#### Becket News

Last Monday was a busy day for those who were interested in the world of flowers. The Lake County Horticulture Club held a meeting at which a number of members talked about their experiences with various types of flowers. There wereinsignificant contributions to the discussion, and the club is planning to hold a larger meeting next month. The meeting was well attended and the club will continue to hold regular meetings throughout the year.

Inquiry Into Alleged U. S.-Arabian Oil Deal May Bring Subpoena Of FDR’s Private Papers

Washington, May 9—President Roosevelt, in a message to Congress on the proposed agreement for the sale of the U.S. oil to the oil-researching United States Company, said that the agreement would be revoked if Congress did not act favorably.

The letter was accompanied by a recommendation that the President be given authority to issue an executive order for the sale of the U.S. oil to the oil-researching United States Company, the letter said. The agreement, approved by the Senate, would have been made a permanent feature of the government unless Congress acted favorably.

The agreement is a result of the protests of the United States Company, which has been working on the development of the United States oil field for several years. The agreement would have been made permanent unless Congress acted favorably.
