NATION-WIDE DRIVE FOR DISCARDED CLOTHING IS MADE

Needed For Peoples Of War-Stricken European Countries

A nation-wide salvage drive to collect discarded clothing and rags began November 22 and will end on December 4.

It is anticipated that as many as 50,000,000 garments, or 100,000,000 pounds of clothing may be collected in this drive.

There is at the present time a great shortage of clothing in the conquered countries of Europe and it is necessary for America to provide relief. Therefore it is necessary for each of us to turn in the old clothes and rags that are not needed.

Winter is coming, the clothing is needed now; we can not wait, we must give and get the clothes needed at once.

All clothing which the owner has discarded is wanted. We do not want clothing which the owner intends to wear, officials said. People must not dispose of clothing which is still wearable and replace it with new clothing.

All clothing must be donated. All cotton garments should be washed and all woolens should be brushed before the donation is made. Mending is not required.

Bring all such clothing to County Superintendent Prentice Lassiter's office and he will see that it is properly taken care of.

D. Wilson, chairman of the Calloway County Agricultural Adjustment Agency Committee.

The rates of payments are: 35 cents per hundred pounds of whole milk sold; and 4 cents per pound of butterfat sold. Rates of payment for other milk products will be based on butterfat content.

Applications for payments on November and December sales will be made during the month of January 1944.

When the application has been presented and sales records have been approved by the County Committee, a draft will be made on the Commodity Credit Corporation in favor of the producer by a member of the County Committee. This draft can be cashed at any bank.

WHOM SHALL WE THANK?

To whom shall we our thanks be giving; To those who died or those still living; Can we forget the young bodies killed; Forget brother's blood on a foreign field spilled? No... we thank them, thank them humbly and then We thank the ones who will revenge them again But most of all, below the crazy skies, We thank God that our flag still flies!

The Murray farm order said the college now has 134 acres used for its experimental farm and that it is desirable to add to that 94 acres heretofore rented from Mrs. Winona Stevens Jones. She has agreed to sell the tract for \$11,500—the sum the Chief Executive transferred from his emergency funds to pay her. The order said the money would be restored to the State Treasury by or before next June from Murray's revolving fund.

Oldest Paratrooper In U. S. Service Visits Murray

Sgt. Charles E. Burt, the oldest paratrooper in the United States and probably the world, visited Murray Tuesday and Wednesday of this week. At the age of 55, Sgt. Burt, known as "Parachutin' Pop," is still a very colorful old soldier.

On the night of July 9, Sgt. Burt jumped from the door of a troop carrier plane and landed on the rocky shores of Sicily. In making this leap, he broke three bones in his right foot after landing on a jagged rock on the slanting steep.

For this act of gallantry, he was given the Medal of the Purple Heart. After some close maneuvers with the enemy, Sgt. Burt made his way to a first aid station where he was given medical attention. In reaching this station, he aided his other companions wounded and injured from the jumps. The Sergeant was then sent to a Station Hospital near Oran, where he was further treated by medical authorities. After a short stay there he was sent back to the United States for additional care. He has been recovering at the Nichols General Hospital, Louisville. The hospital authorities at Nichols General released him for a while to participate in the Army Air Forces "Air WAC" Campaign ending about December 7, 1943.

In addition to his recognition received in World War II, Sgt. Burt has seen five major conflicts, including St. Mihiel, and Meuse Argonne. He wears the Victory Medal, Mexican Campaign Ribbon, African Campaign Ribbon, and the Army of Occupation Ribbon from the last war.

J. H. RICHMOND, FOR FEDERAL AID, IN MEETING AT LOUISVILLE FRIDAY

Industry-Education Pool Ideas In Five-Panel Forum
Dr. James H. Richmond, president Murray State College and president of Kentucky Education Association, represented Kentucky educators in meeting in Louisville Friday, when the problems of education and industry were pooled in a five panel forum. Walter D. Fuller, president of the Curtis Publishing Company, Philadelphia, and chairman of the committee on cooperation with education of National Association of Manufacturers, represented industry.

The keynote of the meeting was sounded when Mr. Fuller declared "Education and business are like Siamese twins. You cannot put hobbles on one of them without slowing the pace of the other."

Dr. Richmond expressed his concern about teachers leaving the field to take jobs in other professions because of the low salary paid. He stated, "I know of no greater service that business men could render the country than to use their influence in reshaping our school organization so that our teachers may be employed on the same basis as workers in business and banking."

Dr. Richmond emphasized the fact that education needs further aid from Uncle Sam, and stated that 75 per cent of school problems can be solved with money.

THANKSGIVING

Thanksgiving is no longer what it used to be. We can remember the customary family reunions at this season when bountiful tables were set and members of the family and friends traveled long distances to gather around this festive board. Today this is not the case. There will be vacant places at the table and hearts will not be rejoicing over thrills of other days, but our concern will be for things of vital interest—our sons and daughters, fathers, sweethearts, and friends—their welfare—and anxious waiting for the next mail—a telephone call—news of any kind saying they are safe.

Our Thanksgiving has taken on a new meaning. We are thankful for the blessings we enjoy in this time of war. We are thankful that our precious land is still free from the ravages of battle, and that we have had an opportunity to do our part in relieving those in the paths of destruction. We are meeting our challenge to help in the \$6,200 quota of the Calloway County War Fund Drive. Such funds will contribute to a tired nation who is sick of war and what it stands for; it will help little children, some of them in our midst; it will give shelter to the homeless; fun to homesick men all over the world. Thanksgiving means to us here, an opportunity to offer our thanks in prayer for our lads over there, and pray that we may not fail with our duties here.

Next Year Will Be Different

NEXT year will be different. Not only the weather, and markets, and the needs of the country. Our jobs will be different, too. Because next year we are going to do those jobs differently—and we hope better!

We, whose job is producing goods and services, have been making resolutions like this for years. And we've been keeping them! For in our kind of business, you either keep finding better ways of doing things, or you go backward. And if enough people do that, the thing we call progress goes on.

That's why farmers keep using new seed, and fertilizers, and machines, and strains of stock. That's the reason industry carries on research—another surge in a constant search for new knowledge and better ways to do the job. Because more of us have been doing this for years, America has had the highest standard of living in the world. And it's the reason too, that American production is doing so much today to bring victory.

After the war, America is going to need more than ever men, with the courage and enterprise to invent new things, and hard work in the search for better things. All of America's producers understand each other, and each other's problems, and are able to do them all important jobs better. General Electric Co., Schenectady, N. Y.

Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days every week, the kidneys filter waste matter from the blood. If more people were aware of this, the kidneys must constantly remove surplus fluid, excess acids and other waste matter that clogs up the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, prickly or too frequent urination, sometimes worse than anything else, is a sign that the kidneys are not doing their job. You may suffer from backache, headache, dizziness, rheumatic pains, getting up at night, swelling, etc. Do not try to "hold it" or "push it down." You must use a medicine recommended by the country's best doctors to stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

No Extra Session of Legislature

No good reason for it. The New Legislature should organize to carry on, without Executive domination. Judge Willis has been on the Judiciary, and now is on the Executive, and should know the Legislature — three distinct constitutional branches. The General Assembly will be Democratic, and the Executive, Republican. Why not be more distinctive and respect their own branches of government? If any domination by use of patronage in legislation it should be resented. The right to fire any appointive position without reason, should be taken from the executive who does it. The State is now out of debt, with a good surplus, and with the strict laws now on the Statutes to prevent any department running in debt, let us adhere to constitutional government. A Governor should be a servant, not a master.

Well, let me invite you to come to our store for many things we have to keep you warm.

T. O. TURNER

This Thanksgiving Day --- 1943

We are thankful we live in the United States and for the ideals of Liberty and Freedom exemplified in our form of government.

We are thankful for our free institutions and our way of life.

We are thankful that we are able to buy War Bonds voluntarily, so that we may have a personal and direct hand in bringing our loved ones back to us sooner.

We are thankful that we have a part in making our Service men and women happier in USO camps and prisons, in battle lines, and for our part in making the whole suffering world happier by meeting our quota in the Calloway War Fund Drive.

GOD BLESS THEM AND KEEP THEM SAFE FOR US.

BE AN AIR-WAC

Help Bring Them Back...
Answer the Call!

The Army Air Forces has inaugurated a nation-wide campaign to recruit 46,000 women for the WAC under a new plan, whereby women enlisting in the WAC may request assignment to the Air Forces. They will become "Air WACS."

THE REQUIREMENTS ARE SIMPLE: Women must be 20 to 50 years of age, a citizen, without dependents or children under 14 years of age, mentally alert and in good health.

Women enlisting into the Army Air Forces as "Air WACS," may take over one of 100 different positions, releasing one more man for active duty assignments. They take over as radio operators, link trainer instructors, aerial photographers, map makers, repairing and maintaining aircraft equipment, all types of clerical and office work, and many others that are now open to women enlisting in the Air Forces as "Air WACS."

The "AIRWAC" shown at the left is somewhere in England, plotting a bombing map for missions over enemy territory. This is one of the vital things now being done by "AIR WACS" — a part of the plan to speed our victory moment.

The Women's Army Corps is a part of the Army of the United States. WACS are entitled to all of the benefits offered men in the Army, draw equal pay for equal grades. All WAC officers come from the ranks. Every enlisted woman has equal opportunity to compete for officer's training. WACS may date or marry anyone they please. This privilege is not withdrawn by enlisting in the Air Forces as "AIR WACS."

An Army Air Forces "AIR WAC" recruiting team will be located in the Post Office Building November 29, 30 and December 1, here in Murray, Kentucky. Members of this team will include an Air Force officer, an officer of the WAC and two classification specialist enlisted men. They will interview and talk with any prospective women desiring information concerning enlistment into the Air Forces as "AIR WACS."
