THE MURRAY LEDGER.

VOL. 86, NO. 22

MURRAY, KENTUCKY THURSDAY, OCTOBER 1, 1914

\$1.00 PER YEAR.

CHAOTIC

Conditions in Tobacco Trade, says a Prominent New York Tobacco Man.

Mr. Muller, the junior member of Ernest Muller & Co., of New York, who for many years have been engaged in the export tobacco business, gives the following account concerning the situation which the war has produced in that line of trade:

"Conditions are very chaotic in the Kentucky and Virginia export trade. Where a few months ago it seemed that a short crop would enable the farmers to keep up prices for their 1913 tobacco and also dispose of their list at high prices, it now seems that, especially in the western districts, remarkable fine weather conditions have improved the crops immensely, and a small but exceedingly fine crop is looked for in the dark belt of Kentucky and Tennessee.

"It is impossible to judge what the future will bring. Many of the buyers for the governments now at war have bought and paid for large stocks of tobacco which are now in this country, but are unable to get in touch with their governments.

Bremen, which for many years has loaded sailing vessels with tobacco at New Orleans, is in the unhappy position of having three sailing vessels, each with a quarter of a million dollars worth of tobacco aboard, laid up at various points. The Matador is at New York; the Excelsior is at a port on the coast of Ireland, and the Roland is tied up at an English port. What will become of this tobacco is a problem.

"Luckily for the farmers the United States government has inaugurated a policy of using tobacco warehouse receipts as a basis for emergency currency. This will permit the farmers storing their 1914 crop and borrowing money on the warehouse receipts. This will prevent a slump of the proportions that were at first indicated when the outbreak of hostilities lost them their European market, but it lacks a great deal of being as satisfactory as disposing of the crop in a normal way is."

Apply Sloan's Freely for Lumbago.

Your attacks of Lumbago are not nearly so hopeless as they seem. You can relieve them almost instantly by a simple application of Sloan's Liniment on the back and loins. Lumbago is a form of rheumatism, and yields perfectly to Sloan's, which penetrates quickly all in through the sore, tender muscles, limbers up the back and makes it feel fine. Get a bottle of Sloan's Liniment for 25 cents of any druggist and have it in the house—against colds, sore and swollen joints, rheumatism, neuralgia, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.

Nine Counties Vote Dry.

Louisville, Ky., Sept. 28.—Nine counties of the 12 counties in Kentucky which voted on the whiskey question today returned large "dry" majorities, while only three remained "wet." In only one county, Anderson, was it close, which went "wet" by a majority of 64 votes. In every county hard fights were made by both sides. This gives the wets nine out of the 15 counties which have held prohibition elections since the passage of the new county unit bill. The biggest vote received by the liquor

people was in Fayette, home of many of the biggest distilleries in the country, which gave a majority of 3,264 for the "wets." In the three counties which voted to sustain the liquor question there are distilleries there. The fight today wound up one of the most vigorous campaigns which has been made in a long while by the "dry" element.

Great interest was manifested all over the country, as the "wets" were believed to be more strongly entrenched in the Blue Grass state than in any other in the nation. However, no charges were made today of fraud and in no instance was there any trouble. The vote in Bell County, the only town in Southeastern Kentucky which has saloons, was a surprise. The county voted "dry." The vote by counties follows:

County.	Wet.	Dry.
Carroll	679	1,195
Montgomery	1,174	1,384
Henderson	3,550	2,407
Mason	333	333
Fayette	3,264	1,781
Bell	1,396	1,123
Boone	593	211
Clark	1,774	2,524
Snellby	1,941	1,199
Anderson	1,263	2,311
Bourbon	1,906	2,032
Scott	1,619	2,032

Teachers' Association Program.

Program for teachers association to be held at South Howard school house Oct. 3rd 1914. Devotional exercise—J. O. Wrather.

Welcome address—G. H. Wind-

Response—Frank Radford.

How secure regular attendance—R. M. Phillips.

How discipline your school—Miss Beas Wilkins.

Purpose of nature study in rural schools—A. D. Butter-

Reading—Geo. Hart.

NOON

Some hindrance to educational work—L. C. Trevathan.

Your plans for correlating Geography and History—J. W. Jones.

Primary plans in Language work—Anna Underwood.

What have we gained by state adoption of text books—Geo. Parker.

Recent school legislation—J. R. Jones.

Value of library in rural schools—R. E. Broach.

Discussion—Miss Lucile Grogan.

All teachers, especially those whose names appear on program be present, and all interested in education are cordially invited.

Let us make this one of the best associations of the year.

Committee.

Shot by Assassin.

Hopkinsville, Ky., Sept. 26.—J. M. Renshaw, 64 years old, former sheriff of Christian county and one of the most popular planters and stockmen in Southern Kentucky, was shot from ambush yesterday afternoon while he was driving to the city from his home, two miles south of Hopkinsville. He is believed to be dying in the hospital here. Large posses are scouring the county for the assassin.

Keep Your Stomach and Liver Healthy

A vigorous Stomach, perfect working Liver and regular acting Bowels is guarantee if you will use Dr. King's New Life Pills. They insure good Digestion, correct Constipation and have an excellent tonic effect on the whole system—Purify your blood and rid you of all body poisons through the bowels. Only 25c. at your druggist.

CAMPAIGN OPENS

Beckham, McCreary and James Among Leaders of Party Who Addressed Great Throng

Somerset, Ky., Sept. 28.—Democrats! Democrats everywhere. In fact, one would judge from the throng of Democrats gathered into Somerset today to attend the opening of the Kentucky Democratic campaign that the Eleventh congressional district is a Democratic stronghold instead of a Republican bulwark.

While a local Democratic victory is something that does not happen in the Eleventh district very often, all realize they were participating in a state campaign and one that looks absolutely certain of an overwhelming victory on November 3, and they turned their enthusiasm loose, and hurrahs for Beckham, Ollie James, James B. McCreary and other party leaders could be heard on all sides.

Gov. James B. McCreary and his private secretary, Francis Douglas, and Gov. Beckham arrived Sunday night, and they were astir early this morning. They were the center of attraction and surrounded at all times by groups of admiring friends in the hotel lobbies.

Senator Ollie James did not get in until noon. He was met at the train by a delegation headed by State Central Committee, Woodson May and Campaign Chairman Gibson.

At ten o'clock a tremendous crowd had assembled on Fountain square, which is right in the heart of the town and fronting the court house, and they were addressed by Judge Rollin Hurt, the Democratic nominee for judge of the court of appeals in this (the Third) appellate district. Judge Hurt is very popular in this section, because he is a mountain Democrat, and an old Eleventh district one, at that and he was accorded an ovation and given such resounding applause as must have made him feel very good indeed. Cries were also made for the Hon. Nat. B. Sewell, the Democratic nominee for congress in the Eleventh district, and he responded, and was given an exceedingly warm and cordial reception.

Preceded by the band the march began from the hotel to the opera house, where the formal opening of the Kentucky campaign proper took place. The parade, headed by Senator Ollie James, Gov. Beckham, Gov. McCreary and others, was followed by a large throng of cheering Democrats.

Gov. McCreary presided at the opera house meeting, and when he arose to make his introductory speech he faced an audience that jammed the opera house from the first door to the roof just as long as one could crowd in, and they cheered the old war horse of many hard-fought battles to his heart's content.

When the applause had died away the governor reviewed some of the achievements of the Democratic administrations, both state and national, and introduced William Waddle, who in turn introduced Gov. Beckham, paying him a splendid tribute as to his ability, faithfulness and success, and Gov. Beckham, who has always been very popular in his county, was accorded an ovation which lasted several minutes.

Gov. Beckham reviewed the accomplishments and achievements of the Democratic party in both state and nation, and complimented in the highest terms the splendid administration of President Woodrow Wilson and of Gov. James B. McCreary, and urged the Democrats to go to the polls on Nov. 3, and make sure of the election of the Democratic ticket from top to bottom.

Gov. Beckham was followed by Senator Ollie James, who was introduced by John M. P. Thatcher, a young Democratic lawyer of New York, whose parents reside here, and who is here spending his vacation. Mr. Thatcher probably delivered one of the most eloquent introductory addresses ever heard in Somerset, and he referred to Senator James as the greatest man in the United States outside of Woodrow Wilson, who leans so heavily on this big senator to help him over the rough places in his administration. When Senator James' tremendous form loomed up on the stage the crowd went wild and almost raised the roof with their vociferous cheering, paying him probably the most resounding ovation ever accorded anyone in this opera house.

Senator James addressed himself principally to national affairs and what the Wilson administration has accomplished and what it still had in store for the betterment of the conditions of the United States. He urged every Democrat to be sure and go to the polls on Nov. 3, and help elect Gov. Beckham and the other nominees by the largest majority ever known in the history of the state, and one so overwhelming as to throw such consternation into the ranks of the enemy as to require many years for them to recover from the shock.

tion of President Woodrow Wilson and of Gov. James B. McCreary, and urged the Democrats to go to the polls on Nov. 3, and make sure of the election of the Democratic ticket from top to bottom.

Senator James addressed himself principally to national affairs and what the Wilson administration has accomplished and what it still had in store for the betterment of the conditions of the United States. He urged every Democrat to be sure and go to the polls on Nov. 3, and help elect Gov. Beckham and the other nominees by the largest majority ever known in the history of the state, and one so overwhelming as to throw such consternation into the ranks of the enemy as to require many years for them to recover from the shock.

Senator James interspersed his speech with many witty and humorous jokes and sayings and kept the large crowd in an uproar all the time.

Owing to his recent illness, Senator Johnson N. Camden was unable to be present, but sent a telegram expressing his regrets and urging all Democrats to stand loyally by the ticket.

Store Robbed.

Thursday night of last week the clothing store of Beale & Wells was entered by burglars several suits of clothes, some shirts, hats, shoes and numerous other articles were taken by the thieves.

A window in the rear of the building was prized open by the burglars who redressed in the store, exchanged their old clothes for new toggery out and out, leaving their old clothes behind.

Two suspicious looking characters were seen on the streets Thursday evening and supposing that these were the guilty parties a search was made by the marshals, and they were located near the Tennessee river by marshal Duguid who arrested them. They were brought to Murray and lodged in jail.

They were young men about 21 years of age and give their names as Henry Chapman and Tom Glenn.

What Would You Do?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? (It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says, "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.

LANDMARK GONE

Fire Destroys Residence on Phil Thompson's Farm in Trigg Known as Old Tan-Yard.

One of Trigg county's old landmarks was destroyed by fire last Sunday night. This was the large two story frame residence on the old "tan-yard" farm, two miles south of here, which is now owned by Phil Thompson. Mr. Thompson was at home by himself, Mrs. Thompson and children being in Hopkinsville visiting Mrs. Thompson's parents, Mr. and Mrs. I. G. Saltee. About 10 o'clock Mr. Thompson was awakened to find the entire side of the house next to the cook room and dining room in a light blaze. He gave the warning by firing his pistol several times and ringing the farm bell. He then rushed up stairs and got a lot of his wife's clothing and started down with them, but found the staircase below on fire. He rushed down a back stairway leading into a bed-room and found that door locked from the other side and had to burst it open to get out. By this time several neighbors had arrived and they succeeded in getting out one bed and some bedding and a few of Mr. Thompson's clothes.

There was \$1,500 insurance on the building and contents, while his actual loss is estimated at \$2,500. Besides this actual loss Mr. Thompson had practically all the old family pictures and keep-sakes in the house, many of which were extremely old and prized very highly by the members of the family, which cannot be replaced at any price.

This was the oldest weather-boarded house in Trigg county, and was built about 1850 by Mr. Moses Thompson, father of R. B. Thompson, of this county, and the late Moses S. Thompson, of this place. The framing of this house was all hewed out by hand, while the weather-boarding was sawed by an old water-powder saw on the old Alex Grace farm on Muddy Fork, the saw working up-and-down like an ordinary hand saw. This lumber was then dressed by hand. This place has always been known as the "old tan-yard," as one of the largest tanneries in Western Kentucky was operated there for a long time by the senior Mr. Thompson.

Mr. Thompson went to Hopkinsville Tuesday to consult with his wife, and it is probable that they will begin preparations at once for the erection of a new residence.—Cadiz Record.

Hopeless Lung Trouble Cured.

Many recoveries from Lung Troubles are due to Dr. Bell's Pine-Tar-Honey. It strengthens the Lungs, checks the Cough and gives relief at once.—Mr. W. S. Wilkins, Gates, N. C., writes: "I used Dr. Bell's Pine-Tar-Honey in a case given up as hopeless and it effected a complete cure." Get a bottle of Dr. Bell's Pine-Tar-Honey. If your cough is dry and hacking let it trickle down your throat, you will surely get relief. Only 25c at your druggist.

Western District Institute Meeting.

Commissioner of Agriculture J. W. Newman has announced that for holding the county institutes he has divided the State into three parts, to be known as the eastern, central and western divisions. He has also named the lecturers for each division, those for the western section being as follows:

J. E. Hite, director; J. H. Carmody, on fruit; M. O. Hughes, on live stock and soils; Miss Nancy Barr, on domestic science, and W. C. Anderson, on soils. In the western division the institutes will be held as follows: LaCenter, October 5 and 6; Barlow, 7 and 8; Bardwell, 9 and 10; Milburn, 12 and 13; Clinton, 13 and 14; Fulton, 15 and 16; Wingo, 16 and 17; Mayfield, 19 and 20; Lone Oak, 20 and 21; Murray, 22 and 23; Benton, 23 and 24.

Tax in First District.

The amount of taxes to be paid to the state by the people of the counties of the First congressional district for the year 1914 is as follows:

Ballard	\$17,873
Caldwell	17,637
Calloway	14,521
Carlisle	14,521
Crittenden	17,429
Fulton	25,562
Graves	61,127
Hickman	21,193
Livingston	15,113
Lyon	9,106
Marshall	17,804
McCracken	70,257
Trigg	15,775

Association Elects Officers.

Clarksville, Tenn., Sept. 26.—The annual meeting of the Planters' Protective Association met in this city Friday. About fifty counties were represented from Tennessee and Kentucky. The directors decided to continue the association along the lines as heretofore.

The officers elected were as follows: F. G. Ewing, general manager; J. M. Couts, eastern division manager; James West, central division manager; M. M. Tucker, western division manager to succeed John H. Keys; Dr. W. W. Scott, president; J. B. Jackson, vice president; T. L. Hughes, auditor; F. T. Carr, secretary and treasurer; O. H. Ellis, bookkeeper at Springfield; A. B. Killebrew, salesman at Clarksville.

Your Fall Cold Needs Attention.

No use to fuss and try to wear it out. It will wear you out instead. Take Dr. King's New Discovery, relief follows quickly. It checks your Cold and Soothes your Cough away. Pleasant, Antiseptic and Healing. Children like it. Get a 50c bottle of Dr. King's New Discovery and keep it in your house. "Our family Cough and Cold Doctor" writes Lewis Chamberlain, Manchester, Ohio. Money back if not satisfied, but it nearly always helps.

High Diver Killed.

Hickman, Ky., Sept. 25.—The man making the high dive for the Hopkins Carnival, which is showing here this week, known by the name of Santy Domingus, died here this morning as a result of a high dive made here last night at 10 o'clock, when the ropes supporting the net broke and the net slipped to the ground with him, crushing in the base of his skull and laying open a large wound. The dive was 70 feet, and when his body struck the net a rope supporting it broke, also one of the stakes pulled out, and he struck the ground with full force on the back of his head and shoulders, rendering him unconscious, death resulting early this morning. A large crowd witnessed the tragedy, many ladies and children being near him. His wife was also standing near the net when the accident occurred.

Farmers, machinists, railroaders, laborers rely on Dr. Thomas' Electric Oil. Fine for cuts, burns, bruises. Should be kept in every home. 25c and 50c.

Mark Truitt, ex-heart, Unity Machine town, to Truitt tells Mark his dream to see and asks the someone if he ever got Thomas Henley, works, for a job instruction gang. He him a la. TERRIFIC ATTACK AT NIGHT

Hand-to-Hand Encounter—Lines Clash in Terrific Bayonet Charges

Paris.—In a furious night attack opened by the allies simultaneously along the whole line between the Aisne and the Oise, the Germans were surprised in their trenches and driven out at several points on the German right.

Soon after the attack opened, the Germans directed an attack against the allies' lines further to the east but were finally driven back in a hand-to-hand encounter, in which line

Severe fighting has occurred along the entire battle line, which has narrowed to about 90 miles because of the rival armies drawing closer together.

During the early part of the night the engagement had narrowed to activity of the heavy guns, and the fire was desultory. But at 2 o'clock in the morning a preconcerted attack by the allies opened with unprecedented fur-

On the allies' left the onslaught was conducted with the greatest vigor, for here the attacking French and British had made the greatest advances and

The French gunners had the range and raked the German trenches with a galling fire. Under cover of this and the rapid-firers, which swept the top

The energy of the attack took the Germans by surprise, and after a fierce struggle at the trenches, the Germans were driven back. The German resistance

were driven back. The German resistance was desperate. It was not until they were overwhelmed that they were swept from their position.

THURSDAY, OCTOBER 1, 1914

The Real School of To-Morrow.

(Pictorial Review)

Ella Frances Lynch wrote a constructive series of articles for Pictorial Review criticising our Public School methods. We quote as follows from the \$500 Prize Letter written in answer to this series:

Where is the blame. Ask the first grade teacher and she will say it is the requirements of the second. Ask the grammar school teacher and she will say that it is the first year of the high school. Ask the high school man and he will say the college. Ask the college—why continue? All remind me of Thomas Nast's famous cartoon of the Tweed ring where every man standing in a circle has his right hand pointing to the next man with the words underneath, "Who's to blame?"

It is easy enough to get a schooling. Just go to school; that's all. You will find plenty of books, fine buildings and printed courses. But whether these things constitute an education or not is a difficult matter. The education process has been turned over to the school. "Next year I can take up bridge," says one, "as Mary then goes to the kindergarten." "I cannot make Henry mind me," says another, "I don't see how his teacher puts up with him." A child may have adenoids, but it is the school man that discovers them, not the parent. Two hours a week of manual training takes the place of daily chores at home. A course in sex hygiene is the substitute for a few discreet words of a thoughtful parent. A hastily swallowed doughnut followed by a cup of coffee is the breakfast for a boy who is to have in one hour his lesson on physiology. Parents vote for the single session plan and allow their children to eat a baker's lunch. "Teachers get big pay for five days a week, nine months in the year" is the common remark, never thinking that the educative process is continuous.

Some school men are awake to the need for a change. More than one would meet his professional graveyard if he proposed the radical changes recommended by Miss Lynch. Many are ready to press forward, but the chairman of the school board is an aspirant for higher honors, and so it goes. The school is a little factory with many machine hands and pet processes of specialities. Some measure their products in dollars and

cents. Some dote on the ratio per capita cost of instructions to the amount of coal burned.

But the majority of people cannot be thinking much about education or else they would earnestly seek for the school of to-morrow where the teacher will be a master craftsman—an artist and not a machine hand. One who will take precious human clay—the child—and fashion it into various shapes rather than dump it into a common mold between the leavers of tradition and uniformity. One who will think of the child of to-morrow—sound, accomplished, and beautiful in body; intelligent and sympathetic in mind; reverent in spirit and productively efficient.

But gradually the school will come. But not until you and I—all of us—begin to realize that the only purpose of education is development of human health.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for Kentucky testimonials. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by druggists.

Gambling Probe Now On at Mayfield.

Mayfield, Ky., Sept. 25.—As a result of an investigation into gambling that has been going on in the vicinity of the fair grounds by County Judge W. V. Gregory and County Attorney F. B. Martin, warrants have been issued against fifty-seven persons. Most all have been arrested and fifty-two have entered a plea of guilty and paid their fines of \$24.50 each.

In connection with this several persons were fined for selling whiskey. It is said that the investigation will not stop there, but will be continued until every gambling place in the county has been broken up. The wholesale arrests caused a sensation owing to the prominence of several of the persons.

John D. Smith, secretary of the Kentucky Southwestern Electric Railway & Power Co., was the city on business Monday.

Order of Election.

This day came E. B. Ross and W. P. Dulaney, residents and legal voters of Magisterial District No. 4, in Calloway county, Kentucky, and filed a petition signed by themselves and more than 20 other residents and legal voters of said District, and I. A. Reaman and J. A. Myers, residents and legal voters of Magisterial District No. 5, Calloway county, Kentucky, and filed a petition signed by themselves and more than 20 other residents and legal voters of said District, asking the court to make the necessary order for the submission of the question "Are you in favor of making it unlawful for cattle or any species thereof to run at large upon the public highways and unenclosed lands in Magisterial Districts Nos. 4 and 5 in Calloway county, Kentucky," and the said petitioners having deposited with the Judge of the Calloway County Court the sum of Ten dollars, which sum the court doth adjudge is sufficient to defray the expenses of said election, it is now therefore ordered that the election officers of the several voting precincts in Magisterial Districts Nos. 4 and 5, Calloway county, Kentucky, at the next regular election to be held on the third day of November, 1914, open a poll in their several voting places at such time and place as is prescribed by law for said election for the purpose of taking the sense of the legal voters in Magisterial Districts Nos. 4 and 5, Calloway county, Kentucky. It is further ordered that a notice of said order for an election on said question be published in at least four issues of a newspaper published in Calloway county, Kentucky, at least 30 days before said election, said publication to be made in the newspaper having the largest bona fide circulation in said county, and said required publication shall state that it is desired to prohibit the running at large of cattle and all species thereof in Magisterial Districts Nos. 4 and 5, Calloway county, Kentucky. A copy attested: H. C. Broach, Clerk.

Records for September Broken.

Washington, Sept. 29.—Cold weather records for September were broken in a number of localities last night and this morning. Frost was reported from the Middle Atlantic and New England States and the upper Ohio Valley. The lowest temperatures of record for September were recorded at Richmond, Va., where it was 34 degrees; Hartford, Conn., 32 degrees; and Northfield, Vt., 29 degrees.

Two Special Farm Bargains.

The late H. C. Hodge farm, 1 mile west of Pine Bluff, 100 acres, 75 acres fine creek bottom land; a well improved place with good house, barns, stables, orchard, in fact, one of the best places on the east side. Will sell at a bargain now to settle with his heirs.

Next place is a 300 farm, 3 miles south of Crossland, 100 acres in bottom, \$1,000 worth of timber; three settlements, plenty of barns, stables, well watered; will sell the entire tract for \$3,750. Better see these places. Murray Land Co., J. D. Hamilton, Manager.

Card of Thanks.

It being impossible for me to meet and personally thank the members of the church, neighbors, friends, doctors, nurses and all who have extended sympathy and help to me and my family during my late illness, I take this opportunity to publicly thank all. I also desire to thank our Heavenly Father for restoring to health one who has been so near death's door.—E. R. Drinkard.

Unique Trial.

A man was tried at Harrodsburg the other day charged with slaying a hog across the snout with a pocket knife. He put up a successful plea of self-defense asserting that the hog was in his cornfield and he was trying to chase it out when it turned and charged upon him. In which desperate situation he drew his trusty blade and put three large gashes in the hog's snout. The owner of the hog prosecuted but the court held that the plea

of self-defense was as good in the case of a hog as in that of a man. Of course the hog couldn't testify but no doubt if it had been able to do so it also would have put in a plea of self-defense—probably as good a one as was offered by the man, for wasn't he, by his own admission, chasing the animal when it turned upon him?—State Journal.

New Concord.

As I have not seen anything from this vicinity in some time I will drop you a few lines.

Health is very good with the exception of bad colds.

A child of Mr. and Mrs. G. P. Kline died Sunday and was buried Monday at New Concord.

Billie Lawson and Ike Wilkerson are riding day and night buying cattle.

Mr. Joe Thurman died Sunday after walking over his farm Saturday. He ate a piece of Watermelon Sunday and died shortly after.

Cutting tobacco is the order of the day.

They are having a nice time at the debate every Friday night at this place, and have some good music. Come out and hear them.

There will be Sunday School at the church here next Sunday at 2 o'clock. Come out and spend the evening.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rattling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circular free. E. J. CHENEY & CO., Toledo, O. Sold by all druggists. Be sure you get Hall's Family Pills for constipation.

Horses in War.

It is one of the grim realities of war that men are cheaper than horses. They can be more easily replaced. They are not so costly to feed; nor does what they eat involve the bulk of transport necessary to sustain a large cavalry force. The horse is a commodity whose price may be expected to advance in this country most rapidly. No doubt the buying will be through private agencies, but the destination will be the field of battle, and the nation which commands the sea is likely to have first pick.

When an advance is checked much is said about the exhaustion of the men. Exhaustion of the horses is a far more serious matter, because the men can soon rest or be recruited, but the lost horses can only be replaced at a costly expenditure of time. No doubt the motor is responsible for much of the transportation in the present war, but it cannot handle artillery in the field, and cavalry cannot charge on motor cycles.

In the German Staff record and study of the Boer war the highest praise of any general, after Lord Kitchener, was given to the present Field Marshal French. He has the rare talent of handling cavalry in mass. Cavalry generals are born rather than made, and the German Staff paid him the compliment of likening him to Ney and Phil Sheridan. It must gratify them to find how accurate their judgement was.

But French used up his horses in the Boer war at a rate which scared the War Office and the British taxpayer, two institutions who do not always realize that you cannot have omelettes without breaking eggs. General French's cavalry tactics in the present campaign have won unstinted praise from expert critics. But he must have used up horses at a rate which may be easily explained why the Germans have been able to reform their lines behind the Aisne—a manoeuvre perhaps principally intended to restore the lines communication and to repair damages.

The world supply of horses is limited, and the effect of commandeering is likely to be felt in next year's plowing, to say nothing of the harvest. It is well enough to talk of the women and the old men attending to the sowing and harvesting. But the horse is an imperative necessity in such agricultural work, and his absence will be severely felt.

The horse is indeed one of the sinews of war. Perhaps another, equally important though different, is gasoline. The exhaustion of these two essentials may be a matter of life and death to Germany at no distant date.—Ex.

Tickling in the throat, hoarseness, loss of voice, indicate the need of BALLARD'S HORE-ROUND SYRUP. It eases the lungs, quiets the cough and restores health in the bronchial tubes. Price 25c, 50c and \$1.00 per bottle. Sold by Dale & Stubblefield.

Misses Una Broach and Ethel Farmer invite you to look through their line of millinery before buying. Over the new 10c Store. Everything new.

1847 ROGERS BROS.

"Silver Plate that Wears"

Silver Of Proven Quality

Rich design and refined beauty in knives, forks, spoons and fancy serving pieces are not attributes of solid silverware alone. The skill born of long experience has produced in the famous 1847 ROGERS BROS. silver plate effects in pattern and design which make its name for beauty second only to its reputation for quality—"Silver Plate that Wears."

Sold by leading dealers everywhere. Send for catalogue "CL," showing all patterns.

Reduced Rates on Railroads and Steamboats.

SOCIAL AND PERSONAL

Have you seen that new grey
hearse of J. H. Churchill's?
Will pay 22 1/2 cents for eggs.

Thomas, Parker & Perdue.
Broach & Jones have some
bargains in Flour and Feed stuff.

Ben Grogan has exchanged his
farm near Providence for the
W. D. Kelley residence in Hazel.

Nice tables and special atten-
tion given to ladies at the Ozark
Cafe.—Johnson & Hicks.

Mrs. B. B. Wear, of Hazel,
was here Wednesday the guest
of relatives.

Will pay 23 1/2 cents for eggs.—
Thomas, Parker & Perdue.

Dr. E. T. Russell, of Paducah,
transacted business in the
city last Saturday.

Gatlin Brandon, of Hazel, was
in the city Wednesday on busi-
ness.

The Murray Band went to
Paris Wednesday to furnish mu-
sic at a political speaking.

Mrs. John Finney, of near
Coldwater, is very ill of tuber-
culosis.

Hot lunches at all hours, best
things to eat and best place in
town is Ozark Cafe.—Johnson &
Hicks.

Will pay 22 1/2 cents for eggs.—
Thomas, Parker & Perdue.

D. E. Booker, cashier of the
Bank of Hardin, was in the city
Monday.

Dr. Newton Evans, of the
Murray Surgical Hospital, has
returned from California, where
he has been for some time tak-
ing special course in a medical
school.

Ziba Williams, of Paducah,
who has been suffering of ex-
ema, is much improved and was
in the city Monday the guest
of relatives.

J. M. Bailey, of the west side
of the county, leaves to-day for
San Antonio, Texas, where he
will remain through the winter
with his son who resides there.

We learn as we go to press
that the burglars who broke in
Beale & Wells store last week
are leaving for the reform school
from which they escaped a short
time ago.

Poultry and Eggs Wanted.—
Will pay 10c for hens; 11c for
large young chickens; 12c for
spring weighing under 2 1/2 lbs.,
must have empty craws. Pay
these prices until Tues., Oct. 6
This is the highest price until
next year.—B. H. Pitman & Co., Post-Intelligencer.

F. C. Boren, chief clerk for
the N. C. & St. L. R. R. of Lex-
ington, Tenn., and H. P. Boren,
agent for same of Gordon, Tenn.,
were here the past week the
guests of their brother, O. L.
Boren.

Having purchased the Ozark
Cafe under New Murray Hotel,
we will appreciate your patron-
age.—Ben Johnson & Will Hicks.

The many friends of W. T.
Holcomb and wife extend to
the bereaved parents their sym-
pathy over the loss of their
six weeks old baby, which died Fri-
day morning of last week.

Ladies will find a rest room
prepared for them, and you are
welcome at the new 5, 10 and
25c Variety Store.

Mrs. Bud Kimbro, a well
known lady of the Pine Bluff
section of the county, died Tues-
day of this week after a linger-
ing illness. She was about 65
years of age and is survived by
a husband and children.

The name—Doan's—inspires con-
fidence—Doan's Kidney Pills for
kidney ills. Doan's Ointment for
skin itching. Doan's Reg-
lets for a mild laxative. Sold at
all drug stores.

Have you examined those
steel vaults that J. H. Churchill
carries in stock? He has a vault
than is guaranteed for fifty
years to keep out water. 9243

Fertilizers.—Before making
your purchase of wheat fertiliz-
er it will be to your interest to
see W. M. West. He is in a po-
sition to furnish you the best
grades fresh from the factories.

J. H. Churchill is better pre-
pared than he ever was to fill
orders for coffins, caskets, bur-
ial robes and suits on account of
the big stock of goods he car-
ries, and the price is right too.

Gene Parham and wife, of El
Paso, Texas, arrived in the
county the past week and will
spend the next few months here
the guests of their parents, Jas.
L. Parham and Frank Boat-
wright, of the eastern part of the
county.

I have a nice grey hearse and
a black hearse for my white
trade exclusively and also have
a new cooling board for white
patrons exclusively.—J. H.
Churchill.

I. P. Turnbow and Miss Love
Osborn were quietly married at
the Caldwell hotel, by Rev. D.
T. Spalding, Wednesday. The
bride is a talented young woman
and the groom is a hustling young
farmer of the Murray section.
They will reside.—Paris
Post-Intelligencer.

Will pay 12 cent for spring
chickens, 2 lbs and under; 10c
for hens and large chickens,
without feed.—T. J. Holcomb
Co. 9242

FOR SALE.—1 house and lot,
also store house and good stock
of goods, both located on same
lot just outside city limits on
state road. Will sell or trade for
small farm near Murray.—Vir-
gil Wilson, Murray, Ky. 9174

When the chest feels on fire
and the throat burns, you have
indigestion, and you need HER-
BINE to get rid of the disagree-
able feeling. It drives out bad-
ly digested food, strengthens
the stomach and purifies the
bowels. Price 50c. Sold by
Dale & Stubblefield.

Mrs. Callie Speary, a former
teacher in the public schools of
this place and well remembered
by a number of our citizens,
now located in Nashville, was
here the first of the week the
guest of friends.

J. R. Kennedy and bride re-
turned Tuesday afternoon from
an extended wedding tour of
the south. A reception given
in their honor by the Murray
Surgical Hospital Thursday
night of this week was attended
by a large number of friends.

Judge Jas. T. Webb, of May-
field, candidate for Judge of the
Court of Appeals, was in Mur-
ray last Monday, attending coun-
ty court and also to be present
at the opening of the campaign
in behalf of the state ticket.

Judge Webb was formerly a citi-
zen of this county, and taught
his first school at the Broach
school house, in Swann precinct.
He has many friends here who
will be glad to support him in
his present race.

All you who have torpid liver,
weak digestion or constipated
bowels look out for chills. The
season is here and the air is full
of the disease germs. The best
thing to do is to get your liver in
good condition and purify the
stomach and bowels. HERBINE
is the right remedy. It answers
the purpose completely. Price
50c. Sold by Dale & Stubble-
field.

"Wets" to Take Appeal.
Mayville, Ky., Sept. 29.—Owing
to Uncle Rice's refusal to
call a separate election for this
city when petitioned by the li-
quor people it is claimed the
"wets" are now making prepara-
tions to take yesterday's result
to the Court of Appeals. The
official majority of the county for
the "drys" is 333.

If your child starts in its sleep,
grinds its teeth while sleeping,
picks at the nose, has a bad
breath, fickle appetite, pale com-
plexion, and dark rings under
the eyes; it has worms; and as
long as they remain in the intes-
tines, that child will be sickly.
WHITE'S CREAM VERMI-
FUGE clears out the worms,
strengthens the stomach and
bowels and puts the little one
on the road to health and cheer-
fulness. Price 25c per bottle.
Sold by Dale & Stubblefield.

The Ledger acknowledges re-
ceipt of a sack of splendid flour
made by the Lynn Grove mill,
and sent to us with the compli-
ments of the new owners of the
mill, Myers & Galloway. This
new firm assumed the manage-
ment of the mill some two
weeks ago and both are experi-
enced mechanics and well known
citizens and will devote their
entire time to the mill. The
Ledger wishes for them the suc-
cess they deserve.

Mr. Mike Griffin, a whilom Pa-
ducahan who now lives in Mur-
ray, was in the city yesterday
mixing among his friends, who
are many. Mr. Griffin, of course
is still in the tobacco business,
for he would be like a fish out
of water at anything else, and
is the leading buyer in the old
capital of old Calloway.—Padu-
cah News-Democrat.

Bishop Murrah, of Jackson,
Miss., will preach at Goshen
next Sunday morning at 11
o'clock and at the Methodist
church in this place Sunday
night. He comes to Calloway
to dedicate the new Goshen
church, and will go from here
to Paris, Tenn., where he will
preside at the annual confer-
ence of the Memphis district
the first week in October.

Joe Thurman, aged about 75
years, died at the home of his
brother, J. M. Thurman, east of
Pottertown, Sunday last and
the remains were laid to rest
Monday in the Barnett grave-
yard. Mr. Thurman was a
bachelor and had many friends
who will regret to learn of his
death.

Calloway Needs More of Them.

It was the pleasure of a Led-
ger representative to attend the
monthly meeting of the school
improvement league of the Out-
land school district last Friday
night. A program of special in-
terest was prepared and a num-
ber of interesting addresses
were delivered. This league
has accomplished much good for
the school of this district and a
very large crowd of enthusias-
tic pupils and patrons were pres-
ent. Prof. A. D. Butterworth,
assisted by Miss Ruth Raines
are in charge of the school this
year and they are lending every
assistance in their power to the
upbuilding of the league and
the splendid school.

16 Pounds Sugar \$1.00

With each \$5.00 cash purchase
we will sell 16 pounds sugar for
\$1.00.—Broach & Jones.

New Comet Near Bowl of Dipper.

People interested in star gaz-
ing will find a new object of in-
terest in the skies this month.
It is a new comet called the
Comet Delavan and it is just
below and a little to the right
of the bowl of the big dipper.
It has a clearly defined head,
and tail of two degrees
in length. It cannot be seen
with the naked eye as with
opera glasses. It appears in the
early evening.

The comet has been seen
through the telescope about
two months, but it is just now
becoming visible without the
use of glasses. It will be visi-
ble for about two months longer.

The Boze Escaped

L. F. Jackson, of Clinton, was
seriously injured Tuesday after-
noon on the race track at the
fair grounds when his Ford ma-
chine turned a complete somer-
sault, while speeding around
the race course. The machine
after sliding and slipping turned
turtle and went against a fence,
badly wrecking the machine and
bruising up the driver, Mr.
Jackson. His collar bone was
fractured, gash cut in his head,
knee injured and many other
bruises inflicted. He was tak-
en to the office of Dr. John Dis-
mukes where the injuries were
dressed. In the machine when
the accident occurred were Mr.
Jackson's small child and color-
ed nurse. Mrs. Jackson and the
smaller child remained out of
the machine, saying that they
did not care to make the ride.
It is miraculous that no one of
the occupants of the machine
were injured except Mr. Jack-
son. Two quarts of whiskey
and two quarts of gin, said to
have been in the auto, were not
broken in the smashup. Mr.
Jackson is said to conduct a bar-
ber shop in Clinton.—Mayfield
Messenger.

Why Clothes Should be Boiled.

In the October Woman's Home-
 Companion appears a most prac-
tical article entitled "The Wash-
ing of Clothes." The author
gives a complete description of
what she considers the best

methods in the whole process of
clothes washing. Following is
what she has to say about boil-
ing clothes:

"Some housekeepers believe
in boiling the clothes before rub-
bing, and some do not believe in
boiling them at all. Others be-
lieve that clothes are made yel-
low by boiling. Boiling does
not make clothes yellow. Clothes
become yellow when they are
improperly rinsed, when there
is iron in the water or a deposit
of iron is formed from the boiler
or by the use of an impure soap.
On the other hand, boiling takes
an important part in the 'disol-
ution and removal of the soap
which expert housekeepers, who
know that the soap must be re-
moved if the clothes are to keep
their color and wearing quali-
ties, will recognize as an indis-
putable reason why the clothes
should be boiled,—and boiled af-
ter rubbing. In these days of
sterilizing, it seems illogical to
accept as clean, unboiled
clothes."

Obituary.

At the command of God the
death angel entered the home of
Clyde and Bertha Kesterson and
taken from them their only
child Little Louie.

Louie was one of the most
lovely children we knew and
being the only child of her par-
ents she had of course entwined
herself around their very soul.
She was nearly three years old.

All that four doctors could do,
all that kind friends could do,
all that loving parents could do
availed nothing for the Father
had said child come home. She
was perfectly resigned and so
willing and ready to take every
dose of medicine that was offer-
ed her without murmur or com-
plaint.

She looked so sweet as she
lay on her little couch watching
the movements of those about
her. When the last moments
came her little face seemed to
have caught the glow of heaven
from the nearby gates that
stand ajar.

We would say to her sorrow-
ing parents, while your hearts

are torn with grief, you have
the assurance that Louie is
basking in the sunlight of heav-
en free from this dark world of
sadness and gloom.

When you have filled your
mission here, when your cup of
sorrow is drained to the bitter
dregs, when your work on earth
is done and when the beautiful
gates unfold to you you will
meet your darling in that eter-
nal home that God has prepar-
ed for them that love him.

Vapor Treatments
for Cold Troubles

Are now used in all hospitals. The
vapors carry the medication to the lungs
and air passages without disturbing the
stomach. When Vick's "Vap-O-Rub"
and Paine's "Vap-O-Rub" are applied
over the throat and chest, these vapors
—of Menthol, Thymol, Eucalyptol, Cam-
phor, and Pine Tar—are released by the
heat of the body. Usually the worst
colds go in one night—croup in fifteen
minutes. Vick's is fine for head colds,
asthma, and catarrh, and is absolutely
harmless. Three sizes—from 25c up.

VICK'S Croup and SALVE

For the Tea Table.
Oriental sweetmeats are very pop-
ular for afternoon tea tables. Among
the first favorites are candied Chi-
nese oranges, dates, plums and other
stone fruit crystallized by foreign
process and stuffed with nut mixtures.
Turkish paste and East India articles
of all kinds must be used. Ginger
bonbons are easily made at home by
taking oblong pieces of preserved gill-
ger and inserting these in the heart
of fine large dates, which have been
stoned. Powder the date together, and
roll in powdered sugar.

Calla Lilies.

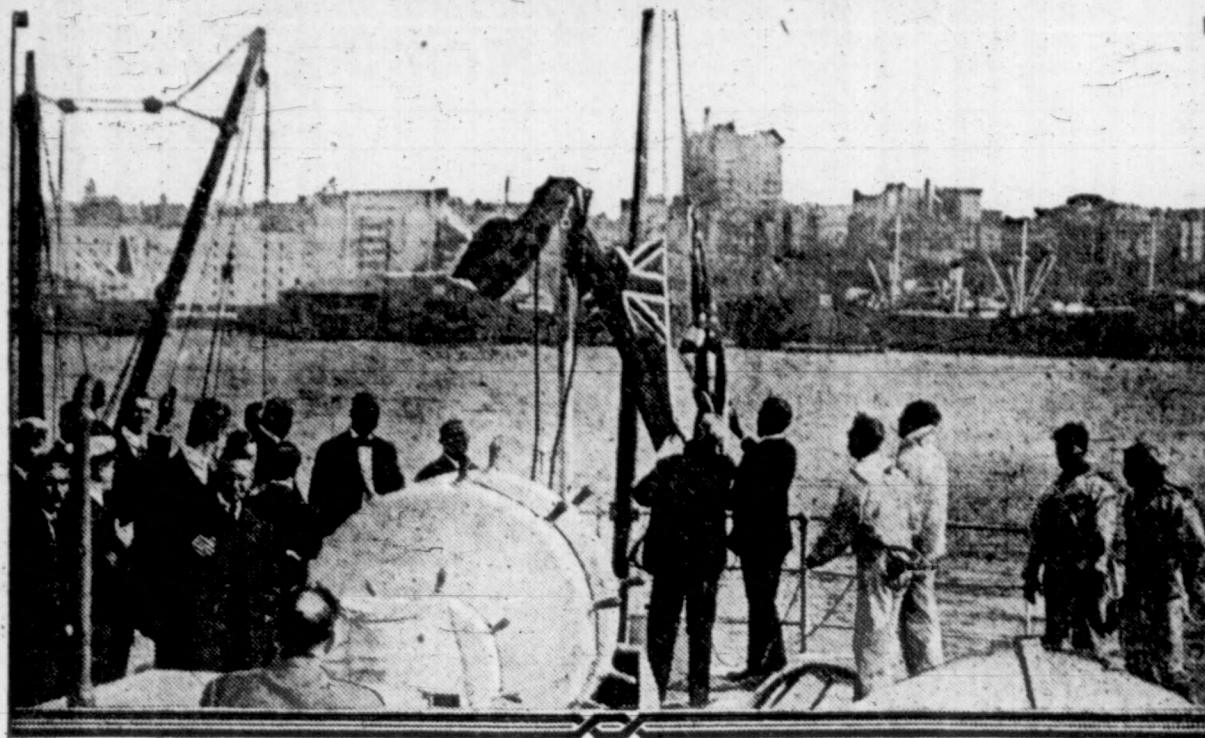

Two eggs, one cup sugar, six ta-
blespoons milk, two tablespoons cream
tartar, one soda, pinch salt, one tea-
spoon flavoring. Beat well. Bake in
a quick oven in covers or coffee cans
or any small round dishes. When
done, take from tins, fold white hot
using toothpick to keep in place. Fill
with whipped cream when ready to
serve.

A Salmon Delight.

One can salmon, three eggs beaten
lightly, two tablespoons melted but-
ter, one-half cup fried bread crumbs,
one tablespoon cornstarch. Chop
fish fine, beat in bowl with salt
spoon, add pepper and salt to taste.
Put in buttered mold and steam one
and one-half hours.

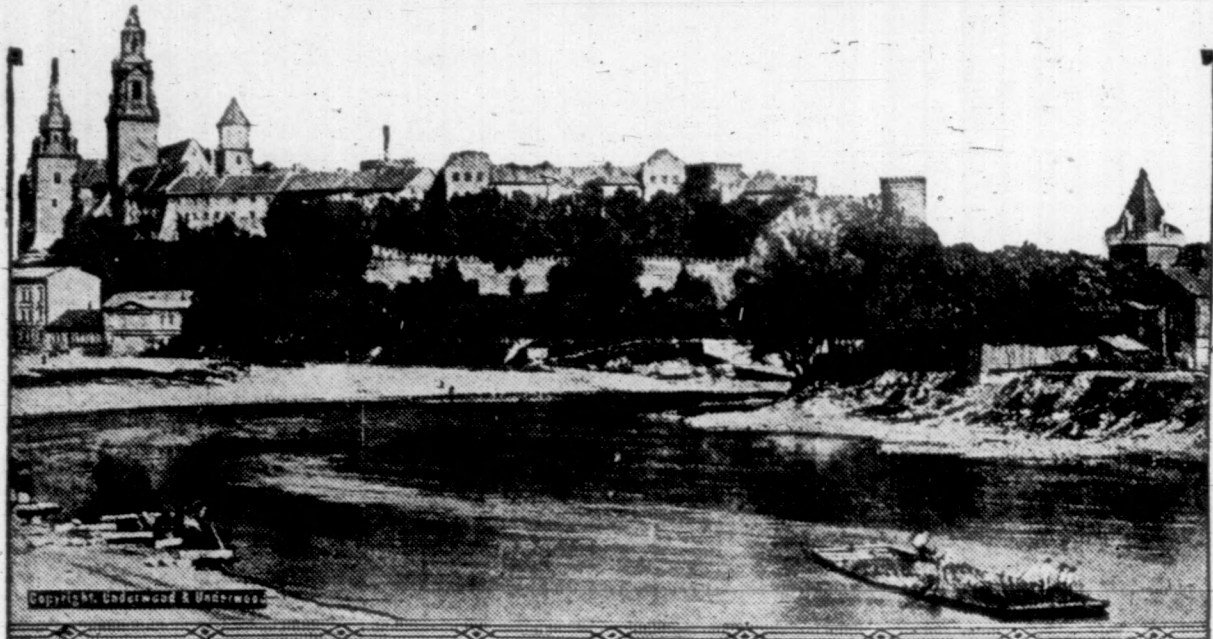

Try an ad in the Ledger.

REBIRTH OF AMERICAN MERCHANT MARINE

Scene on the deck of the United Fruit company's liner, Zacapa, when the British flag was hauled down and the American flag run up, signifying the change of the steamer to American registry and the rebirth of the American merchant marine.

CRACOW, WHERE AUSTRIANS ARE CONCENTRATING

Cracow, on a cliff overlooking the Vistula, which the Austrian armies are trying to reach for a last stand against the Russian armies. Cracow was the capital of ancient Poland and is very strongly fortified.

BRAVE BELGIAN BOY SCOUT

Joseph L. Neyssens, a boy scout of Belgium, who has been given the bronze medal of merit. Single-handed he captured two German engineers, one uhlán and two priests who were spies. He had fought in five engagements when this photograph was taken, and had made several daring trips on his bicycle carrying dispatches.

Ridicule Men Afraid of War. London.—Wanted—Petticoats for strong, able-bodied young men not in the army—is a sample of personal advertisements in the columns of London papers since it has become evident that recruiting the army up to the strength desired by General Kitchener is to be slow work.

Another reads: "Doctor's wife, middle aged, will undertake the work of any tramway conductor, coachman, shop assistant, or other married work or with children, provided that worker will undertake to enlist and fight for his country in our hour of need. All wages earned will be turned over to the wife and family. Apply Mrs. Lowry, 1 Priory terrace, Kewgreen, S. W."

Wounded Nine Times. Ostend.—Among the French wounded in recent fighting was a dragoon with six bullet and three bayonet wounds in the upper part of his body. He was expected to recover.

PEASANT WOMEN IN RUINED HOMES

Peasant women in Belgium searching for belongings in the debris of their homes, ruined by the Germans.

PRIESTS HELP THE WOUNDED

Priests running to the assistance of a wounded soldier at the battle of Mons.

GEN. FRENCH TELLS HOW BRITONS HAVE FACED GIANT GERMAN GUNS

London.—The official press bureau issued a report from Field Marshal Sir John French's Headquarters on the British operations in France. The text follows:

"The enemy is still maintaining himself along the whole front and in order to do so is throwing into the fight detachments composed of units from the different formations, the active army, reserve, and landwehr, as is shown by the uniforms of the prisoners recently captured.

"Our progress, although slow on account of the strength of the defensive position against which we are pressing, has in certain directions been continuous, but the present battle may well last for some days more before a decision is reached, since it now approximates nearly to siege warfare.

"The Germans are making use of searchlights. This fact, coupled with their great strength in heavy artillery, leads to the supposition that they are employing material which may have been collected for the siege of Paris.

"Confident of the Result. "The nature of the general situation after the operations of the eighteenth, nineteenth and twentieth, cannot be better summarized than as expressed recently in a neighboring French command to his corps: 'Having repulsed repeated and violent counter attacks made by the enemy, we have a feeling that we have been victorious.'

"So far as the British are concerned, the course of events during these three days can be described in a few words. During Friday, eighteenth, artillery fire was kept up intermittently by both sides during daylight. At night the Germans counter-attacked certain portions of our line, supporting the advance of their infantry as always by a heavy bombardment. But the strokes were not delivered with great vigor and ceased about 2 a. m. During the day's fighting an aircraft gun of the Third army corps succeeded in bringing down a German aeroplane.

"News was received also that a body of French cavalry had demolished part of the railway to the north, cutting at least temporarily, one line of communication which is of particular importance to the enemy.

"German Attack Stopped. "On Saturday, the nineteenth, the bombardment was resumed by the Germans at an early hour and continued intermittently until repulsed from our guns. Some of their infantry advanced from cover, apparently with the intention of attacking, but on coming under fire they retired. Otherwise the day was uneventful, except for the action of the artillery, which is a matter of normal routine rather than an event.

"Another hostile aeroplane was brought down by us, and one of our aviators succeeded in dropping several bombs over the German line, one incendiary bomb falling with considerable effect on a transport park near La Fere.

"A buried store of the enemy's munitions of war also was found not far from the Aisne, two wagon loads of live shells and two wagons of cubic being dug up. Traces were discovered of large quantities of stores having been burned—all tending to show that as far back as the Aisne the German retreat was hurried.

"There was a strong wind during the day, accompanied by a driving rain. This militated against the aerial reconnaissance.

"Several German Attacks Fail. "On Sunday, the twentieth, nothing of importance occurred until the afternoon, when there was a break in the clouds and an interval of feeble sunshine, which was hardly powerful enough to warm the soaking troops. The Germans took advantage of this brief spell of the weather to make several attacks against different points. These were all repulsed with loss to the enemy, but the casualties incurred by us were by no means light.

"In one section of our firing line the occupants of the trenches were under the impression that they heard a military band in the enemy's line just before the attack developed. It is now known that the German infantry started their advance with bands playing.

"The offensive against one or two points was renewed at dusk, with no greater success. The brunt of the resistance naturally has fallen on the infantry. In spite of the fact that they have been drenched to the skin for some days and their trenches have been deep in mud water, and in spite of the incessant night alarms and the almost continuous bombardment to which they have been subjected, they have on every occasion been ready for the enemy's infantry when the latter attempted to assault, and they have beaten them back with great loss. Indeed, the sight of troops coming up has been a positive relief after long, trying hours of inaction under shell fire.

"German Cannon Fire Falls. "The object of the great proportion of artillery the Germans employ is to beat down the resistance of their enemy by concentrated and prolonged fire—to shatter their nerve with high explosives before the infantry attack is launched. They seem to have relied on doing this with us, but they have not done so, though it has taken them several costly experiments to discover this fact.

"From statements of prisoners it appears that they have been greatly disappointed by the moral effect produced by their heavy guns, which despite the actual losses inflicted, has not been at all commensurate with the colossal expenditure of ammunition which has been wasted.

"By this it is not implied that their artillery fire is not good. It is more than good—it is excellent. But the British soldier is a difficult person to impress or depress, even by immense shells filled with a high explosive, which detonate with terrific violence and form craters large enough to act as graves for five horses.

"Scot at German Shells. "The German howitzer shells are from eight to nine inches in caliber, and on impact they send up columns of grayish black smoke. On account of this they are irreverently dubbed 'coal boxes,' 'black Marias,' or 'Jack Johnsons' by the soldiers.

"Men who take things in this spirit are, it seems, likely to throw out the calculations based on loss of morale so carefully framed by the German military philosophers.

"A considerable amount of information has been gleaned from prisoners. It has been gathered that our bombardment on the fifteenth produced a great impression. The opinion also is reported that our infantry makes such good use of the ground that the German companies are decimated by our rifle fire before the soldier can be seen.

"From an official diary captured by the First army corps it appears that one of the German corps contains an extraordinary mixture of units. If the composition of the other corps is similar it may be assumed that the present efficiency of the enemy's forces is in no way comparable with what it was when the war commenced.

"Germans Lose Many Officers. "The losses in officers are noted as having been especially severe. A brigade is stated to be commanded by a major; some companies of foot guards by one-year volunteers, while after the battle of Montmirail one regiment lost fifty-five out of sixty officers.

"The prisoners recently captured appreciate the fact that the march on Paris has failed, and that their forces are retreating, but state that the object of this movement is explained by the officers as being to withdraw into closer touch with the supports which have stayed too far in the rear.

"The officers are also endeavoring to encourage the troops by telling them that they will be at home by Christmas. A large number of the men believe that they are beaten.

"Among the items of news are the following: Recently a pilot and observer of the Royal Flying corps were forced by a breakage in their aeroplane to descend in the enemy's lines. The pilot managed to pancake his machine down to earth and the two escaped into some thick undergrowth in the woods.

"The enemy came up and seized and smashed the machine, but did not touch the men with much zeal. The latter lay hid till dark and then found their way to the Aisne, across which they swam, reaching camp in safety but barefooted.

"Numerous floating bridges have been thrown across the Aisne and some of the permanent bridges have been repaired under fire. On the twentieth Lieutenant (name deleted) of Third signal corps, Royal Engineers, was unfortunately drowned while attempting to swim across the river with a cable in order to open up fresh telegraph communication on the north.

"Telephone Aid to Spies. "Espionage is still carried on by the enemy to a considerable extent. Recently the suspicions of some of the French troops were aroused by coming across a farm from which the horses had been removed. After some search they discovered a telephone, which was connected by an underground cable with the German lines, and the owner of the farm paid the penalty in the usual way in war for his treachery.

"After some cases of village fighting, which occurred earlier in the war, it was reported by some of our officers that the Germans had attempted to approach to close quarters by forcing prisoners to march in front of them. The Germans have recently repeated the same trick on a larger scale against the French, as is shown by the copy of an order issued by the French officials. It is therein referred to as a ruse, but if that term can be accepted it is a distinctly illegal ruse.

"Charges Tricks to Germans. "During a recent night attack, the order reads, the Germans drove a column of French prisoners in front of them. This action is to be brought to the notice of all our troops, (1) in order to put them on their guard against such a dastardly ruse, (2) in order that every soldier may know how the Germans treat their prisoners. Our troops must not forget that if they allow themselves to be taken prisoners the Germans will not fail to expose them to French bullets."

"Further evidence has now been collected of the misuse of the white flag and other signs of surrender.

"During recent fighting, also, German ambulance wagons advanced in order to collect the wounded. An order to cease fire was consequently given to our guns, which were firing on this particular section of ground. The German battery commanders at once took advantage of the lull in the action to climb up their observation ladders and on to a haystack to locate our guns, which, soon afterwards, came under a far more accurate fire than any to which they had been subjected up to that time.

WAS MISERABLE COULDN'T STAND

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lackawanna, N. Y.—"After my first child was born I felt very miserable and could not stand on my feet. My sister-in-law advised me to try Lydia E. Pinkham's Vegetable Compound and my nerves became firm, appetite good, step elastic, and I lost that weak, tired feeling. That was six years ago and I have had three fine healthy children since. For female troubles I always take Lydia E. Pinkham's Vegetable Compound and it works like a charm. I do all my own work."—Mrs. A. F. KREAMER, 1574 Electric Avenue, Lackawanna, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

DR. J. D. KELLOGG'S ASTHMA Remedy for the prompt relief of Asthma and Hay Fever. Ask Your druggist for it. Write for FREE SAMPLE. NORTHROP & LYMAN CO., Ltd., BUFFALO, N. Y.

ADVICE TO THE AGED Age brings infirmities, such as sluggish bowels, weak kidneys and torpid liver.

Tutt's Pills have a specific effect on these organs, stimulating the bowels, giving natural action, and imparting vigor to the whole system.

AGENTS To introduce our new home remedy for Rheumatism, Gout, Gravel, Headache, Kidney and Lung troubles. Send for descriptive circulars. TUTT'S PILLS, 401 West 4th St., CHICAGO, ILL.

Certainly Not. "Just think! The artist spent ten years painting this picture."

"How much did he sell it for?" "Fifty thousand dollars."

"That's \$5,000 a year. Not bad pay when you work at home and have your own hours."

No. SIX-SIXTY-SIX This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c—Adv.

His Hard Luck. "I suppose you're waiting for your ship to come in?" "No, I've given up hopes."

"What's the idea?" "I understand my wife's relatives have mined the harbor."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Cures constipation, tiny granules, easy to take. Do not grip. Adv.

Same Thing. "Wayward Son—Do you mean to say that unless I mend my ways you will not leave me a cent?" "Father—Yes, for unless you do I'll not have a cent to leave."—Boston Evening Transcript.

Cool a burn with Hanford's Balsam. Adv.

Pa Gets Peevish. "Pa, what's a gondola?" "That's a Venetian boat, son."

"And what's a gondolier?" "That's a Venetian boatman."

"Is a gondolier a Venetian hands-man, pa?" "Not another word, Willie!"

First Aid to the Injured. "The manager of this dance hall is a thoughtful man."

"In what respect?" "If you get your corn stepped on during the excitement of the rango a chiropodist will attend you without charge."

Cures Old Sores, Other Remedies Won't Cure. The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals in the same time. 25c, 50c, \$1.00.

Nothing to Fear. Ethel—Oh, Jack, be careful tonight. Papa's brought home a bulldog.

Jack—That's all right. The dog used to belong to me and I'll be the dealer to sell him to your father. Boston Evening Transcript.

How to Give Quinine to Children. FERBILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it with pleasure. It never knew it Quinine. Also especially adapted for adults who cannot take ordinary Quinine. Does not nauseate nor cause sleeplessness. For full particulars, send for free booklet. Ask for Quinine for any child. The name FERBILINE is blown in bottles. 25 cents.

FOREST RESERVE IN MOUNTAINS

STATE FORESTER RECEIVES LET-
TER WHICH STATES RECOM-
MENDATIONS ARE MADE.

RESERVE 700 MILES IN LENGTH

Including All of Pine Mountains and
the Pine Mountain "Fault," a Sec-
tion in Harlan County.

(Special Frankfort Correspondence.)
Frankfort, Ky.—A forest reserve
700 miles in length, including all of
Pine Mountain and the Pine Mountain
"Fault," a section of Harlan county
north of the mountain and portions of
Leslie, Letcher and Clay, has been
recommended to the Government For-
est Service by the reconnaissance com-
mission which has been engaged in Eastern
Kentucky all summer, according to a
letter received by State Forester J. E.
Barton.

The crew also will recommend a
federal forest reserve of about 50,000
acres just west of the coal measures
on the border of the Blue Grass. The
areas will comprise about 450,000
acres.

The crew will go to the Mammoth
Cave region and investigate the ad-
visability of locating a forest reserve
there.

J. Q. Ward, executive agent of the
Fish and Game Commission, expressed
delight when he learned that the gov-
ernment is contemplating so large a
forest reserve in the heart of the Ken-
tucky Mountains, as the government
always has been ready to establish
government game preserves in well
adapted forest reserves, and the Pine
Mountain country offers a fine oppor-
tunity for the conservation of big game.

Puzzled by "Bug" Visitors.

Millions of yellow flies, not yet
named by Frankfort entomologists, in-
fested every portion of Frankfort.
Whence they came and where they
were going no one seems to know.
Houses and fronts of stores along
Broadway, where bright lights are
burned, were literally covered with
the insects. Buildings in the vicinity
of Broadway and Ann streets were
coated with a writhing mass of bugs
three inches in thickness. Almost
every light in the city was rendered
practically useless from the stand-
point of illumination by great clouds
that swarmed closely above them. The
insect is about half an inch in length
and probably as broad from tip to tip.
It is of a yellowish brown hue with
lighter spots on the wings. Evidently
it is longer lived than the moths com-
monly seen about the lights, for it was
noted that most of the insects that had
fallen to the streets and those that re-
mained clinging to the sides of houses
were still alive.

Grand Lodge Meeting.

Three hundred representatives and
probably half as many visitors will
attend the Kentucky grand lodge meet-
ing of the Knights of Pythias and the
Pythian Sisters here Tuesday and
Wednesday, October 6 and 7. The ses-
sions will be held in the Capital build-
ing at 11 o'clock the first morning. A
feature of this occasion will be the
appearance on the stage of 50 children
from the Pythian home at Lexington,
who will sing. Assistant Atty. Gen.
Logan will welcome the representa-
tives in behalf of the local fraternal
organization; Mayor Rupert will wel-
come them to Frankfort, and Col. Noel
Gaines will deliver the address in the
half of Dexter Lodge No. 54.

Select Depository.

Judgment of the Kenton Circuit
Court refusing an injunction to James
A. Stephens, treasurer of Ludlow, a
first-class city, to restrain the City
Council from enforcing an ordinance
inviting bids from depositories of city
funds was affirmed by the Court of
Appeals, which said the council has
authority to select the depository.

Campaign for Good Roads.

It was announced by the State Road
Department that the county of Lewis
had begun a campaign for good roads
in earnest. Recently the county sold
\$25,000 in bonds to be used in road
building. The constructive work on
the roads will be directly under the
supervision of an engineer from the
State Road Department.

Appeal Dismissed.

The appeal of John A. Creech, Pro-
gressive candidate for County Judge
of Harlan, from judgment of the Cir-
cuit Court awarding the office to W.
A. Brock, Republican, was dismissed
by the Court of Appeals.

Program Completed.

Arrangements for the entertainment
of the United Daughters of the Con-
federacy of Kentucky here October 14
and 15 contemplate among other
things a public reception to be given
in their honor by the governor at the
Mansion the night of October 14,
marking the opening of the Capital
social season; a barge party to be
given on the Kentucky river the after-
noon of October 15 by the Sons of the
Confederacy, and a historical night to
close the season in the rooms of the
State Historical Society.

Applicants Take Quiz.

The largest class of applicants ever
appearing before the State Depart-
ment of Roads took the examination
for county road engineers. About fifty
of them took a short course of instruc-
tion in the fundamental principles of
road building before the examination.

This is the first time such a course
has been offered by the department,
and Commissioner of Roads R. C. Ter-
rell expressed the opinion that it in-
dicates an awakening interest in the
practical side of good road building.
He said the meeting with county
judges at the State Fair had a marked
effect and there was evidenced a dis-
appearance of prejudice against State
attention to the expenditure of county
road funds, and abundant testimony
from county judges present of im-
mense savings coupled with improved
road building in their counties by reason
of the assistance of expert engi-
neers in planning the construction and
the supervision of the letting of con-
tracts. Among the questions asked
were:

(a) What are underdrains and how
may they be constructed? Give all
the different types.

(b) In what kind of soils are they
necessary? Give the advantage of un-
derdrains.

(c) Give in detail the points that should
be considered in determining the size
and type of culverts. How is washing
prevented around the ends?

Is clay or loam advantageous in
gravel road construction? Macadam
road construction? Discuss fully for
each material, giving the per cent of
clay or loam that should be used, if
any. What type of binder do you pre-
fer? Give your reasons.

What is the weight per cubic yard
of crushed or broken stone, for road
purposes? How many cubic yards of
broken stone is contained in a car 36
feet long, 10 feet 6 inches wide, 5 feet
6 inches deep? Give the weight of the
stone contained in this car. Show all
calculations.

Population of 11,911.

The third volume of the Frankfort
city directory, showing a population
of 11,911, an increase of 101 over the
second volume issued two years ago,
has been issued.

The new book presents noticeable
improvements. It is bound in cloth
with embossed edges and in pleasing
colors.

The contents first includes an ap-
pendix, giving the roster of the city,
schools, societies, postoffices and oth-
er information. Next comes the alpha-
betical list of names of the inhabi-
tants with the addresses and occupa-
tions. After that is a street guide,
giving the location and description of
every street and intersecting street,
followed by a complete list of house
numbers, together with the names of
the householders or those engaged in
business at the number.

The commercial directory embraces
a classified list of all professions,
manufacturers, trades and commer-
cial houses in the city and the special
business in which each is engaged.

Many Crimes Alleged.

Violation of the Mann "white sla-
very act," counterfeiting, refilling "in-
bond" labeled bottles, retailing liquor
without a government license, using
the mails to defraud and sending ob-
scene letters are among the charges
on the criminal docket of the Septem-
ber term of the United States District
Court, which convened here Monday.
A great many cases on the civil do-
cket are under submission, awaiting the
filing of briefs.

At Mining Congress.

Gov. McCreary appointed the fol-
lowing delegates to represent Ken-
tucky at the American Mining Con-
gress at Phoenix, Ariz., December 7
to 11, inclusive: Chief Mine Inspector
C. J. Norwood and T. J. Barr, of Lex-
ington; M. S. Barker, Louisville; Dr.
A. Gatliff, of Williamsburg; D. B. Lo-
gan, Pineville; C. S. Neal, Wilton; J.
T. Cobb, Richmond; R. H. Sal-
mon, Haley; H. W. Thompson, Win-
chester.

Decides Fine Point.

"When a man not only manufac-
tures whisky, but has it in his pos-
session and has a government license
authorizing him to sell it in local op-
tion territory, these facts are sufficient
to sustain a conviction," said the
Court of Appeals in affirming a fine
of \$100 and sentence of fifty days in
jail imposed on G. C. Gossett by the
Pulaski Circuit Court for having li-
quor in his possession for sale in "dry"
territory.

Bids for Coal Opened.

The sinking fund commission open-
ed bids for furnishing coal for the
capital power house and buildings un-
der the board's control, and the bids
were sent to a "concern" in Chicago,
which will make a test of the fuel of-
fered by the bidders.

Personal Injury Award.

A verdict of \$1,500 damages for per-
sonal injuries, returned by the Estill
Circuit Court in favor of W. H. Cox
against John B. Carter & Co., was af-
firmed by the Court of Appeals in an
opinion written by Judge Miller. Cox
was injured while working with a well
drill. A verdict directed by the Lewis
Circuit Court in favor of the Ches-
apeake & Ohio in the suit of J. L.
Truesdell was affirmed in an opinion
by Commissioner William Rogers.

Chloroform Was Used.

A verdict of \$1,500 damages for per-
sonal injuries, returned by the Estill
Circuit Court in favor of W. H. Cox
against John B. Carter & Co., was af-
firmed by the Court of Appeals in an
opinion written by Judge Miller. Cox
was injured while working with a well
drill. A verdict directed by the Lewis
Circuit Court in favor of the Ches-
apeake & Ohio in the suit of J. L.
Truesdell was affirmed in an opinion
by Commissioner William Rogers.

Getting Down to Business.
"Are you as perfect physically as
you seem to be?" he asked.

"Certainly," she replied.
"Has there ever been any insanity
in your family?"

"Never."

"Have you a depraved taste of any
kind?"

"Certainly not."

"Are your teeth in good condition
and do you see and hear perfectly?"

"Yes."

"Are you ever bothered by insomnia
or headache or indigestion?"

"Not at all."

"Thank heaven. Now let's make
love a little while."—Chicago Herald.

ERUPTION COVERED BODY

321 Lee St., Hampton, Va.—"In July
of last year the eczema made its first
appearance on my fingers and before
the last of August my body was com-
pletely covered. I was unable to sleep
at night the itching was so severe. I
had to take sleeping medicines sev-
eral times a week to get any sleep at
all. It broke out as a rash and some
of the eruption turned to boils. My
skin was covered and I had several
boils on my face. My hands looked so
that I had to stop school and my
clothes irritated the eruption so much
that it kept me scratching all the time.
I could not stay in a warm room and
I could not put my hands in warm
water at all.

process whale oil again is being ex-
tensively used in soap manufacture.

REMEDIES FOR POTASH SHORTAGE

By Prof. H. A. Huston.

Various suggestions have been made
in regard to the steps to be taken by
farmers in reference to the shortage
of Potash in their fertilizers, caused
by the greatly reduced shipments of
Potash from Germany since the first
of August. Most of the Fertilizer Com-
panies have endeavored to make the
Potash on hand go as far as possible
by selling for the present brands of
complete fertilizers containing only
one third of the Potash and withhold-
ing from sale brands containing larger
amounts.

The suggestion that some or all of
the Potash be replaced by phosphoric
acid is absurd, for every schoolboy
knows that one plant-food cannot take
the place of another. There are some
indirect fertilizers, such as lime, gypsum
and salt that can release a limited
amount of Potash from some soils
that contain hydrated silicates of Alu-
mina and Potash. But if these soils
have already been treated with lime
or have received repeated dressings
of the usual forms of fertilizer con-
taining soluble phosphate with its ac-
companying gypsum, then the Potash
in the hydrated silicates has to a large
extent already been replaced and the
use of more lime or gypsum or salt
could not be expected to release much
additional Potash. Ground limestone
or oyster shells act too slowly to be
used as Potash releasers.

The residue of soda left in the soil
by nitrate of soda is more effective in
releasing Potash than is gypsum and
hence goods, in which the nitrogen is
largely in the form of nitrate of soda,
may have a special value in the present
emergency.

It is often stated that decaying or-
ganic matter releases Potash from the
soil, but there seems to be no direct
evidence of this. On the contrary,
Dr. S. Peacock states in the American
Fertilizer of Sept. 5, 1914, "Several
thoroughly competent researchers have
shown that decaying organic matter
has little effect on converting inert
mineral plant food in the soil into
available form."

In any soil the amount of Potash
capable of being released by these in-
direct means is a very small fraction
of the total Potash in the soil, most
of which exists in a form about as
soluble as window glass. There is no
known profitable method for render-
ing this inert Potash of the soil avail-
able fast enough to provide for profit-
able crops. Whatever temporary ex-
pedients we may employ in the present
emergency, we must keep in mind
that the Potash thus removed from
the soil-availability soil reserves must
later be replaced if we are to main-
tain the soil's productivity.

There is danger in the statement
that farmers have been using an ex-
cess of Potash. Crops use on the av-
erage about two and one-half times as
much Potash as phosphoric acid, while
the average fertilizer sold contains
only half as much Potash as phos-
phoric acid; yet no one claims that
we are using too much phosphoric
acid. The Potash remaining from pre-
vious fertilization is practically noth-
ing except in the limited areas where
a ton or more of fertilizer has been
used per acre on truck crops. Very
rarely is half as much Potash applied
to the wheat, oats, corn or cotton crop
as the crop removes.

The Potash mines are so numerous
and the stocks on hand so large that
supplies can be promptly sent for-
ward, as soon as European conditions
permit freight shipments to be re-
sumed.

Brought Home to Him.

Gen. W. L. Alexander was discuss-
ing, at a dinner, the European war.

"This war," he said, "will affect even
us. We must economize to weather
it. And our economy must be gen-
eral, too."

"We mustn't be like Bayboy, when
a friend asked over a bottle of cham-
pagne on a roof garden."

"Well, apropos of the war, old man,
did you give your wife that lecture on
economy?"

"Yes, I did," Gayboy answered, "and
she went right out and bought me a
safety razor."

The Eggs Weren't Invalids.

"Eggs for Invalids," read a sign at
a certain shop.

"What is there unusual about those
eggs?" asked a curious observer.

"Why, them eggs is an absolute
novelty," said the dealer, briskly, add-
ing in a low tone: "Them eggs is
fresh."

How He Forgave McNab.

A Scotchman on his deathbed was
reminded by the attending minister
that the hour of death is an hour for
the banishing of all ill-feeling—a time
for universal forgiveness.

He was a McGregor, and his feud
with the McNabs had been notable. So
the clergyman, with the family's per-
mission and assistance, summoned
the head of clan McNab to the dying
McGregor's bedside.

"I forgive ye, M'Nab," whispered the
expiring man, "wi' all my heart—but
may my curse rest on my son forever
if he ever does!"

The Victim.

"You don't remember me, I see. I
am the young man who eloped with
your daughter a few years ago."

"Well, what can I do for you?"

"I came back to offer you my con-
gratulations, sir."

Treatment of Sores.

Apply Hanford's Balm lightly and
you should find that gradually the sore
will diminish in size. The older the
case the longer it will take, but it will
help the hard cases, after other rem-
edies fail. Adv.

Hadn't Killed Him.

There is a certain young man who
used to be notoriously egotistic. Some
of his acquaintances were one day
speaking of him before an old lady
who was not "up" in the slang ex-
pressions of the day.

The next time she met him on the
street she put out a congratulatory
hand.

"Oh, Mr. Smith," she cried, "I am
so glad you are better. I heard last
week that you had a swollen head."

Important to Mothers.

Examine carefully every bottle of

DON'T TAKE

WRONG MEDICINE

If your liver gets lazy you need a liver tonic, not merely a laxative for the bowels. Many people take a simple laxative when the liver gets sluggish rather than take calomel, which they know to be dangerous. But a mere laxative will not start a sluggish liver. What is needed is a tonic that will live on the liver without forcing you to stay at home and lose a day from your work.

You have such a tonic in Dodson's Liver Tonic. It is all that is claimed for it, because the druggists who sell it agree to hand back the money with a smile, if any person is not satisfied with the relief Dodson's gives.

Dodson's Liver Tonic is a vegetable liquid with a very pleasant taste and is a prompt and reliable remedy for constipation, biliousness, sour stomach and torpid liver.

Dale & Stubblefield give it their personal guarantee. Large bottle of Dodson's Liver Tonic is only 50 cents. For children or grown people it is the ideal medicine. Try it on the guarantee.

To Members of Tobacco Association.

As the Chairman of the Tobacco Association of Calloway county, I feel that it is my duty to give out a statement to the members of the Association in regard to the future plans, and conditions that confronts the organization at this time. For the past years we have forced the tobacco trust to pay us a living price for our tobacco, we have through our organization forced the price from three and one, to ten and twelve, and caused thousands of dollars to be put in the pockets of its members.

And by holding up the price has caused the non-association farmers to share equally in the benefits that it has brought to the country and on this account a great majority of the farmers have refused to join the association, and stayed out furnished his enemy, the tobacco trust, the ammunition not only to destroy the association which agency that was causing him to get a living price for his product but he was also destroying himself.

There is a no more patriotic people in the land, than those farmers that have been loyal for ten years and pledged their tobacco and held the price up and refused to bow their knees to the tobacco trusts, whose object was to win this fight many sacrifices have been made. Before the organization prices were measured by the limit of cupidity and heartlessness, now prices are staple and the law of supply and demands and conditions have been retracted.

But for the last few years, the management of the association has warned the farmers that if

there was not more tobacco pledged, the organization could not exist. Less than 30 per cent of the tobacco was pledged last year and the remainder of the farmers taking the advantage of the association and selling outside.

The officials feel like under the conditions that prevail this year that it would not be wise or right to pledge our people and hold up the price, and let the non-association farmer supply the demand.

And as about 60 per cent of tobacco has been export trade and on account of the conditions brought about by large majority of the farmers refusing to join the association and the European war, the Board of Directors, at its meeting at Clarksburg last week, passed a resolution to the effect that it would hold its organization and elect its officers, but released all of its members and leave them free to sell their tobacco, this year if they choose to do so, thereby giving them the same chance of the non-association member.

And unless the non-association farmers, that have been staying out and receiving the benefit of the organization without contributing anything to its success, join, I would advise that you sell if you can, feeling that it would not be right to tie your tobacco and permit the non-association men who have imposed on you for the past ten years, supply the demand. Yet I realize that this means ruinous low prices for our tobacco and a return to the old conditions when the farmers will be at the mercy of the tobacco trusts.

But the members of the association have done their duty, we have fought a good fight, we have kept the faith, we have done all in our power to get our neighbors and brother farmers to join hands with us and help us to fight and keep up this great organization that every body admits is the salvation of the farmers of this county, in order that we all might continue to enjoy the prosperity that it has brought to the homes of this county. Now let me appeal to the farmers of this county not to force this organization out of existence and surrender to the trusts.

But to organize, the march of progress brings with its changed conditions, the intelligent and provident man, will note the shifting scenes and invoke the aid of prudent effort to protect his interests, in the struggle for supremacy as well as for reputation. This is a day of co-operation, the capitalist manufacturer, the great lines of transportation, the mechanic, the artisan of every character, seeks refuge in organization.

Why the farmer should be last to break loose from his ancient moorings, and awaken to the facts confronting him, is a question of much wonder.

Why the most powerful factor, who could have all at his feet

asking for food and raiment, should be so indifferent, and slow to organize has never had a satisfactory answer.

Let me say in conclusion, the association has rebuilt homes so ruthlessly wrecked, it has increased the price of land and put new life in the weak and despondent, new churches, new schools and new homes attest its revivifying powers, the whole land has been transformed from desolation to newness and thrift from the seats of the mighty a wail of despair is heard, lamenting the great awakening of the people to a consciousness of their power. Every honest impulse not conquered by prejudice and cupidity says organize.

Very truly yours,
Lee Clark, Chairman.
By order of the County Committee.

R. W. Sears Dead.

Chicago, Sept. 28.—R. W. Sears, founder of Sears, Roebuck & Co., died today at Waukesha, Wis., according to a telegram received here. Mr. Sears was born in Minneapolis in 1863. He began his business career in a humble capacity at St. Paul. He organized Sears, Roebuck & Co., at Minneapolis in 1890 and transferred the business to Chicago in 1895. In that year he retired from active business and devoted himself to farming. He leaves a large fortune, it is believed.

MANY TROUBLES DUE TO AN INACTIVE LIVER

Many of the troubles of life such as headaches, indigestion, constipation and lack of energy are due to inactive livers.

GRIGSBY'S LIV-VER-LAX is a natural, vegetable remedy that will get the liver right and make these troubles disappear. It has none of the dangers and disagreeable after effects of calomel. Get a 50c or \$1 bottle of this splendid remedy from your druggist to-day. Every bottle bears the likeness of L. K. Grigsby, who guarantees it through E. D. Miller.

Bull Helps in Battle.

The Petit Parisian prints a story of a bull which it says killed eighteen Germans. It appears that when the peasants in the neighborhood of Sezanne were warned of the approach of the Germans they opened the gates of the cattle pens and endeavored to drive the cattle to a place of safety.

One enormous bull, it is said, becoming enraged by the sound of the cannon fire, broke away and charged the Germans, who looked on the stupefaction, believing it was some trick of the French. At the first dash the bull gored six, throwing them high in the air. Others shot and wounded the animal which, however, gored a dozen more before succumbing.

New Motion Picture Serial.

The New Savoy moving picture theater announces that commencing Friday, Oct. 2nd the first installment of the great serial motion picture, "The Perils of Pauline," will be shown and continue each Friday night until completed. This is one of the greatest stories ever written and is produced in motion pictures in all of the splendor of the modern artists. Don't fail to attend the opening of the serial, and you will not miss a single number. Prices remain 5 and 10 cents.

Dyspepsia is America's curse. To restore digestion, normal weight, good health and purify the blood, use Burdock Blood Bitters. Sold at all drug stores. Price \$1.00.

NEIGHBORLY ADVICE

Freely Given by a Murray Citizen.

When one has suffered tortures from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborly advice comes from a Murray resident.

W. R. Broach, ex-county assessor, Murray, Ky., says: "I still use Doan's Kidney Pills, once in awhile and find that they do me a great deal of good. I have had attacks of kidney trouble occasionally and I have always taken Doan's Kidney Pills. They have never failed to help me. Others have also told me what great good they have had from this remedy."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Broach had. —Foster - Milburn Co., Props., Buffalo, N. Y.

Old Time Frost.

"The night of the 24th of September, 1856," Col. H. C. West told a Paducah Democrat man, "was the biggest frost so early in the year I had ever seen before or have ever seen since. That evening I left Nashville, Tenn., for Hopkinsville, Ky., my native heath, in an old-fashioned stage. I traveled all night and it is a fact that it was so cold that I thought I would freeze. My route was from Nashville to Clarksville, Tenn., and thence to Hopkinsville. As it took me twenty-four hours to make the trip I was riding all the next day. Early in the morning we got our first glance at the frost and it was heavy I assure you. It was about 10 o'clock when we reached the Clarksville section and the sun had been shining for some time. We had before then noticed that the frost had nipped all crops likely to be damaged, but then we noticed that everything was black and that tobacco and tomatoes and like crops were 'bitten' to the ground. The tobacco at that hour was as black as one's hat and not even a sucker had escaped the nipping. The frost was widespread in Tennessee and Western Kentucky and the damage was likewise. Every old citizen I am sure will recall the visitation, though many years have forgotten just the date. The trip was an important one to me—for I was then cashier of a bank at Paris, Tenn., and had been to Nashville on important business and was going to my old home also on important business—and I keep the date and facts—the frost included—in a diary which I still have. Often reference to the diary has kept the frost on my mind and every recurring September 24th I think of it."

Why Not Publish It?

When you want a fact to be made generally known, the right way is to publish it. Mrs. Joseph Kallans, Peru, Ind., was troubled with belching, sour stomach and frequent headaches. She writes, "I feel it my duty to tell others what Chamberlain's Tablets have done for me. They have helped my digestion and regulated my bowels. Since using them I have been entirely well." For sale by all dealers.

For Youtsey's Pardon.

Petitions from every section of the State, with thousands of names, editorials from numerous papers and letters from many men prominent in the State were fled with Gov. McCreary Monday by a committee of ten, asking the pardon of Henry Youtsey, the only man serving a sentence for the assassination of Gov. Goebel. All the other conspirators, who were convicted largely upon Youtsey's testimony, were pardoned by Gov. Wilson, Republican. Youtsey has served thirteen years, a

longer term than any other convict who turned State's evidence. He has made a model prisoner, and has done a great educational and religious work among the convicts. Pleas for his pardon were made before the Governor by Jas. H. Hazelrigg, former Judge of the Court of Appeals, and a leading Democrat; Eliza Crawford, Youtsey's half-sister and a leading Republican and capitalist of Newport; Representative Green, Democrat of Carrollton; L. G. Littrell, Democrat of Owenton; the Rev. Talliferro, former Chaplain, and the Rev. Walter Vreeland, present Chaplain, of the Frankfort Reformatory, and Geo. S. Weathers, of Elkton. Gov. McCreary did not indicate to the committee what his decision would be; but promised to give the case careful consideration. Reading the records and petitions will require much time.

Toned Up Whole System.

"Chamberlain's Tablets have done more for me than I ever dared hope for," writes Mrs. Esther Mae Baker, Spencerport, N. Y. "I used several bottles of these tablets a few months ago. They not only cured me of bilious attacks, sick headaches and that tired out feeling, but toned up my whole system." For sale by all dealers.

The Last of Her Race.

With the death of the passenger pigeon last week at the Cincinnati Zoological Garden, the species becomes extinct. For six years it has been known that this lone pigeon, a female, thirty years old, was the last one of her race. Now that she is gone another black chapter in the natural history of this country closes. Eleven species of North American wild-birds have been wiped out of existence by man. Twenty-three other species are rapidly diminishing and some are approaching the vanishing point. Bird conservation may prevent the extermination of other species, saving to the world these remnants that would otherwise be swept away as has the wild or passenger pigeon.

It Always Does The Work.

"I take Chamberlain's Cough Remedy better than any other," writes R. E. Roberts, Homer City, Pa. "I have taken it off and on for years and it has never failed to give the desired results." For sale by all dealers.

The McCracken County Fair.

The Great McCracken county fair at Paducah will begin next Tuesday, October 6, and continue four days, with prospects of it

"SORGHUM MOLASSES"

I advise you to sell your Sorghum Molasses early. I believe you will get more now than you will later. I will buy your Sorghum, and pay you highest market price at the time you offer it to me for sale.

R. W. McKINNEY
Second and Washington Sts.,
PADUCAH, KENTUCKY

being the best attraction of the kind ever held in the state, outside of Louisville and Lexington.

Already the fair association is assured of at least 100 horses for the harness races, including some of the fastest pacers and trotters in the country. There will be three racing events each day, with the exception of the first day, when the county pace for "green" horses and amateur drivers will be added. Each purse for the three big races to be held each day is \$400. A purse of this size is larger than usually is offered by county fairs and will bring some speedy horses to the fair. Walter Palmer, of Ottawa, Ill., one of the most prominent horsemen in the United States, will be presiding judge of the races. Books will be made on all races.

The fair association solicits exhibits of every kind, including farm products, tobacco, cattle, horses, colts, poultry, sheep, preserves, jellies, cakes, needles, work and other articles mentioned in the catalogue and premium book. All exhibits for Floral Hall should be sent to the association next Monday as none will be received after 9 o'clock Tuesday morning.

The big features of the fair will be the Belgium and Percheron draft horses, direct from Belgium and France. They are the finest draft horses in the world and will be brought here to inspire better horse breeding. Reduced rates will be in effect on all railroads and steamboats.

A valuable dressing for flesh wounds, burns, scalds, old sores, rash, chafed skin is BALLARD'S SNOW LINIMENT. It is both healing and antiseptic. Price 25c, 50c and \$1.00 per bottle. Sold by Dale & Stubblefield.
