## Billions For Foreign Aid, No Money For U.S. Workers

A News reader in DeRidder, La. likes our editorial, he wrote recently. For his generous words of commendation, we are grateful. In his recent letter he enclosed an editorial, which he said, had been widely circulated over the United States and thought we might be interested in publishing it. We are. The editorial follows and we think that you too might enjoy the comments mentioned therein.

The editorial:  
On the same day Department of Commerce announced that "friendly" foreign nations received a \$2,500,000,000 "boost" in American military spending abroad last year, and may get more in 1954, President Eisenhower vetoed a bill that would have given about 1,500,000 federal workers a pay increase of 5 per cent.

Mr. Eisenhower said he vetoed the bill because Congress failed to provide money with which to pay it. If he had signed it the bill would have added \$112,000,000 to the cost of operating the Postoffice department, which has the "deficit habit," and would have increased civil service pay by more than \$200,000,000.

The proposed expenditures which caused the President to exercise his right of pocket veto and to deal firmly with 1,500,000 federal employees are mere millions, whereas the government continues to add more billions to the many billions, a late estimate is nearly \$50,000,000,000, spent to aid "friendly" nations abroad.

The word "friendly" is put into parentheses because late advices from the Pentagon say the nation's military leaders are revising downward the help they can expect from other countries if the United States becomes involved in another major war.

Indeed, much of the comment one reads and hears nowadays suggests that in a war for survival the United States might find itself fighting alone! Instead of winning friends abroad and assuring maximum cooperation of European nations with the United States

in setting up a common defense against Communist aggression, the United States finds itself facing the possibility that it may be isolated and EDC will be just another dream gone down the drain.

Incredible as it may seem, France whose gallant sons helped the United States to become a nation, whose sons fought shoulder to shoulder with Americans in two global wars and was largely saved from German conquest by the military power of the United States is suspected of being willing to woo Red Russia—anything to prevent Germany from rearming!

The one nation on earth supposed to be a friend and ally of the United States who would never align itself with any other country against the United States, is willing to temporize and make friends with both Red Russia and Red China.

What nation in all history ever did as much for any two nations as the United States has done for France and England? Yet, here they are today casting sheep's eyes at Moscow and Peiping!

The fact that billions are appropriated for foreign aid, most of it now military, and a few paltry millions are refused federal workers in the form of a pay raise is not quite as simple as it looks. There are reasons the President and his advisers believe sound for continuing the American spending programs abroad. Nevertheless, the federal workers feel ill used. They wonder billions when some other nation der why their government can always asks for help, but balks at finding a fraction of a billion to improve the economic lot of its own people, its own underpaid employees.

They have to struggle against the high cost of living along with some 160,000,000 other Americans, many of whom are saying "If a foreign nation wants a few more billions, Uncle Sam's purse is wide open, but if Americans ask for help the answer is 'No'."

### Sermonette of the Week

## Children Crusade For Christmas

By Joseph A. Breig

"Daddy," Betty says, "I can hardly wait for Christmas." "Same here, Dad," says Joe.

Huddled together for warmth, my children and I are standing looking up at the stars, like illuminated ice in the wintry night.

"I wish we could see the Star of Bethlehem," says Betty. "Same here," says Joe.

The words fall from their lips, giving forth little white ghosts to vanish in the dark. The world which had teemed with life is hushed with cold. Gone are the birds with their cries, the insects with their shrilling. Frost has plucked the last of the flowers. Now the earth, virginal with snow, can bring forth nothing. Nothing? Nothing but Christmas!

"Daddy, I can hardly wait." "I wish we could see the Star."

Children, children! If you but knew how long we waited, we of the family of mankind; through what agonizing ages we yearned; the countless prayers we sent up to the silent skies. Isaiah the Prophet, lifting his arms, opening his hands under the Mediterranean sky which shimmers and blazes with stars just beyond reach, cried out, "Drop down dew, ye heavens!" What a great heart-rending cry Isaiah must have sent forth to echo across the desolate world, bereft of its Redeemer, exiled from its God: "Let the clouds rain the Just; let the earth be opened and bud forth a Saviour!"

"Daddy, says Betty, 'I can hardly wait for Christmas.' Little one, who are you that you should have been showered with heaven's dew; that for you the earth has opened to bud forth the Saviour? You can hardly wait? Child, you have Christmas with you always. You are Christmas. Christ

lives in you, and you in him. Never for a moment need you know the homesickness which covered all the earth before the first Christmas.

"Betty and Joe," I say to them, holding their gloved hands in mine. "keep on wishing for Christmas. Keep on advertising Christmas. You are our John the Baptist." They look at me wonderingly in the starlight, their eyes shining and round.

"The world," I tell them, "is always trying to forget Christ. The schools try to forget Him. The scientists try. The rulers try. The United Nations try. But the children of this earth won't let them. Every year at this time there is a Children's Crusade. Hundreds of millions of boys and girls say over and over: 'Daddy... Mommy... Uncle... Aunt... we can hardly wait for Christmas; we wish we could see the Star of Bethlehem.' I bend a little closer to them, and whisper: 'I can see it.' I see it in your eyes. As long as there are children, the Star of Bethlehem will shine, and Christ will never be forgotten. Betty Joe, you are my John the Baptists; you are our herald angels, telling us each year that Christ is born."

THIS WAY OF LIFE is something more than a political system or a method of government. It requires that we so order our lives and our affairs as to be at all times in perfect consonance with the Divine Plan.

Stripped of all its trappings and terminology the issue that confronts us is essentially a simple one — do we qualify as good people?

GOOD PEOPLE are those who want their neighbors to have decent homes, good food, proper clothing and worthwhile employment. Good people want all these things because they love their neighbors and because they obey God's law.

Four hostile newspaper are more to be feared than a thousand bayonets. —Napoleon.

Newspapers are the world's cyclopaedia of life; telling us everything from every quarter of the globe. They are a universal whispering gallery for mankind, only their whispers are sometimes thunder. —Tryon Edwards.

In these times we fight for ideas and newspapers are our fortresses. —Heine.

## Kentucky Windage

By P. W.

A couple of weeks ago we had an 8-foot python snake (dead) out front of the office for a picture, and evidently that has started something. Tuesday morning Cleo Peoples brought in a 3-foot boa constrictor snake (alive) in a glass jar. In order to take a picture of it we furnished Cleo a pair of heavy gloves so he could remove said snake and hold it, causing many uneasy moments for our front office gal, Pat McKenzie.

Pat is afraid the News may become reptile headquarters, but we welcome the unusual things and like to take the pictures.

The brief story about Cleo and the boa appears elsewhere in this issue, but, incidentally, a boa is not poisonous although he has a set of rough-looking teeth. Cleo said the little fellow wound around his arm and put the squeeze on it tight enough to stop blood circulation.

Don't know whether the question of what to do with him was finally settled or not. Cleo carried him to the high school for the biology class to take a look, and was considering him for the Memphis zoo. You know these 3-foot youngsters grow 15 feet long and get to be rough customers.

Christmas time is rapidly approaching and Fulton stores have been happily crowded with "shoppers" and "lookers" all week. We understand that some manufacturers may have light inventories this year and stores will have difficulty re-ordering popular items, so plan to do your shopping early and pick while the picking's good.

For the first time in its 33-year history the Reader's Digest is going to carry advertising.

If the Illinois Central pulls off the remaining two passenger trains to Louisville, Paducah, we are told, will have the title of the largest city in the United States not served by major railroad passenger service. Evidently they are not much concerned; they didn't even have a spokesman at the supposed-to-be hearing in Frankfort last week. The hearing, incidentally was postponed a month or two in order to give the scattered opposition a chance to organize their pleas, we were told by Fulton Mayor Bill Browning, who WAS there and intends to have the voice of Fulton heard in the matter.

The healthy sign of civic reawakening that started last year with store-front remodeling and other business and home improvements all over town still continues at practically an unabated pace this week, and we notice that the whole front end of the Smoke House Liquor store on Lake is being torn out and a modern one going in... painters were busy this week sprucing up the front of Kasnow's Department store and Weaks' store.

Friendly finance is now sporting a good-looking front, and up the same street the Masonic building is now enclosed and looks good.

By the way, we understand that "Doc" Adams is taking over the Smoke House on January 1st.

Spent an enjoyable hour with Jere Lowe this week discussing Russians, French and the incidents that come with living overseas 2½ years. Jere has just returned from military duty and is trying to adjust himself to the quietude of civilian life in Fulton, Ky., after having lived just outside Paris 2½ years, serving as a dental lab technician with the Air Force. I concluded that although his work was on the ground, he managed to fly around Europe and see what was going on. He didn't seem to be particularly alarmed about us getting into any war with Russia, and said hardly anybody in Europe seemed to be. We talked about the U. S. planes that had been shot down, and I concluded that while the Russians might not be aggressively seeking trouble, they are very strict with their boundary lines. So strict that should a pilot be flying right on the edge of the air "corridor" to Berlin and decide that he wanted to stretch his arms, he was taking an awful chance of getting his fingers shot off.

(November 6, 1929)  
A large crowd attended the twenty-first annual memorial services of Fulton Lodge of Elks in the Orpheum Theatre, Sunday afternoon. G. Garland Lyell of Jackson, eloquently delivered the oration.

Reams.

Those suffering defeat in the council ticket were: J. C. Houston, Abe Jolley, B. L. Rawls, J. W. Reasons, Roy Adams and A. T. Batts.

Miss Margaret Wilson visited Miss Carma Lee Cooley Sunday.

The Fulton-Union City football game of Thanksgiving closed what may well be called an interesting and worthwhile season. Eight games were played with the following teams: Dresden, Paducah, Murray, Murray Training School, Madisonville, Martin, Mayfield and Union City.

Of these Fulton won the games with Dresden, Murray Training School and Martin.

## Diary of Doin's

—Around Fulton—

The News writes social happenings about you and your friends.

Make no mistake about it, the holiday season is here. Used to be we'd start thinking about Christmas a week or two after Thanksgiving and from that time on we'd consider something like a three-week period, the holiday season. But not so now! The holidays start well in advance of Thanksgiving and continue until after New Year's Day.

As a matter of fact, we're thinking that if it weren't for a harvest scene, with bright yellow and red leaves, around in a place or two, we might start putting the Christmas lights up right after Halloween.

But thank goodness, we're taking first things first and now that Thanksgiving is out of the way, it's Christmas time.

We know it's Christmas because communities like ours, all over the Nation are putting up the Christmas decorations on the main streets and the side streets of their little towns. In the soft, brisk weather of these early twilight days, its cherry to see the vari-colored lights, the mistletoe and evergreens, just hanging out of no-where. Its a real holiday spirit and a time for remembering those we love and those we don't see often, but remember just the same.

It's a time when sports-loving fans start thinking about the football bowl games; when the kids return to college and count the days until the long vacation in mid-year; its a time when kidlets start being extra good 'cause a bewiskered gent in red is coming soon; its a time for early shopping and gift-wrapping and hunting the Christmas-tree.

There's no doubt about it... Christmas is coming soon and Mary Ethna Wilson will tell you that its only 18 shopping days until Christmas.

Remembering those college kids who were home for Thanksgiving, and before you know it will be home for Christmas, reminds us of that jam-session held at the Elks Club last Friday night. Montelle Tripp, the gal with all the ideas for recreation called a few of her old buddies last week and asked them if they would like to get together and have a little jam session and give with music for the entertainment of the home-from-school-kids who wanted to trip a little fantastic. Don Wright, Bailey Binford, Bobby Boaz, and Jackie Jackson from Clinton were in no better musical shape ever, than they were last Friday night. Montelle took over at the key-board and the boys just tooted away on their instruments and a mighty good time was had by all.

While many of the college kids came home, one fellow, Follis Bennett, could not get away from his studies at Purdue University so his holiday visiting went to him. His mother, Mrs. Joe Bennett and his aunt Miss Mayne Bennett had a wonderful visit with him and had a nice little trip too. Mary and Mayne returned to Fulton Sunday night. Follis is a student in the pre-pharmacy school.

The Thanksgiving dance at the Country Club was a most enjoyable affair and what proved just

value except to show what television does for the young folks. On the long trip home from Missouri Monday our young 'uns were playing TV program in the back of the car. They enacted, shoot-em-ups and quiz programs. For a moment the noise-making stopped and we looked back to see why. It was Mary-Jo, a little occupied with the scenery who said: "Stand by, the intrusion is not the fault of your set."

Mr. and Mrs. Clyde Omar had a "house-full" of company over the Thanksgiving holidays and it was a real family get-together. Swapping family stories at the happy event were the Bob Omars of Benton, Ky. and their young one, Mike and Virginia Halton of Detroit. Also a guest in the Omar home was William Kekko of Detroit.

Comings and Goings... Mary and Gilson Latta are in St. Louis, where Gilson is unhappily going through clinical tests at Bar-

a sumptuous turkey dinner and you just know everybody had a good time. Not too long ago all the men in the church cooked for all the ladies and that was a real party. Their spaghetti dinners are annual events together

with lots of other activities they have regularly.

The folks in and around Crutchfield are mighty happy to have in their midst again the E. W. Cornicks who have moved back "home" after living in Texas for a long time. The

Cornicks are enjoying life like we hope to some day. They keep active in their community life and keep abreast of everything that's going on. Mr. Cornick was at one time a railroad man, but now he is taking life easy in a wonderful rural way. He is cultivating mushrooms and Mrs. Cornick is keeping busy making a lovely home for both of them. She attended school at Cayce and of course knows nearly everybody in Fulton County. Mrs. Cornick was in the office Wednesday and it did our heart good to see such a happy lady. She says that she keeps her shades up all the time just so she can enjoy the beautiful scenery around her. We rather imagine she does that too just so she won't miss a living moment of this wonderful Kentucky that she loves.

In the happy people department too is Harry Allison who has lived 16 years in Liberia, West Africa. Harry is a long-time subscriber of the News and we carefully sent him his paper every week under special mail handling. Now you can imagine how happy he is to be home to get the news first hand and as it happens. Welcome home Harry.

Members of the Owens family enjoyed the Thanksgiving holidays with an old-fashioned gathering of friends and relatives. On Thanksgiving Day Mrs. J. J. Owen had a big family dinner with all her family around and among them being some out-of-towners, the Harold Owens of Oak Ridge and the Horace Owens of Paducah and Rice Owen, a local fellow who was home from UK for the holidays. Then Nell and Milton Exum had their Thanksgiving dinner Saturday night and with others at the table were Mr. and Mrs. Wade Joyner and Jerry of Macon, Ga., and the Harry Plotts of Centralia, Ill. What a wonderful way to give thanks with friends and relatives around.

# Postmaster

(Continued from Page One)

Christmas cards. The postmaster recommended Dec. 5 mailing for out-of-state gifts, and Dec. 10 for those with local addresses. Since size and weight limitations for parcel post vary according to place of mailing and destination, Carter urged all mailers to ask someone at the

Post Office about very large parcels before wrapping the packages. Every Christmas a few packages have to be returned because they are over size.

He stressed that poorly-wrapped packages are another risk to avoid. Cartons of corrugated fiberboard offer excellent protection, he said and suggested they be stuffed with wads of tissue or newspaper to cushion any shock. Then use a heavy wrapping paper and strong cord tied over and under several times, he said.

## PATRICIA LATANE

Dear Patricia:

I have been reading your column and want to see if you can help me on a few questions. Will I keep working where I am or not? I have a son that is married. Will he come to see me? If so, about when? Is my husband happy with the woman he is living with? Will I live as I am now or will I marry again?

Thanks  
M. B. L.

Dear M. B. L.:

No, you will change jobs between now and the first of the year. Yes, you will see your son during the Xmas holidays. No, your husband isn't happy and never will be. You will marry again about the middle of 1955.

Dear Pat:

I have heard that you can answer all questions that you receive. I have some that I would like for you to answer for me. Do you think that I will finish school? Will it be at the school I am going to now? How old am I now? How old will I be when I get married? What are the initials of my boyfriend now? Does he like me? If you were me would you keep on writing to this boy I am writing to now? What will be the initials of my husband-to-be, if I get married? How many children will I have? What will my career be? My initials are N. F. Do you think I will be happy all my life? Do you think M. likes me better than he does D. F.? Thank you very much? Does K. H. like me?

Wondering

Dear Wondering:

No, you will not finish school you will marry when you are 17. You will have 8 children. You know your husband now in fact you have talked with him

quite a bit, but never dated him.

He will be a farmer and your career will be a housewife and mother. Yes you will be happy with him. His first name is Kenneth or else that is his middle name.

Dear Pat:

I read your column in the News every week and enjoy it very much. I wrote you once and you answered my questions. I have some more that I would like to know the answers very much. Will I ever get married? If so, what are her initials and when will I meet her or have I already met her? Do I stand a chance with P. M.? I love her but she doesn't seem to care for me? Do I stand a chance of winning her or should I look for someone else? Please answer these questions. I will be watching for your answers in the News.

R. E.

Dear R. E.:

I appreciate your keeping up with my column each week. Now we will try to get you straight on your love life. Yes, you will marry, her initials are P. M. and you know her real well in fact you are madly in love with her, but at present she isn't in love with you, but if you will see how nice you can be I think in due time she will learn to love you. If you were to ask her right now she would tell you she can't stand you but you will marry her, but there is one thing you must do learn to control your temper never let it be your down fall. That is your trouble now with P. M. your temper. P. M. is a very lovely girl and you see her every day. No, I want say every day because there is a shadow in your writing maybe there is a day or a couple of days a week

you don't see her but you see her 5 or 6 days each week so start learning to control your temper and see how nice you can be, and I think you will find it pays off. And remember its the little things in life that pay off not the big things.

Dear Patricia:

I have written you once but wanted to again. Tell me what to do to be happy? Does my son drink now and what caused him to start? Was a certain woman the cause of me and my husband separating? and did she cause us not to get along? Did he give her money and did he feed her? Her first name starts with L. and her last name with K. Is she still in his life? If not, who is? Will I stay at this place much longer? If not, where will I go? Will I still work?

Thanking you  
M. W.

Dear M. W.:

Write anytime that you wish I appreciate hearing from you, if it wasn't for my readers writing THE FULTON COUNTY NEWS wouldn't need my column. Helping others is a wonderful way to be happy and that is a easy thing to do. You can help a friend do a little something which you don't think amounts to very much but to that person you help it means a lot. Yes, your son drinks. He started over a disappointment; but he will stop drinking. He is going to meet someone he cares for more then anything or anybody. and this person will stop him from drinking. It will be the latter part of 1955. Yes, L. K. separated you and your husband and she is still seeing him and he is still keeping her up. Yes, you will stay where you are. Yes, you will continue to work. Your lips will get better.

Dear Patricia:

Will you please answer some questions that are very important to me?

(Q. No. 18) Will my family continue to attend church regularly?

Please forgive me for asking so many questions, but I feel like I simply must know the answer to them. I would appreciate it so much if you can clear up some of these problems for me.

Thanking you in advance, I am,  
L. D. R.

hand writing.

No. 5 Nothing. You will find him to have a good level head and serious minded.

No. 16 No, you spend too much money to ever own a home, and you will never stop.

No. 17 Yes they will, they will become members of the Baptist

Church.

No. 18 Yes.

No. 19 Yes, but there will be a little accident, nothing to be alarmed over.

\* Illinois Central  
(continued from page 1)  
vide a revenue that would justify  
a continuance of this train  
service.

I was in New York this past  
week and attended the annual  
meeting of the National Indus-  
trial Traffic League, at which  
the chairman of the Interstate  
Commerce Commission made, in  
my opinion, an outstanding talk.  
Because it contains a great deal  
of philosophy I believe in, I am  
attaching a copy of the manu-  
script of the talk for your per-  
usal. You will observe that Com-  
missioner Mitchell advocates the  
discontinuance of unprofitable  
services. Here the chairman of a  
commission who is charged with  
the responsibility of protecting  
the interests of the public very  
realistically advocates the very  
thing which we are talking about  
doing in connection with trains  
103 and 104. I am exceedingly  
sorry that the people of Fulton  
would feel that they ought to  
oppose us in the removal of  
these trains when they do not  
make use of the services that is  
provided. There is no alternative  
for us other than to pursue  
the determination of these trains.  
We certainly must be appreciated  
that the dollars which are lost  
in an unprofitable operation  
prevent us from spending dollars  
constructively which might  
well find their way into the cash  
drawers of merchants at Fulton.  
Let me close as I began by  
saying that I appreciate your  
frankness and respect it I hope  
that you likewise will accept my  
letter constructively.

Kindest regards,  
Sincerely yours,  
Wayne Johnston

# Farm Social Security Important

One of the most important changes in the social security law is the one that extends coverage to over 2 million farm employees in the country. Regular farm hands have been covered since 1950, but many seasonal or irregular farm employees have been unable to earn this insurance protection because the law required that they work a certain number of days in each quarter. This requirement has been removed, effective with 1955, and many farm employees in Fulton will benefit from this change.

Starting with 1955, if a farm employee is paid cash wages of \$100 or more in a year by any one farm employer, these wages will be credited toward social security benefits for him and his family. Farm wages of less than \$100 or payments in the form of crop shares (or other non-cash remuneration) are not creditable. If the employee works for several different farm employers during the year, each of whom pays him \$100 or more in cash wages, he may be credited with all wages up to a maximum of \$4200 for the year. The farm employer will report the wages for each employee to whom he pays cash wages of \$100 or more during the year. This report will be made on a prescribed tax form and sent to the Director of Internal Revenue along with the social security taxes which are 2% each for the employer and the employee.

Here is how this will work.

**DEPENDABLE HOSPITALIZATION and INCOME PROTECTION**  
"Ask the one who has used it"  
**SECURED CASUALTY INS. AGENCY**  
R. E. Hyland, Agent  
Phone 1185 — Box 315

Let's say that during 1955 Farmer Jones hires three employees, — George, John, and Jim. He pays George a share of the crop, but cash; he pays John \$80 in May and \$75 more in September; he pays Jim \$40 in May and \$55 in October. As George and Jim were not paid cash of \$100 or more in the year, Farmer Jones does not report their wages for social security purposes. However, he will report the wages paid to John (\$155.00) so that these wages may be credited to John's account with the Social Security Administration. Mr. Jones should make a record of John's full name and Social Security number as shown on his card as he will need this information to complete the report. He may deduct John's share of the tax (2%) at the time he pays him. Social Security payments to farm employees are figured in the same way as they are for others covered under the program. The amount may be as low as \$30 a month or as high as \$200, depending upon the average earnings, the time worked, and the number of eligible persons in the family. Any farm worker who wishes more information, may secure a leaflet, "Facts for Farm Families," by writing to the Social Security Office at Paducah.

And the preachin' brother's weekly contribution is about the husky farmer with the appetite to match who went into a hotel dining room and ordered the beef roast plate.

Presently the waitress came along with a plate on which were the usual vegetables and a small portion of meat.

The farmer eyed the plate carefully as it was placed in front of him:

"Yep," he said. "That's the kind. Now bring me some."
