LAWS AMENDED

Powerful Warning Signal Required But Its Use Restricted.—Muffler Cut-out Barred.

Hartford, Conn., July 7.—Several amendments to the state automobile laws have just been passed by the Legislature and signed by Governor Baldwin. These amendments were made with two ends in view: to insure the maximum of safety in the operation of motor vehicles, and to eliminate unnecessary noise.

The most important sections deal with brakes, mufflers and warning signals. All cars of over 10 h. p. must be provided with at least two powerful brakes. The motors of all automobiles must be muffled at all times in such a manner that the noise of the exhaust will not constitute a nuisance to the public.

The section relating to warning signals is of especial significance as it closely conforms to similar action taken last month by the state of California and to measures now in effect in over a score of large cities. It provides that every motor vehicle be equipped with a signal device "which shall produce an abrupt sound sufficiently loud to serve as an adequate warning of danger." While making compulsory the use of a powerful signal, the law stipulates that "no person shall make or cause to be made any unnecessary noise with such a signal or use the same except as a warning of danger."

The circumstances attending the passage of this measure are particularly interesting. A member of the Legislature, a non-motorist, introduced a bill making illegal the use of any warning signal except that operated by means of a rubber bulb. The committee to which this was referred made an investigation and found that the bulb horn was entirely inadequate and inefficient as a safety device. The proposed bill was therefore rejected and the present statute providing for the restricted use of a powerful signal substituted. Legislation of this character in the interest of public safety and public comfort has done much toward removing the prejudice often felt by the pedestrian for the motorist.

Red Clover For Calloway.

This is the time to make preparations for next year's sowing of red clover.

Take tobacco land or any medium good upland, prepare it for wheat and after the last breaking disk in not less than two tons (\$2.70 worth) of ground limestone to the acre, sow your wheat and in the last of February or by the middle of March, sow clover. The time, I believe, will carry it through any ordinary drouth. My red clover, sown in rye, is now six to eight inches high and looks well. It was sown the last week in February. The rye is very rank, nevertheless the clover is doing fine, and the ground is hard and dry.

Since I began using lime a year and a half ago there has been about 15 carloads used in the county.

The best results from the use of lime will be first in clover or legume crops, and then grass. My red clover on medium upland where I used two tons per acre of lime was very fine. I weighed some and measured the land and I think it will be conserva-

tive to say that it made two tons to the acre, and alfalfa and sweet clover about the same. I left about one acre of sweet clover that I did not cut and it is now from four to seven feet high and a perfect thickset. It is by all means the greatest soil builder of any of the legume crops and has the same amount of plant food per hundred pounds as red clover and to allow it to grow up five feet high and then turn it under is almost equal to turning under two crops of red clover. It will stand the winter and drouths better than red clover, or alfalfa, stock will eat it the same as red clover after they become accustomed to it. The time to mow is when it is about knee high, as it is two weeks earlier than red clover. I am going to cut some of mine with the wheat binder and shock it for experience. While sweet clover and alfalfa have these virtues, two tons of nice red clover per acre is good enough for us Calloway farmers and for all general purposes. I am inclined to think it the best. Many farmers in the county have limed an acre or more and are trying red clover this year, and as far as I know are well pleased, notwithstanding the dry weather.

In sowing your wheat the cheapest fertilizer to use is 16 per cent avoalable acid phosphate. Several parties in the county have already bought at from \$19 to \$20 per ton, acid phosphate and phosphoric acid which are one and the same thing.

Several of you go in together and get your merchant to order you a car of lime now, and try one or more acres of clover next year. —L. Y. Woodruff.

The King of All Laxatives.

For constipation, headaches, indigestion and dyspepsia, use Dr. Kink's New Life Pills, Paul Mathulka, of Buffalo, N. Y., says they are the "King of all Laxatives." They are a blessing to all my family and I always keep a box at home. Get a box and get well. Price 25c. Recommended by Dale & Stubblefield.

What'd Louisville Have to Pay.

As the cattle buyer climbed out of the livery wagon and began to scrape the mud from his coat, someone suggested: "found that road kinder muddy in spots, didn't you?"

"Muddy in spots," growled the man, "never saw worse anywhere. Why don't you folks get busy and build real roads?"

"Taxes are high enough now."

"Make the rest of the state help you."

"What do you mean?"

"I mean that you people ought to be busy night and day trying to get your representative and your state senator to fight for a law so you might levy a tax of five cents on the hundred dollars and get state aid for road building in every county in Kentucky. I mean that a lot of counties like yours are unwilling to put up a little money to get a much larger amount for road making."

"But taxes are high enough now."

"I understand," continued the cattle man, "but if by a tax of five cents on the hundred dollars you could raise . . . Say, what is the assessed value of this county anyhow?"

"Somewhere about \$2,000,000 I should say."

"Well," continued the man, "five cents on that would give you about \$1,000 for your roads. Under a state aid law that would force the state to pay you somewhere between \$7,000 and \$10,000."

"Where'd that \$10,000. the

FATHER AND SON ENGAGE IN SUNDAY EVENING DUEL

John Lewis Tabors and his son, Johnnie Tabors, engaged in a fight last Sunday afternoon at about 1 o'clock at the home of Rufe Tucker, a son-in-law of the former Tabors, in which both participants were badly wounded. John Lewis Tabors received a shot in the right side and a bullet wound in the left leg, while the son was cut with a knife at the hands of his father and received serious wounds in the neck and hand. Both are recovering from the injuries received. The father is at the Murray Surgical Hospital for treatment while the son was carried to his home in West Murray.

The difficulty occurred at the home of Rufe Tucker in the south part of the city and was witnessed by only a few persons. Just what the cause was that led up to the difficulty is not known. Both are well known citizens and have many friends in the county and who are sorry to learn of the difficulty between father and son. It was one of the most regrettable fights that ever took place in the city, and it is to be hoped that both injured persons will soon recover from the wounds received.

Parties are still very popular in the little burg of Dexter. Mrs. Cathron gave the young folks a party last Friday night, also there was a party at Mr. O. F. Curd's Saturday night. Both were grand successes from the viewpoint of sparkers. Behavior was splendid and if anyone was in the least soused we failed to notice it.

Miss Geneva Gordon has returned to Dexter to make her home.

Mrs. Elizabeth Rappoles, of Paducah, who has been the guest of relatives and friends for the past week, returned to her home Sunday, accompanied by her mother and brother who will spend a few days in Paducah.

Uncle Johnnie Brooks is right sick at this writing.

Bro. Harvey Jones conducted services at the Christian church Sunday evening. The sermon was enjoyed very much.

I hear it whispered around that Syl Ferguson is going to buy a new buggy, and we are a little anxious to know who he is going to haul.

It is strange that Mr. Robley and some of his bridge men continue to come to Dexter on Sunday. Guess Wes Ferguson and others think it strange also.

We had singing at the Methodist church Sunday night. Mr. Oscar Gordon lead, and the singing was fine.

Crops are simply fine around Dexter, better than usual.

There is one redeeming trait about Outland's bridge crew, they don't worry the life out of every one they see, asking them where the next party will be.

Mr. E. Jeffrey and wife finally did get started on that long and much talked about trip. We hope they enjoy themselves.

The W. O. W. unveiling that was to take place next Sunday has been postponed, from what we can hear.

New York, July 8.—Col. Roosevelt left this city Monday for the wild west, to be gone for two months. He announced just before departing that his trip is the beginning of a vacation much needed and long anticipated. The colonel was accompanied by his two sons, Quentin and Archie.

Col. Roosevelt made it known several weeks ago that he was going to take a vacation—a

quiet sojourn unattended by any strenuous side issue like hunting big game. During the colonel's stay in the west, the designations of the mayoralty will be made, but he will have returned to the metropolis before the primaries take place.

He is bound for the Arizona desert, thence the Colorado Canyon. His address for a week will be Hotel El Tovar, Grand Canyon, Ariz. There he will fit out a camping train and then will go into the desert.

There is no big game in the canyon or the Arizona desert. It was explained after the colonel's departure that his sudden determination to begin, unheralded, his vacation, was to prevent the presence of a crowd at the point of departure.

THE MURRAY LEDGER

O. J. JENNINGS, EDITOR.

Entered at the postoffice at Murray, Kentucky, for transmission through the mails as second class matter.

THURSDAY, JULY 10, 1913

A Card to the Voters

To the voters of Calloway county:

The next General Assembly of Kentucky will be confronted with problems of great importance, and in choosing your representative you should be careful to choose men of good judgment and practical knowledge of the needs of the people in the way of legislation. The representative is an official of great importance, invested with power and authority by more than two millions of people, having opportunities for achievements in legislative, which if performed promptly will reflect honor and credit upon himself and bring progress, improvement and development to the state.

The platform upon which the Democratic party won a great victory at the last election places particular stress upon the enactment of some very important laws, and the people are interested in the faithful and prompt compliance with the platform, and as one session has been held and part of the platform has been carried out it remains for the people to choose wise and well equipped men to carry out the pledges of the platform.

Among the important measures endorsed by the Democratic platform is a more efficient and more practical common school system and educational institutions of the state. There is no object of more importance than education. The framers of our constitution showed that they believed that the general dissemination of knowledge was of fundamental importance when they made provisions for sustaining a system of common schools.

The promotion of education is also economy, for it is cheaper to build schools and maintain them than to build poor houses and prisons and support paupers and criminals, and if there is a continuation of the splendid movement that has been fostered in the past by the appreciative legislators and which is now being encouraged by practical men and women in all parts of the state, Kentucky, will in a short time rank in all that promotes education as one of the foremost states in the union.

I am in favor of encouraging in a substantial way the promotion of agriculture in the state, for agriculture is the main spring which keeps the business of the world in motion.

I am in favor of revising the tax system, which is by the report of the state tax commission cumbersome and inadequate to meet the demands for which it was created, inasmuch as it puts the burden of tax upon the holder of real estate and allows the holder of money and bonds to escape. I believe this can be done, in fact, thirteen of our states have revised their system and it has not only lowered the rate of taxation, but at the same time turned into the state treasury enough money to pay off the indebtedness. What has been done by other can be done by us. When you consider the fact that the report of the banks of this state show that they have two hundred million dollars on deposit, and the assessors' books show that only thirty

million, a difference of one hundred and eighty seven million. You can see at once that the former is imposed upon, and the fact stares you in the face that you need a representative from the common class of people who can and will look after your interest in this line.

I am a farmer by birth, and my interest is with the farmers of our county. I have no schemes by which to make it easier to accumulate a fortune or to make it easier to pay for land, but I do believe that if we would or could get some sensible legislation and less foolish bills which only tend to make our taxes higher and burdens harder to bear that we will see that better times, stop appropriating large sums to experiment stations and cut out this fool road law where the people are forced to pay a big road tax and still have to work the roads, as they did in olden times, the foolish expenditure of \$2,200 of the peoples money for bosses when at the same time the work could be more ably performed by the farmers of our county free of charge. It is enough to disgust the average voter and tax payer. I believe it is time for the people to wake up and demand of their representative something more than simply being there and voting. He should take a stand and fight for the people, for if our state is not facing a financial crisis now it never was. Let us profit by the condition of our sister state, Tennessee, which has had such trouble in redeeming herself, and the condition was plainly brought about by the extravagant legislature.

Coincident with the large expenditures is a like addition of office holders; there are hundreds of useless offices which we could abolish and not see the difference. I am in favor of abolishing the numerous offices that can be done without.

Fellow citizens, I propose to introduce a bill in the next session abolishing the county board of equalization, or as it is commonly called, the board of supervisors, whose duty is to meet once each year and supervise the tax books of the county. This board, as you know, is made up of five men, usually two of whom reside in the city of Murray and three in the county. So you see it is impossible to get men who are acquainted with the farm property in all parts of the county, and I am going to say with all respect to men who have served on this board, that this is the most unjust law the tax payers have to put up with. You men who have bought farms lately know the injustice of it. When you list your farm like your neighbor, or possibly higher, as I have in mind a man who bought a farm with very common or poor improvements for \$40 per acre, and he listed at \$14, while his neighbors listed better farms at \$12 an acre. This poor man was raised to \$25 per acre and the neighbor was left alone. I ask you where is the injustice in this? I am in favor of putting this matter into the hands of the magistrates and paying them instead of the assessors. The property and also to make this makes the magistrates office better, inducing men to seek the

office and at the same time remove from our system an old and worn out method that allows the shielding of pets and the imposition that is sometimes put on some individuals.

If you believe these measures would benefit the measures of the people in this county and you think me qualified to fill this office give me your support and no one will try harder to earn his salary than your humble servant.

For Cuts, Burns and Bruises.

In every home there should be a box of Bucklen's Aarica Salve, ready to apply in every case of burns, cuts, wounds or scalds. J. H. Polanco, Delvalle, Tex., R. No. 2, writes: "Bucklen's Aarica Salve saved my little girl's cut foot. No one believed it could be cured." The world's best salve. Only 25c. Recommended by Dale & Stubblefield.

Family Reunion.

One of the most enjoyable times ever known was spent at Mr. F. F. Marr's July 4, 1913. Mr. Marr and wife invited their friends, neighbors and children and there were 121 present. They had one of the finest dinners ever spread which was very much enjoyed. They had lots of good ice cream and plenty of cold lemonade, and good servants to attend to our calls. The picture man from Murray came down and made our pictures and it certainly was a large group. All reported a nice time and returned home happy, except a few that got very sick of eating too much good ice cream. Mr. Tiny Burton came with his graphophone and made some nice music that was greatly appreciated. We think it so nice of Mr. Tom Frank to entertain us so nicely and we hope to enjoy many more nice fourths. —One present.

Rid Your Children of Worms.

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisbin, of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

D. H. Smith Enters Contest.

Louisville, Ky., July 8.—Judge David H. Smith, of Hodgenville, former congressman from the Fourth district who is in Louisville, formally launches his candidacy for the Democratic nomination for United States senator, to be decided in the August, 1914, state primary. Judge Smith has long been looked upon as a most probable entry in the senatorial derby, and his formal entry at this time makes the contest take on an added interest. Judge Smith says he will make a thorough campaign of the state. His formal announcement of the local press is a review of his congressional record and a reiteration of his adherence to Democratic principles.

Fires Cost Over Hundred Million.

Washington, July 8.—Figured out in money, to say nothing of the loss in human life, the cost to the United States annually of supporting its fire population amounts to \$157,800,000, says government experts, who have been making a study of the re-

sults of the germ-spreading activities of those insects.

It is estimated the fly is responsible for an expenditure of \$50,000,000 for the handling of tuberculosis cases, attributed to germs spread by the pests, while \$70,000,000 represents the cost of typhoid fever cases originated in the same way.

As a carrier of intestinal fever and summer diseases and a transporting agency of dysentery, the fly, scientists say, must be charged with an expenditure of \$37,200,000 for the cure of these diseases.

Satisfactory results are repeated in nearly every district where fly campaigns are in progress. In Washington there has been a falling off in the pest horde.

The methods of fighting the fly which have been followed in the capital this summer are endorsed in a bulletin just received from the State Entomologist of Minnesota. The local plan was inaugurated with a cleanup campaign. Since then the method has consisted principally of bringing to the attention of citizens, by means of educational posters, letters and newspaper articles.

Surprising Cure of Stomach Trouble

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. G. Stengle, Plainfield, N. J., writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three fourths of a package of them and can now eat almost everything that I want. For sale by Dale & Stubblefield.

Should Palestine Be Given to the Jews?

Throughout the eighteen long centuries and more that have elapsed since the destruction of the city of Jerusalem, and the dispersion of the Jewish people among all the nations of the earth, the hope has burned in the hearts of all those worthy of the name of "The Children of Abraham," that the time would come when the blessings of the Lord would again be with His chosen people, and they would be restored to the land of promise from which they would never more be plucked up. — Jeremiah 31:27-34.

With this splendid hope in view, and in keeping with the spirit of the day—the spirit of organization and federation, there has been formed what is known as "The Zionist Movement," a distinctly Jewish organization whose avowed purpose is the returning of that people to their own land—the land of their fathers—and which the Lord promised to them for an everlasting possession. "Zionism" is gaining in numbers and influence among the ten millions of Israelites scattered over the whole known world.

Palestine, the Holy Land, by divine promise and by every moral right, belongs to the Jew.

For almost 2520 years it has been under Gentile dominion, therefore, it is now about time for the nations and governments to return the land, now in possession of the Turks, to this enterprising and energetic people. Under their able administration the country would prosper, and Jerusalem would, doubtless, in time become one of the leading cities of the world, commercially, financially, and politically. As it is on the direct line of travel between the East and West, it would become the gateway between the Occident and the Orient, the mart and meeting place for all the peoples of the earth.

Perhaps, as suggested in the ancient Jewish prophecies, the affairs of all nations would be arbitrated and administered at Jerusalem, and thus, in a natural way, the nucleus of a general government would be formed which would promote peace and prosperity among all people. For a beautiful word picture of these ideal conditions read the Prophet Isaiah's description as given in the second chapter and second to fifth verses of his book of writings. —The Wandering Jew.

Pleasure and Protection

"One of the best reasons why I would not be without telephone service," writes a Georgia farmer, "is the pleasure it gives my wife and the knowledge that while I am away, she has the protection that the telephone gives."

On the farm the telephone dispels loneliness and is the means of bringing help in any emergency that may arise.

If you haven't a telephone on your farm see the nearest Bell Telephone Manager or write for our free booklet and learn how little this service costs.

She had been afflicted for the past several years and not until recently was her condition announced critical. She was a splendid christian woman and her death is a very sad one. The burial took place Wednesday of this week at Hazel. She is survived by a husband and children.

Farm For Sale.

Fifty acre farm, 2 1/2 miles west of Murray, on Murray and Brown's Grove road; 35 in cultivation; new 5-room house; 2 tobacco barns; good stables and crib; well, cistern and pond water; good orchard. A very desirable place and will sell at a bargain.—Virgil Wilson. 658 Redden, Ky.

The farmers are very busy with their crops. The land was getting very dry, but we had a very fine rain. Tobacco plants are not so plentiful this year. Health is very good at present

and not a single person in this section that wants to marry—that is a little strange.

About the most interesting job in this section is that of knocking insulators off of the brackets. We try to keep our lines in good serviceable condition, but just when we get them newly built and in good shape, two or three young men will start to a singing on Sunday morning, and its no trouble to find rocks down here on these hills, and the young men can't let the opportunity to throw go and try their marksmanship at the insulators, and they certainly make some center shots. Last Sunday was a noted day with the young men. I did think it was the little boys doing the throwing, but when I got to noticing I found it was some kind of things that called themselves young men. Now, they will go to Sunday school or singing in the forenoon and knock down all the insulators they can, and in the afternoon they will go to visit some man's real nice girl and act like they were angels just come down from heaven, then when they start home they will knock another insulator if it is not so dark they can't see them. Now, young men, I would quit throwing at them. You are sure that you can hit one now without missing; I would throw at something that is not so expensive. I will now say to the young ladies, when you find out the young man that is doing the throwing you will not do your duty if you don't put the rollers to him. Now if you young men don't like what I have said you come over and we will talk the matter over. And I think I can convince you that you are doing wrong. Let me tell you what to do. You ask your father if it is right to knock insulators off, and I honestly believe, he will tell you it is wrong, and not to do it.

With best wishes to the Ledger and its many readers.

Detroit, Texas.

Editor Murray Ledger:—After a long delay I will write a few lines.

Health is fine in this country. The weather is very hot, from 98 to 100 in the shade. Plenty of rain. Grops are the finest I ever seen here. Corn is in roasting ear now and very fine. I have upland corn that will make fifty bushels to the acre, and much of the Red River Valley will make 75 bushels. Cotton is fine, it is said that Texas will make five million (5,000,000) bales if the boll weevil does not ruin it. Gardens are very fine. The Elbertre peaches are getting ripe, and are very fine. Lots of them. Nearly everybody is through work and are ready for the lake and river to fish. Our town is on a boom both in building and trade. Some talk of an interurban railway from Sherman to Texarkana. Road grading and building iron bridges is going on. Well, if I can leave, I want to see all of the Calloway people at the Fair this fall. Don't know yet for I have a large cotton crop to take care of. Will close by saying all of the Kentucky boys out here are doing well, and there is room for more. Your old friend, July 5, '13. J. T. To the voters of Calloway county:

The campaign for the democratic nomination for county officials is now at hand, and on account of being a poor man, I have had to work as a laborer in order to take care of my wife and children and have not had the opportunity of seeing all the voters to personally present my claims for the office of jailer. I have no unkind remarks to make about my opponents. On the other hand I have the highest regard and nothing but kindness for them, but to you who know me, I appeal to you for your support. I need the office and believe that I can give satisfaction to all the people, knowing full well the duties of the office. I ask you to lend me your help, and I promise that if elected I will use all my time and judgement to make you the best jailer the county ever had. From a financial standpoint I need the office as much as anyone, having the misfortune to be afflicted preventing my being able to labor in tobacco all the time. I know the business of a tobacco handler, and if I had my health I would not ask the people for any office, but under the circumstances, I believe that the sober minded citizens of this county are ever ready to help a man in my condition and station in life, and if I do not see you, I sincerely solicit your vote and influence and promise that if elected I will devote my time and energy to make my friends who supported me, as well as others, glad they elected me to this office.

Respectfully and earnestly soliciting your support for this office, and with no ill feelings to anyone, but with the kindest personal regards to all, I am, Yours to serve, John Brandon.

Trained Nursing as Woman's Occupation

By CELIA K. HUSK, Milwaukee, Wis.

Nursing the sick is one of the best professions a woman can take up, provided she is fitted for it. The first and the most important requisite is a love for the work. This must be possessed by every girl who is thinking of becoming a nurse. If she lacks this requisite it is best for her to look to some other channel for an occupation.

Patience, intelligence, a sympathetic nature, a cheerful disposition, personal neatness and cleanliness and, above all, a strong, healthy physical constitution are essential for the successful nurse. The ability and the will to carry out strictly all orders from her superiors is another important quality. A pleasant manner and an agreeable voice are helpful and will add to success.

The only way to become an efficient nurse is to enter a hospital. An ordinary school education with a knowledge of good English are essential preliminaries. In the hospital courses of lectures are given, covering the whole scientific and theoretical part of the subject. And in addition the future nurse receives practical, valuable experience in the care and handling of the sick. Two to three years constitute a complete course, after which the nurse must pass a state board examination in order to obtain her license.

During the course of training most hospitals pay a small monthly salary to the undergraduate nurse. After graduation nurses receive in private work from \$25 to \$35 per week and their board. A particularly capable and intelligent nurse, especially if she possesses executive ability, may in time attain the position of head nurse at some public or private hospital or other institution. These positions pay from \$40 to \$75 per month and maintenance.

While the pay in the latter case is less, the permanency of the position and the sense of responsibility and authority often make it desirable.

Before taking up nursing bear in mind these qualifications: You must have a strong physical constitution, a great love for the work, a sympathetic yet self-controlled and cheerful nature and a strong sense of duty. With these you are bound to become an efficient and successful nurse.

Bachelors Should Be Tagged and Taxed

By JESSIE N. BURNES, San Francisco

The tags cut in some manner to indicate the reason why—say red for voluntary, blue for involuntary, and a common brass tag would properly indicate that common reason, lack of gold.

I'm hardly prepared to go the length of saying this should be made a law. The poor bachelors are kept so busy dodging the laws we now have, that one is tempted to feel sorry for them, but let custom decree the tag, and the thing is done, painlessly.

A good many of 'em are tagged now, though some of 'em don't know it. If you doubt, watch when some hungry news hunter has the luck to put over a story about "Bachelors of Prominence," or "Misfit Fortunes," or something like that. Besides an access of zeal in the dear stalking they are always subject to, you will see his mail double in size, the telephone will ring until he will probably smash it, the callers in his waiting room will remind you of a bread line, and chances are that inside of ten days he will go fishing. He has to. Even a married man couldn't stand the strain.

Perhaps a gentler custom than tagging could be devised, such, for instance, as that in use for "Miss" and "Mrs." If bachelors could know what a protection that is—what a stay and prop, what an insurance of what one wants and against what one doesn't want, they'd beg for it!

Lodgings of Right Sort for Poor Boys

By J. B. NORTON, Kansas City, Mo.

Young men, likewise working for small pay, are much better off in this respect.

Kansas City is endeavoring to provide lodgings of the right sort for the homeless boy who is barely self-supporting. In that city a hotel has been built to accommodate this class of youths.

In October, 1910, a campaign was started and \$65,000 was raised for this purpose. One year afterward a building that would accommodate 120 boys was in operation, equipped with all the necessities that a boy should have to aid his physical and mental growth and to instill into him the proper understanding of his position before the world. Here he finds a real home, a large reception room, library, game rooms, gymnasium, shower baths and a night school (furnished by the board of education) presided over by competent teachers—everything, in fact, that a boy should have.

For this he must pay one-half of his income, not to exceed \$3 a week. When he has advanced so that he earns \$10 a week he is found a boarding place in a good neighborhood and must leave the hotel, thus making room for the poorer boy who is at all times seeking admission.

Cool Drinks Needed for the Hot Season

By Miss Martha Baxter, Poplar Bluff, Mo.

Now that the hot days have come let us try to have our meals pleasant and healthful at the same time.

Arrange the table in some neat, dainty way and place flowers about the room. Men just come in from the field, tired and hungry never like a lot of flowers standing in their way. So leave the table minus the flowers.

The general diet of vegetables, etc., should be in the plainest way. Always try to have dinner and supper ready when the men come from work and see how they will appreciate any effort for their comfort.

Have some cool drink or some delicacy if possible. Just anything, like lemonade, strawberry, orange or peachade. These are inexpensive and easy to make. Oranges and bananas cut in small pieces mixed with a little sugar make a good salad. A little pineapple flavoring makes a most desirable ingredient.

Any of these are made to taste better if placed in the refrigerator for a few minutes or small pieces of ice may be placed in the glasses. If you do not own a refrigerator some fresh, cool water from the pump will do.

Strawberries and cream are about the nicest dish one can serve. Peaches are delicious served this way.

ECZEMA ITCHED AND BURNED

R. F. D. No. 8, Maryville, Tenn.—"My baby, when three months old, took eczema on his face and head. His head and one side of his face were almost in a solid sore. The eczema at first was kind of a rash and then it broke out in water pimples and they would burst and looked very badly. It would itch and burn so badly that he could not rest at all and his hair just all fell out at once till his head was perfectly bald. He could not sleep at night and was very cross. I tried remedies without any relief at all; he only got worse all the time until I used Cuticura Soap and Ointment. He had great relief the first application. He was soon cured and his hair began to grow back and now he has just beautiful fine hair and has no sign of eczema." (Signed) Mrs. H. D. Clabough, Jan. 28, 1913. Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

After This He Went.

It was getting very late, and the deer girl had smothered yawn after yawn. Still Mr. Stylate showed no signs of going home. Her wound up the clock. Mother let the cat out, and still he stayed and stayed.

"Won't you sing something, Miss Minnie?" he suddenly asked.

"Why, Mr. Stylate," she replied, with another yawn, "don't you know it is considered unlucky to sing before breakfast?"

Recipe for Making Jokes.

There is nothing any easier than writing jokes. Simply jot down your ideas for the jokes, say two or three hundred, on a slip of paper; then seat yourself before a typewriter. Feed blank paper into the typewriter and inject the ideas through your fingertips into the keys. Continue to do this until all of the ideas on the slip are exhausted, then gather up the jokes, which have piled themselves into a heap on the opposite side of the typewriter, send them to editors and receive your checks. A couple of hours a day spent in this manner should bring you in revenue enough to support a wife and nine children, run a six-cylinder touring car and buy bonbons for a soul-mate. Try it.

CAPTAIN KNEW HIS VISITOR

Also Realized That Even Superdreadnought Would Be Imperiled by Presence of Idiot.

The brand-new battleship of the superdreadnought type had been thrown open to visitors. Her captain stood at the gangway receiving his guests, pride and delight in his significant vessel shining in every lineament. Suddenly his gaze concentrated upon an approaching figure. His face grew pale to the lips; he shook in every fiber. Controlling his terror by a mighty effort, he turned hastily to his executive officer.

"Clear for action, Mr. Blood-diet," he cried. "Beat to quarters. Load with grape. Order the marines to concentrate behind me, prepared to repel boarders."

"Aye, aye, sir," responded the officer promptly, although thoroughly bewildered.

The blood returned to the captain's face and he regained his composure as he remarked how quickly his orders were carried out, and how they were prepared to meet their formidable foe successfully. When his executive officer brought the object of his fears, he was close aboard. "Hello, cap'n!" he cried, a vacuous smile playing about his weak mouth.

"Hark!" shouted the captain sternly. "Back, or I'll blow you up!"

"Say, cap'n, that's what you seem to be doing," responded the enemy, giggling.

"Don't you try to set foot on board my ship," continued the captain vehemently. "I'm going to jeer you, boat crew and visitors for your pleasure."

"Oh, say, cap'n," remonstrated the enemy with another silly grin, "don't you know me?"

"You must be. You're the idiot that rocks the boat, and you shall not come on board mine."

Bees Addicted to "Dope."

Just add this one to all the queer things that have happened in the year of grace 1913 and believe it's true, because W. E. Baker, deputy auditor of the state of Ohio, says he can prove it.

The honey bees near Fostoria, which is Baker's home town, have contracted the opium habit. Like the Chinese, they get theirs from the poppy. Baker and many other residents of Fostoria grow oriental poppies.

The bees have found this out, and of late they are leaving acres of clover blossoms to hunt out the poppy beds. They work very vigorously for an hour or so and then fall to the ground apparently as stupefied as are opium smokers after hitting the pipe.—Fostoria (Ohio) dispatch to New York Sun.

Didn't Know Where to Stop.

"The great men are all dead," she said, with evident regret.

"But the beautiful women are not," he replied, looking earnestly at her.

"Of course," she added, after a moment's reflection, "I always except present company."

"So do I," he said.

Then she asked if he would be good enough to conduct her to her husband.—Judge.

Let Them Wear Them!

It is observed that one or two tasteless advocates of embellishment of the male dress are writing to the papers declaring that he should be allowed by custom to wear not only bracelets, but earrings, too, if they desire. Well, who prevents them? They can wear both if they wish. They can also do better and wear nose rings, which would be a more truly American adornment, inherited from the real natives of this country.—Pittsburgh Dispatch.

Obituary.

Alice Robinson, wife of Chas. Robinson, was born April 23, 1886, and died July 4, 1913, age 27 years, 2 months and 11 days. She professed faith in Christ at an early age, and joined the Cumberland Presbyterian church. She was married to C. C. Robinson December 30, 1906. This union was blessed with two children who are still living. She was a kind companion, a devoted mother, a true friend and a faithful Christian. She loved her home, family and friends. She loved the church and service of God; to know her was to love her. She had been afflicted for several months, but bore her afflictions with patience even to the end. She met death as a Christian and said she was ready to go. She leaves a broken hearted husband and children together with a host of relatives and friends to mourn her loss. It was sad to part with her, but God doeth all things well and we must submit to his will. She cannot come back to us but we can go to her. Her funeral services were conducted by Rev. Dee Rudolph, after which her remains were laid to rest in the Dale graveyard where a large crowd of sorrowing relatives and friends gathered to pay the last tribute of respect to one they loved. May God's blessing be bestowed upon the bereaved family and relatives and bring them to a happy reunion in heaven, where parting is no more.—A Sister E. H.

Miss Bertie Davis Among June Brides.

At the First Methodist Episcopal church Monday night shortly before 11 o'clock, Pastor Cameron Harmon presiding, John Pigott, son of E. D. Pigott, and machinist at the Mobile and Ohio railway shops, took to wife Miss Bertie Lyle Davis, daughter of Mr. and Mrs. A. J. Davis, 1504 Elm street.

The marriage was a quiet one, and shortly after taking the obligations of wedlock the couple departed via the Mobile and Ohio railroad for Mobile, Ala. From Mobile they will go by boat to Tampa, Fla., and thence to Cuba, returning home within three or four weeks.

Mr. and Mrs. Pigott will be at home to their friends at the Cooper Stouder residence property near the Murphysboro Township High school within a few weeks, just the exact time when they will receive not being stated.

The bride is young, of a prepossessing manner, attractive and one who finds it easy to cultivate new friendships everywhere she does. She is the younger sister of Mrs. G. W. Andrews, who was married a comparatively short time ago.

The bridegroom is known throughout the city as a model young gentleman, and is in the favor of the M. & O. shop officials for the showing he has made as a machinist in the shops where he served his apprenticeship.—Murphysboro Express.

The Best Medicine in the World.

"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her, and I can truthfully say that I think it is the best medicine in the world," writes Mrs. William Orvis, Clare, Mich. For sale by Dale & Stubblefield.

Cannot Vote in County Races.

Frankfort, Ky., June 29.—Constructing the act of 1912 regarding the suffrage of women in school elections, Superintendent of Public Instruction Hamlet today gave an opinion in which he holds that women are not entitled to vote for county school superintendents. He favors women voting in the following language:

"Since women are entitled to hold the office of county superintendent and are among the best county superintendents in the state, I favor now and always have, giving the qualified voters of the state the right to vote in these elections the same as in all other school elections."

"I regret that the act of 1912 appears, however, not to have been sufficient to bestow this right, and I hope that some way may be found by the next legislature to give the women of this state the right to vote in all elections effecting the educational welfare of this commonwealth."

Causes of Stomach Troubles.

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overeating, parting of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale by Dale & Stubblefield.

The Almo Picnic.

The Confederate reunion and picnic will begin at the Almo park, Saturday, July 26th. The occasion promises to be one of the most largely attended ever held in the county. The Almo band will furnish the music and have charge of the grounds.
