EXTRA

Session Of Legislature Called By Gov. Beckham.

Only Subject Mentioned In Proclamation Is Election Law Change.

(Special to New Era.) FRANKFORT, Ky., Aug. 16.—Gov. Beckham today issued a proclamation convening the General Assembly in extra session.

The call had been generally expected, and had been looked for daily for two or three weeks.

DATE IN AUG. 28. The date named for the assembling of the Legislature in this city is August 28.

The only subject embraced in the proclamation is the amendment of the present election law.

The Governor had been urged to include quite a number of other matters in the call, but he is desirous of the extra session being as brief as the full consideration of the election law amendment will permit, therefore no other subject is mentioned.

AGRICULTURAL

Sales of mules, sows and breeders and owners of the fact that good mules are from \$15 to \$25 higher than a year ago.

Conditions have improved in the Dark tobacco district. Reports now to hand say the crop is coming out fairly and gives promise of making a good yield.

No tobacco worms, or other pests are yet in evidence, and an occasional shower is the only need to produce a crop, which is short while since was not thought possible.

There never was a prettier prospect for tobacco in this county than right now. A visit to some of the leading plantations will suffice to prove our statements in this respect. The acreage is not overly large, but the quality of the crop is excellent. There are fewer worms than ever known and planters

are handling their crops with ease. Elkhorn Progress.

In his report for August, Commissioner of Agriculture J. B. Hall says hog cholera is prevalent in both Allen and Monroe counties and that stock boys in those counties are very scarce.

He places the wheat yield throughout the State at 105, as compared with last year, and says the acreage of corn is 108 with a condition of 95. Tobacco is reported as better than expected in the Barley district, but the crop of dark tobacco has been damaged by heavy rains.

The government crop bulletin of Kentucky for the week ending yesterday, said: Wheat threshing progressed well last week, and the results are very satisfactory in yield and quality. Corn has improved rapidly and is now very promising. Tobacco is most localities has advanced wonderfully. Oats have been harvested with excellent results. Apples are very poor, but other fruits are generally quite good. Irish potatoes and garden vegetables are plentiful and of excellent quality. Farm work is fairly well up. Considerable plowing for winter wheat has been done.

The total imports of leaf tobacco into the United States during the year ending June 30, 1900, were 19,619,217 pounds, valued at \$12,296,834. These imports came from all parts of the world, but the five countries contributing the largest quantities were Cuba, 11,400,000 pounds valued at \$7,228,288; the Netherlands, 5,101,583 pounds valued at \$4,569,971; British North America, 404,275 pounds valued at \$290,967; Mexico, 300,796 pounds valued at \$21,203; and Germany, 262,788 pounds valued at \$135,308. The balance was in much smaller lots from the various tobacco growing countries, such as Turkey, Brazil and San Domingo. It will be seen that Cuba's contribution to our needs was nearly 59 per cent. of the whole, as to quantity, and over 59 per cent. of the whole as to value.

"We will have dollar wheat before the end of the year," is the confident prediction of Secretary of Agriculture James Wilson. The Secretary has been making a careful study of domestic and foreign demand for our wheat this year and in view of the crop and the estimate which his experts have made looks for rising prices.

"The outlook for good prices was never better. We have a shortage in the American wheat crop this year which will probably amount to a hundred million bushels in all. This alone would prove to make the present yield more valuable. There are additional reasons, however, which incline me to believe that wheat will make a marked advance before the end of the present year."

ARGUMENT

Well Under Way In Powers Trial.

Final Instructions Given Jury and the Speech-making Begins.

(Special to the New Era.) GEORGETOWN, Ky., Aug. 16.—Hon. John K. Hendrick, of Paducah, in a powerful speech lasting three hours, made the first argument of the prosecution in the Powers case today.

Judge Denny is speaking this afternoon for the defense.

The final instructions were read to the jury by Judge Cantrell at 4 p. m. yesterday and Judge James Sims made the opening argument for the defense.

POWERS NERVOUS. Defendant Powers was in such a nervous and critical condition that his attorneys filed a physician's affidavit that he was unable to attend a night session of the court, but Judge Cantrell said a cot could be provided for him and he could lie down in the court room during the speeches. Powers was able to sit up at night, however. The instructions to the jury were considered by defendant's attorneys as being entirely too severe and as tending to lessen Powers' chances of acquittal, although they are still confident of a verdict in his favor.

INSTRUCTIONS. Instruction No. 3 tells the jury that if they believe from the evidence that Caleb Powers, with intent to bring about or procure the death of William Goebel, conspired with W. H. Cullton, F. W. Golden, Green Golden, John T. Powers, John Davis, Charles Finley, W. S. Taylor, Henry Yantzer, James Howard, Berry Howard, Harlan Whitaker, Richard Ombre, or any one or more of them, person or persons unknown to the jury, or acting with them, or either of them, did advise, counsel, encourage, aid or procure the persons named, or any of them, or any unknown person or persons acting with them, or either of them, to kill William Goebel, and that, in pursuance of said conspiracy, and for the purpose of said conspiracy, aid, counsel, encourage, aid or procurement, given by the defendant, Henry Yantzer, James Howard, Berry Howard, Harlan Whitaker, Richard Ombre, or other person or persons unknown to the jury, acting with them, or either of them, did kill William Goebel, they ought to find the defendant guilty of murder and fix his punishment at death or confinement in the state penitentiary for life, in their discretion.

WHETHER PRESENT OR NOT. They ought to find the said Caleb Powers guilty, whether he was present at the shooting or wounding, or not present at the shooting of William Goebel.

Instruction No. 4 says that it does not matter whether the change, if any, was made by the conspirators, if any was made, as to the original design or intention, or the manner of accomplishing the unlawful purpose of the conspiracy.

No. 5 provides that the jury must find Powers guilty, although the jury may believe from the evidence that at the time of the shooting of Goebel, Powers was not present and the time of the killing of Goebel had not been definitely fixed and agreed upon by the conspirators, if there was a conspiracy to kill Goebel.

The court instructs the jury that if they believe from the evidence that the defendant Powers conspired with other persons to do some unlawful act in pursuance of which William Goebel was killed, the defendant is guilty, although the jury may believe from the evidence that the original purpose was not to procure or bring about the death of William Goebel, but was for some other unlawful and criminal purpose.

SIMS' SPEECH. Judge Sims, in his speech said the jury in the case had not borne out the statements of the case made for the Commonwealth by Col. T. C. Campbell. He said that if the Commonwealth's attorney had stated the case he would have stuck to the fact that could be proven. He dilated at length on Goebel's testimony that if the fall of the bullet was 18-16 of an inch in passing through Goebel's body it could only have been fired from a point seven feet above Powers' office window.

HAVE YOUR SHOES BY having them repaired at once. Our work is first class in every respect. Give us a trial. JEFF MORRIS, Over Clark's.

ROBERTED GRAVE. A startling incident of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most deplorable condition. My skin was almost yellow, eyes sunken, in tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three doctors had given me up. Fortunately a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fail to try them. They are guaranteed. Only sold at L. L. Rign's O. N. W. R. H. Hartwick's, J. O. Cook's and Anderson & Fowler's drug stores.

HUSBAND'S

Scheme To Get Rid Of His Wife.

Tried To Have Her Sent To The Hopkinsville Asylum.

Was McDaniel, of Davies county, tried to have his wife sent to the asylum near Hopkinsville. She was tried in the county court and after hearing one witness, Dr. Early, of Knoxville, the some of the McDaniel's, the warrant was dismissed and the jury discharged.

NOT INSANE. Dr. Early testified that he was the family physician, and there was not now nor ever had been any trouble with Mrs. McDaniel's mental faculties.

About two weeks ago, according to the Owensboro Messenger, McDaniel came to Owensboro and swore out a lunacy warrant against his wife. The warrant was placed in the hands of Deputy Sheriff Ollie Haynes, and he went up to McDaniel's home to arrest Mrs. McDaniel and bring her to Owensboro for trial on the warrant, but after he got to McDaniel's and talked with Mrs. McDaniel for a short time he decided that she was the most intelligent lunatic he had ever seen, and, in fact, thought she had too much good sense for any jury to send her off to an asylum as a crazy person, and he left the McDaniel home without ever letting her know the real purpose of his mission.

GREAT INDIGNATION. After Mr. Haynes left McDaniel's he went to the homes of some of their neighbors and asked about her mental condition. They all said they had seen nothing wrong, and expressed great indignation over the fact that McDaniel had taken out a lunacy warrant against his wife.

On Monday McDaniel brought his wife to the city himself to have her tried for lunacy, with the result as stated.

OFFERED HER MONEY. Neighbors of McDaniel, told Deputy Sheriff Haynes that he had offered his wife \$100 to leave him, but she declined to do so, and they think the lunacy charge was brought against her with the hope of getting rid of her.

FUNNY

Mixture Is "Honest Democrats" Resolutions.

Endorse Yerkes and Bryan --Lynch, Of Dawson, Nominated.

The "Honest Election Democrats" of this district, met in convention at Owensboro Wednesday afternoon to nominate a candidate for Congress.

Judge Joe McCarroll, the L. & N. attorney, represented Christian county. Dr. W. N. Short was elected chairman, and E. N. Lamar, of Hancock county, was elected secretary. The chair appointed the following committee:

THE COMMITTEES. Credentials—Judge Joe McCarroll, of Christian; J. W. Slaughter, of Davies; and R. M. Glover, of McLean.

Resolutions—A. J. McCallin, of Webster; George A. Freestone, Union; L. P. Tanner, Davies.

The committee on credentials reported all the counties represented except Henderson, and that there were 95 votes in convention and no contests. The committee on resolutions reported. The resolutions reaffirm the Lexington platform, denounce the C. & O. and the Goebel law, pledge support to John W. Yerkes and endorse the Kansas City platform and the nomination of Bryan and Stevenson.

WOULDN'T ACCEPT. The delegates were almost unanimous in favor of Judge Little, of Owensboro, as the nominee of the convention, but he was not willing to accept the nomination.

W. M. Lynch, of Hopkins county, was placed in nomination by George A. Prentice, of Union county.

LYNCH SELECTED. The nomination was seconded by Lawrence P. Tanner, and there being no other nominations, Mr. Lynch was, upon the call of the counties, declared the nominee.

A dispatch in today's Courier-Journal says: Nominee Lynch lives at Dawson, and as a coincidence it appears that Mr. E. T. Franks, the Internal Revenue Collector, came from Dawson this morning. It is charged that Mr. Franks desires the defeat of Col. E. G. Seibers, of Henderson, and as Hopkins has been reported to be for Seibers, the selection of Lynch may mean that he can take the vote of Hopkins away from Seibers and get the nomination from the Republican convention when that body meets.

NOT MUCH HARMONY. It appears that everything, was not all harmony among the delegates, some of them wanting to endorse Bryan and Stevenson and others being opposed to such endorsement. It was a very small affair, only about a half dozen participating in the meeting.

A THOUSAND TIMES. Could not express the capture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal cure—"It removed the pain in my chest and I can now sleep soundly, something I feel I never remember doing before. I feel like sounding the praises throughout the universe." So will everyone else who tries Dr. King's New Discovery for any trouble of the Throat, Chest and Lungs.
