There is certainly nothing that could be more reassuring to the many homes in the country and any it is not, the real spirit of the season is the spirit of giving. There are so many opportunities to do good, so many ways to add to the happiness of others, that it would be impossible to mention them all. But one of the most important ways is through the sending of gifts and cards. If you wish to send a gift, or to help in some other way, there are many organizations that can give you the information you need. And if you wish to receive gifts, there are many others who would be only too happy to send them to you. The holiday season is a time of joy and love, and we should all do our part to make it as special as possible. So let us all be generous and kind, and let us all enjoy the holiday season to the fullest.
