VOL. 11, NO. 21

MURRAY, KENTUCKY THURSDAY, SEPTEMBER 5, 1912.

\$1.00 PER YEAR

GAME LAWS

List of Requirements Necessary for Nimrods Before Going into the Fields.

In order that no one might be mistaken as to the game law, the periods during when it is unlawful to shoot in Kentucky are here given:

Quail, pheasant and wild turkey—November 15 to January 1.
Rabbit—November 15 to September 15.
Ducks and geese—August 15 to April 1.
Doves—August 20 to February 1.
Woodcock—June 20 to February 1.

Snipe—at any time.
It is unlawful to shoot any thrush, meadow lark, finch, martin, swallow, woodpecker, red or blue bird, cat bird or any other song or insectivorous bird at any time.

The substance of the game law and the way it is enforced is here given:

First.—A commission of four appointed to enforce the game laws. They appoint a chief game warden at a salary of about \$2,500 per year and as many additional wardens as necessary. They receive all moneys from license, fines and sales of contraband goods.

Second. Any game warden can arrest a person caught in the act of violating the laws, without a warrant, seize his gun, net or other devices and convey such person or persons before a magistrate. Possession of animal or bird within prohibited time is evidence of guilt. Articles thus seized are turned over to the commission and sold or disposed of by them.

Third.—County attorneys compelled to see that the fish and game laws are enforced.

Fourth.—Hunting license are issued by the county clerk between the dates of March 20 and December 15. The cost is \$1.00 per year for a person who has been a bona-fide resident of the state a year and \$15 for non-residents.

Fifth. Persons may hunt on their own land or adjoining neighbors' land without a license.

Sixth.—The fine for hunting without license or loaning your license to another is not less than \$25 or more than \$100, or a jail sentence.

Seventh.—You are not allowed to shoot, hunt, or fish on enclosed grounds without consent of owner. Violators are subject to fine of \$10 to \$25 for trespassing.

Eighth.—It is unlawful to dynamite, seine, trap or catch fish with any device other than hook or line, except seines 10x4 feet or smaller, are allowed for catching minnows for bait. This does not apply to the two border

streams—the Ohio and Big Sandy rivers. Violators subject to fine of from \$25 to \$100 or jail sentence.

Store Destroyed at Lynville.

The large general store of L. F. Grissom, at Lynville, was destroyed by fire Thursday morning about 2 o'clock. The building and contents were almost totally destroyed, and it was said Friday that the loss would be about \$8,000. There were two policies with a total loss of four thousand dollars insurance on the property and contents. The origin of the fire is a mystery, it having started in the front end of the building, it is said.

The Bank of Lynville building, adjoining the Grissom property was also damaged by the heat, the plate glass windows being broken, and the furniture store scorched. The bank's loss will reach about \$200. Mayfield Messenger.

To Mothers—And Others.

You can use Bucklen's Arnica Salve to cure children of eczema, rashes, tetter, chafes, scaly and crusty humors, as well as their accidental injuries—cuts, burns, bruises, etc., with perfect safety. Nothing else heals so quickly. For boils, ulcers, old, running or fever sores or piles it has no equal. 25cts at Dale & Stubblefield's.

Per Capita of Calloway is \$4.16.

The school per capita for Calloway county this year is \$4.16, which is our apportionment from the state monies. This apportionment has just been made by the state department of education. In the following lines we give the per capita of the western district of counties, also the total amount of money available for each of the counties.

	Per capita.	Total
Ballard	\$4.14	\$16,492.64
Caldwell	4.15	18,784.12
Calloway	4.16	28,901.04
Carlisle	4.18	11,854.80
Crittenden	4.24	18,308.07
Fulton	4.11	16,933.40
Graves	4.19	47,014.88
Hickman	4.12	14,522.66
Livingston	4.39	14,956.65
Lyon	4.16	13,008.81
Marshall	4.16	21,632.73
McCracken	4.10	41,763.55
Trigg	4.25	20,691.38

Yellow complexion, pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. Herbin is a powerful liver correctant. It purifies the system, stimulates the vital organs and puts the body in a fine vigorous condition. Price 50c. Sold by Dale & Stubblefield.

Gets Note and Switches.

A report came to town Saturday morning that a man named Harley Gray residing on the east edge of the county, had received a night rider notice, which asked him to leave that section of the

country, and allow his wife to return to her people, who reside in Calloway county, near Almo. The notice implied that Gray had been whipping his wife, and that the public of that section would no longer stand for it. He was given until Sept. 1, to leave. The notice was dated Aug. 25, it is said.

Gray and his wife removed to that section about eight months ago and is a professional horse trader, making the towns of Western Kentucky on court days.

The notice that was left on Gray's doorstep was accompanied by a bunch of hickory switches and the men signing themselves "Night Riders," warned him that they would be used.

It was learned through a man from that section, who was in town Saturday, that Gray departed from the neighborhood Thursday, but left word that his absence would be only of short duration. Mayfield Messenger.

Election of District Chairmen.

Notice is hereby given that the election of District Chairmen of the Planters' Protective Association will be held at the ordinary voting places of the district in the several counties comprising the aforesaid association. All members are requested to repair for their voting places as above on Saturday, September 7, 1912, between the hours of 10 a. m. and 4 p. m. and vote for the strongest available growers of tobacco the county affords to occupy this very responsible position for the ensuing twelve months.

Parties conducting the elections will have pledge sheets, so that one might sign and then vote.

G. B. Bingham, Gen. Sec.,
Felix G. Ewing, Gen. Mgr.

A WORD

To the Farmers Regarding Care of Tobacco to Secure Good Condition and Color.

The time of year has come around again for cutting and curing another crop of tobacco, and knowing the importance of this being intelligently and properly done prompts me in writing a few lines again for publication, and I wish to caution the farmers to let their tobacco get good and ripe before cutting, and in order to have it all in good shape it may be necessary to make several cuttings before completing. I mean by this picking the ripe tobacco and leaving the green. Then the curing process is the most important of all in making a good and salable article of tobacco, and this can be very easily done by using the proper pains and care with the curing. To start with the tobacco should be housed in the barn and permitted to hang a day or two until it has yellowed, then start with very slow fires until the curing sets in, and I advise that the start be made with fires that can be easily smothered and not have heat enough to twist the tails or start the curing for the first twenty-four hours, then gradually increase the heat and when the tails have begun to curl up or twist the colors will show and if you find that it is too dark it is best to lower your fires until it has yellowed sufficiently for you to make a brown to light brown color, then increase your fires running them slow until the barn is thoroughly cured, when this is completed it is a good idea to open the barn and let your tobacco come in order and straighten out and if a wet spell should set in, and you find your tobacco molding at the stem, or find it sappy with swelled stems, then dry it out slowly with fires, being careful to build only small fires that can be smothered easily to prevent the burning of the bar. This is a very simple process, and all farmers can have their tobacco well cured if they will take the proper pains. Don't overlook the fact that for the past several years you have been producing more dark tobacco than you have of other colors, everybody likes a nice lively brown and light brown color and it is more preferable than any other color with the whole trade and I advise getting it these colors. We have a large crop of tobacco and prices for low grade tobacco are low, and I think they will be, but for good grades you may expect reasonably good prices and you can make them good if you will only use the proper care with your cutting and curing. Do not crowd your tobacco too close in the barn and allow it to house-burn, this does not only injure the quality, but it takes away a good deal of the weight. I have been buying and rehandling tobacco in Murray and other places for some years now, and expect to continue, and I want good tobacco of the colors that I have described, but if I was not going to buy a pound of loose tobacco I would advise the same as I have done, because I expect to buy a great deal of tobacco after it is prized in hogheads after the same as I have been doing from year to year.

Hoping that these suggestions may be beneficial and will remind you of the importance of taking good care of your tobacco, and that you may be benefitted by same, I am,

Very truly yours,

W. B. Kennedy.

103 Years Old.

of the music. This is rare opportunity that the people of Calloway county have to hear two of the greatest gospel singers in this country. Many of our churches are now using New Evangel song books. This is a fine time for them to come in and hear one of the men who got it out sing out of his own book. Services daily at 3:30 and 7:30 p. m. Remember the date we begin, Sunday, Sept. 15th. Make your arrangements to be here every service possible.

H. B. Taylor, Pastor.

Nineteen Miles a Second

without a jar, shock or disturbance, is the awful speed of our earth through space. We wonder at such haste of nature's movement, and so do those who take Dr. King's New Life Pills. No griping, no distress, just thorough work that brings good health and fine feelings. 25c. Dale & Stubblefield.

Candidates Spend Bunch of Money.

Four candidates for the Democratic nomination for Congress in the First district spent \$4,550.30 in their races according to their reports which have been filed with the clerk of the House of Representatives.

More money was spent in Kentucky in congressional races than in any other state. In the Eighth district Jere A. Sullivan and Harvey Helm spent nearly \$5,000 each while Swager Sherley did not spend a cent as he made the race without opposition.

Candidates were forced to make two reports, one before and one following the election.

The total expenditures of the candidates according to the reports are: Jacob Corbett, \$308.80; John K. Hendrick, \$525; Alben W. Barkley, \$2,578; and Denny P. Smith, \$138.50.

Child Thrown From Buggy and Killed.

A sad accident and death occurred Monday night in the family of Mart Lyles near Brewers in Marshall county. He and his wife were preparing to go to church and placed their six-months-old baby in the buggy before they got in. The horse became frightened and ran away before they could get into the buggy and the baby was thrown out and killed.

Commercial Club Meeting.

Don't forget that our next regular Commercial Club meeting will be held on Monday day night, September 9. Let every member be present.

Nat. Ryan, Pres.

W. H. Finney, Sec.

Fruitema in Europe.

E. A. Fruitema and wife, formerly of Erin, Tenn., are now residents of Holland, where Mr. Fruitema's father lives. Mr. Fruitema was formerly in the tobacco business in Murray.

ALL THAT IS GOING ON

List of Week's News Stripped of Unnecessary Verbiage and Prepared for Quick Consumption by Busy People.

Canada must do without suffrage for a while. That was the substance of the answers today to a deputation of women by Robert L. Borden, premier, who is visiting in London.

Trust legislation, constructive rather than destructive, and immigration were among subjects to which Gov. Woodrow Wilson gave his attention Wednesday in a speech at Seagirt, N. J.

William Jackson Stevens, a citizen of the United States, was shot and killed by a band of raiding rebels at Pacheco, Chihuahua, while defending his wife and three daughters.

The resignation of William R. Morris, negro attorney of Minneapolis, as a member of the American Bar Association, was accepted without a dissenting vote. The resignation of William Lewis, Assistant Attorney General of the United States, and Butler R. Wilson of Massachusetts, both negroes, were expected to follow that of Morris. The association previously had refused to accept the action of the Legislative Committee, which sought to depose Lewis.

The pope is about to create a new American cardinal who is to reside in Rome, according to a special dispatch received in Paris. The American cardinal will occupy a similar position to that of the prelates representing France and Spain in Rome. It is also stated that the pope will later create a cardinal in Central America, probably in Mexico.

Gen. Walter S. Schuyler, commanding the department of California, was directed by Gen. Wood to proceed immediately to the southern boundary of his department and take personal charge of the disposition of the troops there.

President Taft, in a speech from the rear platform of his private car at Pittsfield, Mass., declared that he did not intend to take any further active part in politics.

Clarence S. Darrow, recently acquitted of bribing George N. Lockwood, will go on trial on October 31 on a second indictment charging bribery of Robert Bain, one of the jurors in the McNamara case. The trial date was set by Judge Willis of the superior court. He stated that he would announce within a few days the name of the judge who will preside.

Declaring that he soon would make several sensational statements that would cause "some more explosive utterances and echoes from Oyster Bay," Senator Penrose of Pennsylvania left Washington to secure more material for his anti-Roosevelt fight. He promised to "keep Roosevelt in continual hot water" despite the temporary adjournment of the senate investigating committee.

The U. S. transport Liscom sank at Shanghai, China, alongside the wharf where she is lying in 40 feet of water. The cause of the accident has not yet been ascertained. She was undergoing repairs and the captain as well as the shipbuilders are of the opinion that she can be raised with ease.

Col. Roosevelt declares that Senator Penrose, on his own testimony, should be expelled from the senate. Col. Roosevelt had taken this position in his letter to Senator Chapp, chairman of the senate committee investigating campaign contributions, which he is preparing.

Investigation of alleged ballot box tampering and charges that Elsie A. Head was the prevailing bribe for votes in Beaver county, Pennsylvania, as alleged by the citizens' committee, will be begun by Judge Robert S. Holt.

Col. Christopher Columbus Wilson, former head of the United Wireless company, who was serving a term of three years in the federal prison at Atlanta, Ga., for swindling, died suddenly.

Whales are becoming scarce in North Pacific waters. According to the crew of the whaling steamer Peterson, which arrived in Seattle for repairs, the increased fleet of the American Pacific Whaling Company, out of Bay City, Wash., has captured 212 whales. The steamer Moran and Peterson alone brought in 187 whales last year.

Mayor Charles C. Schmidt, serving his fifth consecutive term as chief executive of Wheeling, W. Va., died suddenly. He was a grand trustee of the Order of Elks.

Seven men alleged to be members of the Industrial Workers of the World are under arrest at El Cajon, Cal., the police charging that they were en route to San Diego to dynamite the city.

Thirty-eight persons were injured, eight of them badly, in a wreck of Pere Marquette passenger train and a dummy train at the Superior, Minn., siding near Petoskey, Mich.

The American Bar association, after going on record as opposed both to the recall of judges and of judicial decisions, declared that other methods must be employed to prevent delays in lawsuits. Various committees were appointed to report on plans for amending court procedure. The election of Frank B. Kellogg of St. Paul as president brought the convention to a close.

Mrs. Henry H. Rogers, widow of the Standard Oil magnate, died suddenly in her private car, Sunset, attached to the White Mountain express, as the train was pulling into the Grand Central station at New York.

Caroline Beers, aged 40, who said she was from Greenville, O., was arrested by Pittsburgh officers at the Southern hotel, in Columbus, O., while waiting for President Taft. Two long knives were found concealed in her clothing. The woman said she was the wife of the president. Mrs. Beers said she was going to punish the president. She had been noticed waiting around the hotel and told employees that she was waiting for the president.

The first prosecution of oil companies by the federal government since the dissolution of the Standard Oil company was started at Dallas, Tex., when indictments were returned by the federal grand jury of northern Texas district against leading oil men on charges of violating the Sherman law. While it is not charged in the indictments that the Standard Oil solution decree has been violated, it is hinted by federal agents that contempt proceedings for local violations of the decree may be started.

President William M. Wood of the American Woolen company was arrested in Boston on an indictment warrant charging him with conspiring to distribute dynamite in Lawrence during the general strike there last winter.

The story that a new American cardinal has been created is confirmed. The name has not yet been announced.

Funeral services for the late commander of the Salvation Army, Gen. William Booth, were held at the Olympic in London. In accordance with the traditions of the organization, they were without pomp or symbols of mourning, but were carried out with moving fervor and impressiveness. Forty-four thousand persons participated in the funeral. Nearly half of them were blue coats and red jerseys or helmets, with the red ribbon so familiar on the streets of the city of the world where the army is established.

More than \$250,000 worth of horses have died in the West since Kansas counties from a strange malady in the past several weeks.

In an interpretation of the new contract eight-hour labor law Attorney-General Wickersham has decided that the government can enter into contracts without restricting the hours of labor for the purchase of supplies and other articles exempted by the act, even though the government has occasionally manufactured these articles. He also said that no provision of the law becomes effective until January 1 next.

A report to disclose who is profiting from the present high cost of coal is promised for the House of Representatives by the Department of Commerce and Labor on December 2 next. Secretary Nagel has designated Commissioner Charles P. Neill of the Bureau of Labor to investigate in conformity with the resolution adopted by the House shortly before adjournment.

Forty rebels who crossed the international border at the Gumbo ranch, near Hachita, N. M., were attacked by American soldiers doing patrol duty and a fight ensued, in which two of the rebels were disarmed and the others driven back into Mexico. According to advices from Hachita, the rebels got 40 horses from the Victoria Land & Cattle company and about 100 from other ranches along the border and succeeded in taking them across the border.

Hugh S. Gibson, the charge d'affaires of the American legation at Havana, while entering a hotel, was attacked by a Cuban newspaper reporter. Mr. Gibson was not injured seriously.

The Panama canal bill is characterized as partially a dishonest repudiation of a direct bargain by newspaper reporters revealing the views of all the British political parties.

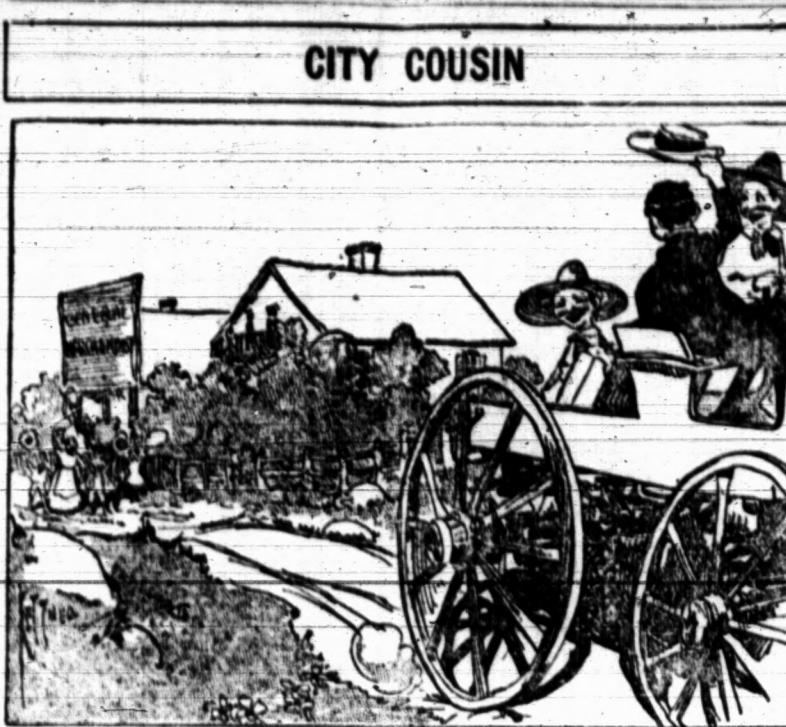

Geo. C. Perkins, United States Senator from California, announced on his return from Washington his intention to retire from political life. Failing health and the indignities due to a "cave" given as the reason for his decision, Senator Perkins' term will expire March 4, 1915.

Three little girls, almost dead from starvation, were found by the police huddled up on a pile of rags in a deserted apartment on East One Hundred and First streets, New York. The occupants of the adjoining apartment, remembering seeing the children with their mother in the hallway three days ago.

After maintaining a reserve ever since the Panama canal bill was introduced in the American congress the German press burst out into impatience with the signing of the measure by President Taft.

The Chicago, Burlington & Quincy Louisville & Nashville, Big Four and Illinois Central railroads tentatively have agreed to build a \$1,000,000 bridge across the Mississippi river at Metropolis, Ill.

President Taft rescinded his order directing the immediate dispatch from Panama to Nicaragua of the Tenth Infantry.

(Copyright) Back to Town.

PROSPECT FOR FAIR YIELD ENCOURAGING

COTTON CROP OVER SOUTH IS APPROACHING MATURITY.

DETERIORATION IN TEXAS

Dry Weather Causes Complaint of Short Staple Due to Premature Opening. Boll Weevils Doing Damage in Texas and Louisiana.

Memphis. Good progress was made by the cotton crop in all cotton-growing states bordering on the Mississippi river and in Alabama and Oklahoma, although progress made under favorable weather conditions somewhat was offset by ravages from boll weevil. Deterioration occurred in Texas, Georgia and the Carolinas.

In most sections of the belt the plant seems to have about reached the climax of development and deterioration consequent upon maturity seems ready to set in. In fact, some of the deterioration in the sections where the plant retrograded was attributable to this cause.

In states where an advance was noted the plant grew and fruited well and, generally speaking, heavily fruited and promises excellent yield. The heaviest deterioration was reported from Texas, where drought in the North has caused premature opening of bolls and has prevented the idea of a fall crop. Some complaint is heard from all dry sections of shortness of staple due to premature opening. In North Texas fairly favorable weather conditions were offset and over-ripe bolls were reported. Drought and some insects were responsible for deterioration in other states.

In all sections save where dry weather forced early maturity the final yield will depend largely upon the date of frost. Where fairly good yields are promised with average frost much better will be obtained with late frost. Boll weevil complaint is scarce in Louisiana and Northern Texas. From Mississippi complaints from this pest are gratifyingly few.

OPEN ANARCHY REIGNS

United States May Be Held Responsible for Foreigners.

Washington. Conditions in Nicaragua are so deeply approaching open anarchy that England, Germany and France intend to demand protection for the subjects and collection of indemnity for property damage and loss of life from the government of the United States, according to advices received by the demand from Minister Weitzel in Managua.

British, German and French consular officials in Nicaragua have informed their governments of conditions in the southern republic declaring that while the Nicaraguan government is doing all in its power to give protection to foreigners, it lacks troops to guarantee safety either to lives or to property.

Wed in Leno's Den.

Oakland, Cal. Surrounded by a wedding party which included a house, a leopard, a puma, a panther and a jaguar, a trainer armed with whip and revolver, Miss Ruth Kavanaugh and George W. Loevenstein were married in a den of lions.

Banks Must Not Contribute.

Washington. Reports that one of the political parties was soliciting contributions from national banks for the pending political campaign has stirred to indignation department officials. Any national bank making such contributions, declared Thomas P. Kane, acting comptroller of the currency, whose attention had been called to the reports, will be subject to fine and its responsible officers and directors liable to the fine and imprisonment for violating the law passed by congress in 1907 forbidding such institutions to contribute.

Lumber Increase Held Up.

Washington. Proposed increases in the transportation rates on lumber, ranging from one cent to six cents a hundred pounds from points in the South to destinations in Canada were suspended by the Interstate Commerce Commission from September 1 to December 30.

Two Marines Killed.

Panama. Reliable information from Panama received here is to the effect that two American marines have been killed there.

EXCESSIVE TARE ON COTTON IS ALLEGED

SERIOUS ABUSES IN AMERICAN MARKET SUBJECT OF REPORT.

REGULATION IS SUGGESTED

Tare Should Be Standardized by Making Amount to Be Used Upon Bale of Cotton Readily Ascertainable.

Washington. Rules of foreign cotton exchanges governing tare on cotton exported from the United States have created a false standard of weights which inject uncertainty into practically every American cotton sale in the important markets of Europe, resulting in serious abuses, indefensible practices and even fraud on the part of cotton merchants in this country, according to Luther C. Smith, Jr., commissioner of corporations, in a report to President Taft.

The American producer sells his cotton gross weight and as a rule, according to the report, believes that he makes a big profit on tare by receiving the same price for bagging that he obtains for cotton. This is untrue, the report says, as the evidence demonstrates that the buyer of cotton takes the tare into consideration in fixing the price he offers.

Cotton for export, on the other hand, is sold net weight. It is in this connection that complication and uncertainty are injected into cotton sales. The American exporter, by the terms of his invoice contract with the foreign buyer, must compute the net weight of his cotton by deducting 5 per cent from the gross weight. The average bale of cotton, weighing 500 pounds gross, contains about 475 pounds of cotton and 25 pounds of tare as it comes from the producer to the exporter.

The ideal remedy for all these evils, Mr. Conant concludes, is the standardization of tare to be put on a bale of cotton by making it a definite or readily ascertainable amount, so that the net weight may be determined without controversy or test.

ENGLAND ASKS ARBITRATION

Will Make Formal Demand Upon the United States.

London. It is officially announced that the British government will make a formal demand upon the United States government for arbitration of its claims that the Panama canal toll act, as passed recently by the United States congress, violates the Hay-Pauncefote treaty. The British demand will be made under the arbitration convention of 1903. Great Britain's contention will be that the question at issue does not affect the vital interests, independence or honor of the United States and therefore it is clearly within the scope of the 1903 convention, since the matter to be arbitrated is not an act of congress, but an interpretation of the Hay-Pauncefote treaty.

36 LIVES LOST IN STORMS

Parts of Three States Are Swept by the Flood.

Pittsburg. Late toll of at least 36 was claimed by heavy rains and flooding floods that swept West Virginia, Western Pennsylvania and Eastern Ohio Monday night. Several persons are missing. From reports it is believed the monetary damage will reach close to \$1,500,000.

After 24 hours of excessively hot weather the storm broke last evening. In addition to an extraordinary rainfall the electrical features were most spectacular. Within a short time the water had washed away railroad tracks in many places and loosened tons of earth, which came tumbling from surrounding hills, choking thoroughfares.

MEXICANS KILL AMERICAN

Joshua Stevens Killed While Defending His Two Daughters.

El Paso, Tex. Death at the hands of a rebel soldier was the fate of an American citizen, Joshua Stevens, while he fought to protect his two daughters in Colima, Mexico.

Two rebels visited the Stevens home apparently with intentions on the two young women of the household. Stevens met the intruders with a shotgun and escorted them to the limits of his property. According to the story told by his wife, one of the Mexicans drew a saw-bayonet from his belt and thrust it into the American's back. Stevens fired and fell dead over the man whom he had killed. The other Mexican fled.

Asked to Testify.

Washington. William Jacob, Jr., and George B. Cortelyou, each a former private secretary to Col. Roosevelt when he was president, William Randolph Hearst and John D. Archbold have been asked to appear before the senate committee investigating campaign contributions.

Heat Causes Three Deaths.

Chicago. The excessive heat in which Chicago suffered Monday was the cause of three deaths and a dozen prostrations.

Flood in Michigan.

Traverse City, Mich. Cloudburst and flood damage in this section will amount to several hundred thousand dollars, it is estimated. No loss of life is reported. On many farms crops were completely destroyed.

Nat Goodwin Recovers.

Los Angeles, Cal. Nat Goodwin, seriously injured several weeks ago in a boat accident, will be able to return to the stage in about a month, according to his physician's statement.

Cause for Consternation.

The inexperienced district school teacher had exhausted all other expedients for the maintenance of discipline. Going out into the school yard, she broke off a good-sized switch that was growing there and administered primitive punishment to Jimmy Kelley.

There were strange expressions of horrified amazement on the faces of the children, and when school was dismissed at noon they gathered in excited groups and talked incessantly. Finally the teacher's curiosity could stand it no longer. Calling Henry Thomas to her, she demanded the cause of the discussions.

"Why-why-why, teacher," he stammered, "that—that switch you liked Jimmy with—that was the tree we all set out last Arbor day."—Harper's Magazine.

To Reproduce Riot Scenes.

The recent riot at the Federal building, Los Angeles, will be reproduced at the trial of those arrested by motion picture films, and shown to the jury on a screen. It will be the first time in the history of jurisprudence that such evidence will have been introduced. While the riot was at its height a moving picture company, with the newest model machine, had an operator on the scene, and film show the entire actions of those persons who are charged with having caused disturbances.

It takes more than a far-fetched over-plot to protect a would-be actor in the hall of fame.

HAIR CAME OUT BY HANDFUL

58 Lewis St., Nashville, Tenn.—"About three years ago I had the malaria fever, and when I recovered my hair was falling out so that the doctor told me to cut it off. My hair came out by the handful and I had dandruff so that I had to scratch it out every week, and my scalp itched so that I pulled my hair all down trying to scratch it. I tried—and—and—but they failed to do any good. At last I tried Cuticura Soap and Ointment.

"First I combed my hair out, made a parting on the side and rubbed my scalp with the Cuticura Ointment. The next morning I washed with the Cuticura Soap and water, and continued until the third application gave a complete cure." (Signed) Miss Nellie M. Currin, Dec. 6, 1911.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L., Boston."

No Chance.

Officer—What's the trouble here?
Mrs. Rosebery—There's no trouble! He could make a start in to try and make some, but he found he could not do it!

I cannot afford to give up the sure ground of a principle.—Plato.

WIRE FENCING.

Both welded and wrapped for stock, poultry, garden and lawn, all sizes—Send money order or check. ROOFING OF all kinds, materials and labor. We have a complete stock of materials. Write for complete price list. (Signed) J. M. Thomas, 24 St. St., Memphis, Tenn.

The Main Impression.

"What did the minister talk about in his sermon this morning?"

"About an hour."

NERVOUS DESPONDENT WOMEN

Find Relief in Lydia E. Pinkham's Vegetable Compound—Their Own Statements So Testify.

Plata, Pa.—"When I wrote to you first I was troubled with female weakness and backache, and was so nervous that I would cry at the least noise, it would startle me so. I began to take Lydia E. Pinkham's remedies, and I don't have any more crying spells. I sleep sound and my nervousness is better. I will recommend your medicines to all suffering women."—Mrs. MARY HALSTEAD, Plata, Pa., Box 98.

Here is the report of another genuine case, which still further shows that Lydia E. Pinkham's Vegetable Compound may be relied upon.

Walcott, N. Dakota.—"I had inflammation which caused pain in my side, and my back ached all the time. I was so blue that I felt like crying if anyone even spoke to me. I took Lydia E. Pinkham's Vegetable Compound, and I began to gain right away. I continued its use and now I am a well woman."—Mrs. AMELIA DARR, Walcott, N. Dakota.

If you want special advice write to Lydia E. Pinkham Medicine Co. (Send postal) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

5 or 6 doses 666

breaks any case of Chills & Fever; and when taken as a tonic the Fever will not return. Price 25c.

THE MURRAY LEDGER,

O. J. JENNINGS, EDITOR.

Entered at the postoffice at Murray, Kentucky, for transmission through the mails as second class matter.

THURSDAY, SEPTEMBER 6, 1912.

Interurban Going to Really Start.

Paducah Sun: "That active construction work on the interurban lines will start in a very short time seems absolutely assured. The men responsible for the enterprise are wary about announcing things definitely, but enough has been allowed to sift through to warrant the belief that it is a 'sure go.'"

"One potent bit of evidence of that fact is the option taken on 400 acres of clay land in the county by eastern capitalists as announced in the Sunday yesterday. Those gentlemen would not have bought the property if they had not satisfied themselves that the interurban road would be built. They came to Paducah and went into an investigation of the interurban prospects very carefully before they made their decision. The investment would be \$4,000 and shows how strongly their conviction in the road is."

"In the latest issue of the publication gotten out by the interurban company, Major Calhoun says this is only one of several other projects he and his associates have developed the announcements of which are not ripe for a while yet. He and his experts have examined some promising mineral lands in several counties traversed by the line and have also found sand and clay suitable for fine tile and the best grades of glass, and the Major has interested capitalists of the east in them."

Save Your Pretty Trees.

An expert demonstrator identified with a leading forestry firm has been in the city for some days calling on those people owning shade, fruit and ornamental trees, indicating to them the necessity of caring for them along scientific lines. The average citizen knows little or nothing about the treatment of these trees when adversely affected as many of them are.

The object of scientific forestry is for the conservation of the American trees, through proper pruning, spraying, excavating (cleaning), filling root treatment, and finally changing undesirable farms and establishing an ultimate and permanent beauty that cannot be secured by any other process.

Let us all co-operate with this edifying work and make our city a thing of beauty.

Hardin News.

Miss Ruby Shelton returned from Alto Sunday where she was the guest of Miss Lee Keys several days.

J. J. Jackson made a trip to Cadiz, Princeton and Hopkinsville a few days past.

Will Moody and family, of Tenn., have moved to this place and he has accepted a position in Gatlin, Crawford & Jones store.

Willie Trevathan left Wednesday for his home in Texas. He has been the guest of his mother and other relatives here for several days.

Jerry White and family will move to Hazel next week where Mr. White will engage in business. Also Mrs. Dr. Wyatt and son, Valney, will move to Hazel in a few days. By their leaving Hardin we will sustain a great loss, for they are excellent people.

The ball game between the Benton and Hardin teams here last Saturday resulted in an overwhelming victory for the Hardin Nine, the scores being 22 to 1. No team in Western Kentucky can beat us.

Quite a crowd from Benton attended the ball game here Saturday.

Rollie Creason, of Benton, was in town Saturday.

Mr. and Mrs. J. White and Mrs. Dr. Wyatt went to Hazel Monday.

Mrs. Dr. Hughes and children spent several days with her mother, Mrs. Kittie Pace, route 1, this week.

Miss Regina Pace will go to Benton next Sunday, where she will be engaged as a teacher in the Benton Graded School.

Will Jackson spent the week at Aurora on a hunting expedition.

Miss Hilda Aaron, of Benton, visited friends here this week. Benjamin Ward, of Metropolis, Ill., was the guest of Witt Barnett, route 2, last Monday and Tuesday.

Mrs. Modie Barnett and little daughter, Fannie, route 2, returned from Alto Saturday.

Miss Katie Irvin is visiting in Murray this week.

Owing to the illness of Rev. Stubblefield, of Paducah, the protracted meeting at the Christian church here did not begin last

Sunday.

Miss Flora Hartley, of Olive, made an average of 90.3-11 per cent in the teacher's examination at Benton two weeks ago. This was her first examination and her grade is one of the best in the county.

Mr. and Mrs. Jim Borders, of near Murray, visited relatives in town Saturday and Sunday.

Grey Padgett and wife and Bob Padgett, of Paducah, spent several days last week with their parents. Mr. and Mrs. F. Padgett.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by continually failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hark! Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

F. J. CHENEY & Co., Toledo, O., Sold by all Druggists 75c. Take Hall's family Pills for constipation.

Elder South Hawkins, pastor of the Christian church of this city, returned home Friday of the past week after a several weeks vacation on an outing trip with a party in Trigg county. He was the guest of his mother in Elkton a few days before returning.

Few, if any, medicines have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by Dale & Stubblefield.

Paul McRee, son of Dr. McRee of this city, and Miss Mavis Holland, of Alto, were united in marriage last Sunday afternoon at Hazel, Rev. Mac Pool performing the ceremony. Both are well known young people with a host of friends who are extending congratulations.

Low Fares!

On the 1st and 3rd Tuesdays of each month the fares are extra low—and allow stop over free and 25 days' time—via Cotton Belt Route to

Arkansas & Texas.

The Cotton Belt Route is the shortest and most direct line to Texas, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, and the South. It is the only line that makes direct connection at Memphis with Cotton Belt Route trains to the Southwest.

Write to me today. I will tell you exact fare from your town, schedule, and send you splendid illustrated book of facts about Arkansas and Texas.

L. C. BARRY, Traveling Passenger Agent, 83 Third Building, Louisville, Ky.

All rates subject to change without notice. Ticket must be used within 30 days of date of issue.

THE PRAISE CONTINUES

Everywhere We Hear Good Reports of Doan's Kidney Pills.

Murray is no exception. Every section of the U. S. resounds with praise of Doan's Kidney Pills. Thirty thousand persons are giving testimony in their home newspapers. The sincerity of these witnesses, the fact that they live so near, is the best proof of the merit of Doan's. Here's a Murray case.

A. P. Overby, Murray, Ky., says: For two or three months I was troubled by disordered kidneys. I had dull pains in the small of my back and whenever I stooped or lifted, sharp twinges caused me much misery. At night the ache in my back greatly disturbed my rest. I arose in the morning feeling tired and languid and nervous spells bothered me. Sediment contained in the kidney secretions proved that my kidneys needed attention. Learning of Doan's Kidney Pills, I procured a box and in three days they relieved me. It required but one-half the contents of the box to effect a complete cure. I am glad to say this cure has been permanent and I therefore have no hesitation in allowing you to publish my statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other.

Colt Show.

I will hold my colt show Saturday, September 14, at 3 o'clock p. m. at my stock barn, 9 miles east of Murray. Everybody invited. F. T. Rogers.

Running up and down stairs, sweeping and bending over making beds will not make a woman beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by Dale & Stubblefield.

Bryan Hill, aged 15 years, died at the hospital Wednesday evening about six o'clock after a short illness of appendicitis. He was a son of the late Capt. Hill, who was well known in Murray. His mother, Mrs. Russell, now lives in Portertown. Burial was at Portertown Thursday afternoon.

When you have an aching, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. Herbine offers you the help you need. It destroys the malaria germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 50c. Sold by Dale & Stubblefield.

You can buy that Cider Mill, Cider Barrel, Kraut Barrel, Molasses Barrel, Kraut Cutters, Apple Peelers, from A. B. Beards & Son.

Repels Attack of Death.

"Five years ago two doctors told me I had only two years to live." This startling statement was made by Stillman Green, of Malachite, Col. "They told me I would die with consumption. It was up to me then to try the best lung medicine and I began to use Dr. King's New Discovery. It was well I did for today I am working and believe I owe my life to this great throat and lung cure that has cheated the grave of another victim." Its solly to suffer with coughs, cold or other throat and lung troubles now. Take the cure that's safest. Price 50 cents and \$1.00. Trial bottle free at Dale & Stubblefield's.

NEW FIRM

M. M. Clark and W. D. Osbron have formed a partnership in the Blacksmith Business and are located at the M. M. Clark shop on Depot street. They will do all kinds of general blacksmithing and also auto and farm machinery repairing. Will make horse shoeing a specialty. We thank you for past patronage and solicit your trade in the future.

M. M. CLARK and W. D. OSBRON
Murray, Kentucky

Announcement.

The protracted meeting will begin 2nd Sunday in September. Rev. W. F. Acuff will do the preaching.—A. E. Wilson, pastor.

Glorious News

comes from Dr. J. T. Curtiss, Dwight, Kan. He writes: "I not only have cured bad cases of eczema in my patients with Electric Bitters, but also cured myself by them of the same disease. I feel sure they will benefit any case of eczema." This shows what thousands have proved, that Electric Bitters is a most effective blood purifier. Its excellent remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50c. Satisfaction guaranteed by Dale & Stubblefield.

Miss Helen Davis is visiting in Murray.

J. P. HOLT

ATTORNEY-AT-LAW.

Murray, Ky.

Will practice in the Federal courts in Kentucky and Tennessee.

Sinking Spells Every Few Days

"At the time I began taking Dr. Miles' Heart Remedy I was having sinking spells every few days. My hands and feet would get cold; I could scarcely breathe, and could feel myself gradually sinking away until I would be unconscious. Those about me could not tell there was life in me. After these spells I would be very weak and nervous, sleepless and without appetite, had neuralgia in my head and heart. After taking the remedy a short time all this disappeared and in a few weeks all the heart trouble was gone."

MRS. LIZZIE PAINTER

803 1/2 3d Ave. Evansville, Ind. For twenty years we have been constantly receiving just such letters as these. There is scarcely a locality in the United States where there is not some one who can testify to the merits of this remarkably successful Heart Remedy.

Dr. Miles' Heart Remedy is sold by all druggists. If the first bottle fails to benefit your druggist will return your money.

MILES MEDICAL CO., Elkhart, Ind.

Each Box I will pay 1 cent for each delivered at retail prices in Kentucky and Tennessee. They are still going at 10c. P. P. Underwood.

Saving Rule

Putting Money Away in the Right Way

By JOHN M. OSKISON, Chicago

I HAVE a philosophical friend in Wall street who believes that the small man ought to be encouraged and guided both in saving and using money. He sees in many men with a credit of only \$200 at the bank the future rulers of industry and finance. He was talking the other day about saving of the right sort.

"Really artistic saving," he said, "consists in putting money aside and at the same time dressing as well as anybody else, eating as well as anybody else and having generally as good a time as anybody else."

"I have as little admiration for the man who makes himself miserable in order to save money as I have for the man who lives an extravagant, thoughtless life and runs into debt."

"The successful corporation is not the one of rash, improvident methods. Nor, you will notice, is it the one which hawks at spending money. It is the one which, systematizing its entire operations, spends money, the more the better, if only it spends it well."

"So with the individual. He may spend money in a way to help him maintain his self-respect. He may spend money in a way to help him keep cheerfully energetic. And withal, by avoiding the ordinary wastes of everyday habits, he may save money."

"Like the corporations, he must introduce 'scientific management' into his personal and family life. He must adopt a system. He must stop the leaks and preserve what was formerly lost. He must create a sinking fund and invest it."

This statement embodies a notion I have held for a long time. Look up the financial methods of some successful corporation and see how these methods compare with your own.

There's likely to be considerable point and profit in it.

Boys and Girls Should Have Good Care

By WES. S. B. ALLISON, Chicago, Ill.

people.

But now in many cases how different they are. Now we can hardly pick up a paper that hasn't something about boys. Some try to burglarize a house. Some try picking pockets and it all ends in getting found out and going to jail.

Our jails are full of them now after a boy has been caught do you think he can hold his head up again and be the same? No, he can't. It always stays with him. His companions shun him; he gets to think no one cares for him; then he doesn't care what he does, but follows the downward path. Mothers, you can belong to your clubs; you can be a leader of fashion, but while you are wrapped up in these things where is your boy, the idol of your heart?

Ten to one, he is out with company that will lead him on to vice. Be a loving companion to your boys and girls; teach them to confide in you; go with them if they want to go to places of amusement that are suitable for them; make yourself one of them and your life will be full of joy and contentment with the knowledge that you have done your duty and that you have brought your children up to be an honor to yourself and to society.

High Time for Woman to Assert Herself

By MISS CLARA ADER, Kansas City, Mo.

Too many lives have been ruined, too many hearts broken because of these foolish restrictions being placed on womankind. It is time for a change.

Let the women act! Even the men themselves admit that the woman is the better judge of the situation in matters of love, so why should she be tied hand and foot in the matter of choosing her man?

Again I say it is high time for the woman to come to the front when her intuition calls her, and save both herself and the man who lacks the courage to speak.

Drinking Water On Western Plains

By D. L. De Golyer, Omaha, Neb.

Young men in the business world are always being reminded that close application to the interests of their employers is always appreciated and will be duly rewarded. How often are these promises kept?

It seems to be the custom nowadays in business offices to employ a man from the outside whenever there is a vacancy, give him a larger salary than is given to the one that has been faithful and give him more consideration, simply because he has a "pull."

In many cases the man thus employed knows nothing of the business and must rely on the good graces of the old employees for assistance.

The writer has seen several instances of this nature. Instead of promoting good work in an office, it tends to make dissatisfaction and ill feeling.

No doubt many readers have been victims of this kind of office politics.

TELLS OF GEYSERS

Every Year More Tourists Throng Yellowstone Park.

"Old Faithful" Resembles Symmetrical Cone Containing 250,000 Gallons of Steaming Water 150 Feet High.

Yellowstone Park—Yellowstone National Park every year furnishes a center of interest for increasing numbers of vacationists. The government has taken precautions to preserve this, the greatest of American wonders, for years to come. The acting superintendent of the park is the commanding officer of Fort Yellowstone, a four-company post. Hunting is not permitted in the reserve, but visitors may fish for trout. The Government protects the animals in the park and sees to it that the natural formations of stone are not damaged by vandals.

The geysers are principal attractions in Yellowstone. There are thousands of these strange natural phenomena there; some are almost constantly active, while others seem to be extinct. "Old Faithful" geyser has been thus described:

"In imagination lift in a symmetrical cone 250,000 gallons of scalding, steaming water 150 feet high and hold it there three minutes. Jewel the grand fountain with a million diamonds, silver through it the hues of innumerable dancing rainbows, commingle in confusion every sound of splash and splutter—and you will have a faint idea of Old Faithful in action."

"It is the immutable water clock of the Yellowstone, the most perfect illustration of geyseric phenomena, the most famous and beautiful geyser in the whole world."

"The note of the beginning of the play of the geyser is an angry growl down deep in its throat, whence almost instantly the water in rapid recurrent leaps, forms the stately fountain that plays for three minutes and then slowly sinks into the earth to await its time to rise again. Sometimes the winds unfold from its top an iridescent banner of spray, but more often the fountain form is a perfect cone."

"Old Faithful" plays every seventy minutes, and never disappoints. In the daytime, under the sun, it glistens and gleams with prismatic hues; but the most enchanting hour to witness

"Old Faithful."

its performance is that when night is falling, when the dusk is around it and the last faint tints of the sun linger in the sky. Then it is a spectacle in ghostly white standing against the sombre background of the wilderness—a sight strange and startling and never to be forgotten."

The visitor to Yellowstone Park will find the animals there of unusual interest. No sound of gun or bark of dog is ever heard and the wild animals have become so tame that they have no fear of the tourist and give only a passing glance at the visitor. Deer, buffalo, elk and bear roam through the Yellowstone. The bears come down from their caves in the evening and feed about the hotels. Excellent hotel accommodations are to be found in the Yellowstone and competent guides are to be hired.

RAISE MANGO IN FLORIDA

Government Experimenters Succeed With Tree Grown to Official by Prince in India.

Washington—President Taft has been presented with a fine basket of East Indian mangoes raised in the United States. The bureau of plant introduction, which is experimenting with hundreds of foreign fruits in the effort to find new varieties that will grow here, raised the mangoes in Florida. They came from a tree presented to David Fairchild, chief of the bureau of plant introduction, when he was in India some years ago, by one of the princes of that land. Mr. Fairchild says mango growing in the United States can be made a commercial success.

Prohibit Kissing at Depots. Geneva, Switzerland—The Society for Protection of Young Girls Traveling Alone has issued an order prohibiting kissing on the railroad platform at Sarnen.

GARDEN OF FORUM AT ROME

Beautiful Flora Is Again Revived and Flowers That Bloomed Ages Ago Are to Be Seen.

Rome—The wonderful discoveries which have taken place during the last few years in Rome have now allowed the general public to grasp an almost perfect idea of what must have been the life of our ancestors of over two thousand years ago. The love of the Romans for their gardens often recurs in Virgil and Horace, the poets of antiquity, as well as in Pliny, the naturalist, and in Juvenal. In a recent visit which I paid to Ostia, the pleasure city of the Roman epoch, I noticed that with every house of the place a garden or a roof-garden has occupied a considerable space, just as in England to-day. No doubt, then, the magnificent "villas" of the Palatine and the Forum—the residence of the emperors and their court—must have

Corner of Old Roman Garden.

contained the finest garden plants available in the day, together with a large selection of those plants which, for some reasons, not fully known to us, were believed to have religious power. It was with the object of reviving a part of this beautiful Roman flora that Commodore Ford has been working for the last two years collecting a large number of plants chosen among those which are supposed to have grown in the very place where the most important monuments have been discovered.

This unusually difficult work has necessitated extensive study, together with an uncommon technical and botanical knowledge, and has now been almost completed, and the visitor can find among the marbles and the stones left to us through the centuries some fine specimens of the plants which were in existence in Roman times. The acanthus, whose beautiful leaves have inspired the design of the Corinthian capital, is fully represented in this "botanical garden of antiquity," the white jasmine, which, according to the legend, was sacred to the vestal virgins, is now climbing again on the beautiful porch which had been erected under the kingdom of Trajanus "aureo senatus populisque romanum" ("With the money of the senate and of the people of Rome").

The large and mysterious basins found near the house of the vestals, which probably were used as a bath by the maidens of the Sacred Fire, have now had their borders fully covered by velvet scarlet roses, while the white roses, a symbol of virginity, are now blooming around the statues of the "vestales maxime," the women priests of antiquity. White and red roses are also decorating the statue of Vestia Aponia Praxetata, one of the last prefects or mayors of Rome, who, having been one of the most strenuous defenders of the dying paganism, had a marble statue erected by order of the religious authority of the time.

THE tender morsels on the palate melt. And all the fire of cookery is felt.

The KITCHEN CABINET

MANY families owe their prosperity as much to the carefulness of the housewife's management as to the activity of the husband.

HOUSEHOLD HINTS.

Rob-binges with a feather dipped in oil and they will not squeak.

A slice of lemon or a sprig of parsley eaten after onions will destroy the odor.

Pennyroyal will keep off mosquitoes.

Place a clothes pin to handle a screw when putting it into hard wood.

To freshen the air in a sick room, put a few drops of oil of lavender into hot water. It leaves a most agreeable odor.

Place a piece of glass over the cook book when using it. It serves two purposes, holds the book open and keeps it clean.

To save a child from slipping in the bath tub, lay a Turkish towel in the bottom of the tub.

The moment you are prompted to rub your eyes, that moment stop using them.

When making cream of tomato soup, add the hot tomatoes to the milk instead of milk to the tomatoes, as it is not so apt to curdle.

When camping and a rolling pin is needed, a large round bottle serves very well.

Do not try to test mushrooms for a dark color with a silver spoon, for it is not a good test for a poisonous variety.

Clean the meat chopper by running dry bread or crackers through it.

Fried apples with fried onions, both cooked together, are excellent with pork chops.

To remove stains of iodine from the hands, use ammonia.

Keep the fingers covered with salt when cleaning a fowl as it prevents the fingers from slipping.

Ivory is cleaned with lemon and salt, afterwards wash in soap suds.

To improve tough meat, rub it well with a cut lemon. This acid softens the fibers.

When a loaf of bread has become stale, dip it in water and place in a paper bag in a hot oven.

When picking flowers in the woods, provide yourself with a paper bag to put them in. Fold over the top to keep them from the air, and they will be fresh when you arrive at home.

INVALID DISHES.

The greatest importance is to be attached to the preparation of food for the sick. Oftentimes the diet is of much more importance than the drug.

Wholesome, dairy food, with prompt and nice service, are very essential.

Do not consult the patient as to his food, surprises are a great pleasure to one who is ill.

Prepare the tray with a spotless cloth, select the prettiest china and be careful to arrange the dishes in a convenient place for the sick one to reach them.

All hot foods should be served on hot dishes, and cold foods on cold dishes.

For febrile patients, cold water and fruit juices are most refreshing.

Hot lemonade with hot milk and egg are good hot drinks and are also nourishing.

A raw egg can be easily taken in lemonade when it otherwise might be objectionable.

Almond Soup—Blanch and pound in a mortar a half pound of almonds. Gradually add a pint of milk. When the almonds are a smooth paste and the milk is all used, strain by squeezing through a cheese cloth. To a pint of scalded milk add two tablespoons of sugar and a half teaspoonful of salt. Now add to the almond mixture and bring to the boiling point. Serve hot.

Chicken Custard—Take the crumbs from the center of the loaf, half cupful, add to these two tablespoonsful of chopped breast of chicken, a pinch of salt, celery salt and a cup of milk; add the yolks of two eggs and bake in a custard cup set in hot water. Serve hot.

Syllabub—Take four egg yolks, a tablespoonful of flour, a teaspoonful of vanilla, a pint of milk, three-fourths of a cup of sugar and a pint

of scalded milk.

Real Zealot.

"What is a mild-mannered zealot? Uncle William? A mild-mannered zealot? George is a man who, when his house is burning is so determined to keep the flames from being found that he kicks his dog for wagging its tail."

His Job.

Visitor (seeking information)—"Excuse me, but are you the oldest inhabitant?" Native—"No, sir, I am only the village idiot."—Punch.

Holland's Flag.

Holland's flag is also the emblem of liberty, but nobody knows how during the long centuries the orange became changed to red.

of whipped cream. Mix half the sugar with the flour, bring the milk to the boiling point, add the sugar and flour and cook ten minutes. Beat the egg yolks, add the remaining sugar and cook all together until smooth. Fill a tumbler half full of this mixture and fill it with sweetened whipped cream.

NOT as a ladder from earth to heaven, not as an altar to any creed, but simple service, simply given to her own kind in their common need.

SOMETHING TO EAT.

When a novel and unusual filling for a cake is desired, try this: Bake the cake in two layers and frost them both separately. Take a cup of raisins and simmer gently for an hour or more with a few teaspoonsful of lemon juice. Spread this, well drained, over the frosted layer, then turn the other layer, frosting side down, over this—and put together. Cover with frosting. When cut, the raisins will be between the two layers of frosting. Chopped nuts are an addition to this filling.

Irish Stew—Take two or three pounds from the neck, cut into small pieces, add enough water to cover, and simmer for an hour, then add potatoes, carrots, onions and turnips cut in small pieces, and cook for several hours at the simmering point. Serve hot, after seasoning well with salt.

Peach Pie—Line a pie plate with crust, then lay in peeled, stoned and sliced peaches, sprinkling sugar liberally over them in proportion to their sweetness. Allow three peach kernels chopped fine to every pie. Pour in a very little water and bake with cross bars of pastry for a top crust.

Rice Pudding—Place in a buttered pudding dish a layer of cold, boiled rice season with cream, nutmeg, and sugar, cover this with a layer of nutmeg or apple preserves, then add another layer of rice and fruit, and over the top place a meringue made of the whites of two eggs beaten stiff and four tablespoonsful of sugar added. Bake in a slow oven and serve cold with cream.

Sponge Bananas—Cover the bottom of a baking dish with small sponge cakes or lady fingers. Upon this put a layer of peeled bananas whole. Sprinkle with sugar, add bits of butter and the juice of a lemon, cover with chopped nuts and bake fifteen minutes in a moderate oven. Serve with a custard or cream.

LET us treat these bodies with as much consideration as we would a good machine, giving them proper care, food and rest.

Not a good beginning, cometh a good end.

HELPFUL HINTS.

When suffering from a nervous headache, lie walking slowly backward for about ten minutes, placing first the ball of the foot on the floor and then the heel.

A teaspoonful of turpentine added to the bath of clothes will greatly aid in the whitening process.

In sudden attacks of illness, when a fire must be built and a quick remedy is at hand, take the stove lid, wrap it in paper and a cloth and use it to apply heat.

Newspaper used to rub windows will keep them bright, also they make a fine polish for the kitchen range.

Always have a folded paper and wax to rub the flat-irons, and a bundle of newspaper makes a good rest for the feet when ironing.

Saturate pails and tubs with glycerine and they will not shrink.

Often a tight shoe may be stretched by applying a cloth wrung out of boiling water.

A small fire in a clean grate is the best of ventilators.

A spoonful of vinegar put into water that fowls are cooked in makes them more tender.

An old bedspread makes a good stove for wash clothes.

When preparing meat for sausage, time is saved if the salt and spices are mixed and added before grinding.

Layer cakes will not stick to the pan if after they are pressed a little flour is dusted over them.

Cream a little old pill not curdle in coffee if beaten before piping.

Nellie Maxwell.

True Charity.

Thinkers of the most different schools and sects would probably agree that true charity demands of its money, but also something more than money; personal service, sacrifice of time and thought.—Sir Leslie Stephen.

E. A. HUGHES & COMPANY

Resolutions.

Death has again visited a home of our Ladies Aid.

This time the Angel claimed the mother of our president.

Mrs. Cobb was loved by each member as she had met with us socially, quite often, had helped us in many of our undertakings and we are each grieved to lose her.

But is she lost? Will not her life, her advice and her counsel be with us still?

We deeply sympathize with the bereaved daughter who for months has been our president and leader. Also with the grand daughter, Robbie Rhea, who is also a member of our Aid.

Therefore be it Resolved:

1st.—That we counsel them to bow with submission to the will of Him who doeth all things well.

2nd.—That we, the Ladies Aid of Dexter, extend to them our deep sympathy and commend them to the God of all grace and comfort.

3rd.—That a copy of these resolutions be spread upon the minutes, a copy be sent to the daughter and a copy be sent to the Ledger for publication.

Mrs. D. D. Mizell, Mr. J. W. Stagner, Mrs. B. H. Mizell, Mrs. H. C. Copeland, Mrs. M. C. Mizell, Mrs. Eugene Tarry—Committee.

Whereas, the all-wise and all-loving God has, in his infinite

goodness, seen fit to send His death Angel in the home of our sisters, Mrs. D. D. Mizell and Mrs. Eunice Jeffrey, and take their dear son and brother, Charles; we, the members of the Ladies Aid Society, of Dexter, are Resolved:

1st.—To extend to them in this great bereavement our most heartfelt sympathy.

2nd.—To point to them One Divine Healer of all our griefs, the only one who can give them comfort in this sad hour.

3rd.—That a copy of these resolutions be given to the secretary to be read at our next regular meeting, a copy sent to the mother and a copy sent to the Ledger for publication.

Mrs. O. B. Shoemaker, Mrs. R. C. Robinson, Mrs. M. C. Mizell, Mrs. John Andrus, Miss Mildred Clayton, Mrs. Eugene Tarry—Committee.

New Concrete Plant.

When you need building material, well tile, burial vaults, etc., call the new concrete plant at Murray. W. M. West, Cumberland phone 62; W. H. Purdom, Independent phone 100. Come let us show you. We have the machine for making fence post, and you can fasten your wire to them of any kind.

W. M. West, Mgr.

Bud Jones, of Harris Grove left for the Louisville market Sunday.

SEE
John D. Hamilton, Mgr.
Office: Ledger Building.

Almo, Ky.

As I have not wrote to the Ledger in some time I will try my hand:

Health is very good with but few exceptions.

No deaths or marriages to report just now.

Otis Rowland has a big girl at his house and Tom Robertson is also called "dad" by a girl at his house.

The Almo Land went to Benton last Saturday.

J. M. Ames has his big new house done and moved in last week.

J. A. Belcher has his dwelling almost ready to move in.

Well, Almo people should be real proud of its croquet game, and especially of the invitation which News Boy gave to both saint and sinner last week to attend so the interest will hold good. I would like to ask News Boy a few questions if our editor will grant me space, which I am sure he will, as I will promise to only say things for the good of my country people. News Boy, what makes you disgrace Christ's name by saying His followers followed Him to a croquet game on Sunday? Do you think the spirit of the lowly Nazarene will lead his people to a croquet yard, ball game or any other kind of evil on the Sabbath Day? Where is the chapter and verse where He says: "Is God's word false or is man false by saying he is a christian and doing as you invite them to do?" See Romans 8:14 and see if it says as many as go to croquet games, ball games and such character of places are the Sons of God. Does partaking of such evils and all evils common today, denote that we are bearing the fruits of the Spirit? Gal. 5:22?

I could ask many more questions but I do not want to consume too much space this time, for I may want to say more later. But I think News Boy will have to explain what kind of christians he was talking about although I hope better things of him than to think he really attends these games for I feel sure he was only saying this by way of reproach to individuals and not to christianity.

Malda McFod.

If your child is pale and sickly picks at the nose, starts in the sleep and grinds his teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in White's Cream Vermifuge. It not only clears out the worms, but it restores health and cheerfulness. Price 25c per bottle. Sold by Dale & Stubblefield.

Nervous?
Thin? Pale?

Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out.

If you think constipation is of trifling consequence, just ask your doctor. He will advise you of the harm in short order. "Correct it at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable.

Made by Dr. J. C. Ayer & Co., Lowell, Mass.

Watkin's Remedies.

To the Citizens of Calloway county: By request of my people I am going to sell you for cash at a price that will pay you to buy. Watkin's Lintment 85c per bottle or 3 for \$2.25, all dollar bottles at same price. Strictly cash. No goods on time. Have your cash at hand. I am on my way to see you. I wish to sell my house and lot and territory, horse and wagon at a reasonable price. Call on me on Depot street for prices, all goods cheaper. I hope this will please all.

J. W. Boswell, Murray, Ky.
Call at my house and get your
