# THE MURRAY LEDGER.

VOL. 35 NO. 1

MURRAY, KENTUCKY, THURSDAY, MAY 1, 1913

\$1.00 PER YEAR.

## CANDIDATES

### Number of Petitioners Necessary to Secure in Each Districts and County to Get on Ballot.

The Ledger has secured a certified copy of the last general election returns from Clerk F. A. Well in order that the candidates of the county and different magisterial districts might be informed regarding the number of signers necessary to secure on their nomination petitions in order that their names might appear on the ballot. It is necessary that each candidate secure not less than 3 per cent of the total vote cast in his district if a candidate for district office and not more than ten per cent, and the same percentage of the total vote of the county if a candidate for county office. Nomination petitions may be circulated commencing Monday 5th and must be completed and filed with the county clerk not later than 30 days before the election. The candidates should carefully study their petitions and be positive that the law is complied with before the time limit expires. The Ledger can furnish these petitions that meet every requirement of the law. The vote as certified by Clerk F. A. Well for the democratic and republican parties as cast at the last election is as follows, and the percentage can be easily calculated:

Murray Magisterial District, Democrat 704, Republican 191.  
Concord Magisterial District, Dem. 255, Rep. 108.  
Liberty Magisterial District, Dem. 133, Rep. 69.  
Brinkley Magisterial District, Dem. 160, Rep. 52.  
Swann Magisterial District, Dem. 407, Rep. 49.  
Wadesboro Magisterial District, Dem. 252, Rep. 87.  
Hazel Magisterial District, Dem. 409, Rep. 73.  
Total, county at large, Democrats 2280, Republicans 629.

### For The Weak and Nervous.

Tired out, weak, nervous men and women would feel ambitious, energetic, full of life and would always have a good appetite, if they would do the sensible thing for health, take Electric Bitters. Nothing better for the stomach, liver or kidneys. Thousands say they owe their lives to this wonderful home remedy. Mrs. O. Rhineault, of Vestal Center, N. Y., says: "I regard Electric Bitters as one of the greatest of gifts. I can never forget what it has done for me." Get a bottle yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by Dale & Stubblefield.

## CURB NOISE MANIAC

### Writer in Motor Car Journal Would Make Unlawful Needless Blowing of Auto Horns.

New York, April 27.—A writer in the May issue of "Motor" magazine, says a little thought in the framing of the automobile laws has been given to the reduction of noise and prevention of accidents through the proper regulation of automobile work.

In this issue the writer from a state of mind, says that the noise of the automobile is a great nuisance to the community. He says that the noise of the automobile is a great nuisance to the community. He says that the noise of the automobile is a great nuisance to the community.

necessary noise with their signals are of the same type as the joy rider; and like him ought to be suppressed at every opportunity without the great majority of law abiding automobilists being made to suffer for their sins. In the past two years there has been an active campaign in progress to regulate the use of automobile warning signals; to legally demand the use of adequate signals and to restrict the use of such signals except as warnings of danger.

The failure of motorists to use signals in their true function gives a wrong impression to the non-motorist public which is largely in the majority. Motorists should learn the results of misusing their warning signals. It is equally necessary that the non-motorists should understand that the misuse of a warning signal in no way detracts from the general benefit of such a signal when it is properly used. Once this fact is understood many of the disturbing conditions that constantly operate to create antagonism between motorist and non motorist would be removed.

"From time to time the question is raised, 'can automobile drivers be taught to use their signals properly?' Most drivers do this very thing. The trouble is the deliberate noise maker makes so much noise he gives the impression that a far greater number of persons misuse their signals than are guilty of the offense. The remedy lies in the vigorous punishment of the noise maker of unnecessary noise as a disturber of the peace."

### Best Medicine For Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by Dale & Stubblefield.

### A Correction.

It was not the purpose of the Ledger in the last issue to leave the impression that the dynamite explosion that occurred here in Murray the past week occurred in the rear of Miller's drug store but that the explosion was discharged in the alley at the rear of the building occupied by Mr. Miller. The Ledger also desires to correct the publication made by the Paris Parian and state that it was not in any manner an attempt upon this property.

### Tobacco Factory burned.

The tobacco factory of Brandon Bros., of Hazel, was destroyed by fire Tuesday night of this week at about 11:30 o'clock together with a large amount of tobacco. The origin of the fire is not known but is supposed to have come from the boiler room. The building and contents were insured.

In the whole field of medicine there is not a more timely remedy than will popularize to the masses the knowledge of the value of Dr. King's New Discovery. It is a home doctor. Price 50c and \$1.00. Guaranteed by Dale & Stubblefield.

## CITY SCHOOLS

### Close This Week After Most Successful Year—Entertainment And Closing Exercises.

Another scholastic year has been completed and a class of ten splendid young ladies and gentlemen will receive tomorrow night at the hands of their principal a sheep skin as evidence of their fitness to enter upon the larger and sterner duties of citizenship.

The term just closed has been one of the most successful with in the history of the school, and the closing week has been crowned with hard labor intermingled with those nice little touches that make the school days the happiest of all days.

On Monday night of the week was a banquet of five courses tendered the seniors by the juniors at the home of O. J. Jenkins.

spirit the social life of the school, realizing "that all work and no play makes Jack a dull boy."

The Junior Banquet was a success in every way, showing that they can make a success of anything they undertake, as it would have been a credit to much older and more experienced heads.

Rev. Calvin Thompson, of Hopkinsville, arrived Thursday morning to deliver the sermon to the class at the Baptist church. Rev. Thompson is one of the ablest divines in Western Kentucky and a crowded house greeted him in his sermon to the class.

The principle exercises will take place Friday night in the chapel of the school building and the program for the exercises is as follows:

High School chorus: (a) May March, (b) The Foreman, (c) Archbold, (d) Wagon, (e) Invention, (f) Rev. Pickens, (g) Charge of the Uhlans.

for the place next year. The entire teaching force elected was and no play makes Jack a dull boy. Miss F. E. McReynolds, principal; Miss Rubie Wear and Jas. Jones, assistants; C. H. Jagers, Misses Cattie Brade, Lula Holland, Tommie Kirkland, Roddie Moore, Verna Robertson, Maggie Houston and Wadie Miller.

An election of great importance to the success of the school is to be held Saturday of this week, when two trustees are to be chosen to succeed Mr. Nat Ryan and Mr. E. S. Dinguid, whose terms expire this year. These gentlemen have served the school in a capable manner and their successors should be chosen with an idea of maintaining the same high standard of service.

Endeavor is being made by the ladies of the city, who will be permitted to vote in this election, to induce Mrs. Jas. H. Coleman to accept a place on the board. The Ledger is glad to endorse such a move and earnestly hopes that Mrs. Coleman will consent to accept the place.

## CORNER STONE

### Of New Court House Building Will be Laid Under Auspices of Murray Masonic Lodge

Preparations for the laying of the corner stone of the new court house are now about perfected, and then services will be conducted by the Murray Masonic Lodge, assisted by the grand Master of the state, Hon. Joseph H. Ewalt, of Paris, Ky. The date for the services has been fixed for May 7th, at 1 o'clock and a large crowd is expected to attend.

This event will be the first occasion of its character ever observed in the county. Old citizens who were here at the time Calloway's first court house was built state that no such services were observed, and under all the conditions every citizen of the county should so arrange his affairs as to attend this service. A splendid program of speakers, music, etc., has been arranged for the day.

### Wonderful Skin Salve.

Eucklen's Arnica Salve is known everywhere as the best remedy for all diseases of the skin, and also for burns, bruises and boils. Reduces inflammation and is soothing and healing. J. J. Sossaman, publisher of News, Cornelia, N. C., writes that the salve helped his serious skin ailment after other remedies failed. Only 25c. Recommended by Dale & Stubblefield.

### Large Crowd Attended.

One of the largest crowds ever gathered in the city upon a similar occasion was here Wednesday to attend the lot sale of the McElrath Heights addition to the city. This beautiful property was subdivided into large residence lots and the large crowd evidenced their faith in the future of Murray by purchasing the property as rapidly as it was offered. The crowd attending was estimated from 3,500 to 4,000 people.

The Almo band furnished music and a splendid lunch was spread at about 1 o'clock by the promoters, Messrs. Sharpe & Payne. Mr. Sam Holcomb drew the free lot.

### Most Prompt and Effectual Cure For Bad Colds.

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by Dale & Stubblefield.

### Lecture on Sanitation.

Dr. E. H. Marks, of Bowling Green, Ky., state sanitary engineer, will deliver a free lecture in Murray at the opera house on Monday night, May 5, to which the entire public is invited. Dr. Marks comes to Murray in the interest of the public health, and under the auspices of the state board of health and should be heard by every citizen of the town. While here he will also construct a number of sanitary tanks and will endeavor to teach our people how to protect themselves and their families from disease and its consequences. Sold by Dale & Stubblefield.

## 1913 GRADUATING CLASS MURRAY HIGH SCHOOL 1913

nings, on Price street, Wednesday night.

The receiving line was composed of the entire junior class, fifteen strong, headed by Hal Jennings, President, and Corrine Stodd, Secretary. The library was beautifully decorated in purple and old gold, the junior colors. Festoons of crepe paper in these colors, and cut flowers consisting of large bowls of violets, and the mantle and piano massed in purple drapery. The dining room was decorated in old gold and white, with large cut glass vases of white carnations. A beautiful arrangement of music was played by the orchestra.

to accept the place. She is a college graduate, a closely identified with the school improvement league of the city, an active, eager enthusiast regarding improved educational facilities, possessing a rare ability and would bring to the board a wealth of knowledge. Her selection would be an advanced idea in school improvement and her co-workers should demand that she accept the place.

When the lady takes too much of the foot stool turn, the result is indigestion, sourness and gas. Only two changes were made in the teaching force for the next year. Prof. G. F. Jones, of Hopkinsville, Ky., was selected to succeed Mr. Thompson in the position of principal. Mr. Jones is a capable and experienced educator and his selection is a credit to the school board.

## NOW, WOULDN'T YOU DO THE SAME?

## 100 OR 120 MINERS DIE IN EXPLOSION

MINE NEAR PITTSBURG WRECKED  
AND IN FLAMES.  
70 BODIES ARE RECOVERED

Rescued Men Can Give No Details and Say Mine Is Filled With Dead—Explosion Occurred 3,000 Feet From Mouth of Mine.

Pittsburg—The lives of 100 miners, possibly 120, paid the toll of a disastrous explosion in the Cincinnati mine of the Monongahela River Consolidated Coal and Coke company at Finleyville, Pa. Over three score of workmen, in the mine made thrilling escapes, crawling most of the time on their hands and knees through deadly gas fumes and over debris.

Up to 11 o'clock seventy bodies of victims had been recovered. The bodies were located by rescuing squads of the United States Bureau of Mines, the Monongahela River Consolidated Coal and Coke company and of the Pittsburgh Coal company.

As the rescuers found bodies they were carried to the entries. None of the bodies, however, was brought to the open.

Rescue work is hampered by after-damp. Fire which followed the explosion has been completely subdued, it was said.

The coal company maintains a rescue corps patterned after the mine force of the United States government. Aid from the federal mining experts, it is said, was declined by the coal company.

Only a few of the miners who reached the surface could talk. Suffering from burns or frozen, the miners could give only a few words of information.

A large number of men were either killed by explosion or asphyxiated by the "after-damp."

Several hours after the explosion seven foreign miners crawled from one of the entrances of the mine. All were seriously burned. They could give no connected account of conditions in the mine. They all said the mine is full of dead people.

**FIREMEN GRANTED INCREASE**  
Arbitration Board Gives Decision Under Erdman Act.

New York—Eastern railroad firemen are granted an increase of 10 per cent, estimated at from 10 to 15 per cent, by the award of the Erdman act arbitration board in their case. Other claims of the firemen are allowed, but the decision for two firemen on large locomotives is denied, except in case of locomotives.

Another request for which the firemen fought, namely, the standardization of wages, based on the weight of locomotives, was granted, although the award provides that all wages that were higher of conditions that were better than fixed in the award shall not be interfered with. This provision affects a number of railroads. The firemen were also relieved of the duty of cleaning engines.

**Women Died Naturally.**  
St. Louis, Aug. 10.—Autopsies on the bodies of Mrs. Ernestine Kommech and her daughter, Selma, which were found in a room in the basement of the firemen's hall, revealed post-mortem physicians that both women died of natural causes.

**Social Trust Formed.**  
Washington.—A social trust was formed by the ladies of the guild and Mrs. Marshall, wife of the vice president, by which a joint cabinet reception will be held every Wednesday, instead of the individual receptions which have hitherto prevailed.

**Snow in Panhandle.**  
Oklahoma City, Okla., Aug. 10.—The worst snow storm of the season is prevailing in the Panhandle of Texas and Oklahoma, following a rain averaging approximately two inches.

**Attorneys Against Aliens.**  
Phoenix, Ariz.—The judiciary committee of the assembly was instructed to draft amendments to Arizona's alien ownership law, enacted last year, and a situation similar to that in California is forecasted.

## NEW LEVEE BREAK FLOODS RICH AREA

BIG CREVASSE IN MAIN LINE NEAR  
MAYERSVILLE, MISS.

### TOWNS IN THE FLOOD'S PATH

Through Traffic to Vicksburg Will Probably Be Annulled—Estimates That 11,000 People Will Be Made Homeless.

Greenville, Miss.—The main levee on the Mississippi side of the river broke on Woodland plantation, owned by Mrs. J. W. Boyd, about four miles above Mayersville, the county seat of Issaquena county, which is about 52 miles south of Greenville. The break occurred in an old sandy loam levee, but one that had given very little trouble so far during the present high water, and had not been considered dangerous.

The water from the break will flood practically all of Issaquena county as a considerable portion of Sharkey. The water will fill Steele's Bayou and back into Lake Washington through Lake Lafayette, while Swan Lake will be filled to overflowing and the lowlands about Lake Washington will be flooded.

The high banks of Lake Washington are expected to check the back water that will extend northward, and prevent inundation north of the lake. The west bank of Deer creek may turn the flow of the water to the south into the Yazoo river and back into the Mississippi at Vicksburg, however.

If the water crosses Deer creek at Rolling Fork, the southern portion of Sharkey county will be inundated, and the flood waters may back up on the corner of Hinds county.

The water will travel east about 12 miles before striking the Yazoo and Mississippi Valley railroad track, which in all probability will cause the annulment of through traffic to Vicksburg within a day or two. Among the towns in the path of the water are Kitta Yuma, Grace, Duncansville, Bateshead, Toth, Rolling Fork, Ben's Landing, Tallulah, Shiloh, Magna Vista, Kelso, Brunswick, Eagle's Bend, Flowers and Peeders.

The backwater from the Mississippi into the Yazoo had already overflowed the tracks of the Yazoo and Mississippi Valley railroad to a point north of Kelen, the water being up to the first step of the coaches when the train plowed through the water. The positions of Sharkey, Issaquena and Warren counties near the mouth of the Yazoo river were already overflowed from the backwater, and the water from the break will only add to the depth of the flood. This break will lower the flood line in the Mississippi for 30 or 40 miles above the break and will probably have the effect of neutralizing the rise due on the gauge at Greenville and hold the stage about stationary here.

The Mississippi river in the vicinity of the crevasse is higher than ever before, and a conservative estimate is that between 11,000 and 12,000 people will be made homeless as a result of the break. The property loss will total several hundred thousand dollars.

**BRYAN TO SETTLE JAP ROW**  
Secretary of State Will Help Draft Alien Land Bill.

Washington.—After an hour's conference at the White House, President Wilson directed Secretary of State Bryan to proceed at once to Sacramento to cooperate with Gov. Johnson and the members of the California legislature in framing a law regarding the ownership of land by aliens that would not conflict with the treaty obligations of the United States, particularly with Japan.

"I am going in the hope that we may be able to find the best solution of the difficulty," said Secretary Bryan. "I feel sure that they in California will enter upon the work with the same spirit of cooperation as the president and I do. I am hopeful, indeed, that we may be able to arrive at the wisest solution."

**Japanese Appeared.**  
Tokyo.—The announcement that President Woodrow Wilson and Secretary of State Bryan are making efforts to bring about a compromise in the proposed California legislation with respect to the alien land ownership bill, and that Gov. Hiram Johnson is opposing the bill, has softened Japanese feelings, and public opinion has now become more optimistic.

**French Aviator Killed.**  
Paris.—Another officer of the French military aviation corps, Lieut. De Blomont, was killed at the flying ground at Villacoublay, just outside Paris. His monoplane turned turtle and he fell about 350 feet.

**Women's Club Meet.**  
Washington.—With more than 500 delegates from all sections of the country in attendance, the midwinter council of the General Federation of Women's Clubs convened here.

**Allies Accept Terms.**  
Athens, Greece.—The reply of the Balkan allies was presented to the European powers. It is a general acceptance of the offer of mediation between Turkey and the allies.

**Upton Similar Weds Mississippi.**  
Fredericksburg, Va.—Upton Sinclair, the writer, and Miss Mary Gray Kimbrough, daughter of Judge and Mrs. A. McC. Kimbrough, of Greenwood, were married here.

**Men Is Indignant.**  
Boston.—President Mellen of the New York, New Haven and Hartford railroad, in a statement given out here, attacked the attitude of the accountants of the interstate commerce commission.

**Want Higher Wages.**  
Seattle.—The Commercial Telegraph Union of America called a strike of the wireless operators on the Pacific coast for an increase of wages.

**Assistant to McReynolds.**  
Washington.—Samuel J. Graham of Pittsburgh has been selected for an assistant attorney general to fill the vacancy created by the resignation of William H. Lewis. The Boston negro appointed by former President Taft.

**Attends to McReynolds.**  
Boston.—President Mellen of the New York, New Haven and Hartford railroad, in a statement given out here, attacked the attitude of the accountants of the interstate commerce commission.

### VIOLENCE WAS OFTEN USED

Illinois Senator Tells Head of Springfield, Ill., Textile Co. That He Disgraces to State and Company Should Be Driven Out.

Springfield, Ill.—After a session of the senate "white slave" commission, Senator Wilson sent a telegram to President Wilson and another to President Wilson and another to President Wilson, calling their attention to the disclosures made here. The telegram to President Wilson read:

"At a hearing of the Illinois senate vice commission here, it appeared that the conditions surrounding the employment of girls at the Springfield factory of the International Shoe company are apparently the most open to criticism of any so far discovered by this commission. The revelations were so astounding that Senator Neils Juhl, a Republican, and the dean of our state senate, openly and bitterly denounced this corporation."

"As I have been informed that this corporation is supporting a lobby at Washington in opposition to your proposed tariff laws on the grounds that certain duties are removed the girl workers in their factories will be brought into competition with the cheap labor of Europe, I believe your attention should be called to the testimony given here."

—Lieut. Gov. O'Hara's telegram to the lieutenant-governor of Missouri was as follows:

"At a meeting of the Illinois senate vice commission, it developed that the girls employed in a Springfield factory of the International Shoe Company are the victims of the worst industrial conditions that have yet come before this commission. Mr. Derby, the superintendent of the Springfield factory, stated under oath that the International Shoe Company is a \$25,000,000 corporation and that its executive offices are residents of Missouri."

The Parisian, of Paris, Tenn., says a Murray banker bought two mules in that city a few days ago, paying \$25 for one and \$6 for "tother." This amount would not buy two hides in Trigg county. Cadiz Record.

It appears to the Ledger that the Record and the Parisian have had sufficient evidence at Col. S. H. Dees, and we are reliably informed that the Colonel is filled to the overflowing. Who said \$24 plus \$4 would buy two mule hides in Trigg? Dang it. Col. Dees wasn't even trying to buy hides. Now, you yaps close your cavities.

### A Card to Voters.

To the Voters of Callaway county:—The following are some of the reasons why I ask you to support me in my race for County Judge:

First: Because I am in favor of good roads, and so far as the duties of the office will permit I will personally inspect our roads in order that I may at all times understand the needs of the people in all sections of the county.

Second: Because I believe all sections of our county should show equally in the distribution of road funds. Equal rights to all and exclusive privileges to none.

Third: Because I am opposed to graft, and I stand for the vigorous prosecution of grafters and all persons who may be guilty of taking the people's money without rendering value received for it.

Fourth: Because I am not connected with any slate ring, clique or machine, and I will not wear their collar if I am your county judge. I will not look up to the rich nor down upon the poor. I will have no pets to favor, no enemies to punish.

Fifth: Because I believe our county affairs should be conducted upon patriotic business principles, and not by political machine methods.

Sixth: Because I will establish a systematic plan of book-keeping at the court house, so our county finances will show the daily amount to the credit of each fund for which taxes are levied.

Seventh: Because from my early youth I have had to make my own way in life, and I know

Mr. Candidate Be Positive That Your Nominating Petition is Legal

The Ledger has printed for sale nominating petitions that are in legal form. They are printed on good paper with a heavy binding and are executed as the law directs. The petitions for county offices contain sixteen sheets, one for each voting precinct; those for district offices contain two for each district and those for the city of Murray contain two sheets each. Our petitions meet the requirements of the law and every candidate can not be too particular about his petition. It may mean that your name will fail to appear on the ballot by reason of a petition that fails to meet these requirements. These petitions will be on display at the Ledger office.

## Rheumatism Neuralgia Sprains

MISS C. J. HARRISON, of the City of Murray, Tenn., writes: "I have suffered from rheumatism and neuralgia for many years, and have tried many remedies, but have not found relief until I used Sloan's Liniment. It has cured me of all my troubles, and I can now move about freely and without pain."

"Sloan's Liniment" is a good liniment. I keep it on hand all the time. My daughter applied it for a cold and used your liniment, and it has not hurt her since.

SLOAN'S LINIMENT

"Is a good liniment. I keep it on hand all the time. My daughter applied it for a cold and used your liniment, and it has not hurt her since."

Price 25c, 50c, \$1.00

Sloan's Liniment is a good liniment. I keep it on hand all the time. My daughter applied it for a cold and used your liniment, and it has not hurt her since.

Dr. Earl S. Sloan, Boston, Mass.

The value of a dollar. I believe this experience will assist me in administering the affairs of the county with care and economy.

Eighth: Because I have had practical experience in every line of duty which the county judge has to perform. I have built highways, and have studied their construction. Have had twelve years of practical experience in all the various branches of the law.

Ninth: Because I am in the prime of life's usefulness and activity. I am in my forty-ninth year of age; old enough to be level headed and sound in judgment, and young enough to be ambitious and progressive.

Tenth: I have no mind to shut at any of my opponents, but if personal qualifications and the principles for which I stand meet with your approval, I will greatly appreciate your support.

Thos. M. Jones.

How's This.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

We, the undersigned, have known F. J. Cheney for 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

NATIONAL BANKING CONFERENCE, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system.

Sent for testimonials free. Sold by all druggists. Take Hall's family pills for constipation.

You can find a large line of hats to select from in Panamas and Milans and Brains, and must select line of trimming.

Mrs. Sale, over Miller's drug store.

Leave your laundry at H. H. Schroeder's.

## Hymon News.

Farmers are busy plowing for corn since the water has got back. Will Ward and his neighbors put up a barn last Saturday, and while the ladies were quilting he gave the young people a party that night which was enjoyed by all.

Pearl Dodson has returned home from Tennessee where she has been visiting her brother.

A large crowd at the church at Highgate Grove last Sunday. Brother Henry occupied the pulpit.

The McCuiston and wife and daughter visited at Walter Buys' last Sunday.

R. D. Williams, of near Hymon, has sold his farm. He is considering going west next fall.

Ruby Buys has returned home from Flatwoods after a visit of about three weeks to relatives and friends.

Russ McCuiston has moved in to his new home, recently completed.

Candidates are keeping the road hot in this vicinity.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular; he is never well when they are constipated.

For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite, strengthen the digestion. They are sold by Dale & Strubbe.

Burnett Washam Stock.

This well known stock will make the season at my place 1 mile north of Shiloh and 1 mile south of Sage Hill school house, on Murray and Aurora road. The horse at \$8 and the jack at \$7.50. This stock is too well known to need comment and show as fine colts as any in the county. J. F. Seaford.

The Lynn Grove Mill will sell you high grade chemicals for making soap and fertilizers, all at 10c per pound. Ready prepared high grade fertilizer for corn and tobacco. Can save you some money on both.

Panamas and Milans cleaned like new at M. Sale's.

# Telling Character by One's Handwriting

By R. G. LAIRD

Notwithstanding the millions of typewriting machines marketed in recent years, and various other appliances invented and in use, all with the idea of avoiding or reducing the labor incident to handwriting, there never was a time when more real interest was evinced in good penmanship than the present time.

School men are convinced that a great weakness in the public schools of this country is the lack of thoroughness of instruction in English. Enough is not accomplished when the pupil has become able to criticize the language of others and to know when he himself is in error, but special effort is being given to instruct him in expressing his thoughts, ideas and impressions, completely and correctly, and in living words that best suit the purpose.

In spoken language the tone, gesture and facial expressions are important adjuncts to the uttered words. Well-formed sentences delivered in a halting, slovenly manner, lose much of their desired effect. How much more important, then, it is when voice and gesture cannot be added to words, that their purpose be not hindered by untidy and illegible script forms. When a mind is busily engaged in trying to decipher a scrawl, that mind is in no condition to receive the complete meaning intended to be conveyed by the writer.

In the usual run of circumstances there are two parties to a piece of written paper, and each is entitled to a certain amount of consideration. If the writer has no regard for the opinion or convenience of the reader he may show it in his slovenly, tangled-up handwriting, while, in proportion to the opinion he desires to create, will he use care in the penmanship. Most cases of "handwriting horrible," such as is popularly believed to be a resultant of ultra mental development on the part of lawyers and other notoriously hard workers, are really a selfish disregard of the rights and comforts of readers.

The extensive use of the writing machine has narrowed the field of the pen. Nearly all business correspondence and much of the other kinds is done by the aid of the typewriter, but there is a vast amount of work that probably always will be pen-written. The typewriter has accustomed people to absolute legibility and to economy of space. As a consequence, in offices the space allowed for writing has been reduced by having closer rulings, and there is little or no courtesy shown the illegible penman.

Bad penmanship may be blamed for a considerable portion of the annual loss of millions through forgeries and check raising. A check so badly written that no letter is decipherable, unless it lean for support upon its neighbor, invites the low cunning of the check raiser, while a signature made up of a lot of meaningless strokes, or one written in a cramped style, is a delight to the forger. A strong, clear, well-formed handwriting cannot be successfully imitated, because it expresses the pronounced individuality of the writer through the complete writing machinery from the tips of the fingers to the broad muscles of the shoulders. The forger may simulate as far as form of writing goes, and he may even imitate a cramped and crabbed movement, but when he undertakes to reproduce the writing of a person who has been well trained in the "muscular" or arm movement, method of penmanship, the task is too great, for, under the powerful microscope, the difference of nervous temperament expresses itself with distinctness.

# Madagascar Fable of Truth and Deceit

By J. Roder Jacobsen, Minneapolis, Minn.

Published by a missionary of the Norwegian Missionary society of Norway in the official publication of that body.

A boy named Retey stumbled one day over a human skull.

"Poor skull," he said, "what hast thou done that thou shouldst thus lie in the mud? Hast thou murdered or thieved?"

"I have neither murdered nor thieved," answered the skull.

"Why art thou here, then?" queried Retey.

"I await the company of another skull," replied the skull.

Retey was amazed at seeing a skull that could speak, so he ran into the village and told everybody. Naturally everybody became curious, and they all went out to see this remarkable skull.

"Now, you go ahead and talk to the skull," the elders of the village commanded Retey.

Retey, poor fellow, did the best he could and asked question upon question, but the skull was as silent as a dead skull could be. Whereupon the inhabitants of the village became enraged at Retey for making fools of them.

"Of course we all know that a dead skull can't talk," they said, so they killed Retey and threw his skull on the ground, saying: "Now, let us see if you can talk."

But no sooner had Retey's skull touched the ground than the first skull spoke out: "That's what I told Retey; that I was awaiting the company of another skull, and here it is."

Then the villagers all lamented the sad fate of Retey, for had he not told the truth about the skull he would still have been alive. Thus ends the fable.

There is much darkness still in the world.

# Bostonian Would Turn Prisons Into Colleges

By W. L. MOORE, Boston, Mass.

There is a man in Boston who, if he had his way, would free 30 per cent. of the convicts now in the Massachusetts prison and turn the prison into a college.

This man has very peculiar ideas about prisons. He says that prisons are cruel, brutal, unenlightened, vindictive, stupid and spacial.

His idea is to turn each prison in the country into a college, name it, model it in part on outside colleges, give a diploma for good work, but blend practical productive labor and industry with the studies. He says give to the prisoners what society ought to have given them before they committed crimes.

He thinks that these prison colleges would soon become models for our literary colleges, whose crucial blunders is that they do not require every student, rich and poor, to do some productive work toward earning his own living throughout the course as part of his education.

His accomplished idea, the Bostonian would be a great asset for the uplift of those who need help. A prison college could be paid for a small craft, so that he would be able to support himself after prison graduation. With such a system prison gates, bars and walls, except for a very few, would be needless, for the inmates could be trusted. Such prisons would build up better characters than are produced by our social institutions.

# WHAT CONGRESS IS DOING

PRESIDENT IS ATTACKED.

He Would Settle in Eight Minutes the Problems of Centuries.

Washington. Republicanism was described as "dead, damned and lost forever." Democracy was accused of rushing to "clean its feet in the progressive party doormat," and the Progressive party was characterized as a "branch shoot from the dead Republican trunk" in the three-cornered tariff debate in the house.

Representatives Hamilton and Fordney of Michigan took up the cudgels for the Republican minority, the latter bitterly assailing the sugar schedule and the free listing of lumber and wool as ruinous to American industry. Representative Hamilton ridiculed the Democrats and criticized the president.

"With a cocksureness of a man accustomed to instruct the immature mind of youth," he said, "the president in his address to congress undertook to settle in eight minutes problems that have vexed the minds of statesmen for more than a hundred years."

Representatives Hinebaugh of Illinois and Hulings of Pennsylvania attacked the Underwood bill on behalf of the Progressive party. Representative Hulings declared the bill would not curb monopoly nor reduce the cost of living, though he hoped it would. He predicted that if President Wilson could convince the public that the Democratic tariff was right, "the Democratic party will remain in power for the next twenty years."

Mr. Hinebaugh charged that the pending bill was a "compromise between the power of special privilege and the power of political patronage," and he accused the Democrats and Republicans of falling over themselves in an attempt to clean their feet on the Progressive party doormat.

Representatives Munnell of Minnesota and Peters of Massachusetts defended the bill on behalf of the Democratic party. Mr. Munnell declared that the bill was an honest effort to lighten the burden of the people and that it stripped the tariff of its discriminatory and privileged character.

Now Democrats among them Representatives Aswell of Louisiana, Quinn of Mississippi and Barkley of Kentucky, expressed loyalty to their party and the bill, and decried the Progressives for creating division in the Democratic party.

Mr. Barkley declared that their party had been "damned and lost forever." The debate was kept up until late in the evening, when the house adjourned for the Republicans to hold a scheduled caucus.

TARIFF COMPETITIVE.

Murdock, in Minority Report, Urges Revision With Effectiveness.

Washington. A tariff commission with neither Democratic nor Republican bias, urged reasonable reduction of any duty obviously excessive was advocated and radical reductions not founded on adequate information were opposed, in a minority report presented to the house by Representative Victor Murdock of Kansas, Progressive member of the ways and means committee. Mr. Murdock, in his report, asserted that there had been wanting proof of the necessity of a tariff commission, the pending Democratic tariff bill alone would supply it. He charged that as a result of the methods used in its preparation, the few men who drafted it "are not warranted in feeling certain as to its effects, and most of those who have introduced it in congress are not competent to know of its provisions."

FRAMING CURRENCY BILL.

President Wilson Will Take an Active Part in Doing So.

Washington. Congress believes that President Wilson will frame the proposed currency revision legislation or have it prepared for him by some expert expert and then turn the bill over to the house and senate committees to pass it. This is the president's method, it is argued, with all legislation in which he is interested. He pursued this course while governor of New Jersey. He was instrumental in drawing important sections of the pending tariff bill after he came to the White House. His friends tell of his great interest in currency legislation, which he has said is of equal importance almost with tariff revision.

Fight on Rice Schedule.

Washington. In the Democratic caucus the last fight of the day was on rice. Representative Lazo of Louisiana offered an amendment to increase the proposed duty of 1 cent a pound to a cent and a half a pound. Representative Thompson of Oklahoma moved to place it on the free list. Both amendments were lost.

Wool Schedule Disposed Of.

Washington. The wool schedule was quickly disposed of by the caucus. An amendment by Representative Fordney of California to transfer paying blocks, railway ties and telegraph poles to the tariff schedule, and to exempt them from the duty on wool, was defeated by a vote of 100 to 80.

Primary Elections.

Washington. Primary elections for nomination of presidential and vice-presidential candidates was proposed in a bill by Senator Cummins.

# WILSON ON ALIEN LAND LAW.

California's Right to Legislate as She Chooses Recognized.

Washington. President Wilson and Secretary Bryan, following the precedent of previous administrations, have made known their views on the international character of the legislation now pending in California by which Japanese would be prevented from owning land in that state.

In a telegram to Gov. Johnson Secretary Bryan expressed the view of President Wilson that to California as a whole might be construed as a violation of treaty obligations with Japan, while the senate's measure as drawn would not be objectionable, if alien land legislation is to be enacted at all. In this the federal government recognizes the sovereign right of California to legislate according to her own judgment, but the message counseled caution.

The telegram and other information from official circles indicated clearly that the provisions in the assembly bill, by which aliens "ineligible to citizenship" would be prohibited from owning land were regarded here as a distinct discrimination against Japanese who at present are denied the right of naturalization. The language of the senate bill restricting ownership of land to citizens of the United States or aliens who have declared their intention of becoming citizens is approved by the president, as he has discovered that this is the plainest choice of the statutes already in force in New York, Delaware, Kansas, Minnesota, Kentucky, Washington, Missouri and the District of Columbia.

Incidentally, all these laws make it impossible for Japanese to own land under the same conditions as are given to citizens of the United States. By enacting a law similar to those in force in several states, California would not embarrass the federal government, because no protest hitherto has been made against the statutes and the whole problem becomes one of naturalization. It is not unlikely, however, that the Japanese government will not attempt to have the question of naturalization pressed to higher courts.

"SECRET HEARINGS" FLAYED.

Fight on Underwood Bill Opens in the Senate.

Washington. The Democratic tariff revision bill came in for its first attack in the Senate Thursday, and the skirmish outlined the scope and vigor of the fight that will be made against it by Republican political forces when the tariff discussion begins in the two houses. Backed by requests from many interests for hearings on certain sections of the Underwood bill, Republican senators made a demand upon members of the finance committee for hearings and openly attacked the "secret legislation" look going on in the Democratic caucus of house members. The attack was directed against the tariff schedule, which the Republicans who report to the senate think is clear that the finance committee does not plan to grant any public hearings. Senators Williams and Stone insisted full hearings had been given by the house committee before the bill was prepared, while Republican senators declared that those hearings had been of little value, because the rates of the Underwood bill were not then known.

INSURANCE CLAUSE.

Committee Holds It Means Participation in Surplus of Profits.

Washington. Relative to the insurance clause in the tariff bill, the ways and means committee contends an exhaustive investigation of looks of insurance companies shows that in many cases the surplus of profits, from previous investment and holdings are nearly as large as the amounts which are annually distributed as dividends, and that it does not appear that a regulation of surplus of income is made for the purpose of ascertaining the rights available for dividends. The committee insists that a policyholder is not promised a refund, but a participating in the surplus of profits, and the plea that the dividend is a refund of a portion of the premium, rather than a distribution of the actual surplus of the company derived from all sources, is not consistent. Upon that basis it is held the insurance companies are in a position to declare dividends which will conform to the commercial definition of dividends.

Tennessee Ratification In.

Washington. Formal notice of the ratification by the Tennessee legislature of the constitutional amendment providing for the direct election of United States senators was received at the state department. Thirty-six states, the number necessary to make the amendment effective, have acted favorably, but thirteen of them have not complied with Secretary Bryan's request for immediate official notice.

Data Is Wanted.

Washington. The senate discussed the Overman resolution calling upon the Interstate Commerce Commission for data about the high rates of express companies without exchanging information with the civil service committee.

To Investigate Coal Strike.

Washington. A resolution for a committee of three senators to investigate conditions in the coal strike in the West Virginia district in West Virginia was introduced by Senator Kern.

# ODD SEA MAMMALS

U. S. Expedition Finds Last Reckery of Elephant Seals.

Huge Animals, Thought to Be Extinct, Are Found on Isolated Island of Guadalupe by Party Headed by Dr. C. H. Townsend.

New York. Naturalists all over the world are greatly interested just now in a beach some 400 yards long by 30 in width on the isolated island of Guadalupe. Here on this remote and uninhabited island, lying in the Pacific ocean, 140 miles off the northern part of the peninsula of Lower California, has been discovered the only rookery left and the last stronghold on the western continent of the northern elephant seal. This is the largest of all seals, long since thought to have disappeared, and likewise one of the most remarkable marine mammals existing today.

Aside from its great size, 16 feet and more, the chief feature of interest of these animals is centered in the strange appearance of the head, caused by elephant-like trunk or snout, measuring in the adult males nearly a foot or more in length. The rediscovery of this, the only herd of northern elephant seals living today, was made by Dr. Charles H. Townsend, who commanded an expedition on the United States Fisheries Steamship Albatross to Lower California to study the fishery resources and to obtain specimens of this region.

Being valuable for its oil, the elephant seal was killed in large numbers for commercial purposes until it was thought to be practically extinct. The oil is worth about 50 cents a gallon. A 16-foot elephant seal is said to yield from 200 to 250 gallons of oil. The colony of seals found by Dr. Townsend was scattered in family groups along the beach, and watched the landing party in their boats with apparent indifference. The herd consisted chiefly of large males, females, yearling and newborn pups. A number of adult females were surrounded by newly-born young, and the indications were that the breeding season was just commencing at this time of year, which was March, and therefore it was thought that other adult females would arrive later.

The seals had little fear of man, which afforded unusual opportunities for securing close-range photographs showing them in their various attitudes. Unless actually teased by the members of the party the old animals did not attempt to leave the beach.

The Eskimo men are rather skillful with tools, and the women do certain kinds of needlework expertly. The heavy garments of skin are remarkably well made and even the shoes of skin are fashioned much more neatly than one might expect. In winter very heavy furs are worn, and the head is covered with a large hood. The men have devised various rough, but highly efficient tools and use them deftly to make boats, sleds and wear.

Although the Eskimo are indescribably filthy and inclined to take advantage in some ways, they are almost invariably good natured and fond of a joke. They are intelligent, quick to learn from people and enjoy the games of civilization. They are not at all belligerent and avoid a quarrel if they can.

A CHALLENGE TO GERMANY

Delcasse's Appointment to St. Petersburg and Big Increase in French Army Taken as Defiance.

London. In the present critical situation in European politics, France, Germany, England and Russia are all watching each other to see which takes the first step. A British diplomat, discussing the elements imported to the situation by the accession of Poincare to the French presidency, said:

"It is admitted by all who are acquainted with the currents of diplomacy in Europe that the coming of Poincare has put more electricity into the Franco-German situation than there has been in many years. The appointment of Delcasse, who has an avowed partisan policy, as ambassador to St. Petersburg, and the increasing of France's army constitute nothing less than a direct challenge to Germany. The answer to which has not yet been given and which, when it comes, may stagger the world with its suddenness."

That Germany, which insisted on the dismissal of Delcasse from the cabinet in 1905 as a result of the Moroccan imbroglio, giving the French the alternative of war, should now eat humble pie in the face of this open defiance from the head of the republic is at the present moment, the diplomatist said, "a matter of undisputed amazement to all the chancelleries of the world. Indeed, never within the last ten years, not even in the Moroccan crisis, has a Franco-German war been nearer."

# ESKIMO IS MORE CIVILIZED

Coming of the White Man Shows Revolution in Lives of Northern People.

Nome, Alaska. The coming of the white man is effecting a slow revolution in the lives of the Alaska eskimos, especially those who spend the warm months at Nome. These Eskimo, who live on a beach all summer, have already picked up many of the ways of civilization, eat some of the white man's food and wear some of his clothes. They are still very dirty, however, love blubber and all fat as well as ever and prefer fishing to any other variety of toil. They are literally children of the sea, which yields

them food, raiment, light and fuel. They are very skillful seal hunters and expert boatmen. The boats are made of skins stretched taut over a rigid frame and some of them are exceedingly difficult to manage.

The beach at Nome is wide and sandy and the Eskimo enjoy the time they spend there. Tents are pitched, but the shelter of the great houses turned on their sides is depended upon to a large extent. Cheap cooking utensils bought at the stores have replaced many of the crude dishes formerly used, and sometimes an old stove is seen in use.

**D**O WE EVER STOP TO CONSIDER the fact that the fault that we think is another's has been our own all the day long?

## WAYS OF USING CORN.

Green corn is usually preferable in most of these dishes, although the canned will give good results.

As a vegetable, corn is so often served with butter and milk, and the monotony grows tiresome. A salad, a soufflé, fritters and many number of combinations are good.

**Corn Soufflé.**—Mix a tablespoonful of butter and add to it a tablespoonful of sifted flour, stir until smooth, then add one by one three beaten eggs yolk and a cup of corn, fresh or canned, season with salt and pepper, then fold in the well beaten whites. Put into a buttered mold or into individual molds and bake in a hot oven twenty minutes. Serve in the tureen in which it is baked.

**Baked Tomatoes and Corn.**—Select small sized tomatoes of uniform size, scoop out the pulp from the stem end without peeling; turn upside down and drain. Mix a cup of corn with two eggs, a tablespoonful of butter and one of flour, creamed together; season with salt and pepper, fill with the mixture and bake in a moderate oven twenty minutes. Serve with a garnish of parsley.

**Corn Salad.**—This is best with freshly boiled corn cut from the cob. Use equal quantities of corn and freshly boiled rice; season and add sufficient mayonnaise. Serve in lettuce cups, very cold.

If one can get fresh clams, corn and clams make a most delightful combination. Chop half a green pepper and a slice of onion together, cook in a quarter of a cupful of butter until soft, add a quarter of a cupful of flour and stir until fluffy. Heat a pint of clams in their own juice, drain and chop. Measure the clams and add equal parts of fresh grated corn. Add three-quarters of a cup of the clam juice, after straining, to the butter and flour; add two beaten eggs and three tablespoonfuls of cream, and stir into the clam juice, but do not boil. Put some clam shells, put in the mixture and cover with buttered crumbs. Serve on a napkin on a hot platter. Garnish with parsley.

**A FEW CHANGES IN BREAD.**

The staff of life is bread, so a few variations of that staple may not come amiss.

**Whole Wheat Bread.**—Take a pint of whole wheat flour, a teaspoonful of soda and two of cream of tartar, a teaspoonful of salt and three-fourths of a pint of cold water. Stir the dry ingredients together, then add the water, stir well, then place in a well greased tin, cover with buttered paper and steam for one hour. Remove and bake in the oven, which gives it a crisp, nutty flavor.

**Southern Spoon Bread.**—Pour a cup of boiling water on half a cup of corn meal, stirring briskly to keep it from lumping; cook five minutes over the heat, add a tablespoonful of butter, half a teaspoonful of salt, then remove from the fire and add a half cup of milk, a well beaten egg, pour into a well buttered baking dish and bake in a moderate oven twenty minutes, letting it brown well before removing. Serve from the dish with a tablespoon.

**Fig Bread.**—When the bread dough is risen, take two cups of it and put into a bowl, add a half cup of butter, a pound of raisins, a cup of milk, a pound each of sugar and figs, mix spoonful of salt, spices to taste; mix all together and place in bread pan. The fruit is cut fine and mixed with flour, so that it is evenly distributed. About two cups of flour will be needed. Make into loaves and bake when well risen.

**Bray Bread.**—Take four cups of whole wheat flour, two cups of whole wheat flour, three-fourths of a cup of New Orleans molasses, a teaspoonful of

half a teaspoonful of soda, two cups of sweet milk, two tablespoonfuls of shortening, a few raisins, it is so direct, and bake one hour.

**Graham Bread.**—A cupful of flour, half a cupful of sugar, half a teaspoonful of salt, two cups of butter milk and two level teaspoonfuls of soda beat well and pour into a well buttered pan and bake one hour.

**Helpful Hints.**

Keep a piece of gum camphor in the silver chest; it will keep the silver bright.

When the hard wood floors get too impossible, buy a bunch of steel wool, a package of soap powder, and get to work with a pair of old gloves. Use the steel wool with a paper between it and the floor. Soak the wool with lots of soap powder, and then proceed with either wax or varnish. This is not an easy piece of work, but it will well repay one for the energy expended.

When cleaning hard wood floors, use a cloth dipped in oil, rather than water. A freshly painted floor can be kept looking like new if a kerosene-dampened cloth is used to wipe it.

A little paraffin used on the kitchen range and well rubbed in will keep it looking like new. Dry it and then proceed with either wax or varnish. This is not an easy piece of work, but it will well repay one for the energy expended.

One day after the painted walls of the kitchen had been well steamed from a boiler of water on the stove, we tried wiping the walls, and found that they cleaned very easily, henceforth we steam them, first and save much hard work in cleaning.

A fine way to clean paint brushes is to soak them in hot vinegar, then wash in hot soap suds. The brushes will then be soft and clean.

Mirrors are quickly and nicely cleaned by rubbing them with a cloth dampened with alcohol.

Save old pieces of outting flannel for floor cloths. Then wipe the dust and well and are soft to when wanted for scrubbing cloths.

Muriatic acid will dissolve lime in a week, but it will be wise to be sure that it is well boiled out with fresh water before using. This acid is also good to remove water stains in sink and porcelain bowls.

Before working in the garden, fill the nails with soap, then there will be no stained finger nails when the work is done.

**THE KITCHEN GARDEN.**

Of course, people who live in the country, or in small towns, where they have a generous space for a garden, will do many more things for their families thereby than they who have but a few square feet for the garden. Even people who live in closely settled cities, where there is nothing but an ash barrel or garbage can for a blossom like the rose. Fill a barrel with well rotted horse manure, and with well rotted radish and cucumber in it. If it has a warm, sunny place, you can grow your cucumbers on a rack, using care to wet the ground, not the plant, when watering, and soon you will be rewarded by a good crop of crisp and refreshing cucumbers.

If you have vines or tiles for plants in the grounds, too early for their rightful possessors, sow radish and lettuce seed in them. They will grow like weeds in the warm sun and be ready to vacate the place by the time you wish to put the plants out.

## COULDN'T EXPLAIN TERRIBLE ORDEAL

Through Which She Had to Go. Everyone Who Saw Her Thought She Had No Chance.

Carrollville, Ky.—In advice from the town, Mrs. Hattie Cain says: "For 15 years, I was a great sufferer from womanly trouble, and would have to need for a doctor about every three months, and sometimes often."

"I cannot explain to you how dreadfully I suffered at these times. I would have convulsions, and it seemed that I would die."

"The doctor said he thought I should have an operation, but I couldn't consent to that, so he said for me to try Cardak's woman's tonic, as maybe it would help me."

"I began taking Cardak, and Oh! Such a surprise it was to me! The first bottle I took, I knew it was the medicine for me, for I began to mend right away."

"After taking nine bottles, my condition was perfect."

"I have now been seven years since I was in such wretched health, and I can do more work, can walk and go where I please, and it doesn't hurt me."

"I owe all of this to Cardak. I have induced several of my neighbors to take it and it worked like a charm."

Give Cardak a trial for your troubles.

## He Knew Then.

On his eighty-fourth birthday Paul Smith, the veteran Adirondack hotel keeper, who started life as a guide and died owning a million dollars worth of forest land, was talking about boundary disputes with an old friend.

"Didn't you hear of a lawsuit over a place that I had with Jones down in Malone last summer?" asked Paul.

"The friend had not heard," said Paul. "It was this way. I set in the courtroom before the case opened with my witnesses around me. Jones bustled in, stopped, looked my witnesses over carefully, and said: 'Paul, are those your witnesses?' They are, said I. 'Then you win, said he. 'I've had them witnesses twice myself.'"

## Facts and News.

"President Wilson has a dry wit," said a newspaper correspondent. "In Trenton before the inauguration I was pestering him for cabinet news. Now, we all know that some irresponsible scribbler had sent out a report of my cabinet fakes. Well, it was aptitudes of this that President Wilson made a neat remark. 'Do tell me about the cabinet,' I persisted. 'The public is dying for the facts,' he said. 'Well, here they are,' he said. 'Well, nevertheless, I'm afraid it will have to be satisfied with the news.'"

## Polished Crown for Him.

A prominent lawyer, famous alike for his wit and his bald head, strolled into the barber shop and took his accustomed chair.

"I think I'll have a haircut, Joe," he remarked.

No, Alonzo, you cannot always tell a bull by her rings.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, and a bottle as a household remedy.

No man is born as free and equal as a hired girl.

What do you think of that labor theory?

It won't work.

Clumsy Enough.

"Stooging waltzes like a camel."

"I don't know how a camel waltzes, but judging from Stooging's movements out there on the floor, he would make a first class turkey trotter."

Such a Wise Widow.

"My husband," remarked Mrs. Wise, "brought me flowers every week for the first five years of our marriage. Don't you think that proved his love for me?"

"Undoubtedly," replied the widow.

"And he still does it," continued Mrs. Wise.

"Which," said the widow, sighing, "may prove that he still loves you."

"That he is afraid you will find out where he spends his evenings when he isn't at home!"

# FOR SEASON 1913

We Shall Offer For Public Service Five Magnificent and Grandly Bred Stallions and Three Champion Jacks.

1st. SPRAGUE PATCH by the worlds champion Dan Patch, 1:55. Dam Princess Beatrice by Billy Sprague, she is the dam of three with records better than 2:15. Sprague Patch is a splendid indiv dual, standing 16 hands high, weight 1100 lbs. He is a horse of fine disposition, his first crop of colts are coming yearlings this spring, and a finer lot has never been seen in this vicinity, as they are fine, individuals with a world of natural speed and are commanding prices as weanlings of \$150 to \$250.

2nd. ALGERIAN Trotter 2:19, trial 2:13 half mile track. By the Bondsman, the sire of Colorado E, the worlds champion three year old trotter 2:04. That Algerian is a race horse and a trotter of very high class is very evident and he is proving himself a sire of the highest class and after the season in the stud he and Sprague Patch will be placed in the hands of a competent trainer to give them very low records.

3rd. BRADEN GENTRY Sired by John R. Gentry 2:00, the former champion pacer and also a great sire. Braden Gentry is a beautiful dapple bay and one of the handsomest horses in the state. He is 16 hands with a wonderful burst of speed and it's no guess as he has already proven himself a great sire.

4th. MASON'S HAMLET A beautiful 5 gaited saddle stallion sired by Artist Joe, who was a great show horse. Mason's Hamlet is a beautiful black with great style and finish. That he is a sire of show horses has been proven as two of his get won at Mayfield fair in 1911.

5th. FAORITE COOK Trotting stallion, a son of the famous Capt. Cook. He is a beautiful Chestnut sorrel 15-3. He is a very handsome horse with a disposition that is unexcelled, he has proven himself a great sire as his colts are exceptional roadsters with great style and finish.

6th. NAPOLEON 743 Champion Jack of the state, he has never been defeated in the show ring winning first at Nashville, Tenn., state fair and at Louisville and he is a sire of blue ribbon winners, his weanling colts sell for \$100 to \$125. We have now at our barn a yearling by him that we have refused to take \$160 for.

7th. PARAGON, JR. The champion Jack at the tri-state fair at Memphis. He has proven himself a great sire as his colts sell for big prices as weanlings.

8th. CARMACK 2211 A 5 year old, sired by an imported jack. As good blood as there is in the United States. He is a very fine big black jack, it would be hard to find his equal anywhere as there is few like him and he has proven himself a great breeder as his colts have topped the market.

We wish to thank our friends and patrons for their liberal patronage for the season of 1912 and we cordially invite continuance for 1913. We are prepared to take care of mares from a distance. Why not breed to the best? We claim for our horses and jacks that they are the best bred in America, and we believe people who spend their money for breeding purposes are entitled to the best their money can buy. We do not claim for our stock more than they are entitled to and we know that breeders make money when they breed to them. It may cost you a few dollars more but the result is worth many times the expenditure. Breed to the best stock available, and we know we have the best blood in Western Kentucky.

**W. L. WHITNELL, Murray, Kentucky**

Formerly Lived Here.

Bellville, Ark., April 25. If Mr. O. J. Jennings will allow me a small space in his paper I will drop my old Kentucky friends and schoolmates a few lines from Arkansas. We live six miles from Danville, the county seat of this (Yell) county, and one half mile from Ranger, a small town which has one store, one church, one school house, one cotton gin and a mill. Danville has a population of 1,500, and has a thrifty progressive appearance and has one of the best schools in the state. Danville has electric lights, concrete walks, a city park, has good churches, two banks, two cotton gins, and the best drug store in this section of the state. It has a well arranged postoffice, several small factories, such as planing mills, canning factories, and roller mill. The principal crops of this state are cotton, kaffir corn, oats, wheat, all the

fruits, vegetables and trucks of all kinds can be raised here. This is a great fruit country. It is warm and pleasant here. Gardens are looking fine. We have corn up and worked, garden are looking fine. All of the Kentucky folks are getting along nicely. Papa has bought 218 acres of land. Papa said he guessed Tom Hurt was still voting the republican ticket. If Paducah, 000 253 Hopkinsville, 38 205 D. T. Foust and H. Crutchfield, Auditors.

# BREED to the BEST

DeWOODS 51527

Sired by Red Medium 2:23, sire of L. Maud 2:04, Len Medium 2:04, Aleyne 2:11, Esche M. 1, 2:12, Mediumore (3) 2:12, Medium Line 2:10, Freely Red 2:10, Moving 2:10, Red and Black 2:10, High Medium 2:10, Glendor 2:11, Floy Medium trial 2:09, A. J. Vassar trial 2:09, Novicia Red 2:09, Kingdel 2:08 and 42 others in the list making him the sire of speed of any living horse at 13 years of age. When we remember that Red Medium is such a young horse and never been situated so that he has had many good mares in his early work in the stud, all the more wonderful. He is a grandson of the great George and Happy Medium, both sons of the sire of harness speed Hambleton 10.

DAM: Miss Glendora Woods, dam of Glendor 2:11, DeWOODS, and half brother to Red Timoka 2:27, one of the greatest show stallions in the north. Miss Glendora Woods is by Alsymont, sire of William 2:051. She out of Timoka dam of Red Timoka 2:27, Nutwood 2:22 and grand dam of Glendor 2:11, by Nutwood 2:183. 3rd Dam Argentyle, by Cuyler 100. 4th Dam Tilla, by Norman 25. 5th Dam Verina, by Star Davis, Jr. 6th Dam Steel's Crusader. 7th Dam by Imp. Sapperton. 8th Dam Bertrand. 9th Dam by Cupbearer.

This combines one of the strongest blood lines ever seen in any trotter. Here you have Happy Medium, George Wilkes, Red Medium, Alsymont, Aleyne, Nutwood and Hambleton seven times. What could be better? and where could one find a greater bred one? DeWOODS is only four years old and one of the best formed horses that man ever looked upon; having good size, good action and good manners. He is a blood bay with black mane and tail, long rangy neck, good intelligent face and head, and one of the best set of legs that ever held up a horse. He won the blue ribbon in his class at the Henry County Fair, Paris, Tenn., and Calloway County Fair at Murray, Ky., and has never lost the blue.

Red Medium is also the sire of Dorsh Medium 2:06, and grandsire of the great mare, Cheeny. On account of his age, we will give him only a short season in the stud, but will be taken out and put on the track where he is expected to make a sensational race horse. While he is a trotting bred horse, yet he goes all the gaits making him very desirable for those who like a double gaited horse. This will likely be the last opportunity to get a colt from such a horse as this is a very low season. Fee \$20.00.

## TALMEGE

Sired by Braden Gentry 0996 A. T. R., son of the world's champion John R. Gentry 2:00, who held 10 worlds records at one time and winner of the worlds champion at Madison Square at New York for the best form horse.

Dam KATE BRADEN, dam of Hal Braden 2:04, Brown Braden 2:10, Flying Gentry (3) 2:20, Braden Gentry (3) 2:22, Hal Brown (2) 2:25, Braden Girl (dam of Nell Gentry 2:09). Kate Braden is the greatest brood mare ever bred in Tennessee, having produced more than any other mare. Dam Fancy Onward by Baricade by Onward 1411 by George Wilkes. Talmege is one of the best young stallions ever offered to the breeders of West Tennessee. He is a beautiful golden Chestnut with a black mane and tail and when developed will make a horse nearly 15-3 and weigh 1100 pounds. While he goes all the gaits with all the ease of a pure Kentucky 5 gaited saddle, his fast gait is a pace which he goes with all the ease of his most pronounced grand sire, and with a little training will be very fast. Bred in TALMEGE you will find all the great bloods of the very best race horses the world has ever known, and those desiring something extra good, and yet at a price within reach of all, can find this in Talmege. Fee \$40.00.

The above named horses will be in season, Ky., every Wednesday and remain over night.

## HAYDOCK BUGGIES
