UF Drive
Is Nearing
Its Goal

The United Fund drive of the
Calvert City area has reached
the three-quarter goal in both
time and money, according to
Dennis Armstrong, president of
the drive this year.

The \$9,000 collected to date
represents contributions from
some of the industrial plants,
small businesses and individuals
living in the area.

The money will be distributed
to Girl and Boy Scouts, Recrea-
tion Association, Welfare, Heart
Fund, Salvation Army, and Red
Cross agencies.

B. F. Goodrich, last year's big
plant winner, has already com-
pleted its drive and the per capita
donation was \$13.

As the drive is still on, each
one in this area can still give to

2 Young Boys
Caught With
A Stolen Car

Two teen-age boys from
Illinois were captured here last
week in a stolen car. The boys,
17 and 14, were driving a car
that belonged to the grandfather
of the 17-year-old.

The boys had taken without
permission the 1959 Pontiac
hardtop from the relative's home
in Calumet City, Ill.

State Trooper Walter Thurlert
spotted the boys driving along
the highway near South Marshall
High School. He became suspi-
cious and stopped the young
drivers.

The boys were held here until
relatives could come and get
them on Monday, Nov. 20.

Plumbing Code to be Discussed

A meeting will be held at the
Marshall County Health Depart-
ment Nov. 28 at 7 to discuss a
plumbing code for Marshall
County.

A petition was presented to
the Marshall County Board of
Health at its last meeting re-
questing the Board to adopt the
State Health Department plum-
bing code for the county.

It was decided that a public
meeting should be held to dis-
cuss the matter first and that
the board's decision should be
guided by the will of the people.

All plumbers, contractors and
other interested citizens are in-
vited to attend the meeting.

Eugene Perkins, director of the
Kentucky Division of Plum-
bers, will discuss the code and
answer any questions regarding
it.

20 points for Benton, and Rus-
sell Anderson contributed 17.

North Marshall's Jets lost a
close one Tuesday night, 70 to

\$71,880 to Spend

Thrifty Marshall Countians have received nice Christmas
presents already — approximately \$71,880 to spend during the
holiday shopping season.

These thrifty persons were members of the Christmas Savings
Clubs operated by the three Marshall County banks.

The club members numbered approximately 600.

This year's Christmas Club checks set a new record, exceeding
last year's amount by about \$5,000.

All three banks are starting new Christmas Clubs for 1962, and
many people find it a convenient way to save money for their
annual Christmas shopping.

Tuesday night meeting.

by tricks of magic presented by
Jimmy Wilkins, an amateur
magician, who is an employee

Double Group Plan Added To Grain Program

A double cropping provision
has been added to the 1962 wheat
stabilization and barley pro-
grams.

Farmers who have double
cropped land during the 1959 and
or 1960 crop year by planting
barley or wheat followed by corn
or grain sorghum, can now claim
double history and receive pay-
ment for permanent cropland
on the same acreage.

Also, when farmers have made
a practice during the same base
period of seeding grasses or
legumes for hay or seed, they
will be permitted to harvest hay
or seed from double cropped di-
verted acreage if approved by
their local ASCS County Office.

County ASCS offices will con-
tinue accepting 1962 wheat
stabilization and barley applica-
tions through Dec. 1. Farmers
who have already signed applica-
tions may increase their partici-
pation in these programs by ap-
plying at the county office by
the final date for filing applica-
tions.

Any producer who has diverted
corn or grain sorghum acres and
received payment through the
Acreage office, may now pasture
this acreage.

OF 6 PER CENT PENALTY

Automobile owners who have
not paid taxes on their cars are
being notified this week by
Sheriff George Little that a 6
per cent penalty will become ef-
fective Dec. 1, 1961.

Sheriff Little says that many
automobile owners are still un-
aware of this new law, and
advises them to pay the taxes on
their cars before the penalty
goes into effect Dec. 1. In ad-
dition to the penalty, a lien fee
and a recording fee will be as-
sessed against those who fail to
pay the taxes by Dec. 1.

Please wait 'til then

Telephone Directory

At 1:01 Tuesday morning, Nov. 28, all Benton and Gilbertsville telephone numbers change to seven numerals, the kind of numbers that will eventually be used everywhere. The new telephone directory will be delivered by Nov. 28. Please do not use the new directory before Nov. 28.

Here's How the New Numbers Look

For Benton 527-8611 — For Gilbertsville 362-4511

This new numbering system makes for faster, easier, more accurate dialing. Dialing seven numerals instead of two letters and five numerals eliminates confusion such as that between the letter "O" and the numeral "zero" and between the letter "I" and the numeral "1". It also eliminates misunderstanding and misspelling of prefixes such as SI instead of SY for SYcamore.

The new numbering system also paves the way for future growth by providing more usable number combinations.

New Number Plates

Numbering plates for placing over the old number on all telephones have been mailed. If you haven't put yours on yet, please do so before the change. If you failed to receive your new number plate, please dial "operator" and ask for repair service.

Uncle Ned ... From Dogtown

Dear Mister Editor:

The fellers at the country store Saturday night was making their customary expert observations on the human race and, judging from their comments, they ain't much hope for it.

Ed Doolittle, fer instance, said he was reading in a magazine article where they is 18 million fishermen in the United States, and the next day he saw where some column writer in a newspaper claimed they was 18 million chronic liars in this country. Ed claimed the two figures come out perfect and was final proof that all fishermen is liars.

And the sad part about it, allowed Ed, was that the number of fishermen is increasing at a steady rate.

Zeke Crubb said it was just plain hard to get the truth out of anybody that had ever been close to fishing pole. He said he wouldn't be surprised if a fish didn't go home and tell a lie about the size of the bait he stole.

Bug Hookum, who looks at things a little on the dark side, was lamenting that personal liberty was disappearing in this country. He claimed if we didn't get some of these lawyers out of the legislature and the Congress, we'd soon have to get permission from the Attorney General to open a bureau drawer.

Most of the fellers agreed as how lawyers has managed to get so many laws on the book that there can't be such a thing no more as a "law abiding citizen."

In the main, Mister Editor, I think Bug and the fellers is about right I ain't as big a joy-killer as Bug but I ain't never been a feller to look up the chimney fer Santa Claus either.

Back in the old days a new state or federal law was passed only after many months of thought, prayer, and deliberation.

For instance, I can recollect when I was a boy they was discussing a fence law fer cattle. One legislator got up and argued again it, said he didn't want no fence law on account of when a pore man stole a pig he didn't want to make him lift it over no fence.

In the old days, human weaknesses was took into consideration. It also proves, I reckon, that the pore man voted pretty regular in them days.

Clem Webster told the fellers he was having a heap of trouble this year separating the figgers from the facts. He claims he

gits a set of fingers about once a month from the Agriculture Department showing the farmer is doing fine but they don't jibe with his bank book.

Clem said, in case the fellers hadn't noted it, they is a difference between figgers and facts. Fer instance, he explained, when you look at a lady with a girdle on, you're looking at the figger, but without the girdle you're looking at the fact.

That Clem is a card, Mister Editor.

Yours truly,
Uncle Ned

Golfing Through History

GOLFING FIRSTS
 There is good reason to sup-
 pose that the first golf balls
 were made of wood! But in
 the 17th and 18th centuries,
 they were made of various
 materials, wood, straw,
 stuffed hard into a core of
 leather. The best, however,
 and those which ultimately
 came into universal use were
 stuffed with feathers.

The primal golf club was
 probably a stick with a
 thick or curved end. The
 next step was a supple-
 mented mallet. As early as
 1503, account books of
 James II of Scotland re-
 cord purchases of special
 wooden golf clubs.

A travelling museum of golfing his-
 tory—The White Horse Scotch—A.
 G. Spalding Collection of Golfing
 Curios—currently touring country
 clubs from coast-to-coast offers to-
 day's golfer a glance at the early
 history of his favorite game.

The term "caddy" or "caddie"
 was at first applied to looters
 on the streets of Edinburgh who
 would hire themselves out as
 guides, baggage-carriers or
 messenger boys.

More Turnpike Bids Will Be Opened On Dec. 8 By The State

Bids for the west end of the new Western Kentucky Turnpike are scheduled to be opened Friday, December 8.

Several of the bids for sections east of Princeton were let Nov. 10.

The section from Princeton to Dawson Springs will be divided into three separate groups. The portions for the December 8 lettings will be from near the James Stevens farm to Dawson Springs.

The section from Highway 91 to the Stevens farm is set for bids in January, 1962.

Between Princeton and the Hopkins County line there will be three underpasses. One will

be where the turnpike goes under Highway 293, one near Lewis-town and the other near Mt. Pisgah. It will also go under Highway 91 with a cloverleaf intersection at this point of intersection.

Reports show the new turnpike will run parallel to the present Dawson Road. In some sections the two roads will be close enough you can see the other.

Mr. and Mrs. J. C. Hooker, of Benton, Mr. and Mrs. Travis Downs and daughters, Mr. and Mrs. James Fox and daughters, of Paducah, were Sunday dinner guests of Mr. and Mrs. Hurley Bondurant to celebrate the birthday of Mr. Bondurant.

Mrs. Bertie Oakley and Mrs. Will Egner of Rt. 6 were shoppers in Benton Saturday. Mrs. Oakley renewed her subscription to the Courier while in town.

Champion Corn Picker

Winner of the National Mechanical Corn Picking Contest in the two-row class is Cleo S. Hurt of Holt, Mo. The contest was held at Worthington Minn. For Champion Hurt's first participation in a national event, he chose the same Ford tractor and picker combination used by the national two-row champions in the previous two years. Mr. Hurt (inset) scored a remarkable 94.08 points out of a possible 100, one of the highest scores ever recorded in this annual event. He harvested 2,638 pounds of corn from four-tenths of an acre in seconds over minutes.

Picture of Health

By Harold N. Schwinger, M. D.
A colleague of mine has termed heart attacks "a major killer of our most productive people during their most productive time of life." His statement was prompted by the recent realization that heart attacks do not as was previously believed limit themselves only to the aged.

Today's statistics indicate that even those in their 20's and 30's may be potential victims. Fortunately, however, at the same time that the death toll attributed to heart attacks is becoming higher, medical men are coming closer to finding a way to actually prevent this killer from striking. So far, one of the greatest advancements in this direction has been made in the field of radiology.

The cause of a heart attack is not found within the heart but within the arteries leading into the heart - the coronary arteries. Because these vessels are responsible for supplying the heart with blood, and obstruction within either of the two main coronary arteries denies a certain area of the heart of life-giving blood, thereby causing what is known as a heart attack. The severity of the attack depends upon the extent of the obstruction and the amount of blood which is denied. Arteriosclerosis or hardening of the arteries is usually the cause of an arterial obstruction. Therefore, the prevention of heart attacks lies in the removal of the arteriosclerotic plaque before it has time to form a blood clot enough to restrict the flow of blood.

The surgeon has long believed that he could find a way to surgically repair the troubled coronary artery, but because the heart will not withstand exploratory surgery, he needed to know exactly where he was going and what he was going to do beforehand. It was up to the radiologist to provide such a "road map," and only recently, after years of research, has the radiologist found a way to do so. Each new radiological electronic invention, such as improved equipment, rapid serial exposures, x-ray motion pictures, and improved contrast media, brought the radiologist one step closer to viewing the invisible coronary arteries. Today, by a procedure known as coronary arteriography, the

The Marshall Courier, Benton, Kentucky, Nov. 23, 1961

radiologist is finally able to view these structures. He can define the exact area which is diseased and the extent of involvement. This information, when passed on to the surgeon can be used to develop surgical procedures to alleviate coronary arterial insufficiency. Although the perfect surgical procedure for this purpose is yet to be developed, the prevention of heart attacks is not beyond eventual control.

Now that radiology has made its major breakthrough, the tide has changed, and medicine can now, for the first time look forward with more confidence to defeating this killer. Mrs. Ethel Ivey and her daughter, Mrs. K. B. Cronch, of Mayfield Rt. 5 were visitors at the Courier office while in town Monday to have the date of their paper changed.

IT COULD BE WORSE

When bad luck hovers over you
And rain begins to fall
There is no use in grumbling
Your heartaches may be small.

Misfortune comes to all of us
We all must have our share
The thing that matters most of all
Is how we weather care.

Forget about self-pity
This sinks you lower still
But prayer in place of pity
And you'll climb the hill.

Remember it is God's own plan
To put it to a test
And he will always help the ones
Who try to do their best.

Be a faithful optimist,
Time makes strife disperse
For after all is said and done
You know it could be worse.

Internal Revenue To Provide Help On Sales Tax Figures

Mortimer M. Caplin, U. S. Commissioner of Internal Revenue, has announced that the service again will provide guidelines for taxpayers residing in states with general sales tax laws for estimating sales tax deductions for 1961.

The guidelines will take the form of sales tax tables which will show average amounts spent by residents for sales taxes. These tables are intended to serve as guides for taxpayers who itemize the deductions on their Federal income tax return, Form 1040.

"We believe this information will make it easier for taxpayers to fill out the portion of their return which relates to the sales tax deduction," Mr. Caplin said. The sales tax tables will be available in the respective district director's office on or about Dec. 6, 1961.

Mrs. Edward Retke and two sons of Fairmont, Minn., were guests for the past three weeks of her parents, Mr. and Mrs. Malcolm Heath.
