## MORE MONEY IS SECURED

For The National Good Roads' Convention.

Train Costs Illinois Central Road Forty Thousand Dollars.

At a special meeting Tuesday afternoon, the city council appropriated \$2000 to be used in defraying the expenses of the Good Roads Convention.

All the members of the board were present except Mr. Fritts, who was out of town, and who, it is understood, was in favor of the appropriation.

Every member, except Mr. Flock, voted to allow the money. Their action meets with universal approval.

The Good Roads committee are doing good work in the interest of the convention, and it promises to be thoroughly successful in every way and to prove of great benefit to both city and county.

Had it not been for the co-operation of the manufacturers and the Illinois Central Railroad Company with the National Good Roads Association the plan of the special train to demonstrate the work of road building would have been as impossible one because of the enormous expense attending the outfitting of the train and its transportation over the line of the I. C. as it is reported that as much more will be spent in the work of demonstrating the methods of scientific road making at the various points at which the train will stop. The street of sample roadway in each instance will cost from \$1,000 to \$1,500.

The management of the Hopkins County Fair Association, through its president, C. O. Givens, has extended an invitation to Gov. Beckham and staff to be present one day during the fair.

"SOUTHERN GIRL."

Miss Maude Oleser is visiting Miss Kate Brasher at Madisonville.

The Good Roads train which is coming to Hopkinsville the first week in next month, is bedecked with signboards, and the machinery on the flat cars is all bright and new. The most important piece of machinery in the whole outfit is one that will do the work of one hundred men on the road. It is known as the New Era railroad grader, ditcher, wagon loader, and road builder. It is used principally in new construction work and on improvement work on roads that have never been graded. It is an immense machine, but a comprehensive idea of it could hardly be formed from an inspection of it on the cars. It takes up an entire car even when taken to pieces. There is a huge plow at the left hand end of the machine which turns the dirt into a conveyor. This works rapidly and carries the dirt up to an elevation of possibly fourteen feet. There it is deposited on the crown of the grade or is automatically loaded into wagons to be hauled away. It is also used on railroad lines for ditching and grading. It is operated by six teams and three men, and is considered by experts to be one of the most perfect machines used in the construction of roads. The second car in the outfit is taken up with a number of wagons used on construction work. They are of the latest kind used in hauling and dumping the dirt. In fact, there is everything imaginable on the train that is useful both in the construction of good roads and their subsequent keeping in good condition.

Aboard the train are the following: President W. H. Moore and Secretary R. W. Richardson, of the National Good Roads Association; Hon. Martin Dodge, of the Office of Public Road Inquiry; Chas. T. Harrison, special agent and road expert; Allen Oogrove, traveling secretary of the Good Roads train, and the representative of the Austin Manufacturing Company of Chicago; W. A. Irvin, civil engineer and road expert with the National Good Roads Association; G. W. Faller, of Louisville; H. E. Shipp, rock crusher expert, of Detroit, Wis.; F. T. Smith, of Fairfield, Ind., road expert with the Austin & Western Co.; W. H. Morrison, grader expert of Chicago; and Walter O. Whiffin, a representative of the Associated Press, of Chicago. Others are the special crew sent by the railway from Chicago, a number of experienced laborers, expert mechanics and a staff of correspondents.

There will be no meeting of the As You Like It club this week. Tuesday afternoon June 18, the club will meet with Mrs. O. K. Wylie at half past four o'clock.

Tomorrow night Mr. and Mrs. James Hensley Dagg will entertain at carrouse.

Mr. Branch Perkins, of Clarksville, and Miss Ora Bell Mackey were married yesterday afternoon at the home of the bride near Trenton. They will reside in Clarksville where Mr. Perkins is connected with the city waterworks department.

ICE WAR ON.

Consumers Are Pleased Over Getting Lower Prices.

Messrs. Lucien H. Davis and Will Brumfield have formed a partnership in the ice business and started out two wagons, charging forty cents a hundred and one-half a cent a pound for small quantities.

They begin business with fine prospects. The ice comes from Evansville. The Ellis Ice Company, which has been enjoying a monopoly for years, and has been selling ice at fifty cents a hundred and one cent a pound this morning, have agreed to stick to the new company at the present price, so it does not seem likely they will be run out of business by the old company cutting rates.

MAMMOTH STOCK YARDS.

Will Be Managed By R. C. Watkins Formerly Of This City.

Mr. Roah Watkins, who formerly was connected with the traffic department of the I. C. Railroad with headquarters in this city, is a prime mover in establishing mammoth stock yards in Louisville.

Mr. Watkins now lives in Memphis, but within a short time he will move to Louisville where he will be vice-president and traffic manager of the Central Stock Yards Co. The capital stock of the new company is \$500,000. Last week a contract for buildings was let which calls for 2,000,000 feet of lumber, which is said to be the largest of its character ever let in the south.

The contractors have agreed to have the yards ready for occupancy by October.

## FOSTER'S MURDERER WILL BE BURNED AT STAKE

Thirteen Negroes, Implicated In Assassination, Will Likely Be Lynched.

SHREVEPORT, La., June 13.-Thirteen negroes, charged with complicity in the murder of John Gray Foster, a wealthy plantation owner, are corralled in Killebrew's store two miles away by a mob of a thousand citizens.

Prince Edwards, Foster's murderer, was surrounded at eleven this morning in a swamp. It is certain he will be burned when caught and the others all hanged.

Foster was engaged to Miss Bessie Felix, of Louisville, Ky., daughter of Rev. J. L. Felix, a well known Baptist minister.

Foster was killed on the Foster plantation, five miles east of this city on the Vicksburg, Shreveport Railway, yesterday morning by Edwards.

There has been trouble between the overlanders and negroes, and Foster left the plantation store to go to the scene of the trouble. The negroes gathered in a cabin to the number of twelve or fifteen and, as Foster approached, Edwards fired, mortally wounding Foster.

FOUR SHOCKED BY LIGHTNING.

Miss Ole Cayce At The Racket Rendered Unconscious.

From Thursday's daily.  
During the heavy rain storm yesterday afternoon, lightning flashed along a bell cord leading into the cashier's office at the Racket store.

Miss Ole Cayce, who was sitting at the desk, was rendered unconscious and Tom Torker was knocked down. Miss Cayce speedily recovered consciousness from the shock.

At the same time in the Kenton building two printers were knocked to the floor. A loud peal of thunder accompanied the lightning. Neither of the buildings was damaged. The telephone wire in the Racket was broken in two places.

Col. W. L. Damscher left for French Lick Springs this morning.
