THE MURRAY LEDGER.

VOL. 88, NO. 25.

MURRAY, KENTUCKY, THURSDAY, SEPTEMBER, 14 1916

\$3.00 PER YEAR.

Former Calloway Citizen is In Serious Trouble at Paris

Paris, Tenn., Sept. 9.—"Mrs. Bates has returned to my home and is sorry for her action. I have taken her back and turned the man over to the law and a just God. I do not believe that a well-meaning public will censure me for my course in this matter," stated J. W. Bates to a newspaper reporter at the N. C. & St. L. depot Wednesday morning.

This statement of Bates is the latest development in the sensational elopement affair of Mrs. Bates and Rev. J. J. Maynard, pastor of the West Paris circuit, Methodist church, which took place on Friday night of last week.

Maynard and Mrs. Bates left on the midnight L. & N. train Friday and the minister was arrested at Russellville, Ky., Saturday morning at the instance of Bates, who took out a warrant before Justice W. T. Snow here early Saturday morning, charging him with white slavery and carrying a pistol.

Russellville authorities found a revolver on Maynard when he was arrested, and placed him in jail on that charge, pending investigation by federal authorities as to whether the Mann act had been violated. Mrs. Bates was later persuaded by her husband to return to her home here.

The elopement, followed by the arrest of Maynard, caused a sensation in Paris, and Saturday afternoon Rev. L. D. Hamilton, presiding elder of the Paris district, Methodist church, had the minister's bank account, library, typewriter and horse and buggy attached, alleging that Maynard had placed church funds in a local bank and checked on the account.

Later, Maynard confessed his wrong against the church, turned in his credentials as a minister and the attachment was settled. Another attachment had been filed earlier by a local groceryman for \$22.50.

United States Deputy Marshal J. E. Maxwell communicated with District Attorney Hubert F. Fisher, at Memphis, and turned over to him a package of letters found in the Bates home and which Maynard is alleged to have written to Mrs. Bates before the elopement.

Maynard is married and has four children. His wife and children have been visiting her parents at Fowles, Tenn., for several weeks.

Bates, who is a traveling representative of the Tribe of Ben Hur, had been in Chattanooga several weeks, returning to Paris on the day before the elopement. Since the fleeing of Maynard and Mrs. Bates it has been learned that several persons have noticed the growing friendship between the pastor and the woman for sometime, but thought nothing of it.

Federal authorities are still investigating the case, but it is not known whether they will secure sufficient evidence on which to hold Maynard under the Mann act. Bates is determined to push the prosecution and has the advice of attorneys that the minister can be held.

In the letters found at the Bates home Maynard called Mrs. Bates "Dear Beloved Winnie," and other endearing names.

In a letter mailed from McKenzie last month, Rev. Maynard spoke of Mrs. Bates being the mother of children. "You seem to think I would not want the children. God bless them, I love them as fondly as I love you, and I expect to care for

them as my own. I am a father of children."

Writing from Dyersburg on August 26, Rev. Maynard said: "I am coming back sweetheart. I will come to see you. I understand Mr. Bates will be home, but I am not afraid of him. I will go and tell him I love you, and if you deny it you will be sorry when death comes."

There are a number of these letters in the hands of District Attorney Fisher, some bearing special delivery stamps, some plain postage stamps and others were delivered by messenger.

Rev. Maynard closed a successful revival at Palestine recently with seventeen conversions and was to have opened a meeting at Henry last Sunday. He is well known in fraternity circles, being a member of a number of orders.

Bates came here from Nashville about a year ago and organized the local of the Tribe of Ben Hur. Later he went to Memphis and then to Chattanooga, visiting his family here at intervals. He has many friends in Paris and Henry county.

Bates left Wednesday morning for the purpose of trying to secure territory which would enable him to remain at home while doing his lodge work.

(Rev. Maynard is a native of Calloway county and has many relatives and friends throughout the east side of the county. He has been engaged as a minister of the Methodist church for the past fifteen years. He is a son of Wm. Maynard, who lives a few miles east of Hazel, and who went to Paris the latter part of the past week and after getting the bond of his son reduced to \$250, executed the bond and Rev. Maynard was released from custody.)

MAKES DEMAND FOR \$24,000.00

Lexington, Ky., Sept. 10.—Asking for the return of approximately \$24,000.00, funds of the Kentucky Rural Credit Association, which, it is alleged, were improperly expended, Receiver R. J. Colbert, of the association, has sent an informal notice to J. L. Watkins, vice president of the Union Bank and Trust Company and vice president of the Smith-Watkins-Darnaby Company, who formerly was treasurer of the association. The action was taken by Receiver Colbert on the advice of his attorneys, following the examination of the books, made by J. C. Mahon, expert accountant, of Louisville.

So far as can be learned no irregularities were found in the treasurer's account, the claim being based on the impropriety of the expenditures. Mr. Watkins was notified that in order to protect the rights of the association, the bonding company, in which he is bonded to the extent of \$25,000, would be notified of the claim. An itemized list of the disbursements has not been received by Mr. Watkins, but they are understood to cover money refunded to dissatisfied stockholders who surrendered their stock and were reimbursed the amount of their subscriptions, and money paid out in compromising suits brought by stockholders in various parts of the state. The chief item is understood to be a \$6,600 farm mortgage loan

in a form that is said to differ from the usual form.

Mr. Watkins said he would not hesitate to pay to the association any amounts which his attorneys believed him to be personally liable for and that as soon as he received the itemized list of claims he would confer with his attorneys. He added that every disbursement made by him was only with the approval and authority of the board of directors. He claims that by the refunds made on stock subscriptions the association was saved from serious embarrassment and loss.

Mr. Colbert declined to discuss any feature of the development, saying he did not consider it advisable to make any statement concerning the efforts to recover the money.

Big Damage Suit Filed.

Mayfield, Ky., Sept. 9.—Probably one of the biggest damage suits ever filed in Western Kentucky will be filed in Paducah this week. The suit follows the fatal accident of several weeks ago when Z. C. Graham, Jr., and Queenie McClure were killed by an Illinois Central train while driving across the track in the southwest part of the city. Damages in the sum of \$10,000 each will be asked for the death of the man and woman, while Ruth Martin, the other woman in the accident who was seriously injured, will ask for \$3,000 damages. The attorneys for the plaintiffs are Pete Seay, of Mayfield, and Attorneys Crossland & Crossland, of Paducah.

The Price of Tobacco.

While talking to a farmer one day this week the price of tobacco was mentioned, and he regretted the fact that the farmers are not realizing more than they are from the sale of this standard product of the farm. The gentleman is always an observant citizen, and he states that as long as the bulk of the tobacco crop remained in the hands of the farmers the regulation price was about \$5 per hundred pounds. Now, he says, only about 20 per cent of the crop remains in the hands of the farmers and the price has almost doubled all at once. This condition recalls the great help the farmers received at the hands of the Planters' Protective Association. Before that organization came into existence you remember that tobacco was selling for \$2 to \$5 per hundred. A few gentlemen, seeing the injustice that was being done the tobacco producers, organized the Planters' Protective Association solely to protect the farmers who raise tobacco. As

the association grew in strength the price of tobacco advanced until it was selling at a price above \$10 per hundred. A few months ago the Planters' Protective Association was forced to suspend because of a lack of support, and what is the result? Tobacco has been steadily declining in price and doubtless will continue to do so until the old starvation level is reached. It is impossible for the farmers to get a better lesson on the advantages of organization than can be obtained from the workings of the Planters' Protective Association, by failing to perfect and maintain an organization that is free of politics the farmers are working in direct opposition to their own interests. They are the only class of large producers in this country that isn't organized for self protection, and until they see the necessity of standing together and fixing a price on their commodities, as others do, they will fail to realize the full benefits of their labors. The whole civilized world knows full well that the farmer is the very foundation for all the commercial activity, and yet he is a member of the only set of citizens that allows somebody else to fix a price on both what he has to sell and what he buys.—Bardwell News.

County Farm Agent and Home Demonstrator May be Secured for County

At a regular meeting of the fiscal court Tuesday of this week a special plea was made by interested persons that the county make an appropriation of not less than \$750 per annum to be used in conjunction with a like amount to be paid by the national government for the employment of a county farm agent for Calloway. The court was favorably impressed with the presentation of the cause and after considerable deliberation appointed a committee composed of Judge Langston, Attorney Barnett and Clerk Broach to investigate the finances of the county and report at a meeting of the court to be held next Monday, at which time definite action will be taken.

On the first day of the term of court, members of the Civic League, of this city, also appeared before the court upon invitation of the county judge and presented the question of an appro-

priation for the employment of a lady demonstrator. Those members of the league appearing before the court only asked for an appropriation sufficient to employ a demonstrator for five months. Members of the court expressed themselves as being favorably impressed with this move also and should an appropriation be made for a farm agent it is conceded that the lady will likewise be employed.

The Ledger would urge the necessity of the employment of both agents, and believes the court would be doing Calloway county the greatest service within its power in making the necessary appropriations.

Petitions signed by hundreds of Calloway citizens were presented the court urging favorable action in these matters, and the interest aroused in the county is quite general.

Kentucky Troops are Light Footed Among Border Bugs

Fort Bliss, Texas, Sept. 11.—"Are they venomous?" That question is often asked by Kentucky national guardsmen now, after two months of mobilization at Fort Thomas, quartered nine miles from the border at Fort Bliss, Texas.

One asks, "Are what venomous?" and guardsmen refer to the lizards, chamelions, horned toads, mantis, monster beetles, snakes, tarantulas, centipedes and other ordinary and extraordinary creepers.

Their imaginations whetted by tales of border and Mexican adventure, the Kentuckians naturally were rather leary of coming in contact with any of the desert "things." They had heard so often and so long of the dangers of centipedes, giant spiders, rattlers, etc., that they refused to believe anyone who told them that the majority of the creatures were not dangerous, but preferred to believe those ever-present ignorant, but apparently well-informed militiamen whose advice was to give even ants the right of way when they appeared.

Under such conditions the clearing of a parade ground for the three regiments was a thrilling adventure. Armed with pick axes, spades and other tools to cut away cactus, sage brush and tougher vegetation on the sandy waste, the 2,500 Kentuckians sallied forth.

Clearing off a parade ground and cutting the brush became secondary. Snake, lizard and bug hunts took precedence. Weeds were cut down only when some reptile or bug had taken refuge beneath its foliage. There were enough animals hiding, however to insure the thorough cleaning up of an extra large parade ground.

A shout of "Look out" would

be followed by the bloodthirsty cry of "Kill him," and a dozen troopers, armed with axes, sticks and anything they could lay hands on, would start in chase of some one of the Texas products, not mentioned in the picturesque telling of the state's wonderful resources.

Lieut. John McDonald, of the first regiment, was a student of "bugology" at the University of Kentucky and got a degree. When he came in off the parade ground he had a pocket full of creepers, crawlers and sliders. He will send the collection to his alma mater for some long-suffering student to cut up and write about.

Kentucky national guardsmen may soon see actual service patrolling the Mexican border between Douglas and Nogales, Arizona cities were weakened by the withdrawal of a number of New Jersey and New York guardsmen a week ago. The Ohio national guard forms part of the eleventh division, which has only part of its units concentrated here. The present plan of the district commanders is to incorporate the Ohio and Kentucky guardsmen into a division along the Arizona border. The new division would be under command of Brigadier General C. G. Morton, U. S. A., now commander of the tenth provisional division. The contemplation of immediate patrol duty for the Kentucky troops is the first manifestation of the pleasure and approval district and division officers were thought to have held for the quick and efficient carrying out of the brigade. Although not officially named, the present encampment of Kentucky guardsmen has been called camp Waterson by an El Paso newspaper.

NEW COINS READY FOR CIRCULATION

If someone hands you a silver coin that has an unfamiliar look, don't refuse it in the belief that it is counterfeit or of foreign origin. The probabilities are that it will be a sample of Uncle Sam's new mintage, which is about to be placed in circulation, in compliance with the law that requires a change in the designs of the silver pieces once in every twenty years.

The new coins now ready for circulation consists of half dollars, quarter dollars and dimes. For more than a month the United States mints in Philadelphia, Denver and San Francisco have been turning them out at a rate of about \$40,000 worth a day, so that now the amount on hand is sufficient to be placed on circulation over the entire country within the next few days.

The design of the new half dollar is considered a higher type of art than the coins that have for so long been familiar. The markings are not so prominently cut and the coin has a much smoother appearance. On one side of it is the figure of the Goddess of Liberty holding in one arm a bunch of olive branches. Above the figure are the words, "In God we trust." Below it is the word "Liberty." On the opposite side of the coin there is a spread eagle grasping an oak twig in his talons as he stands upon a rock. At the top is printed "The United States of America" and at the bottom

"Half Dollar." One side of the new quarter has the full figure of a woman coming through a gate in a wall. On the opposite side there is a picture of an eagle in flight. The new dime is of a sharper cut. On one side is the head of a woman. Over the head is printed the word "Liberty" and in the lower left hand corner the date. The obverse side of the coin has a bundle of Roman "fascis" tied tightly together with an axe and a strong oak stick. Below the cutting is the Latin quotation, "E pluribus unum."

To Change Ceremony.

Chicago, Ill., Sept. 5.—The commission of seven bishops, seven pastors and seven laymen of the Protestant Episcopal Church, appointed to revise the ritual of the church, has determined to eliminate the word "obey" from the marriage ceremony, it was learned here today. The commission will report to the general convention of the church at St. Louis Oct. 11.

Radical changes are proposed in the Ten Commandments, the burial, baptismal services and arrangements of various prayers. The Tenth Commandment, as an example, will be shortened to "Thou shalt not covet anything that is thy neighbor's," if the commission's report is adopted.

Carl Harrison, who left here some few weeks ago for Detroit, Mich., writes relatives here that he has secured a splendid position in the Ford automobile factory. Carl is a splendid young man and has many friends in this city.

Gray Gilmer was named secretary-
treasurer and the new vice presidents

It was decided by the committee to
recommend that the name of the
Southern Appalachian Good Roads As-
sociation at present be not changed to
the Southern Good Roads Association,
as had been proposed, but that the
states of Texas, Louisiana, Missis-
sippi, Florida, Arkansas and Missouri
be invited to join the association and
in the event that they do to consider
the change of name. Athens, Ga., and
Nashville, Tenn., presented invitations
to hold the next meeting in those
cities, and the Georgia delegates said
that the honor had been promised to
Athens at the time Lexington was se-
lected for the 1916 convention. How-
ever, J. J. Murray, secretary of the
Tennessee State Highway Association,
strikingly pointed out the advantages
and attractions which Nashville offer-
ed, and he was strongly supported by
Cyrus Kehr, of Knoxville. The Geor-
gia delegates then withdrew.

SALE VALUE OF KY. RAILROADS

URGED BY CHAIRMAN OF KEN-
TUCKY COMMISSION AS BASIS
FOR ASSESSMENTS.

ANNUAL SESSION OF BOARD

Representatives of a Number of Com-
panies Operating in State
Hear Finn.

(Special Frankfort Correspondence.)

Frankfort.—Before the business of
the State Railroad Commission began
Chairman Lawrence Finn, of Frank-
lin, stated that in his opinion the time
had come when the taxing boards of
Kentucky should fix the assessment of
property of railroads and all other op-
erations at its fair cash value. The
occasion for this statement was the
annual meeting of the commission to
fix the tangible value of the railroad
companies in this state. There were
present to hear the statement the re-
presentatives of many of the big rail-
roads in Kentucky. The board will be
in session for several days.

Finn said that, in his judgment, any
one who could read the constitution
ought to know that it made it manda-
tory on taxing boards to fix the assess-
ment of all property at its fair cash
value, what it would bring at a fair
voluntary sale. He declared that he
had been writing dissenting opinions on
the board too long, and that the time
had come when the board should assess
the property of the railroad
companies at the value that common
knowledge knew it was worth.

"If it is a matter of common knowl-
edge, and susceptible of proof, that a
certain county has assessed the prop-
erty at 50 per cent of its value, and
that a certain bank in the county was
assessed at a fair cash value, it should
not be the province of the court to
strike down the fair cash value of the
bank, but it should be possible by man-
damus proceedings to compel the pub-
lic officers of the county, whose duty
it is to assess the property, to make
the assessment of all the property ac-
cording to the law." Only a small
amount of evidence was taken con-
cerning the tangible property of the
Illinois Central and Louisville and
Nashville railroads.

Six Are Given Liberty.

The Prison Commission paroled six
convicts. They follow: Fred Ste-
wart, Knox county, convicted for mur-
der; Harry Willis, of Jefferson coun-
ty, convicted for housebreaking; Jas.
Thompson, of Jefferson county, con-
victed for robbery; F. A. Reynolds, of
Rockcastle county, convicted for mur-
der; Richard Greer, of Jefferson coun-
ty, convicted for storebreaking, and
Ed Brown, of Jefferson county, con-
victed for murder. Gov. Stanley par-
doned Barton Fuller, sentenced to the
penitentiary from Jefferson county on
the charge of robbery, and given 18
months and a day. He is the son of
Rev. H. S. Fuller, of Indianapolis, Ind.
The pardon was granted at the recom-
mendation of Supreme Court Judge
Felts, of Indianapolis, and Gov. Ras-
ton, of Indiana, who wrote Gov. Stan-
ley requesting him to give consideration
to Rev. Mr. Fuller when he pre-
sented the application for pardon.
Young-Fuller is reported to have fall-
en in with bad company in Louisville,
and some of the crowd robbed a store.

Tax Commission Begins Work.

The State Tax Commission, appoint-
ed by Gov. Stanley in response to a
resolution adopted by the 1916 General
Assembly, convened here to begin the
draft of a comprehensive recodifica-
tion of the revenue laws. They will
be in session for several days. Under
the constitutional amendment personal
property can be classified for purposes
of taxation, subject to referendum.
This and reform in the method of as-
sessing property are among the big
questions before the commission. It
is expected that the work will be com-
pleted so that a special session can
be called for not later than November
15. This would allow a month and a
half to enact a measure to become op-
erative in 1917. Members of the com-
mission are Senators Hite, Huffaker,
Louisville, chairman; Senators Selden
R. Glenn, Lyon county, and Hiram
Brook, Harlan, and Representatives R.
B. Hutchcraft, Jr., Paris; George L.
Pickett, Shelbyville, and A. J. Oliver,
Scottsville.

Plan Repairing Old Capitol.

A proposal to make repairs to the
old capitol and install a heating plant
for \$4,370, submitted by the Capital
Lumber & Manufacturing Co., has
been taken under consideration by the
State Shaking Fund Commission,
which has determined, if the cost is
not prohibitive, to put the building in
condition for occupancy by some of
the departments.

Elkhorn Is Polluted.

Pollution of the waters of the lower
Elkhorn, the famous bass stream, by
refuse from a dye plant in this county
has been reported to J. Q. Ward, ex-
ecutive agent of the State Game and
Fish Commission, and after a confer-
ence with Attorney General Logan Mr.
Ward has taken up the question of
stopping the practice with the heads
of the concern. Unless it is stopped
injunctive proceedings will be insti-
tuted. It is reported that hundreds of
pounds of dead fish have been found
in the stream.

Interest in Pig Club.

As a result of the work of the Boys'
Pig Club during the past three months
great interest has been aroused in
swine production in Franklin county.
That hogs can be grown as cheaply
and rapidly in this county as in any
other section of Kentucky or the Corn
Belt was conclusively proved when the
results of the competitive feeding con-
test, conducted by County Agent R. H.
Felts with the members of the Pig
Club, were announced recently. The
cheapest gain recorded was three and
a half cents per hundred, and to Al-
bert McDonald, of the Bald Knob dis-
trict, belongs that distinction. The
greatest average daily gain was pro-
duced by Floyd Moore, of the Bridge-
port district, his pig having put on 1.6
pounds per day for the entire period.
The gains of the other boys ranged
from .6 of a pound to 1.42 pounds per
day, and the cost per pound of gains
ranged from 3½ to 10½ cents.

Jacksnipe Hunting Barred.

Terms of a treaty negotiated be-
tween the United States and Canada
for the protection of migratory game
birds are believed to work a prohibi-
tion on shooting Jacksnipe and wild
water fowl in Kentucky. Jacksnipe, it
is understood, may be killed in this
zone in the fall, but they do not alight
in Kentucky waters on their flight
South. They spend from one to five
days going North in the spring. Wa-
ter fowl spend several days on Ken-
tucky waters in the fall, but it is un-
derstood that the Upper Mississippi,
Ohio and tributaries have been de-
clared a bird sanctuary, a "safety
zone" in which they may rest during
their flights, and as Kentucky pos-
sesses little open water excepting these
streams, there will be little
shooting for local sportsmen.

Judge Sampson Censured.

In a report on the examination of
Whitley county offices State Inspector
and Examiner Nat B. Sewell calls at-
tention to the fact that 28 prisoners
serving out fines were released from
jail by order of the Circuit Court.
Their fines aggregated \$2,382.50, and
the inspector and examiner says: "It
is evident, as was shown in the Knox
county report, that Judge Flem D.
Sampson takes many liberties in sus-
pending fines, releasing prisoners from
jail and accepting replevin bonds with-
out proper security in open court."
He says this is a practice quite com-
mon among circuit judges, who are not
liable to the state for the fines so sus-
pended and the replevin bonds, and he
suggests that the General Assembly
should enact a law to stop the prac-
tice.

Surf Bathing Is Latest.

The fact that high waves do not
roll incessantly in the Kentucky
river does not keep local swimmers
from enjoying surf bathing, several
owners of high-powered boats having
constructed floats on which the bathe-
rs are dragged over the water. The
floats are tied behind the boats and
the riders step upon them and are
taken along the surface at a rapid
rate. Sometimes the floats bound so
high that the bathers are thrown into
the stream. This is the first year
that this form of amusement has been
employed on the Kentucky river here.

Doves Are Very Plentiful.

The season for dove hunting opened
September 1, and many of Kentucky's
crack shots are now enjoying the
sport. The fish and game commis-
sion has strictly enforced the game
laws during the past year, and as a re-
sult the hunters announce that doves
are more plentiful this season than for
some time previous. Among those
who have been enjoying the sport are:
Pruett Graham, W. W. Long-
moor, Bud Roberts, Dyke Hazelrigg,
John Mastin, L. B. Marshall and
Quincy Ward.

Coal Rates Adjusted.

The State Railroad Commission re-
duced the coal freight rates from
points in Western Kentucky to Rus-
sellville to meet the Hopkinsville
schedule. The roads have been charg-
ing 80 cents a ton on coal from points
in Western Kentucky to Russellville.
The commission reduced the rate to
40 cents, a ton on coal from points
within 20 miles of Russellville, and for
each 10 miles additional there is an
increase of 5 cents. This rate makes
Russellville a competitive point.

Dog Tax Unchanged.

The impression has gone abroad
over the state that the last General
Assembly amended the dog-tax law,
and Atty. Gen. Logan said he has
received numerous inquiries as to
whether one dog to each household is
exempted under an act of 1916. He
replied that the dog tax law stands
unchanged.

State Job for D. A. Logan.

D. A. Logan, of Brownsville, brother
of Atty. Gen. M. M. Logan, was ap-
pointed an assistant state inspector
and examiner. He will take the place
of Frank G. Courley, resigned. Logan
was judge of Edmonson county until
recently.

P. Lewis. Articles of incorporation of
the Planters' Bank of Trenton, a
consolidation of the Planters' Bank of
Trenton and the Planters' Trust Co.,

sioner George G. Speer, were filed in

Anti-Tuberculosis Societies Plan Sale
of One Million Dollars' Worth of
Red Cross Christmas Seals.

Three hundred million Red Cross
Christmas seals are being printed in
Cincinnati for the annual holiday cam-
paign to be conducted under the joint
auspices of the American Red Cross
and the National Association for the
Study and Prevention of Tuberculosis.
The campaign for the sale of the Red
Cross seals this year will be larger
than ever before. Although in 1915
the sale reached the record total of
80,000,000 seals, bringing in \$800,000, it
is expected that this year at least 100-
000,000 seals or \$1,000,000 worth will
be sold. The sale will be organized
from Alaska to the Canal Zone and
from Hawaii to Porto Rico. Every
state and territory in the United
States will have seals on sale. New
organizations will be working in a num-
ber of the western states, including
Montana, Utah and Wyoming. Distribu-
tion of the seals is now under way.

Ringling Bros. Circus to be in Paducah

The big event for which the youngsters and grown-ups have been impatiently waiting is drawing near, for on Thursday, September 28, Ringling Brothers' circus is to exhibit afternoon and night in Paducah. Expectancy never ran so high before and it is likely that this district will send a large delegation to feed the elephants. Unusual interest centers around the gigantic spectacle, "Cinderella," with which the famous showmen are this season opening their wonderful main tent program. "Cinderella" is probably the best loved of all fairy tales and to see it produced with more than 1,000 persons, hundreds of dancing girls and glorious pageants, indeed gives promise of making "childhood's golden dreams come true." In the same great tent, will come the marvelous circus numbers in which 400 men and women performers, scores of trained animals and a galaxy of special features are introduced. The majority of the acts are entirely new to America, the Ringling Brothers having secured the pick of those European performers who have been obliged to seek engagements in this country because of the war. The all-new street parade will take place show day morning.

The regular fall and winter term of the Murray school was convened Monday morning of this week with an enrollment of approximately 500. Of this number about 150 are enrolled in the high school and it is the expressed opinion of Prof. Jones that more than 200 high school pupils will be enrolled within the next two weeks. Every indication points to a successful term of school. It is not yet definitely determined whether the school will be closed Saturday on account of the county teachers' institute, which convenes Monday, or not. It appears to the Ledger that such an adjournment would be a financial and time loss to the district that is not justifiable, and this in face of the fact that teachers in fourth class cities are not required to attend county institutes.

R. W. Padgett, of the downtown Chattanooga & St. Louis railroad office, will leave here Monday morning with his family for Egner's landing, Tenn., about thirty miles up the Tennessee river above Paducah. WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-ford in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.

A MURRAY INTERVIEW.

Mr. Ellison Tells His Experience.

The following brief account of an interview with a Murray man over three years ago, and its sequel, will be read with keen interest by every citizen.

"J. A. Ellison, Murray, says: 'I suffered for a long time from a lame back and often was hardly able to stoop. The trouble was worse when I got up in the morning. In fact, I was often hardly able to get out of bed. Doan's Kidney Pills, from Dale & Stubblefield's drug store made me feel like a different man and all the symptoms of the trouble left me.'"

OVER THREE YEARS LATER Mr. Ellison said: "I have had no occasion to use any kidney medicine since Doan's Kidney Pills cured me."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Ringling Bros. Circus to be in Paducah

The big event for which the youngsters and grown-ups have been impatiently waiting is drawing near, for on Thursday, September 28, Ringling Brothers' circus is to exhibit afternoon and night in Paducah. Expectancy never ran so high before and it is likely that this district will send a large delegation to feed the elephants. Unusual interest centers around the gigantic spectacle, "Cinderella," with which the famous showmen are this season opening their wonderful main tent program. "Cinderella" is probably the best loved of all fairy tales and to see it produced with more than 1,000 persons, hundreds of dancing girls and glorious pageants, indeed gives promise of making "childhood's golden dreams come true." In the same great tent, will come the marvelous circus numbers in which 400 men and women performers, scores of trained animals and a galaxy of special features are introduced. The majority of the acts are entirely new to America, the Ringling Brothers having secured the pick of those European performers who have been obliged to seek engagements in this country because of the war. The all-new street parade will take place show day morning.

Corns Loosen, Lift Right Off

Nothing But "GETS-IT" Will Do This to Corns and Calluses.

If you've ever had corns, you've tried lots of things to get rid of them—salves that eat your toes and leave the corn remaining, cotton rings that make your corns hurt like pop-

eyes, scissors and knives that make corns bleed and sore, harnesses and bandages that fill up your shoes, press on the corn and make your foot feel like a paving block. What's the use? Why not do what millions are doing, take 3 seconds off and apply "GETS-IT"? It dries, you put your stocking on right away, and wear your regular shoes. Your corn loosens from the toe, it lifts right off. It's painless. It's the common-sense way, the simplest, easiest, most effective way in the world. It's the national corn cure. Never fails.

"GETS-IT" is sold and recommended by druggists everywhere, in a bottle, or sent on receipt of price, by H. Lawrence & Co., Chicago, Ill.

The regular fall and winter term of the Murray school was convened Monday morning of this week with an enrollment of approximately 500. Of this number about 150 are enrolled in the high school and it is the expressed opinion of Prof. Jones that more than 200 high school pupils will be enrolled within the next two weeks. Every indication points to a successful term of school. It is not yet definitely determined whether the school will be closed Saturday on account of the county teachers' institute, which convenes Monday, or not. It appeals to the Ledger that such an adjournment would be a financial and time loss to the district that is not justifiable, and this in face of the fact that teachers in fourth class cities are not required to attend county institutes.

R. W. Padgett, of the downtown Chattanooga & St. Louis railroad office, will leave here Monday morning with his family for Eggnor's landing, Tenn., about thirty miles up the Tennessee river above Paducah. WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-ford in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it. Scott & Bower, Bloomfield, N. J.
