### Disposal of Tobacco Crop Causes Worry Among Planters in Vicinity of Clarksville.

Clarksville, Tenn., Sept. 13.—The growing tobacco crop has been constantly improving ever since the first rain about four weeks ago. There seems to be no doubt of its being the best crop grown in several years. There is a certainty, if the frost remains off until the crop can ripen, the average weight per acre will be in excess of any recent crop in this county.

The acreage is not over 40 per cent.

The great question with the growers is, What will we do with the crop? The answer to this depends largely upon the opinion of the grower, is the opinion that seems largely to prevail. The most prominent buyers of Clarksville are very much inclined to this opinion, as well as others. The European conditions, as they now exist, fail to give any encouragement to the loose dealer, and they are at sea.

For them to buy at this time, without any idea of what they can do with the tobacco except store it and wait until a market opens, would force them to buy at a price far below the value of the crop.

This being true, the wise thing for the grower to do would be to do the holding himself, and when the market again opens to reap the profits instead of giving it to others.

Quotations last week follow:

### Po-Do-Lax Banishes Pimples.

Bad Blood, Pimples, Head-aches, Biliousness, Torpid Liver, Constipation, etc., come from Indigestion. Take Po-Do-Lax, the pleasant and absolutely sure Laxative, and you won't suffer from a dangerous Stomach or other troubles. It will tone up the Liver and purify the blood. Use it regularly and you will stay well, have clear complexion and steady nerves. Get a 50c. bottle to-day. Money back if not satisfied. All Druggists.

### Hazel News Notes.

Relatives of Quitman Cole, of St. Joseph, Mo., gathered at the Hazel depot Monday of last week in response to a message that Mr. Cole was dead and that his body would be shipped to Hazel, but they were misinformed, as Mr. Cole was not dead, and walked from the train and greeted them with the announcement that he was still alive.

He is a son of Bob Cole, of near Crossland, and has been in Missouri in the harness business. He has recently gone through with a hard siege of fever, and through some misunderstanding his relatives and friends had prepared for his burial following the arrival of the 9 a. m. train.

Randolph White and Miss Do-cia Enoch were united in marriage by Esq. J. W. Ligon, at his home near Mount Pleasant Sunday afternoon. The bridal couple were accompanied to the squire's residence by Rev. G.

W. Powers and wife in his automobile. Following the ceremony the couple returned to Hazel, and are at home at the Enoch residence in north Hazel.

Work has begun on the building for the water and light plant, which is to furnish public service to the people of Hazel. The structure will be of concrete and in size will be 20x50 feet. Rain has hindered the work some this week.

Will Mayer, will leave today for Colorado Springs, where he will remain for some time. Mr. Mayer has been in feeble health for the past few months and he goes to the Colorado mountains to get the benefit of the equable climate. His friends here, which includes every man, woman and child, hope that his trip will be beneficial. His family will remain here.

Ivan H. Dale, who has been in the photograph business here for the past three years, has gone to Paris, where he accepted a place as deputy under his brother, W. I. Dale, who last week took the oath of office as county clerk clerk of Henry county.—Hazel News.

### Acute Indigestion

"I was annoyed for over a year by attacks of acute indigestion, followed by constipation," writes Mrs. M. J. Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for this complaint, but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I soon realized that I had gotten the right thing for they helped me at once. Since taking two bottles of them I can eat heavily without any bad effects." Sold by all dealers.

### A Possible Suicide.

The body of Mrs. Della Wilson, a daughter of Wash McDaniel, of near Fort Hymon, was found in the Tennessee river near Altoona, Marshall county and buried on the banks of the river the 3rd of this month. At the time the body was not identified. A number of citizens of the section where she lived went to Altoona and from the description given it was decided it was the body of Mrs. Wilson. She is survived by three children. She left home the Saturday before her body was found and stated to members of the family that she did not expect to return and asked that her children be cared for by certain members of the family. She had been very despondent on account of ill health and is supposed to have gone to the river to drown herself.

### Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I advised the 'boys' when they enlisted in the Spanish war to take Chamberlain's Colic, Cholera and Diarrhoea Remedy with them, and have received many thanks for the advice given," writes J. H. Houghland, Eldon, Iowa. "No person whether traveling or at home should be without this great remedy." For sale by all dealers.

Beginning September 1st, no rabbits or squirrels may be lawfully shot until November 15th, when the quail season will open. The small bay may chase bunny with dogs into a hollow tree and chop him out, or trap him in a "rabbit-gum," but there must be no hunting with a gun. The festive squirrel may now proceed a cracking his nuts and having his fun, with none to molest or make him afraid.

## STORE BURNED

### P. P. Underwood Loses Building Together With Large Stock of General Merchandise.

The P. P. Underwood store building and contents at Cherry were destroyed by fire Wednesday morning between 2:30 and 3:00 o'clock. The building and the entire stock of merchandise were a total loss, the fire not being discovered until it had gained such headway that it was impossible to enter the burning building to remove the contents. The loss will reach several thousands of dollars with insurance not aggregating more than \$5,000 to \$6,000 on building and merchandise.

The fire was of incendiary origin, evidences proving beyond doubt that the building had been entered by thieves and then fired to cover the possibility of detection. Immediately after the fire Sheriff Patterson was notified and he in turn phoned to Mr. Nelson, of Paris, for his bloodhounds and by 6:00 o'clock they were on the scene. Evidently anticipating such a course upon the part of the officials the thief covered his tracks with red pepper from the store to a point in the road where a buggy was waiting, and as a result the dogs would not make endeavor to trail the robber. Mr. Underwood was in Louisville buying fall and winter goods at the time and had been absent from his place of business since the first of the week.

This store was robbed Friday night of last week and a ham of meat, bolt of domestic and a number of other articles stolen. This is the second fire sustained by Mr. Underwood since he located at Cherry and the loss will reach quite a large sum.

### Crop Report.

A month of seasonable weather has made a vast change in the crop outlook for the State of Kentucky. Just as we issued report as of August 1st general rains began falling throughout the State. These rains have been seasonable for the last month and not excessive. It is difficult to believe that such a change in conditions could be made within thirty days. The farmers and live stock men of the State are rejoicing over the improved conditions, and a comparison of this month's report with that of last month is made to show what a great change has taken place throughout the State within the last month.

The report of September 1st shows the condition of corn 83 per cent as compared with 65 per cent August 1st. Burley tobacco 80 per cent as compared with 56 per cent. Dark tobacco 72 per cent as compared with 62 per cent. Cow peas and soy beans show a condition of 81 per cent and 82 per cent respectively. Blue grass shows a condition of 82 per cent as compared with 64 per cent. Alfalfa 87 per cent as compared with 65 per cent. Clover 71 per cent as compared with 55 per cent. Even fruit has been greatly improved by the rains. Live stock is given as being in better condition than a month ago. Garden conditions have increased from a condition of 51 per cent to 64 per cent.

No one is surprised at the outcome of tobacco as a result of the rains. Tobacco is a weed and can give indications of almost a complete failure, and with seasonable weather make a fine crop. It must not be forgotten, however, that the acre-

age of tobacco is greatly reduced and the stand imperfect. The greatest surprise is the improvement made in corn. Kentucky will have an average crop of corn, although a month ago it looked like it would be a very short crop. As one report says: "The rains have made ears of corn out of nubbins."

In this connection it seems advisable to call the attention of the farmers of the State to the fact that every indication points to a high price for food stuff for next year. The United States Government authorities, the railroads and commercial bodies of the country are encouraging the sowing of a large acreage for winter wheat. The European war will undoubtedly cause the grains and live stock produced in America to bring good prices during the next few months, if not for several years. We, therefore, urge all farmers to increase their wheat acreage, and to use bone meal or acid phosphate on their wheat lands. There are but few acres in Kentucky that are not short of their phosphoric acid; 290 to 300 lbs. of bone meal or acid phosphate per acre for wheat will usually prove a profitable investment. Rye, barley and winter oats will save corn, and should be sown as quickly as possible. All roughness possible should be saved and well cared for in order to save the feed bill for corn.

The State has not been so free of hog cholera for several years. Farmers will do well to keep their brood sows and to increase their number of sheep. Pork and mutton prices will unquestionably be high. If the war continues any length of time, wool will be much higher next year than this. The agents for European governments are busy buying horses and mules at the present time. Prices have not materially advanced, but with the war lasting for a few months it is reasonable to expect cavalry and artillery horses, as well as mules, to very materially advance in price.

The tobacco grower will rejoice over the determination of the Federal Reserve Board to accept notes secured by warehouse receipts on tobacco to the extent of 75 per cent of the value of the crops from banks, members of the Federal Reserve Association. Taken as a whole, the Kentucky farmer has every reason for looking to the future with a hopeful feeling. Every indication is that peace and prosperity are in prospect for him.

Very truly yours,  
J. W. Newman,  
Commissioner of Agriculture.

### Rheumatism Pains Stopped.

The first application of Sloan's Liniment goes right to the painful part—it penetrates without rubbing—it stops the Rheumatic pains around the joints and gives relief and comfort. Don't suffer! Get a bottle to-day! It is a family medicine for all pains, hurts, bruises, cuts, sore throat, neuralgia and chest pains—Prevents infection. Mr. Chas. H. Wentworth, California, writes: "It did wonders for my Rheumatism, pain is gone as soon as I apply it. I recommend it to my friends as the best Liniment I ever used." Guaranteed, 25c. at your druggist.

John Rowlett and Tom McElrath left the first of the week for Lebanon, Tenn., where they will enter college for the ensuing year.

Stanley Houston left the first of the week for Brandon-Hughes college, near Nashville, Tenn., where he will be a pupil this year.

## GUN A MARVEL

### No Fort in Europe Can Withstand Its Attack—Invention Known to Few.

Berlin, Sept. 13.—If Germany wins the war it will not have been might, but science that conquered. It will have been the science of warfare, such as other nations have known and practiced, though not so well, but, above all, it will have been the science of artillery, for the pinnacle of German war science is the 16, 5-inch Krupp mortar, the most miraculous and powerful weapon designed in the history of war.

The Krupp mortar is one unique and astonishing product of this month of fighting.

Mentioned by thousands, the Krupp mortar is known only by a few. The gun was invented eight years ago, but only those in the confidence of the Krupp know who the inventor is.

For eight years the Krupps worked at the secret while guarding it with rigorous precautions. This year they perfected it. The mortar fires the largest and most dangerous projectile ever shot from a weapon. In making it no single workman worked on more than one small piece and one vital part of its machinery was made in Austria.

What was done at Liege and Namur and which may soon be done at Antwerp and Paris was this: At some distance from a fort a space was cleared and a great mortar set in a concrete bed occupying a circle with a radius of 100 feet. Behind the mortar and outside this circle was a tunnel leading to a subterranean chamber. The great mortar was sighted, the projectile was set in place and then the gunners retired to their underground chamber. Here they pressed a button and the mighty shot was fired.

The explosion was terrible. Anyone within fifty feet of the gun at the time of the explosion would be killed. Even men in the neighboring armies complained of headaches and toothaches from the jar.

The projectile pierced through one two and three ordinary impenetrable walls and buried itself in the fourth. Here it lay silent many seconds, then exploded like a volcano, bringing to the ground in ruins every stone which had stood upon another.

Each shell costs \$2,500. What it contains the Krupps only know. It is taken to the battlefield in pieces and assembled by the highest paid and the most trusted of the Krupp engineers. It is aimed and loaded by them, and not one member of the artillery corps of the Kaiser's army has anything to do with it.

HERBINE is the medicine that cures biliousness, malaria and constipation. The first dose makes you feel better, a few additional doses cures completely. Price 50c. Sold by Dale & Stublefield.

### Heir To Fortune.

Mayfield, Ky., Sept. 11.—Mrs. L. C. Newman, of this city, has fallen heir to a large fortune by a relative in Montana. The first installment came in a check this week for \$8,750. There are but three or four heirs to the estate, which is being settled and valued at about \$200,000.

Mr. Newman and his family have been living in Mayfield for several years, where he is connected with the Daily Messenger. He was editor and pub-

lisher of the Lyon County Herald before coming to Mayfield and has held positions in several newspaper offices in Central Kentucky, where his parents live. Mr. Newman probably will engage in the newspaper business elsewhere in the State with a portion of the fortune left to his wife.

### Fair Sold at Auction.

The Graves County Fair Association stock was sold at auction at the fair grounds office this afternoon about 2:30 o'clock to the highest bidder. R. F. McClain, of this city, who has formerly had interest in the Fair Association of this county, bought all of the stock and says that Mayfield will have the biggest fair that was ever held in this county the week following the fair at Paducah. More will be seen in the paper as the days go in regard to the next fair that will be held in this city.—Mayfield Messenger.

### Stop That First Fall Cough.

Check your fall cough or cold at once—don't wait—it may lead to serious lung trouble, weaken your vitality, and develop a chronic lung ailment. Get a bottle of Dr. Bell's Pine-Tar-Honey to-day. It is pure and harmless—use it freely for that fall cough or cold. If Baby or Children are sick give it to them, it will relieve quickly and permanently. It soothes the irritated throat, lungs and air passages. Loosens Phlegm, is antiseptic and fortifies the system against colds. It surely prevents cold germs from getting a hold. Guaranteed. Only 25c. at your druggist.

### Our Trigg Neighbors.

After an illness of several years from tuberculosis, Mr. J. Will Jones, one of the most prominent citizens of Trigg county, answered the final summons on last Wednesday afternoon about five o'clock, at his beautiful country home about three miles north of here.

Mrs. Emma Solomon left last week for Calloway and Graves counties to spend some time visiting old friends and relatives.

Mr. and Mrs. F. H. Guier and several children have returned to their home in Calloway county after a visit to Trigg county relatives.

Mr. John R. Crute, who lives three miles west of town, brought us a sample of bean growing in his garden that measured forty inches in length. It is known as the yard-long bean. He saw them advertised and bought some of the seed to try the experiment, which has proven successful. They are said to be a very fine vegetable to eat, but Mr. Crute says his family have not yet eaten any of them.—Cadiz Record.

### Chamberlain's Liniment.

If you are ever troubled with aches, pains or soreness of the muscles, you will appreciate the good qualities of Chamberlain's Liniment. Many sufferers from rheumatism and sciatica have used it with the best results. It is especially valuable for lumbago and lame back. For sale by all dealers.

Misses Nina Rudd, Vera Dunn, Tommie Kirkland, of this city, have been employed as teachers in the public schools of Paducah. They left the first of the week to take up the work. These splendid young ladies and teachers have many friends here who are congratulating them upon their good fortune in securing the position.

When a man marries a girl who looks like a dream in the evening and a nightmare in the morning, it is a horse on him. —Paris-Parisian.

We'd call it a horse of another sex.

Why is it that a man will begrudge a minister \$5 for tying the knot, and yet will gladly pay a lawyer \$500 to untie it? —La Center Advance.

Never rode a mule in a fox chase did you? Try it once and see how carefully he picks his steps, but when he makes a bad move he'll break his neck or get out. Fellow who pays \$5 to get the knot tied is a little careful, finds out that it was a bad investment and does the wise thing when he pays \$500 to correct the error. In other words, he'd rather be relegated than president.

## Captures Silver Cup.

Pottertown W. O. W. lodge is rejoicing this week. At the annual meeting of the Fifth District, Kentucky and Tennessee uniform rank, held last week in Union City, Tenn., Company M, 135 regiment, Capt. W. R. Falwell, in command, of Pottertown, captured the silver cup offered for the best drilled team at the encampment. The boys are justly proud of the trophy and have been the recipient of many congratulations from their friends since returning home.

## Two Special Farm Bargains.

The late H. C. Hodge farm, 1 mile west of Pine Bluff, 100 acres, 75 acres fine creek bottom land; a fine improved place with good house, barns, stables, orchard, in fact, one of the best places on the east side. Will sell at a bargain now to settle with his heirs.

Next place is a 300 farm, 3 miles south of Crossland, 100 acres in bottom, \$1,000 worth of timber; three settlements, plenty of barns, stables, well watered; will sell the entire tract for \$3,750. Better see these places, Murray Land Co., J. D. Hamilton, Manager.

## WHY WEAK LUNGS?

The toll of tuberculosis is claiming more than 500,000 victims every day in the United States, yet few realize their grave condition until the critical period arrives. Overwork, worry, weakness after sickness, fatigue, bronchitis, tender throats—all exert the weakening influence that invites consumption. To guard against consumption, thousands of people take Scott's Emulsion after meals because its rich medicinal nourishment strengthens the lungs, puts vigor in the blood, and builds up strength to resist tuberculosis. Scott's Emulsion is nature's strength-builder. Refuse substitutes.

## Predicts Big Crops.

In a speech at Arcadia Heights a few weeks ago the weather prophet, Ira R. Hicks, made the prediction that 1915 will be the biggest crop year the country has seen for years. "Three years ago," said Hicks, "I predicted three years of drouth and we have had it. But the position of the planets now is more favorable than it has been for years and I predict a bumper crop all over the country for next year.

## Horribly Mutilated.

Paducah, Ky., Sept. 12.—When he lost his balance, Crit Powers, 19 years old, fell on a revolving circular saw at Clifford Wood's saw mill, 10 miles from Paducah, where he was employed, and was so horribly mutilated that he died shortly afterward. His right leg and arm were severed and he was otherwise injured. Powers was adjusting the log carriage when the accident happened.

FOR SALE.—1 house and lot, also store house and good stock of goods, both located on same lot just outside city limits on state road. Will sell or trade for small farm near Murray. —Virgil Wilson, Murray, Ky. 9174.

Reubin Falwell has purchased the interest of C. L. Jordan in the Jordan Bros. insurance business and is now actively engaged in soliciting business for the new firm. Mr. Falwell is well known throughout the county and has many friends who will be glad to extend to him a portion of their business. He has also exchanged residences with Francis Perdue.

## Administrators Notice.

Notice is hereby given that all persons indebted to the estate of J. W. Parker, deceased, must come forward and settle same and all persons holding claims against said estate are notified to present same to me properly proven on or before Jan. 1st, 1915 or be forever barred from collecting same. This Sept. 10th, 1914. M. E. Dilday, Admr.

## Farm for Sale.

One 90 acre farm, at the junction of the Mayfield and Kirksey road about two and one half miles from Murray. Would sell part or all, terms to suit purchaser. Reason for selling is that I am going to leave for a new location the first of the year. —Dr. U. G. Gallemore, 868.

### Only Sure Corn Cure Ever Known

"GETS-IT" the New Way, 2 Drops Do It  
To remove the pain and torture caused by a "little thing like a corn" is ridiculous, simply because it is unnecessary. The new corn cure.

"GETS-IT" is the first one ever known to remove corns without fail, without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions, because it does away with sticky tape, with plaster and cotton rings that shift their position and press down onto the corn, with knives, razors and files, clawing and pulling at a corn. "GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. "GETS-IT" is sold in Murray by H. P. Wear.

## BELGIANS FLEEING AND ADVANCING

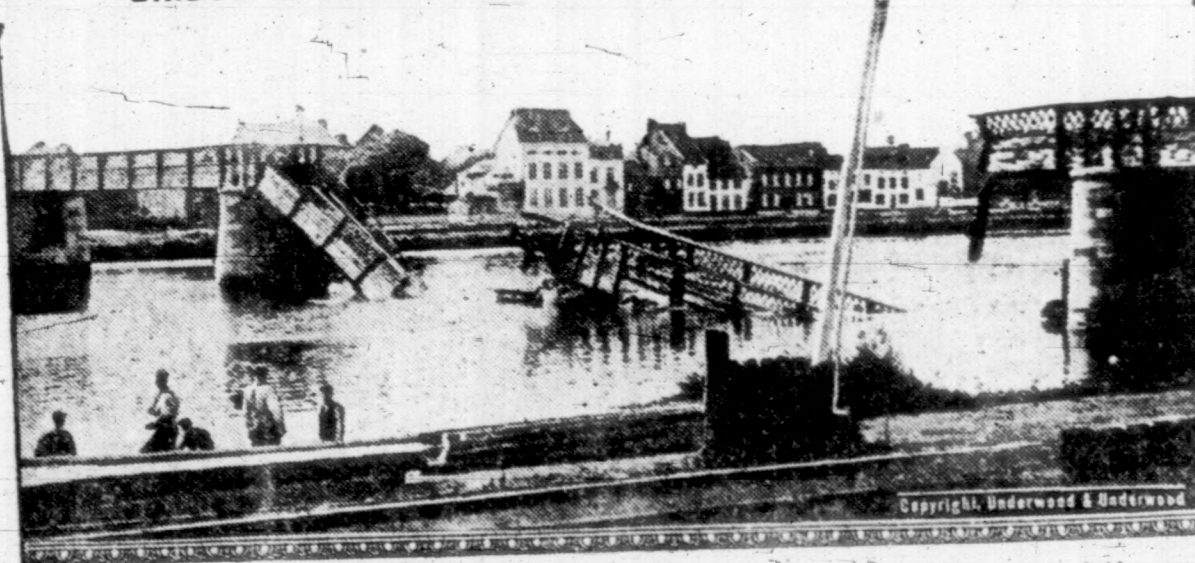

Below, the entire population of Tirlemont fleeing for life from the rapidly advancing Germans, carrying their most precious little possessions. Above, Belgian infantry in column formation screened by artillery under the trees in the distance, marching to repulse the Germans at Haalen.

## CLEARING THE WAY FOR ANTWERP'S GUNS

When the Belgians retired to Antwerp many houses in the suburbs were burned in order to clear the land in front of the fortifications. At the left a soldier is seen setting fire to a cottage with a lighted broom.

## BRIDGE ACROSS THE MEUSE DESTROYED BY BELGIANS

In order to impede the advance of the Germans the Belgians destroyed this steel and concrete bridge across the Meuse river. This photograph was made at great risk, as an order had been issued to shoot photographers caught making pictures.

## READY FOR THEIR ERRAND OF MERCY

Some of the American Red Cross nurses ready to sail on the steamer Red Cross for service on the battlefields of Europe. In front are Mary Franklin Ketter, Mary A. Brownell and Anna L. Rantiss. At the rear, Mary E. Gledhill, Helen Scott Hay (in charge), Lucy Minklerode and Mary F. Farley.

## REFUGEES IN CATTLE CAR

American and English refugees fleeing from France in a cattle car. They were glad to obtain even that crude transportation.

## GOVERNMENT LOAN ON COTTON ASKED

COMMITTEE BEING ORGANIZED TO FORWARD MOVEMENT. GROWERS INDORSE PLANS.

## WOULD DISPOSE OF SURPLUS

Government Should Take Over Surplus Cotton Crop, Says Henry, and Hold It Until War Is Over and Markets Open.

Washington—A committee of Southern congressmen and representatives of farmers' unions in the South is being organized by Representative Henry of Texas to work for an issue of treasury notes on cotton that must be held over until next season on account of the demoralization of foreign markets. Mr. Henry announced that the personnel of the committee, to be made up of twenty-five members, probably would be completed next week. He said he was acting at the request of many of his colleagues from the South and that the movement had been endorsed by several organizations of cotton growers.

"The committee," said Mr. Henry, will present the situation to the secretary of the treasury, the Federal Reserve Board and President Wilson, and will have frequent meetings. It will ask the government to take over the surplus cotton, to be held by it through these loans until war conditions in Europe pass and the market reopens. Nothing, less will protect many of the people of the South from absolute ruin.

Mr. Henry estimated that the surplus crop would amount to six or seven million bales and said an issue of three or four hundred millions in notes would be requested.

## DIVERTED TO NEW ORLEANS

Mississippi River May Be Largely Used by Chicago Concern—Result of European War.

Chicago—Mississippi Valley commerce with Latin-American nations, which heretofore has gone through the port of New York, is to be diverted to the more direct route through the port of New Orleans, if the plans of some of Chicago's biggest capitalists and financiers are carried out.

A huge trading corporation, with not less than \$5,000,000 capitalization, doing an export and import business and owning its own line of ocean freight steamships, is in process of organization in Chicago, and it is expected that within another week final plans and details will be completed.

The corporation is the direct commercial outgrowth of conditions which have developed out of the European war, together with the opening of the Panama canal.

## SOUTHERN OFFICIAL DEAD

L. S. Brown Passes Away—Had Been General Agent of Southern Railroad Since 1886.

Washington—L. S. Brown, general agent of the Southern railway in Washington and well known throughout the south, died here. He was born at Covington, Ga., in 1849 and began railroad work as an express messenger. He became general agent of the Southern here in 1886. A widow survives.

Mr. Brown's first work as express messenger was at Montgomery, Ala. In 1869, in 1871 he became general agent of the Western of Alabama at Opelika, Ala. He afterward was connected with the Baltimore & Ohio, Virginia Midland and Georgia Pacific, being general freight agent and passenger agent of the Southern here in 1886.

## PLAN ELEVEN-CENT COTTON

One Fourth of the Crop to Be Bought by the States—Would Levy a Purchase Tax.

Washington—If a program partly outlined and tentatively agreed to by a number of southern senators and representatives obtains, cotton will sell for 11 cents a pound. Senator Simmons of North Carolina has taken the initiative in the movement, to which a number of southern senators have subscribed. His proposition provides for the purchase of one-fourth of the cotton raised this year by the state. A purchase tax is to be levied on all cotton sold in the open market. A production tax on the cotton produced in 1916 is a part of the scheme.

## Three Are Murdered.

Grand Bend, Kas.—Lee Morgan, a farmer, 56 years old; Mrs. Magene McGowan, his housekeeper, aged 40, and Lawrence McGowan, a farm hand, were found murdered on Morgan's farm near Heiler, Barton county.

James P. Considine Dead. New York.—James P. Considine, 55, one of three brothers who figured prominently in the sporting life of New York, was found dead of heart trouble in his room at the Hotel Normandie.

## CONFER WITH THE BOARD

Federal Reserve Board in Session—Improved Conditions in Country Reported—No Cause for Concern.

Washington—Although the problem of readjusting the foreign exchange market has not been solved, reports to the federal reserve board from prominent New York banks indicate there is little cause for concern.

J. P. Morgan, Jacob H. Schiff and Benjamin Strong, Jr., New York bankers, conferred with the board for two hours. Their visits had to do with the part New York City banks are expected to play in relieving the foreign exchange market. It was said they also stated conditions throughout the country showed marked improvement.

The bankers told the board that New York banks stand prepared to underwrite the \$50,000,000 obligations of New York in the hands of European creditors which come due within the next few months. In return members of the board thought New York banks should not be requested to contribute to the proposed general fund of \$150,000,000 to take care of the total of American obligations to Europe. New York's \$50,000,000 was included in the \$150,000,000 suggested by the recent bankers' conference here as the sum necessary to care for all such obligations.

The board has not acted formally upon the plan for creating the \$150,000,000 pool, but has passed from consideration of the principle involved, to details. One point which has caused discussion is the suggestion that the board indicate the amounts of gold to be contributed by each bank. The board so far has felt reluctant to make a suggestion of this sort, which might look like an order, coming from such a source.

No report has reached the board so far from all the clearing-house associations of the country showing the gold possessed by all banks. Such reports will precede any action to carry out the plan.

Comptroller of the Currency William C. Miller reported that \$256,170,000 of the Aldrich-Vreeland currency has been taken out by banks up to the close of business Sept. 8, 1914. Of this the eastern states, including New York, took \$154,253,000; \$18,649,000 went to New England; \$25,163,000 to the southern states; \$50,465,000 to the middle states, including Chicago; \$1,652,000 to the western states and \$5,688,000 to the Pacific states.

## ROGER SULLIVAN IS VICTOR

Wins Over L. B. Stringer in Primary in Illinois—Uncle Joe Cannon Ahead.

Chicago—Roger C. Sullivan, former national democratic committeeman; Senator Lawrence Y. Sherman, republican, and Raymond Robins, progressive, will oppose each other for election as United States senator from Illinois at the November election. Returns from the primary indicate the nomination of Sullivan and Sherman by large majorities. Robins was opposed.

Votes on the congressional nomination came in slowly, but it is certain three democratic congressmen had been renominated, and that former Speaker Joseph G. Cannon had received the republican nomination in the Eighteenth district.

For the republican senatorial nomination, Senator Lawrence Y. Sherman apparently has a safe lead over William E. Mason, former United States senator.

Raymond Robins was unopposed for the progressive nomination for senator.

Interest in Sullivan's candidacy was increased a few days ago through the receipt by Cook county democrats of a letter from Secretary Bryan urging his defeat.

## MRS. CARMAN IS INDICTED

Murder in First Degree Is Charged Against Her in Freeport Murder Case.

Mineola, N. Y.—A superseding indictment charging murder in the first degree was found against Mrs. Florence Carman by the grand jury investigating the murder of Mrs. Louise Bailey, shot down by an unseen assailant in the office of Dr. Edward Carman at Freeport on June 30 last.

Mrs. Carman had previously been indicted for manslaughter.

Mrs. Carman, who had been at liberty under bail, was brought to Mineola from Freeport by her counsel in anticipation that such an indictment would be returned. She was arraigned immediately and committed to the Nassau county jail without bail for trial, which probably will be in December.

## Ameliorate War Horrors.

New York—A plea for amelioration of the horrors of war was issued from this city. It was made by the Federal Council of Churches of Christ in America.

## Pope Sees Diplomats.

Paris—A dispatch to the Havas agency from Rome says that the pope received the members of the diplomatic corps here.

## Ready to Ballot.

New York—The international committee of the New York cotton exchange, which is meeting here daily to discuss the readjustment of the New York-Liverpool straddle interests, announced that they are ready to ballot for orders.

## Washington.

President Wilson has joined the "buy a bale of cotton" club by ordering from the head of the organization in Georgia \$50 worth of cotton.

## SPUR FARM LANDS.

Many farmers are making hard or doubtful living on high-priced lands in localities cursed with insect pests, or floods, or drought, or weed plagues, or other enemies to successful farming. The end of each year finds time and energy practically wasted—no progress made. Spur Farm Lands offer relief from these conditions.

The tenant on the high-priced lands further east can make a payment and be master of his own acres here. Any good farmer can pay for them from the products thereof. The Spur Farm Lands offer productive, virgin lands—easily cultivated—at low prices and on easy terms. Splendid crops are raised without irrigation. No boll weevil ever known here. Altitude 2,000 to 2,600 feet.

Considering the reliable production of these lands, the prices are lowest in Texas; new country, settling fast; splendid climate, no malaria, chills or fever; good churches and schools. We offer the homeseeker a wide range for selection and are selling direct—no commission to anyone. The purchaser receives full value in his lands in dealing direct with the owner as opposed to paying a middleman several dollars per acre.

## Stock Farms and Small Ranch Tracts.

We also offer fine grazing tracts, perfectly adapted to this purpose—one section to fifty—at prices from \$5.00 per acre up. Free illustrated booklet, giving all particulars, on application to Chas. A. Jones, Manager for S. M. Swenson & Sons, Spur, Dickens County, Texas.—Adv.

## Contrary Actions.

"Why did Banks round up his creditors?"

"I suppose to do the square thing."

## RUB-MY-TISM.

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

## Not Good Looking.

Diner critically—This isn't a very good looking piece of meat.

Waiter—Well, you ordered a plate steak.

## A Relief.

"Aren't you worried about the cost of living?"

"Not a bit," replied the patient woman. "My husband has quit talking about the kind of food his mother used to price. 'All he talks about now is the prices his father used to pay.'"

## The Things They Say.

The Gushing Young Thing—Oh, professor, you must come to our affair tomorrow. All my friends are coming—though they say they haven't a rag to wear!

He—I shall be delighted!—London Opinion.

## An Economist.

"So you have given your wife your word that you will favor votes for women?"

"Yes," replied the man who dislikes argument.

"What are your reasons for doing so?"

"It's cheaper. If I say I'm not in favor of votes for women—it's liable to hurt my wife's feelings so that it will take as much as a diamond necklace to enable me to square myself."

## Unyielding Grouch.

"Bliggins is a modest man."

"I don't think so."

"But he doesn't seem to think particularly well of himself."

"That isn't modesty. That's good judgment."

## LEARNING THINGS.

We Are All in the Apprentice Class.

When a simple change of diet brings back health and happiness the story is briefly told. A lady of Springfield, Ill., says:

"After being afflicted for years with nervousness and heart trouble, I received a shock four years ago that left me in such a condition that my life was despaired of."

"I got no relief from doctors nor from the numberless heart and nerve remedies I tried, because I didn't know that coffee was daily putting me back more than the doctors could put me ahead."

"Finally at the suggestion of a friend I left off coffee and began the use of Postum, and against my expectations I gradually improved in health until for the past 6 or 8 months I have been entirely free from nervousness and those terrible sinking, weakening spells of heart trouble."

"My troubles all came from the use of coffee which I had drunk from childhood and yet they disappeared when I quit coffee and took up the use of Postum." Name given by Postum Co., Battle Creek, Mich.

Many people marvel at the effects of leaving off coffee and drinking Postum, but there is nothing marvelous about it—only common sense.

Coffee is a destroyer. Postum is a builder. That's the reason. Look in pkgs. for the famous little book, "The Road to Wellville."

Postum comes in two forms: Regular Postum—must be well boiled. The 2c and 5c packages. Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. The 2c and 5c tins.

The cost per cup of both kinds is about the same.

There's a Reason—For Postum.—sold by Grocers.

#### Gone Home.

In June, 1852, was born William H. Adams, who, after having reached the years of accountability, claimed our loving Master as his personal Savior and joined the M. E. Church of which he lived a true and devoted member until death called him home. Early Friday morning Sept. 12, 1914, after a few days of patient, though intense suffering, our precious Uncle Billie passed quietly from this life of cares to that happy home of the soul, up where Jesus and loved ones waited for him. How sad, yet how sweet is the thought of death to those who are prepared to meet their God in peace. Loved ones we would ask you to think of your dear one as one who is now enjoying the endless pleasures of a heavenly home. Mother and children, weep not, for he is in heaven above where all is love, there will be no sorrowing there. He is waiting and watching for his companion and children and loved ones to welcome them through that beautiful gate with all its grandeur and glories. Another life is gone. Ah, yes,

there's another vacant chair; another form missed from our side, another crown to wear. Still Angel-vigil keeps, while brushing away the fallen tear, we whisper low: He sleeps. Amid life's duty he was called, and he obeyed the voice: though aching hearts are left behind, may we not now rejoice; that never more will trouble, pain assail him, hope now peeps behind the darkest clouds and says, he is not dead, he only sleeps. May God, in pity infinite, comfort those behind, those whose hearts are bleeding sore; may God be more than kind; and teach them patience, faith and trust, though the shadows nearer creep when the awakening comes, they'll find he is not dead—he only sleeps. And some fair day in other land, when the shadows flee, the light will brighter and more clearer grow, and there'll be no more night. And some day too, if our lives are such we'll meet where no one weeps, and know full well the beautiful truth; he is not dead—he only sleeps.

Mary Belle Adams.

## A MURRAY INTERVIEW

### Mr. Ellison Tells His Experience.

The following brief account of an interview with a Murray man several years ago, and its sequel, will be read with keen interest by every citizen.

J. A. Ellison, Murray, Ky., says: "I suffered for a long time from lame back and often was hardly able to stoop. The trouble was worse when I got up in the morning, in fact, often I was hardly able to get out of bed. I took a great many remedies, but had no benefit until I began using Doan's Kidney Pills. Before I had finished two boxes, I was feeling like a different man and all the symptoms of the trouble had gone. I have had no occasion to use any kidney remedy since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ellison had.—Foster-Milburn Co., Props., Buffalo, N. Y.

### Hardin Happenings.

On last Sunday evening Mr. Acre Miller, of Wadesboro, and Miss Bessie Pool, of near Brooks Chapel, were united in holy bonds of matrimony, the Rev. J. P. Riley officiating. They are prominent young people and have many friends who join the Enterprise in extending to them heartiest congratulations.

Mrs. Hunter Furches and children, of Ooltewan, Tenn., are in the city visiting the former's parents, Mr. and Mrs. Foster Padgett.

R. C. Whittell, of Fulton, and W. L. Whittell, of Murray, spent Sunday in the city the guests of Foster Padgett and family.

Fred Barber, wife and little son, of near Murray, spent a few days in the city the guests of Albert Johnson and wife.

John Greenfield and family returned to their home in Briensburg yesterday after a few days visit to Mrs. Eva Jackson.

Mrs. Foster Padgett and daughter, Mrs. Hunter Furches, are visiting friends and relatives in Murray today.—Hardin Enterprise.

## REMEMBER YOUR LAST DOSE OF CALOMEL?

You probably recall the bad after-effects of the calomel more than the sickness you took it for. You need never again go through with being "all knocked out" for a day or two by calomel.

Next time your liver gets sluggish and inactive, we urge that you go to Dale & Stubblefield for a bottle of Dodson's Liver Tone, a splendid vegetable liquid medicine that will start your liver as surely as calomel ever did and with none of the after-effects of calomel. It is absolutely harmless both for children and adults and demands no restriction of habits or diet.

A large bottle of Dodson's Liver Tone costs only fifty cents and the druggists who sell it guarantee it to take the place of calomel, and will refund your money if it fails in your case or if you are not satisfied.

### Stabbed to Death Latham Ingram.

On the charge of murdering Latham Ingram, the fifteen-year-old Murray, Ky., negro, who was found dead near the Eureka negro park, in Rowlandtown, with a knife wound in his left breast, Labor Day night, Waddell Clidley, a negro bricklayer, was held to the grand jury without bail at his examining trial before Judge James H. Lang in county court yesterday afternoon. Paducah News-Democrat

### Sheep Frauds.

Frankfort, Ky., Sept. 14.—Not quite one family in four in Kentucky owns a dog, notwithstanding the fact that 1,734,453 of the 2,069,905 people live in the country, according to the 1913 report of the state board of equalization; but they average more than one sheep to the family, as the 494,784 families, enumerated in the government census report have returned for taxation 503,017 sheep. Every ninth dog estimated from records in the auditor's office, ate a sheep valued at about \$5 during the year, which is odd because the sheep assessed were worth less than an average of \$3 the head, the 503,017 being returned at \$1.504,383.

The county school funds are replenished from the balance left over in the dog tax after paying costs and the value of the sheep in the county killed by the dogs. The total accruing to the school fund from the dog tax in 1913 was \$43,876.69. The year before 127,335 dogs netted the schools \$46,888.95, while \$52,986.42 went to pay for the mutilated they ate.

Somewhere among them—the dogs, assessors and the sheep—the blame seemed to lie for failure of the dog tax law to effect two reforms aimed at, material increase of the school revenues and decrease in the ravages among sheep.

### Tobacco Display Elaborate.

The tobacco display at the Paducah fair October 6, 7, 8 and 9 will be the most elaborate ever held in the state, Louisville not excepted. The cash premiums are large and should induce every tobacco grower in the Western district to make one or more entries for this department. Not only will the tobacco exhibit prove an interesting feature but it will be an immense and valuable advertisement for the district and for each individual grower who participates. Several thousand people will view this tobacco, including many tobacco buyers and dealers. Full particulars can be had by addressing the secretary of the Paducah Fair Association.

Not only tobacco should interest the growers but all farm products as the premiums offered are very liberal. The association also is very anxious to make the stock exhibit the largest and best in its history and owners of fine stock are urged to enter exhibits.

### Big Wheat Crop.

Farmers in Fulton from all the surrounding sections bring the information that the farmers are preparing to sow a larger acreage of wheat this fall than usual. Everything points to fine prices the coming year for wheat on account of the European war and the failure of the big wheat countries of Europe to grow a crop.—Fulton Leader.
