Circuit Court Convened.

The regular August term of the Calloway County Circuit Court was convened here Monday of this week by Judge J. T. Hanberry. The jury were empanelled the first day and after the usual charge by the judge the grand jury settled down to business. This body has been very busy and quite a number

KILLED

Rob Parker Shoots and Instantly Kills Van Elkins--Both Well Known Citizens.

Last Friday morning as Van Elkins was passing the home of Rob Parker in company with Tom Givens in a buggy enroute to Murray Parker came out of his home with a shot gun in his hand and stopped the animal and after a few words with Elkins fired point blank at him, the load finding lodgement in the head from the effects of which Elkins died in a few minutes. Elkins had returned Thursday from Perryville, Tenn., where he had been employed for the past two months in the timber business. He reached home on Thursday before sundown and early next morning started to town with Mr. Givens when he was killed. Parker telephoned to Sheriff Jordan and he was brought to town in the afternoon and lodged in jail. The grand jury investigated the case Monday of this week and Tuesday returned an indictment against Parker charging him with wilful murder. He was arraigned before Judge Hanberry Wednesday and his case set for trial Tuesday of next week.

The killing grew out of trouble that existed between the parties and of long standing. It is alleged that some few months ago Elkins went to the Parker home and became involved in some way with Mrs. Parker and that he was warned to leave the community by Parker and never return upon penalty of death. The Ledger is not acquainted with any of the facts but takes it for granted that the testimony that will be produced at the trial will show the cause leading up to the deplorable occurrence.

The remains of Elkins were buried Saturday in the Ferguson grave yard in the presence of one of the largest crowds ever gathered there. The services were conducted by Rev. John Stewart. Elkins was about 22 years of age and was a son of D. W. Elkins and is survived by his parents and several brothers and sisters.

TO GRAVEL ROAD

Scheme Comes Out From Benton to Gravel Road from Paducah to Murray. Lively Idea.

A scheme to gravel the public roads from Paducah to Murray in two days comes out of Benton. The proposition is not so visionary as it might seem at first blush; certainly it is worth trying. And it is up to the people interested to make the trial. The idea is to prepare the road the first day and gravel it the next, or to grade and gravel it as the teams and men move along. The men and teams to do the work, say the projectors of the scheme can be had; the industry and liberality of the people in Paducah, Benton and Murray and along the road are expected to supply them.

In lieu of men to work the road-way and teams to help in the hauling of dirt and gravel contributions to pay for the men and teams which may be needed will be solicited and accepted. It is believed that these voluntary donations will be very liberal.

October 1st and 2nd are named as the days for the work, and in the meantime the idea is to be pressed, and names of men to work and donations, etc., are to be solicited. An organization will be effected to foster these things.

The road from here to Benton already graveled, but five miles need repairing badly. Part of the road from Benton to Murray--about five miles--is graveled and the dirt part of the road is not very bad.

The newspapers here and at Murray and Benton are asked to press the idea. The News-Democrat will endeavor to do its part. Others no doubt will be as responsive. News-Democrat.

QUIET ELECTION

First State Primary Passed With Much Enthusiasm and Vote Polled in the County.

The first primary election held under the new state primary law passed off very quietly throughout Calloway county. An eager interest was taken in the selection of the democratic candidates and one of the largest primary votes ever cast in the county was polled in this contest. The result in many of the races was very close and the successful aspirants only won their nominations by very narrow margins. The contest for the nomination for sheriff attracted possibly the greatest attention, and a close second was the race for superintendent of county schools.

So far as has been reported no disorder of any character occurred at any of the sixteen voting places in the county. It was a friendly contest and upon the whole was waged in a good humored and friendly manner. Some few of the disappointed aspirants feel a little "sore" over the result and there is some rumor of contest, how well grounded the Ledger is not able to state, but the people are fairly well satisfied with the result and accept the result as the honestly expressed wishes of the people. The result of the election proves the success of the new election law as a whole, while there is some grounds for complaint and it is freely predicted that some changes will be made by the next legislature. It is safe to say, however, that the people of Kentucky would not again revert to the old partisan, political, crooked manner of holding primary elections.

The full official vote of county, city and districts is published in this issue of the Ledger and is worth filing for future reference.

Residence Destroyed by Fire.

The home of Dr. R. L. Grogan, on North Curd street, was destroyed by fire Friday morning at about 11:20 o'clock from fire that originated about the kitchen flue. The building was a total loss together with nearly all of the contents. He carried about \$900 insurance.

NEWT IS SORE

Defeated Candidate For Representative In Marshall-Lyon District.

Eddyville, Ky., Aug. 5--Charging that the Republicans, who had no contest, cast only one vote to a precinct for their own candidates, and that 1,200 voted in the Democratic primary for Johnson for representative, N. W. Utley will probably contest the result. Utley, on the face of the returns, was defeated by 100 votes.

Charges of fraud and corruption have been heard from every side since the balloting Saturday.

Utley carried Lyon county by 500 majority, but in Marshall county Johnson's majority was 600. It was in Marshall county that the Republicans are alleged to have thrown their influence to Johnson by voting for him.

Joe Wear, of Wickliffe, who has been the guest of relatives and friends here several days, left Thursday morning for Murray, where he has a position in a drug store with his uncle, Benton Tribune-Democrat.

HIS THANKS

Nominee H. E. Holton, For Mayor, Expresses Gratitude and Solicits Co-operation of All.

To The Citizens of Murray: I desire to sincerely thank the whole people of our city for their support at last Saturday's primary election. I received the nomination for mayor at the hands of the best citizens of Murray, and of this I am sure. Certain insinuations to the contrary and to the effect that improper means were used to secure the nomination are absolutely and wholly untrue. The pronounced majority which gave me the nomination could not have existed without the co-operation of our best citizenship, and any suggestion to the contrary is a reflection upon them. I feel no malice toward anyone, but desire that all the people of our beautiful and growing city may join hands in an effort to build up and not to tear down. Had I been defeated instead of nominated I should have done in the future as in the past, all that I could do to assist a new administration, because it should be the purpose of real citizen-

CURRENCY BILL IS
READY FOR REPORT

THREE DEMOCRATS OF THE HOUSE
COMMITTEE OPPOSED TO IT.

FEW CHANGES WERE MADE

Federal Reserve Board Will Remain Under Government Control, but a Board of Bankers Will Be Named.

Washington, Aug. 10.—Consideration of the administration currency bill was practically concluded Friday by the Democrats of the house banking committee, after more than five weeks of constant and stormy discussion. The bill will go to the caucus with the disapproval of at least three members of the committee, it was virtually certain.

As closed the bill differs little in its essentials from the administration measure framed by Representative Glass, Chairman Owen of the senate committee and Secretary of the Treasury McAdoo, and approved by President Wilson.

Complete government control of the federal reserve board, which will direct the new banking and currency system, deemed by the president the all-important factor of the bill, was retained. At the eleventh hour Democratic members of the committee incorporated an amendment providing for an advisory board of bankers to "advise" the federal reserve board. This amendment was a compromise with the banking interests, which protested vigorously against the exclusively governmental feature of the control of the board.

Another important amendment incorporated in the bill altered the redistribution of the power to require federal reserve banks mutually to reduce currency. A change was made by the division of the earnings of the federal reserve banks created by the law. Originally the banks were allowed a yearly cumulative dividend of five per cent and a surplus equal to 20 per cent of the paid-up capital stock. All earnings above these amounts were to be distributed to the government.

As amended the balance of earnings after the five per cent dividend and the 20 per cent surplus will be paid 60 per cent to the government to be used as a sinking fund to reduce the national debt, and 40 per cent to be divided among the members banks in proportion to their balances in the federal reserve bank concerned. In the reserve section the committee reduced the period during which a bank must hold a 25 per cent reserve against deposits from 26 months to 60 days.

As finally passed, the reserve section requires that after a period of gradual changes, the country banks must hold 15 per cent in reserve against their own vaults or in the federal reserve bank of the district in which they are located.

NOT INCLINED TO
RECOGNISE HUERTA

PRESIDENT PRACTICALLY VETOES
ADVICE OF AMBASSADOR.

LATTER MAY HAVE TO QUIT

Suggest New Plan of Having Huerta Advocate in Favor of Provisional Congress. Cannot Name Successor Without Huerta Recognition.

Washington, Aug. 10.—Ambassador Henry Lane Wilson, summoned from Mexico City to inform the Washington administration of conditions in the rebellion-torn republic, talked for an hour with President Wilson and Secretary Bryan Monday, submitting chiefly a recommendation that the United States use its influence to stabilize the Huerta regime.

No policy was evolved—at least none was announced—but it became known that the president's ideas and those of Ambassador Wilson as to the course to be pursued are so radically different that administration officials interpreted the day's developments as forecasting the acceptance of Ambassador Wilson's resignation.

President Wilson and the ambassador, regard the future of the Mexican situation, it was learned, from opposite viewpoints. The president is concerned over the morality of any policy adopted by the United States and its effect on other Latin American countries, and is disinclined to strengthen a government that came into power through the questionable events incident to Huerta's assumption.

Ambassador Wilson, on the other hand, is disposed to look at the situation not from past events, but with the practical idea of the future. He believes it is the business of governments to look to the future, and he suggests that the United States should not be concerned with the morality of the government that came into power through the questionable events incident to Huerta's assumption.

While the chief officers of the American government were debating the facts of the situation, it became known that a movement was on foot which might eventually place them in the hands of the Huerta government, upon which the national pride of Mexico is sensitive.

The plan contemplates a repetition of the process by which Diaz abdicated in favor of a provisional president, except that the Huerta government is to be the one to assume power.

President Huerta, it is suggested in the peace plan, might be persuaded by his friends that, with the desperate financial condition of Mexico, his resignation would be an act of patriotism and self-sacrifice. He would be asked to name a minister of foreign relations, a post now vacant, so that through the minister would succeed him as provisional president.

Thomas M. McSwain, of Detroit, walked out of the prison gates Wednesday after serving 34 years for the murder of James L. Robbins, a policeman, at Rockland in 1879. At midnight his sister, Mrs. F. H. Rogers of Detroit, telephoned the prisoner that Gov. Haines had pardoned him.

"The battle is won," Haines told Warden Ham, "but I hate to leave."

Outside the prison he held a reception for a big crowd who knew him as a model prisoner.

"I am willing to forgive and forget," he said. "The prison has been a good thing for me. I feel that I have paid my bill to society. I have been in prison since I was 17 years old, but I have spent the better part of my life trying to be useful. There is no failure in such a life as that."

146 HURT IN WRECK
ON PENNSYLVANIA

ONLY ONE KILLED AND BUT ONE
DANGEROUSLY INJURED.

EXPRESS HITS PASSENGER

Both Trains Were of Steel Construction and This Probably Accounts for the Small Number of Fatalities.

Altoona, Pa.—One man was killed and 146 passengers and trainmen were injured, only one dangerously, Wednesday, when a fast express crashed into the rear end of a passenger train on the Pennsylvania railroad at Lyons, 15 miles east of this city. All of the injured except 75 men, who are being cared for in the Altoona hospital, were able to continue their journey. Both trains were of steel construction and this is believed to explain the fact that there were not more casualties.

George K. Funk, engineer of Harrisburg, Pa., was the only person killed. West-bound passenger train No. 14, known as the Pittsburgh Express, which already started out of the station when No. 13, a fast express from Philadelphia for the west, traveling about 30 miles an hour, came around a curve and plunged into the parlor car on the rear of No. 13.

The locomotive and three cars of No. 13, and the front coach car of the Pittsburgh Express were derailed. When the locomotive lurched over Funk was crushed against the railroad track and instantly killed. Most of the passengers were in the last two cars of train No. 13, which received the brunt of the shock.

CURRENCY BILL

WANT THE SESSION ENDED

Republicans Willing to Let Tariff Pass in Due Time Provided the Currency Bill is Carried Over, Says Gallinger.

Washington, Aug. 10.—Republican senators made it clear Tuesday that they do not propose to hasten consideration of the tariff bill if the president and Democratic leaders of congress are going to insist upon the enactment of currency legislation at this session. Senator Gallinger declared that the Republicans were in no temper to be forced, and Senator Lodge insisted that assurances of a prolonged summer session would not be conducive to hastening the tariff action.

Discussion on this point arose when Senator Gallinger sought information as to the intent of the Democrats. Senator Simmons said he hoped that the Republicans were not making threats to purposely delay passage of the tariff, which all business interests wanted settled speedily. Republican senators assured that they were making no threats, but that it was bound to follow that there would be little haste with the tariff on the floor.

Senator Gallinger said that pending in the morning papers every day that the president would insist on holding congress here to enact currency legislation would not speed up action on the tariff.

Senator Lodge added that it was most unwise to demand action on such important legislation as the currency of a "credulous congress."

Progressive Republicans disclaimed any intention to delay voting on the tariff unnecessarily despite what also might be in store. Senator Borah declaring that statements to the contrary from other sources did not express the view of all on the minority side.

Abdomen Skin on Hand.
Remarkable Operation Performed at Johns Hopkins Hospital.

Baltimore.—Wearing the skin of his own abdomen upon his right hand, Dr. Frederick H. Bietinger of Baltimore, an X-ray expert, is recovering from a remarkable operation at Johns Hopkins Hospital.

To save his hand, four fingers of which were amputated a year ago after an infection caused by X-rays, a piece of skin the shape of the main member was turned back from the abdomen, the injured hand bound tightly to the wound and the skin laid over it.

Then, after a while, the work of severing the ends of the skin attached to the right hand began. It is nearly finished now and it is believed that Dr. Bietinger's hand will be sound and whole save for the missing fingers.

Tossed Coins to Decide the Race.

Hopkinsville, Ky., Aug. 7. Coins were tossed Wednesday morning to decide the tie vote between Ira D. Smith and Frank Rives, rival candidates before last Saturday's primary election for County Attorney.

Mr. Smith won both tosses and he will be issued a certificate of election the same as if he had received a majority on the face of the returns.

When the Election Commissioners met there was some more discussion as to the law pertaining to such matters, both candidates really wanting a recount of the vote that was cast. But the Election Commissioners decided, and in this they were upheld by the opinion of all the attorneys present, that they had no right to go into the boxes for any such purpose, and that the only way to decide the matter was by lot.

Mr. Smith had contended that if he and Mr. Rives agreed for a recount to be made the Election Commission might then go over the ballots in the precincts designated. Mr. Rives held the opposite view, holding that the commission did not have such a right and that all they could do was to pass on the returns and then if a recount should still be desired it could only be secured by one of the parties contesting the election and have the contest come up in manner specified by law.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Louis hospital, also a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now alright." Sold by Dale & Stubblefield.

Dies Away From Home.

The remains of Miss Annie Lee Dunn, daughter of Mrs. Madie Dunn, of this city, were received here by relatives Tuesday at noon. Miss Dunn left Murray last fall to spend several months at Apache, Ok., with Miss Jesse Wells, hoping that a change of climate would benefit her health. She improved considerably until late in the winter when she was stricken with the grip. Some week or ten days ago she contracted typhoid fever and died last Sunday. Mrs. Lee Dunn, of Wetumka, Ok., accompanied the remains to Murray. The funeral services were held at the residence Wednesday morning after which the body was carried to Mr. Carmel's grave yard for burial. Deceased is survived by her mother and two sisters together with many other relatives. She was one of the most popular young ladies of the city and her death brings sadness to all who knew her.

Postmaster Resigns.

Eddyville, Ky., August 5. Terry T. Hansberry, one of the most popular postmasters Eddyville has ever had, resigned Monday. Mr. Hansberry is a Republican, and he felt that he was in duty bound to hand in his resignation in view of the fact that there is a Democratic administration in Washington.

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 175 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief." writes B. W. Hill, of Snow Hill, N. C. For sale by Dale & Stubblefield.

Farmington, Ky.

Since my last writing the Lord has seen fit to come into my home and take from me the best friend I had on earth my precious mother, Mrs. Nancy Elizabeth Glass. The subject of this sketch was born June 26th, 1837, departed this life July 7th, 1913, aged 76 years and 11 days. In 1855 she was married to Rev. Jas. Glass, to this beautiful union of love God sent ten children, all living except two, they having been called to their eternal home. In February, 1881, father was called to come up higher, leaving mother with nine little fatherless children to battle life's rugged height by herself. But she did like the true Christian she was, never faltering, and raised those little infants to manhood and womanhood. She had a hard road to travel, but always looked to a higher power, praying that she might be permitted

to live to see her children grown and married. As her prayers had been answered, the Lord said "come, it's finished." Mothers stay with us was a long time, much longer than most mothers will stay with their children; but, oh, our hearts did break with sorrow when the time came to say goodbye and give up our darling mother. While it seems so hard to give this precious one up we need only to think on the bright side of life, for dear mother is not dead, only sleeping in the blessed arms of Jesus where she will await our coming, what a happy thought that when we knock at the Pearly Gates, that mother will be the first to welcome us in.

Farewell, dear mother, death can never

Chill the love we have for thee, Nor thy strong affection ever

Till again thy face we see.

July 15, Mrs. Luther Fisk, 1913.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be lost forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular free.

Saturated Clothes With Oil.

Paris, Tenn., Aug. 5. One of the most tragic deaths which has occurred in Henry county in years was the suicide of Mrs. G. W. Brown, of the family residence on the Point Mason road, six miles east of here. She saturated her clothes with coal oil and then applied a match. When her husband, who is 55 years of age, found her, she was a charred mass, but lived long enough to tell him of her deed. Some months ago she suffered a stroke of paralysis, which is said to have affected her mind. Mrs. Brown expressed regret at what she had done, but said it was too late.

Her husband was absent from the house only a few minutes, having gone to hitch up the family horse to take his wife to the home of one of their children. They had resided on the farm alone for several years after rearing five daughters and two sons.

Good Reason for His Enthusiasm

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he is often inclined to be enthusiastic in his praise of the remedy, and especially in this case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by Dale & Stubblefield.

Amos L. Story Probable Candidate.

Among the prospective candidates for various county offices the name of Amos L. Story is being prominently mentioned for sheriff. We are not in a position to state positively that Mr. Story will enter the race, but it is predicted by many that his mainly course in withdrawing from the last race in this county was a quantity of time and money which should be devoted to what into the ring.

Money and Boys Missing

A warrant was sworn out before E. W. T. Snow this week for Jno. Ballard and Walter Ezell, charging them with taking \$32 from Comos Alexander. Alexander resides at Kirksey, Ky., and came to Paris where he sold his horse. He fell in with Ballard and Ezell. It seems that he displayed his purse and one of them took it, after which both disappeared. Paris Post-Intelligencer.

Notice.

To all Whom it may Concern: I have this day emancipated and set my son, Monroe Wilson, free to contract and be contracted with, sue and be sued as a party of full age and the public at large is hereby notified that they are at perfect liberty to make any contract they see fit and that I, Virgil Wilson, his father, make no claim to his services and the public is also notified that I will not be responsible for any debts he may contract. Given under my hand this 28th day of July, 1913. Virgil Wilson. 7314

Card of Thanks.

We wish to take this method of extending our thanks to the many friends who so tenderly administered to us and our dear boy who was so cruelly slain last week. Your kindness will never be forgotten and it is our sincere hope and prayer that such a calamity will never come into your lives, and when any character of misfortune befalls you we hope that you will have the sympathy and love of such friends as we did. D. W. Elkins and family.

City Tax Books Now Ready.

The taxpayers of the city of Murray are notified that the tax books for the year 1913 have been delivered to me by the city clerk and I am now ready to receipt you for this year's taxes. The taxpayers are urged to be as prompt as possible in payment of taxes. The city is in need of the funds and I am compelled to make an early settlement. Please be ready to meet the demand when I call upon you. Everett Roberts, Chief of Police.

A CARD

FELLOW CITIZENS: I take this method of extending to you my appreciation and thanks for the vote you gave me last Saturday for the Democratic nomination for sheriff of our county, especially to the magisterial districts of Hazek, Murray, Wadesboro and Liberty, which I carried over either of my opponents. I shall continue to live among you and be of what service I can to the people who have been so good to me. I shall support Mr. Patterson as the nominee, who only defeated me by twenty-one votes, and do all I can to help him make Calloway county a good sheriff. It will always be my pleasure and desire to help in any way possible to harmonize the interests of our county and thereby make Calloway county a great force for good.

I have made a clean and honorable race and my defeat is at your hands and I submit to the power that should rule, The Great Common People. It is my intention, now, to stay and live among you, and if kind Providence spares me and circumstances will permit, I will again seek the nomination for sheriff four years hence. I am persuaded to do this because I am the second man of your choice by the narrow margin of twenty-one votes.

So thanking you again, one and all for the kind treatment received by me and in your homes and trusting some day to be in position to in some way help you. I am,

Yours to serve,

DEE HOUSTON.

Meat Problem.

The figures below come from the Census Bureau and the Department of Agriculture. In 1907, the population of the United States was in round numbers 87 million people. Number of cattle 72 million. In 1913, 96 million people and 56 million cattle. Now see from the above, that the number of consumers increased 11 million and cattle decreased 16 million. From the above you will observe that the prospects of getting a cheap beef cow in the near future is not likely to occur, consequently had you not better see B. F. Schroeder and buy one of his 800 acre tracts of land and make you a cattle and sheep ranch. You cannot invest in a more profitable business at this time. You can buy now cheap, and the land will make an ideal pasture. Come and see about it and hear how cheap we will sell it to you on easy terms. One 800 acre tract \$4,000. People think and reason about the proposition, follow a business that is a pleasure and not a hardship. There is more money in stock raising and more pleasure than in anything in this county, you well know. B. F. Schroeder, Murray, Ky. 7312. Remember Johnson's 5c, 10c, and 25c. store when in town. 65

The Telephone and Good Roads

The telephone goes hand in hand with good roads.

The telephone overcomes many of the obstacles of bad roads and makes it possible for the farmer and other rural residents to transact business in the city and with neighbors when the roads are impassable.

Progressive farmers are insisting upon good roads and telephones. These two agencies of modern civilization are doing more than all others toward eliminating the isolation of country life. You can have a telephone in your home at very small cost. Send a postal for our free booklet giving complete information.

ORGANIZING

Effort Being Made to Form Com-
pany For Purpose of Install-
ing Sewerage System.

Mr. Geo. Overby, one of Cal-
loway county's most progress-
ive farmers, and a great friend
of the city of Murray where he
owns property and has business
interests, is making endeavor to
organize a stock company for
the purpose of constructing and
operating a sewerage system for
the city of Murray. Thus far
Mr. Overby has been very suc-
cessful in his efforts and has
met with splendid encourage-
ment. He expects to organize
with a capital stock of \$10,000,
and as quickly as the stock is
subscribed will organize the
company and commence the con-
struction of the plant.

Beyond question this is the
most needed improvement that
could be made in the city and
the Ledger predicts that it will
be a most splendid investment
from a financial standpoint. Al-
ready scores of the citizens are
making preparations to build
septic tanks at quite a cost to
each builder, but if the efforts
being put forth at this time are
successful this private expense
will be abolished and a much
better system will be installed.
Mr. Overby should receive the
heartiest co-operation of the citi-
zens and those who are in a po-
sition should be liberal subscrib-
ers to the capital stock.

Blacksmith Shop Destroyed.

The blacksmith shop of Maude
Clark, on depot street, was de-
stroyed by fire last Monday
morning at about 4 o'clock to-
gether with the contents of the
building. The Buick car of Lu-
bie Veal was in the shop and
was destroyed. Mr. Veal car-
ried \$1,000 insurance on the car
while Mr. Clark had no insurance
on the building or contents. The
fire is supposed to have origi-
nated from the explosion of the
tail lamp on the Veal car.

**Mothers! Have Your Children
Worms?**

Are they feverish, restless,
nervous, irritable, dizzy or op-
timated? Do they continually
pick their nose or grind their
teeth? Have they cramping
pains, irregular and ravenous
appetite? These are all signs of
worms. Worms not only cause
your child suffering, but stunt its
mind and growth. Give "Kick-
apoo Worm Killer" at once. It
kills and removes the worms, im-
proves your child's appetite, regu-
lates stomach, liver, and bow-
els. The symptoms disappear
and your child is made happy
and healthy, as nature intended.

Some Road Figures.

As Uncle Bill came out of the
post office with a letter in his
hand, the discussion of the tariff
hulled, and one of the men yell-
ed, "Uncle Bill!"
The old man's face wrinkled
into a smile as he held up his
hand and said, "Hold on, hold
on. I know what you want to
make it sell for a good stiff
ask. You see this letter, it's
got just the answers you want,
I'll bet a hat." He pulled the
letter from its envelope, adjust-
ed his silver-rimmed spectacles
and continued, "You recollect
that about a week or ten days
ago all of us here at the store

was talking about State aid for
road building. Some of you fel-
lows asked a whole lot of ques-
tions. One of 'em was, what
some of the roads in this state
cost the government."

"Have you got the figures?"
"Yep, I just went home and
wrote up to Frankfort and got
'em straight. Say, there're more
of them and they're bigger than
I thought they was. I'm going
to read 'em out if you want
'em."

"Sure we do," and group
drew closer about Uncle Bill
as he cautiously seated himself on
a nail keg.

"Well, I find that way back
in 1821 Kentucky gave \$1,000 to
improve the grade over Mil-
drow's Hill. That was part of
the Lexington to Nashville road.
But later when the people began
to build sure-enough good mac-
adam roads, the State put the
money up in big chunks. When
they built the road from Lexing-
ton to Frankfort, she gave \$78,-
122. That was 27 miles of road.
Then here are the other roads:

Frankfort to Louisville, 52
miles, \$65,000.
Covington to Lexington, 85
miles, \$200,000.
Louisville, Frankfort to Crab
Orchard, 123 miles, \$260,000.
Louisville, Bardonia to Ten-
nessee line, 144 miles, \$500,000.
Louisville, Bowling Green to
Tennessee line, 154 miles, \$442,-
000.

"How much was that all to-
gether, Uncle Bill?"
"Wait, I just got this letter
and I will have to do some fig-
uring," and he got a stub of a
lead pencil from his vest pocket,
after quite a time he announced
with pride and satisfaction, "If
you add in the \$213,200 for the
Mayesville road, that makes \$1,-
738,322 that was given in State
Aid way back yonder before
land was worth very much and
before there was any factories
or big business to tax."

"Why do you reckon they done
it Uncle Bill?"
"Because the had more every
day common horse sense than
we got, I reckon. They was
sharp enough to see that it was
not any tax, but an investment
to boost the price of their land."

"I reckon that's so, Uncle
Bill!"
"Sure, it's so. The poorer
your land the more you need a
road to make it sell. If its first
class land and off the road, you
can sell it; but if its poor and
off the road, you're up against
it. Most of your land well its
poor enough to need a road to
make it sell for a good stiff
price."

"Of course, everybody knows
that good roads are needed and
needed bad."
"Well then, if all of us know
we ought to have good roads,
and we know they'd improve the
price of land, all we got to do is

to find out the cheapest way
aint it?"

"Yep."
"Well then, if anybody's got
a better and easier way than
State Aid, just trot it out and
I'm for it alright."

Mail Destroys Several Crops.

A severe hailstorm visited the
New Providence section of the
county last Friday afternoon and
as a result several crops of to-
bacco in that section are a total

loss, and serious damage result-
ed to growing corn also. The
storm was accompanied by a
heavy rainfall and much thunder
and lightning. The loss will
reach several hundred dollars to
the farmers of that section. As
many as ten or fifteen crops of
tobacco are a total loss. Quite a
number of those sustaining
losses have cut their tobacco in
hopes that a sucker will grow
and mature before fall.

Another cloud visited the Dick
school house section of the
county accompanied by a heavy
hail which did equally as much
damage in this section as did
the storm in the New Providence
section. The Ledger is inform-
ed that about 75 acres of tobacco
were destroyed in each sec-
tion.

Reduction in Rates.

Plans for the extension and
improvement and reduction in
rates of the parcel post were an-
nounced by Postmaster General
Burleson, says a recent dispatch
from Washington. The changes,
which are to become effective
August 15, include an increase
from eleven pounds to twenty

pounds in the maximum weight
of parcels, a material reduction
in the postal rates in the first
heavy rainfall and much thunder
and lightning. The loss will
reach several hundred dollars to
the farmers of that section. As
many as ten or fifteen crops of
tobacco are a total loss. Quite a
number of those sustaining
losses have cut their tobacco in
hopes that a sucker will grow
and mature before fall.

While for the present the max-
imum weight limit of twenty
pounds and the reduction in
rates will apply only to the first
and second zones from any given
postoffice - a distance of about
150 miles - the changes directed
today constitute the first long
step towards a universal exten-
sion of the system and a general
reduction in the rates of postage
on parcel matter.

HEMORRHOIDS CURED WITHOUT THE KNIFE. Dr. Eugene F. Hoyt, a well known surgeon of New York
City, says: "There is not a possible case of piles that can
not be cured without the knife, and I am at a loss to explain why in many cases to the method that brings with it so much suffering. After
fifteen years' experience in treating hemorrhoids with the hypodermic needle, I can fully endorse every word of the above statement. I have also
cured more than one hundred cases of malignancy or cancer in the past twenty years."
