Popular Hardin Couple Wed.

Last Sunday afternoon at the residence of Headley Heath, in Benton, the marriage of Mr. Guy Irvan to Miss Ola Starks, both of Hardin, took place in the presence of a few friends. Eld. Wm. Ethridge, of Murray, performed the ceremony.

The announcement of the marriage came as no surprise to friends and acquaintances at home. They had been sweethearts since childhood, and it was known by intimate friends that the wedding was to occur sooner or later.

Mr. Irvan is a son of Mrs.

Jennie Irvan, and is one of the county's most promising young men. He is moral and upright, a member of the Baptist church, and one of its most loyal workers.

The bride is the beautiful and accomplished daughter of Mrs. Rebecca Starks, and is one of Hardin's most popular young ladies. She is a member of the Christian church and a leader in the work of that denomination.

They both were born and reared in Hardin, and a better liked and more highly esteemed couple could not be found in Western Kentucky.

They are for the present at the home of the bride's mother, Mrs. Rebecca Starks.

Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by Dale & Stubblefield.

Babe Returned to Mother.

Out of feeling of sympathy and parental love, in spite of the strong attachment which they had for the little babe, "Woodrow Wilson," the wife, left on the doorstep of the Conway home in Paris last August has been given over to the mother, Mrs. Landrum Arnold. The child was legally adopted by Mr. and Mrs. J. W. Crouch, of near Springfield, and a very sensational trial was recently had in Judge Joe Jones' court at Dresden, the result of which our readers are familiar with.—Paris Parisian.

Rheumatism Quickly Cured.

"My sister's husband had an attack of rheumatism in his arm," writes a well known resident of Newton, Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by Dale & Stubblefield.

Next Time.

Congressman Alben W. Barkley, of the first Kentucky District, says he hopes to convince President Woodrow Wilson that he is wrong on certain matters notably that of allowing republican postmasters to serve out their terms, if no charges are brought against them. From what we can hear it strikes us

that it would be a sight better for this precocious young congressman if no democratic postmasters at all are appointed until he gets his nomination for a second term. We look for a considerable "ruction," especially at Mayfield, Murray and Hazel, and Paducah when Barkley's recommendations for postmasters at these become publicly known. Certain politicians who so frantically tore their shirts and overalls for Barkley in his first race will not be over enthusiastic for him next time, for after expect him to take care of them, and he can't fulfill over one promise at each place. Paris Parisian.

Observes 72nd Anniversary.

The 72nd birthday of W. P. Blakely was celebrated on last Friday, May 16th, 1913, in the quiet and beautiful town of Almo by his children, grand-children, great-grand-children, many relatives, friends and neighbors, at the home of his grandson, Claud Dailey.

His children intended to take father by surprise, but the old man was too intelligent to get slipped upon and said he too was ready for the occasion and would gladly welcome all back to his home. It was a day of pleasure.

Mrs. Dora Dailey and family, Mrs. Eddie Clark and family, Mrs. Ada Farley and some of her family, Mrs. Mary Tucker and family, Johnie Hendrix and family, Walter Blakely and family, being all the children except Gilbert Blakely, making six children present, thirty-five grand-children and five great-grand-children, many relatives and friends, making in all sixty-four to help eat the good dinner which was spread on the lawn. Every son and daughter, son-in-law, daughter-in-law, grand child, and great-grand-child was born and reared in Calloway county.

Uncle Pake said he did not have a drinking man in his family. All pious, church-going, and agreeable children, and tried to make him comfortable in life. The scriptures are being fulfilled, "honor thy father and thy mother."

It was surely a day of happiness to call such a large portion of his dear children together with many friends, all of whom tried to make father and grandfather see and feel the high appreciation they had for him, saying by their acts, "May he be spared to see other such days come and go, that we may be blessed by his presence and advised by his counsel."

A Low Down Trick.

Of all the low-down, mean, contemptible, onery, dirty thefts we have ever heard or read of, it happened to this editor, Monday night, when a scoundrel of the scum of earth, too mean even for hell itself, stole about six and a half or seven pounds

of sausage from us. If he, or she, had habitually stolen from a blind grandmother whose false teeth he had used for a garden rake, or stolen tobacco from his paralyzed pap, he could not have done as dirty a trick as to steal from an editor. May every hog he meets grunt at greeting and every pig pass him in pity, while every old sow scowls at him, is the earnest wish and prayer of his victim. To steal from an editor is the unpardonable sin of any respectable newspaper, and we hope that poverty will pinch him every time he breathes—Hazel Green Herald.

Wonderful Skin Salve.

Bucklen's Arnica Salve is known everywhere as the best remedy for all diseases of the skin, and also for burns, bruises and boils. Reduces inflammation and is soothing and healing. J. T. Master Edwin Hill Badly Injured.

Edwin Hill, the ten-year-old son of Mrs. Lula Hill, of Fayette was the victim of a serious accident Sunday afternoon. The little fellow secured a dynamite cap, and using a dry telephone battery, made a circuit, when the cap exploded. His mouth was badly lacerated, several teeth were knocked out, a finger and a thumb were blown off and he was otherwise injured. It was at first thought that his injuries were fatal, but his condition was improved yesterday and unless complications should set up he will recover.—Hopkinsville Kentuckian.

The many friends here of Master Edwin and his mother will be sorry to learn of the accident and hope for the boy an early recovery.

Ryan & Sons Co., and the Ryan Clothing Store use a full page of space in this issue of the Ledger that is worth the reading of everyone in need of merchandise. These firms are determined to reduce their stock of goods to the fewest dollars possible and in order to make room for placing both stocks of goods in one house they are offering real bargains to the public. This sale is made necessary on account of the fact that the building now occupied by the Ryan Clothing Store is to be torn down and a handsome new structure will be built in its stead. This advertisement appears on the eighth page of the Ledger and you should read it.

CLEAN UP

Thursday and Friday, May 29 and 30, Days Selected for Clearing Premises of Rubbish.

It is the purpose of the Board of Health acting in conjunction with the Woman's Club to give this town one thorough cleaning, at least by the first of June.

The Mayor has agreed to have the streets and alleys thoroughly cleaned and if the citizens will co-operate and give their own premises a good cleaning we can for once at least, boast of a clean town, and a clean town means sanitation. Sanitary conditions mean health. It is imperative at this time of the year to see that we have no standing water which will become stagnant; no rain barrels which afford such excellent breeding places for the mosquito, the only cause of malaria. The useless waste that is thrown out upon the streets and in back yards is excellent for breeding flies and typhoid fever.

Let us work together for two days, May 29th and 30th, and make Murray clean and more sanitary than has ever been before; this is a real dollars and cents proposition for cleanliness means health and health means full earning capacity, minus a doctor's bill.

The groceries, butcher shops, bakeries, etc., will be inspected from time to time and those found to be in an unsanitary condition will be reported to the Pure Food Inspector, and further the Woman's Club will report the condition of such places of business to the different ladies' organization of the town and the condition the stores are in will have a great deal to do with the patronage they receive; to get the business—clean up and keep clean.

P. A. HART,
Health Officer Calloway Co.

DREADNOUGHT PRINTS STOLEN

PLANS TAKEN FROM ARMY AND
NAVY BUILDING.

Officials Say Plans Taken Were of No Great Importance, But the Thefts Arouse Fear Important Secrets Will Be Revealed.

Washington.—Special agents of the Department of Justice, officers of the local police force, have been called in by the Navy Department to investigate a "leak" through which during the last four months several relatively unimportant plans of ships and also minor documents have disappeared. Navy officials are inclined to minimize the importance of the losses.

The minor structural plans of the dreadnought Pennsylvania, the building, and other ships were among them. Documents not especially secret disappeared. Navy officials say they are not much concerned over the importance of what already has been lost as they are to find the leak and prevent further losses.

Each battleship has several sets of plans, which are sometimes widely distributed among the bureau and contractors. The general plan is never given to the public. The plans of the Pennsylvania, who with Senators Cullom of Iowa, Borah of Idaho and Sherman of Illinois, led the discussion at the conference, said afterward that the desire to have those back in the party who left it to join the Progressive party was "unmistakable."

The Navy Department issued this statement: "On the night of March 4 (inauguration day), when there were a large number of people in the State, War and Navy building, assembled to witness the inaugural fireworks, there were taken, by persons yet unknown, from the draughting room of the Bureau of Steam Engineering, uncompleted plans of the dreadnought Pennsylvania. These plans showed the general arrangement of the decks and hulls, but would be of no particular value to anyone wishing to obtain naval information not generally made public. A short time after similar plans were missed from the same draughting room. The matter is still under investigation."

Col. Boone, Former Union Soldier, Offers Her \$3,600 Position.

Longstreet, widow of the famous Confederate general, has been offered a position by a former Union soldier. Mrs. Longstreet said that Col. Albert E. Boone, of Clarksville, W. Va., had offered her a place in his office at \$3,600 a year. "If I find that I feel fitted to do the work in Col. Boone's office," she added, "I shall accept his offer in the same spirit in which Gen. Longstreet accepted a commission from President Grant when he found himself an outcast in the land whose battlefields he had fought with supreme devotion."

ROOSEVELT AIDS OWEN EGAN

Explosive Expert Unable to Collect From City.

New York.—Theodore Roosevelt, acting as the aid of Owen Egan, the city expert on explosives, who has been unable to get the city to pay his doctor's bill for severe injuries to his hands, received in opening a bomb-sent to Judge Otto Rosenthal. The "BOMB" wrote to the city comptroller urging that Egan be repaid his medical expenses of \$388, and that some way be found to enable him to take an examination for promotion and become eligible for a position. Egan performs his hazardous work on a salary of \$1,500 a year.

Profits Concealed. Washington.—Part 3 of the report of the bureau of corporations, Mr. Egan's extended investigation of the steel industry, dealing particularly with the cost of production, was submitted to the president by acting Commissioner Francis Walker. A discussion of the "vast difference between 'book costs' and 'real costs'" featured the report, figures being given to demonstrate that iron and steel manufacturing companies made profits in their statements of cost of production large profits paid to subsidiary ore and transportation concerns.

Head of Alleged Steel Trust Denies That Products Are Sold Cheaply Abroad Than at Home. Tells of His Rise.

New York.—The United States Steel Corporation was pictured by James A. Farrell, its president, as a combination organization, not to suppress competition, but to develop the sale of steel in foreign lands, a development which could not have been accomplished, he said, if the corporation had not taken the various companies, competing for foreign business under its wing. He was testifying as the first witness for the defense in the government suit to dissolve the corporation as a combination in restraint of trade.

Mr. Farrell amazed his hearers by his intimate knowledge of affairs in remote parts of the world, and held them keenly interested as he narrated the story of his rise from a common laborer in a steel mill at the age of 13 to be the head of the greatest industrial corporation in the world at the age of 50.

The witness traced the growth of the steel corporation's export business from \$99,000 tons, the first year it was organized, to \$2,100,000 tons in 1912, and from \$31,000,000 in value in 1904, to \$92,000,000 in 1912, and said that efforts of the corporation to push its foreign trade had been "continuous and indefatigable." The result had been that 90 per cent of the country's foreign trade in steel was done by the corporation, he said.

"We have made the strongest effort possible to increase our foreign trade as compared with our domestic trade," Mr. Farrell declared. "Our competitors have only been concerned with foreign business when domestic trade has been insufficient to keep their capacity employed. We have kept the foreign trade continuously. If we had not, it would have been impossible to develop it."

Justice With a Vengeance. A broker was talking about J. Pierpont Morgan.

"The money trust investigation undoubtedly shattered him," the broker said. "He believed that this investigation was unfairly conducted. He likened it, in my hearing, to a horse-stealing trial out west."

"A jury was gathered in the street, he said, and shut up in a room, after a brief trial, and when an hour had gone by a mob burst in and unceremoniously demanded what the verdict was."

"Not guilty," said the foreman.

"That won't do," said the leader of the mob, fiercely. "You'll have to do better than that." And he, shut the jury up again.

In half an hour the door was opened once more.

"Well, gentlemen, your verdict!" said the leader.

"Guilty," the foreman said.

"There were hurrahs from the crowd, and the leader said:

"Correct. You can go now. We strung him up an hour ago."

Answer to Query.

The act of uplifting the hand during the taking of an oath is so ancient that it would be futile to even attempt to say when it started. Homer mentions it as common among the Greeks of his time, and it is also found in the earliest biblical time. For instance, Abraham, the father of the Jewish people, says: "I have lifted up my hand to Jehovah," showing that even at that remote period the practice was existent. It was from the Jews, of course, that the practice found its way into Christianity, where it has ever since held its place in judicial trials.

HER "BEST FRIEND"

A Woman Thus Speaks of Postum.

"We usually consider our best friends those who treat us best."

Some persons think coffee a real friend, but watch it carefully awhile and observe that it is one of the meanest of all enemies, for it stabs one while professing friendship.

Coffee contains a poisonous drug—caffein—which inflames the delicate nervous system and frequently sets up disease in one or more organs of the body. It is no use persisted in.

"I had heart palpitation and nervousness for four years and the doctor told me the trouble was caused by coffee. He advised me to leave it off, but I thought I could not," writes a Wisconsin lady.

On the advice of a friend I tried Postum and it so satisfied me I did not care for coffee after a few days' trial of Postum.

As a result, I went by and I continued to use Postum my weight increased from 88 to 118 pounds, and the heart trouble left me. I have used it a year now and am stronger than I ever was. I can handle up stairs without any heart palpitation, and I am free from nervousness."

My children are very fond of Postum and it agrees with them. My sister had it when she drank it at my house; I can handle Postum at home and have become very fond of it. You may use my name if you wish, as I am not ashamed of praising my best friend—Postum. Name given by Postum Co., Battle Creek, Mich.

Postum now comes in new concentrated form called Instant Postum. It is regular Postum, so processed at the factory that only the soluble portions are retained.

A Spoonful of Instant Postum with hot water, and sugar and cream to taste, produce instantly a delicious beverage.

DYSPEPSIA CURED TO STAY CURED

A Cure That Is Permanent and Not Simply Temporary Relief.

For those suffering from stomach troubles—indigestion, heartburn, flatulence, etc.—there is a permanent cure. It has for many years been a household remedy, and many thousands of men and women who have suffered with indigestion since physical weakness but for its wonderful curative properties.

Mr. A. V. Shatts, prominent man of Kingston, N. Y., writes two letters which demonstrate the wonderful power of Dr. King's Royal Dispepsia Cure.

"I have been a constant sufferer from dyspepsia for twenty-five years, and have found nothing to give me relief until I began taking Dr. King's Royal Dispepsia Cure. I have used nearly three bottles, and feel permanently benefited. I have never suffered with indigestion since. I believe it will entirely cure me."

Three years later he writes as follows: "Dr. King's Royal Dispepsia Cure cured me of dyspepsia, with which I have been a sufferer for twenty-five years. I consider it a specific for dyspepsia."

Almost all druggists sell Dr. King's Royal Dispepsia Cure, or it will be forwarded express prepaid, on receipt of \$1 by Ellis Lallybeck Drug Co., Memphis, Tenn., ad.

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with
phosphate powder:

68 1/4 Per Cent. Digested

Bread made with
alum powder:

67 1/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

DANGER FROM GRIPPE

Lies in That Cough and Weak, Worn-out Condition.

Grippe, pleurisy, pneumonia, these are greatly to be feared at this time of the year.

To prevent grippe from being followed by other grippe or pneumonia, it is important to drive the last traces of it out of the system quickly.

Our advice is to take Vinol, our delicious cod liver and iron preparation without oil, and get your strength and vitality back quickly.

Mrs. A. A. Grubbs, of Strasburg, Va., says: "Grippe left me weak, run down and with a severe cough, from which I suffered four years. I tried different remedies, but nothing seemed to do me any good until I took Vinol, from which I received great benefit. My cough is almost entirely gone, and I am strong and well again, and I am glad to recommend Vinol to others who suffer as I did."

Try Vinol with the certainty that if it does not benefit you we will give back your money.
