Owing to the fact that the boosters are making a whirlwind tour of West Tennessee and Southern Kentucky, in which seventy-seven towns and cities will be visited, a stop of only one hour will be made here, but according to advance notices and the reputation the

boosters have made on their eight previous tours, this will be the liveliest hour our citizens have lived through in many years.

A CARD to VOTERS

TO THE VOTERS OF CALLOWAY COUNTY.

The following are some of the reasons why I ask you to support me in my race for County Judge:

FIRST: Because I am in favor of good roads, and so far as the duties of the office will permit I will personally inspect our roads in order that I may at all times understand the needs of the people in all sections of the county.

SECOND: Because I believe all sections of our county should share equally in the distribution of road funds. Equal rights to all and exclusive privileges to none.

THIRD: Because I am opposed to graft, and I stand for the vigorous prosecution of grafters and all persons who may be guilty of taking the people's money without rendering value received for it.

FOURTH: Because I am not connected with any slate ring, clique or machine, and I will not wear their collar if I am your judge. I will not look up to the rich nor down upon the poor. I will have no pets to favor, no enemies to punish.

FIFTH: Because I believe our county affairs should be conducted upon patriotic business principles, and not by political machine methods.

SIXTH: Because I will establish a systematic plan of book-keeping at the court house, so our county finances will show the daily amount to the credit of each fund for which taxes are levied.

SEVENTH: Because from my early youth I have had to make my own way in life, and I know the value of a dollar. I believe this experience will assist me in administering the affairs of the county with care and economy.

EIGHTH: Because I have had practical experience in every branch of the county which the county judge has to perform. I have built highways, and have studied their construction. Have had twelve years of practical experience in all the various branches of the law.

NINTH: Because I am in the prime of life's usefulness and activity. I am in my forty-ninth year of age; old enough to be loved and young enough to be respected. I am a native born Kentuckian and I have lived in this county for twenty years.

TENTH: Because I have no other business, and I am not connected with any slate ring, clique or machine, and I will not wear their collar if I am your judge.

Eleventh: Because I have no other business, and I am not connected with any slate ring, clique or machine, and I will not wear their collar if I am your judge.

Twelfth: Because I have no other business, and I am not connected with any slate ring, clique or machine, and I will not wear their collar if I am your judge.

Thirteenth: Because I have no other business, and I am not connected with any slate ring, clique or machine, and I will not wear their collar if I am your judge.

LARGE CROWD

Attended The Laying of the Corner Stone of Calloway's New Court House.

A splendid crowd was here Wednesday afternoon to witness the laying of the corner stone of Calloway's magnificent new court house. The services were under the auspices of Murray Lodge No. 105, F. & A. M., assisted by State Grand Master Ewalt, of Paris, Ky. Considering the fact that the farmers are all busy with their crops it was indeed a representative crowd of Calloway citizens who attended the ceremony, and the crowd was estimated to be about 5,000. The business houses and many of the homes of the city were beautifully decorated with flags and bunting.

The program for the occasion consisted of music and addresses and the placing of the stone by the Masonic Lodge under the direction of Master Ewalt. After the stone was placed, which is a beautiful nine hundred pound block of Georgia marble, inscribed on the north side with the names of the county judge, magistrates, attorney and clerk, on the east side with the Masonic emblem, the names of Grand Master Ewalt, Master Redden and Secretary Churchill, of the local lodge followed, an address by R. T. Wells, which was delivered in an impressive manner and was replete with local history. Judge J. T. Hanbery followed Mr. Wells in a short address which held the crowd in close attention and was well received by the large crowd.

It was an impressive occasion and everyone who attended left the court square after the services were concluded proud that this county was to have a new and magnificent home. A large number of visitors from out of town were present to witness the ceremony.

NOW, WOULDN'T YOU?

MUST PAY INTEREST ON FEDERAL FUNDS

DEPOSITORIES ASSESSED 2 PER CENT AFTER JULY 1.

M'ADOO'S ORDERS SWEEPING

More Surplus Money Will Be Released to National Banks—First Time in History Interest Asked on Active Deposits.

Washington.—The fiscal system of the United States governing deposits of federal funds in national banks was revolutionized by Secretary McAdoo of the treasury department with an announcement that all government depositories, whether active or inactive, would be required to pay interest at the rate of 2 per cent per annum, beginning June 1, upon deposits of the government.

Simultaneously with this action, the secretary authorized an immediate increase of \$10,000,000 in government deposits in the national banks, making the total \$32,649,694, from which the federal treasury will earn, under the new interest order, \$1,053,000 annually.

There are indications that Secretary McAdoo intends to release still more surplus money from the treasury vaults and place it in general circulation through increased deposits with the national banks. In a statement he said:

"With the banks paying interest on government deposits, the secretary may be justified in keeping larger balances in the national banks, thereby increasing the volume of money in circulation and to that extent reducing the amount locked up in the treasury."

Mr. McAdoo also announced a radical change in the character of securities which the treasury department would accept for government deposits. Instead of requiring that the national banks secure treasury deposits exclusively with United States or provincial government bonds, they will be allowed in future to secure 50 per cent with government bonds and the remaining 50 per cent with high-class state, city and county bonds, acceptable to the secretary of the treasury, to be taken at security at 15 per cent of their market value, but not to exceed par.

This is the first time in history that the treasury department has called upon the banks to pay interest on what are known as "active" deposits or, except in periods of financial stress, security other than government bonds.

BRYAN CAN BE PRESIDENT

This Is the Opinion of Senator Martine of New Jersey.

St. Louis.—If William J. Bryan, secretary of state, is a candidate for the presidency at the next presidential election, he will be elected, according to Senator James E. Martine of New Jersey, who is here as a member of the congressional delegation from Washington to attend the dedication of the Jefferson memorial. Martine is widely known as the "farmer orator," one of the planks in the Democratic platform upon which President Wilson was elected at Baltimore, was that favoring a single term in the presidency, and if the party sticks by that platform it naturally will prevent President Wilson from being re-elected.

Transfers Legislators' Cases. Charleston, W. Va.—Judge Black of the Kanawha county court decided to transfer to Webster county for trial the cases of seven members of the West Virginia legislature, charged with accepting bribes in the United States senatorial campaign of last February.

To Visit Navy Yards. Washington, D. C.—Senator Duffell, who was elected to the Senate in 1910, is going to visit the navy yards at Groton, Conn., and at the Washington Navy Yard. The first stop will be at Groton, N. C., where a banquet will be given in his honor.

\$200,000 for Cancer Cure. New York.—The Rockefeller Institute for Medical Research is left \$200,000 by the will of Henry H. Rockefeller of Grand Island, N. Y., who died here February 26. Policeman Chief Thief? Chicago.—William John, a policeman, was found to be the chief thief of a gang of seven burglars in a confession by three of the alleged thieves. Information that the officer was in league with the thieves was brought to the attention of the police by the accused men. REORGANIZING DOES NOT CANCEL DEBTS

SUPREME COURT HOLDS CREDITORS CAN COLLECT.

COURT STOOD FIVE TO FOUR

Court Holds That Transfer by Stockholders From Themselves to Themselves Cannot Defeat Claim of Non-Assessing Creditor.

Washington.—In a decision of momentous importance, especially as to railroads, the supreme court Monday laid down the general principle that a creditor of a corporation, not a party to its reorganization, may hold its success or for his debt.

In this specific case the court, five to four, in a decision which Justice Lurton, who dissented, deemed was "alarming," held the Northern Pacific Railway Company responsible for a \$125,000 judgment against the Northern Pacific Railway Company, which it succeeded, despite the fact that the court expressly stated that no moral wrongdoing was to be found in the reorganization.

Corporation lawyers who heard the decision declared it was a direct blow at the practice of reorganizing corporations to get rid of onerous contracts, or escape payment to unsecured creditors. Its effect, they said, would be far-reaching.

The principle as laid down by Justice Lamar was stated in this language: "Corporations insolvent or financially embarrassed often find it necessary to scale their debts and readjust stock issues with an agreement to conduct the same business with the same property under a reorganization. This may be done in pursuance to a private contract between bondholders and stockholders, and though the corporation property is thereby transferred to a new company having the same shareholders, the transaction would be binding between the parties."

But, of course, such a transfer by stockholders from themselves to themselves cannot defeat the claim of a non-assenting creditor. As against him the sale is void in equity, regardless of the motive with which it is made. For, if such contract reorganization was permitted, it would be a device to circumvent the law and to the detriment of the creditor."

There is no difference in principle if the reorganization instead of being effected by private sale is consummated by a masters deed, under a consent decree.

PRESIDENT WILSON WORRIED

President and Cabinet Discuss Japanese Issue Two Hours.

Washington.—Practically all of Tuesday was devoted by President Wilson to consideration of the situation arising from California's projected anti-Asian land law.

The president was in frequent telegraphic communication with Secretary Bryan at Sacramento and laid the entire subject before the cabinet at a two-hour meeting.

No telegrams from or to Secretary Bryan were made public at the White House. Mr. Moore declined to discuss the negotiations, and reference was maintained at the White House.

That the president was somewhat worried about the outcome of the situation was the only impression gained from those who had talked with him about the question. As far as could be learned, the attitude of the national government still is one of hope that if an anti-Asian bill is passed at all, it will be along the lines of laws existing in New York, Missouri, Minnesota and other states.

LITTLE MEAT FOR PREACHER. Pittsburgh, Pa.—After being urged to eat a little meat and plenty of peas, beans and eggs, sixty meat-eating ministers Monday took off their coats and tried to touch the knees. Every minister ought to eat at least two apples a day and plenty of oatmeal. You must eat onions, too."

W. T. LaFollette Dies. Madison, Wis.—William LaFollette, only brother of Senator Robert M. LaFollette, died of heart disease, after a prolonged illness.

INSURANCE COMPANIES REMAIN.

Jefferson City, Mo.—Four fire insurance companies, against which proceedings were instituted by the attorney general, to prevent them from leaving the state, notified Insurance Superintendent that they were ready to stay and do business in Missouri.

Horace Cars Abandoned. New York.—The horse cars along South avenue, the Junior East Side and cross-town, linking New York to a bygone age, have fulfilled their purpose and are to be replaced by storage battery vehicles.

RESCUE STEAMER STRIKES BRIDGE

TWO WHITE MEN AND THIRTEEN NEGROES ARE LOST.

SEVERAL MEN ARE INJURED

Bodies of Chief Clerk and a Passenger Lost in River—Steamer Sinks Within Five Minutes After Hitting Pier.

Natchez, Miss.—Urged on by flood waters, the steamer Concordia, a stern-wheel boat of the Royal Blue Line, owned by Capt. George Prince and John K. Wilds, of Natchez, and operating in the Natchez, Atchafalaya, Black, Little and Tensas rivers, struck the north pier of the New Orleans and Northeastern railway in the Tensas river at Clayton Station, La., 18 miles northwest of Natchez, and sank within five minutes. Two white men and 13 negroes were drowned.

The Concordia left Natchez Wednesday with a heavy cargo to be discharged at different points for towns and landings marooned by the flood water from the Lake St. John crevasse. She was returning, and with a few white passengers and a number of negro rangers, principally from Capt. Sam Black's Mississippi plantation.

When the boat struck officers and passengers jumped on the bridge, and some into the river. Maurice Black and Julius Lenkowitz jumped on the bridge and crawled under a car loaded with iron. Black stepped out to look at the boat and was struck with a piece of timber, breaking his left arm. A dozen motor boats, with their owners, were at the bank of the river, and they rushed out at once, rescuing as many as possible.

W. E. McIngham, station agent at Clayton, witnessed the tragedy and telegraphed to Natchez. A relief train was sent from Vidalia.

Mr. Georgehan and Chief Clerk Prim were on the deck and were not seen after the boat struck.

ARBITRATION IS ADVOCATED

John W. Hill Speaks in Favor of Arbitral Court.

St. Louis.—China was congratulated by cable by the American People Congress on its recognition as a republic by the United States, while many speeches were delivered in support of various means to prevent needless war. The message to the new Chinese republic was framed by a committee and dispatched without formality. The principal address was by John W. Hill, of New York, president of the International Peace Forum.

Discussing "The Outlook for Peace," Mr. Hill said: "As great as the achievements of arbitration have been, we have not quite reached the goal. We must continue the agitation until the world powers are united in an effort to submit to an international arbitral court every difference arising between them—even questions of honor and vital interest."

STAY ADJOURNED TEN YEARS

J. J. Hill Believes That Congress Could Thus Aid Country.

St. Paul.—Congress should adjourn and stay adjourned for ten years, in order to better conditions in the United States, according to James J. Hill, principal speaker at a meeting aimed at "boosting" the Northwest. Mr. Hill attacked congressional action, which, he said, had prevented a mass rapid influx of immigration. Laws that have been passed recently are responsible for the flood of immigration to the Argentine Republic, he asserted. "If we could just tie a bill on each one of our illustrious statesmen who is trying to keep workers out of this country and adjourn congress for ten years, I believe the country would see an unprecedented period of prosperity. It would carry on big undertaking without fear of legislative interruption."

R. R. PRESIDENT GAVE CASH

Did Not Profit \$100,000 on Stock Deal of Road.

Boston.—An acquittal defense of a stewardship was made by Charles S. Mellen, president of the New Haven Railroad Company, before the Interstate Commerce Commission. At the outset President Mellen denied that he had profited personally to the extent of \$100,000 by selling \$1,000,000 worth of stock of the New Haven Company, for which he had given his notes. He said that \$80,000 of the money in question was paid into the Republican national campaign fund in 1904, that \$5,000 went to the Rhode Island Republican state central committee, other sums to the Republican organizations in New York and Connecticut, and the balance for other losses and other acquisitions.

HORSE CARS ABANDONED.

New York.—The horse cars along South avenue, the Junior East Side and cross-town, linking New York to a bygone age, have fulfilled their purpose and are to be replaced by storage battery vehicles.

30,000 VOICES

And Many Are The Voices of Murray People.

Thirty thousand voices. What a grand chorus! And that's the number of American men and women who are publicly praising Doan's Kidney Pills, for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Murray people are in this chorus. Here's a Murray case.

J. T. Wells, Murray, Ky., says: "I still use Doan's Kidney Pills when I have kidney trouble and find that they do me good. Another of my family also took them. Although her condition was much worse than mine, Doan's Kidney Pills did her more good than anything else she ever tried."

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Wells had—the remedy backed by home testimony. 50¢ at all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

Put the Load Where It Belongs

If you are to make the most of your time and opportunities, you must have efficient tools to work with. You have enough hard, tiresome work without wasting your time and energy at wood-sawing, water-pumping, grinding, turning and the like. Use an IHC engine to furnish power for such work. In less time, and with far less effort, the wood is sawed, the stock watered, the tools sharpened, all at one-tenth the expense of hand work. Put the load where it belongs. Buy and use an

IHC Oil and Gas Engine

Dr. Starks, state sanitary engineer, made a splendid talk on sanitation at the opera house Monday night. He called special attention to the mosquito breeding holes and the dangers that lie therein, also to the danger, not of dry wells, but of turning refuse waste into old wells with running water therein, thereby contaminating other wells. He said that if it was made in the garden, a sanitary vault and lateral pipes running through the garden made very valuable fertilizer, but don't turn foetal matter into running water, either above or below the ground.

Notice to Democrats.

To the Democratic voters of
Calloway county:
I have announced for nomina-
tion at your hands for represen-
tative.

Under the new primary law
passed by the last legislature,
before I can get on the ballot I
will have to have not less than
three per cent of you to sign my
petition. I dislike very much to
ask anyone to sign my petition
or to have a friend ask anyone.
I would hate to have anyone re-
fuse.

I dislike to put any of you,
who do not care to do this, to
the embarrassment of refusing
me. When you sign a petition
you obligate yourself to support
the candidate whose petition you
sign. I want anyone who signs
my petition to do it of his own
free will and accord.

I am not asking anyone to
sign my petition, who is willing
to do it, but I am asking all those
who are not willing to do it, to
sign my petition, and I am asking
all those who are not willing to
sign my petition, to sign my peti-
tion.

Always very truly,
AS. TAYLOR.

THE TRUTH about PAINT

The value of paint can only be measured by the length of satisfactory service it gives.
A building painted with Key Brand or Oil Hand-mixed Paint or ordinary ready-
mixed paint never looks well, and the results from this class of paint are never satisfactory.

In a short while your property will look as if it had not been painted for years.

To use cheap paint is a waste of both paint and labor.

Don't waste your money on unknown, untested brands.

Remember, painting is an investment, not an expense—therefore use the paint that
stood the test of time.

BREED to the BEST

DeWOODS 51527

Sired by Red Medium 2:23, sire of L. Maud 2:07, Len Medium 2:08, Alcynne 2:11, Esche M. 1:
2:12, Mediummore (3) 2:12, Medium Line 2:10, Freely Red 2:10, Moving 2:10, Red and Black 2:
10, High Medium 2:10, Glendor 2:11, Floy Medium trial 2:09, Artissa trial 2:08, Jack Vassar
trial 2:09, Novecia Red 2:08, Kingdell 2:08, and 42 others in the list making him the sire of speed
of any living horse at 18 years of age. When we remember that Red Medium is such a young horse
and never been situated so that he has had many good horses in his early work in the stud, all the
more wonderful. He is a grandson of the great George and Happy Medium, both sons of the sire
of harness speed Hambletonium 10.

DAM—Miss Glendor Woods, dam of Glendor 2:11, DeWOODS, and half brother to Red Tim-
oka 2:27, one of the greatest show stallions in the north. Miss Glendor Woods is by Alsymont, sire
of William 2:05. She out of Timoka dam of Red Timoka 2:27, Nutwood 2:22 and grand dam of
Glendor 2:11, by Nutwood 2:18, 3rd Dam Argenta, by Cycler 1:01, 4th Dam Filla, by Nor-
man 2:5, 5th Dam Verba, by Star Davis, Jr., 6th Dam Steel's Crusader, 7th Dam by Impt.
Sappodon, 8th Dam Bertrand, 9th Dam by Cycler.

This combines one of the strongest blood lines ever seen in any trotter. If you have Happy
Medium, George Wilkes, Red Wilkes, RED MEDIUM, Alsymont, Alcynne, Nutwood and Hamble-
tonium seven times. What could be better? and where could one find a greater bred one? De-
WOODS is only four years old and one of the best formed horses that man ever looked upon: hav-
ing good size, good action and good manners. He is a black bay with black mane and tail, long
rangy neck, good intelligent face and head, and one of the best set of legs that ever held up a horse.
He won the blue ribbon in his class at the Henry County Fair, Paris, Tenn., and Calloway County
Fair at Murray, Ky., and has never lost the blue.

Red Medium is also the sire of Doris Medium, 2:04, and grandsire of the great mare, Cheeny

On account of his age, we will give him only a short season in the stud, but will be taken out
and put on the track where he is expected to make a sensational race horse. While he is a trotting
bred horse, yet he goes all the gaits making him very desirable for those who like a double gaited
horse. This will likely be the last opportunity to get a colt from such a horse as this is a very low
season. Fee \$20.00.

TALMEGE

Sired by Braden Gentry 0636 A. T. R., son of the world's champion John R. Gentry 2:00, who held
10 world records at one time and winner of the world's champion at Madison Square at New York
for the best form horse.

Dam KATE BRADEN, dam of Hal Braden 2:04, Brown Braden 2:13, Flying Gentry (3) 2:20,
Braden Gentry (3) 2:22 (1), Hal Brown (2) 2:23, Braden Girl (dam of Noll Gentry 2:09). Kate
Braden is the greatest brood mare ever bred in Tennessee, having produced more than any other mare.

Dam Fanny Onward by Baricade by Onward 1:41 by George Wilkes. Talmege is one of the best
young stallions ever offered to the breeders of West Tennessee. He is a beautiful golden Chestnut
with flax mane and tail and when developed will make a horse nearly 15.3 and weigh 1100 pounds.
While he goes all the gaits with all the ease of a pure Kentucky gaited saddle, his fast gait is a
pace, which he goes with all the ease of his best bred grand sire, and with a little training
he will be very fast. He is a Talmege you will find all the best bred horses in the world have ever known, and these describe everything a horse could and yet at a price within
reach of all, and in this horse. Fee \$10.00.

The above named horses will be in Hazel, Ky., every Wednesday and remain over night
