## Going, Going—

An article in the May 10 issue of *Colliers Magazine* entitled "Two Acres For Your Life" merits the thoughtful consideration of everyone who depends wholly or partly upon agriculture—which includes all of us.

The author, Milton E. Eisenhower, president of Kansas State College, recounts the melancholy history of America's profligacy with its soil, the story of erosion with no punches pulled.

The answer to the problem is known to almost everyone in Western Kentucky: contour farming, cover crops, soil building rotation and other scientific practices. All the people who know what should be done, however, are not doing it, and the result is still more waste of a virtually irreplaceable commodity.

Mr. Eisenhower relates that the federal government and land-grant colleges found that Iowa corn yields jumped from 18 bushels per acre to 30 bushels when contouring was begun. Conservation practices upped corn production on eroded Ohio land from 6.5 bushels to nearly 27 bushels. Properly managed land in Texas yielded 580 pounds of seed cotton per acre, but on several eroded lands the yield was only 225 pounds.

We all know erosion is going on in Western Kentucky and Western Tennessee. The rapid sliding up of Reelfoot Lake, caused by erosion, is bad news for sportsmen, but bodes even more trouble for J. Q. Public, the guy who really takes it on the chin when the land fails to produce.

Scientists say that eventually we may grow all our food by hydroponics—we may simply plant our crops in tanks of water to which proper minerals and chemicals have been added, and forget about tilling the soil. That's possible. It's dangerous now ever to say that something can't be done, because when you do someone proves you're wrong.

But while we're waiting, it behooves everyone to think and talk soil conservation. The University of Kentucky College of Agriculture and Extension Department, other schools, federal and state governments are pointing the way. It would be wise to take their advice.

## Red-Faced Chiefs

Murphysboro, Ill.—(AP)—Police Chief Clarence Ward and Fire Chief Urb Hanson sympathized with each other because of embarrassing incidents.

While Chief Ward surveyed traffic, a light-fingered passerby pilfered his black-jack from his hip pocket.

Chief Hanson, demonstrating a fire extinguisher to a school, was showered with chemicals as a result of a corroded hose.

## Bar To Justice

San Francisco—(AP)—Three-year-old Michael Carter brought federal court justice to an abrupt halt yesterday when he poked a quarter into a slot and clogged the keyhole of the U. S. Marshal's jail.

Numerous trials in federal courtrooms were delayed by absence of principals until guard Charles Russell contrived a gadget out of wire and metal to dislodge the coin.

Michael got his quarter back.

## Reds Are Bitter

By Dewitt MacKenzie, AP Foreign Affairs Analyst

Russia's heavy bombardment of America and Britain with angry propaganda continued over the week-end, during which Moscow unleashed one of its biggest guns with a blast in the form of a published preview of the motion picture "The Battle of Stalingrad"—a film revealing great Soviet bitterness.

This portrays Premier Stalin as accusing his Anglo-American allies of wanting the Soviet Union to be led by white, that they could dictate the peace terms themselves. He charges them with solemnly promising to open a western front in Europe in 1942 and then breaking their word. He declares they wanted to reach the Balkans before the Russians for political advantage.

Winston Churchill is depicted as the villain, with President Roosevelt opposing the British prime minister but unable to handle him. In discussing an invasion of the continent with a newspaperman, F. D. R. is made to exclaim:

"Unfortunately it does not depend on me. What can you do against inertia? It is like hitting a punching bag of wet manure. You can only soil your hands."

Theatricals seemed to be on Moscow's mind. The Communist party newspaper Pravda charged an American official in Germany with threatening six months imprisonment for an actress, Lola Muttel, to keep her from taking a leading part in the Berlin production of "The Russian Question." This shows some American newspapers taking bribes to write anti-Soviet propaganda. Pravda says Miss Muttel didn't participate in the plan American authorities in the German capital denied the accusation.

The purpose of these and other Soviet attacks would seem to be two-fold: (1) to make sure the idea is driven home to the Russian people that the western capitalist Democracies are bad eggs, and (2) to take advantage of such progress as Moscow thinks Communism has made in America and Britain. The Soviet press recently has been extolling by name some Americans who look on the "wme when it is 'red,' and who believe not that 'at the last it biteth like a serpent.'"

The week-end also brought Moscow an answer, though indirect. This was President Truman's request to Congress for \$24,900,000 to begin weeding out disloyal government employees, that is, mainly Communists and sympathizers.

Furthermore the House of Representatives in Washington passed by a large majority a bill implementing the President's program of aid to Greece and Turkey to help them withstand Communist aggression. The Senate already had passed a similar measure. However, despite quarrels Gilead wasn't without a bit of balm. Tass, the Soviet news agency, announced that Foreign Minister Molotov had accepted American proposals for broadening the scope of Korean representation in the conference projected for May 20 to lay plans for a democratic Korean government. On the face of it this gave some hope that the American-Soviet commission and Korean representatives could get ahead with their job of trying to establish Korean independence which has been delayed a year because of disagreements between the two powers.

## ALTAR SOCIETY HAS REGULAR MEETING

The Altar Society of St. Edward's Catholic church held its regular monthly meeting last Thursday evening at the home of Mrs. Charlotte Smith on Arch street.

In the absence of the president, Mrs. C. H. McDaniel, the meeting was opened with a prayer by Mrs. Clifford L. Shields, secretary. The devotion, "The Rosary," was given by Mrs. Glen Dunn, followed by the minutes of the last meeting by Mrs. Shields.

Mrs. Robert Hyland then gave the treasurer's report. Forty-two visits to the sick were reported by the Sunshine Committee. Mrs. Malcolm Taylor, who has recently moved to Fulton, was welcomed as a new member.

Mrs. Maude Hummel, a former member now living in Paducah, was a guest.

The meeting was closed with a prayer, and during the social hour Mrs. Smith served delicious refreshments. The next meeting will be held at the home of Mrs. Robert Hyland on Second street, and will be a pot luck supper.

Mr. and Mrs. Thomas Lee Goin and children, Millington, Tenn., have been visiting their parents, Mr. and Mrs. T. V. Goin and family and Mr. and Mrs. Elvis Page.

Mr. and Mrs. H. Gevendon, Mounds, Ill., visited the former's parents, Mr. and Mrs. J. W. Gevendon, over the week-end.

Residents of Moscow purchase unrationed caviar and fish at the Gastronom Market on Gorki street, which deals in goods other than those obtainable from state stores. The fish is priced at 39 rubles per pound, about \$3.77 at the official rate of 5.30 rubles for \$1. Fish is one of the most plentiful foods in the Russian capital.

By The Associated Press  
Today a year ago—The Brooklyn Dodgers stretched their National League lead over St. Louis to two games by downing Philadelphia, 6-3.  
Three years ago—Pensacola won the Frisco, defeating Plater by three quarters of a length.  
Five years ago—Pitcher Jim Tobin of the Braves hit three straight homers to help Boston edge Chicago, 6-5.  
Ten years ago—Carl Hubbell of New York secured a straight victory of season and 21st over two-year span, defeating Pittsburgh, 5-2.

## Sports Roundup

By Hugh Fullerton, Jr.  
New York, May 14—(AP)—You can look for quite a tussle when the boys step out for the National Collegiate mile championship at Salt Lake City in June . . . Penn State's Gerry Earver turned in a 4:11.6 mile last Saturday and just did beat Jack Dineen of Michigan State . . . that's the fastest college mile in years, but Nebraska's Bobby Giant can come close to 4:11. Coach Clyde Littlefield of Texas figures little Jerry Tynes can hit that mark, and Bob Rahburg of Illinois isn't far behind . . . Floyd (Red) Burdette, Alabama basketball coach, who is here on

a visit, reports that Southeastern Conference basketball showed improvement last season; it will be still better next season, and year after next it really will hit the peak.

### Support For The Sports

The Shreveport Sports of the Texas League made a neat profit on pitcher Doyle Lade . . . in 1942 the Chicago White Sox agreed to buy him for \$15,000, paying \$2,500 down and the rest if they wanted him when he returned from Army duty . . . after Lade was discharged, the Sox decided against paying the balance, so the Sports turned around and sold him to the Cubs for \$25,000, to be paid if he remained with Chicago after April 1 . . . Lade stayed and the Cubs paid.

### One-Minute Sports Page

Don't be too surprised if Charlie Gabriel, army's "sleeper" halfback from Catawba College, turns up as a "T" formation quarterback next fall . . . Young Fred Hunter, business manager of the Columbia, S. C. club in the Red Sox chain, is a son of Fred, Sr., who played and coached for the Red Sox . . . Raymond (Rickey) Rowe, who pitched in the "Brooklyn against the world" tussle last summer (he was in the world), has been doing some nifty fling-agg for Baylor U. this spring.

### Cleaning The Cuff

Surgeons at Rochester, Minn., have traced the injury that kept Bruce Smith on the Green Bay Packers' bench most of last season to a callous formation on a bone and have fixed Bruce up so he really can run next fall . . . Jack Lavelle, the rotund Notre Dame scout, maintains that you hear so much football talk this spring because "everybody is mud at somebody and is leveling at a particular team." Guess who Notre Dame would be leveling at?

## Chicks Trounce Mayfield 17-12 In Free-Hitting Game Monday

The Chicks finished their series with the Mayfield Browns here last night with a 17-12 victory in a hit-and-run contest that produced 24 safe blows and 13 errors. Tonight the Chicks met the Cairo Egyptians for the first time this season. Cairo was rained out of their game at Union City last night.  
The Chicks set the Clothiers down one, two, three in the first inning last night and collected seven runs in the bottom half of the frame. Fulton batted around with two over in the first, and capitalized on three hits and three walks to give them their seven scores.  
Mayfield came back with two in the second, one in the third, two in the fourth, three each in the seventh and eighth and a final tally in the ninth, but the Chicks stayed in front all the way.  
Eldridge was the winning pitcher, with five strikeouts to his credit. Arant, starting Clothier hurler, was charged with the loss. He gave up three hits for five runs and three bases on balls before being relieved by Votruba. Craig came to Votruba's rescue in the seventh, but was unable to hold the rampaging Chicks in check.

## Introducing The Chicks

New Secret, another returnee from last year's Chick team, is from Hope, Ark. The husky Fulton receiver thinks the Chicks have a better ball club than they did in 1946, with more experience and more power at the plate.  
Secret is weighing 200 pounds now, stands 6 ft. 1 inch, and is 22 years old. He and Mrs. Secret, the former Miss Miriam Schmidt, of Minn. Wisc., were married Jan. 1. They're now making their home at 505 Arch street.

# You would foot the bill!

Look out! There's another big railroad wage demand headed your way!

The non-operating unions alone—whose members do not actually operate trains—are demanding a flat increase of 20 cents an hour. These demands would cost the railroads of the country five hundred sixty-eight million dollars a year!

Last year these employees had an increase of 18½ cents an hour. This was their third major wage increase since 1939. Their average weekly pay has gone up 75%, as against a cost-of-living rise of 54%.

Since 1939, railroad wage and material costs have gone up more than three times as much as freight rates, and five times as much as passenger fares. That is why in 1946, with the largest peacetime traffic in history, the net income of railroads went down to the equivalent of only 2½% of the net property investment.

What About 1947?

Even with the recent freight rate increase, preliminary figures indicate that the railroads will make only about the same low return in 1947 as in 1946. This will be because—

- the wage increase made in 1946 will be in effect for all of 1947;
- special payroll taxes on railroads have recently been increased;
- and passenger traffic has declined.

Where Would the Money Come From?

We can't pay out what we don't take in. And we are not taking in enough now to meet present costs and to complete the improvements in service that you need and that we want to give you.

You Would Foot the Bill!
