ANDERSON & CO'S

Ready!

With the best stock of
SPRING CLOTHING,
FURNISHING,
& SHOES

We have ever gotten together. Why should it be the best? Every one ought to improve with experience. But outside of the natural improvement that every one ought to make we were especially fortunate in happening along at exactly the right time to secure some big advantages in closing out big lots of goods.

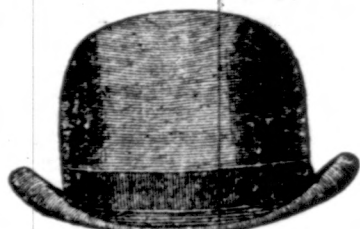

Take for example our purchase of 1,800 boy's knee pants suits at \$3.00 on the dollar—our purchase of three hundred men's fine hand made hats at half price—our purchase of 100 dozen Boy's line knee pants at 10c a pair—our purchase of men's pure silk boom shirts at 50c—our purchase of 300 pairs men's A1 \$2 shoes for \$1.00—our purchase of Knox sample straw hats for men and ladies at one-third off—our purchase of 100 men's suits of all wool gray cassimeres at \$4.50, and numerous other bargains that really seemed to drop right into our hands.

The purchase of these bargain lots has not interfered at all with the purchase of our regular lines and so concern in the country can show a more complete line of well-known reliable brands of merchandise than we do. We give below a partial list of the old reliable lines we handle and in most cases have the exclusive sale of them in Hopkinsville:

High Art Clothing.

It is an old story, we know, to many people tell of the superiority of High Art Clothing, but it is so full of truth that it will bear repeating over and over again.

High Art Clothing is one of the few makes that is tailored throughout by experienced men—tailors, in a shop that is kept clean and pure, where there is abundance of fresh air with no hint of the foul-smelling shops that breed disease.

It is positively the only ready-to-wear clothing that fits perfectly the form of Southern men. Thirty-five years of experience has enabled the makers of this celebrated clothing to so shape and draft their patterns till now they have brought it to a degree of perfection that few tailors can approach in a made-to-measure suit.

Hundreds of the best dressed men in Christian and adjoining counties have told us they can get a better fit in our High Art Suits than any high priced tailor ever gave them.

Yes, they cost a little more than poorly made, poorly fitting clothing, but they are worth more—a great deal more than the small difference in cost.

Our line of High Art Suits for this Spring is larger and more beautiful than any previous season.

The prices range from \$7.50 for an all-wool, good wearing Cheviot up to \$17.50 for the finest Imported Worsteds.

Suppose you give your high priced tailor the go by this Spring and try a High Art Suit and, our word for it you'll be as nicely dressed as you ever were and with several dollars saved.

We are very anxious to show our \$7.50 blue serge and cassimere suits to any one who has a suit to buy this spring. They are wonderful values. We have them made in all shapes—single and double breasted, long and slim, round and square cuts—size 32 to 42. Also extra sizes 44 to 48 at \$1.00 more.

Stamped on a Shoe Is a

Guarantee

Of Satisfaction To The Wearer.

It must be so. We make it so. Our existence depends upon it. No shoe is allowed a place in our stock until we are convinced it will wear well for the purpose it was intended. If we are fooled we are the ones that should suffer and not our customers.

The one passion of our business life is to have the name ANDERSON a synonym of

GOOD SHOES!

It is never a question with us, "What can we take out of a shoe to make it cheaper," but, "What can we put into it to make it better."

Our shoe stock this spring is better than it ever has been, and it should be. We have been studying hard under the best teacher the world has, for nearly twenty years. We've got "lots" to learn yet about the shoe business, but we hope we improve a little each season. Old man "Experience" is a strict, hard teacher ---never allows you to make the same mistake the second time,---but he's an awful good one.

Wish we had the space to tell you of some of the improvements we have made in our regular lines, as well as the new things we have added. But the best plan is to see them, and

**Anderson's
Wear-Easy
Shoe.**

For years we have been trying to get up an every-day shoe for summer wear on the farm that would be soft and easy and at the same time durable. We have tried numerous manufacturers without success, but at last I have struck the right thing and have called it Anderson's Wear-Easy Shoe.

It is made with a soft, tough, oil grain upper and a double sewed sole--no pegs or nails to hurt the foot. The insole is of clear, white oak sole leather, which is cool and pleasant to the foot and free from the burning sensation produced by the cheap acid tan red sole leather which is always used in every-day farm shoes.

We have this shoe in Congress and buckle. Sizes 6 to 13. Price \$1.50.

as in power, and the other one was as silent as death until the inspiration came to go into the campaign. I was not going to become a candidate until I had the support of the people. Next, or by this record I have made; upon my oath, upon my character.

Why it has been sold all over the country, I do not know. I was asked who I would appoint. I said I would appoint a free silver Democrat. But they say there are a great many impostors who say they are free silver. I do not say they are not. I do not come out on them. Then I say I do not agree with them. Will I stand by the principles of the Chicago platform? Yes, I will stand by them. I will stand on that platform. Mark you my name was signed to this platform long before I saw it. That I did not come out on it, I do not know. I have made a speech in twenty years that I have not warned you of the oppression that would come through organized crime. I have said that I would be delighted to see the enemies of the Chicago platform to see it plastered all over the wall with special and select persons. I have said that I would be glad to see them could like to select the ground and weapons, an annulling me away on that good old fortress—that I

"gold," and "insert etc." Let me quote exactly as it appears on the record. Mr. Livingston—I move to amend the bill so that it shall read, "and inserting the word 'coin,' so it shall read, 'and all taxes, debts, and demands, other than duties on imports, shall be paid in gold coin, silver coin, and United States bills, and gold coin shall be paid in gold coin.'"

"Mr. Co. Treasury notes, silver certificates, or notes of National Banks, or any one or more of the foregoing, or any one or two lines apiece. Now turn to the Springer Bill. Sec. 1 provides for the same thing, but it says, 'gold coin, silver coin, or United States bills, or notes, that shall pay in gold coin.'"

"Principal and interest payable in like coin." The words "in gold only," or "in gold coin only" nowhere appear in the bill. The words "gold coin" are used twice. "Section 5. That from and after the first day of July, 1868, all duties on imports shall be paid in gold coin, silver coin, or United States bills, or any other than duties on imports accruing or becoming due to the United States, shall be paid in gold coin, silver coin, or United States bills, or notes of National Banks, or certificates, or notes of National Banks."

I took quote from Mr. Stone's Witness. After referring to the

Why then did he still vote for the bill? Can an explanation be found in the vote taken only a few minutes before the roll call? It is not probable the motion to reconsider. There against the name of Mr. Stone is found with Dingley, Reed, Patterson, Bryan, and others. It is not probable that Stone passed it indefinitely for patronage, and more to make men content and enlist more recruits for the next battle to be fought in the Senate than to save the country. Again we find Bryan, Bland and the free silver forces making records on the other way, and they did kill the bill. So we are left with no explanation. The explanations don't explain. He voted with every advocate of the springer Gold Bull on the test vote that gave it its name. He voted with the majority. This is his Winchester speech he admits was the test vote. He voted with them on the motion to table the motion to reconsider. He voted with them on the roll call. He voted with them a few days later voting with them on the Cleveland resolution to lease sixty-five millions of gold bonds, and as the

FACTS FOR FARMERS.

The Report of Tobacco Sales and Receipts.

NOTES OF INTEREST

Items of importance to the Soil Tillers.

LIVE STOCK MARKET.

THE LOUISVILLE MARKET.

The following report is furnished exclusively to the New Era by Glover & Darvett, Louisville Tobacco Warehouse. Sales on our market for the week just closed amount to 4636 hds. with receipts for the same period 4618 hds. Sales on our market since January 1st amount to 50,838 hds. Sales of the crop of 1903 on our market to this date amount to 63,244 hds.

The offerings of leaf dark tobacco have been quite large on our market this week and there is no material change in values. We have always reported a recent advance of 10c to 15c per hundred for good new leaf but within the past few days such goods have been a shade easier. We continue to have a very satisfactory demand for the very common grades of leaf, such as are selling from \$1.40 to \$1.50, and the leaf selling from \$1.50 to \$1.60 has medium length and uniform color but is lacking in body and saturation, is not bringing prices satisfactory to sellers and there is no promise for early improvement of such grades. We have considerable inquiry for dark smooth tobacco of good length and some choice of wrap qualities. The offerings of such are very small and the bids which appear are selling from 700 to 925. Leaf of extra length without other qualities, which is suitable for the rebranding trade, continues to sell from 500 to 700, and is not quite as high as it was a month ago.

The following quotations fairly represent our market for dark tobacco 1903 crop.

Trash	\$1.00 to \$1.25
Common to medium	\$1.25 to \$1.50

Medium to good leaf	\$1.00 to \$1.25
Leaf of extra length	\$1.00 to \$1.25
Wrappery stock	\$1.00 to \$1.25

DIVORCES.

Suits For Dissolution of Matrimonial Bonds.

PAUL PETREE'S DEATH.

A Popular Young Fairview Citizen Victim Of Consumption—Eli Will Build New Stable.

From Thursday's City.

Two divorce suits were filed in the Circuit court yesterday. The indications at this early stage point to a large docket for the next term of court. Four divorce suits have already been instituted and it is less than a week since court adjourned.

Malinda Washington sued her husband for absolute divorce and charges abandonment. They were married, according to the petition, "many years ago in this country." A year ago he abandoned her and has since refused to live with her.

Allo Farrow wants a divorce from her husband, Will Farrow, and also asks for the custody of a two-year-old son. They were married in September, 1894, and lived together until March, 1895, when his cruel and inhuman treatment, she alleges, compelled her to leave. She charges that he failed to provide for her support.

PAUL PETREE'S DEATH.

Popular Young Man Of Fairview Victim Of Consumption.

Paul Petree, a son of Mr. Jack Petree, died Wednesday afternoon at 3 o'clock at the home of his father on Fairview. He was twenty-three years of age, a popular and talented young man, and his death has occasioned the deepest regret in the community where he resided.

Mr. Petree was a victim of consumption, that fatal malady which has given to the grave in recent years so many who bore this honored name. He was a brother of Mrs. J. F. Dufforth, of this city and of Dr. W. S. Petree, of Fairview.

The funeral services were conducted this afternoon at the Fairview Methodist church in the presence of a large concourse of relatives and friends. The body will be brought to this city for interment at Hopewell cemetery this afternoon.

MOSE ELS WILL BUILD

Handsome Two Story Stable At Tenth And Virginia Streets.

Mr. M. L. Els, who owns the lively stable property at the corner of Virginia and Tenth streets which was damaged by the recent fire, has settled with the insurance companies satisfactorily.

Mr. Els will contract at once for the erection of a large two story brick building to be built especially for a modern and thoroughly convenient livery stable. The walls of the old building are not materially damaged. The new building will have a handsome ornamental front on Virginia street.

CARRIAGES CLUB ENTERTAINED.

The Carrage Club was delightfully entertained Tuesday evening by Miss Adelle Belle Hardin at the home of Mr. and Mrs. George E. Gary, on South Virginia street. The occasion was one of the most pleasant in the history of this popular social organization.

LIPMAN'S REMOVAL.

Mr. F. Lipman is moving his stock of dry goods and clothing from the Bowles building on Main street, between Ninth and Tenth, to the McDaniel building, corner of Main and Sixth streets. The firm will be ready for business in the new quarters this week. The store room has been remodeled and refitted throughout.

MARRIED LAST NIGHT.

Miss Ellen Pickford, of Nashville, a sister of John Pickford, formerly an employee in the post office here, and Mr. Luther Tappin, a well known young painter, in the employ of O. H. Hugen, were united in marriage last night. After the ceremony the bride and groom were tendered a reception and supper at the home of the groom's father on Seventeenth street. Mr. Nash performed the ceremony.

The Ideal Bicycle For Women

IS THE

COLUMBIA

BEVEL-GEAR CHAINLESS.

WHY?

BECAUSE it is a COLUMBIA bicycle made by the oldest manufacturers of bicycles in America. Its name alone gives it a recognized standing everywhere.

BECAUSE it embodies the results of 22 years of constant investigation, experiment and manufacture.

BECAUSE every part of the machine has been subjected to the most thorough inspection and testing.

BECAUSE it contains every improvement of known value.

BECAUSE it is always ready for use without regard to condition of roads or weather.

BECAUSE (and this is very important) there is no chain to catch and soil the skirt, to accumulate dirt, to break or get out of order.

BECAUSE it is easy to mount and easy to ride.

BECAUSE it is an easy hill climber, a delightful coaster, and the cleanest, safest and easiest running bicycle ever devised for ladies' use.
