On Grayson Farms
Parts Again R. T. Facilment of Grayson county says that several farmers in the county are interested in the garden business. He has helped several others to start gardens, and says that it is a good way to make money. He says that the gardens should be started in the early spring, and that they should be kept well watered. He says that the gardens should be planted with vegetables, and that they should be picked when they are ripe.

Five-year-old Michael Abrusio, the son of the gardener, was told to pick some more vegetables. He said that he would do it, but that he would need help. He said that he would ask his father for help.

The gardener said that he would help Michael, but that he would need to know how to pick the vegetables. He said that he would show Michael how to do it.
