POLITICS! POLITICS!

CROP EAST OF RIVER SHORT OF LAST YEAR

COTTON IN WEST FRUITED ABOUT LIKE CROP OF 1911.

INSECT DAMAGE IS SMALL

Danger From Frost of Average Date Is Comparatively Small Except in Oklahoma, Northern Texas and Tennessee.

West of the river, owing to good seasons, with few drawbacks, the crop has gone on in good shape for nearly the entire season. In this section the plant is well advanced and much picking has already been done. Taken as a whole, the crop on that side of the stream is from 60 to 75 per cent. opened, although in Oklahoma there is probably more late cotton than in any other state. Much of this is in danger of frost. In the west the plant is heavily fruited—most correspondents estimate as heavily as last year.

In the east only a small portion of the crop is opened, although it is estimated that a very small portion is in danger of frost of average date, except in Tennessee, where the plant is still vigorous. The plant over the entire section is late, but has not fruited heavily—estimates place it from 30 to 75 per cent. of last year, and as there is little promise of top crop it is believed that picking, when once well started, will not last for long.

The insect damage to the crop has been small when compared with other years. Considerable boll-weevil have appeared in Mississippi and Louisiana, but a fairly good crop was made before their appearance. Elsewhere the damage from insects has been negligible.

Correspondents size up the crop about like this:

Carolina—Crop much below last year. Little in danger from frost.

Georgia—Crop very short—from 30 to 65 per cent. of last year. Almost no danger of frost.

Alabama—Estimates average fruitage at about two-thirds of last year.

Tennessee—Some sections expect good crop, others poor, but nearly all below last year.

Arkansas—Much diversity of opinion but generally below last year.

Oklahoma—Most estimates for best yield in history of state, with late frost.

Texas—Average about the same as last year.

Louisiana—Fruited about like last year, but more of it may escape boll weevil.

Women Handed Roughly.

London.—Suffragettes, who today attempted to break up a meeting at St. James' Palace, were given short work.

The chancellor hardly had opened his mouth before the familiar cry of "Votes for women" was heard. The speaker, however, and the crowd, broke its tone of cheering for a moment, some of them talking to the ground and being trampled on.

Father May Kill Defending Daughter.

Oklahoma City, Okla., Presiding Justice Henry M. Farnham of the criminal court of appeals held that a parent who shoots in defense of his daughter is not a criminal and reversed the five-year sentence imposed upon C. M. Littlefield, who killed Rob Collins. Littlefield's 16-year-old daughter accompanied Collins to a lake and while the two struggled the father, while the two struggled the father, killed him.

Socialist Kills Republican.

Holdenville, Okla.—Bert Schumpacher, a Socialist, hung himself in jail, fearing mob violence, leaving a long letter saying he died happy in the knowledge of having killed his political enemy, Jay Swisher, a Republican, by stabbing the latter three times. During a debate between the Socialists and Republicans Schumpacher's brother and Swisher engaged in a fight over the speaker, when Swisher's knife slipped and struck his knee and inflicted the fatal wounds.

Temperature Takes Drop.

Amarillo, Tex.—This section of the Texas Panhandle is in the grip of what promises to be the coldest September ever recorded. Following pleasant weather the temperature dropped to 48 degrees.

Frost in Panhandle.

New Orleans, La.—A light frost fell last night in the Texas Panhandle and the western and extreme northern portions of Oklahoma is reported in a special bulletin issued by the best weather bureau.

CAMPA SURRENDERS TO UNITED STATES

WERE CHASED ACROSS THE LINE NEAR TUCSON.

HE ADMITS HIS IDENTITY

Taken Without Resistance—Tired of Fighting, He Says—Men Have Been Raising North Sonora Mining Camps Sufferers.

Tucson, Ariz.—After a chase through Northern Sonora by Mexican federal troops, after his raid on mining camps and lines of the Southern Pacific railroad, then Emilio P. Campa, the rebel leader, and his staff crossed the American line south of Tucson and now are prisoners of the United States. After positive identification by Dr. Ruffo, a friend, Campa was captured by United States Marshal C. A. Overlock, Sheriff Nelson and a deputy, without resistance. He had sent two men into Tucson to procure automobiles, but they were arrested and, after questioning, told of the location of the remainder of their party of ten.

The rebel leader declared he was surprised by the opposition he met at the hands of the federals under Gen. Gomez, who gave him a seven-hour battle at Altar. Hard pushed by the pursuing federals, he decided to seek safety in the United States, with the faint hope that he might be able to get ammunition at Casas Grandes or Gila Bend, west of Tucson.

Stories that Campa got out with \$200,000 as the result of his campaign of loot through Northern Sonora are denied by the United States authorities, who assert that the rebel chief had but \$200 when arrested. His companions' had about \$200 each.

ROBBERS RETURN \$55,000

Was Found at "Back Door" of Pensacola Bank.

Pensacola, Fla.—As a result of the mysterious return to the First National Bank of \$55,000 stolen while being delivered to the Louisville and Nashville pay car at Flomont, Ala., several days ago, a conference was held between officials of the bank and private detectives and special agents investigating the robbery.

The package containing the money was in the original wrapping as made up by the bank employees, it is said, and was enclosed in a newspaper. It was found lying against the grating of the back door of the bank by the night janitor.

This indicates, according to the officials, that some one with previous knowledge had prepared in advance the dummy package containing magazine papers, which was found in the place of the money when the shipment was opened in the Louisville and Nashville pay car.

DECIDE AGAINST K. OF P.

New York Court Holds Assessment Can Not Be Increased.

Utica, N. Y.—In a decision rendered in federal court here Judge Fay holds that the supreme lodge, Knights of Pythias, has no right to increase the assessment of an insured member.

Arthur V. H. Smith refused to pay the increase asked in the assessment for insurance. He had a policy bearing date of October 26, 1909, for \$5,000 and called for a monthly assessment of \$1. In 1902 he was directed to pay \$1.50 and did so. Last January his assessment was raised to \$1.75, and his brother of the original amount was refused on order from the supreme lodge.

He took the matter into the state supreme court and the supreme court, in 1902, held that the policy was voidable at the option of the state court. Judge Fay decided the supreme lodge must accept the original premium.

Wife Murderer Electrocutd

Boston, Mass.—Hester, a felon, sentenced to death for the murder four years ago, at Somerville, of his wife, Honorah, whose body he cut up and packed in a trunk, was executed in the electric chair at the Charlestown state prison.

Frighten Court

Chicago.—Judge Fay, sitting, known as "the educated burglar," was charged with having stolen \$250,000 worth of valuables from Chicago homes, was arrested for trial, but when he confronted the judge he threw a copy of the state constitution at the judge's feet and showed his teeth so menacingly that spectators fled from the court room.

Beef Is Up 3 Cents

New York.—The law of supply and demand again came to the aid of meat dealers and enabled them to boost the price of beef 3 cents over the figures of last Monday. Porterhouse is selling at 35 cents. Sirloin has leaped from 26 and 28 cents to 28 and 30 cents, and the prices of other cuts have gone up in proportion. Pork is selling at 27 cents, 2 cents higher than last week. Reports from the most distributing centers of the United States showed that more meat is being consumed in the United States than ever before.

Schoolboys Riot

New York.—Police reserves were called out to quell a riot of 1,500 public school boys, who revolted against the transfer of their principals. They smashed windows, routed the janitors with showers of vegetables and terrorized the neighborhood.

Year's Crop Bumper

Washington.—Crops generally throughout the world this year are bumper crops, as shown by figures in a calendar received by the department of agriculture from the International Institute of Agriculture at Rome.

AMERICANS SLAIN IN COLD BLOOD

FEDERAL COMMANDER IN NICARAGUA HACKED TO PIECES

UNCLE SAM IS SUPPORTED

Central American Diplomats Say This Country Has Not Been Too Strong in Fighting Zelayism—Peace Will Be Forced.

Washington.—Nicaraguan dispatches to the state department indicate that the American first named as Phillips, who was murdered by the rebels with another American named David at the battle of Leon, on August 19, really was an American named Craven, although no more is known of him.

It is developed that Craven, badly wounded, was carried by Dold to a hut, where the rebels fell upon them. Neither was armed and they were murdered in cold blood. Gen. Zelaya, in command of the federals, was hacked to pieces with a machete by women.

Central American diplomats expressed the general opinion that the United States insists its note on the Nicaraguan situation and the Central American states from the revolution had not been any too strong in its demands that peace be restored and Zelayism be prevented from returning.

There was no difference among the diplomats as to the general desire among the governments of Central America to keep anything like Zelayism from gaining power.

AMERICANS EXTRAVAGANT

Billions Spent for Liquor, Automobiles, Jewels, Etc.

Washington.—Startling figures relative to the way American spend their surplus capital are embodied in the state reports given publicity at the first session of the international congress of Hygiene and Demography. The white slave traffic draws annually from the spending money of American motorists the staggering sum of \$3,000,000,000. By far the largest item in the list of expenditures over and above the simpler necessities of life is this tax on the pocketbook of the sons of America. It exceeds either the expense of alcohol or tobacco and is but a fraction less than the combined costs of these two extravaganzas.

The tabular list of American expenditures is as follows:

White slavery	\$3,000,000,000
Intoxicating liquors	2,000,000,000
Tobacco	1,500,000,000
Jewelry and plate	200,000,000
Automobiles	300,000,000
Church work at home	250,000,000
Confederate papers	200,000,000
Soft drinks	1,200,000,000
Tea and coffee	1,000,000,000
Milk	500,000,000
Patent medicines	500,000,000
Cheating gamblers	1,000,000
Foreign missions	12,000,000

CUBA IS NEARING CRISIS

Last Dollar of the \$16,500,000 Speyer Loan Spent.

Havana.—It is felt generally here that Cuba is approaching a crisis in its history as a republic.

The treasury is empty; the last dollar of the \$16,500,000 Speyer loan has been spent while the people are suffering Havana, the principal purpose for which the plan was authorized by the United States, is not only not half finished, but in danger of interruption, if not of abandonment; that the government is at its wits' end to find money to meet its vast expenditures, while receipts from customs and the lottery have reached their lowest point—all this is asserted by the enemies of the government, and most of it frankly admitted by all. Everywhere it is asked how long can this state of affairs continue?

Last month the government defaulted, for the first time, on the account due to the sewerage and paving contractors for work done in July, amounting to about \$120,000.

Mexicans Ask Diet to Return

Mexico City.—A secret petition, asking that Gen. Porfirio Diaz return, take over the command of the combined federal and rebel armies and settle the presidency of Mexico, is being circulated here. The sponsors of the petition, who have secured the former president's assurance that he will come back at the peop's demand if all, are keeping under cover, but it is known that similar petitions are being presented to the people in other parts of the republic.

Three Aviators Killed

Freiburg, Saxony.—Two German military officers were killed while flying near here. This makes the third double fatality in Europe within the present month in which members of army flying corps were the victims.

Removed by Forceps

New York.—Slender forelegs were used successfully at the Lutheran hospital in removing a pearl bracelet which 18-year-old Olga Martin swallowed two years ago. It had gone down her windpipe and lodged in her lungs.

\$10,000 Damage Suit

Chicago.—Suit for \$10,000 damages was filed in the circuit court under the anti-trust act in behalf of Theodore and Sobert Shanklin, five and seven years old, respectively, whose mother, Mrs. Bessie Shanklin, was shot and killed at their home by her husband, Benjamin Shanklin, while he was under the influence of liquor, and who then committed suicide. The defendants are John E. Fitzgerald, a saloon keeper, and Victoria Kovacs, owner of the property on which the saloon is situated.

HELPFUL HINTS.

Core apples without peeling, slice in rather thick slices and fry in hot fat, turning carefully to keep the shape unbroken. Season with a sprinkling of salt and sugar and place around the platter of pork chops.

Another pretty and appetizing accompaniment to pork chops or roasts are potato nests, buttered and browned in the oven and filled with small creamed onions.

Serve breakfast for a change, well buttered and sprinkled generously with parsley.

Try a peanut stuffing in your roast duck. Take three-fourths of a cup of cracker crumbs, half a cup of peanuts and half a cup of thick cream. Two tablespoons of melted butter, salt, cayenne and onion juice to taste.

Pear Honey.—Grate four medium-sized pears, add a pint of water and two pounds of sugar. Boil until the mixture drops from the spoon like honey. Pour into glasses and seal. This is delicious on griddle cakes or makes a fine filling to add to boiled frosting and use on cake.

Lemon and salt makes a fine cleaner for brass and copper.

A mixture of chloride of lime and baking soda rubbed into the stains made by hard water on the enamel in the bathroom will remove obstinate stains.

A stick with a swab should be used as it is too strong a substance to put the hands in.

Use brass tacks to fasten the sheet on the ironing board, as they are more easily removed.

A pretty and rather unusual salad is this: Sliced oranges with a spoonful of sour cream, sweetened with a little sugar on each slice. A half cup of sour cream to two tablespoons of sugar.

SOUR CREAM DISHES.

An unusual, but very delicious, way of serving codfish gravy is to use sour cream for the white sauce. The flavor is most appetizing if the cream is not too sour.

A half cup of sour cream and a cup of brown sugar cooked together until thick is a dainty filling for a cake. Nuts make it still finer.

Old-Fashioned Sugar Cookies.—One cup of sour cream, a cup of butter, two cups of sugar, a teaspoonful of soda, nutmeg, three eggs well-beaten and flour to roll.

Horseradish Sauce.—To a half cup of sour cream add a half cup of grated horseradish. Add salt and sugar to taste.

Seed onions, when too small to eat, are a dainty morsel cut up fine, tops and all, and served with sour cream, a little vinegar, salt and pepper.

Sour Cream Pie.—For the filling use the yolks of four well-beaten eggs, a cup of sour cream, a cup of sugar and half a cup of raisins. Flavor with a dusting of cloves. Use the whites for a meringue, adding a few tablespoons of powdered sugar.

Kidney Beans with Sour Cream.—Soak the beans over night and cook as usual. Then add the cream to moisten thoroughly, and simmer for an hour.

Buttermilk and thick sour milk is recommended for stomach trouble, and if the cure is persistently followed health will be restored, as has been proved in many cases.

Brown Nut Bread.—Two cups of buttermilk, two cups of graham flour, one cup of white flour, a half cup of molasses, a tablespoonful of vinegar, a teaspoonful of soda, half a teaspoonful of salt, one cup of raisins and a handful of walnut meats.

SELECTING SEED CORN

Preservation of Good Ears Increases Productiveness.

Instances in Southern States Where Imported Seed Produces Better Than Home-Grown Variety During Dry Summers.

(By C. P. MARTLEY.)

Great progress has been made in recent years in a more general adoption of fall selection instead of spring selection of seed corn, but there is room for still greater progress.

Nearly all farmers should select their seed corn three to four weeks earlier than they do.

As an excuse for not having good seed it is customary to state that the season was exceptional. Such seasons will continue to occur, and the only way to escape loss is by being prepared each year for an exceptional year. Last year was a very adverse season in some of the corn states; consequently this past spring it was necessary to import seed corn into these sections. Nevertheless, well-acclimated and unquestionably higher yielding seed could have been selected last September from fields in those

same states. This statement is made with full knowledge of the facts, because at that time such seed was selected and dried in those sections that was practically perfect and germinated 100 per cent.

Having personally assisted in the gathering and drying of seed corn in those sections in September, the writer knows that quantities of seed could have been saved at that time from the same and many other fields. Unfortunately, however, most farmers postponed the selection until freezing weather, with the consequence that the seed will not yield well and most of it did not germinate well. It is not the season so much as the man.

There are usually a few days between the time the corn stops growing and the coming of frosts, especially if an acclimated corn is grown. We would have better corn yields and make better progress in originating and acclimating higher yielding strains of corn for different localities if seed corn were as readily killed by frosts as are sweet potatoes. If seed corn would not stand so much abuse and if it were killed outright by the first frost farmers would dry their seed corn before they dig their potatoes, and the next year's crop would be better.

No animal recovers so slowly from low condition, nor is so apt to recover at all, as sheep.

When you get a good team let the other fellow whistle, but don't put a price on it, and so invite its early sale.

Cowpox is a disease of the cow and the entire crop pastured down by hogs gives one of the very best returns that can be secured from the land.

To make the flock most profitable, or at all profitable, no source of disease must be neglected, whether it be mutton, fleece or increase.

Each pig should be looked after individually; a general look will not do. It is just like a big family, each has his or her individual care.

Any egg eaters in the flock? Make the nests as dark as possible, that will help. If that doesn't discourage the culprit, shorten up the ax.

Sheep are utilizers of waste. They clean fields of weeds, utilize to great advantage any kind of pasture and fit in well with farm practice.

A white lot of success with pigs comes from the owner's and feeder's watchfulness. Changes must be made from time to time, in food and surroundings.

PRETTY AUTO BONNETS HAS PROPER DRESSY EFFECT

NOW RECOGNIZED AS PART OF FEMININE EQUIPMENT.

New Models Shown Are in No Way Inferior to Those of Previous Seasons—Good Examples of the Best Displayed.

The auto bonnet has made a new record of success during the past summer. It has come to be recognized as the proper thing and the essential thing for the autoist, and it has become a bewitchingly pretty affair.

A great number of pretty new models are shown for fall, most of them made of taffeta over rice net foundations, and all of them finished with a veil which is a part of the design.

A good example is shown here. It is of light tobacco brown taffeta trimmed with lace and lace covered buttons. The crown is soft and plaited into a band about the face. The edge is a frill of plaited taffeta and the veil is arranged to be thrown over the face if needed. This model is becoming to almost every one and is made in all the staple colors.

Another model is not so soft for it is made with a round stiff crown. But the brim is made over ribbon and is therefore not rigid. Black taffeta laid in fine plait covers the brim, and light blue taffeta is stretched over the crown. A large, square, chiffon veil in light blue is finished with a border of black taffeta ribbon. The veil is laid over the hat, falling on all sides. A narrow lavallière of taffeta ribbon is laid over the veil at the base of the crown, and sewed to place here. This confines the veil, which may be thrown back at will.

This bonnet is made in many color combinations, as pink and black, light

green and black, white and black, and is very pretty in white and taupe and in solid colors.

JULIA BOTTOMLEY.

Done in Colors.

In the dainty hand-embroidered men Dutch collars the scalloped edges are in many cases worked in colors. A collar of white pique decorated with dots worked in white floss has a brown edge, while another pretty collar in fine white linen is worked in dark blue. These form a pretty finish at the neck line of the tailored blouse, and as they match the skirt drapes of the coat when the coat is taken off a pretty little color scheme is revealed.

TEND TO DIRECTOIRE MODEL.

Suits and Gowns Are All Showing the Leaning to This Decidely Pretty Effect.

Carrying out predictions of a few months ago, fashion designers are emphasizing with decided success the directoire model in suits and gowns. There is a jauntyness about the cut, the lines and trimmings that gives just the charm, the "chic" Parisians say, to a costume. The equalization of materials is most easily carried out, because of the cuffs, the daws and collar with the vest and patch pockets which characterize this style. Buttons play an important part, and the broad sash and sash give opportunity for a color note that will contribute individuality and character to a gown or suit.

Generally, the coat has a turned-back collar of satin or cloth. It can be quite flat or it can stand in a high stock effect tied up with black ribbon or velvet, the knot or bow at the side.

Straight lines of buttons are used, great emphasis being placed on round forms of brilliant bone or brass buttons, or on ornamental styles of enamel and tortoise shell.

The favorite directoire dress and suit have-vest effects. This important part of the costume is shown in velvet, cloth, embroidered satin or figured cretonne. It is buttoned under buttons and can be fashioned of straight pleats or crossed, pointed. The whole length of the vest can be shown if the jacket is the cutaway type. If it is crossed and fastened the vest is seen below the waist line.

There are patch pockets at the hips

of many directoire coats. Sleeves are usually long, with ruffles of lace at the lower edge or running up the outer seam. Turned-back cuffs are also in vogue.

The skirt of the directoire gown shows increased fullness obtained by either panniers, draperies or pleats laid flat and pressed so that the silhouette is not daringly modified.

Directoire styles will insure a beauty in dress that will be unusually general this fall and winter. The grace, the variety and the opportunity for using short lengths and too good to be forgotten in the interesting song of the styles. Let the interesting chapter of French history be opened again when you plan your new clothes.

Fashion's Fancies

Persian embroideries, with brocade and a good deal of silver, will be used in evening models.

Fashion favors small ribbon ruffles and bows of pleated ribbons for millinery purposes.

At the seaside a refer of tulle, or loosely cut ivory tulle is desirable to throw on over light dresses.

White dresses for afternoon and evening are charming with bright green, red and amber trimmings.

The new M-diel collars, with extended ruffs in the back, are likely to be warmly welcomed this fall.

In the finer gowns two-toned, mirror velvet appears, usually a black stripe on blue, green, gold, purple or red.
