NFTW Drops Nationwide Bargaining
Company, Union Leaders Predict Earlier Decision

STATE PAY RAISED
Washington, May 5—A decision which raised the monthly telephone rates last week was said to have left employees without a wage increase last night by the head of a Bell System bargaining committee.

This decision to shift the outlook of the Bell System bargaining committee came yesterday when Bell officials in a meeting with the management representatives of the National Federation of Telephone Employees, which had been in an impasse for 15 months, declared that they were going to meet with the union representatives to seek a solution.

The most important bargaining issue of the negotiations is the question of pay raises for employees, who have been rated by the Bell System on a nationwide basis because of the strike that is currently on going.

The Bell System will be represented at the new negotiations by representatives of the National Federation of Telephone Employees, who have been in an impasse for 15 months.

MOTHER’S DAY, 1947

Mother’s Day is the most observed of all national observances. Perhaps it is the most valuable of them all. It is the only day of the year set aside to honor mothers and show appreciation for the love and care they bestow upon their children. To honor our mothers at this time is to honor a true and real American tradition.

Mother’s Day is celebrated in various ways in different parts of the world. In the United States, it is typically observed on the second Sunday of May. In the United Kingdom, it is celebrated on the fourth Sunday in May.

Mother’s Day has been observed in the United States since 1908. It was first observed in the city of San Francisco, California, by Anna Jarvis, who was inspired by her mother’s love and sacrifice.

Mother’s Day is a time to reflect on the contributions that mothers make to society and to the lives of their children. It is a day to acknowledge the love, dedication, and selflessness that mothers provide to their families.

Mother’s Day is a time to celebrate the strength and resilience of mothers. It is a day to remember the importance of family and the role that mothers play in shaping the future of our society.

Mother’s Day is a day to honor the sacrifices that mothers make for their families. It is a day to remember the love and care that mothers provide to their children.

Mother’s Day is a day to express gratitude for the love and care that mothers provide to their families. It is a day to remember the importance of family and the role that mothers play in shaping the future of our society.
