How About A "Write-up"?

We sat on the porch of a pleasant home in this small midwestern community on a hot June evening. Miss. said, 'why don't we ask the newspaper...?" He said it was a good idea but asked the question: "Our newspaper could help," she commented. "I doubt if anyone would do more than her share to eliminate the necessity of cleanliness in the home economics department."

She sat on the porch of a pleasant home in this small midwestern community one of the civic leaders who lives in the city. These civic leaders, who live in the city, are doing more than her share to eliminate the necessity of cleanliness in the home economics department.

The Kehler's, their eight rooms while Kehler managed a "write-up." The last buccaneer, J. D. Parham has been doing nicely. "Our newspaper could help," she commented. "I doubt if anyone would do more than her share to eliminate the necessity of cleanliness in the home economics department."

"Our newspaper could help," she commented. "I doubt if anyone would do more than her share to eliminate the necessity of cleanliness in the home economics department.

Baseball

Chicks Thump Hounds 8 to 3 At Union City Just Half a Game From 4th Place

With only 14 games remaining in the American Association, the Los Angeles Chicks have a good chance of becoming the division champions, according to a poll of Associated Press newspapers. The Chicks, who have already secured the Western Division title, have a 1/2-game lead over the St. Louis Browns and are also in good shape for the National League championship. Their next game is against the Detroit Tigers at the Polo Grounds.

The Beavers will face their tough-est opposition from UCLA's defending FCC champions and a resurgent team that is seeking to oust them from the top spot. The game is scheduled for tomorrow night at the Coliseum, and it promises to be one of the most exciting in recent years. The Beavers' head coach, Bowden Wyatt, incidentally, may find himself in hot water with the NCAA if he is not careful. Annual regulations require that all coaches attend a week-long seminar in preparation for the season, and Wyatt is reportedly planning to miss the first day in order to attend a business meeting in Chicago. The NCAA has threatened to cancel the Beavers' season if Wyatt fails to comply with its rules.

The Atlantic League, on the other hand, is expected to struggle for the Division crown. The New York Giants, who are currently in second place, have a tough schedule ahead, and it is not clear whether they will be able to catch the Chicago Cubs, who are leading by 1 1/2 games. The Giants' next game is against the St. Louis Browns, and it will be interesting to see how they perform. The Browns, who are in third place, have been playing well lately and are expected to put up a good fight.

Baseball Game Not Sold for Coates World War Memorial

Although two-handed games are scheduled for the Coates World War Memorial, the Los Angeles Lakers have decided not to participate. The Lakers are currently in second place in the Pacific Division and are seeking to catch the San Francisco Giants, who are leading by 1 1/2 games. The Lakers' next game is against the St. Louis Browns, and it will be interesting to see how they perform. The Browns, who are in third place, have been playing well lately and are expected to put up a good fight.

Volleyball

Volleyball is set to start in the next few days, with the Los Angeles Lakers set to open their season against the St. Louis Browns. The Lakers are currently in second place in the Pacific Division and are seeking to catch the San Francisco Giants, who are leading by 1 1/2 games. The Lakers' next game is against the St. Louis Browns, and it will be interesting to see how they perform. The Browns, who are in third place, have been playing well lately and are expected to put up a good fight.

Southern Bell Co. Buys in Four Other Rate Increase Plea

By Sill Becker

The Southern Bell Telephone Co. has filed a rate increase plea with the Federal Communications Commission, seeking permission to raise its rates by 10 percent. The Company's spokesman, John Springer, said that the increased rates are necessary to cover the cost of new equipment and the increased cost of labor. The current rates are $3.50 per year, and the proposed rates would be $3.85 per year. The rate increase is expected to take effect in October.

The Company operates in a number of states, including California, and it has a large number of customers. The rate increase is expected to affect all of the Company's customers, and it is estimated that the Company will increase its revenue by 10 percent.

The Company's rate increase plea is expected to be opposed by a number of organizations, including the American Civil Liberties Union, which has threatened to challenge the Company's rates in court.

The rate increase plea is expected to be considered by the FCC in the next few months, and it is hoped that the Company will be able to implement the increased rates as soon as possible.
