# WEEKLY KENTUCKY NEW ERA.

ONE DOLLAR A YEAR.

HOPKINSVILLE, CHRISTIAN COUNTY KENTUCKY FRIDAY, MAY 9, 1932

VOLUME XXXII, NO. 94

## COOPS IN KENTUCKY MANY ATTRACTIONS

ENCOURAGING REPORTS ARE ISSUED.

Statements by Weather Bureau and Commissioner of Agriculture.

The weekly summary of Kentucky crop conditions compiled by the weather bureau is as follows:

General rains occurred during the first of the week. The rainfall was quite heavy in southwestern counties. The rain was followed by very warm weather during the latter part of the week and all vegetation is growing rapidly.

Wheat, oats and rye have improved quite decidedly. Corn is about half planted. The work was seriously retarded by rain, but the early fields are coming up well.

Tobacco plants are generally late and rather scarce, but are now making excellent growth.

Garden vegetables and potatoes are starting out nicely and look quite promising. Grass and clover in pastures and meadows are growing rapidly. Hemp has been sown and is coming up nicely in the early fields.

Fruit is in bloom, and, with the exception of peaches, looks quite promising. Strawberries are in fine condition.

There is considerable complaint of damage by cut worms.

In some of the southwestern counties crops were damaged by severe hailstorms, but the area affected was small.

Farm work has been delayed in the western and central sections by rain.

State Commissioner of Agriculture Hall has just completed his monthly crop statistics and his report shows the wheat crop prospects have fallen off several points since April 1. His last report showed acreage of wheat 90, condition 71. His figure put the acreage at 89 and condition 69. Acreage of corn is 99, but the crop is not far enough advanced to report its condition. Oats, acreage 90 and condition 84, a slight improvement over last month. Rye, acreage 93 and condition 81. Barley acreage 90 and condition 80. Hemp, acreage 93. Tobacco, acreage 97 and condition of plant beds 84. Pastures, condition 79. Meadows condition 84. Stock pastures, condition 84. Live stock, general condition, 91. As to numbers cattle are 38, sheep 38, hogs 71, horses 86 and mules 84. Fruit the peach crop is much damaged and only 46 per cent. crop is expected, while apples show 78 per cent. and other fruits 82 per cent.

"I feel as if I should fly to pieces." How often those words are on a woman's lips. They express to the uttermost the nerve-racked condition of the body, which makes life a daily martyrdom.

If this condition had come suddenly it would have been unbearable. But the transition was gradual. A little more strain each day on the nerves. A little more drain each day of the vitality. Any woman would be glad to be rid of such a condition. Every woman tries to be rid of it. Thousands of such women have been cured by Dr. Pierce's treatment with his "Favorite Prescription," when local doctors had entirely failed to cure.

"Favorite Prescription" contains no opium, cocaine or other narcotic.

## PLENTY OF THRILL

Wild West Show Comes Next Wednesday.

Buckskin Bill's Wild West Show came to town Tuesday morning, and gave all the small boys and some of the big ones a virtual attack of Wild West fever. The desire to go out on the plains and slay Indians and buffalo, although there are few Indians and no buffalo left to slay, was planted in the breast of about a thousand youngsters who followed the parade through the streets, and if they could command the price, viewed the performance with awe during the afternoon.

There was a good deal in both to stir up his awe. In the parade there were Indians and cowboys by the dozen, bucking broncos, cowboy bands, the old stage coach and prairie schooner, equines and paces and carrying stiers, and everything else which should be in a well-regulated Wild West show.

The Indians were the real thing and did not come from Brooklyn. They were red and the color was guaranteed to be fast. There were several chiefs in the bunch.

The performance was properly half-raising. The events were given before a large crowd—St. Paul, Minn., Gazette, 6, 1000. Wild West in Hopkinsville Wednesday May 14.

## REAR ADMIRAL SAMPSON DIES AFTER A LINGERING ILLNESS.

(Special to New Era.) WASHINGTON, D. C., May 7.—Rear Admiral Wm. T. Sampson, retired, died at his home in the city at 6 o'clock last evening. He had been in declining health several months. The immediate cause was a severe cerebral hemorrhage.

He was born at Palmyra, N. Y., in 1840. His father was a day laborer, and young Sampson used to accompany him from farm to farm in search of work. At the age of 17 he was appointed a midshipman in the United States navy academy at Annapolis.

He was graduated, first in his class, in 1861, and was immediately sent aboard of the frigate Potomac. Here he soon won his lieutenantcy. Sampson was executive officer and stood on the bridge of the Potomac when she was blown up by a torpedo in Charleston Harbor, January 16, 1865. Seventy of the crew were drowned. In 1868 he was promoted to a lieutenant commander while on the Colorado. From 1868 to 1871 he was at the naval academy. The following two years he was on the Congress, and in 1874, having been made a commander, he was assigned to the

Alert. He returned to the naval academy in 1876 and remained there nearly three years. In 1879 he was in China commanding the Swatara. He was chief of the bureau of ordnance from 1880 to 1887, and previous to that he was inspector of ordnance at the Washington navy yard. Since the formation of the new navy he has commanded the Iowa and the

wide knowledge of ordnance, mines, etc., he was appointed president of the Maine court of inquiry by President McKinley. He was promoted to a rear admiral by the president, succeeding Admiral Sigsbee, and was in command of the fleet of Santiago during the Spanish-American war until the capitulation of the city.

CAUSES DEATH OF AGED CITIZEN

Mr. J. W. Boyd Passes Away At His Home Here.

Mr. J. W. Boyd answered death's summons at his home in this city yesterday afternoon. He had been ill only a short time and the end was not expected.

Acute gastritis was the cause of death.

The deceased was well known in Hopkinsville and throughout the county, and had many warm friends who will be deeply grieved at the news of his death.

He was a gentleman of generous impulses, affectionate in his home and true and loyal to those he cared for. He had been a resident of Hopkinsville many years.

He was sixty-five years of age. His wife was in Texas, visiting her sons at the time of his death. A telegram announcing the sad news was sent to her and she and her sons, Messrs. James, Ed and Dick Boyd, left at once for Hopkinsville and will arrive here in time for the funeral.

Besides the members of the family named, one daughter, Mrs. Robert Meacham, survives the deceased.

### STRUGGLE FOR LIFE

MURDEROUS ASSAULT ON CHIEF OF POLICE.

Fought Desperately Fifteen Minutes With a Powerful Negro.

From Friday's daily. Chief of Police E. H. Armstrong had a terrible struggle for life with a desperate negro yesterday afternoon.

The officer, on receiving a telephone message stating that Lewis Harrison, a fireman and driver, had run amuck on Crescent street and was beating a woman named Alice Cantrell, hurried to the scene of the disturbance. He found the negro standing in the doorway of the cabin.

The black man was in an ugly mood and had been drinking. "You and Alice come on with me," said the chief, "and tell Judge Bell your troubles."

"No, I won't," snarled Harrison. "I'm in my own house and no damned man can arrest me."

When the officer attempted to put his hand on the negro, Harrison thrust a revolver in his face. "Chief Armstrong struck the weapon up and seized the fellow around the body. Then a frightful struggle began that lasted probably a quarter of an hour. Several times Harrison made an effort to get his weapon in position to shoot the officer, and it was only by exerting great vigilance and straining every muscle that Capt. Armstrong kept himself from being killed. The negro is a powerfully built man and he finally succeeded in throwing the officer with violence against a bureau, pinning his arms. Then he shoved the muzzle of the pistol in Chief Armstrong's face. With a roar and presence of mind the officer said:

"Lewis, if you shoot me or even hurt me, the police will kill you like a dog."

"That's so," ejaculated the negro. "Throw down your pistol," commanded the chief.

"No, I'll be damned if I do," replied the negro.

Somebody outside the house at this juncture cried that other policemen were coming.

"I'll put down the gun if you won't kill me," said Harrison to Chief Armstrong.

"All right; drop it," was the promise. The negro relaxed his grasp and pitched the pistol aside. The chief snatched it up and shoved Harrison through the door into the hands of Policemen Mack Craven.

Nearly all the furniture in the room was broken up in the struggle that had taken place, and Chief Armstrong was bruised, cut and sore.

The two officers took Harrison to the city court for trial. He paid \$100 and in addition was sent to the workhouse for fifty days.

## THE EXAMINATIONS Just a Few Things That We Can Get.

COMPLETE LIST OF DATES ANNOUNCED.

One Important Change Made.—Local Board Remains the Same.

The examination for graduation in the common schools of the county will be held at the office of the County Superintendent on Friday and Saturday, May 9 and 10, 1902. This will take the place of the examination that has heretofore been held on the last Thursday in June. This change in time was made by the legislature at its recent session. Applicants for a diploma will please note the change.

Examinations will be held by the county board of examiners as follows:

For county teachers certificates: WHITE. May 19 and 17 June 20 and 21 June 20 and 21 July 18 and 19 August 15 and 16 August 22 and 23. COLORED. May 23 and 24 June 27 and 28 July 27 and 28 August 22 and 23.

For state certificates: WHITE AND COLORED. June 20 and 21 August 15 and 16.

All examinations for white applicants will be held at the Clay Street school building and for colored applicants at the school building on Second street.

The competitive examination of applicants for appointment to the State College at Lexington will be held on Friday, July 19, 1902.

In a pamphlet sent out by State Supt. McChesney, a synopsis of school laws passed by the recent general assembly, he says: "Senate bill 42, the Dye bill, makes teachers in schools and colleges that are preparing persons for examination for certificates ineligible to hold the position of examiner on the county board. The amendment to the old law as to appointment of examiners reads as follows: 'No person shall be eligible as examiner on said county board who is at the time, or for six months previous thereto has been, conducting a teaching in any school, college or university where teachers or those preparing to teach are making preparation to be examined for certificate to teach in the common schools of the state.' This cannot effect the legality of the appointment of examiners made prior to the time the law became effective. It became a law March 28, 1902, ten days after the adjournment of the general assembly, without the signature of the Governor. The bill carried an emergency clause."

The board of examiners for Christian county will still consist of Prof. A. C. Kuykendall and Supt. L. McCartney who were reappointed and qualified in January.

Notice.

All persons having claims against the estate of Mrs. S. V. Rosington, deceased, are hereby notified to file same at once with The Planters Bank and Trust Company. All claims to be paid must be itemized and fully proven according to law.

TOBACCO STATISTICS NOT RELIABLE.

Christian's Crop Declines and in List by Commissioner Nall.

According to statistics gathered by Agricultural Commissioner Nall and just made public the tobacco production in Kentucky for 1901 was 187,285,021 pounds.

Dayton county leads the state as a producer of tobacco with 12,371,020 pounds.

Christian county comes second with something over 8,500,000 pounds, and Logan county third with over 8,400,000 pounds.

Local tobacco men say that in reality the Christian county crop was not less than 14,000,000 and was probably 16,000,000 pounds. Mr. Nall's figures are based on the figures turned in by the assessors which, in a statistical way, are not reliable.
