AUSPICIOUS OPENING OF SECOND SEASON OF THE K. I. T. LEAGUE

SCHEDULE FOR TODAY.
Hopkinsville at Cairo
Clarksville at Paducah
Vincennes at Henderson.

Cairo, Ill., May 11.—Under the most favorable conditions the K. I. T. league season was opened here yesterday; the contending teams being Hopkinsville and Cairo. The locals won the game by the score of 6 to 2. All the runs were made on errors, otherwise the game was fast and interesting. While Cairo is credited with more hits than Hopkinsville they were so badly scattered that they did not count for runs. The score:

	R	H	E
Cairo.....	10	0	0
Hopkinsville.....	6	7	5
Batteries—Cairo, Wilder and Rutledge; Hopkinsville, Morris and Collins.			

AT HENDERSON.

Henderson, Ky., May 11.—Henderson opened the 1904 season here yesterday with Vincennes in the same manner as last year, by allowing the visitors to shut them out without a run. The game was snappy throughout but Henderson's error column showed a total of eight misplays.

AT PADUCAH.

Paducah, Ky., May 11.—The opening game of the season here yesterday between Paducah and Clarksville was probably the fastest ever played here. For sixteen innings the teams battled without either side being able to secure a lead until finally Paducah won out by the score of 5 to 4. The game ended at 8:30 o'clock. Freeman, for Paducah, struck out twenty-two men, which will probably be the pitching record for a long time in this league. Three Clarksville players were put out of the grounds during the game. The score:

	R	H	E
Paducah.....	5	11	8
Clarksville.....	4	12	4
Batteries: Paducah, Freeman and Land; Clarksville, Frakes, Pettit and Weaver. Umpire Setley.			

IN NASHVILLE

The Southern Baptist Convention Will Be Held.

(Special to New Era)
NASHVILLE, Tenn., May 12.—The forty-ninth annual session of the Southern Baptist convention will begin in this city Friday. Twelve hundred delegates and as many more visitors are expected to be present before the day is over. About 500 delegates and visitors arrived today. Former Governor James P. Eagle, of Little Rock, Ark., is president of the convention, and will be on hand to preside. The first important business will be the election of officers. It is thought that former Gov. Eagle will be re-elected president, although other names are being mentioned. The Rev. Lansing Burrows, of Nashville, has been secretary twenty-five years, and his re-election is assured.

The board of trustees of the Southern Theological Seminary, at Louisville, will meet at the Baptist Publication building today and hear the report of President Mullins. The Woman's Missionary Union and the Baptist Young People's Union of the South will hold sessions today.

Transferring Patients.

"The asylums of Kentucky are all crowded with patients," said Dr. Milton Board, Superintendent of the Western Asylum for the Insane at Hopkinsville, who was at Seelbach's Hotel last night. "There are no contagious diseases prevalent, but the space available is not adequate for the demands. On account of the crowded condition of the three asylums of the state, I have overhauled and fitted up one of the wings of the Western Asylum, which had formerly been a male negro ward, and later had been converted into a storeroom and workshop. The space was needed, and so I fitted it up, and it will not only relieve the condition at my place, but will help the Central and Eastern asylums."

CALL IS NOW ISSUED

FOR EXTRAORDINARY TERM OF COURT.

Seats For Tuggle Trial May be Secured at Postal Telegraph Office.

Judge Joseph McCarroll will preside as special judge at the special term of court at the opera house to-night when Mr. L. Aubrey Tuggle, the popular clubman and professional beauty, will be tried for malicious mischief. Judge McCarroll is splendidly qualified. He has issued the following official notice: EXTRAORDINARY SESSION OF CIRCUIT COURT.

Christian Circuit Court, Commonwealth of Ky. } Special Call.
Leslie Aubrey Tuggle.

It has been made known to me that Leslie Aubrey Tuggle has been captured while attempting to flee the realm and make his escape from the clutches of the young ladies whose confidence he has so strangely betrayed and for which he has been placed under bond to appear, and it appearing that there is still great danger of his escape before justice can be done in this case, it is now ordered by the court that a special term of this court shall be held at Holland's opera house in Hopkinsville on Friday evening, the 13th of May, 1904, at 8 o'clock, for the trial of this cause. All parties and witnesses are hereby warned to be present at that hour, in default of which they will be fined for contempt of court and summarily confined in jail.

Triflers with the female should be handled without gloves, or hats, and I hope therefore, that all persons attending this important trial, especially the ladies, will leave their gloves and hats at home. It will be your greatest opportunity, in this world or the next, to assert yourselves.

Joe McCarroll, Special Judge.
Seats for the trial are on sale at the Postal Telegraph office, and the interest which has been manifested indicates a crowded house.

\$1,900 Damages.

Mrs. Mary C. Bennett, widow of Judge Caswell Bennett, was given a judgement in the Henderson circuit court against the I. C. railroad for \$1,900 damages to her land by the elevation of the railroad bed and tracks of defendant's company across the Ohio river bottoms above her land.

Suit For Land.

Mrs. Malissa Bryant Watkins has brought suit against John Roach of Gracey for \$200 and possession of a tract of land lying in Gracey containing about a half acre. It is stated in the petition that the defendant has unlawfully held the land for the past five years. The plaintiff prays for rent at rate of \$40 per year for this time and also that the land shall be restored to her.

JAS. B. ALLENSWORTH

Will Move to Ballard County to Practice Law.

Attorney James Allensworth, of Hopkinsville, has decided to build a home at La Centre, Ballard county, near the residence of his cousin, Hon. MacD. Ferguson.

He will practice in the courts in Paducah, Wickliffe and Cairo.—Paducah News-Democrat.

ANNUAL MEETING

OF WOMAN'S FOREIGN MISSIONARY SOCIETY.

Will Be Held June 10-14 in Methodist Church Here.

The annual meeting of the Woman's Foreign Missionary Society of the Louisville Conference M. E. Church, South, will be held in the Methodist church here June 10-14, 1904.

Dr. Seth Ward, missionary secretary of the church, will deliver the annual sermon. Miss Helen Richardson, who has been a missionary to China for several years and who is at home for a short rest, will make an address on Sunday night and will remain during the meeting. It will be a great privilege to hear these talented, consecrated speakers, as well as others who are expected to be here.

It has been twelve years since the conference met here. There will be more than one hundred delegates and visitors in attendance who will be entertained in the homes of the Methodist people of the city.

The opening meeting will be held on Friday night, June 10th, at which will be delivered the address of welcome and response, the address of the president, and the corresponding secretaries and the treasurer.

A most interesting and profitable session of the conference is anticipated and the public is cordially invited to attend all of the meetings.

RUSSIANS BLOW UP DOCKS AT DALNY TO PREVENT THE JAPS FROM LANDING

Emperor is Anxious to Lead the Forces in the Far East.—Denied That Muscovites Are Destroying Their War Ships.

MILITARY SITUATION AS TOLD BY THE CABLES.

(Cablegram.)
ST. PETERSBURG, May 12.—Viceroy Alexieff telegraphs that the Russians have blown up the docks and piers at Port Dalny to prevent the Japanese from landing.

Emperor Nicholas is anxious to lead his forces in the East and may go to the front.

Rumors from Che Foo and Tokio to the effect that the Russians are blowing up their warships in despair at holding Port Arthur are denied at St. Petersburg.

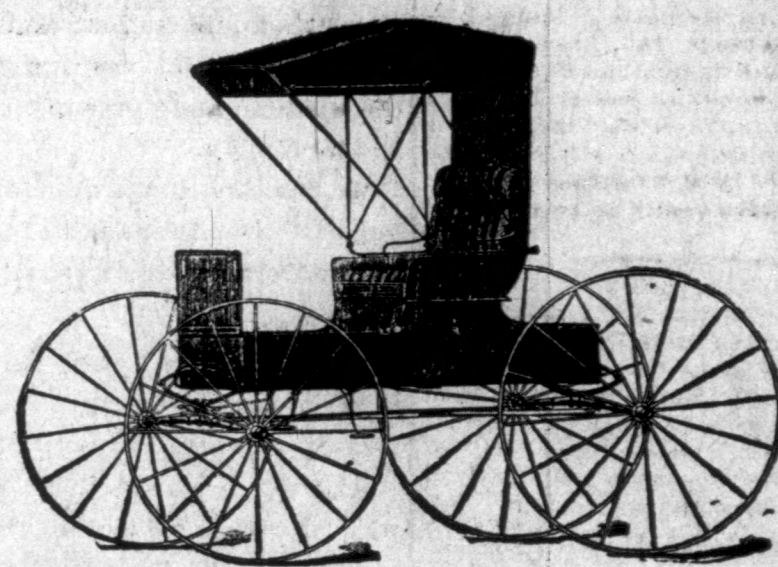

A Russian staff official declares that if the fortress gets into desperate straits, the ships will make a sally, attack the Japanese fleet and inflict as much damage as possible before being sunk.

Russian cavalry forces attacked Anju Monday and were driven off by the Japanese forces. This indicates that Russian scouting parties are in the rear of the Japanese lines. Gen. Kuroki has commenced an advance on Hai Cheng and at the same time is protecting his flank at Liao Yang by a double movement of troops.

Russian troops are still lingering at New Chwang, and it is reported that reinforcements have been sent to Hai Cheng.

A train load of ammunition was rushed into Port Arthur without interference from Japanese forces, but it is known that the line of communication can be maintained only a short time.

WITH PARKER AS THE NOMINEE DEMOCRATS WILL BE VICTORIOUS

Congressman Stanley Regards Outlook For Success in
November as Most Rosy.—Good Chance For Tobacco Bill at Next Session.—
Political Matters.

The Hon. A. O. Stanley, representative in congress from the Second Kentucky district, who was here last night to attend the anniversary banquet of the Athenaeum, returned home this morning, after mingling with his friends and admirers. In an interview the brilliant young congressman expressed the opinion that the tobacco bill, which he says is his hobby, will be successful at the next session of congress. He said:

"It is favored by every Democrat and many Republicans. That it did not pass the senate at this session was that the Republicans didn't know what effect it would have on the revenues. There's not a Democrat on both sides of the house that does not favor it. Another reason that the senate didn't touch the tobacco bill is that the Republicans cut down on all internal expenditures."

Concerning the political situation he said:

"The Democrats are in better shape for the coming contest because of the masterful leadership of John Sharp Williams. Republicans don't know what to expect from him and there's no more comparison between Williams and Payne, the Republican leader, than there is between Napoleon Bonaparte and a colonel of dragoons."

The Republican party is now in control of the blindest and narrowest protectionists that have dominated it for twenty years. There are some strong men among them but they are absolutely wedded to great corporate interests. They have allowed Williams to out-general them and drive them, horse, foot and dragon from the skillful position taken by the wisdom and foresight of Blaine and McKinley."

Mr. Stanley thinks that Judge Parker will be nominated for president by the Democratic national convention.

"Without New York," he said, "it is absolutely impossible to elect a Democratic president and with New York there is an excellent chance to win. I talked with every Democratic congressman from New York and on one or two occasions with Democrats from New York City. They are absolutely sure (as far as politics go) that with a safe, conservative man we are as sure of carrying New York as we are of carrying Kentucky—and for that reason it seems a political necessity that the Democratic candidate should come from New York. Judge Parker has shown that he is uncontestably the choice of the people of New York state, notwithstanding the opposition of Tammany to instruct for any particular candidate at this time."

When asked as to Hearst Mr. Stanley said: "Hearst has made a magnificent fight against the trusts and all Democrats feel grateful to him, but it seems impossible that he should be nominated. He couldn't carry his own state. I have every reason to believe he will support the nominee."

"I have been an enthusiastic supporter of Bryan," said Mr. Stanley, "spoke with him in 1896 and was an elector in 1900. All Democrats, big and little, exercise their right and choice before election and I have too much admiration for his talents and patriotism to think that the leader of Democracy in two campaigns will fail to support the man nominated at St. Louis and the assertion that he will not support that nominee is a grave injustice to Mr. Bryan."

"The Democratic party," said Mr. Stanley in conclusion, "is better organized today than it has been for ten years and there is unity and enthusiasm in Democratic ranks and dissensions among Republicans over their greed for spoils and plunder;

and the profound distrust felt by conservative business men of the present erratic occupant of the white house and his decided predilection for the negro as an officeholder and as a guest all tend to assure us that both Teddy and his colored brother have a short tenure of power and I firmly believe that after March 6, 1905, Booker T. Washington will lunch at Oyster Bay and not at the White House."

An Open Letter.

From the Chapin, S. C. News: Early in the spring my wife and I were taken with diarrhea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy on hand gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. This remedy is for sale by L. L. Elgin.

Williams-McElwain.

Miss Wanda McElwain, of Canton, Ky., and Mr. John H. Williams, of Pembroke, Ky., were married in the parlors of the Maxwell House last evening at 8 o'clock by the Rev. Mr. Golden.

The young people will spend several days in Nashville and will take an extended southern trip before returning to their home in Pembroke.—Nashville News.

A Cure For Piles.

"I had a bad case of piles," says G. F. Carter, of Atlanta, Ga., "and consulted a physician who advised me to try a box of DeWitt's Witch Hazel Salve. I purchased a box and was entirely cured. It is splendid for piles, giving relief instantly, and I heartily recommend it to all sufferers." DeWitt's Witch Hazel Salve is unequalled for its healing qualities. Eczema and other skin diseases, also sores, cuts, burns and wounds of every kind are quickly cured by it. Sold by R. C. Hardwick.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass state could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all drug stores.

LIVES DEARER THAN OUR VERY OWN
How many lives dearer to us than our very own have been placed in needless jeopardy by failure to provide against and forestall the great suffering which too frequently accompanies and follows the bearing of children? That we would do anything within our power to obviate the possibility of such an happening is too patent to admit of question; therefore—mark well this fact—a liniment,
MOTHER'S FRIEND
by name, has been devised, whose function it is to prepare in advance the muscles and tissues intimately associated with parturition.
This liniment is for external application. By its use the parts are relaxed and enabled to withstand not only the actual strain brought to bear on them during accouchement, but also to rally from this ordeal and speedily regain their normal proportions and tonicity. It is not irritating to the most sensitive surfaces, and is applicable to all cases. It's not enough to call it Mother's Friend—it's the friend of the whole family. \$1.00, all druggists. INCREASE IN DUTY

On Strips Is Confirmed By A Cable Message.

"Three pence increase duty strips confirmed, all stock included," was the wording of a cablegram received from England yesterday by Mr. Jas. R. Barrett and as the above states the three pence or six cents additional tax on strips will be in force from now on. As a result of this increase tobacco will be put up in leaf instead of strips henceforth and as a great portion of the tobacco crop has been delivered and most of that delivered has been made into strips, the tobaccoists are expected to be somewhat anxious to secure as much of the remainder to be delivered as possible in order to be safe on one line of tobacco. The price for the weed is expected to be some better from now on for, as above intimated, the buyers will be anxious to secure as much of the weed as they can get, thereby causing an advance in the price of the weed.—Henderson Gleaser.

Were Married.

Marriage license was issued yesterday morning to Dayton Ellis and Maggie Massey, of Christian county, and the county judge made them man and wife in the clerk's office.—Elkton Progress.

FREIGHT WRECK

Occurred on the Hopkinsville Division of the T. C.

A small freight wreck occurred on the Hopkinsville division of the Tennessee Central yesterday afternoon. Three cars loaded with crockery jumped the track and one of them was badly demolished. The cars were attached to train No. 12, going from Nashville to Hopkinsville. There were about thirty-five cars in the train, but only three of them left the track. About fifty yards of track was torn up and trains No. 11 and 12 were delayed four hours. The accident took place between Adairville and Kenwood, four miles from Clarksville. The passenger train due arrive here at 6:30 p. m. was not delayed.—Clarksville Chronicle.

NOT SUMS READY.

A telegram from Chicago says: The Illinois Central budget of expenditures for the present year contains provisions for extensive improvement at terminals and for the installation of the block system.

Preparations are being made to install automatic blocks on the new double track between Memphis and Fulton, a distance of 124 miles, and by July 1, fully seventy miles of this improvement will be completed.

Many miles of roadbed are to be built, the company to use 1,500,000 cubic yards of rock and 500,000 cubic yards of gravel.

SOMETHING ODD.

INTERESTING WEATHER BULLETIN ISSUED.

Quaint Quotations From the Bible and Indian and Folk Lore.

For the first time the government has issued a weather bulletin that is interesting, and upon the most tiresome of subjects, the weather. It is issued by the department agriculture and its author is Edward B. Garriott, professor of meteorology. It is made interesting by quotations from the Bible, Pliny, Indian legend and folk lore.

The bulletin says the weather of the world is governed by different conditions, but in this country a steady south-to-east wind will bring rain in thirty-six hours.

To tell whether it is a rain cloud the professor quotes from Luke xii, 54: "When ye see a cloud rise out of the west, straightway ye say: There cometh a shower; and so it is." Birds fly high when the barometer is high and low when the barometer is low, hence the frequently misquoted prediction: "Everything is lovely and the goose honks high." Before rain tobacco becomes moist, salt increases its weight, cordage tightens, flies sting, doors and windows become hard to shut, red hair curls, lamp wicks crackle, candles burn dim and soot falls down.

Cats are weather prophets. When a cat washes herself good weather can be expected, and bad when she licks her coat against the grain or washes herself over the ears or sits with her tail to the fire. "If the cock goes crowing to bed he'll certainly rise with a watery head," is another quotation. When fish bite readily and swim near the surface, rain may be expected with certainty. The bee is never caught in a shower, and the professor quotes:

"When bees to distance wing their flight Days are warm and skies are bright; But when their flight ends near at home Stormy weather is sure to come."

Plants, says this weather expert, are subject to weather conditions and are safe prophets. The odor of flowers is strongest before a shower, cottonwood and aspen trees turn up their leaves before rain and those of the sugar maple turn down. A Zuni proverb is: "When the sun sets unhappily then will the morning be angry with wind, storm and sand." If the sun before setting appears diffuse and of a brilliant white it foretells a storm, but if it sets in a sky slightly purple, the atmosphere near the zenith being a bright blue, we may rely on fair weather. This is real weather wisdom.

Adjudged Insane.

Watt Elder, a farmer, was tried before Acting County Judge Rodman this morning and was adjudged insane. He will be taken to the Hopkinsville Asylum this evening.

A few weeks ago Elder was stricken with the measles and while suffering from that disease his mind became unbalanced. His condition was, indeed, pitiable and excited the sympathies of all who were present at the examination. Elder is a married man having a wife and seven children.—Owensboro Messenger.

ANOTHER CITY TO GET RELIEF.

Independent Telephone Exchange For Evansville.

Intends to Supersede the Cumberland System.

EVANSVILLE, Ind., May 1.—The Citizens' Telephone company, an independent company, has been organized here and has been granted a franchise by the city. It is capitalized at \$100,000. Daniel S. Ragon is president, and M. S. Sonntag secretary. It is proposed to put in a telephone system at once which is intended to supersede the Cumberland system, against which there has been a hard fight made during the past two years. The Cumberland company's franchise has expired, and it has been ordered by the city to vacate, but refuses to do so. A municipal company was organized, but it was found to be unlawful, and now the independent company takes its place. The new company agrees to furnish telephones at the rate of \$2 to \$4, respectively, for residence and business houses, per month.

Last Rites.

(From Saturday's Daily)
The funeral of the late Dr. W. G. Wheeler took place this morning at Grace Episcopal church at 10:30 o'clock, being conducted by the rector, Rev. Geo. C. Abbott. TOBACCO GROWERS

ARE ORGANIZING TO FIGHT TRUST.

Propose to Make Trusts Pay Right Prices or Quit Business.

The territory west and south of Green River has been placed in charge of James W. Lee of Morganfield, to whom all inquiries should be directed.

This is not a society for tobacco growers alone, but it is for every crop grown by farmers; one society for all agricultural interests. It is organizing in every state in the union, also in Canada. It is the society that fought for dollar wheat and won. It proposes to carry on its work until every crop brings a profitable price, and until the grower takes his profit first, before the middlemen or trusts can touch his fine products. Until farming is elevated to an equality for profits with the best business in the country, and farmers come to the front where they belong.

In this call for farmers to organize special stress is placed on its importance to small cities and country towns. Therefore the merchants are invited to co-operate to the building up of agriculture, which means prosperity for all. Merchants want farmers to get good prices, in fact, farmers cannot prosper without the merchants prosper, hence their interests are mutual. If the farmers and merchants join in this movement to rescue the tobacco interest and put it on more than its old time prosperous basis, it will be the greatest industrial event in the history of the localities affected.

This is not a stock company or society and has nothing to sell to farmers but a membership fee at a nominal price of \$1.00. It believes, through co-operation, that farmers can make their own prices and secure a profitable price for every crop they grow, and that \$1 per farm will pay all the expense.

Foley's Kidney Cure makes the kidneys and bladder right. Contains nothing injurious.

Laundrymen Met.

The owners or representatives of steam laundries in Russellville, Hopkinsville, Bowling Green, Clarksville, Frankfort, Guthrie and Madisonville met at Guthrie and perfected an organization. The purpose of the meeting was to take steps in the interest of the laundrymen and to formulate plans for guarding against certain irregularities that exist in the business. The organization will doubtless at some future time join the Southern Association of laundrymen. The following officers were elected: W. H. Pickett, of Madisonville, president; B. E. Dorris, of Franklin, vice president; Clarence Major, of this city, treasurer.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases.

KICK AND SCREAM

Baby's Awful Suffering from Eczema.

Could Not Hold Her. She Tore Her Face and Arms.

Cuticura Saved Her Life, Says Mother Says.

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good, in fact, she kept getting worse. I used to wrap her hands up, and when she would dress her, I had to put her on the table for I could not hold her. (She would kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no traces of the humor left. I can truthfully say that they have saved her life, and any one suffering as she did, I should advise them to give Cuticura a fair trial." MRS. G. A. CONRAD, Lisbon, N. H., Feb. 7, 1898.

Five years later, viz., Feb. 23, 1903, Mrs. Conrad writes:

"It is with pleasure that I can inform you that the cure has been permanent as it is now six years since she was cured, and there has been no return of the disease since, and I have advised a lot of friends to use the Cuticura Remedies in all diseases of the skin. Instant relief and refreshing sleep for skin-tormented babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure and purser of eczemas, to be followed in severe cases by mild doses of Cuticura Resolvent. This is the purest, sweetest, most speedy, permanent and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted and pimply skin and scalp humors, eczemas, rashes and irritations.

Sold throughout the world. Cuticura Resolvent, 50c. (In form of Chamberlain's Colic, Cholera and Diarrhoea Remedy, 25c. per bottle.) Cuticura Soap, 25c. per cake. Cuticura Ointment, 50c. per tin. Prepared by J. C. Ayer & Co., Lowell, Mass., U. S. A. Send for "Cuticura Skin Book."

ALIVE AND WELL

ARE CHILDREN SUPPOSED TO BE MURDERED.

Had Been Placed By Their Stepmother In the Poor House.

(From Monday's Daily.)

The children whom Grant Thomas and his wife are accused of murdering will be produced in open court at Cadiz today and the negroes will be released from custody.

Thomas and his wife, as New Era readers will recall, were arrested near Roaring Springs last week charged with having slain the man's children by his first wife. They were arrested on a warrant sworn out by the mother of the missing children, who are four and five years old, respectively.

Their disappearance coupled with the sensational charges preferred by the mother caused great excitement in the Roaring Springs vicinity. The rivers and ponds were dragged and woods and swamps searched in the effort to find the bodies.

It develops that Clarissa Thomas, the stepmother of the children, had them placed in the Christian county poorhouse the day before their disappearance had been discovered.

Judge Fowler sent the children to Cadiz this morning.

BLOOD CURDLING

EXPERIENCE WITH A RAVING MANIAC.

Midnight Trial and Lunatic Was Sent to Hopkinsville Asylum.

Probably the most blood curdling experience with a raving maniac that has ever occurred in West Kentucky took place on the farm of James Usher, in Graves county, a few miles from Mayfield Thursday night. The maniac was Sylvester Lane, who is now safe in the Western Kentucky Asylum for the Insane.

Lane has been a farm hand, and worked on the Usher place. Thursday he did his work as usual, and it was not noticed that he was affected in any way. At supper he conversed with his fellow laborers and appeared to be in a jolly mood. He and others of the hired men whose name could not be learned, lingered at the table a little longer than the others, and were deep in conversation, when Lane suddenly sprang to his feet, drew and opened his knife, and with a dive at his companion, swore that he would cut him to pieces.

The other man rushed for the cord to the farm bell, which was suspended through the dining room roof, in the hope of being able to ring the bell and summon help. There was no way of getting out of the room. If he had stopped even long enough to open the door the madman would have been upon him and would literally have chopped him to pieces. He failed to reach the bell cord. The chase continued for several minutes, the hunted man running around the walls of the room, diving under the table and using every means to evade the knife of the maniac, who was always close behind him. In the wild chase he finally succeeded in getting hold of the bell rope and gave it a terrific jerk. But even then help was some time in coming, and the poor man was nearly exhausted when relief did arrive. Meanwhile he ran in a circle, pulling the bell cord every time he passed it.

Several other farm hands and neighbors appeared and the door was opened, allowing the man to escape. But Lane attacked the crowd with all the ferocity with which he had chased the first object of his deranged passion. He was finally knocked down with a fence rail and disarmed. Even then he continued to fight with all the fury of insanity and delivered severe jolts to several of the men who were trying to calm him.

Lane was at length bound to a plank, loaded into a wagon and taken to Mayfield. It was midnight when he arrived there, but Judge Webb immediately had a jury summoned upon being told the facts and proceeded with a trial. Lane was adjudged insane and despatched at once to Hopkinsville, where he arrived Friday afternoon.

During the trip to Mayfield and the trial, Lane never ceased yelling and trying to fight.

His sudden insanity is somewhat of a mystery, as he had appeared to be in the best of condition in every respect. He is unmarried and about 25 years old.

Quick Arrest.

J. A. Gullledge, of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 35c at L. L. The groom is a prominent young man in that section. The bride is a daughter of former Policeman Davis of this city and is an attractive young lady.

MAY CHANGE TIME

OF THE SOUTHERN MEMORIAL DAY.

Movement On Foot to Have It On Jefferson Davis' Birthday.

A movement has been launched to have the Southern Memorial Day changed from April 26th to June 3rd, the birthday of Jefferson Davis, president of the Southern Confederacy. The matter will be brought before memorial association and other bodies.

The Commercial-Appeal, of Memphis, in commenting on the proposed change, says:

"The movement to change the date of Confederate Memorial Day from April 26 to June 3, the latter date being the natal day of Jefferson Davis, should receive thoughtful consideration from those who have the power of fixing it. Mr. Davis will always be the dominant figure on the Southern side of the great civil war. He was the dynamic force that made the Confederacy. He prevented the Democratic national convention, which met at Charleston, from compromising the South on the tariff and slavery questions, and had he but said the word he could have been the nominee of his party and elected president of the Union instead of Lincoln. He chose the more honorable part and threw his mighty influence to his people. They elected him president of their model republic, and he led their lost cause. For them he suffered the agonies of death. For them he was imprisoned, and tortured, and insulted. As the embodied personification of all they believed in, and fought for, and died for, he became the mark of evil abuse, of slander and of vilification. One of the purest patriots this country ever produced, he was denied the rights of citizenship in the Union he had served on the field, in the cabinet, and in the halls of congress. Blaine denounced him as being more cruel and inhuman than the Duke of Alva, and Theodore Roosevelt said that until the word treason is forgotten he will be the arch-traitor. The undying memories of the Confederacy, too sad pathetic to relate, cling about him, and the South can never do him too great honor. As time fades, his fame grows brighter, and in the years that are to come he will be revered by the nation as Lincoln is revered."

I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with. For sale by L. L. Elgin."

CUMBERLAND'S PRESIDENT

Makes Statement in Regard to Chancellor's Decision.

President Jas. E. Caldwell, of the Cumberland Telephone & Telegraph company has given the Associated Press a statement concerning Chancellor Allison's decision in the ouster proceedings against the Cumberland company. Mr. Caldwell said:

"The sensational reports sent out concerning the decision of a local judge of an inferior court, in the Cumberland Telephone & Telegraph company case are unwarranted. Our attorneys have appealed the case to the supreme court, where it will be tried, de novo, and they have not the slightest doubt of the incorrectness of the decision, which, even if affirmed on appeal, could have but slight effect anyway. The appeal vacates the decision of the inferior court, and there is now no decree of any kind against the company. It will be borne in mind that this is a fight between rivals and is not a suit involving money claims. The company was never more prosperous or better established than at present. It regards the occurrence as a disagreeable notoriety, but as unimportant, and not in the slightest degree able to affect its credit or dividends."

One of the greatest blessings a modest man can wish for is a good, reliable set of bowels. If you are not the happy possessor of such an outfit you can greatly improve the efficiency of those you have by the judicious use of Chamberlain's Stomach and Liver Tablets. They are pleasant to take and agreeable in effect. For sale by L. L. Elgin.

After all, the most attractive girl is the one who, although she studies her mirror a good deal, does not neglect her heart.

A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in fourteen months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at L. L. Elgin's and Cook & Higgins.

AMONG THE HEIRS

BELLE MEADE TO BE PARTITIONED.

Passing of Famous Stock Farm Follows an Unprofitable Season.

The filing of a bill in chancery king to the partition of Belle Meade farm among the heirs and also to liquidate certain debts against the estate will probably end the career of that once famous farm as a nursery for the breeding of thoroughbred horses. The estate is in such a badly tangled shape that nothing short of a partition and sale can extricate it from its difficulties. Mrs. Mary H. Jackson, widow of William H. Jackson, Jr., has been making a heroic effort to continue the nursery and she may yet succeed in holding this part of the estate intact, but the chances are otherwise.

The decline and probable dissolution of Belle Meade bring to mind the decadence of the thoroughbred breeding industry which once flourished in middle Tennessee. Fifteen years ago Belle Meade, Kennesaw, Williamette, Cliff Law, Patonia, Avondale and other noted nurseries were selling their yearlings to the auction market every year. Turf history shows what they contributed to the race courses of the country. But now only Belle Meade and Avondale of the old establishments remain and the chances are that Belle Meade will go the way of the others.

Next to Belle Meade Fairview was the largest establishment in the state but Charles Reid got tired and the home of St. Blaise passed from active service as a harem. Mr. Reid disposed of all his horses and Fairview has since been abandoned by famous stallions and matrons that made its name noted. Avondale farm, established by the late E. S. Gardner, is now about the most prominent nursery in the state. The estate became the property of Edward S. Gardner, Jr., upon the death of Mr. Gardner and under the management of the former Avondale has come to be regarded as one of the finest farms in the country.

At its head are such noted sires as Himyar, King Hanover and Imp. Massetto, sire of Tommy Atkins and Warring. Around the course of these premier stallions are twenty-five or thirty fashionable bred matrons that are producing annually equines that perform with distinction. Mr. Gardner has long since quit the sales ring with his crop of yearlings, and instead of selling the produce of Avondale at auction he trains the entire collection and disposes of his horses after they have been developed.

Efforts to induce wealthy turfmen like George Henrie, John A. Drake and the late William C. Whitney to buy Belle Meade all failed, although it is conceded to be one of the best equipped nurseries in the United States. So earnest has been the desire to save the farm as a whole that the business organizations of Nashville have taken a hand in these efforts, all to no purpose.

Kentucky now seems to be the Mecca to which all breeding enthusiasts east of the Rocky mountains turn, and what was once a great industry in Tennessee has shrunk to small proportions. Harry Franklin, Shafer Bros., Joseph Warner, L. V. Tate and Dr. Carr are among those now breeding on a small scale. Walter O. Farmer, secretary of the Highland Park Jockey club, is the only new acquisition to the ranks, he having recently established Edenwald, four miles from the city. He has stocked the place with brood mares, but as yet has secured no stallion.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself. D. R. SYSTEMIC CATARRH SO LITTLE UNDERSTOOD

Claims Many Thousands. A Tragedian's Thanks to Pe-ru-na.

ROBERT DOWNING, THE FAMOUS TRAGEDIAN.

In speaking of Peruna, Robert Downing, the famous tragedian, says: "I find Peruna a preventative against all sudden summer ills that swoop upon me in changing climates and water. It is the finest traveling companion and safeguard against malarial influences. 'You may notice that persons in poor health always find the heat most intolerable; this I avoid by using Peruna. I know by the thermometer that the weather is hot, yet I have felt the heat less this summer than ever. 'The cooling action of Peruna on the mucous membrane makes it invaluable to actors and singers, as it does away with that tendency to sudden hoarseness so apt to overtake one on emerging from

a hot dressing room to a draughty stage.

"To sum it up, Peruna has done me more good than any tonic I have ever taken."—Robert Downing.

Dr. Hartman was the first physician in the United States to accurately describe systemic catarrh. His remedy Peruna, the only systemic catarrh remedy yet devised, is now known all over the civilized world. A person having used it once can never be persuaded to be without it when in need of such a remedy.

Write for a copy of Dr. Hartman's latest book entitled "Summer Catarrh." Address Dr. Hartman, Columbus, O.

STILL AT WORK

TO SECURE FUNDS FOR SOLDIERS.

About \$10 Said to Be Due Each Spanish War Veteran.

Maj. J. Embury Allen, late major of the Second Kentucky volunteer infantry, has undertaken, with Capt. C. C. Calhoun, the collection of the money due the soldiers from the time of reporting to companies for duty to the time of arriving at regimental rendezvous in Lexington. The time is from April 25, 1888, to May 13, 1898, and amounts to about \$10 for each man. Under a recent decision of the United States court of claims this money is due those soldiers who enlisted on the first call; the rejected men who were omitted in former payment and the men and officers who did not receive the benefit of furlough by reason of sickness or other reasons. The men are requested to send their names and addresses, company letter and number of regiment to Maj. Allen and information will be sent to them. This money which Maj. Allen and Capt. Calhoun will endeavor to collect is government pay, as the men have already received state pay for the same period.

Surprised Relatives.

Mr. Edward Petrie, of Red Rock, Oklahoma, is here visiting relatives in the city and county. He is a brother of Mrs. John Danforth and Dr. C. B. Petrie, of this city, and a son of Mr. J. W. Petrie, of Fairview. He left this county twenty-three years ago and had never visited it again until Sunday afternoon, when without having given any previous announcement, he walked in on Mr. and Mrs. Danforth at their home on Ninth street. He will remain in this section for several weeks visiting his relatives and friends.

NO OPPOSITION

DR. STITES AND MR. LONG RE-ELECTED.

New Board of Tax Supervisors Will Meet on Thursday.

(From Monday's Daily.)

The terms of Dr. F. M. Stites and Mr. W. A. Long as school trustees having expired an election was held in the city court room Saturday to elect their successors. The incumbents had no opposition and the vote when counted showed that Dr. Stites had received 102 votes and Mr. W. A. Long 100. One ballot was cast for Mr. W. D. Ennis. Nearly all of the school elections in late years have been rather exciting owing to the number of candidates in the field. The re-election of Dr. Stites and Mr. Long without opposition attested the popularity of these gentlemen and the confidence that the people have in them, and was a well merited compliment to each of them.

Mayor Jonett Henry today announced the appointment of the following board of supervisors of city taxes for the 1904: J. D. Russell, Moses L. Elb and J. E. Buchanan. The board will meet Thursday in the city courtroom and after organizing by electing a chairman and secretary will go over the books of City Assessor Fred R. Dryer. In the event any changes are made in the assessment of property written notices will be served on those whose taxes have been raised. After completing this work the board will adjourn until a later day when the members will reassemble to hear complaints.

AS GAME WARDENS

SQUIRE CAMPBELL AND MR. ALLEN APPOINTED.

Violators of Law Will Be Sternly Dealt With in Future.

Squire Alexander Campbell and Mr. J. J. Allen have been appointed to the offices of game wardens for Christian county. Considerable killing of game, seining and dynamiting fish have been indulged in for some time in this section and the sportsmen petitioned Judge Fowler to appoint someone whose duty it would be to apprehend such lawbreakers and report the matter and have arrests made. Under the new laws the fines for killing game out of season or seining, netting or dynamiting fish are very heavy and from now on all persons guilty of such offenses who are apprehended will be prosecuted to the full extent of the law.

Mr. E. P. Wilkins has resigned his position as constable of the third magisterial district of Christian county. Mr. George M. Clark, formerly keeper of the county workhouse, was appointed to the vacancy.

Mr. J. E. Anderson has resigned his office of deputy constable and has been appointed deputy sheriff.

STATE FAIR

The Kentucky Live Stock Breeders' association has selected Lexington as the place for holding the state fair this year. The fair will be held for a week, beginning September 5. Lexington was the only place considered in view of the fact that Louisville was not a contestant. Local business men figured that the fair would be a failure if held here this year, owing to the large number of counter attractions, principally the World's Fair. The Lexington committee headed by Mayor Combs, appeared before the association at Louisville and offered a guarantee fund of \$10,000, which was accepted. The details will be agreed upon at a meeting to be held in the Lexington chamber of commerce this week.—Louisville Herald.

BANKS AGAIN

Get Decision in Back Tax Cases.

Another victory was achieved Saturday by the state banks and trust companies in the back tax suits against them by Frank A. Lucas, of Paducah, revenue agent of the state-at-large. Judge Upton W. Muir, of Louisville, rendered an opinion at joint session, in which he fully sustained the findings of County Judge Gregory, who had dismissed all the petitions in the test case tried by agreement of counsel before him. Mr. Lucas will immediately carry the case to the court of appeals.

DEATH'S SUMMONS

ANSWERED BY ATTORNEY HARRY FERGUSON.

Passed Away at Home of Sister.—Interment Near Carl.

From Wednesday's Daily: U. S. Commissioner Harry Ferguson, a well-known attorney at the local bar, died this morning about 8 o'clock at the home of his sister, Mrs. William Jones, on O'Neal Avenue. He was fifty-eight years of age and was a native of Christian county. He received a good education and completed his legal studies at Ann Arbor, Mich. He was a veteran of the civil war, having fought on the Federal side, and was a corporal in Co. H, 48th Ky. Infantry, volunteers. He practiced his profession continuously in Hopkinsville and was regarded by the local attorneys as exceptionally capable. He was a close student, a skillful pleader and faithful to the interests of his clients. Poor health had for several years interfered seriously with his work. He was removed yesterday from his apartments down town to his sister's residence in order that he might receive careful nursing and constant medical attention. IMPROVEMENT

SHOWN IN THE CROP CONDITIONS.

Wheat Looking Better and Early Corn in Good Shape.

The following is the Kentucky crop report, issued from the state weather bureau:

Very favorable weather prevailed throughout the week. Work was vigorously prosecuted, and growing crops advanced fairly well. Light showers at the close of the week very beneficial.

Wheat shows considerable improvement, but it had such a poor start and was so badly winter-killed that there cannot be anything like a full crop. It is so thin in some fields that cord is being planted in its place.

Corn planting progressed rapidly and was nearly completed. A very large acreage is being put in. The early planted corn is coming up better than was expected.

Tobacco plants are in good condition in most localities and preparations for transplanting have begun; the acreage will not be quite as large as usual.

Oats, rye, clover and grasses are more promising, but winter oats is rather thin.

Hemp is coming up well. Gardens and potato crops are late, but are now doing much better.

Reports in regard to fruit vary greatly; in the central parts of the state most of the peaches and a great many apples were killed, but in the northeastern and the extreme western counties the damage is not so great. A fair crop of strawberries is expected.

DEATH FOR STANLEY VOTE OF COUNTIES

Famous Explorer Passes Away in London.

LONDON, May 11.—Sir Henry M. Stanley, the famous African explorer, is dead. He was conscious to the last, and was able to recognize his wife a few minutes before the end came.

Sir Henry had been in failing health for some time. Pneumonia caused death.

Sir Henry Stanley was an Englishman by birth but came to America as a stowaway when a lad. He was adopted by a citizen of New Orleans named Stanley and took the latter's name. He served in the Confederacy, and after the Civil war, having a taste for adventure and travel, went to Africa. He soon became famous as an explorer and hunter, leading several expeditions into the heart of the dark continent. His most notable exploit was his rescue of Livingston, the British explorer, who was lost near the head of the river Nile. This expedition was financed by the New York Herald, and for finding the dying Livingston Stanley was knighted by Queen Victoria.

Of recent years he had devoted himself to literary work and lecturing.

CHIEF ENGINEER.

WASHINGTON, D. C., May 11.—John F. Wallace, of Chicago, general manager of the Illinois Central railroad, has accepted the appointment of chief engineer in charge of the construction of the Panama canal at a salary of \$25,000 a year. The task will require his residence on the isthmus for the entire period of construction, which is estimated at about ten years. He is one of the most eminent engineers in the country, and has been especially noted for his executive ability in handling men.

A Smallpox Remedy.

A correspondent of the Stockton, California, Herald, writes as follows: "I herewith append a recipe which has been used, to my knowledge, in hundreds of cases. It will prevent or cure the smallpox, though the pitting is filling."

"When Jenner discovered cowpox in England, the world of science huddled an avalanche of fame upon his head, but when the most scientific school of medicine in the world—that of Paris—published this recipe as a panacea for smallpox it passed unheeded.

"It is unfailing as fate, and conquers in every instance.

"It is harmless when taken by a well person. It will also cure scarlet fever. Here is the recipe as I have used it, and cured my children of scarlet fever, and it cured smallpox when learned physicians said the patients must die:

"Sulphate of zinc, one grain; foxglove, digitalis, one grain; half a teaspoonful of sugar. When thoroughly mixed, add four ounces of water. Take a spoonful every hour. Either disease will disappear in twelve hours. For a child smaller doses, according to age.

"If counties would compel their physicians to use this there would be no need of pest houses.

"If you value advice and experience, use this for that terrible disease."

TRI-STATE FAIR.

(Special to New Era.)

EVANSVILLE, Ind., May 11.—There was a meeting held here at the St. George Hotel of the executive board of Kentucky-Indiana-Illinois fair circuit. Those present were President J. F. Richardson, Secretary Jacob Zimbro and J. C. Haines.

The dates of the Chisney fair were changed from September 12-17 to August 18-20. The circuit is now composed of the following cities: Guthrie, Ky., July 25-30; Madisonville, Ky., August 1-6; Uniontown, Ky., August 8-13; Mt. Vernon, Ind., August 15-20; Booneville, Ind., August 22 to September 3; Princeton, Ind., September 5-10; Carmi, Ill., September 10-15; Chisney, Ind., August 16-20; Henderson, Ky., September 27 to October 3.

One of the most important matters of the meeting was that each association decided to give more running races which seem to be more popular. The question as to whether to recognize horses that race in St. Louis brought up, and Secretary Zimbro decided that they would be allowed to start.

There will be another meeting, probably in Henderson July 18.

SPECIAL AGENT

Government Man Making Inspection of Crops.

Evolution of Man.

The Department of Anthropology
at the Louisiana Purchase ex-
position is not confined, as is usual to the
past. One of the permanent Wash-
ington University building is de-
voted to relics and inanimate exhibits
of the department of anthropology.
More interesting, however, is that
branch of anthropology which oc-
cupies a large tract of ground just
southwest of the university build-
ings. A park has been laid out in
which are located villages occupied
by representative families from var-
ious primitive peoples. Included
in this outdoor branch of the depart-
ment of anthropology are workshops
of the Indians, types of buildings of
native construction according to the
architecture prevailing among the
least civilized.

Perhaps the most notable feature
of the department is presented in
what is known as the Industrial
building, a large structure occupying
an elevation overlooking the villages
of the tribes. In this building will
be conducted an Indian school with
its industrial branches of carpentry,
smithing, tailoring, housekeeping
and other occupations now taught in
the Indian schools conducted by the
government. The pupils have been
brought from the elements and will be
taught during the world's fair in the
presence of visitors. In the In-
dustrial building will be carried on
by Indians representing many tribes,
the typical aboriginal industries,
such as skin dressing, basket weav-
ing, pottery making and stone chip-
ping. The workers in these indus-

THE PERPETUAL WAR

There is always a fight
going on in every human
body between health and dis-
ease. On one side are poor
food, bad air, over-work,
worry, colds, accidents. On
the other are sunshine, rest,
cheerfulness and nourish-

The reason Scott's Emul-

health is because it gives so
much more nourishment than
you can get in any other way.

WHAT AILS YOU

the U. S. mail will bring you the best medical
advice for only the cost of writing
materials and stamps.

Many people owe their present good
health to the fact that they consulted Dr.
Pierce by letter, giving him all possible in-
formation about their condition, symptoms,
etc., and received in return good medical
advice which cost them nothing. Write to
Dr. R. V. Pierce, founder of the Invalids'
Hotel and Surgical Institute, Buffalo, N. Y.
Dr. Pierce by no means confines himself
to prescribing his well-known medicines.
He tells you in the most common-sense
way what ails you, what you ought to do,
what line of treatment should be followed
out in your particular case, and if your case
does not indicate the need for this propie-
tary medicine, he tells you plainly and
frankly what you do need, and the best
possible method of improving your health.

Dr. Pierce treats many chronic cases at a
distance, through the mail and all you have
to do is to write him your symptoms.
"During my two years of married life I have
not had good health," writes Mrs. Daisy Stan-
dard, of 608 S. E. Platte Avenue, Leavenworth,
Kansas. "I was all run-down, and my husband
got me to write to Dr. Pierce. I got an early
reply telling me what the trouble was. I com-
menced taking Dr. Pierce's Favorite Prescrip-
tion, and also the 'Pleasant Pellets,' and now
can say that I feel like a new woman. I do all
my work and do not feel tired out like I used to.
I have taken eight bottles of the 'Favorite Pre-
scription.' It makes one feel well and strong."
Dr. Pierce's Pleasant Pellets cure dis-
eases and sick headache.

tries will be the venerable exports of
the various tribes. Thus the visitor
is enabled to see the aged Indian
making arrows and his grandson con-
structing a wagon under the same
roof, illustrating the great advance
made by the Red race since the pur-
chase of the territory of Louisiana.
The Industrial building itself is an
exhibit, having been constructed in
part by Indians trained in govern-
ment schools.

The department of anthropology is
a striking advance over a previous
department of that science at other
expositions in that it supplements
the historical and the archeological
with the living groups and animate
exhibits.

THE SUNDAY SCHOOL.

LESSON VII, SECOND QUARTER, INTER-
NATIONAL SERIES, MAY 15.

Text of the Lesson, Luke xv. 11-24.
Memory Verses, 17-19—Golden Text,
Hosea vi. 1—Commentary Prepared
by Rev. D. M. Stearns.

(Copyright, 1904, by American Press Association.)

The lesson today is only one part of
the threefold parable of this chapter,
the whole setting forth the great love
of God, the Father, Son and Holy
Spirit, for lost, helpless, erring human-
ity, and the sympathy of the angels
with God in His joy over the salvation
of the lost. The lost sheep suggests
our inclination, because of sin, to go
astray from God (Ps. lxxviii. 3; cxix. 176;
Isa. lxxxiii. 6; 1 Pet. ii. 25); the lost piece
of money indicates our helplessness,
our inability to restore ourselves and
our deadness to a sense of our condition
(Rom. vi. 6; Eph. ii. 4, 5), while the sons
of today's lesson illustrate the selfish-
ness, ingratitude and rebellion of sin-
ful man, and also the self righteous-
ness and lack of sympathy with God
of many who profess to be His.

It is very plain that neither of the
sons in our lesson knew his father;
they neither trusted nor enjoyed him. It
was God's constant complaint of Israel
that notwithstanding all He had done
for them they knew Him not (Isa. i. 3;
Jer. viii. 7; Hos. iv. 1, 6; v. 4; Mic. iv.
12). Most touching is our Lord's word
to Philip on the night before the cruci-
fixion, "Have I been so long time with
you and yet hast thou not known Me,
Philip?" (John xiv. 9.) It must be a
great grief to Him when we talk or
act as if we knew Him not. All fear
or anxious care or fretfulness, anything
but the rest and quiet of calm confi-
dence, is an indication that we know
Him not as we might.

The younger son illustrates those who
prefer God's gifts to God Himself—a
present selfish enjoyment rather than
the love of God and the comfort of His
presence. Cain, who went out from
the presence of the Lord to do as he
pleased; Esau, who preferred the pre-
sent enjoyment of a mess of pottage to
his God given birthright; and Israel
preferring Egypt and its ground fruits
to the heaven sent manna and the prom-
ised land are illustrations of some
phases of the prodigal son. When we
turn away from God, who is the foun-
tain of living waters, and seek to sat-
isfy ourselves with aught else, even
with His best temporal gifts, we are
hewing out cisterns, broken cisterns,
that can hold no water, and sooner or
later we shall surely come to want (Jer.
ii. 13; John. iv. 13, 14). For further
comment on this line of conduct, or
misconduct, see Eccl. i. 1, 2; ii. 10, 11.

There is a phase of the younger son's
experience seen in the lives of those
believers who make more of the bless-
ings of justification, adoption and sanc-
tification than of Jesus Christ Himself,
in whom dwelleth all the fullness of
the Godhead bodily, and while such
have their happy seasons they often
begin to be in want of a new blessing,
whereas Jesus Christ Himself would
always satisfy.

The far country is this present evil
world which lieth in the wicked one
(Gal. i. 4; 1 John v. 19) and which al-
lures us away from God. It is all about
us on every side. Vain is the help of
man, the citizen of this world, when
once the soul begins to hunger for God,
but oftentimes there must needs be a
deeper humiliation ere the soul will
whole heartedly and persistently turn
to God. First a sense of want, then
seeking help from the world, then a
beastly appetite—these are often the
developments ere a man begins to see
himself as he really is. We read in 1
Cor. v. 5, of one delivered to Satan for
the destruction of the flesh, that the
spirit may be saved in the day of the
Lord Jesus. In Job xxxiii. 14-30, we
read how God does everything that is
possible to lead men to turn to Him,
for we must be brought to the end of
ourselves before we will think rightly
of our Father's house and love and
plenty.

Having realized by bitter experience
something of his own heart and of the
cold world into which he had wandered,
his thoughts and then his feet turn
homeward to the love and plenty of
his father's house. But he does not
yet know his father, and thinks only
of the possibility of obtaining a ser-
vant's place in his father's house. He
did not dream of the welcome and the
full restoration that awaited him; nei-
ther can the sinner understand the
heart of God and the free justification
and the full acceptance which await
him if he will only return (Rom. v. 8;
iii. 24; Eph. i. 6, 7). Our Lord in this
parable tells out the heart of His and
our Father in heaven and teaches us
that God sees the first motion of the
heart toward Him and meets the re-
turning one more than half way.

See God clothing His sinful Adam
and Eve with coats of skins which He
had made (Gen. iii. 21). See the robe
of righteousness and garments of sal-
vation of Isa. lxii. 10; II Cor. v. 21;
the ring and royalty and authority of
Gen. xli. 42; the shoes and precious promise
of Deut. xxxiii. 25, and consider what
a welcome he here described as being
ready for every returning penitent—
not only forgiveness of sins, with
righteousness and full restoration to
position and inheritance and authority,
which was lost in Adam, but also true
fellowship and great joy, foretastes of
the kingdom. See Est. viii. 15-17, as
a helpful light on this. The elder
brother reminds us of those Christians
who feel envy and irritation when God
blesses unworthy ones. He had a
distinct appreciation of his own mer-
its, talked of stern performance of
duty, but did not enjoy the privileges of
a son. He neither knew nor enjoyed
the father's love, yet see his father's
wonderful word in verse 31, and lay
it to heart.

QUICK WORK.

R. C. Moorefield of Hopkinsville Tells of a Case.

Quick work counts. Results tell the tale. No delay about Doan's Kidney Pills. They do their work quickly and well. Here's local proof of it.

R. C. Moorefield, Sr., real estate dealer and associated with the Christian County Title Co., residing at 222 W. 17th St., says: "For several years the condition of my back and of the kidney secretions furnished ample evidence that I was suffering from kidney disorders. The aching in my back would come on by spells often so severe that it was painful for me to stoop, to straighten up or to attempt any sudden movement. I saw Doan's Kidney Pills advertised locally and thinking that they might help me got a box at Thomas & Trahern's drug store. I had used them only a few days when I noticed a marked improvement in my condition and I continued the treatment. It did me more good than any medicine I had ever used, and that is putting it mildly. You may publish my statement at any time and I will do all I can to let the value of Doan's Kidney Pills be known."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

General Kuropatkin Refused to Give Battle and Is Pursued By the Victorious Japs.

(Cablegram.)

ST. PETERSBURG, May 7.—Port Arthur and the 4,000 men believed to have been left there under General Stoessel have been abandoned by Viceroy Alexieff and General Kuropatkin and must fight their battles alone.

The Japanese soldiers 30,000 of whom have been landed on Kinchou Bay, within a short distance of the railroad have seized the road and cut off all communication between the beleaguered city and the world. Admiral Togo and the Jap ships are maintaining an absolute blockade by sea.

A late report from New Chwang says that 10,000 Japanese soldiers, who landed yesterday or early today within eighteen miles of Port Arthur, are now marching to the city.

JAPS LAND.

ST. PETERSBURG, May 7.—The Japanese forces that have swarmed into the Lia Tung peninsula are variously estimated at from 20,000 to 30,000. The landing of the Japs was practically unopposed, the Cossacks evacuating the town without resistance.

United States Minister Jackson Goes to Present His Credentials.

(Cablegram.)

VIENNA, May 9.—Mr. Jackson, the United States minister to Greece, Roumania and Serbia departed for Belgrade today, where he will spend a few days and present his credentials to King Peter. A Belgrade dispatch

KING PETER I. OF SERBIA.

says that elaborate arrangements are being made for the king's coronation June 15, the anniversary of his election to the throne by the Serbian parliament. The coronation will take place at Kostertitz, the ancient place for the coronation of Servian kings, where the late King Alexander was anointed and crowned.

C. E. Convention.

The fifteenth annual convention of the Christian Endeavor Society of Kentucky is in session at Glasgow with a large attendance. The Rev. J. L. Wyatt, of this city, is the retiring president. It was decided to hold biennial meetings hereafter in order to alternate with the international conventions.

Following are the officers for the next two years: President, the Rev. R. O. Hirwood, of Lexington; state corresponding secretary, Charles F. Evans, of Lexington; treasurer, Paul Mitchell, of Louisville; junior superintendent, Miss Ivey Demoss, of Newport; superintendent of prison work, Miss Elizabeth Shauer, of Louisville; first assistant secretary of prison work, Miss Catherine Whitfield, of Paducah.

ance. The Russian authorities at St. Petersburg view the situation stoically and say that Port Arthur is impregnable and is provisioned to stand.

REFUSED TO FIGHT.

(Cablegram.)

ST. PETERSBURG, May 7.—Gen. Kuropatkin at the last moment decided not to give battle to the Japs at Feng Wang Cheng, so he fell back on the approach of the enemy. He was, however, pursued by the Japs with considerable loss.

No news has been heard from Port Arthur for twenty-four hours and the telegraph company refuses to accept messages for that place.

CITY BLOCKED.

TOKIO, May 7.—It is officially announced here that the harbor at Port Arthur is completely blocked.

The Japanese troops destroyed the railroad at Port Adams, which cut off Port Arthur by land, while Admiral Togo with his fleet stands in front of the harbor ready to bombard and complete the work of destruction unless city surrenders.

BIDS REJECTED

FISCAL COURT ACTS IN NEW JAIL MATTER.

Wanted Bids For Jail and Residence Separate.—Will Advertise Again.

The fiscal court Friday rejected all bids for the erection of a new jail and residence. There were a number of bids filed but all contractors seemed to have misunderstood the manner in which the court wished the bids to be made. They wanted bids to be made on the jail and the jailer's residence separately, and this was not done. The committee was ordered to again advertise for bids to be received until 12 o'clock on May 27th., all bids to be made on the jail building and the jailer's residence separately. Court then adjourned to meet again on May 27.

Women Who Wear Well.

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well.

When the Sap Rises

Weak lungs should be careful. Coughs and colds are dangerous then. One Minute Cough Cure cures coughs and colds and gives strength to the lungs. Mrs. G. E. Fenner, of Marion, Ind., says: "I suffered with a cough until I ran down in weight from 145 to 92 lbs. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by R. O. Hardwick.

Talmage Sermon

By Rev. Frank De Witt Talmage, D.D.

Los Angeles, Cal., May 8.—Kindness and consideration for all of God's creatures is the preacher's theme, and he pleads that man should value the affection of the dumb creation no less than he should respect its rights, since divine wisdom has placed it in his care. The text is Deuteronomy xxv, 4, "Thou shalt not muzzle the ox when he treadeth out the corn."

This is the age of machinery. This is the time when man is not limited in his operations to the work of his two hands, but with his little finger can lift a lever which has the strength of a thousand hands; when, instead of his being content with seeing only such things as his eyes perceive, he calls to his aid the telescope and the microscope that multiply his power of vision a thousandfold. The old fashioned spinning wheel has been displaced into the mighty Belfast linen mills. The old fashioned scythe has evolved into the swift mowing machine, which goes singing through the harvest fields. The old fashioned prairie schooner has long since given place to the tireless velocity of the lightning express, which never stops by day or by night except, like a thirsty monster, to take a drink. The old fashioned messenger, who on horseback used to carry back to a king the news of a battle won, has been superseded by the telegraph wires and the electric cables, which in almost an instant can put continents within speaking distance and have put the islands of the seas in communication with the mainland.

The patent offices in Washington are crowded with innumerable inventions for the saving of labor and time. In none of them, however, is the contrast between modern and ancient methods so marked as we see it when the mammoth flour mills of Minneapolis are compared with the custom referred to in the text. In that great city of the northwest not only is the grain almost instantly changed into flour by the best of modern machinery, but practically not one grain is lost. Upon the old fashioned thrashing floor everything was different. There a team of oxen would be harnessed to a collection of boards nailed together. Then these boards would be dragged over the grain and the chaff would be broken from the kernels of wheat. Then the winds would blow over the thrashing floor and separate the chaff from the wheat.

Such were the thrashing floors of the ancients. Now, as Moses went in and out of the country he saw a great many of these thrashing floors. Furthermore, he saw that among their owners there were a great many mean men in those days, as there are in our own days. He saw that these mean men nearly always first showed their meanness to their beasts. They not only overworked their oxen, but they underfed them. Their meanness was most emphatically demonstrated when thrashing. Fearing lest their hard worked oxen might reach down and pick up from the thrashing floors a stray mouthful of grain to eat, these mean farmers would muzzle their beasts so that the hungry animals could see the food and yet not eat any. Now, Moses says in a practical way: "These men must be taught to be merciful to their beasts. I have made a law requiring them to obey God and be just in their dealings with their neighbors. Now I will make another law requiring them to be liberal in their provision for the animals which work for them." Then the great lawgiver of the Hebrews sits down and writes these words of his text: "Thou shalt not muzzle the ox when he treadeth out the corn."

Moses was the first great statesman that I know of who recognized the rights of dumb animals. It is a significant fact that in this early code of laws he should have given legal rights to animals as well as to men and women. It was a sound and righteous course, and I am glad to remember that we, too, have not only laws to prevent the ill usage of animals, but also in the humane society an organization to see that those laws are enforced. I want to show you this morning why every Christian should be in touch with that society and that its principles should be applied to all classes and all ages. There is no reason why the admonition should be limited to the farmer. The boy should be taught to be good to his pet dogs and squirrels; the drayman should be compelled to lighten the load if his horse is too weak to draw it; the hackman should be required to blanket his steed shivering in the chill blasts of winter; the sportsman should be prohibited shooting the mother bird in nesting time. I would try to show that the Christ who was born amid the lowing of the cattle and the bleating of the sheep and the neighing of the horses, whinnying for their oats, is today the friend and protector of the dumb brutes as well as of our fellow men.

Cruelty Degraded.
The Humane Society of America should be accounted one of the best of societies. Its work has a deeper and a wider significance than some of us may have heretofore supposed. The evil of cruelty to animals does not end with the inflicting of pain and injustice on the dumb brutes. But as the small throbbs tumor, nestling under the fair skin, if let alone, may reach out its fatal roots toward the heart, so the

evils of cruelty against dumb animals may at last reach out for the heart of man itself. Injustice against the dumb brute inevitably paves the way for injustice against the dumb brute's master. If a boy delights to torture a dog or a cat or a mouse, there will surely come a time when that boy, grown into a man, will delight in torturing his fellow beings.

A man's nature is degraded by indulging in cruelty to animals. He loses his manliness and acquires the nature of a brute. He undergoes in his life-time the metamorphosis that the orientals believe he suffers after death. In the far east there is a popular belief held by multitudes; it is a belief in the transmigration of souls. This means, in popular interpretation, that after a man dies his soul passes into the body of a dog or a cat or a horse or a lion and so lives on through the coming ages. If he is a mean man then he becomes a mean beast like a jackal or a hyena, if a good man then his soul takes upon itself the form of a noble beast; but though in Christianized America we do not believe in the transmigration of souls we may see around us an analogous phenomenon. When a man abuses a dumb brute he is not punished by having his soul at death pass into the body of a jackal, but he takes on the character of those cruel, bestial four legged scavengers of the desert, and he becomes one of them in his nature. Every time the old Mexican skinned a lamb alive, thinking that thereby the meat was made the sweeter, he destroyed that moral sensitiveness which enabled him to distinguish between right and wrong. Every time a boy transfixes a fly with a pin and then laughs to see it wriggle and squirm in its death agonies that boy is fitting himself to become a monster, a murderer and a destroyer of men. Nero, the Roman demon, became the inhuman monster he was by first, as a boy, learning to take pleasure in the sufferings of his nursery pets. Every man takes upon himself the heart of a savage animal when he abuses the helpless dumb brutes that God gave to him as dependents.

Cause of Moral Degradation.
What is today one of the chief causes of the moral and spiritual as well as the temporal degeneracy of Spain? It is without doubt due to the bestial and brutalizing tendencies of the merciless bullfight. When on the Sunday following Easter and on subsequent Sundays the 10,000 spectators gather about the arena of Seville or the 12,500 watch the arena of Madrid and the 17,000 encircle the arena of Valencia, they are gazing in the eyes which have been the moral and spiritual death of their country. These Spanish bullfights always take place on Sunday because they are held to be the sacred national game. A famous American traveler tells us that at each bullfight between six and eight of the fiercest kind of bulls and from twenty to forty horses are killed. The waving of the red mantles, the shooting of the darts, the arena soaked with blood, the screams of the dying horses dragging themselves around, sometimes with their entrails in full view of the excited populace; the mad charges of the enraged bulls, combine to make a scene of horror indescribable and one which it is impossible for the civilized American to fully grasp. When the famous Francisco Romero de Runda taught the Spanish people how to scientifically abuse and madden and torture to death a four legged brute he made it possible for the people themselves, by looking upon such scenes of horror, to become worse than brutes. No human being can be unmerciful to a beast without himself after awhile growing merciless in his dealings with his fellow men.

Trained by Kindness.
The Humane Society of America, in teaching man to be kind to the dumb brute, has a second practical mission. It teaches that harshness and bitterness and cruelty do absolutely no good in the training and the true subjugation of an animal. A cruel master never was able to get the best results out of a horse. Blows and kicks and cuffs only make a stubborn horse the more stubborn and the balky animal the more set in his traces. I never learned this lesson in a more impressive way than when I passed two summers almost within a stone's throw of one of the best stock farms in this country. What magnificent animals those were! Racing horses were not raised there, but the best blood for carriage horses and roadsters of all sorts. Their clean limbs, their flashing eyes, their high strung, nervous organization, made those animals the pride of almost every stable they entered. Yet the whip was never used upon them. They were trained almost entirely by kindness. After the colts had been allowed to run in the fields for about three years, always, however, being petted by their owners, they were ready for the harness. The first day on which the bridle was put upon them a strap was fastened on the fore foot to teach them that they must mind. That was all. After the first two or three days the horse learned that if he plunged the strap would be applied to raise his forefoot and keep him on three legs. Having learned the lesson he ceased to plunge, and the use of the strap was discontinued. Then these colts were quietly hitched by the sides of the older horses and driven out to plow. The drivers never jerked them, but always talked kindly to them and coaxed them. And though those horses seemed to have within them all the pent up ambition of Job's war charger, "smelling the battle from afar," yet in the hands of their kind masters they became gentle, lovable and docile.

Power of Gentleness.
An old, grumpy, dyspeptic philosopher once said, "The more I see of the better I like dogs." That is not my idea. But the more I see of

dogs and horses and cattle the more I think they are like men. Supposing you were a horse hitched to a carriage. Supposing every time you made a mistake there was a whip like a knife ready to cut into your skin, would not your nerves be continually unstrung? Would you not always be ready to jump, to shy and to rear? Supposing you were in a stall with your head tied to a halter and the hostler wanted you to move over to the other side of the stall, and instead of placing his hand gently upon you and saying quietly, "Now move over," he gives you a savage kick in the stomach or a cuff upon the side of the head that made your ear ring and your brain dizzy with pain. What would you do? Would you bite and kick him if you got the chance? I doubt whether human nature would be as long suffering as equine nature under such provocation. But if every time that hostler came around you got a caress, or a piece of apple every time he applied the curry-comb, and a kind, reassuring word every time a shrieking engine came past, I think that hostler or driver would be loved and trusted and obeyed just as my little child has, through my kindness, learned to love and trust and obey me. "The more I see of men the more I love dogs!" Oh, no; the philosopher was wrong. But the more you see of horses and dogs the more you ought to learn to treat them with the same gentleness with which you should treat your fellow man. Curses and blows and yells and growls never made a nervous horse trustful or an obstinate horse docile. Kindness will win submission in an animal, where terror and fear can never produce it.

Justice For the Brute.
The Humane Society of America demands justice for the dumb brute because the equine laborer is always worthy of his hire. The horse has just as much right to his oats as the farm hand has to his noonday lunch, the ox to his mouthful of grain as the owner of the thrashing floor has to his loaf of bread. If it is baked. The robin that sings in our cherry tree has a right to his living as well as the little child that eats at our dining table. In the great economy of nature every creature was created for a purpose, and if that creature fulfills a good purpose then you and I should try to make its life happy, as that creature is trying to make ours.

Did you ever stop to think how much you and I are indebted to all those "four footed beasts of the earth and wild beasts and creeping things and fowls of the air" which Peter saw in vision let down from the heavens in a great sheet when he lodged with Simon the tanner? The horse! How many of our burdens he has carried! How many happy times we have had when being drawn by him over the country roads! In how many scenes of merry-making has he been an essential part! And often in times of sadness he has come to our help. The birds! Yes, they, too, are worthy of their hire. They are our woodland prima donnas, our songsters and songstresses, that make the day, as well as the night, vocal with music. The fowls of the barnyard and the cattle of the fields—they, too, are worthy of their hire. The bone and muscle and brain of man come from their flesh. Even the humblest creatures are sometimes of great value to man.

"I saw a hideous snake this afternoon," I said last summer to a Michigan farmer. "It seemed to be all colors and I caught it in the middle of the road." "Did you kill it?" "Of course I killed it. What are snakes for but to kill." "No, my friend," he answered. "All snakes are not to kill. The poisonous snakes are to kill, but not those that are not poisonous. The snakes we have around here, for the most part, are a great blessing to the farmers. They kill the bugs and insects which destroy the crops. Snakes are not always the enemy, but often the friend of man." Yes, my brother, we should not only leave the ox unmuzzled upon the thrashing floor, because the laborer is always worthy of his hire, but the sheep and oxen and cattle and horses and birds and fishes, and sometimes even the snakes, are among the best and the most faithful laborers we have.

The Love of Animals.
Again, I assert that we should honor the Humane Society of America because I sometimes think that the birds of the air, as well as the beasts of the earth, may have an ardor of affection even greater than that of man if that loving power of the heart is ever allowed to develop. I believe that a dog can love as a man can love. I believe a horse can love as a man can love, and a bird also. We should be very careful lest we trample upon the hearts of the dumb brutes, as some of us too often trample upon the hearts of men. "What! A dog love as a man loves? Absurd," says some one. Is it absurd? Have you never heard of a dog dying from grief because his master died? My father once had a noble greyhound. When he went far away from home that dog became so lonely without my father that he refused to eat, and literally died from grieving for his master. Absurd! Did you never see a dog grieving among the chief mourners at a funeral? Again and again we tried to drive Beauty, a little sky terrier, out of the room of death. But he would not go. Under the casket he lay, hour after hour. Mournfully he went from room to room after the undertaker had carried the precious burden away to sleep among the flowers. For days and weeks Beauty was hunting. He was always hunting. He was hunting for the dead. Have you never had a Beauty in your home?

Is it absurd to suppose that the horse and the dog, and even the bird, cannot love as man loves? Then why did that little pet of Mrs. Thomas A. Hendricks, the wife of the vice president of the United States, give a frightened cry

and fall off her perch and die when her mistress one day lost her patience and cried out to the feathered singer, to whom she had never before spoken a cross word: "Be still! I tell you, be still!" Ah, those who have had loving pets know to some extent the heights and the depths of their affections! You should be kind to the dumb brutes and the feathered companions of your lives because in a sense they can love as we ourselves can love.

The World Not For Man Alone.
But, lastly, we should be kind and gentle and loving toward the dumb brutes because God loves them, and what God loves we should not despise. I used to think that God created this world for man. I used to think that all other worlds were merely empty, burned out worlds like the moon. I used to think that the other worlds were not worth the decorating and upholstering because man was not there. But now I believe all worlds are created as our own world was created because God loves the beautiful and has declared that everything he created in the universe was good. Yes, God "hath made everything beautiful in his time." In his eyes the trout springing out of the brook and sporting in the eddy is good; therefore we should not catch it for mere wanton sport to let it rot upon the bank. God tuned the throat of the nightingale and the lark to sing after the twilight, and in God's sight their music is sweet. As our Father loves the birds we should not think it silly to throw a few crumbs into the snow bank for the snowbirds which have been caught in the blizzard, nor to leave for our feathered friends a cup of water upon the window sill in times of a drought.

God loves the lambs. He made the sheep's gentleness the symbol of a divine gentleness. Christ was led as a sheep dumb before his shears, and as a lamb at the slaughter he opened not his mouth. God made the horse and saw that he was good. On that great day of the triumph of righteousness over sin Jesus, the eternal conqueror, shall come riding down the heavenly heights upon the white charger of victory. Oh, my friends, if God created the beasts of the fields and the birds of the air and the fish of the seas and saw they were good we should be kind and gentle and loving toward them all! From the dumb creatures as well as from the sweet voices of the woods we may learn some of the best lessons of Christian love.

God bless the Humane Society of America! God bless all those men and women who are taking off the cruel collars galling the necks of the horses suffering with sores and unhitching horses that are hobbling along on decayed feet! God bless the Christlike movement which makes men treat their dogs at least as kindly as they would treat their human enemies! God bless all movements that would respect the inalienable rights of the sheep and the horses and cattle which stood about the manger on the night that Jesus was born! God bless all those who would rationally and with Christian feeling translate to the human heart the commandment of my text which says, "Thou shalt not muzzle the ox when he treadeth out the corn!"

BREATHE HEALING AIR.

Hyomei Destroys Germs of Catarrh and Cures the Disease—Money Back If It Fails.

No other treatment for catarrhal troubles is as pleasant and convenient to use as Hyomei. Simply put twenty drops of Hyomei in the inhaler that comes with every outfit, and then breathe it for a few minutes four times a day, and it will cure the worse case of catarrh. In this way, one takes into the air passages of the head, throat and lungs air that is filled with balsamic healing and antiseptic fragrance. It goes to the most remote parts of the air passages, destroys all catarrhal germs, and carries and purifies the blood with additional ozone.

The first day's use of Hyomei will show a decided improvement, and in a short time there will be no further trouble with catarrh. Its good effects are quickly gained, and the benefit is permanent.

You take no risk in buying Hyomei. The complete outfit costs but one dollar, and if, after using you can say that it did not give satisfaction, L. L. Elgin will return your money. You have the promise of one of the most reliable drug firms in this section, that Hyomei will cost you absolutely nothing, if you can say "It did not help." You are to use it entirely at Mr. Elgin's risk, with the understanding that your money will be returned without question or argument, if you are not satisfied with Hyomei.

Rheumatism

"THE PAIN KING."

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy.

If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on Rheumatism.

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

A JOKE

At the Show Last Night Caused a Fight.

(From Saturday's Daily) Peter Postell, the colored merchant, was fined \$5 in the city court this morning for breach of the peace. CAPT. STONE WORSE

RELATIVES HAVE BEEN SUMMONED.

Injuries Are Now Considered Serious and He May Not Recover.

Capt. W. J. Stone, whose injury was noted in the New Era, is in a serious condition at his home near Kuttawa. He was hurt in a runaway a few days ago, being thrown on his head on a pile of rocks.

His injuries were not considered dangerous at first, but there was a sudden change for the worse, and relatives have been summoned, as it is feared he will die.

Captain Stone lost a leg in the Confederate army, and represented the First district in congress for ten years. He was beaten by Wm. Goebel for the Democratic nomination for governor in 1899.

HIRAM SALTER GETS FINE PROMOTION.

Young Men Are Advanced to Positions of Great Responsibility.

The Louisville & Nashville Railroad Co. announces several changes in its traffic department.

The feature of the changes lies in the fact that the company is pushing its young employees to the front and relegating those whom age has overtaken to positions more suited to them.

The changes were made by D. M. Goodwyn, general freight agent, and approved by C. B. Compton, traffic manager, and became effective May 10.

One of the changes affects a former Hopkinsville citizen whose family resides here, Mr. Hiram P. Salter, who is made general freight agent at New Orleans to succeed O. H. Bartlette who is reduced to the position of contracting agent.

The Courier-Journal says: "Mr. Salter is a young man, and in moving the immense tonnage of phosphate rock that has been shipped from Mt. Pleasant, Tenn., in the past few years he has shown efficiency worthy of recognition, and will be promoted to one of the most responsible points on the road. Mr. Goodwyn left last night and was joined at Nashville by Mr. Salter. They will go to New Orleans together, and Mr. Salter will be installed in his new position. Owing to the expansion which the Louisville and Nashville is considering in its shipping at New Orleans for the export trade by way of the Panama canal, when completed, makes the appointment one of distinction."

Other changes are as follows: Mr. W. C. Huston is appointed general agent freight and passenger departments, of the L. & N. and A. K. & N. railroads, with office at Knoxville, Tenn., vice Mr. S. H. Stout, transferred. Appointment effective May 10, 1904.

Mr. S. H. Stout is appointed division freight agent of the Memphis line, Clarksville and Princeton division, Clarksville and Mineral branch and Elkton & Guthrie railroad, with office at Memphis, Tenn., vice Mr. Lee Clary transferred.

Mr. Lee Clary is appointed general agent at Birmingham, Ala., to succeed Mr. E. A. de Funiak, transferred.

Mr. E. A. de Funiak is appointed general freight agent at Montgomery, Ala., to succeed Mr. F. C. Shepard, transferred.

Mr. F. C. Shepard is appointed division freight and passenger agent of the Owensboro & Nashville division, with office at Owensboro, Ky., vice Mr. W. C. Huston, transferred.

FOLK WINS EASILY

Hawes Withdraws and the Young Prosecutor Will Be Governor.

(Special to New Era.) ST. LOUIS, May 11.—Joseph W. Folk, the "boodler" prosecutor, has won his fight for the Democratic nomination for governor of Missouri, although opposed by the entire state machine.

He has now 285 uncontested delegates to the state nominating convention; having carried ten out of eleven counties choosing their delegates Saturday.

Three hundred and fifty-six delegates are necessary to nominate. Harry B. Hawes has 111 delegates, all in St. Louis.

Failing to carry a single county, he has withdrawn from the contest. Mayor Reed has only forty-one delegates. The fight, to all intents and purposes, is finished.
