MURRAY, KENTUCKY, THURSDAY, APRIL 24, 1913.

\$1.00 PER YEAR.

NEARLY READY

Preliminaries For First Division of
Interurban Completed For
General Contractors.

Paducah, Ky., April 21.—Maj. W. A. Calhoun, consulting engineer of the Kentucky Southern Electric Railway, Light and power company, has just received reports from his assistant, J. Ed Johnson, that fifty-five miles of the Paducah-Murray section, which touches Long Oak, Melber, Lewis, Pansy, Farm, Mayfield, Sedalia and Lynn Grove, will be ready for inspection by the general contractors by the end of the week. President H. C. Rhodes Tuesday afternoon wired the contractors to make arrangements for early investigation of the division.

The general contractors in addition to going through plans specifications at the office must ride over the entire route in order to classify the material to be moved in cuts, fills, waterways, trestles and gravel for ballast, and the facilities for delivery of material as well as cost of handling.

A list of local timber dealers, team owners and sub-contractors along the line has been prepared so that the general contractors may save time during their investigation and give home people as much benefit of the vast expenditure as possible.

The first contractors will start over the line on or before April 22. They will be accompanied by a representative of the engineering department.

Best For Skin Diseases.

Nearly every skin disease yields quickly and permanently to Bucklen's Arnica Salve, and nothing is better for burns or bruises. Soothe a red head, John Deyo, of Caldwell, Mich., says, after suffering twelve years with skin ailment and spending \$400 in doctor's bills, Bucklen's Arnica Salve cured him. It will help you. Cairo at Flood Stage.

An observant friend of the editor rode over the railroad bridge at Cairo Sunday and looked down into the beleaguered city. Suppose, said our friend, by

some manner or means it were possible to scoop out a big hole in the middle of the ocean and construct around it a wall of stone part way up, topped with bags of mud, with a thousand little streams of water oozing in at intervals of every two feet for ten miles around, and two or three thousand men, worn to a frazzle, hollow-eyed, unshaven, limping, but doggedly fighting against odds in a desperate struggle to make that sponge rotten, slipping, sliding, leaking, trembling bulwark beaten by a stubborn, relentless, turbulent, elusive, sleepless, hungry, chuckling, screeching, growling, moaning, vampire and voracious of a thing, hold out against time and reason and judgment and common sense, from minute to minute, hour to hour and day to day. Such is Cairo. It is there in the bottom of a pan and if the water should fill it up and come to the level of the water all around it, only the tops of houses and smoke stacks church steeples would be seen. But on the defense are men of undiminished courage and they should conquer, as doubtless they will.

Straight at It.

There is no use of our beating around the bush. We might as well cut with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world-wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by Dale & Stubblefield.

Reduced Rates.

The R. E. A. will convene at Louisville, April 30th and May 1st, 2nd and 3rd. Tickets will be sold at reduced rates, April 25th, 26th and 30th, valid returning up to May 6th. Teachers, you can't afford to miss this meeting, the expense is so little and the profit to your work so great, make up your minds at once that you will go. Don't forget, tickets will be sold at reduced rates only on April 25th, 26th and 30th. Lucile Grogan.

The McElrath property, fine high and level, is one of the most commanding and desirable locations in Murray. It will be a rapidly developing section and will become the chosen homes of substantial citizens who will be attracted by its convenient location and natural beauty. You had better accept this opportunity and secure some of these nice lots, as the city is bound to build this way and no investment will pay such handsome interest as the increased value of this property.

CHILD IS HER

Mrs. Dunbar Identifies Little Boy
Stolen From Her Home
Last August.

Columbia, Miss., April 22.—The boy taken from an itinerant umbrella mender here several days ago suspected of being four-year-old Robert Dunbar, missing from his home in Opelousa, La., since last August, was identified by Mrs. C. P. Dunbar, the child's mother, today.

Learning that announcement of the identification of the child by its mother might lead to an attempt to lynch W. C. Walters, the itinerant umbrella mender, in whose hands the child was found, a strong guard was placed around the jail here where he is being held.

Mrs. Dunbar on arriving here from New Orleans last night was taken to the home of a deputy sheriff, where the child has been kept, and remained there until it awoke this morning. A pathetic scene was enacted when the little long-missing child opened its eyes and recognized its mother.

"Mother!" he cried, as he reached up and stretched out his arms to her. The mother convulsively embraced the boy and then fainted. She was soon revived, however.

The identification of the child was followed by a demonstration in which hundreds of persons participated late this afternoon. Thirty crowded automobiles formed a parade through the streets, and when Sheriff Day, who found the child, stood up in an automobile with little Bobbie in his arms and declared he "did not want any reward and would not take it," his voice was drowned by cheers from the crowded street. He had only "done his duty," he said. The reward promised by Opelousa citizens was \$3,000.

While the town rejoiced with Mr. and Mrs. Dunbar over the finding of their child, W. C. Walters, who still insists he is rightfully entitled to possession of the boy, sat on a cot in the county jail. Fear earlier today that Walters might meet with violence because of the excitement was dispelled by the demonstration of joy.

Look to Your Plumbing.

You know what happens in a house in which the plumbing is in a poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by Dale & Stubblefield.

CALL ISSUED

For all Growers of Tobacco to
Meet in Convention at Louisville,
May the 17th.

A call for all of the tobacco growers' associations to the meeting in Louisville on May 7th has been issued by the officers of the Kentucky Farmers' Educational and Co-Operative Union of America. The call was issued from the office of R. L. Barnett, the state secretary, and is signed by Luke Thomas, of Melber, the state president, and M. B. Tapp, of Heath, chairman of the state board.

The call is addressed to the state and national officials of all tobacco growers' organizations and associations of the United States of America. The call is: "We, the officials of the Farmers' Educational and Co-Operative Union of America, Kentucky Division, having studied the Tobacco Marketing System of the United States, we view with alarm the effects of such a system upon the producers, and every legitimate industry of our country, and realizing that no material, or permanent relief can be secured to our people, (the farmers), so long as they remain divided into separate organizations, one being practically pitted against the other.

We therefore deem it of the highest importance that every organization handling tobacco for the farmers of the United States be organized under one selling system. This we believe, must be done, before we can successfully meet the combined speculative interests, that so completely control the markets, and manipulate, not only the farmer and takes from him all of the profits that justly belong to him, but robs the local banks of our country of the deposits they would receive from the farmers. The merchants' trade is seriously affected throughout the tobacco growing district, by reason of the farmer being deprived of his ability to purchase the necessities of life for himself and family, this condition of high handed manipulation of the peoples' rights, in the face of every effort that has been made to organize the farmers for their protection; and even in defiance of Congress, that made the attempt to probe into this vampire, blood sucking system of manipulation of the tobacco market with the hope of relieving the people, and it has developed that every effort has failed to protect our people in their honest efforts to secure a living.

"We, therefore as the state officials of the Farmers' Educational and Co-Operative Union of America, Kentucky Division, call upon all state and national officers of every tobacco growers' organization and association of the United States of America to meet at the Seelbach Hotel, in the city of Louisville, Kentucky, Wednesday, May 7th, at 10 o'clock a. m., 1913.

State Pres., Melber, Ky. "M. B. Tapp. "Chm. State Board, Heath, Ky. "R. L. Barnett. "State Sec., Paducah, Ky.

"This meeting anticipates that all organizations shall retain control of their own business and not be controlled by a central body of selfish tobacco growers.

we have said it, have we likewise said, there is a reason, in fact many reasons, for instance: "Where is the fly born? In manure and other filth.

Where does the fly live? In all kinds of filth. He carries filth on his feet and wings.

Where does the fly go, when he leaves the manure pile and the spittoon? He goes into the kitchen, the dining room and the store.

What does the fly do there? He walks on the bread and vegetables, bathes in the milk, and wipes his feet in the butter.

What diseases does the fly carry? Typhoid fever, diphtheria, scarlet fever, and any communicable disease.

How can the fly be prevented? By destroying all the filth about your premises. Screen the privy vault, cover the manure bins, burn all waste matter, destroy your garbage, screen your house.

Either man must fill the fly or the fly will fill man.

This may sound like an immense task. It isn't. It means a little real work, and a little expense, but far less work than attending upon a household of sick, and not so expensive as paying doctors' bills. So remember your only fly insurance is your own effort, and swat him, literally and figuratively, swat him before he exists. The last way is the best. Every fly prevented is equal to a hundred swatted in life.

Now is the appointed time, for carrying out all of these instructions. Don't delay.

Are You Constipated?

If so, get a box of Dr. King's New Life Pills, take them regularly and your trouble will quickly disappear. They will stimulate the liver, improve your digestion and get rid of all the poisons from your system. They will surely make you well again. 25c at Dale & Stubblefield.

To Keep Their Jobs.

Washington, April 22.—Postmaster-General Burleson announced today that it was the Administration's policy to continue all Republican postmasters now in office to the end of their terms, provided no charges were sustained against their efficiency. The policy applies to all classes of postmasters.

"My department will be run on business lines and not by politics," said Mr. Burleson, in explaining the new policy. He declared that there might be some removals, but he believed that the majority of postmasters were efficient and would not be disturbed.

"There will have to be specific charges of inefficiency, however," he added, "before anyone will be removed."

Mr. Burleson said the decision had been reached after conferences with President Wilson, who favors the merit system.

At present a plan is being worked out to secure sufficient efficiency under the civil service, fourth-class postmasters having been placed under that jurisdiction on an executive order by Mr. Taft.

The way to build up a town is in the building of good houses, either for sale or rent. WEATHER BUREAU
HEAD IS OUSTED

WILLIS MOORE TOO ACTIVE FOR SECRETARYSHIP.

C. T. BURNS IS SUSPENDED IT PROHIBITS ALL ALIENS

Says "Third Degree" Methods Were Used Upon His Friends—Denies That He Forced Employees to Support Him.

Washington.—Prof. Willis L. Moore, chief of the weather bureau since 1895, and an appointee of the Cleveland administration, was summarily removed from office by President Wilson. His resignation recently had been accepted, to take effect July 31, but after an investigation of his alleged efforts to become secretary of agriculture in the present cabinet, grave charges of irregularity were preferred, and the president withdrew his acceptance of the resignation, dismissing Prof. Moore.

Secretary Houston of the agricultural department conferred with the president before the removal of Mr. Moore was announced. The secretary then issued the following statement:

"Immediately after the resignation of Prof. Moore of the weather bureau was accepted by the president, charges were filed with the secretary of agriculture by responsible men within the service. These charges were of such a grave nature that the secretary of agriculture called upon the department of justice for an investigation.

"The investigation is still under way, but the facts so far secured and laid before the president yesterday were sufficient to warrant him in deciding to withdraw his acceptance of Prof. Moore's resignation and remove him summarily, which has been done.

"The president has also directed the secretary of agriculture to suspend Charles T. Burns, an employee of the weather bureau, pending a further investigation of his case, and take such disciplinary measures as he may deem necessary with such other employees of the weather bureau as may be found to have been unduly active in using the public service for private and personal gain."

WILSON WELCOMES
D. A. R. DELEGATES

FIRST PUBLIC ADDRESS SINCE HIS INAUGURATION.

BUSINESS SESSION, STORMY

Mrs. William Cummings Story of New York Achieves Partial Victory in Authorization for Appointment of Committee.

Washington.—Delegates to the Continental Congress of the Daughters of the American Revolution, which began its twenty-second annual session here Monday, were welcomed to Washington by President Wilson in his first public address since his inauguration.

The afternoon session, given over to addresses of welcome, came after a stormy business meeting which resulted in a partial victory for the forces of Mrs. William Cummings Story of New York, one of the candidates of the strenuous contest for presidential nomination of the society.

The afternoon session, given over to addresses of welcome, came after a stormy business meeting which resulted in a partial victory for the forces of Mrs. William Cummings Story of New York, one of the candidates of the strenuous contest for presidential nomination of the society.

Among the notable women who occupied boxes at the afternoon session were Mrs. Woodrow Wilson and Mrs. Thomas R. Marshall, Mrs. William B. Bryan, Mrs. A. N. Harkness, Mrs. Frank Lane, Mrs. Charles W. of the Japanese ambassador, and Mrs. John Hays Hammond.

Secretary Bryan in his address told the daughters that they must throw their influence on the side of the people in their struggle for liberty. "Then, and then only," he declared, "will you be true daughters of the American Revolution."

Several proposed amendments were defeated in quick order before Assemblyman W. A. Johnson proposed to put back in the bill throughout the "aliens not eligible to citizenship" clause.

"Many a young Englishman," he said, "coming to America with money to invest, has promised his parents that he never would surrender his allegiance to the mother country; but he made no worse a neighbor for that, and his children have grown up as good citizens as any of us."

"It is a question greater than dollars and cents," replied Assemblyman Bloodgood. "It amounts to another great race problem. Ten miles from Sacramento I saw a Japanese man and a white woman living together. There was a baby. What was that baby? It was the beginning of a new race problem, a problem of the fusion of races."

The amendment was defeated 56 to 20.

MOVE TO PREVENT FLOODS

Board of Federal Engineers Begins Inquiry at Cincinnati.

Cincinnati, Ohio.—The federal investigation of flood conditions throughout the Ohio valley by the special board of federal engineers under instructions from Secretary of War Garrison was begun here. City officials from all of the flood-ridden towns will be asked to appear before the board and give details, not only of the disaster, but of the best way to avoid another such catastrophe.

The city officials of Newport, Ky., directly opposite this city, appeared at the sessions. They estimated that the damages to Newport would be \$200,000. The sessions of the board will be held daily here until it is deemed advisable for the engineers to make a trip to some of the stricken districts.

Dayton Needs \$600,000.

Columbus, Ohio.—Six hundred thousand dollars will be required to clear Dayton's streets, according to a report submitted to Gov. Cox.

Dickinson May Be Judge.

Washington.—J. M. Dickinson, former secretary of war and at present special government prosecuting attorney in the Steel Trust suit, may be appointed to the United States circuit court at Chicago.

Efficiency Bill Signed.

Albany.—Gov. Sulzer signed two bills recommended by his committee of inquiry, creating a state department of efficiency and economy and a state board of appointments.

She Knew From Experience Just What Was Needed. Describes One Remarkable Case.

Watonga, Okla.—Mrs. Ida Bollinger of this town, makes the following interesting statement for publication:

"I suffered for 20 years, with womanly troubles, and in this time, tried several different treatments, but got no better.

"I finally got hold of a Ladies' Birth-day Almanac, and read about Cardui, the woman's tonic.

"I had not taken very much of it, before I was entirely well.

"I do some nursing, and have given Cardui, the woman's tonic, to lots of women, with good results.

"For more than 50 years, Cardui has been in widely extended use, by women of all ages, and has given perfect satisfaction, as a remedy for helping rebuild womanly strength and health.

"Try Cardui yourself. It will help you. Your druggist sells it.

REALLY A SOUND INVESTMENT

Sanatorium Wins—The Tuberculosis May Be Cured Is Worth Much to Any State or City.

Dr. H. L. Barnes, superintendent of the Rhode Island State sanatorium, has recently demonstrated by some interesting studies of patients discharged as "apparently cured" from that institution, that a sanatorium is a sound investment for any state or city.

The gross earnings of 170 patients obtained in 1911 amounted to \$102,762, and of 211 cases in 1912 to \$112,021. By applying the same average earning to all the patients of the sanatorium living in 1911 and 1912, Dr. Barnes concludes that their income in these two years was \$551,000. This sum is more than three times the cost of maintenance of the sanatorium, including interest at 4 per cent on the original investment and depreciation charges. Dr. Barnes concludes, however, "While institutions for the cure of tuberculosis are good investments, there is good reason for thinking that institutions for the isolation of far advanced cases would still better investments."

Ways of Aunts.

A southern bishop of the Episcopal church and his five-year-old son were talking earnestly about a maiden aunt. The boy disliked the aunt. The bishop urged that the son should love her, for all that.

"Your aunt is different, my son," said the bishop, "but she is all right in her way."

"Yes, father," was the reply, "but her way."—New York Post.

May Day Possibilities. Very soon the children will be saying, "Tomorrow is May day; can't we have a party?"

Perhaps you will plan for a costume pageant, or a May queen, recalling Tennyson's favorite:

You must wake and call me early, call me early, mother dear;

Tomorrow'll be the happiest time of all the glad New Year.

Of all the glad New Year, mother, the maddest, merriest day.

For I'm to be Queen of the May, mother, I'm to be Queen of the May.

Most children know how to dance, so you can have a group of milk maids, Scotch highlanders, English shepherdesses, Roman maids with pipes and garlands, dainty Japanese, and Robin Hood with his merry men.

Cape paper and cambric will make the costumes, and girls of twelve and over can do much towards making their own, as I know from experience that they love to do it.

"Make believe," come perfectly natural to children, and they thoroughly love plays with action. It is great fun to wind a May pole and not difficult, either, to braid the gay strips around the pole and then under them.

There may be any number of strips to wind. I want to tell you of a book called "Maypole Possibilities," by Mrs. Jennette E. Carpenter Lincoln.

It will tell you much that you all want to know, and I cannot take space to go into details here.

An "S" Supper. Some years ago this "S" supper was given to vary the monotony of the ordinary church supper. It was a success and I copy the menu for others who may like to try it.

Ideas for Luncheon Tables. At an early summer luncheon, or rather a "spring" affair, as the season is so late, have the centerpiece of the most abundant flower available.

In the case I am describing apple blossoms were used. A small but very sweetly tuned music box was the centerpiece, literally covered with a mound of apple blossoms.

When luncheon was announced there was "music in the air" and the guests found their places by cards decorated with apple blossoms done in water-colors and a bar or two of Mendelssohn's "Spring Song" done in gilt

across the top. The favors were candy boxes in the shape of musical instruments and the hostess said she hoped all her guests were "sweetly attuned." The home at which this pretty luncheon was given was in the country, and after the repast all repaired to the orchard and gathered blossoms, which they took home.

At another spring party the table was laid out like a formal garden with little trees taken from "Noah's ark" and purchased at the favor department, as were the gilded garden tools.

Wild flowers were used in toy wheelbarrows. As a pastime the hostess used some of the flower guests, contests that have appeared in our department from time to time. She had made the cards on which the questions were written in the shape of flower pots, the outside being painted to represent a potted plant.

The prizes were brown baskets of spring flowers. The ice cream was served in flower pots and the salad in tin cans. As it was made of vegetables, this was most appropriate.

Ship Party. Did you ever hear of one? Well, neither did I until recently, and I am telling you all about it just as soon as I can.

This affair was given for a boy's eighth birthday and he just loved boats better than anything else, so his mother had the finest make an oval pan four inches deep, which she filled with water and put in the center of the dining-room table.

Around the edge she arranged ferns and vines with moss, and in the water she placed the gold fish from the aquarium.

At the toy store she bought ducks, miniature row boats, sail boats, a little steamer, swans, frogs and play fish. There was a five-cent sail boat at each place with the name of child on the side.

The cake had a sail boat done in pink icing for decoration, with the boy's name and date of birth and present date underneath. All this had been kept a profound secret and all the kiddies were wild with delight.

This mother noted for her successful children's parties and she says it's because she has just the same things for each child to take home, and she usually serves refreshments first, as ice cream and cake are after all what makes a real party to the average child.

and served early, the supper hour is not interfered with. Then, too, she says children are much happier and easier to manage when their stomachs are full.

Moon and Morning Stars. Here is a Spanish game that I am sure the children will enjoy these warm spring days. One thing is necessary, and that is bright sunshine for this pastime.

The girl who represents the moon stands in the shadow of a large tree or building and she cannot go out into the sunshine. All the other players are the morning stars, and belong in the daylight, so they stay out in the sun; occasionally they venture into the shadow calling alternately:

Oh, the moon and morning stars. Oh, the moon and morning stars. What dars to tread oh! Within the shadow!

The watchful moon keeps her eyes open and pounces upon some too venturesome star, catches her and takes her place among the stars and the victim becomes the moon—

MADAME MERRI.

Frills and Furbelows. In Pierrot frills there is a charming novelty, the frill being of very fine white kilted net veiled by a still finer transparency of black net.

Unless you see this you will hardly realize how sweet it is and how lightly the black rests mistily on its underkilling.

Debutantes, of course, have always worn tulle, and equally of course they do so still, tulle with pretty gowns and the finest of evening girdles of brooch ribbon.

At the same time older women are making net the favorite material for blouses, and the choice is not altogether unwise, for a well-made net often wears better than chiffon and white net is not difficult to wash and do up.

Novel Neck Frill. A charming Parisian actress has adopted very becoming neck frills, which she wears on all her gowns.

She has the gown cut in a small V and round this she wears a two-inch plisse net frill put in double and in front allowed to fall full. This dainty fashion leaves the throat bare to show a row of pearls, and yet there is no hard outline such as a severely turned-down lawn collar may show.

WHAT CONGRESS IS DOING

WOOL ON FREE LIST.

House Caucus Votes 190 to 42 Against Imposing Duty.

Washington.—The Democratic caucus voted decisively to support the wool schedule of the Underwood tariff bill, placing raw wool on the free list, after Representative Underwood had made a stirring appeal for the support of the caucus.

By a vote of 190 to 42 an amendment offered by Representative Dices of Texas to place raw wool on the dutiable list was rejected.

Representative Dices' amendment proposed to place a duty of 15 per cent ad valorem on raw wool, and other champions of dutiable wool asserting that this was the judgment of the ways and means committee before President Wilson saw the bill and suggested a change.

Majority Leader Underwood, in winding up the discussion, warmly defended both the committee and the president. He declared the president had a right to make suggestions, but that the bill as a whole met with the chief executive's approval when he first read it as it came from the committee.

"Out of 1,000 and more items in the bill," said Mr. Underwood, "the president only made two suggestions, one affecting the sugar and wool schedules. It seems to me that we should accept those suggestions from the president of the United States."

Representatives Rainey of Illinois and Harrison of New York also spoke on behalf of the committee, defending its action and the attitude of the president. The attack upon the committee and president began as soon as the insurgent Democrats began consideration of the bill.

INSURANCE CLAUSE. Committee Holds It Means Participation in Surplus of Profits.

Washington.—Relative to the insurance clause in the tariff bill, the ways and means committee contents an exhaustive investigation of books of insurance companies shows that in many cases the earnings of companies are nearly as large as the amounts which are annually distributed as dividends, and that it does not appear that a separation of surplus of income is made for the purpose of ascertaining the funds available for dividends.

The committee holds that a policyholder is not entitled to a refund, but a participating in the surplus of profits, and that the dividend is a refund of a portion of the premium, rather than a distribution of the actual surplus of the company derived from all sources, is not consistent. Upon that basis it is held that the insurance companies are not entitled to declare dividends which will conform to the commercial definition of dividends.

"SECRET HEARINGS" PLAYED. Fight on Underwood Bill Opens in the Senate.

Washington.—The Democratic tariff revision bill came to its first attack in the Senate Thursday, and the skirmish continued the scope and vigor of the fight that will be made against it by Republican political forces when the tariff discussion begins in the two houses.

Backed by requests from many interests for hearings on certain sections of the Underwood bill, Republican senators made a demand on the Democratic finance committee for hearings and openly attacked the "secret legislation" now going on in the Democratic caucus of house members.

Democratic senators who replied to the attack made clear that the finance committee does not plan to grant any public hearings. Senator Williams and some independent hearings had been given by the finance committee before the bill was passed, while Republican senators declared that these hearings had been of little value because the critics of the Underwood bill were not then known.

Cotton Schedule Stands. Washington.—Before reaching the caucus disposal of the cotton and flax schedules, voting down all amendments to increase the duties proposed in the committee bill. It is expected that more rapid progress will be made in caucus consideration of the bill from now on.

Fight on Rice Schedule. Washington.—In the Democratic caucus the last fight of the day was on rice. Representative Latta of Louisiana offered an amendment to increase the proposed duty of 1 cent a pound to a cent and a half a pound. Representative Thompson of Oklahoma moved to place it on the free list. Both amendments were lost.

To Lend on Land. Washington.—A bill to authorize national banks to lend money on real estate, was introduced by Senator Nelson.

Wood Schedule Disposed Of. Washington.—The wood schedule was quickly disposed of by the caucus. An amendment by Representative Baker of California to transfer paying blocks, railroad ties and telephone, telegraph and other poles to the free list, in place of the proposed 10 per cent duty, was rejected.

Primary Elections. Washington.—Primary elections for nomination of presidential and vice-presidential candidates was proposed in a bill by Senator Cummins.

DUTY ON CATTLE AND SHEEP.

Effort to Put Them on Free List Fails in Caucus.

Washington.—Persistent efforts to put cattle and sheep on the free list, to cut the duty on skins and to other ways alter the ways and means committee tariff revision bill, were defeated in the Democratic caucus of the house.

The Democratic leadership fight for the bill, as reported, was piloted by Representative Francis Burton Harrison of New York, in the absence of Representative Underwood, the majority leader, who is ill.

On the senate side of congress the tariff revisionists were inactive. The agricultural schedule, was before the house caucus all afternoon and there were some lively speeches. Many of the new members of the house accounted their views, but each time there was a test the committee was overwhelmingly sustained.

Representative Logan of Pennsylvania, a new member, precipitated the longest fight of the day with an amendment to put cattle on the free list. Cattle and sheep are now dutiable at 10 per cent and skins at \$1.50 a head.

Representative Baker of California, Russell of Missouri and others urged against free cattle, declaring it would destroy the cattle-raising industry in their states.

Representatives Kinkead of New Jersey and Curley of Massachusetts contended free cattle would "make a broader field of supply for the independent packers as against the so-called beef trust."

NEW BILLS BROUGHT IN. Journal Clerk of the House Is Swamped With All Kinds.

Washington.—The Journal clerk of the house was again swamped with regulations and bills of every kind and description. Nearly 200 bills and resolutions, public and private, were dropped into the house hopper during the brief session of that body.

Among the more important ones are the following: By Congressman Austin of California to recognize the republic of China, and also a bill amending the banking laws and authorizing national bank associations to lend money on real estate.

By Congressman Sims of Alabama amending the house rules and prohibiting the appointment to any committee of a member selected at secret party caucuses.

By Congressman Dyer of Illinois to appropriate \$30,000,000 to protect the banks of the Mississippi; another to appropriate \$250,000 to erect a monument in St. Louis to Gen. William T. Sherman; another to create a commission on salaries and allowances of postal employees; and a fourth bill requiring the interstate commerce commission to hold examinations as to the fitness of road masters, foremen and superintendents of construction on railroads.

By Congressman Dwyer—Providing that the word "applause" shall not be inserted in any speech in the Congressional Record. He also introduced a bill appropriating \$25,000 to aid in the celebration of the 100th anniversary of the battle of New Orleans.

By Congressman Cary of Ohio prohibiting railroads from working any telegraph operators or signal men more than eight hours a day.

PRESIDENT WILSON WINS. Fight for Free Sugar in Three Years Won in Caucus.

Washington.—President Wilson won his fight for ultimate free sugar in the Democratic caucus by a four to one vote. The Louisiana men were routed in their effort to secure protection for the sugar interests. The bill will be sent to the senate with a 25 per cent reduction on the present duties, with free sugar at the end of three years.

The Democratic members of the committee, including such free traders as Representative Harrison of New York and Rainey of Illinois, stood as a unit for the three year gradual reduction to a free sugar basis.

Wilson Optimistic. Washington.—President Wilson believes the tariff bill meets the general approval of the country. "The country," he said, "is not in a hurry to see the tariff bill, and that while in most cases the cost of living will not be immediately reduced, the consumer will feel at once the benefit of a reduction in the sugar duty. These views were expressed by the president in an open talk with newspaper men at the White House.

He explained that his main reason for desiring a reduction on sugar was that the consumer deserved it.

Tennessee Ratification In. Washington.—Formal notice of the ratification by the Tennessee legislature of the constitutional amendment providing for the direct election of United States senators was received by the president in an open talk with newspaper men at the White House.

The amendment, which has acted favorably, but thirteen of them have not complied with Secretary Bryan's request for immediate official notice.

Data Is Wanted. Washington.—The senate discussed the Overman resolution calling upon the Interstate Commerce Commission for data about placing government employees in office without examination and referred to the civil service committee.

To Investigate Coal Strike. Washington.—A resolution for a committee of three senators to investigate the coal strike in the West Virginia district in West Virginia was introduced by Senator Kern.

An enterprising publisher, from the United States, once ran him down during his vacation, and placed a blank check before him, inviting him to fill it in for any sum he liked to name in return for a book of no fewer than 50,000 words.

My terms would be five million dollars," Lord Knollys remarked, quietly. The publisher gasped. "Good gracious, sir, are you serious?" he asked. "Quite," Lord Knollys rejoined, and then, with one of his merry twinkles of his eyes, he said: "I would not be more to you if I had to say frankly all I know."

The publisher realized the force of the argument, and was bound to admit that it would be a hopeless task to induce an indiscretion on the part of the veteran courtier.

Scissors for Memorial Wreaths. The police of Berlin applied the censorship of the scissors to a recent demonstration at the cemetery where are buried the socialists and anarchists who fell in the revolution in Berlin March 18, 1848. Hundreds of visitors brought wreaths, the socialists red and the anarchists black, to lay on the graves. The police, with scissors, stood at the entrance to the cemetery. Every wreath was submitted to them and the sentiments on the ribbons had to undergo the censorship of the scissors.

Facts Worth Knowing.

There are three different kinds of ingredients used in making the three different varieties of baking powders on the market, viz: (1) Mineral-Acid Alum, (2) Bone-Acid or Phosphate, and (3) Cream of Tartar, derived from grapes. It is important, from the standpoint of health, to know something about these ingredients, and which kind is used in your baking powder.

(1) Mineral-Acid, or Alum, is made from a kind of clay. This clay is mixed with diluted oil of vitrol and from this solution a product is obtained which is alum. Alum is cheap, costs about two cents a pound, and baking powder made with this Mineral-Acid sells from 10 to 25 cents a pound.

(2) Bone-Acid, or Phosphate, is the basis of phosphate baking powders and the process is fully described in the patents issued to a large manufacturer of a phosphate powder. The U. S. Patent Office Report gives a full and exact description, but the following extract is enough:

Burned bones, after being ground, are put into freshly diluted oil of vitrol and with continual stirring and in the following proportion:

From this Bone-Acid Phosphate baking powders are made; such powders sell from 20 to 30 cents a pound.

(3) Cream of Tartar exists in all ripe grapes, and flows with the juice when the grapes are pressed. The tartar is subsequently gathered from the cask, boiled with water, and refined, when crystals of Cream of Tartar, white and very pure, separate and are procured. It differs in no respect from the form in which it originally existed in the grape. Cream of Tartar, then, while the most expensive, is the only ingredient that should be used in a baking powder to act upon the carbonic acid gas, which is the only real question. Cream of Tartar baking powder sells at about 35 to 50 cents a pound.

There are 128 facts and errors in the history of the health of the family. Remember this rule: Baking powders selling from 10 to 25 cents a pound are made of Mineral-Acid, those selling from 20 to 30 cents of Bone-Acid; and those from 35 to 50 cents of Cream of Tartar derived from grapes.

Farmers and others who live at a distance from a drug store should keep in the house a bottle of BAKING POWDER. It may be needed at any time for cuts, wounds, sores, sprains or rheumatism. It is a powerful healing and penetrating remedy. Price 35c, 50c and \$1.00 per bottle. Sold by Dals & Stubbfield.

Dynamite Is Exploded.

Two sticks of dynamite wrapped in wire were exploded Wednesday night at about 8:30 o'clock in the rear of the Miller drug store and the damage resulting will reach quite a sum. Every window in the drug store building, many in the rear of the Sled clothing store and all the windows in the east side of the rear of the Gatlin building were broken. The charge of dynamite was wrapped in wire and hundreds of small pieces of wire blown through adjacent out buildings. The supposition is that the explosive was fired by some one who has been engaged in the firing of fire crackers and other explosives on the street at night the past two weeks.

You can find a large line of hats to select from in Panamas and Milans and Braids, and most select line of trimming. Mrs. Sale, over Miller's drug store.

Prominent Citizen Killed.

Information was received at about press hour that Mr. Lige Carter, a well known citizen of the Lynn Grove section, was killed this morning at about 8:00 o'clock while at work in a mill which belonged to his son-in-law, of Lynn Grove. It is said that he was operating an emery wheel when the wheel flew into pieces, a part striking Mr. Carter in the side of the head killing him instantly.

Owing to the fact that I am employed as book-keeper for the Griffin & Pitt Tobacco Co., it will be impossible for me to begin riding early as some of the candidates. I respectfully ask that you not be too hasty in making your choice in the county clerk's race. Within the next two or three weeks I hope to be able to go to riding and present my claims to each and everyone in the county, earnestly asking a fair and impartial consideration of same at your hands. Thanking you in advance, I am yours to serve,

Godwin Humphreys.

A MESSAGE

To People Old People.

As you grow old the waste of the system becomes more rapid than for the young. The organs all become weak and less efficient. This is the reason why the old people feel the blood thin and circulation weak.

Vital, the blood builder, cod liver oil, is the ideal strengthener and blood builder for old folks. For it contains the very elements needed to rebuild waste the same old, weak, and weak blood. With strength. Vital also fortifies the system against colds and thus prevents pneumonia.

A grandnephew of Alexander Hamilton, over eighty years of age, once remarked: "Vital is a godsend to old people. Thanks to Vital, I have a hearty appetite, sleep soundly, feel active and well. It is the finest tonic and strength-creator I have ever used."

If Vital fails to build up the system, old people, send it back for a refund. We will return your money. VITAL, the blood builder. DALE & STUBBLEFIELD, Benton, Mo.

Osborne Tongueless Disc Harrows at E. S. Duguid & Son.

J. R. Swann, C. C. Chambers and W. M. West were in Paducah this week serving as jurors in the Federal court.

E. D. MILLER is the lead quarters for LIV-VER-LAX.

The Selby show for style and comfort. L. E. Graham & Co.

Mrs. O. J. Jennings is in Trenton, Tenn., attending the Missionary Conference as a delegate from the Methodist church.

We have now received our entire line of spring merchandise and invite our friends to investigate our beautiful showing before placing their order elsewhere. L. E. Graham & Co.

J. S. Dean, Clinton district school worker, will occupy the pulpit at the Christian church each evening of this week at 7:30 o'clock.

A prudent mother is always on the watch for symptoms of worms in her children. Paleless, lack of interest in play, and nervousness is the signal for WHITE'S CREAM VERMIFUGE. A few doses of this excellent remedy put an end to the worms and the child soon acts naturally. Price 25c per bottle. Sold by Dale & Stubblefield.

Mrs. B. B. Wear, Miss Ruth Cutchin, Mrs. Maud Hayes and Rev. South Hawkins attended the convention in Mayfield last week.

If you want to wear the smile that won't come off buy a John Deere Cultivator, the lightest running, the easiest guided of any cultivator. Acme Harrows. Buy from Baker & Glasgow.

O. T. Hale, Mrs. W. W. Stubblefield, Misses Ethel Cutchin and Rubie Wear, attended the Convention at Mayfield last Friday.

Bad breath, bitter taste, dizziness and general "no account" feeling is a sure sign of a torpid liver. HERBINE is the medicine needed. It makes the liver active, vitalizes the blood, regulates the bowels and restores a fine feeling of energy and cheerfulness. Price 60c. Sold by Dale & Stubblefield.

Robert Carson, a son of W. H. Carson, of the northwest section of the county, died the past week after a lingering illness of consumption. He was about 20 years of age and a well known young man and had many friends. The burial took place at Mt. Carmel.

To have a fine healthy complexion—the liver must be active, the bowels regular and the blood pure. All this is brought about by using HERBINE. It thoroughly scours the liver, stomach and bowels, puts the body in fine condition and restores that clear, pink and white complexion so much desired by ladies. Price 60c. Sold by Dale & Stubblefield.

V. A. Boss and daughter, of Fillmore, Ill., were in the county the past week the guests of Mr. Alonzo Beaman and Mr. John Smith and families. Mr. Boss is a cattle dealer and has been handling Calloway stock for the past several years.

T. Alonzo Beaman and family were the guests the past Tuesday night of Mr. John Smith and wife, east of the city. John was very much delighted over the visit and stated to a Ledger representative that he had been intimately acquainted with Alonzo for many years but he believed that it was the first time he ever went visiting in his life.

Do You Want a Child?

The Kentucky Children's Home Society has a number of little children in need of good homes. They have more boys than girls, but have children of both sexes from 3 to 9 years of age. These children are to be placed in the State of Kentucky in good christian homes, where they will derive the advantages of education and religious training. No one who lives a long distance from school need apply as our children must attend school regularly, nor do we place children where they will not be sent to Sunday School and church.

If any of the readers of this paper can give such a home to a child, we hope they will write to the Kentucky Children's Home Society, 1086 Baxter Avenue, Louisville, Ky., and get particulars.

That the large and beautiful lots to be put on the market at auction on Wednesday, April 30, at 10:30 a. m. will be one of the prettiest localities for a good home in the entire city of Murray, is a matter of fact, and that the increase in value will be rapid is just as certain. Your own mistake if you are not present and buy one or more.

Notice.

I am permanently located at Penny in the mill and blacksmith business. Good meal and first class horse shoeing a specialty. I have had a life time experience in my business and guarantee satisfaction, having thoroughly renovated the mill since I took charge of it and am prepared to make good meal. Give me a trial. Urge Minimum Wage Scale for Women

By T. ELLING, Chicago

A minimum wage law for women would be welcome and would mark a stride for progress. If it can be demonstrated (I do not think it can be) that the lowness of wages paid to women and girls is what causes immorality among them it is my opinion that the majority of employers would soon raise wages and favor a minimum wage law.

Girls who go wrong usually get the start downward through the negligence or inability of ignorant or careless parents who are unqualified for the proper training of children.

It is here a minimum wage law for men and women, assisted by a minimum education law, would have a more desirable effect.

Suggestive songs, cheap dive dance halls, saloons, poolrooms, obscene theaters, disreputable resorts and cafes, these with their evil influences and finished product cause more girls (also boys) to go wrong than low wages ever did.

The advertising given the immoral life through suggestive songs and other agencies has lifted its social stigma and made its entrance less reprehensible.

A number of candidates are only awaiting the provocation, which sometimes is low wages.

While the fallen woman question is being discussed we would bring into the same question the male of the species (who, by the way, is much greater in number), and we may arrive at a more sensible plan of action.

We shall have outgrown the causes of low wages, faller people and their attendant evils when we have learned to exercise our intellects on problems concerning our social and economic conditions instead of the pink sheet.

Oratory Being Replaced by Printed Word

By JOSEPH LEVIN, Boston, Mass.

Is the orator's occupation gone, and is the spell-binder's day drawing to a close? Has the newspaper put them out of business? Samuel J. Elder, himself a speaker of more than common attainments, notes the fact, which he seems to deplore, that oratory as a means of spreading thought and knowledge, is being superseded by the printed word.

True, there are no great successors of Daniel Webster, Wendell Phillips or Henry Ward Beecher, and the old lyceum is no more. But nearly every city has its public forum or forums, where every week topics of current interest are discussed by thoughtful men and women. And in Boston, at least, there is a superabundance of lecturers.

In general, the public seems to be getting out of the habit of listening to lectures, orations and speeches and wallowing there while, without question. This is the age of questions. Every thoughtful man or woman has more than anybody can answer. Newspapers, magazines and books have made this generation far more sophisticated, if not wiser or more profound, than its predecessor. That sophistication is fatal to the spell-binder's art. In order to be successful, the orator must appeal to the emotions of his hearers, and the more the public reads, the harder it is to play on its feelings.

But who doesn't enjoy genuine oratory? Who doesn't like to have his feelings roused and his heart set afire by the burning words of an eloquent speaker? Feeling is the best known substitute for thinking, which at best is difficult. So, if Webster or Phillips or Beecher could speak to us on the questions of 1913 we would all flock to hear him.

Right Treatment of Children by Parents

By W. A. PETERS, Baltimore, Md.

It is often said that the measure of parental delinquency should be established when children become delinquent. The point of this was emphasized by Edwin Mulready, secretary of the Massachusetts probation commission, by a story he told the other day to those interested in probation. It was given out of his long experience as a probation officer and concerned a wealthy contractor in Boston.

This man had a son and a daughter, both fine children. But their mother died. Their father remarried and the stepmother, not unlike others, showed more affection for her own children than for her foster children. The son, still a minor, got to drinking. He was arrested. His father refused to aid him and he was sent to the workhouse.

Meanwhile, the daughter, lacking the sympathy of a mother, became wayward. Against her, also, the father's heart was closed. She went to work in a department store and was caught stealing articles from the store. Other things equally reprehensible this young girl was guilty of until she became amenable to probation and its reformative influences.

But what of parental responsibility? The boy and the girl might have been saved from ill courses had they known the sustaining sympathy of a parent at the most critical point in their lives.

What of the severe attitude of a father which compels the state to step in and take the place, as best it may, of a parent by practicing probation? Probation is preventive in its nature, but right treatment by parents is the best of all preventives.

Ordinary Politeness is Most Pleasing

By Rev. Frank Crane, Chicago

Just plain, ordinary, everyday politeness is about the most pleasing thing a human being can have to offer.

It sweetens the air. It cheers the heart. It feels good. It tastes good. It is good. It doesn't cost a cent and it will accomplish more in a minute than money and curses can get done in a month.

The average American employee who deals with the public is distinctly disagreeable. Street car conductors are insolently deaf. Bank clerks are contemptuously brusque. Telephone girls are snappy. And dry goods "salesladies" are snippy. Waiters take your order when they please, bring your food when they get ready, and they go away and if you need another fork you may get up and get it yourself.

A waiter in a New York restaurant took a meek looking old gentleman's order for a horseshoe and then departed and remained somewhere in the dim distance for a long time. By and by he came to the old gentleman, who had been sitting patiently with his hands folded.

"How would you like your steak, sir?" asked the waiter.

The old gentleman looked up, collected his thoughts and responded enthusiastically, "Oh, very much, very much, indeed."

Some day the common herd who are jammed like cattle into elevated trains and punched in the back by guards and told to "step lively," who are hung on street-car straps, who are browbeaten, despised, snubbed and walked upon by public servants—some day this proletariat will rise and drive a few clerks about three feet into the ground.

Does Backache Worry You?

Many who suffer with backache and weak kidneys are usually irritable and fretful. But kidney pills to stimulate all the uric acid from the system, keeping you "on edge" and causing rheumatic, neuritic pains.

When your back aches, and you notice signs of bladder irregularities, suspect your kidneys and begin using Doan's Kidney Pills, the best recommended special kidney remedy.

An Indian Case: "My mother, a Native American, told me that she had been cured of her backache by using Doan's Kidney Pills. She said that she had been suffering for many years with backache and that she had tried many other remedies without success. She said that she had been cured by using Doan's Kidney Pills and that she had been able to do her work again."

Possibly Two Conflagrations

"Papa, what is a conflagration?" "It is a big fire, my son."

"And what do they call a little fire?"

"There is no special name for a little fire. Oh, they sometimes call it an incipient fire and—let's see—well, it is sometimes called an inconsiderable fire."

"Why?"

"Well, I see your coat-tail is on fire, and I was wondering whether it was a conflagration or an incipient fire."

In a few minutes the young man had reason to think it was a conflagration.

ITCHING, BURNING ECZEMA

217 S. Wolfe St., Baltimore, Md.—"My trouble was caused by a severe sprained ankle; the bruised blood not having been drawn off caused a skin infection, which the doctors pronounced eczema. It first started with an itching and burning, with very dry skin. Constant scratching, especially during the night finally broke the skin, and during the day the watery fluid that came from it would dry and peel like fish scales. My stocking would stick to my ankle as if it were glued. I also had it on my fingers."

"I was treated without getting any benefit. I began using Cuticura Soap and Ointment and then applied the Cuticura Ointment and bound the ankle with a soft bandage, after bathing it with Cuticura Soap. They cured me in about two months." (Signed) T. W. Henderson, Dec. 4, 11.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

How Long Will Women Stand 'Em?

"I am a mean man," confessed the Erratic Thinker. "My father bore the same unenviable reputation, and I had an uncle who served a term in the penitentiary and was twice mentioned for the legislature. So no one need be surprised when I remark that personal of the dry goods advertisements causes me to wonder how soon corsets will become so long that their wearers will be obliged to roll them up around the ankles to keep from treading on them."—Kansas City Star.

Uncle Josh's Joke.

"Geet!" said old Uncle Josh, as he wailed from the parlor waxed louder and more piercing. "I wish that these female summer boarder'd stop that infernal prattle on her 'egin'—fer a leetle. She hez a voice like a fish."

"Like a fish?" demanded Mrs. Josh, scornfully.

"Yaas," said Uncle Josh. "Mostly scales an' flatter'n hooksy."—Harper's Weekly.

Bismuthide for Ants

Where ants infest lawns or other equally available areas, punch holes about a foot deep with a stick at three or four points near the center of the nest; pour into each about an ounce of the bismuthide of carbon and close the openings with the foot. The vapor will get into and follow the galleries and kill the ants. A second treatment will rarely be necessary.

A Negative Merit

Temptation.

Representative, Solomon, Francis Prouty of the Seventh district of Illinois is the only man in the house of representatives who chews gum, and he chews it with a remarkable avidity. He took the gum habit after a conference of Iowa physicians had warned him that he must either stop smoking or fill a grave. They suggested chewing gum as a substitute for my Lady Nicotine.

The only time he has smoked in ten years was on a hot day last summer while out campaigning. He stopped to talk with an old farmer who was puffing at a corncob pipe. The smoke got into Representative Prouty's nose, and as soon as he reached town he rushed into his office, grabbed his secretary by the arm, and almost shouted:

"For goodness sake dig out that pipe of yours and give me a puff! Lock the doors and keep every man out who looks like a doctor. I've got to smoke or bust!"—Washington Star.

WHY SUPERIOR?

BONNY'S LIVER PILLS are far superior to the ordinary purgative medicine on the market. Because the dose is small, ONE SMALL PILL, at bedtime. Because they NEVER GRIPE, or act violently on the bowels. You never feel them! Because they act directly on the liver, stimulating it to perform its functions in a natural and GENTLE way. Because they tone up the muscular coat of the bowels and induce the natural "purgative force," they regulate the ENTIRE SYSTEM.

Lessons in Housekeeping

A young girl of fourteen whom I know plans and cooks the dinner at one evening of each week, and her mother stays away from the kitchen entirely on this afternoon. The girl's father gives her a small amount of money in the morning before he leaves home, and she does the marketing with this sum. The event is anticipated with great pleasure by all the members of the family as well as by the little cook, and the nourishing and appetizing dinner she serves is certainly surprisingly good.—Woman's Home Companion.

Women of Middle Age

From 40 to 50 Woman's Critical Period

Such warning symptoms as sense of suffocation, hot flashes, severe headaches, melancholia, dread of impending evil, palpitation of the heart, irregularity, constipation and dizziness are promptly treated by intelligent women who are approaching the period of life.

This is the most critical period of woman's life and she who neglects the care of her health at this time invites incurable disease and pain. Why not be guided by the experience of others and take Lydia E. Pinkham's Vegetable Compound? It is an indisputable fact that this grand old remedy has helped thousands of women to pass through this trying period with comfort and safety. Thousands of genuine and honest testimonials support this fact.

From Mrs. HENRY HEAVILIN, Cadiz, Ohio.

Fort Worth, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound and derived great benefit from its use. It carried me safely through the Change of Life when I was in bad health. I had that all gone feeling most of the time, and headache constantly, I was very nervous and the hot flashes were very bad. I had tried other remedies and doctors, but did not improve until I began taking Lydia E. Pinkham's Vegetable Compound. It has now been some time since I took the Compound and I have had no return of my old complaints. I always praise your remedies to weak women."—Mrs. HENRY HEAVILIN, R. F. D. No. 5, Cadiz, Ohio.

From Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do.

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong, well woman. I am very thankful that I followed my friend's advice, and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

From Mrs. F. P. MULLENDORE, Munford, Ala.

Munford, Ala.—"I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand to have a gate slam.

"I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend it to all women afflicted as I was."—Mrs. F. P. MULLENDORE, Munford, Ala.

AUCTION SALE OF M^CMELRATH PROPERTY

DIVIDED INTO LARGE, DEEP LOTS

ON THE PREMISES

WEDNESDAY, APRIL 30, At 10 A. M.

This is your last chance to secure such high class, shady lots, on easy terms, and at the price you wish to pay. This property has long been held from the public, but is now divided into nice, large lots, giving anyone desiring a nice country home, right in the heart of the city, a chance to have a nice lawn, garden and pasture lot all combined in one.

With the new interurban line running into Murray will in the next twelve months double all property, and business men of Paducah will have nice homes in Murray and go back and forth to their business. Why? Because Murray is high and dry, out of back-water, free from malaria, has high class schools, prosperous banks and churches, thereby making Murray an "Ideal" home spot.

Do not wait until the other man buys this valuable property, then you pay him a nice profit on his purchase, but come to this sale early. Get in on the ground floor and save the profit you would otherwise pay the first purchaser.

This Valuable Piece of Property Will be Cut into Large, Deep, Building Lots
All streets 50 foot wide, alleys 15 foot, and streets running North and South and East and West, thereby giving you your choice of buying a lot fronting in any direction you wish.

A clause will be inserted in all deeds prohibiting the sale or rental of this property to anyone of African decent, but a man can have a servant house on the place for his own servant. This clause will forever hold and you can readily see that this will always be strictly a first-class sub-division for white people only.

There will be absolutely no by-bidding at this sale for we bought this property to sell and not to hold. We give all purchasers a fair, equal chance with each other, and conduct our sales on strictly high-class business principals.

FREE —Nice Lot Given Away. **FREE** \$50 in Gold Given Away— **FREE**
—Band Concert on Grounds. **FREE** Nice Lunch After the Sale— **FREE**

The Cause of Rheumatism.

Stomach trouble, lazy liver and deranged kidneys are the cause of rheumatism. Get your stomach, liver, kidneys and bowels in healthy condition by taking Electric Bitters, and you will not be troubled with the pains of rheumatism. Charles B. Allen, a school principal of Sylva, Ga., who suffered indescribable torture from rheumatism, liver and stomach trouble and deceased kidneys, writes: "All remedies failed until I used Electric Bitters, but four bottles of this wonderful remedy cured me

completely." Maybe your rheumatic pains come from stomach, liver and kidney troubles. Electric Bitters will give you prompt relief. 50c and \$1.00. Recommended by Dale & Stubblefield.

The Lynn Grove Mill will sell you high grade chemicals for making your own fertilizers, also handles a ready prepared high grade fertilizer for corn and tobacco. Can save you some money on both.

Mrs. Warren at Rest.

Mrs. Martha Jane Warren (nee Taylor) was born in Henry county, Tenn., November 24, 1863, later moved to Calloway county; died March 12, 1913, aged 49 years and three months. Was married to W. D. Warren March 2, 1882, and born to this union was seven children—three boys and four girls, two girls died in early age. She left a husband, five children, several brothers and sisters, and many relatives and friends to mourn her loss. She professed faith in Christ at the age of 12, connected herself with the Missionary Baptist church and lived a true and faithful member—yes a devoted Christian until death. She was carried to the hospital at Murray, where an operation was performed, and seven days later the Lord bore her away out of her long suffering which had been afflicted with several years. She told her nurse in her dying hours that her gas clear, and told her husband and children not to weep for she was going to a better world. All that loving hands and medical skill could do was done, and her husband was even willing to give up home and all that he possessed to save his darling wife, but all in vain. She has left a light that will never fade away, they will never forget her kind words and good deeds and may the sacred memory of her fair, sweet life inspire all to a brighter and nobler living. Her sweet presence will be missed in her home, church and community, for she was always willing to lend a helping hand. If you live faithful you

will meet her in that happy land where parting is no more. One of the brightest flowers of that home is gone, but it will bloom more beautiful in Heaven. The home is made sad as wife and mother is not there, but is safe on the eternal shore.

Funeral services were held by Bro. Rubb Riley after which she was quietly laid to rest at the Young grave yard there to await the resurrection morn.

Flora Farless.

Speaking.

Now that all the candidates for the office of county attorney are already announced, and for the reason that since my return to Calloway county two years ago I have not been able to meet all of my friends and to entirely renew my acquaintance with the people; also that in the usual speaking in July the time will necessarily be limited when divided between 50 or 60 candidates, I desire to announce that I will address the voters at the places and on the dates mentioned below. Other places will be visited later on. I cordially invite both of my opponents to attend these meetings, and to divide time with me. (Remember your date.)

You Will Need Extra Power

If you have a new engine, get it big enough to do all your present work, and then you will have extra power. Your farm work is based on increasing volume. A very little extra power will give you a new engine later by getting an engine a size larger than you need now. When you buy an engine powerful enough to handle your work easily while running at the correct speed you add years to its life. Get your engine big enough and buy it.

IHC Oil and Gas Engine

You can use it to run any farm machine—pump, saw, feed grinder, cream separator, grindstone and on up to a husker and shredder or thresher—depending on the size of the engine you buy. The power is economical, so steady and dependable that IHC engines are in daily use in printing offices, laundries, bakeries, machine shops, mills and factories.
An IHC oil and gas engine will deliver 10 to 30 per cent above its rated horse power. All parts are carefully, accurately ground and perfectly balanced. Combustion is perfect and the maximum power is secured.
Sizes 1 to 50 horse power. Styles—stationary, portable, skidded, vertical, horizontal, tank-cooled, hopper-cooled, air-cooled. Fuels—gas, gasoline, naphtha, kerosene, distillate or alcohol. Oil tractors, 12 to 60 horse power, for plowing, threshing, etc. Our nearest office will gladly send catalogues and any information desired.

Beat 10 minutes, then beat yolks very light, add and beat together five minutes. Add 1 cup of flour at the time and beat all ten minutes. Add 1 cup of salt, 1 cup of pastry flour, pinch of salt, 1 cup of baking powder. Bake 15 minutes in moderate oven. Do not look in oven for 20 minutes. Ice—Melt over double boiler two squares of bitter chocolate, add cupful of sugar and add boiling water, one tablespoonful at a time until dissolved, but do not add more than three tablespoonfuls. Spread on cake while icing is warm.

Orange Cake.—Cream half a cup butter with one cup sugar, add yolks of two eggs, half cup milk, and half cup of orange juice, and a little of the grated rind, two small teaspoons baking powder sifted with two scant cups of flour, then the stiffly beaten whites of the two eggs. Bake in layers and spread with orange-icing made as follows:—Light one cup sugar with one-quarter cup water until it threads, then add gradually to stiffly beaten white of one egg and whip, slowly adding one-quarter cup orange juice, one teaspoonful of lemon juice and a little of the grated orange rind. Beat until thick and cream.

Ice Cream Cake.—One cup butter, two cups sugar, one cup milk, 3 1/2 cups flour, 1/2 teaspoonfuls baking powder, whites of eight eggs, one-quarter teaspoonful salt. Mix dry ingredients, cream butter and sugar, add milk, then flour and beat. Add whipped whites and beat again. Place in three jelly tins in hot oven and when cold put together with boiled icing flavored with almond extract.

Devil's Food Cake.—Butter, one heaping teaspoon; sugar, one cup; beat to a good cream, then add yolks of two eggs. Cut up one-fourth of a chocolate, put in saucepan, add one-half cup of cold water, let come to boil, then pour over above. Beat 1/2 cups of flour scant, with one teaspoon baking powder. Lastly add one-half teaspoon scant baking soda, one-half cup boiling water, then add to above contents. The secret in making this cake is to have the batter thin. Take the whites of the two eggs for boiled icing.

Oyster Patties.—Into frying-pan put one tablespoon butter. When hot add one-quarter medium sized onion cut in very small pieces. When well browned add the oysters, liquid of one pint of oysters and one cup of cream. After it boils up stir in the mixture two table-spoons flour dissolved in water enough to thicken it sufficiently. Season with salt and pepper. When well blended and cooked add one pint large oysters, cook until they curl, about two minutes. Line small pans with rich paste, which serves the purpose of shells; fill with the cream oysters. Sprinkle lightly with buttered bread crumbs, brown in a very hot oven. Serve at once on platter surrounded with parsley.

German Coffee Cake.—When making bread reserve a cup of sponge, and one cup of milk, previously boiled and cooled for lukewarm water will do, add one-third cup sugar, salt-spoon of salt and one heaping teaspoon of either butter, cold tallow or good clear drippings, beat, never mutton. Stir in enough flour to knead a good firm loaf, not too stiff; then roll out an inch thick; let it raise, and when light dot bits of butter over the surface and sprinkle generously a mixture of sugar and cinnamon. The addition of blanched almonds, chopped fine, is an improvement, and if you sprinkle a few drops of water or milk over the top the sugar will candy and taste better at least to the children. Bake this in a loaf, adding raisins, or without raisins you can make zwieback of it by cutting in slices and toasting in a slow oven.

Overheard in Court.—Jimmieberry and Harryway had been handed up before the court for speeding. "Fifty dollars apiece," said the judge. "All the evidence before this here bench goes to prove that you fellows was racing along at 20 miles an hour."

"Um, judge," protested Jimmieberry, "my car can't possibly go more than 20 miles an hour."

"And the limit of mine is 35," pleaded Harryway.

"What's your limit?" demanded the judge.

"I don't know," said Harryway, "but I'll bet it's 40 or 50 miles an hour."

"You fellows," said the judge, "what's the matter with you rabbits?"

BREED to the BEST

DeWOODS 51527

Sired by Red Medium 2:24, sire of L. Maud 2:34, Len Medium 2:34, Aegne 2:14, Fache M., p. 2:32, Mediums (3) 2:12, Medium Lads 2:10, Fache Red 2:10, Moving 2:10, Red and Black 2:10, High Medium 2:10, Glendor 2:11, Floy Medium trial 2:09, Artless trial 2:04, Jack Vassar trial 2:09, Novocia Red 2:09, Kingdell 2:08 and 42 others in the list making him the sire of speed of any living horse at 13 years of age. When we remember that Red Medium is such a young horse and never been situated so that he has had many good mares in his early work in the stud, all the more wonderful. He is a grandson of the great George and Happy Medium, both sons of the sire of harness speed Hambleton 10.

DAM:—Miss Glendora Woods, dam of Glendor 2:11, DeWOODS, and half brother to Red Timoka 2:27, one of the greatest show stallions in the north. Miss Glendora Woods is by Alsymont, sire of William 2:051. She out of Timoka dam of Red Timoka 2:27, Nutwood 2:22 and grand dam of Glendor 2:11, by Nutwood 2:181. 3rd—Dam Argentyler, by Cuyler 100. 4th—Dam Tilla, by Norman 25. 5th—Dam Verina, by Star Davis, Jr. 6th—Dam Steel's Crusader. 7th—Dam by Impt. Sappelon. 8th—Dam Bertrand. 9th—Dam by Cupbearer.

This combines one of the strongest blood lines ever seen in any trotter. Here you have Happy Medium, George Wilkes, Red Wilkes, RED MEDIUM, Alsymont, Alcyone, Nutwood and Hambleton seven times. What could be better? and where could one find a greater bred one? DeWOODS is only four years old and one of the best formed horses that man ever looked upon; having good size, good action and good manners. He is a blood bay with black mane and tail, long rangy neck, good intelligent face and head, and one of the best set of legs that ever held up a horse. He won the blue ribbon in his class at the Henry County Fair, Paris, Tenn., and Calloway County Fair at Murray, Ky., and has never lost the blue.

Red Medium is also the sire of Dorsh Medium, 2:061, and grandsire of the great mare, Cheeny. On account of his age, we will give him only a short season in the stud, but will be taken out and put on the track where he is expected to make a sensational race horse. While he is a trotting bred horse, yet he goes all the gaits making him very desirable for those who like a double gaited horse. This will likely be the last opportunity to get a colt from such a horse as this is a very low season. Fee \$20.00.

TALMEGE

Sired by Braden Gentry 0690 A. T. R., son of the world's champion John R. Gentry 2:001, who held 10 world's records at one time and winner of the world's champion at Madison Square at New York for the best form horse.

Dam KATE BRADEN, dam of Hal Braden 2:071, Brown Braden 2:131, Flying Gentry (3) 2:20, Braden Gentry (3) 2:22 (1), Hal Braden (2) 2:251, Braden Girl (dam of Nell Gentry 2:09). Kate Braden is the greatest brood mare ever bred in Tennessee, having produced more than any other mare.

Dam Fancy Onward by Baricade by Onward 1411 by George Wilkes. Talmege is one of the best young stallions ever offered to the breeders of West Tennessee. He is a beautiful golden Chestnut with flax mane and tail and when developed will make a horse nearly 15.3 and weigh 1100 pounds. While he goes all the gaits with all the ease of a pure Kentucky 5-gaited saddle, his fast gait is a pace, which he goes with all the ease of his most pronounced grand sire, and with a little training will be very fast. Here in TALMEGE you will find all the great bloods of the very best race horses the world has ever known, and those desiring something extra good, and yet at a price within reach of all, can find it in this horse. Fee \$10.00.

The above named horses will be in Hazel, Ky., every Wednesday and remain over night.

WHERE MEN COOKS EXCEL

Their Methods Surpass Those of Most Women in Economy of Motion.

I have had occasion to watch many men cooks and have observed that their methods surpass those of most women cooks in economy of motion. This is apparent in cutting celery or rhubarb—a man's knives by the way, are always sharp. A man lays on the board as many pieces as his knife will strike, and slices through them all in a twinkling. Men cooks have a different way of chopping food. Anything not committed to the chopping machine (they never use a chopping tray), they place on their board and holding the point of the left hand lightly over the end of the blade, they work the knife like a lever. Pitchers are held in high cutting with them, too. Try mixing soups—one that an egg-beater is in use. And how much easier to pour directly from this pitcher onto the middle, instead of ladling the latter out of a bowl—Good Housekeeping.

BRADEN GENTRY JR.

This fine young stallion will make the season of 1913 at my stable 1 mile west of Talmege at Hazel, Ky. He is a grandson of the world famous John R. Gentry, is a rich bay, black mane and tail, and 3 years old, 15 1/2 hands high. Fred Barber. 327

POSSIBILITIES

We have been able to assist and place hundreds of our students in honorable and lucrative positions. Our difficulty is not in finding places for our graduates, but rather in finding enough young men and women, who are willing to make a little sacrifice of time and money to qualify for some one of the positions which we are called upon to fill in the business and professional lines.

We give you the following advice: Get ready for the place above you, and the greatest requisite for this advancement is to be fitted for the place when it comes. Many a young person has failed of promotion because he was not fitted for the opening when it came.

Will thorough preparation pay? In all occupations, the lowest rounds of the ladder of success are well occupied, but there is always room at the top. In every large city there are scores of business men and institutions looking for employees who can properly fill positions. Competency and efficiency are always in demand. The avenue by which this efficiency can be attained is right at your door. **Correspondence Training.** The great revolution in business has given rise to this new order of things, things which fit men and women to cope with real life, and that is a practical education. The "Door of Opportunity" is open, now is your time to enter.

AUTHOR'S NAME AT LAST REVEALED

You have read the newspaper comments about Sir John's "love letters" to a Confederate General and you no doubt, like many readers, are puzzled at who was the author of this strange series of love and war letters. The great battles with startling realism, he depicted the said and the life with humor and pathos—there all else but I have known. The letters are most beautiful. I have been inspired to read the same and want to share them with you. When you have read General and Sir John's letters at last, you can tell just who was Major General George B. Pickens, S. A. the hero of Gettysburg, First Forks and other notable actions of the war. I am sure that his name is familiar to you. I have been so much interested in these letters that I have written them down for you to read.

We Shall Offer For Public Service Five Magnificent and Grandly Bred Stallions and Three Champion Jacks.

SIRED BY: *John R. Gentry*, 20901, 1st St., P.O. Box 678, Dallas, Texas 75220
The sire of this year's trotter champion, *That Algerian*'s race horse son, brother of very famous sire, *Verdegent* and he is proving himself a sire of the bestest class and after the season in the state of Texas, *Shirleye Catch* will be placed in the hands of a competent trainer to give them every low record.

DAM: *BLAIR IN CHALK*. Sired by John R. Gentry 20901, the former champion pacer and also a great sire. *Shirleye Catch* is a beautiful dapple bay one of the handomest horses in the state. He is 16 hands and a wonderful burst of speed and it's no guess as he has already proven himself a great sire.

44. **MASON'S HAMLET** A beautiful 5 galled saddle stallion sired by Artist Joe, who was a great show horse. Mason's Hamlet is a beautiful black with great style and finish. That he is a sire of show horses has been proven as two of his get won at Mayfield fair in 1911.

5th. FAVORITE COOK. Trotting stallion, a son of the famous Capt. Cook. He is a beautiful Chestnut color 15-3. He is a very handsome horse with a disposition that is unexcelled, he has proven himself a great sire as his colts are exceptional roadsters with great style and finish.

6th. NAPOLEON 743 Champion Jack of the state, he has never been defeated in the show ring winning first at Nashville, Tenn., state fair and at Louisville and he is a sire of blue ribbon winners, his weanling colts sell for \$100 to \$125. We have now at our barn a yearling by him that we have refused to take \$160 for.

7th. **PARAGON, JR.** The champion Jack at the tri-state fair at Memphis. He has proven himself a great sire as his colts sell for big prices as weanlings.

8th. CARMACK 2211 A 5 year old, sired by an imported jack. As good blood as there is in the United States. He is a very fine big black jack, it would be hard to find his equal anywhere as there is few like him and he has proven himself a great breeder as his colts have topped the market.

We wish to thank our friends and patrons for their liberal patronage for the season of 1912 and we cordially invite continuance for 1913. We are prepared to take care of mares from a distance. Why not breed to the best? We claim for our horses and racks that they are the best bred in America, and we believe people who spend their money for breeding purposes are entitled to the best their money can buy. We do not claim for our stock more than they are entitled to and we know that breeders make a way when they breed to them. It may cost you a few dollars more but the result is worth many times the expenditure. Bred to the best stock available, and we know we have the best blood in Western Kentucky.

W. L. WHITNELL, Murray,
Kentucky
