# THE MURRAY LEDGER.

VOL. 14, NO. 18

MURRAY, KENTUCKY, THURSDAY, OCTOBER 8, 1912.

\$1.00 PER YEAR

## THIRTY DAYS

Board of Directors of Tobacco Association Extends Time for Pledging Crop.

The fate of the association still hangs in the balance, and if the growers of tobacco expect to continue the organization an herculean effort must be put forth within the next thirty days and a considerable larger percentage of the 1912 crop must be pledged. That this might be accomplished the board of directors in the annual meeting last week declared that the books should remain open for thirty days longer in order that every tobacco producer might have an opportunity to pledge his crop. It has been understood all along that unless a majority of the 1912 acreage was pledged that the dissolution of the organization would be declared, and this will be the result unless more tobacco is pledged than was reported at the Clarksville meeting.

The books are open throughout the black patch and an earnest endeavor will be made to get the required acreage to maintain the association. The county secretary of Calloway has a total of 6,142 acres reported up to this time with a large number of pledges yet not reported. This is a splendid showing, but still small compared with what the county should do under the circumstances. It behooves every man in the county to consider himself a committee of one to solicit further pledges. The more Calloway pledges the less other counties will be compelled to pledge to maintain the organization. The tobacco growers whether they ever pledged a crop to the association or not are compelled to admit that it has maintained a splendid price for tobacco since its beginning and that its dissolution would mean ruin to hundreds of men. A depreciation in the money crop of Calloway means depreciation of lands, it means foreclosure of mortgages to liquidate indebtedness contracted for high priced lands, it means loss and ruin to the small land owner, the renter and cropper.

It is squarely up to the people, it is a question for your solution. What will you do with it?

### Farm School.

Oct. 7, 8, 9 and 10, at court house or other suitable place in Murray, under supervision of Ky. State Experiment Station Directed by Prof. T. R. Bryant, assisted by the following lecturers and instructors: Prof. Geo. Roberts, A. J. Reed, H. B. Hendrick, J. H. Carmody, upon the following and other important subjects:

Restoring lost fertility to soil.

Intelligent use of commercial fertilizers.

The timing of soils. Proper selection of seed corn. Clover and alfalfa production. Several good crop rotation. Economical feeding of stock. Dairying.

Apple, strawberry and grape culture.

Program to begin each morning at nine o'clock sharp.

Prof. Reed, Hendrick and Carmody each day of the Fair explain the Experiment Station exhibits, and will take pleasure in answering any questions which may be asked, besides having important lectures of

information to distribute. In order that the farmers might use the Fair week entirely for the study of exhibits it has been strongly requested that all farm lectures be postponed and given at the farm school.

All interested in better farming and better farm crops are urged to attend all sessions of the farm school.

Signed,  
T. R. Bryant, Supt.  
L. Y. Woodruff.

**It Looks Like a Crime**  
to separate a boy from a box of Bucklen's Arnica Salve. His pimples, boils, scratches, knicks, sprains and bruises demand it, and its quick relief for burns, scalds, or cuts is his right. Keep it handy for boys, also girls. Heals everything healable and does it quick. Unequaled for piles. Only 25c at Dale & Stubblefield.

### Election Notice.

Pursuant to orders which issued from the County Court of Calloway county, and which are now in my possession, requiring me to open a poll in all of the magisterial districts of the county, to-wit: Murray, Hazel, Almo, Brinkley, Swamp, Concord and Liberty districts, respectively, on November 5th, 1912, for the purpose of ascertaining the will of the voters of each of the magisterial districts in Calloway county upon the question "whether they want any species of stock to run at large" in any of the magisterial districts named above, in this county, I will open a poll at all the voting places in this county on the 5th day of November, in the magisterial districts above named, for the purpose as stated above and as set out in the orders of the court.

Given under my hand this Sept. 30th, 1912.

C. L. Jordan,

Sheriff Calloway County.

If the child starts in its sleep, grinds its teeth while sleeping, picks at the nose, has a bad breath, fickle appetite, pale complexion, and dark rings under the eyes, it has worms; and as long as they remain in the intestines, that child will be sickly. White's Cream Farming clears out the worms, strengthens the stomach and bowels and puts the little one on the road to health and cheerfulness. Price 50c per bottle. Sold by Dale & Stubblefield.

### A Rare Real Estate Bargain.

No. 197. One of the best small farms in the county, only two miles northwest of Murray in good locality, every acre level, good 4-room house, good barn, good stables and fences, 51 acres about 40 in cultivation, young orchard and good water. This place will only be on the market for a short while and is offered at a real bargain at \$1,850. See the Murray Land Company at once about it. Office in the Ledger building.

### Removal Notice.

The West Ky. Real Estate Exchange has moved just across the street to the Citizen Bank Building, ground floor, first door west of bank.

Finney & Downs, Managers.

All who have torrid fever, weak digestion or constipated bowels look out for chills. The reason is here and the air is full of the disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. Herbine is the right remedy, it answers the purpose completely. Price 50c per bottle. Sold by Dale & Stubblefield.

## A CERTAINTY

Permanent Survey of Interurban Being Made and Indications Point to Letting of Contracts Soon.

Mayfield, Ky., Sept. 30.—Over sixty thousand dollars of stock have been subscribed on the line the interurban between Paducah and Murray.

This money is to be paid in thirty days after the road has been built and cars running between Paducah and Murray.

The people are now becoming more enthused than ever, and upon this condition, the city of Mayfield will do her duty.

The company will only ask the city and people to subscribe a certain amount of stock, without donating a cent otherwise. In less than sixty days, probably, contracts will be let from one end of the line to the other.

The surveying party is now on its return trip from Murray to Mayfield. This party will be followed by Major Cathoun and others, who will make up the estimates and general profile of the road. This road will come from Murray, to Lynn Grove, probably Brown's Grove, Sedalia and to Mayfield. Of course the line is already settled from here to Paducah, via Fancy Farm.

Since the people of Mayfield are becoming more interested and are subscribing stock, the road will probably come up west Broadway to the "Norman corner" and go out south Sixth street in a more direct route from here to Sedalia, than that part of the road which has already been surveyed. The big land and property owners from Mayfield to Murray, are very much in favor of the road, and will give the right of way through their lands without any hesitation, in fact they are anxious for the road. All such good responsible citizens as Tom George, Vic Allen, Will Brand, J. L. Stunston and R. O. Wilford and others along the line, will do all in their power towards building the road.

The surveyors of the interurban railway, completed their first survey from Mayfield to Murray last Saturday. In a few days they will make another survey which will be complete and final and those who are in a position to know, say that within sixty days, the contracts for the building of the road from Paducah via Fancy Farm, to Mayfield and on to Murray, will be let, and before the coming spring, dirt will begin to fly and business to pick up along this line. The Courier would be glad to see this road come into Hickman next year, and with a little effort on our part we can get it. Hickman Courier.

### Almost a Miracle.

One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family have used this wonderful remedy for coughs and colds with excellent results." It's quick, safe, reliable and guaranteed. Price 50c and \$1.00. Trial Bottle free at Dale & Stubblefield.

\$1 for Ledger—a big bargain.

## FIRST DAY

Calloway County Fair Opens Under Most Favorable Circumstances Within Its History.

Today, Wednesday, Oct. 2nd, is the first day of the third annual meet of the Calloway county fair and a larger attendance is corded to-day than ever before within the history of the fair association. Nothing has been left undone that could have been done by the management of the association to make this the best fair within the history of the organization, and as evidence of the success of the undertaking the largest crowd within the history of the association is here to attend the third annual opening.

The Calloway county fair has been the greatest factor within the history of the county in its material advancement, it has caused more farmers to adopt advanced ideas in agricultural pursuits than any other institution within the history of the county, in fact and in fine it has been the nucleus around which has been built the advanced prosperity of the county.

We are all happy today and it is to be hoped that every citizen within the borders of the county will attend this meeting and enjoy every hour of every day.

### A Few Questions for H. B. Taylor.

Dear Brother: While at Hazel, Ky., in a meeting with the Green Plains congregation, "Campbellite questions and Baptist answers" was handed me. It seems you have picked up twenty questions written by some one whom you designate a "Campbellite," and you attempt at answering some of those questions has caused me to pen you the following lines through the Murray Ledger:

I do not care to, nor intend to take up all the questions, but there are some things in your answers to some of the questions that demand more light or fuller explanation from you.

Your first question, "Why are you a Baptist?" Your answer is: "Because Jesus Christ and all his apostles were Baptists." You give for your reason they were all baptized by the first Baptist preacher. If it takes that to make a Baptist, will you please tell me why John was one and then harmonize your statement on the last page of your leaflet with the above: "We do not really baptize into the church. The act that puts him into the church is the vote, but that vote says that he shall be entitled to the privileges of membership when baptized." Then does the vote of the church make a Baptist, or does baptizing a man make him a Baptist, or does a man baptizing another make him a Baptist? If the vote makes the Baptist or if the baptism makes the Baptist, John was not a Baptist, for he had neither, but if baptizing makes the baptizer a Baptist, then John was a Baptist. If the vote makes a Baptist who made Christ a Baptist, as there was no votes of the church in the case of his baptism?

In question 12, you state that it requires more than the gospel to make a Baptist. You say: "Sure it takes New Testament baptism to make a Baptist, and that baptism is not part of the gospel," then as it takes New Testament baptism to make a Baptist, you really don't baptize into the church, but vote them in on condition that they

are baptized. Is your vote any part of the gospel? Is your baptism any part of the gospel? If either your vote or baptism is any part of the gospel, and Paul preached nothing but the gospel, then is it not a fact that your church is not a gospel church, as you have been told many times? And Paul did not preach to us about your church.

If Christ was a Baptist, will you please name the first time he was called a Baptist? Can you find the denominational name Baptist, in history before the year 1600? If so cite us.

You say that they are not called Baptists in New Testament for reason there was but one church; then should there be but one church upon earth today, and that the true church of the New Testament, would the members of that church be called Baptists, and the church a Baptist church, as in New Testament times the church was called the church of God at Corinth, 1 Cor. 1:2. The churches of Christ, Rom. 16:16 and disciples were to glorify God in the name Christian, 1 Pet. 4:16. Then as no child of God wore the name in the days of the apostles, can a child act as did the disciples then, without addition or subtraction and wear the name you wear?

Is it not a fact that were the phrase in the original tongue from which we get "John the Baptist" in King James Version, translated, you would have "John the Immerser," and is it not a fact that the Baptists in translating the Bible Union gave us "John the Immerser" instead of "John the Baptist"?

Why did they put immerse everywhere else except in connection with the name of "John the Baptist," in the later translation? Do you not know that if the phrase was translated instead of anglosized, the name Baptist would not be a single translation on earth? You claim that you invite people to join the church for the same reason that Paul attempted to join the church in Jerusalem. Was he not a church member at that time? You say you called the church together to hear the people relate their experience, and then take a vote whether they are subjects of baptism, because it was practiced in the Bible. Show me where any man demanding baptism, confessed that God for Christ's sake had pardoned his sins, and on said confession demanded baptism. Now don't talk about what others do, give me proof direct from the word of God.

You say that Mr. Campbell and Mr. Harding admit that Baptists were the successors of the apostles. Well, I care but little what man admits. I would like to know whether A. Campbell admitted that baptism is Christianity, and whether J. A. Harding admits that Baptists as Baptists were the successors of the apostles, and that the kingdom was with them because they were Baptists or because of their Christianity in spite of their Baptist.

If as you say, the name Baptist came from Heaven, why was it God called on a Baptist but John? Grant you sir, it was from Heaven, but not as the distinctive name of a denomination or religious people. If you think so, proof, please.

In your answers, you say that the commission translated into everyday English means, "Go make Christians by preaching Christ" and make Baptists out of those Christians by giving New Testament baptism and then make these baptized Chris-

(Continued on Page Eight)

## SENSATION

Rev. Sam B. Rudolph, Presbyterian Preacher, Made Defendant in Suit for \$10,000.

The Rev. Sam B. Rudolph, one of the most prominent Presbyterian ministers in Western Kentucky, is the defendant in a suit filed in Marshall Circuit court by E. C. Powers, a deacon in the church at Sharpe, of which the Rev. Rudolph is the pastor. In his petition, the plaintiff prays for \$10,000 for the alleged alienation of his wife's affections by the Presbyterian minister. Both are prominent in Marshall county and the filing of the petition has created much comment in Benton, where both reside. In conjunction with the suit for \$10,000, Powers has also instituted suit against his wife, Lottie Powers, for divorce and the custody of their two children, the oldest of which is four years old.

Powers, in his petition, avers that the pastor, with whom he was reared from childhood, had wilfully made overtures of love to his wife and by intentional wiles alienated the affection of his wife, whom he married in Mayfield, April 27, 1906.

The trio who are to play a prominent part in the legal proceedings are each thirty-five years old.

Rev. Rudolph is well known in Calloway and served as pastor of the North Pleasant Grove church for several years.

### The Danger After Grip

lies often in a run-down system. Weakness, nervousness, lack of appetite; energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore the health and good spirits after an attack of Grip. If suffering, try them. Only 50c. Sold and perfect satisfaction guaranteed by Dale & Stubblefield.

### Disappointed in Pensions.

The recent ruling of the Confederate pension commissioners in Kentucky has cast a gloom over soldiers, who had expected that ere this they would have received the initial stipend. They doubtless never figured on the vast appropriations made by the last legislature, the depleted condition of the state treasury and other things that had to be considered by the state government. The trouble in Kentucky today is that she does not receive enough money to pay her obligations. She is living beyond her income and the expenses must be cut down or else arrangements must be made for an increase in the revenue, which can only be done by an increase in taxation. Which shall it be?—Bardwell News.

Mrs. Mary Miller, one of our county's oldest and most highly esteemed ladies died the last Sunday morning at her home a few miles east of the city after a long and useful life. She was the mother of Elder Holsclaw, of Texas, and her death while it came in the late afternoon of life is regretted by a host of friends and admirers. The burial took place Monday after funeral services by Rev. Henson, pastor of the church of which she was a member.

## WATERWAYS ASSOCIATION HEARD ROOSEVELT EXPRESS HIS VIEWS

Politics Dropped by Former President Long  
Enough to Tell of His Plan for Deep-  
ening the Mississippi River.

## HAS MUCH PRAISE FOR SENATOR JAMES P. CLARKE

CONVENTION COMES TO CLOSE AFTER ELECTION OF OFFICERS  
AND THE SELECTION OF PEORIA, ILLINOIS, AS THE NEXT  
MEETING PLACE—OLD FASHIONED SOUTHERN BARBECUE  
GIVEN VISITORS.

Peoria, Ill., Jan. 25.—The use of the machinery and force of experts now employed in digging the Panama canal, in the construction of a deep waterway connecting the great lakes and the Gulf of Mexico, was urged by speakers at the annual convention of the Lakes-to-the-Gulf Deep Waterways Association in this city. Col. Theodore Roosevelt, nominee of the Progressive party for president of the United States, who made a non-political speech before the convention, of this as a solution of the problem, and the same course was urged by other distinguished men who spoke. It was pointed out that the well organized and highly trained body of men now engaged on the Panama Canal work will be available within the next year or two and that they should not be allowed to scatter until this second great waterway project is completed.

Col. Roosevelt spoke at the second day's session of the convention. He abandoned politics for the day and addressed only on the subject of deep waterways. He discussed the problem of preventing the recurrence of floods in the Mississippi valley, such as that which occurred this year. "One of the main troubles," he said, "is the failure of the nation as a whole, in the inability or refusal of the champions of any one project to look the whole problem in the face. This problem cannot be handled piecemeal; there is need of action from the standpoint of the nation as a whole. In the past so much money has been spent in improving small creeks and rivers that the whole system of waterway improvement has been associated with unpleasant memories in the eyes of many people. It is to remove that stain and convince the people of the necessity of looking at the whole problem from the standpoint of the general welfare."

"That is why I so emphatically believe that this and other such problems must be handled by a commission. It will not do to leave it to the mercy of scrambling interests. If we allow it to be handled only through the initiative of congress we will find many congressmen reluctant to go into a general scheme like the Mississippi river improvement unless their local schemes are coupled with it. Others who have no creek they want drained will have a federal building they want constructed. The essential problem should be considered as a whole; the treatment of the levees of the lower Mississippi as a part of the problem, and another part the prevention of freshet water striking the Mississippi from the Ohio and Missouri rivers."

Where the Flood Begins.—The flood that devastates Mississippi and Louisiana starts in Pennsylvania, Ohio, Montana and Wyoming; therefore the problem is one which must be considered in its entirety and must be considered by the national government. Only the national government can deal in matters of this importance, and the national government will not deal with it unless you take an interest in it. I speak as one having had experience.

It is fortunate that the need for federal action has been impressed upon our people at the time when the federal authorities are able to develop the very instrument for meeting the need. We have at Panama a store of individual and collective skill which may be utilized for the purpose of treating the problem of the Mississippi as we treated the problem of Panama."

The colonel told how he had made the digging of the Panama canal possible and declared that he could not

have accomplished what he did in that respect without the support and assistance of Senator James P. Clarke of Arkansas. "If it had not been for the activity of Senator Clarke," he declared, "at best, the completion of the Panama canal would be two or three years farther off than it is, because we could not go on with the Panama canal until the treaty was ratified, and the senator exercised his influence to get the senate to give the president this treaty. The pressure brought to bear on Senator Clarke to prevent him from doing as he did would have been too much for any but the strongest and gamiest men. I am not able to speak this way of all United States senators, and therefore it is not only a pleasure, but a duty, to bear testimony now for what the senator did."

Col. Roosevelt said that he found that the nation could be relied upon to stand for any policy which I could convince him was for the good of the country as a whole. The longer I live the less regard I have for the men whose principles are good, but who lack the courage to carry them out.

"We have at Panama," Col. Roosevelt continued, "the machinery and a great body of experts, and we ought not to let them get scattered. We ought to take this machinery and utilize it as it can be utilized in this country. The great plan is to undertake the task of treating the Mississippi basin as a whole, by utilizing the waters, securing levee protection and a channel for deep water navigation, and reservoirs for storage of water power."

Col. Roosevelt was the guest of honor at an informal luncheon given by the waterways association, at which addresses were made by Governor-Elect Joe T. Robinson, Senator James P. Clarke and Col. Roosevelt. H. F. Auten of Little Rock, acted as toastmaster and Judge U. M. Rose, who was appointed by Col. Roosevelt while the latter was president, as a representative of the United States at the Hague Peace conference, occupied a seat of honor at the right of the former president. Mr. Robinson and Senator Clarke both paid tribute to the service rendered by Col. Roosevelt in securing the construction of the Panama canal.

Governor-Elect Robinson of Arkansas also spoke at the second day's session of the waterways convention. He declared himself strongly in favor of immediate governmental action in aid of a deep channel from the lakes to the gulf.

Isham Randolph of Chicago, consulting engineer for the Chicago Drainage canal, urged the importance of a 14-foot channel from the lakes to the gulf and declared that the federal government should do the work. He declared that it would cost \$90,000,000 to build levees and properly strengthen the banks of the Mississippi river. Mr. Randolph told how Chicago and the state of Illinois have completed the drainage canal at a cost of millions of dollars and declared that the canal can be extended to Cairo at a cost of \$10,000,000. He contended that the federal government should undertake the remaining portion of the work.

Another feature of the convention was an address by Lyman E. Cooley, consulting engineer for the Lakes-to-the-Gulf Deep Waterway Association. He took up in detail the program for the improvement of the Mississippi river and its tributaries and showed from an engineering standpoint how the deepening of the channel could be accomplished. His main statement was that the 14-foot channel through the valley could be provided at a less cost than the construction of the Panama canal and the benefits would

consumed the greater part of three years. After the case was thoroughly presented and commented on, the court decided in favor of the convention wing.

Apple Season Is on.

Hemlockville.—The six weeks' drought here has been broken, and several copious rains have fallen and prepared the ground for fall plowing. The cool weather following the rains has colored up the apples and the orchards are turning a beautiful red.

be infinitely greater to the people living in this great inland paradise. His general text was "What nature has made possible is the measure of man's opportunities."

H. F. Auten of Little Rock, spoke on the subject "The Arkansas River." Mr. Auten declared that the business men of Little Rock alone pay out millions of dollars annually which would be saved if the cheaper rates of water transportation were in effect. "At present," he said, "the freight is \$1.25 a ton to haul coal from the Arkansas fields to Little Rock, while up in Illinois coal is hauled the same distance for 60 cents a ton. See the difference? With a deep channel in the river the same product can be hauled to Little Rock for 15 cents per ton."

In mentioning the increasing use of cement for building purposes Mr. Auten declared Arkansas has more of the material from which cement is made than any other state. He asserted that in ten years the cement trust would make the steel trust seem like a pignus alongside it.

Among others who delivered addresses were George H. Atwell of New Orleans, executive director of the National Reclamation Association and former Congressman Edgar C. Ellis of Kansas City.

John Maynard Harlan of Chicago and former Congressman J. Adam Hede of Minnesota appeared before the convention as representatives of President Taft. "What is needed at the outset is a dream," Mr. Harlan said. "You have got to employ expert dreamers, and the dreams should be evolved by a commission. Every interest affected in general should be represented on this commission. The work is going to be done by some one. If I were a citizen of Arkansas I could not be prevented upon to turn over to the national government the entire responsibility and my share of the work."

"I would like to see some definite program arranged that this commission would suggest that a committee be appointed to memorialize congress and arrange some sort of a program. This question is not in politics; it is so big it cannot get into politics; and politics may be kept out by holding it on a broad patriotic basis for the good of the whole people."

William K. Kavanaugh of St. Louis was re-elected president of the association and most of the other officers named are as follows:

First vice president—Col. E. S. Conway, Chicago.

Second vice president—Sidney M. Neely, Memphis.

Third vice president—Crawford H. Ellis, New Orleans.

Fourth vice president—Chas. Scott, Rosedale, Miss.

Fifth vice president—Col. F. B. T. Hollenberg, Little Rock.

Treasurer—Edwin S. Monroe, Joliet, Ill.

Secretary—Thomas H. Lovelace, St. Louis.

Honorary secretary—William F. Saunders, St. Louis.

John M. Kavanaugh of Little Rock was named as a member of the board of governors and Judge Kavanaugh and H. F. Auten of Little Rock were placed upon the executive committee.

Peoria, Ill., was selected as the next meeting place. New Orleans and Mobile were seeking the next convention but the Illinois city won because of its geographical location.

The closing feature of the convention was an old fashioned Southern barbecue given by the citizens of Little Rock for the entertainment of the visitors.

Better Railway Service for Helena.

Helena.—The installation of the new motor car, which will be run on the Missouri and North Arkansas between Heber Springs and Helena will give Helena another connecting train with the Rock Island and will add much to the passenger traffic between this city and Memphis and Little Rock, the motor car making direct connection with the fast train on the Rock Island.

Rate Readjustment Refused.

Helena. Industrial Commissioner W. W. Martin, who, with a number of other local business men attended a conference with the general freight agents of the three lines entering Helena at Memphis in which a reduction of freight rates was sought, stated that their efforts had failed and that they would probably appeal to the Interstate Commerce Commission. Mr. Martin stated that a few minor reductions were offered by the agents of the roads, but nothing commensurate with the real needs of the city.

making the apples more eligible. The apple industry at this time is giving employment to hundreds of hands, and the pay rolls of the different dryers, the apple brandy distillers and the packing houses run up into the thousands of dollars each month.

If we are to raise more cherries next year, we must start right this fall, because the better condition was can get our breeding stuff in, the fewer sows will be needed to raise the number wanted.

## SYSTEM OF LEVEES GIVEN ENDORSEMENT

INTERSTATE ASSOCIATION URGES  
THEIR COMPLETION.

ASK FOR THIRTY-FIVE MILLION

Convention Adopts Constitution and By-Laws and Leaves Further Work of Organization to Executive Committee.

Memphis, Tenn.—The Interstate Levee Association, after having spent three days in discussions of various plans of flood prevention, decided to stick to levees and the accompanying reclamation work as the only proven protection for the lower valley.

The association adopted resolutions embodying that idea and strongly urging the appropriation by the next session of congress of not less than \$35,000,000, to be expended within the next five years in the completion of the levees.

The convention thus went on record as believing that the federal government should assume the burden of completing the levees between Cairo and the Gulf, while at the same time making no insistence upon the government to take over complete control of the levees.

That action was taken in spite of the fact that Colonel Theodore Roosevelt, in an address before the convention, insisted strongly upon the plan which he has enthusiastically espoused, of a general plan of river improvement, flood prevention, reforestation, reclamation and flood water storage in a system of reservoirs, with the levees as merely a local and secondary part of the plan of protection from floods.

Col. Roosevelt's ideas were directly opposed by Col. C. M. Townsend, president of the Mississippi river commission and an engineer of international reputation.

Col. Townsend took up seriously the proposition that flood control should have been presented from time to time and gave it as his professional opinion that none of them would prove effective, and that the history of levee building in many foreign countries and the results obtained along the Mississippi river are sufficient proof that the present system of levees, when completed to the required government standard, will hold the flood of the river.

Storage reservoirs, he said, would to a certain extent control the flood waters near them, but he considered it impracticable to expect that they could be constructed of sufficient size to prevent the floods in the lower river. He also argued that statistics of great floods showed that the levees were the deciding of the forests have comparatively little to do with the height of recent floods.

He said that estimates show that it would cost \$73,000,000 to construct a reservoir to hold the water that passed down the river during one single day's flow during one last spring's flood, and that such a work would build the levees necessary to absolutely protect the entire lower valley from any possibility of overflow.

O. N. Kilgough of Wynne, Ark., president of the St. Francis levee board, was re-elected president of the association at the closing session. A paid secretary will be employed and a general campaign of publicity and education is planned. An executive committee of one member from each state of the seven represented in the association, and two members at large, was elected. Seven state vice presidents and three vice presidents at large were also elected. Both lists of officers were elected by unanimous vote, on recommendation of the report of the committee on permanent organization, which was presented by Lee Richardson, the chairman.

The resolutions were also adopted without a dissenting vote, as presented by Lem Banks, chairman of that committee.

Just before the convention was closed resolutions expressing the appreciation of the convention of the efforts of the Hon. Charles Scott of Mississippi in behalf of the levee legislation and of regret that illness prevented him from attending the present meeting were adopted.

A constitution and by-laws were adopted, on recommendation of the committee on permanent organization. The executive committee is empowered to select permanent headquarters for the association which will probably be maintained in Memphis, to employ a secretary and to set the time and place for the next annual convention.

The committee will also discuss the plans to be pursued in raising funds for carrying on the work of the association, fix the cost of membership for levee boards, commercial organizations and others interested, and generally map out a campaign to be carried out during the next session of congress.

The convention was a decided success in every way, except in point of attendance. There were slightly over 700 delegates registered at the association headquarters during the meeting, but

Horse Disease Abates.

Topeka, Kan.—The horses' disease which has been prevalent in Kansas for the last two months, is subsiding rapidly, due to the vaccine treatment provided by the State Agricultural College and reventative measures put in force by the farmers at the recommendation of state and federal authorities, according to J. H. Mercer, state live stock commissioner. The disease caused the death of 25,000 horses in Kansas, and equal property loss of over two and one-half million dollars.

Teach All Boys to Shoot.

Washington.—The teaching of the young American how to shoot is to be added to the activities of the war department, and the various state militia organizations, by a plan proposed by acting Secretary of War Oliver, in a letter to the governors of the various states.

Snow in Michigan.

Hancock, Mich.—The first snow of this season in Northern Michigan fell at Winona today.

at no time did the attendance at the convention reach half that number as on any one session, except during Col. Roosevelt's address.

RESOLUTIONS ADOPTED.

Reaffirm Faith in the Efficiency of the Levee.

The resolutions, embodying the hopes of the friends of levees, as adopted by the Interstate Levee Convention, follow:

"The Interstate Levee Association, representing the tremendous interests endangered by the floods of the Mississippi river, after many years of experience and speaking with abundant knowledge, reaffirm our absolute confidence and faith in the efficacy of the levee system, as the best, surest and only protection against the recurring overflows of the lower river.

"We congratulate the residents of the valley, that after many years the people of the United States have at last reached the same conclusion, and we welcome the promise contained in the platform declarations of all the great political parties, that the floods of the Mississippi river constitute a national problem, and that the federal government will assume its just burden, and share its legislation in the future so as to prevent the disasters from these recurring floods.

"In the advancing civilization of the past half century, our fellow citizens along the upper reaches of the river and its tributaries have obeyed the biblical injunction, both to replenish and subdue the earth, and in that obedience they have cleared the forests, converted water courses, unfertilized their farms, with the result that now the waters rush down upon us, an overpowering force, which breaks the levees and pours its torrents over millions of acres of the richest land in the world. These floods are not local in their disasters, but seriously affect the welfare of the whole nation. We cannot cope with this great problem alone, and we believe that the federal government should assume that burden.

"No system of flood protection can be successful which does not contemplate the reversion of the existing backs of the river, so as to give permanence to the levee lines, when constructed. Eminent engineers, both of the United States army and in civil life, have declared that the whole length of the levee line can be enlarged to such grade and section as will effectively control the floods of the river in the future, by the expenditure of about thirty-five million dollars, and we call upon the federal government to undertake the completion of the great work within the next five years. To that end, we insist that the appropriations shall hereafter be sufficient to complete the levees within this period and in proper care for the continuation of the work of reversion."

NEW NEWSPAPER LAW.

Newspapers Must Swear to Owners and Circulation.

Washington.—Attorney General Wickham sent to Postmaster General Hitchcock a written opinion on certain phases of the new federal law requiring daily and weekly newspapers and some other publications to present to the postmaster general semi-annual sworn statements of circulation, ownership of their stocks and bonds and other information, under penalty of denial of the use of the mails.

The attorney general holds, with the postmaster general's concurrence, that it is immaterial whether subscriptions are individual or in bulk and that the provision of the law covers the number of copies of a publication distributed to certain paid subscribers by any means. Mr. Wickham does not touch upon the constitutional validity of the law which is part of the postoffice appropriation bill enacted at the last session of congress.

TELLS POLICE TO GRAFT.

Save Money for the Poor and Arrest Giver, Judge's Instructions.

Chicago.—Municipal Judge John R. Newcomer surprised his fellow judges and officials of the police department when he told policemen to accept proffered bribes from peddlers violating the city ordinances, to be used as a fund to aid the poor during the winter.

Attempts by peddlers to bribe policemen have become numerous recently. "You should have accepted the money for the aid of the poor," said Judge Newcomer to one policeman who had refused a bribe of \$5. "I don't mean, however, that you should have allowed your prisoner to go. You should have taken his money and then arrested him. In the future money received under such conditions will be given to a fund to help the destitute during the cold weather."

Hold Seven for Shooting.

Muskogee, Okla.—Four more farmers were arrested and confined in the county jail here charged with shooting three wealthy planters near Bartown, as a result of the importation of negro cotton pickers. Seven men are now held here for alleged connection with the shooting.

Teach All Boys to Shoot.

Washington.—The teaching of the young American how to shoot is to be added to the activities of the war department, and the various state militia organizations, by a plan proposed by acting Secretary of War Oliver, in a letter to the governors of the various states.

Snow in Michigan.

Hancock, Mich.—The first snow of this season in Northern Michigan fell at Winona today.

"People who are crippled in the head get less sympathy than any other cripples."

FITCH Refused in 30 Minutes.

Woolford's Laundry Union for all kinds of alterations. Adv.

Uplifting.

"Wait till I hobble my horse."

"Well, please don't do it on the skirt of the laws."

As a summer tonic there is no medicine that quite compares with OXIDINE. It not only builds up the system, but taken regularly, prevents malaria. Regular or Tasteless formula at Druggists. Adv.

Conclusive.

"What am I to do about this man's attack on me? I can't answer him."

"Then why don't you call him a liar?"

PIMPLES CAME IN BLOTCHES

Morrison, Tenn.—"For one year I suffered from a very severe attack of acne or pimples, accompanied by eczema. It first showed itself by the formation of small red, rather hard, pimples which were not only disfiguring, but were painful. They also appeared on my neck and chest. Their itching was often so intense as to cause insomnia, and they very often caused pain and burning. I tried several so-called 'sure cure' remedies, but they did little or no good. Several months ago I heard of Cuticura Soap and Ointment and wrote for a sample.

"I found them so soothing that I at once purchased a twenty-five cent cake of Cuticura Soap, and a fifty cent box of Cuticura Ointment. After using them for about a month, all of the itching and the pimples had entirely disappeared." (Signed) John Finger, Dec. 30, 1911.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Impossible.

"Jiggs is a man of loose conduct."

"Hardly, for whenever I see him, he's tight."

FAR BETTER THAN QUININE.

Elisir Hakeb, cures malaria where quinine fails, and it can be taken with impunity by old and young.

"I have suffered from Malarious Fever for several months, getting no relief from quinine, and being completely broken down in health. 'Elisir Hakeb' effected a permanent cure."—William F. Starr.

Elisir Hakeb, 50 cents, all druggists, or Elisir Hakeb & Co., Washington, D.C. Adv.

The Language.

"I'm going to whip that child."

"No, you're not! It's my child. Now, beat it!"

Appointed Day of Judgment.

A horse dealer in an English town lent a horse to a solicitor, who killed the animal through bad usage. The dealer insisted on payment, and the lawyer, refusing cash, said he would give a bill for the amount, but it must be paid at a long date. The lawyer drew a promissory note, making it payable on the day of judgment. An action was raised, and the lawyer asked the sheriff to look at the bill. Having done so, the sheriff replied: "This is the day of judgment. I decree you to pay tomorrow."

The First Toast.

Wilson, Minner, the well-known wit, explained on a New York roof garden, the origin of the word "toast"—toasting a lady.

"You will remember," he began, "that in olden times it was the custom to serve punch to both toasts—to say, roasted—apples floating in it. These apples were called the toast. The toast—remember that."

"Well, it happened at Bath one day that a celebrated beauty stood in the Cross Bath, surrounded by a throng of admirers, and one of these admirers, intoxicated with admiration, took a glass of the water in which the beauty stood, and holding it aloft, drank her health, draining the water to the last drop.

"Beau Nash, who stood near by, shouted:

"I like not the punch, but I would I had the toast!"

HARD TO SEE.

Even When the Facts About Coffee are Plain.

It is curious how people will refuse to believe what one can clearly see. Tell the average man or woman that the slow but cumulative poisonous effect of caffeine—the alkaloid in tea and coffee—tends to weaken the heart, upset the nervous system and cause indigestion, and they may laugh at you if they don't know the facts.

Prove it by science or by practical demonstration in the recovery of coffee drinkers from the above conditions, and a large per cent of the human family will shrug their shoulders, take some drugs and—keep on drinking coffee or tea.

"Coffee never agreed with me nor with several members of my household," writes a lady. "It enervates, depresses and creates a feeling of languor and heaviness. It was only after leaving off coffee and using Postum that we discovered the cause and way out of these ills."

"The only reason, I am sure, why Postum is not used altogether to the exclusion of ordinary coffee is, many persons do not know and do not seem willing to learn the facts and how to prepare this nutritious beverage. There's only one way—according to directions—boil it fully 15 minutes. Then it is delicious." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pgs. "There's a reason."

Ever read the above letter? A new way of growing true, and full of human interest. Adv.

# THE MURRAY LEDGER,

O. J. JENNINGS, EDITOR.

Entered at the postoffice at Murray, Kentucky, for transmission through the mails as second class matter.

THURSDAY, OCTOBER 3, 1912.

## ANNOUNCEMENTS

The Ledger is authorized to place before the voters of Calloway county as candidates for the various offices named below and subject to the action of the voters at the August, 1913, primary election.

**For Assessor.**  
C. R. Lee, Murray, Ky.

**A Surprise Dinner.**

On Sunday, Sept. 29, 1912, the many friends and relatives of William W. Lamb met at his home one and one-half mile west of Old Wadesboro and surprised him by setting him a dinner and celebrating his fifty-third birthday.

The crowd began coming in right soon and by dinner there was a large crowd present. Just before noon Rev. Marandy Jones and family arrived at the home and were welcomed very much. When noontime came there was a large table made out in the shade and the good ladies brought around their baskets and boxes of good things to eat. When dinner was ready the crowd began to gather around the abundant table. Bro. Jones was called upon to offer thanks unto our heavenly Father for the many blessings. Each one partook of the food freely.

After dinner was over many presents were given to Mr. Lamb which were received with many thanks.

Those present were: Tommie Lamb and family, Arthur Lyle and family, James Smith and family, Sam Culver and family, Mart Youngblood and family, Prince Staples and family, Gut Lamb and wife, Beulah Filbeck and children, Alice Graham and children, Lovie Free and children, Misses Edna Blagg, Pearl Camp, Audie Camp, Gerth Egmon, Ina Youngblood, Ruth Jones, Audie Jones, Alta Youngblood, Era Youngblood, Ella Lamb, Messrs. Charlie Egman, Elvin and Lilburn Lamb, Brack Camp, Rollie Syle, Virgil Culver, Walter Parker and Carl Sullivan.

All seemed to enjoy themselves and had a nice time. As they left many wished Mr. Lamb many more birthdays while on this earth. We may not all meet any more but let us so live that we may meet in our home, sweet home in heaven.

One Present.

## ONE MILLION DOLLARS FOR A GOOD STOMACH

This Offer Should Be a Warning to Every Man and Woman.

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Every one who suffers with dyspepsia for a few years will give everything he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. Dale & Stubblefield.

Strayed Mule. Black mare mule about 14 hands high, 10 year old, sheared with long tail. Strayed from Murray county court day. Will pay for any trouble if returned to me or notified of her whereabouts. Jessie Shelton, Almo, Rt. 1, or phone Camb. 188-5.

We buy and sell nothing but a high grade Timothy and Red Top seed. Call and see them and you will agree with us. Prices right. Sexton Bros.

## WEEKLY BULLETIN

## Keep Your Eyes on This One

No. 196 is a 40 acre farm north of Farmington on public road, good 5 room house, good stock barn, tobacco that will hold 3000 sticks, 32 in cultivation, good orchard, cistern and pond water, all first class land and a very desirable home. Can be bought for \$2500.

Come in and let us tell you about it.

**Murray Land Company,**  
Ledger Office. J. D. Hamilton, Manager.

## MURDER

White Man and Negro Are Arrested in Connection With Death of Prominent Farmer Near Cadiz.

Cadiz, Ky., Sept. 25.—R. Murray McKinney, a prominent farmer of the southern part of this county, was found last night in a gully, about two hundred yards from his home, with his throat cut from ear to ear, and several gashes in his head. Garland Boren, and Stephen Pinner, negro, were brought here this morning by Sheriff Hammond and Deputy Sheriff Atwood, and lodged in jail charged with the crime.

McKinney, Boren and Pinner went to the residence of Frank Cheatham, negro, about a mile from McKinney's yesterday afternoon to get some cider. They each got a jug of cider and left for their homes. McKinney's body was found an hour later. The negro claims that the white man killed him, and the white man claims that the negro committed the crime.

The negro claims to have left them about half way between Cheatham's house and where the dead body was found. His jug of cider was found at his home, one jug was found near the dead body, and the third jug was found. It is thought that McKinney was first knocked in the head with the jug, as there was a bad gash in his head, and that his throat was then cut.

The negro, when asked for his pocket knife by the officers, procured it at once and there were no signs of blood on it; while Boren declared that he had lost his knife, but when he was searched a knife was found in his pocket. It was covered with blood and dirt.

McKinney was a cousin of J. W. McKinney, of this place, and was considered one of the best citizens of that section of the county.

The back part of Boren's hand was cut, but he claims that it was cut by the negro while he was trying to prevent the negro from killing McKinney.

## ELECT OFFICERS

Directors of Association Select Their Officials For Ensuing Year. Only Slight Changes.

Clarksville, Tenn., Sept. 26.—The board of directors of the Planters' Protective Association of Tennessee and Kentucky met in this city today. Every one of the twenty-two counties representing the dark tobacco district were represented.

The following officers were elected to serve for the ensuing year:

Dr. Scott of Cheatham county, president; Joe Jackson of Logan county, vice president; G. B. Bingham of Trigg county, secretary; D. C. McGregor, treasurer; John D. Seales and D. T. Foust, auditors; F. G. Ewing of Glenraven, general manager; James Coups of Springfield, assistant general manager for the Eastern division; J. Lee West of Hopkinsville, assistant for the Middle division; J. H. Keys for the Western division.

A. B. Killebrew was re-elected salesman for the Clarksville market. Ben Moore for Springfield, Ewing Farmer for Paducah. Frank McMurray was elected what is termed floating salesman, which gives him as aid to any point where he may be needed. Rufus Carter was re-elected supervisor of pricing houses.

## CHICKENS

Will pay you 12 1-2 cents per pound for young chicks this week. P. P. Enderwood, Cherry, Ky.

## THE FAVORITE LAXATIVE

One at Night Makes the Next Day Bright; No Charge if It Doesn't.

Because of its extremely gentle and effective action, Rexall Orderlies have become the most popular Remedy for Constipation. We are so positive that Rexall Orderlies will do all that is claimed for them that we positively guarantee to hand back the money you paid us for them upon your mere request, if you are not entirely satisfied.

Rexall Orderlies are eaten like candy, are very pleasant to the taste, do not grip, cause nausea or any other annoyance usually experienced when ordinary cathartics are used.

Rexall Orderlies have a positive regulative effect upon the bowels and tend to provide permanent relief from Constipation and the myriad of associate ailments. Besides, the help to overcome the necessity of the constant use of laxatives to keep the bowels in normal condition.

We honestly believe there is no similar medicine so good as Rexall Orderlies, especially for children, aged, or delicate people. They are prepared in convenient tablet form in three sizes of packages. Prices, 10c., 25c., and 50c. Why not try them at our risk on our guarantee?

Remember, Rexall Remedies can be obtained in this community only at our store—The Rexall Store. Dale & Stubblefield.

## Taxes! Taxes! Taxes!

We again call the attention of the tax payers, who have not paid their tax, that the very urgent demand for means to carry on the public work of the county and to pay those who have already done work, appeals to you to settle your tax at once. Do not wait until the last few days, but pay now.

Call at our office or meet us at one of the following named places and dates:

Patterson's Store, Almo and McKee's Store, Sat. Sept. 28. New Providence, Newburg and Kirksey, Sat. Sept. 7 and Wed., Oct. 2.

Pine Bluff and Crossland, Wed., Sept. 11 and Sat., Oct. 5.

Lynn Grove, Faxon and Hazel, Sat., Oct. 12.

Dexter, Besssburg and Shiloh, Sat., Oct. 19.

Almo, Crossland and Dave Thomas' Store, Sat., Oct. 26.

This will be our last appointments. Note the one that is for your convenience and please give this your attention. We express our thanks to all who have been responsive to our calls in the past and hope to see you, so act in the future.

Very respectfully yours,

C. L. Jordan, Sheriff Calloway County.

## Farm for Sale.

78 acres 6 miles of Paducah, part in Clark's River bottom, 53 in cultivation, 1 room house, orchard, cistern, well and pond waver, 14 acres in mow. Terma. address.

H. F. Lassiter, Metropolis, Ill. Box 507.

## Coughs and Colds

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in this standard cough medicine. Sold for seventy years.

Any good doctor will tell you that a good cough medicine is the best work of the doctor's art. Ayer's Cherry Pectoral is the best.

## Election Notice.

Pursuant to an order, which was issued by the Fiscal court of Calloway county, on the 14th day of September, 1911, I will hold an election at all the several precincts in the county, for the purpose of electing a sheriff, which is given below my signature hereon.

C. L. JORDAN, Sheriff Calloway county.

Commonwealth of Kentucky, Calloway Fiscal court.

Presiding T. W. Patterson, Judge, together with Lee Clark, J. A. Ellison, W. J. Guerin, W. G. Hamlin, G. M. Potts, A. B. Perry and J. W. Wade magistrates.

Be it suggested by the Fiscal court of Calloway county, Ky., that a proposition of issuing forty thousand dollars in bonds be submitted to the voters of Calloway county, Ky., at the next November election, which is November 5th 1912, for the purpose of erecting a court house on the old court house site in Murray Calloway county, Kentucky, said forty thousand dollars to build, equip and furnish all things necessary to complete a building ready for use, and that said county issue bonds in denominations of five hundred dollars each for said sum of forty thousand dollars and that said bonds are to bear interest at a rate not to exceed 5 per cent per annum, said interest payable annually on the first day of October of each year, said bonds to be made payable in not less than two nor more than twenty years, and it is ordered by the court that the sheriff of Calloway county, to hold an election at all the several precincts in this county at the next general election, which is November 5th 1912, for the purpose of taking the vote of the legal voters of said county, as to whether or not said appropriation shall be approved or rejected, and the sheriff of said county is ordered to advertise said election and the object thereof in some newspaper of the county having the largest circulation at the time, if no paper be published in the county, then by printed hand bills posted up at three of the most public places in each precinct and at the county seat. On motion and second the above suggestion was placed before the house and the roll being called the vote stood as follows: Lee Clark, yea; J. A. Ellison, yea; W. J. Guerin, yea; W. G. Hamlin, yea; G. M. Potts, yea; A. B. Perry, yea; J. W. Wade, yea. The suggestion was unanimously carried and said suggestion stands approved as above set out. A copy attested.

R. B. FAIRWELL, Clerk

## BURDENS LIFTED

From Murray Backs Relief Proved by Lapse of Time.

Backache is a heavy burden; Nervousness, dizziness, headache, Rheumatic pains; urinary ills; All wear one out.

Often effects of kidney weakness.

No use to cure the symptoms. Relief is but temporary if the cause remains.

If it's the kidneys cure the cause.

Doan's Kidney Pills cure kidney ills.

Here's proof of their merit from this vicinity.

Mrs. I. L. Jones, N. Thirtieth St., Mayfield, Ky., says: "We still use Doan's Kidney Pills in our family and find them an excellent kidney remedy. You are at liberty to use my statement as heretofore."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Remember the name Doan's and take no other.

Low Fares!

On the 1st and 3rd Tuesdays of each month the fares are extra low—and allow stop over free and 25 days time—via Cotton Belt Route to

**Arkansas & Texas**

The Cotton Belt Route is the direct line from Memphis to Texas, through Arkansas—two splendidly equipped trains with through sleeping, chair cars and parlor cars. Trains from all parts of the Southeast make direct connection at Memphis with Cotton Belt Route trains to the Southwest.

Write to me today

I will tell you exact fare from your town, schedule, and send you splendid illustrated books of facts about Arkansas and Texas.

L. C. BARRY, Traveling Passenger Agent, 62 Todd Building, Louisville, Ky.

## NEW FIRM

MISS ELIZABETH PARKER  
FINE MILLINERY

Ind. Phone 147 Next door to Parker's Jewelry Store

Earl Washam and Miss Lottie Farmer were united in marriage Sunday near the Paris bridge. Rev. W. A. Russell, pastor of the Methodist church, officiating. Mr. Washam is a salesman with the Ryan Clothing Store and one of the most popular young men of the city. Miss Farmer is a daughter of Tom Farmer, of this city, and was reared in this county where she is loved and admired by a wide circle of friends and acquaintances. The marriage was quite a surprise to the many friends of the young and popular couple and they have been showered with congratulations since the happy event. The Ledger joins in best wishes for a long, happy and contented married life.

\$100 Reward. \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials. F. J. CHENEY & CO. Toledo, Ohio.

Sold by all Druggists 75c. Take Hall's Family Pills for constipation.

Dal Miller, for the past several years the leading merchant and druggist of Hazel, has moved his stock of drugs to Murray and in the future will make this city his home. He is occupying the new Sledd building and has beautifully equipped his store and when completed will have one of the handsomest drug houses in this section of the state and one of the most complete lines. Mr. Miller is a splendid gentleman, a progressive citizen and the city of Murray is fortunate in being able to secure him as a member of the business and social circles.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller." For sale by Dale & Stubblefield.

Z. B. Talley, of Guthrie, Ky., has come to Murray to make this his home. He is associated with the Murray Furniture & Undertaking Co. Mr. Talley is one of the best known furniture men in this section of the state and is also an undertaker and licensed embalmer. The writer has known Mr. Talley for many years and is glad to welcome him as a citizen of our community.

WHEN you come here to select Furniture, you have the decided advantage of making a thorough examination and investigation of each article before purchase.

We buy Furniture, not with the idea of keeping it in stock, but expecting to place it in the homes of intelligent and well informed people.

Our goods, therefore, must be reliable and values attractive, in order to keep them moving, for on this we win or lose your patronage. Try us.

Murray Furniture and Undertaking COMPANY  
INCORPORATED  
O. A. BUTTERWORTH, Manager.

### LOCAL AND PERSONAL

Mrs. Willie Fulton, of Nashville, came in the first of the week and will be the guest of relatives until after the fair.

Drs. Johnson & Johnson in the Allen building.

Wanted—Few good tie makers. Good timber. Apply to B. F. Lax, Hazel Route 2. 2t

For the latest in Ladies Coat Suits, and other wearing apparel, call on L. E. Graham & Co.

Will Holcomb, of Perryville, Tenn., arrived here the first of the week to visit relatives and attend the fair.

For Sale, Cheap—A \$45 Bicycle. Will sell for \$17.50 if taken at once. Hak Jennings.

Young man, put some of those dollars you are throwing away in the Peoples Building & Loan Association. See M. D. Holton.

Mrs. T. P. Cook, of Hopkinsville, arrived here Tuesday to be the guest of her daughter, Mrs. E. J. Deale, during the fair.

New goods arriving daily to replenish our stock of dry goods, notions and shoes. L. E. Graham & Co.

I will hold my annual colt show at my residence the third Saturday evening at 1 o'clock. J. H. Ellis.

Zeb A. Stewart came in Tuesday from Harlan, Ky., to join his family who are here the guest of relatives. He will remain until after the fair.

Results.—An ad in the Ledger

### Multitudes of People

take SCOTT'S EMULSION regularly to repair wasted vitality and enrich the blood to withstand winter colds and exposure.

It contains the highest grade of cod liver oil, medically perfected; it is a cream-like food-medicine, scrupulously pure and healthful without drug stimulation. Endorsed and advocated by medical authorities everywhere.

SCOTT'S EMULSION drives out colds—enriches the membranes of the throat and lungs and keeps them healthy.

Nothing equals SCOTT'S EMULSION for lung and bronchial weakness—cure, tight chest and all pulmonary troubles.

Equally good for infants, children or adults, but you must have SCOTT'S.

Scott & Bown, Bloomfield, N.J.

## SERIAL STORY

### No Man's Land A ROMANCE

By Louis Joseph Vance

Illustrations by Ray Walters

SYNOPSIS.

Garrett Coast, a young man of New York City, meets Douglas Blackstock, who is a member of a secret society, the No Man's Land. Coast is attracted to Blackstock, who is a handsome, well-to-do man. Coast is also attracted to a woman named Katherine, who is a member of the same society. Coast is torn between his love for Katherine and his loyalty to Blackstock. Coast is eventually forced to choose between the two. Coast chooses Katherine, but Blackstock is angry with him. Coast is then forced to fight Blackstock. Coast wins the fight, but Blackstock is not hurt. Coast is then forced to leave Blackstock. Coast is then forced to leave Katherine. Coast is then forced to leave the No Man's Land. Coast is then forced to leave the city. Coast is then forced to leave the country. Coast is then forced to leave the world.

CHAPTER XVI.—(Continued.)

"She shut the door and saw Coast. In an instant her face was blood-red; only her gaze leapt to his eyes like a leveled flame. Her hands moved suddenly toward her bosom, hesitated half-way, and fell slowly. She sighed profoundly. Then abruptly, as she recognized that he was frightened for her and in another moment would hurry to her side heedless of consequence, she resumed command of herself with an astonishing effort of will; the small hands tightened at her sides, she lifted her head, closed her lips tight, and stood momentarily at attention, listening to some noise beyond the door.

The silent moment ended in the opening of the doorway. At the report, as if released from a spell, the woman moved quickly over to the door. Her hand closed imperatively upon Coast's forearm.

From colorless lips her voice came low but clear.

"Listen, Coast—don't interrupt. Hush—don't speak; his hearing is abnormally sharp; when he stops sending a boat will come for us. He didn't say when—after dinner, sometime, I gathered. He has just told me to pack up a few necessities.

The noise of the wireless ceased, and she stopped speaking in the same breath. Immediately, in the silence which followed, she heard the hiss of the switch thrown out to divert the current from the sending apparatus to the detector.

"He's fishing for the answer, now," Coast ventured in a guarded tone. "Hush!" she told him sharply, whispering.

She inclined her head, sedulously on guard, and for a while seemed to hold her breath. The hand upon his arm was trembling violently; he put his own palm over it with a strong and reassuring pressure.

"Steady, dear!" he murmured. "Don't be afraid."

She shook her head with a futile effort to smile bravely. "Only be quiet," she begged.

A minute passed, and another, and yet another, the pause filled with the dull drone of the dynamo and the steady humming of the gasoline motor. Then again the spark began to talk—crack-crash-crash-crash!—and once more it was safe to speak.

"I warned me strictly to say nothing of this either to you or to the servants, but told me to go and call both you and Chang—that he wanted you at once."

"No explanation?"

"None," he seemed to think it superfluous—with me.

Coast's fears conjured up a misapprehension of Appleyard's plans. Somehow, perhaps, the little man had failed to regain Quick's Hole in time to prevent the escape of either the Corsair or the crew. In such case the latter would seek the quickest mode of communication with No Man's Land.

But speculation was just then outside Coast's concerns. His first, his whole duty was to Katherine.

"Don't worry," he begged her in a hurried whisper; "we'll find some way out. Appleyard won't fail us—and if he should I'll manage to steal that

boat and get you off. Either that way or another. Now go, while I see what he wants of me. I'll say I met you on the way. Go quickly—we've delayed long enough.

"This last was an undertone as the woman, taking fright because of a brusque sensation of the wireless, shot, disengaged her hand, and with the briefest glance by way of adieu, hurried toward the farm house.

Alone, he lingered for a little while she left him, striving to collect and train his faculties against this untold turn of events. Thoroughly mystified, disturbed and depressed, he drifted into a deep and sombre reverie which might well have endured beyond his knowledge had not the stationary motor chosen an early moment to choke up with a series of guttural moans and stop dead. The unlooked-for suspension of its contented working song left a distinctly audible void in the stillness, in which the key of the droning dynamo ran down the scale to a sour whine ere it ceased altogether. Round by this, Coast pulled himself together and hurried round the building, listening with shameless elation to the storm of anger, which followed Blackstock's recognition of the mishap.

A chair scraped roughly on the floor and fell with a crash; something else was thrown violently down; Blackstock got his breath deliberately and the doors and windows of the operating room became jammed with his phony. Discreetly Coast paused and

was conscious of the uneasy presence of being lost, which, of course, was absurd, the man's attention brought to mind.

"Well, I don't know," said Coast, though this was not strictly true, he could already hazard a shrewd guess with the confession of neglect to guide him.

"Mmmmm. Look here, what d'you suppose became of the Corsair?" "One guess is as good as another isn't it?"

"What d'you mean by that?" "That I don't know."

"You'd think Finn'd've managed to get her off by this time—eh? Wouldn't you?" Blackstock grumbled.

"Without outside help, I'd judge a pretty tough job."

"Well, but with help."

"Not so easy to get under the circumstances. That wind was enough to clear the sound of ordinary traffic, and even today, up to some time after noon at least, there'd be a fairly rapid sea running to keep smaller craft at home."

"Oh, you think so, eh?" commented Blackstock with an accent of irony that made Coast straighten up and look over his shoulder. But the man was not even facing him, and he could gather little from his expression.

"That's all very well," he continued, "but it happens I advised Veechle of their fix last night, and he sent a tug down from Vineyard Haven this morning. The tug reports no sign of the

Corsair. Now what d'you know about that?"

"It's not easy to explain," said Coast in perhaps too placid a tone. It was difficult to subtract from his voice the exultation he felt. So Appleyard had been successful, after all! That was a matter of news to cheer his heart wonderfully. He ventured an abrupt and irritatingly stupid observation:

"Then they must have got off some how, during the night."

"Looks that way, doesn't it—even to a blind man? But then—"

"Perhaps some accident to the machinery?"

"Finn never permits an accident to machinery under his care."

"You never can tell."

"Finn can't," Blackstock snapped decidedly.

"You ought to have him fired—then," said Coast disgustedly, turning the conversation of deliberate intent, by now fully convinced that Blackstock had been talking to kill time—or else.

"You've about ruined this machine, as far as I can judge. The lubricating tank's dry as a bone, the bearings so hot I can't bear my hand on them, and the chances are the connecting rod has been burned out. I can't tell how bad it is without taking the motor down, and that's an expert's job. Where's your cylinder oil? A good dose of that will ease matters a bit until I can investigate without blistering my hands."

"Over there—that large can in the corner," Blackstock indicated.

To reach it Coast had to pass between the man and the door; as he did so, temporarily off his guard, Blackstock stepped suddenly to his side. Grasping Coast's right wrist with his left hand, he thrust it up smartly, interposing his shoulder, to prevent it from coming down as he released it and simultaneously passed his own right arm across Coast's chest, seizing and pinning his left hand.

Having him thus helpless in one of the simplest of Ju-jitsu holds, Blackstock thrust his left hand into Coast's pocket, withdrew the automatic pistol and let him go with a shove that sent him reeling and staggering back against the wall.

"I've been wanting this toy ever since you mentioned it last night," he said calmly, balancing the weapon in his aim. "It's one of my rules that no arms shall be carried on this island."

CONTINUED

Thrust it Up Smartly.

waited until the man's tongue began to falter, until the oaths escaped from his tongue, until he stopped short, his system wrung dry of profanity. Then Coast advanced.

He found Blackstock striding to and fro and mumbling a cigar, the scowl that darkened his countenance suggesting a state of perturbation and anxiety no less acute than Coast's. Even without Katherine's warning, and ignoring his pettish rage over the bulky motor, Coast would have been quick to guess that something had happened seriously to complicate the man's schemes. He flew every sign peculiar to one who to the physical unhappiness following a night of dissipation had added grave reason for mental disquiet.

As the younger man drew near Blackstock stopped short, facing the door with a lowering look.

"Who's that?" he demanded sharply, with a nervous gesture plucking the unlighted cigar from between his teeth.

"You, Handyside!" Coast entered. "Mrs. Black said you wished to see me."

"I would to God I could!" Blackstock cried wrathfully, dashing the cigar upon the floor. He lifted his clenched hands and shook them above his head, while his features twitched. Abruptly he dropped them. "Here," he said curtly, "what d'you know about stationary motors? Everything, I suppose?"

"Not quite," returned Coast pacifically.

"Then what the devil are you doing here?"

"I'm supposed to be a wireless operator."

"Oh, yare, eh?"

"Not a skilled mechanic," Coast continued evenly. "Still, I know a little something about motors. Anything I can do?"

"You can take a look at that damned engine, if you don't mind. It failed dead just now. It hasn't had any attention since Power quit and left the in the lurch, hang him! I don't know whether it's oil or gas or water it needs. Perhaps you do."

"I'll see," said Coast.

With an impatient grunt Blackstock resumed his walk, guiding himself up and down amongst the furniture and machinery cluttering the room with his habitual but still extraordinary ease. The sound of Blackstock's foot steps ceased behind him, while he was bending over the machine, and he

was conscious of the uneasy presence of being lost, which, of course, was absurd, the man's attention brought to mind.

## Social Forms and Entertainments

Reply to Clementine and Danice. It will seem to you that your letter has been long unanswered, but each must take their turn as the space for "Questions and Answers" is very limited. Sweet apple cider is good and perfectly proper to serve, did you ever try freezing it and serving like sherbet, with small cakes or wafers? I think it is best to sign your own name besides the one you wish used in the department. I like to see girls of your age friendly with more than one boy. There is safety in numbers and you are both too young to make a choice now. I would keep the kodak, no reason why you should return them. School has probably started now and I am sure you will have a good year.

The Invitation List. I intend giving a bridge party for a September bride. Would you kindly tell me, is it my place or hers to make up the invitation list?—M. E. L.

I fear my answer is too late to help you, but your letter was delayed in reaching me and now September is nearly over. I will just say to you and for the benefit of others that the ladies makes out her list and politely asks the honored guest if she has any special friend whom she would like to include in the invitations.

For a Girl's Club. Would you please suggest some suitable names for a class of girls about fourteen or fifteen years of age, who wish to organize a club, also mottoes and colors.

What sort of amusement could you suggest at a meeting?—Bee, L.

I wish you had told me more about the club, for what purpose it is to be organized and whether it is a Sunday school class or a day school and whether for amusement only. Write me again.

Reply to "Rosemond." I am truly grateful for all the nice things you wrote me regarding this column, for it makes me feel as if I was accomplishing a wee bit, if I help even one girl.

Regarding the "old maid" proposition, there are no old maids in the sense that you mean, and no age limit. There is no reason for not marrying a man a year younger, the difference is very slight. You may take a man's arm if necessary. If he is old, is how, ever, unless the night is very dark or over a dangerous crossing.

Questions from Brown Eyes. How long should a girl of sixteen wear her dress, what color is becoming to brown eyes and dark hair? Thank you for the help I have gotten from your department; I like it so much.

A girl of your age should wear her hair in the bob, the advantage, of course much depends upon the height of the person.

All the red and rose shades, navy blue, yellow and tan are becoming to the brunette type.

Reply to "Nancy." The room in the hotel in which the wedding ceremony takes place would seem far more attractive if it contained flowers and palms where the couple are to stand. When a bride is married in a traveling suit at a morning church wedding it is perfectly proper for her to carry a bouquet (not a "shower kind") or she may wear a large bunch of violets with a rose or orchid in the center. I think the latter is preferable.

Faith's Answer. Perfectly proper for you to ride horseback; why not? You may ride astride or side saddle, just whichever you prefer. You are rather large for your age, but there are many others; it is true though that for some reason larger persons when very young are apt to be taken for older than they really are. You should wear your dresses down to the shoe tops.

Reply to I. M. N. I cannot give remedies in the department or reply to "Beauty" questions. I see no reason why you should not go occasionally with boys if they are the right kind, and much depends upon you girls whether they are the right kind or not. I should not call you homely and not a bit too small.

The Proper Thing to Do. Will you please tell me what is the most appropriate for a bride wearing white satin and veil to ride to church in, taxicab or hack?—Mother.

Either a taxicab or carriage may be used by the bride in any garb. Much depends upon the distance and time necessary.

MADAME MERRI.

## Health & Beauty Hints

By Katherine Morton

When a girl comes to the love of cosmetics, those supreme luxuries of womanhood, she may be called grown up. Her delight in delicate powders, fragrant perfumes, creams, toilet waters, fine soaps and scented baths divides her forevermore from the careless habits of childhood. Henceforth the prettiness of her skin and the beauty of all she does is that she may be able to replenish her little store of beauty materials every now and then. This is a normal and perfectly legitimate state of things, and therefore it behooves parents to supply young daughters who have to money of their own, with the simple modicum required for beautifying the complexion and hair.

Good Powders. In the matter of powder, good taste demands something very simple for the schoolgirl, a pure white powder, such as talcum or rice or wheat starch, very lightly perfumed. The talcum for nursery use, prepared as they are for the tender bodies of babies, are the best of these powders, but girls should keep their powder boxes and puffa-free of dust, for the soil that gets it will help to encourage blackheads. However simple the powder is, it should be taken off at night with a cleansing face both for, if left on the face, it is bound to stop up the pores. A French nursery powder of indescribable fineness is often used by women as well as young girls, this being almost impalpable when put on and possessing the fragrance of lilacs of the valley. This delicateness of scent should be a feature of all beauty materials used by young girls, for strong odors do not seem to go well with the modesty and freshness of girlhood.

Face Bath Needed. But far more enhancing than the powder is the cleansing face bath, which is required to free the skin of old cuticle, stale oil, dust and perspiration. So when you come to take a face bath remember all the wastes you must get rid of, and don't make a pretense of things with little dabs of cold water and an indifferently clean face cloth. Hot water and a bland soap must be used, several rinsings must be done with plain water, and in the event of any eruptive condition wash rage and towels should be kept apart from those used by the rest of the family, and be washed by themselves and sterilized. That apparently innocent thing, the wash rag, by the way, is responsible for many a bad state of things with the skin. It is only safe to use it once, and if examined by a strong microscope when very dirty the reason for this will be discovered. Wash rags should always be hung in the sun after using, as the shady corner of the bathroom is the very place for the developing of the germs that infect them, and sun is death to germs. Never use a sponge for a bath of any kind, as the sponge holds the body soil and so can never be cleansed properly. A sour bit of bathroom linen of any sort is an abomination and very injurious to the beauty of the skin, conveying to it sometimes a little fungus growth caught from the invisible mold on the rag or towel. Ringworms may be propagated in this way, and if the offensive linen is used by other members of the family this really dreadful skin affliction may spread through the whole household.

In many a bathroom not yet educated to the elegances of the toilet common laundry soaps are put for toilet purposes, and these the girl of the family often uses on her face and hair, entirely ignorant of the fact that she is doing her skin incalculable harm. Such soaps are strong with alkali, and if they do not bite the skin to the point of torment they yellow and roughen it. When washed with them, the hair is robbed of every drop of natural oil, made brittle and colorless, to say nothing of the great difficulty of getting the strong adhesive suds out of the locks and from the scalp, where the hard soap seems to love especially to cling.

Soap for Toilet. Fine toilet soaps and shampoos are dear, of course, but a liquid soap can be made of a twenty-five cent cake of castile which would be just as delicate for washing the face and hair as the finest soap on the market. Shave the soap to a powder, and then boil this in a pint of soft water; keep the resulting jelly in a wide-mouthed bottle. Working the jelly into the skin when using, but only making a thick suds for the hair. If the hair is very oily and soiled, add a tiny pinch of bicarbonate of soda to the suds. As a tonic and feeding substance for scanty hair raw eggs are unrefined, as I have said many times, these supplying the iron and sulphur the anemic scalp needs. For dandruff or any scalp or skin eruption use green soap, which is the purest made and highly antiseptic.

## Don't Take Calomel Bond's Pills Are Better.

They do not sicken or gripe. They do not "tear you to pieces." They do not leave you constipated. They are small, mild, effective. Why waste time and money on unknown and expensive purgatives?

Just take one Bond's Pill at bed time for that headache, biliousness, torpid liver, etc., and wake up well! All Druggists, etc., or send to Bond's Pharmacy Co., Little Rock, Ark. A free sample on request. Adv.

Raw Chickens. Ross Pastor Phelps Stokes, in an address on behalf of a New York country week charity, told a quaint story.

"A little alum girl," she said, "stood for the first time in her life to a barnyard—a genuine, old-fashioned, barnyard with its racks, its larders, its plows and harrows, and whatnot."

"The alum girl drank it all in delightedly, then gasped half to herself: 'An' 'est look at the chickens— all runnin' around raw!'"—Washington Star.

Regular practicing physicians recommend and prescribe OXIDINE for Malware, because it is a proven remedy by years of experience. Keep a bottle in the medicine chest and administer at first sign of Chills and Fever. Adv.

A Paradoxical Ballot. "I should think the women voting in the new suffrage states would strike one obstacle."

"What is that?"

"How can the matrons of a party cast their maiden vote?"

WIRE FENCING. Both welded and wrapped for stock, wire, poultry, garden and lawn, all sizes, all grades, all prices. Free catalog. Write for it. Bond's Pharmacy Co., Little Rock, Ark. Adv.

Not Successful. Mrs. Knicker: Why don't you go to the market yourself?

Mrs. Knicker: No, indeed, I must adjust the way Jack told me he lost his money.

COLD BLOODED AND HEART-BREAKING. Only the James Lee Company can give you a cold blooded and heart-breaking remedy. Write for it. Bond's Pharmacy Co., Little Rock, Ark. Adv.

My good woman, do you scrub with avidity?

"No'm; with soap."

As a summer tonic there is no medicine that quite compares with OXIDINE. It not only builds up the system, but taken regularly, prevents Malaria. Regular or Tonic formula at Druggists. Adv.

When a man does get even with another he is never satisfied until he gets a little more so.

BACKACHE A SIGNAL OF DISTRESS. Pain in the back is the kidney's signal of distress. At this time of year, when the weather is so warm, the kidneys are especially liable to become congested. Backache, therefore, is a signal of distress. Write for it. Bond's Pharmacy Co., Little Rock, Ark. Adv.

When you have backache, use a special kidney medicine. Write for it. Bond's Pharmacy Co., Little Rock, Ark. Adv.

Don't's Kidney Pills. Don't's Kidney Pills are the most effective remedy for backache, kidney trouble, etc. Write for it. Bond's Pharmacy Co., Little Rock, Ark. Adv.

CONVINCING TESTIMONY. James E. Brown, Thompson Ave., Brooklyn, N.Y., writes: "I was afflicted with kidney trouble for five or six years. I was so bad that I couldn't move. The kidney secretions were in a terrible condition. An acquaintance advised me to try Don't's Kidney Pills. I did so. They made me well and during the past four years I have had no further trouble."

Get Don't's at Any Drug Store, 50c a Box. DOAN'S KIDNEY PILLS. FOSTER-MILBURN CO., Buffalo, New York.

FREE TO ALL SUFFERERS. If you feel any of these "red flags" or "signals" of distress, write for a free copy of the book "Backache, a Signal of Distress." It is the most instructive medical book ever written. It tells you how to cure backache, kidney trouble, etc. Write for it. Bond's Pharmacy Co., Little Rock, Ark. Adv.

No. 666. This is a prescription prepared especially for Chills and Fever. Five or six doses will break any case of Chills and Fever, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c.

Tutt's Pills. The dyspeptic, the debilitated, whether from excess of work of mind or body, drink or overeating. Will find Tutt's Pills the most grateful restorative ever offered the suffering invalid.

5 or 6 doses 666. breaks any case of Chills & Fever; and if taken then as a tonic the Fever will not return. Price 25c.

For Sale—The best Morphine and Whisky treatment known. Well established for sale on account of my age. Cash and terms. Sell by mail. Dr. M. Richardson, M.D., Boston, Mass.

Pettit's Eye Salve. FOR ALL SORE EYES. PISOS REMEDY. Best Cough Syrup. Tastes Good. Use in time. Sold by Druggists.

FOR COUGHS AND COLDS.
