H'man-Fulton Counties Co-Op Holds Meeting

**2,000 Present;
Called 'Best Ever';
Clack Relected**

MANY PRIZES GIVEN

The Hickman-Fulton Counties Co-operative Corporation held their annual members meeting Saturday, July 19, at Cayce high school, Cayce, with more than two thousand present.

H. C. Schimmel, manager of the co-operative, said today it was the best meeting ever held by the organization, and attributed a great part of the success to the dealers and distributors in this area who contributed so generously.

The dealers and distributors displayed over one hundred thousand dollars worth of farm equipment and all kinds of electrical equipment and appliances for both farm and home. The display was held in a large circus tent.

Registration of members began at 10 o'clock Saturday morning and continued until 2 o'clock. While the members were waiting for the meeting to begin they saw demonstrations of appliances and equipment in the circus tent, and were also entertained by Billy Walker and her Dixie Lily Boys and Girls.

The meeting was called to order at 2 o'clock by H. P. Clack, president, who turned the roster over to H. C. Schimmel, manager.

The program opened with the group standing to sing "America." Carolyn Luten then played a piano solo which was followed by a talk on "the low cost of electricity on the farm" by R. J. Beamish, Jr. Next Mr. Schimmel read the notice of the annual meeting and proof of mailing. Mr. Schimmel also read the secretary-treasurer's report and then gave his report as manager for the year 1946-1947.

Afterwards the newly elected directors met and elected H. P. Clack, president, Grover Wyatt, vice president, H. M. Pawitt, secretary, and Mrs. David Phelps, assistant secretary-treasurer.

Miss Amelia Stanton, home economist of TVA, gave an interesting talk on "the advantages of electrical living in the electrical center of America." Schimmel next gave the comparative cost of cooking by other means of cooking to that of electricity.

Mrs. David Phelps announced the winners of the prizes, with the following receiving useful gifts:

Kentucky Political Pots Boils; Only Two Weeks Until Election

By The Associated Press
With only two weeks remaining before the Aug. 2 primary, candidates seeking nominations for both major parties mapped strenuous campaigns.

Yesterday's (Sun) activities were relatively quiet. Headquarters of U. S. Rep. Earle C. Clements, a candidate for the Democratic nomination for governor, released a letter over the signature of Clinton P. Anderson, U. S. Secretary of Agriculture, in which Anderson was quoted as saying:

"So far as I know he (Clements) has supported legislation favorable to farmer interests and his stand has certainly been all right on the Tennessee Valley Authority and the Rural Electric Administration."

Rex. H. Lampton Visits Jack Foy

An interesting visitor in Fulton this week is Rex H. Lampton, song-writing partner of Fulton's Jack Foy.

It seems like old-times to Jack and Rex as they now are together for the first time since the war. These last few days they have been very busy composing some new songs, which will be on the market soon. They have completed one and are working on others.

Mr. Lampton, a member of the staff of the Washington Times Herald in Washington, D. C., was formerly information specialist in the treasury of the U. S. He wrote and designed the secret service booklet, "Know Your Money" which has reached 5,000,000 copies so far.

Rex was city editor of the "Hollywood News" in Hollywood until 1938, when he went to Washington.

During World War I, he served under Capt. Stephen P. Early, on the "Stars and Strips", the A. E. F. newspaper.

Some of Jack and Rex's best known songs—the music written by Jack and words by Rex—are: "Until I Met You", "Trailing Arbutus" and the latest one "The Bells of Shandon".

And yes, by the way, their most popular number is "We Left the One Who Loved Him for Another".

Young Memphis Mother Shoots Unwanted Suitor

Memphis, Tenn., July 21—(AP)—A young Memphis mother of two sons was held in jail today for questioning in connection with the shotgun killing of a man police identified as her unwelcome suitor.

Inspector Pete Wiebenga said Mrs. Lillian Gilbert, 23, fired a 12-gauge shotgun blast through a screen door and into the stomach of James Edward Robinson, 24, as he sought entrance to her home.

The inspector said Mrs. Gilbert "went out with" Robinson, a plumber, when she was temporarily estranged from her husband more than a year ago, and that Robinson had continued to try to see her against her wishes.

Mrs. Gilbert denied Robinson entrance to her home yesterday, Wiebenga continued, and when he tried to force his way in she fired.

5,000,000 Red Sympathizers Said To Be In United States Now

Washington, July 21—(AP)—An estimate that there are about 5,000,000 communists or sympathizers in the United States—all pushing for a "major third party"—was given the House committee on Un-American activities today by Walter S. Steele of Washington.

Steele was the first of 14 witnesses scheduled as the committee began a week of public hearings on communist activities. He testified as chairman of the national security committee of the American Coalition of Patriotic, Civic and Fraternal societies. The coalition is an organization of 84 societies promoting patriotism, Steele said.

He gave this break-down of communists and their sympathizers in this country:

1. Upwards of 100,000 card-carrying members of the communist party.

2. Another 100,000 candidates for party membership.

3. Approximately 4,800,000 members of communist front organizations.

As for their political activity, Steele asserted:

"They are now pushing for a coalition of leftists with the expectation of forming a major third party."

Steele called the front organizations "far more dangerous" than the party. He explained:

"The leaders are publicized as authors, professors, scientists and professional men. Even increasing members are joining them. All are gradually veering to the party line through the pulling of the strings of the tireless workers among those forces who have party affiliations."

Steele said he submitted to the War Department two months ago a list of 2,000 army officers or men who are members of the communist party or of fronts.

When Rep. Nixon (R-Calif.), commented that all people belonging to "fronts" may not be deliberately sympathetic with the communist party, Steele agreed. But he estimated that 60 percent of the 2,000 are active party members.

Before taking the stand, Steele gave reporters a statement saying many of these men are now in the army reserve.

Long And Short Of It

Printers and linotype operators the nation over will watch with great interest the progress of a new printing process in which present methods of typesetting are discarded entirely. Copy would be set on a proportional typewriter and would go directly from the editorial room to the engraving and press room, bypassing the linotype operator and the printer.

Naturally enough, many newspaper employees may lose their jobs, temporarily at least, unless they can shift immediately to another department of the paper.

If the printing method is successful, we predict that it will increase circulation of newspapers and create more jobs for more people. When the linotype machine was introduced some hand compositors necessarily were thrown out of work, but consider the tremendous growth of the newspaper business caused by the new invention.

All of which brings to mind our favorite anecdote dealing with technological unemployment. A Southern planter was telling one of his negro hired hands about the new cotton picking machine he had bought, and how many men it would replace. The negro said that was why he was against all these new machines.

"But," the planter reminded him, "it will help us grow more cotton and mean more money for all of us in the long run."

"I know," the negro replied, "but us poor folks live and starve to death in short runs."

Flattened By A Sharp

Indianapolis, (AP)—Mrs. Barbara Kassenbrock, who said 15 years of piano playing had developed her muscles, routed a young hold-up man with one well aimed punch.

Mrs. Kassenbrock, manager of a bicycle and toy shop, said the youth pushed a gun against her side and ordered her into a back room.

She said she screamed although she had noticed the gun was a toy pistol. Then she landed a punch and the youth fled.

"He was strictly an amateur," she told police.

Why Houses Are Scarce

East Peoria, Ill., (AP)—Police here are looking for a stolen house.

Earl A. Allen, a railroad brakeman, told police that when he returned from his run a two-story pre-fabricated home he was building had disappeared.

Allen said neighbors told him they saw a man piling parts of the house into a truck but they believed that Allen had decided to change the location of the house.

The house was completely built except for a roof.

Fires Fields; Fired

Arrifollos, Portugal, (AP)—Locomotive No. 1,166 of the Evora Line has been retired by popular request.

Peasants and villagers along the line finally got tired of lining the tracks, armed with brooms and pails of water, to put out flames in buildings, fields and woods regularly set by the spark-tossing smoke-belching engine.

Thieves Were Thorough

Lawrence, N. Y., (AP)—Julius Brickner reported to police that \$4,045 worth of jewelry and some bonds were missing from his Long Island home.

He said he wasn't sure whether burglars had broken into his wall safe—because they took it with them.

Shingled Free

Spokane, Wash., (AP)—An R. K. Franklin & Co., roofing crew found the right house number but the wrong shingles.

The workers had one-fourth of a new roof on when they learned it was the wrong house.

They finished the \$200 job free.

A Red Sabot In UN

By Dewitt MacKenzie,
AP Foreign Affairs Analyst

Eighteen months ago the League of Nations was laid at rest in its \$10,000,000 marble mausoleum on the shore of Lake Geneva, and man's first attempt to maintain peace by means of a world-wide organization was written off as a failure.

But that wasn't the death of hope. The United Nations, brand new and full of grand resolutions for the welfare of humanity, already had swung into action. At long last we were to have peace. The Big Five—Russia, Britain, France, China, America—brothers-in-arms who had bled together in the Hitlerian upheaval, sat down in brotherhood, surrounded by the smaller states which looked to the powers for guidance.

Last week ten United States Senators sponsored a resolution which proposed that the United Nations be revamped. Senator Ferguson, who offered the measure, told reporters that he and others were coming gradually to the conclusion that, if Russia failed to cooperate, it might be necessary to reorganize the United Nations without the Soviets.

The significance of this move is that the United Nations thus far has failed in the main, and it has failed because it hasn't lived up to its name. It is disunited—split after the fashion of unhappy Europe, with Russia and her satellites on the one side and the Democracies on the other. The will of the great majority has, in almost every important instance, been nullified by Russia's employment of a veto power which had been accorded in the charter to each of the Big Five. It was tacitly understood that this was for use only in extreme emergencies. Soviet representative Gromyko has used the veto with ruthless abandon, thus emasculating the peace organization.

Gradually it has become evident that this Russian obstruction is a piece off the same cloth as Moscow's tactics in international relations at large. Notable examples have been Moscow's methods of securing domination of eastern Europe, the disruption of the conference to make a German peace treaty, and the refusal to join in a unified program for the rehabilitation of Europe.

Very gradually, too, it has become clear that these tactics have been part of the general strategy of world revolution for the spread of communism. It has taken a long time for this truth to soak home with a lot of folk who couldn't bring themselves to believe that such a thing could happen. But happen it has, and observers have no doubt that the campaign will continue just so long as Moscow is able to keep the wheels turning.

Thus we have arrived at the point where important people—and some of them are attached to the United Nations—are wondering if, after all, the U. N. must be scrapped so that a fresh start can be made. That veto power must be controlled so that it can't be used as a bludgeon for obstruction. Unfortunately there is no way of amending the charter, because the present veto power could be used against amendment, and Russia might be expected to employ it.

It's safe to say that most members of the U. N. are appalled at any idea of throwing over the present organization and cheating another, which likely would be without the Russian bloc, thus widening the breach which already exists. They still hope that if the western democracies take a firm stand on vital matters, Russia will see the folly of her present course, especially when it becomes clear that the United States is not headed for a tremendous economic collapse, as Moscow has been claiming.

One thing is certain, however. The U. N. can't long continue as a house divided against itself.

Rubber Check Tip Bounces Quickly

Vallejo, Calif., (AP)—The bounce of a bad check reaches the ears of 52 Vallejo merchants in quick order under a cooperative warning project of the local Credit Granters Club.

Police headquarters rushes the first tip and check passer's description—to the club. The club calls four local stores, each of which calls three others, each of which calls three others.

Free-Riding Kitten Hops Another Bus

Peoria, Ill., (AP)—Cats, too, apparently want to go places in the summer vacation season.

A kitten sneaked on a bus at Perkins, but when it became too kittenish, it was put off at Creve Coeur. Disappointed but determined, the feline hitchhiker bounded aboard the next bus, curled up cozily under a seat, and continued the trip to Peoria.

MR. AND MRS. SMITH ATKINS ARE HONORED ON SILVER WEDDING ANNIVERSARY

Mr. and Mrs. Smith Atkins were honored Saturday evening by their two daughters, Mrs. Charles Reams and Miss Jean Atkins, with a beautifully planned dinner party at the attractive country home of Mr. and Mrs. Reams. The occasion was in celebration of Mr. and Mrs. Atkins' silver wedding anniversary.

The guests were greeted by Mrs. Reams, wearing a brown and beige tissue gingham with eyelet trim, and Miss Atkins, who wore a gray and green model of striped chambray. Mrs. Atkins, the honoree, wore a tailored dress of aqua mesh and a corsage of white carnations tied with silver ribbon.

A delightful two course dinner was served to the guests at the seven card tables arranged in the living and dining rooms, where garden flowers were tastefully used in decoration.

The evening was spent informally in conversation and reminiscing. Many of the guests had been present at the wedding ceremony 25 years ago.

Those present were Mr. and Mrs. Atkins and son, Jerry, Charles E. Reams, Rev. and Mrs. W. E. Mischke, Ed. There's No Harm In Men Whistling, Employer Declares

Pasadena, (AP)—His machinists are fine, upstanding citizens and if they whistle at a passing girl she should feel flattered, J. W. Gilmore, machine shop owner, maintains.

Before the Pasadena Planning Commission, Gilmore defended his 70 employees, most of whom he says are married, after Mrs. Von Foster, a nearby resident, protested his application for construction of a plant addition. "Every time a girl passes the plant someone whistles at her," complained Mrs. Foster. "Some girls even have to detour around the plant to avoid whistles."

The commission took the issue under advisement.

Sports Roundup

By Hugh Fullerton, Jr.
New York, July 21.—(AP)—The Yankees managed to tie the Chicago White Sox' record of 19 straight victories before they were stopped last week, but they couldn't even come close to one record established by the hitless wonders 41 years ago. During August, 1906, while the Sox were making their record, Big Ed Walsh pitched six shutout games. Walsh, who lives in Meriden, Conn., blanked the Highlanders (who later became the Yanks), the Red Sox and the Athletics two times each during that one month, giving up only 24 hits in all. That is believed to be a league record, though the books don't show it, and just to prove it wasn't a fluke, Big Ed repeated the feat two years later. In 1908 he horse-collared six opponents during September, but was hit more freely. Nearest thing to those feats was Grover Alexander's four shutouts for the Phillies in August, 1916, the year he hurled 16 scoreless games.

Mike Jacobs has been a regular attendant at the Mommouth Park races, presumably picking winners, so as to avoid a relapse. Note to Eddie Dyer: Columbus, Ga., figures it will have a pitcher for the Cards in a couple of years. He's 17-year-old Tom Poholsky, who won eight of his first nine games and walked only 19 batters in 69 innings. Georgia's Wally Butts, who has lost three left halfbacks, Johnny Donaldson, Billy Henderson and Chuck Magoni through injuries, since last season, has still another candidate in freshman Bobby Walton of Columbus, O. Should be a soft touch for the kid. All he has to do is fill Charley Trippi's place.

GOP Pulls Surprise Maneuver On Poll Tax

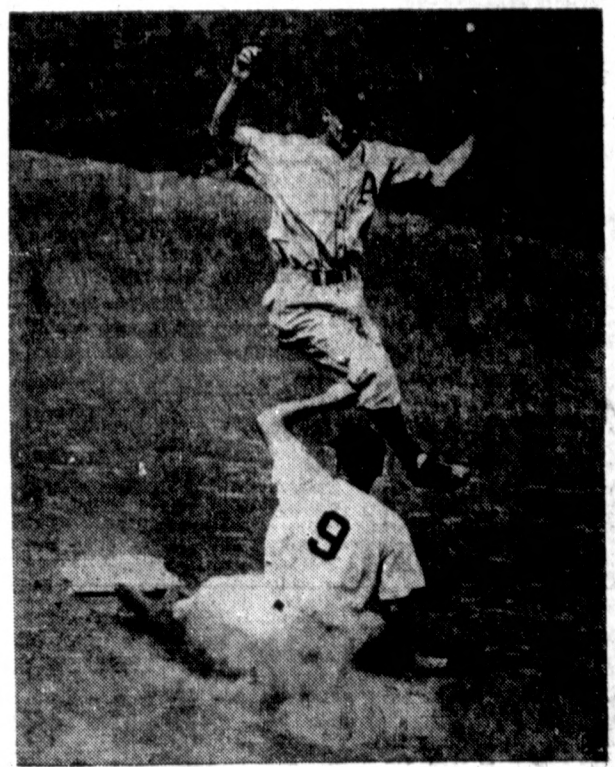

Washington, July 21.—(AP)—In a surprise maneuver, the House Republican leadership called up for a vote today legislation to prohibit collection of a poll tax as a prerequisite to voting in elections for federal office holders.

The bill was called up under procedure requiring approval of two-thirds of those voting with a quorum present in order to send it to the Senate, where action this year is unlikely.

House leaders said privately they have the necessary votes, but there is the prospect of a filibuster by Southern state representatives opposed to the bill.

Rep. Rankin (D-Miss.), a leader of the opponents, promptly forced a roll-call by insisting on the presence of a quorum.

Chicks Hold Their Own In Kitty Over Weekend; Seawright's Homer Wins Over Oilers Sunday After Chicks Lose To Miners Saturday Night

It was a bad night for the Chicks at Fairfield Saturday as they saw their big righthander Ed Engel give up 15 hits and go down to defeat at the hands of the Madisonville Miners 5-2.

The Chicks batters were able to get to Schwitz, Miners' hurler, for only six hits.

To add to their troubles, the Chicks lost the services of their star centerfielder, Ray Pechous, when he pulled his leg muscle going after a fly ball in the seventh inning. Pechous will be out of the line-up for several days on account of the injury.

He joined Pete Peterson on the bench. Pete was hurt a week earlier when he fell on the ground. Zebuk, who had three for four for the night, started off with a single in the eighth and took second on a sacrifice by Schwitz.

Adams filed out to Hardcastle for the second out. Sepich then singled to short center field. Seawright took the ball and whipped it toward home. Propst, seeing the throw would be too late to get Zebuk at the plate, cut it off and threw it back to Rhodes at second to get Sepich for the third out. Zebuk had scored before the play was completed.

In the second inning, with Schmidt on second after he had reached first on an error and Harrington on first by virtue of a walk, Phelan hit one on the ground to Buck. Buck ran to third and stepped on the bag to force Schmidt, whipped the ball to Gray at second to cut off Harrington, and Gray, in turn, whipped it to Propst at first ahead of Phelan.

It was the third triple killing of the season in the Kitty. Owensboro and Clarksville have done the trick once each this year.

There was no score in the ball game Saturday night until the fourth inning. Schmidt, the first man to face Engel, filed out to Propst. Harrington then singled and took second on Phelan's safety. Zebuk scored Harrington and pushed Phelan around to third with his safe blow, but the umpire ruled Phelan out for falling to tag second. Zebuk went to second on the throw in and took third on a wild pitch to Schwitz. Engel then struck out Schwitz to retire the side.

The Chicks went ahead in the sixth when Engel knocked in two runs with a double. Pechous led off by grounding out to Proulx. Rhodes was safe at first on an error by Sepich. Seawright hit a hard one to right field for a single which Adams took nicely on the first bounce. Adams' throw to Proulx at third was perfect to get Rhodes. Litzfelner singled and Hardcastle drew a pass. Engel then got his double to score Seawright and Litzfelner and send Hardcastle to third. Buck filed out to Harrington in centerfield to end the inning.

The Miners came back in the seventh to go ahead 4-2 when Schwitz led off with a two-bagger and came home on Adams' double. Hardcastle made a good stop on the ball to hold Adams at second. Sepich filed out to Gray and Proulx walked. Sepich then hit one to short centerfield. Pechous ran forward to take the ball in the air, stopped suddenly and waited for it to hit the ground. He took it on the first hop and whipped it home. No runner crossed the plate, but as the spectators shifted their eyes back to cen-

terfield, after following the ball, Pechous lay on the ground where he had fallen after making the throw.

Time was called and after a doctor had looked him over Pechous left the ball game, leaning heavily on the shoulders of two of his teammates. Biggs moved Seawright over to center, and sent Lis, regular catcher, in at left field.

As play was resumed Schmidt was safe at first on a single and Adams scored. Harrington then filed out to Seawright in center field as Proulx raced home ahead of the throw in. Phelan made the third out, unassisted. Schmidt, who had three for four for the night, started off with a single in the eighth and took second on a sacrifice by Schwitz. Adams filed out to Hardcastle for the second out. Sepich then singled to short center field. Seawright took the ball and whipped it toward home. Propst, seeing the throw would be too late to get Zebuk at the plate, cut it off and threw it back to Rhodes at second to get Sepich for the third out. Zebuk had scored before the play was completed.

Hal Seawright, batting in the clean-up position in yesterday's game with the Owensboro Oilers, poled out a homerun in the third inning with Buck on base to set up a victory for the Fulton club as the red hot Chicks went on to score again in the fourth and win 3-2.

Whitley Lynch pitched magnificent ball, allowing only six hits. Medcalf, the opposing hurler, gave up only seven hits, and but for Seawright's four-bagger it would have been a pitcher's duel with Lynch getting a bit the best of it.

Lynch struck out nine men and gave up only two bases on balls, while Medcalf whiffed six and

issued three free passes to first.

All three of Fulton's runs were earned, having been placed on base by an error and a fielder's choice. Rhodes, who scored the winning run, was put on first by a walk and finally crossed the plate on a wild pitch by Medcalf.

Pete Peterson returned to the lineup after a week's absence, but Ray Pechous was still out of the game. Lis was playing left field and Seawright moved over to center field.

After batting around in two innings without producing a run, the Chicks led off with Buck in the third who singled and then stole second. Gray struck out and Propst filed out to O'Neill in center field. Seawright then connected with one and sent it out of the park to score Buck ahead of him. Peterson struck out to retire the side. Medcalf walked. Rhodes to start the fourth frame. Lis filed out to Boothe in right field and Litzfelner made the second out on the ground. Waldron to Brownie after Rhodes had stolen. The Chicks went to third on the play and then came home on a wild pitch by Medcalf to Lynch. Lynch drew a base on balls and Buck lifted a foul to Brownie who took it for the last out.

The Oilers scored once in the fifth and once again in the sixth. Medcalf was safe at first on Rhodes' error and moved to second on the overthrow. O'Neill then went down. Gray to Propst, and Medcalf went to third on the play. Grasso singled to score Medcalf. Williams followed with a single, sending Grasso to third and taking second on the throw in. Lynch then killed the rally by striking out Pankovits.

In the sixth Brownie rolled one down the base line that Lynch fumbled and was safe at first. Neagle filed out to Lis in left field who held Brownie at first. Neagle was safe on a fielder's choice, forcing Brownie at second. There was an attempted double play, but it was too late at first to get Boothe. Waldron then cracked out a sharp double and took second standing up as Boothe scored from first. Lynch again bearing down at the proper time, struck out Medcalf to retire the side.

German Refugees

Leaving Denmark

Copenhagen.—(AP)—About 3,000 German refugees are being repatriated every week to the Russian and American zones in Germany but there are still more than 150,000 refugees in Denmark, refugee administration leader Johannes Kjaerboel said.

These refugees represent a heavy strain on Denmark's economy, he added, as every refugee costs the country about 99 cents daily.

U. S. Will Go Dry

Again, WCTU Says

Asbury Park, N. J., (AP)—Mrs. D. Leigh Colvin, president of the National Women's Christian Temperance Union, says the United States is voluntarily going dry by local option.

"One-fourth the area of the U. S., containing 28 million population, is now dry or has hard liquor," she told a W. C. T. U. convention. "Eventually, as the revolt spreads, entire states will go dry and, ultimately, the nation."

A U. S. GOVERNMENT BUREAU REPORT announces the discovery of a new toxic acid treatment for the poisoning. IN THE LAST 12 YEARS WE HAVE PAID
\$14,216,021
 to our owners

To those owners who hold our preferred stock, 5,731 of whom live in Kentucky, we paid \$11,253,882—nearly a million dollars a year rent on the money borrowed from them. To our common stockholders, we paid \$2,962,139, or some \$250,000 a year.

But to the economic welfare of 2,700,000 other Kentuckians during those same 12 years

- 1 We contributed \$20,457,092.61 in TAXES Federal, \$11,412,090.85—City-County-Schools, \$6,607, 143.87—State, \$2,437,857.89.
- 2 We added \$15,986,095 for new construction in Kentucky—not counting payroll or regular maintenance.
- 3 We used 2,979,320 tons of Kentucky coal—hundreds of thousands of man-days of work for Kentucky miners, and thousands of man-days of work for Kentucky railway employees who hauled these 59,587 cars of coal.
- 4 We paid out \$25,294,322 in salaries and wages to our employees—and they, in turn, spent most of it locally.
- 5 We paid out, \$1,341,720 in retirement funds and insurance—voluntary contributions to employee security.

We believe that these figures will show that Kentucky Utilities Company is one of the state's important industrial assets. Not only our industry, but all tax-paying, business-managed, job-providing industry deserves the protection and encouragement of our public officials.
