind Dixie in the average columns comes Pittsburgh's Frank Gustine, a much-improved ball player at .426, with Tommy Holmes of Boston, rounding out the 400 club at .404. Bob Elliott of Boston, .377 and Bill Rigney of New York, .375, are others in the first five.

Johnny Hopp of Boston and Willard Marshall of New York are tied for sixth at .341 followed in order by Pete Reiser of Brooklyn, .324, and Augie Galan of Cincinnati and Phil Cavarretta of Chicago, each at .321.

place and the select first division. Thus the customers are ready and eager to beat a fast pace to the ball park.

Rains which washed out the entire Giants' series with the Pittsburgh Pirates and Chicago Cubs at the Polo Grounds is estimated to have cost the club around \$150,000. It is figured that at least 120,000 fans, excited by the Giants' sweep of a three-game set with the world champion St. Louis Cardinals, would have witnessed the games. Also the initial National League appearance of home bred Hank Greenberg at the Polo Grounds wearing a Pittsburgh uniform was expected to attract many.

The steady second division finishing White Sox, suddenly finding themselves enjoying the luxury of a first place outfit, were hit hard by the postponement of four games at Comiskey Park. The loss of a Sunday date when the Chicago fans were highly excited over the team especially hit them right between their eyes.

In all there have been 48 postponements—27 washouts in the National League, and 21 in the American. It has been years since such atrocious weather.

The entire card was drowned out yesterday including the scheduled night game between the Cards and Braves at Boston.

About the only teams that welcomed the postponements were the Cardinals and Yankees. The wobbly Redbirds, still reeling over their nine straight defeats, which finally ended Sunday, probably could use those off days to get themselves straightened out. The Yankees don't mind the rest periods because they allow their star slugger, Joe Dimaggio, more time in which to rest his ailing heel.

Weather permitting, 14 clubs will attempt to play today. Cleveland and Washington are not scheduled.

## Murray Nine After 7th Diamond Win From Tenn. Tech

Murray, Ky.—The Murray State Thoroughbreds will be gunning for their seventh diamond victory of the season when they meet the Tennessee Tech Golden Eagles here Wednesday afternoon at 3 p. m. The Breds have dropped four contests.

The Murray mound staff dealt a severe blow last Saturday when Pitcher Johnny "Red" Reagan sustained a broken finger on his pitching hand. While attempting to bunt in the seventh inning of the game with Eastern, Reagan was hit on the finger by a pitched ball. The Breds were ahead 5-3 at the time but the Maroons teed off on his successor, Jim Taylor, to win 6-5. Coach Carlisle Cutchin is still undecided as to who will open against the Golden Eagles but added that the starter will either be Milt Sanders, Newt Buchanan, or Taylor.

### Wall Street Report

New York, May 6.—(AP)—Further profit cashing of five successive rising sessions put most of today's stock market leaders in the losing ranks.  
Dealing fairly active from the start, slowed at intervals but declines of fractions to 2 or more points predominated near midday. Motors and steels retreated, again was based on the idea that the list had achieved a normal technical recovery and now would have to depend on real bullish news to keep going.  
Stumblers included Chrysler, General Motors, U. S. Steel, Bethlehem, Goodrich, Schenley, Southern Railway, Ward, Sears Roebuck, du Pont, Anaconda, Air Reduction, Westinghouse, Douglas Aircraft, General Electric and American Telephone.  
National Container was unresponsive to a splitup proposal. Standard Oil of Ohio added a fraction on a halsted quarterly payment.

## General Fund Is \$44 Millions

May Reach \$55 Millions By June 30 At This Rate; Road Fund Is Higher

Frankfort, Ky., May 6.—(AP)—Kentucky's general fund revenue reached \$44,847,327.73 today and, with two more months to go, appeared headed for around \$55,000,000 by June 30.

April receipts were reported by state Finance Commissioner Clarence Miller today as \$6,044,623.69, and there was nothing in sight to denote any great slump in May and June.

The latest official estimate for the current fiscal year which ends June 30, was \$45,711,420, and Miller's totals today showed the amount collected through April was within \$204,092.78 of that estimate with the two months still coming up.

The state road fund, which starts its fiscal year April 1, showed April income of \$1,900,466.66, or \$22,547.45 more than in April a year ago.

Miller reported the general fund surplus at the end of April as \$20,387,961.82.

## LaCenter 9 Wins From Clinton 63

The Ballard countouts got five runs in the first three innings to two for Clinton, and the contest then developed into a pitcher's battle between Roy Arrington and Taylor, of Clinton. LaCenter scored once more in the fourth and Clinton counted in the eighth.

### "To Our Teachers"

The South Fulton Parent-Teacher Association, to let the public know something about their teachers, have "put in writing what's in their hearts," as follows:  
Tiny Miss Pepper, our praises of her are loud.  
The job she has done with our six-year-olds, we are proud.  
Mrs. Alben Harper, as in Harper's Bazaar,  
With first and second grades has been up to par.  
Dumpy Mrs. Martin, she just cannot be beat.  
Men begin in second grade to think she is sweet.  
Lovely Miss Gardner is our baby by indeed.  
But she caught on how to teach at a break neck speed.  
Mrs. Roper Fields wins her game by the pitch;  
A prayer does more in her room than a prayer book.  
And pretty Mrs. Kerr; that is not half enough said,  
She is good and she is kind, if she is a red head.  
And Miss Stokes, she has been with us for years,  
Just let her think of leaving if you want to see tears.  
Mrs. W. R. Reid, she's brisk and she's smart,  
But her pupils, like the preacher, have learned to take their part.  
Mrs. Coltharp always meets you smiling,  
Even though papers to grade on her desk are piling.  
Early in the year Dan Cupid played a part.  
But Mrs. Helthcock proved to us we still have a place in her heart.  
Mr. Burrow is as still as a mouse.  
But the commercial pupils know when he is in the house.  
Mr. Jones and Mrs. Bennett are two of a kind,  
But a better pair you never will find.  
Mr. Clark is handsome and tall; His only true love, girls, is basketball.  
Mr. Filmming, calm and devout is he.  
But dear to our hearts he will always be.  
Solemn Miss Adams, she is pure gold.  
No pranks in her class, we are definitely told.  
Along comes Mrs. Grisham—her interest is dramatic arts.  
When she coaches a play they all know their parts.  
Hard-working Miss Williams, of her you must speak just right.  
If you don't you will have the juniors to fight.  
Last comes Mr. Eller, the boss of them all;  
If you really want a big job done, on him we will call.  
This tribute was paid by parents of the P-T-A.  
Let us say, "Thank You" in a great big way.  
Now, dear teachers, if we are not too late,  
We invite you back for 1947 and '8.

## Hotel Not Exempt As Site of Meters, Atty. General Says

Frankfort, Ky., May 6.—(AP)—Municipalities may legally install parking meters in front of hotels and apartment buildings, the attorney general's office advised F. L. Pearl of Paducah today.

Pearl had inquired whether the city could set up the fee receiving devices and deprive guests at a hotel of free parking space for their cars.

A number of questions from county officials questioning the right of cities to install the meters in front of court houses also have brought from the attorney general an opinion this can legally be done.
