## DEATH SUMMONS FRANK M. BYARS AFTER AN ILLNESS OF TWO WEEKS.

### INSPECTOR OF HOPKINSVILLE TOBACCO MARKET.

### Funeral Thursday Afternoon and the Interment at Hopewell Cemetery.

(From Wednesday's Daily.)  
Frank M. Byars died last night after an illness of two weeks at his residence on South Main street. Bright disease complicated with abscess of the liver caused his death. He had been in a critical condition since last Wednesday, and for the last two or three days his case had been hopeless. Although only a part of his life had been spent in Hopkinsville, he was one of the best known and most popular men in the city and the announcement of his death causes wide-spread sorrow and regret. Mr. Byars was possessed of a genial nature, fine intelligence and keen wit. Everyone who knew him in any degree of intimacy was his devoted friend, and he will be greatly missed. He was fully identified with the interests of the city and ever ready to do all in his power to advance its prosperity. He was a man of the highest honor and integrity, an affectionate husband and father, a loyal friend and a splendid citizen.

Mr. Byars was about sixty years of age, a native of Todd county, and a son of the late A. T. Byars, a prominent citizen of that county. His wife, who with five children, three daughters and two sons, survive him, was formerly Miss Jefferson. He was successfully engaged in farming up to about twelve years ago when he removed with his family to Hopkinsville to reside. Shortly after coming here he was elected an inspector by the tobacco board of trade and since then had continuously held the position which he filled with credit to himself and thorough satisfaction to both buyers and sellers. Mr. Byars was a member of Evergreen lodge No. 38, Knights of Pythias, and the members of the order will attend the funeral in a body. The services will be held tomorrow afternoon at 2 o'clock at the late residence and the remains will be interred in Hopewell cemetery.

The active pall bearers will be as follows: Walter A. Wilson, R. E. Cooper, T. B. Fairleigh, C. S. Jarrett,

M. H. Tandy, E. M. Flack, R. M. Wooldridge, James West.

The following gentlemen will be honorary pall bearers: H. H. Abernathy, M. C. Forbes, T. W. Blakey, J. D. Ware, James P. Thompson, F. W. Dabney, G. H. Champlin, Joust Henry.

## EDITOR KNOTT AND POST FINED \$500

(Special to New Era.)

LOUISVILLE, Ky., Feb. 15.—A joint fine of \$500 was assessed against W. R. Knott and the Evening Post company by the jury in the criminal court last night after two hours and a half consideration of the case. For the past seven days the defendants have been on trial of the charge of criminally libeling Patrick Sharkey and his saloon at Seventh and Market streets by publishing through the so-called "Mysterious Red" articles that his establishment was a "hang-out" for thieves and a resort for crooked gambling and fallen women. As soon as the verdict was announced counsel for the defense made a motion and tendered grounds for a new trial. Ten days were allowed in which to file additional grounds. Those given are in a large measure formal and general.

Nearly four hours of wrangling were consumed before this verdict was reached. On the first ballot eleven jurors voted for conviction and one for acquittal. The single juror went over to the other side, and on the subsequent ballots the disagreement was as to the amount of the fine to be imposed. Commonwealth's Attorney Joseph Huffaker had asked the jury not to imprison Mr. Knott. The amount suggested for a fine ranged from \$1 to \$25,000.

### A Weather Tale.

Is this really what Fairview girls talk about? The Review says: "The coldest night reported so far is by a young lady here who says when she went to milk the other morning the extract of cream and butter was frozen in the cow's teats, and had to be thawed out by means of a coal oil stove. The readers have their preference in their belief of this."

## RACE PROBLEM

(Special to New Era.)

NEW YORK, Feb. 14.—As the guest of honor at the Lincoln dinner at the Republican club in this city last night President Roosevelt made a speech on the race problem. He appealed to the North to make its friendship to the South all the greater because of "the embarrassment of conditions for which she is not alone responsible," declared that the heartiest acknowledgements are due to the ministers, law officers, grand juries, public men and "great daily newspapers in the South, who have recently done such effective work in leading the crusade against lynching," and said that the problem was to "so adjust the relations between the two races of different ethnic type that the backward race be trained so that it may enter into the possession of true freedom, while the forward race is enabled to preserve unharmed the high civilization wrought out by its forefathers."

## RUSSIA WILL PAY

(Cablegram.)

PARIS, Feb. 14.—At today's session of the International Inquiry Commission the British agent, O'Beirne, read the English conclusions regarding the Dogger Bank tragedy. These conclusions rejected the Russian evidence and insisted that the presence of torpedo boats in the midst of the fighting fleet was impossible. M. Nekudorff, the Russian agent, then read the Russian conclusions, which declared that the evidence at hand cleared the Russians of responsibility.

Nevertheless, he added, the Russians would not allow innocent victims to suffer, and guaranteed the payment of indemnity to the victims of the tragedy.

Russia suggested that the matter of indemnity be submitted to the tribunal at The Hague.

## STRANGE SUICIDE

(Special to New Era.)

PARIS, Ky., Feb. 14. A strange story of suicide comes from Ruddle's Mills, this county. Rufus Sharp, a young weak-minded farmer, died yesterday afternoon under suspicious circumstances after making a request that an autopsy be performed on his body by Dr. Keller. This was done, revealing the presence in the stomach of fifty-nine nails of different sizes, screws and pins. Sharp had been swallowing these articles at different times for a month, saying he wanted to commit suicide that way.

The autopsy was performed in the presence of eight reputable men.

### Rube Pardoned.

Rube Ross, who was several years ago convicted at Smithland of killing Walter Hook, at Grand Rivers, has at last been pardoned. The boys were going to school and Rube Ross did not get along with Hook. They finally had a fight in which Hook was stabbed in the head and died. The young Ross, Rube, did the stabbing, but his elder brother was convicted as an accomplice and given two years. Rube Ross got a life sentence and was a few days ago pardoned, closing the history, no doubt, of one of the most memorable legal fights in the history of Livingston county.

## HOOCH SAYS IT'S ALL A MISTAKE ABOUT HIS BEING A ROMEO.

### HE SIMPLY NEEDED THE MONEY.

### HAS NO USE FOR WOMEN

### Advised for Females Who Were Over Forty-five Years Old.

(Special to New Era.)

CHICAGO, Feb. 14.—Johann Hoch makes a statement that his matrimonial ventures are not love affairs. "I want to correct one impression of me given the public," he said. "All are led to believe I am a regular Romeo. I am not. I did not love any of my wives. I have no use for women. It was purely a business proposition with me. When I found they had money then I went after them. When I got it I left them. They had no charms for me. I advertised for women over 45. I found they were easier to separate from their money. Flattery was my

chief in stock. You can win a woman quicker that way than any other."

Mrs. Emelie Fischer Hoch, the latest wife of Johann Hoch, called on him today to make a demand for her money. After Hoch had been brought from a cell into Police Inspector Shipley's office, the wife said: "John, you have got my money and I want it. Give it back to me if you have any heart at all, for I need every cent."

Unmoved by the earnest plea, Hoch answered:

"Now, my dear, don't get excited. You will get all your money back and more if you will do the right thing. All of these stories about me are false. You leave me alone and you will come out all right. Wait and we will talk it over later."

The woman did not make any reply, and the interview was at an end. A special detail of detectives has been set at work in an effort to locate the drug store at which Hoch is supposed to have purchased the arsenic which the police will endeavor to prove was administered to Mrs. Mary Walker-Hoch. The post-mortem examination disclosed three grains of arsenic in the woman's stomach.

LEFT ON THE GOEBEL REWARD COMMISSION.

One Will Probably Resign.—Dr. Clardy Kept at Home.

(From Friday's Daily.)

A meeting of the Goebel Reward commission was to have been held yesterday to fill the vacancies on the committee caused by the deaths of Judge Joseph H. Lewis and Major L. C. Norman, but owing to the illness of the wife of John D. Clardy, of Newstead, one of the commissioners, the meeting had to be postponed.

W. M. Moore, of Harrison; James M. Richardson, of Barren, and John D. Clardy, of Christian, are the three living commissioners, and Richardson, who has been elected to congress, will likely resign soon, so it is important that the other vacancies be filled at once for fear complications might arise if the commission was reduced to less than a quorum.

## Health

Means the ability to do a good day's work, without undue fatigue and to lead life worth living. You cannot have indigestion or constipation without its upsetting the liver and polluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has ever known. Mrs. D. W. Smith writes, April 3, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents at Ray & Fowler's and L. L. Elgin's.

Starling lead the list with \$5 each. Other contributions range from 25 cents to two \$2 contributions, and the total is \$65.50. County Chairman E. B. Long, and Judge J. I. Landes contribute \$2 each. Judge James Breathitt, Jailer Boyd, County Attorney Anderson, County Clerk Prowse and a number of others made \$1 contributions.

Cooper, Luke Lea, R. J. Lyles and George S. Parkes. The main lines are to connect Nashville with Louisville, Chattanooga and Memphis."

Bloody Encounters Between Strikers and Troops Are Reported.—12,000 New Strikers at St. Petersburg.

NEW MILITARY GOVERNOR OF ST. PETERSBURG.

General Trepoff, appointed military governor of St. Petersburg after the recent outbreak there, is universally despised throughout Russia because of his disregard of the rights of the poorer classes. He was given his present post because he had demonstrated his fitness for it by his success at Moscow in opposing the masses.

(Special to New Era.)

ST. PETERSBURG, Feb. 10.—Over one hundred strikers were killed and wounded last night at Warsaw in a fight with the military.

Special dispatches from Warsaw report the death of Governor General Tschertkoff, of the province of Warsaw, who was wounded in the leg in an encounter between troops and strikers.

Twelve thousand more men went out here today on a strike.

Press dispatches from Sosnovice

**Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rambling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

## MR. ROSS A. ROGERS

WITH THE ACME MILLS & ELEVATOR COMPANY.

The Acme Mills & Elevator company of this city has secured the services of Mr. Ross A. Rogers, who will have full charge of their mill "A," situated on cor. 14th street and L. & N. tracks.

The New Era learns that this arrangement will give Mr. Rogers charge of the company's local business, which we learn has grown to such proportions as to render it necessary to have some one on the floor of this mill at all times, that the prompt service which the company desires giving its patrons may, if possible, be improved upon. Mr. Rogers has had large experience in the milling business, and is in every way competent to handle the duties to which he will be assigned when he takes charge which we understand will be on next Monday the 12th.

We congratulate both the Acme Mills & Elevator company and Mr. Rogers upon this arrangement, whereby this already popular company has succeeded in securing the services of one so thoroughly competent as Mr. Rogers, and we are satisfied the same will prove both pleasant and profitable to all concerned.

The girl is the mother of the woman just as "the boy is the father of the man." The period when the womanly functions begin is one to be carefully watched and considered. Irregularity or derangement at this time may be promptly met and cured by the use of Dr. Pierce's Favorite Prescription. But neglected at this critical period may entail years of future suffering. "Favorite Prescription" acts directly upon the womanly organs giving them perfect vigor and abundant vitality. It removes the obstruction to health and happiness, and delivers womanhood from the cruel bondage of "female weakness."

Hart, of Fleming; Seventh district, Henry Cox, of West Liberty.

This board will meet at the capital on Feb. 23, the meeting having been postponed to that date because of the failure of county officials to send in recapitulation books.

## TO DR. A. C. DIXON

INVITATION TO CONDUCT REVIVAL EXTENDED.

At a meeting of the Pastors' association it was decided to write Dr. A. C. Dixon, of Boston, Mass., to conduct a union revival in the tabernacle here in the coming autumn. By previous correspondence the association had been assured that Dr. Dixon could be had for such meetings. The pastors count themselves very fortunate in the opportunity to secure such a man and the whole community will be indebted to them if he shall as they expect accept their invitation.

## REV. J. WM. JONES

TAKES ISSUES WITH GEN. NELSON A. MILES.

He Claims Davis Himself Had Called Officer a Miserable Brute.

In a statement issued concerning the recent discussion of the imprisonment of Jefferson Davis at Fortress Monroe in 1865-1866, Gen. Nelson A. Miles says:

"The matter has been agitated at different periods during the last forty years but never before has it been discussed in the halls of congress.

"As far as my official action is concerned it was directed by the highest authority; it received the approval and has never been questioned by my superiors or the government. I have no apology to offer of any kind to any person. The charge that the acts of the higher officials of the government or myself was prompted for the purpose of humiliating Mr. Davis or the people who associated and sympathized with him is as puerile as it is utterly untrue.

"It is to be regretted that the high officials, President Johnson, Secretaries Stanton and Dana, Judge Advocate General Holt and Major General Halleck are not living in order that they might answer the vicious vituperation by which their names are now assailed. Still I am sure that they acted in good faith, and, as they believed, for the best interests of the country upon the information then in their possession and the condition of the country at that time."

The Rev. J. William Jones, chaplain general of the United Confederate Veterans and father of the Rev. Dr. Carter Helm Jones, of Louisville, and Rev. E. Pondleton Jones, of Virginia, and who was a close friend of Jefferson Davis, is out in a statement denying the correctness of the recollections of Gen. Miles and says that Gen. Miles was never directed to iron Mr. Davis, but only empowered to do so if it seemed necessary. He also points out that Secretary of War Stanton reproved Gen. Miles for fettering his prisoner and ordered him to remove the irons.

Gen. Miles, says the Confederate chaplain further on, can scarcely have letters from Mrs. Davis thanking him for his kindness to her husband, since in her book on President Davis one chapter is headed, "The Tortures Inflicted by Gen. Miles."

To clinch the whole matter Dr. Jones says:

"I will now briefly introduce one witness whose testimony is unimpeachable—I mean Mr. Davis himself. I chanced to be at Beauvoir just after he had sent to the North American Review a paper on 'The Treatment of Prisoners' during the war between the states, in which he had a paragraph which scorned Nelson A. Miles in that severe manner of which President Davis was so capable when aroused. He told me that the editor, who was a friend of Miles, had written him that he could not publish the paper unless that paragraph was omitted."

"Rising from his seat, his eyes flashing fire, and showing more feeling than I ever saw in him upon any other occasion, he said: 'I wrote back that this paragraph should not be altered by the dotting of an i or the crossing of a t, for I was determined to hand down that miserable brute Miles to immortal infamy.'"

TO PARTICIPATE IN INAUGURAL CEREMONIES.

Stanley Bassett Will Represent Hopkinsville—Named by the Governor.

In compliance with a request from Chairman Chas. I. Clark and John Speed Smith, of the Subcommittee on State Representation of High Schools, of the National Inaugural Committee at Washington, Gov. Beckham will name ten young men, representatives of as many high schools of the cities of the state of Kentucky, to represent the state in the inaugural ceremonies in March next, and to march in the inaugural parade, the purpose of the subcommittee is to introduce a new educational feature in the inaugural ceremonies by having in the parade representatives from high schools of each of the several states.

The governor has selected seven of the young men, all of whom have signified their intention of attending, and will shortly name the remaining three of the Kentucky delegation. He was requested at first to name only five young men, but found so many who were desirous of attending under such circumstances that he asked to have the allotment to the state increased. This was done through Mr. Smith, who is a Kentuckian.

The high school boys named by the governor as Kentucky's delegation are: Curran S. Benton, of Winchester; Edward Abbott, of Frankfort; Hugh S. Gardner, of Elizabethtown; Jas. Stanley Bassett, of Hopkinsville; Frank T. Wells, of Bardonia; Benjamin Waddle, of Somerset, and Henry Cave, of Paducah. The Louisville High School will have a representative, who has not yet been named.

## REVIVAL STARTED

GREAT MEETING BEGINS IN LOUISVILLE.

Twenty Thousand People Hear Sermons and Conversions Were Numerous.

(Special to New Era.) LOUISVILLE, Feb. 12.—Electric with religious fervor, Louisville was seized yesterday with the spirit of the crusaders. At strategical points throughout the city great union meetings were held, to which the citizens flocked in such numbers that at more than one of them many had to be turned away.

No less than 20,000 people succeeded in getting within the sacred walls, church people and outsiders together, religious and non-religious, the former fired with the determination to march with the cohorts of the cross on the well entrenched forces of sin, and the latter in many cases touched by their fire to the melting point and brought over to the side of Christ in complete surrender. There were desertions from Satan's army all along the line.

After an almost resistless attack at the Masonic Theater meeting a big break was made in the enemy's line and 150 men came over unreservedly into the Christian camp. Surrenders of smaller detachments were made in many other meetings.

The total number of acquisitions to the Christian forces through yesterday's attack on the ramparts of sin will reach a total of more than 300.

Last night, at the close of the first day of the campaign, evangelists, pastors and church workers were enthusiastic over this initial victory. As reports were received at headquarters from each of the division commanders the outlook became brighter and more encouraging for an advance movement that bids fair to show results such as the Christian churches of this city have never before known.

"This year, 1905," said a clergyman yesterday, "is to be known in Christian history as a great revival year; perhaps the greatest since the days of the Wesleys. This is true, not only of the United States, where powerful concerted movements are or have been under way in a number of the larger cities, but also in England and Wales, from which countries reports are coming of an almost unprecedented religious awakening."

Louisville, at the head in all good things, is taking her place with London, Birmingham and Wales in the ardor with which her church people are entering upon this latter day crusade. The results of the opening day of the campaign are such as to leave no doubt of its ultimate success.

## CHRONIC SORES

Wheeling, W. Va., May 28, 1903.  
Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were healed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated, nor have the sores ever broke out again. Some 12 years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier.

JOHN W. FUNDIS.  
Care Schumback Brewing Co.

Chronic sores start often from a pimple, scratch, bruise or boil, and while salves, washes and powders are beneficial, the unhealthy matter in the blood must be driven out or the sore will continue to eat and spread. S. S. S. reaches these old sores through the blood, removes all impurities and poisons, builds up the entire system and strengthens the circulation. S. S. S. is a blood purifier and tonic combined. Contains no mineral whatever but is guaranteed purely vegetable. If you have an old sore write us and our physicians will advise without charge. Book on diseases of the blood free.

## DEATH WAS SUDDEN

### PROMINENT PEMBROKE CITIZEN PASSES AWAY.

Venerable M. A. Garrott's Demise Comes As Shock To Many Friends.

(Special to New Era.)  
PEMBROKE, Ky., Feb. 11.—A death which greatly shocked and caused general sorrow in the Pembroke community was that of M. A. Garrott who died very suddenly last night at 12:40 o'clock of heart failure.

Mr. Garrott was one of the oldest and most prominent citizens, being seventy-three years of age. Notwithstanding his advanced age he was hale and hearty and yesterday seemed to be in his usual good health. About five minutes before he died he was up in bed and complained of feeling ill, and a few minutes later expired. He was one of the most influential men of the neighborhood and had been identified closely with its business interests. He was a devout member of the Salem Baptist church. Three sons, J. J., Walker and Clifton Garrott, and two daughters survive him. Funeral arrangements have not yet been completed.

## TOBACCO TRUST

### A. E. Gardner Goes to Confer With Attorney General.

Hon. A. E. Gardner is in Washington, D. C., whither he was called by United States Attorney General Moody for a conference relative to the tobacco trust's operations in this district, says the Springfield Herald. It will be remembered that sometime ago Mr. Gardner was appointed Special Assistant United States District Attorney for the purpose of aiding in finding out and prosecuting this self-same trust. Since his appointment Mr. Gardner has been very active and vigorous in his research for evidence and it is expected he will have some startling revelations to make to Mr. Moody. The outcome of his visit to Washington is being watched with a deal of local interest.

## SERIOUS CHARGES

### AGAINST OFFICERS OF FIRST REGIMENT.

Gov. Beckham Approves the Recommendation For a Court-Martial.

(Special to New Era.)  
FRANKFORT, Ky., Feb. 11.—The wrangle in the First Regiment, Kentucky state guards is brought to a head by issuance of orders from Gov. Beckham, through Adj. Gen. Haly, directing a court martial of Major H. Watson Lindsey, and Capt. Clarence L. Grinstead, Dan Carroll and Shirley H. Crawford.

Disloyalty and insubordination to superior officers is the general charge.

The court's finding is against all the accused officers except one, and recommends a court-martial to try the offenders. The court describes the conduct of the officers as "little less than open mutiny." The finding was approved by the governor and orders were issued detaching the officers from their commands pending the trial.

### Policeman Resigns.

Officer George Walker resigned his position on the local police force this morning. His resignation takes effect at once. Mr. Walker resigned entirely of his own accord. He had been a member of the police force since January a year ago, and had also served in the same capacity before. During the entire time he served the city as a guardian of the peace he has been regarded as one of the most zealous and efficient officers and has made a number of difficult and important arrests. He will resume work at his trade of carpenter. W. H. Nixon has been appointed to the vacancy caused by the resignation.

### COL. WOOLEY DEAD.

Col. Robert W. Wooley, the nestor of the Louisville bar and a prominent figure in Kentucky life for more than half a century, died yesterday of bronchial pneumonia. He was a candidate for attorney general of the state just before the war, and was secretary of the American embassy at Madrid. He served on the staff of Gen. Buckner during the war and became conspicuous because of an open letter he wrote severely criticizing Gen. Bragg. For this he was reprimanded by President Jefferson Davis. He lived in Cincinnati for a few years after the war and then removed to Louisville. He expended a large portion of his life and fortune in fighting tax suits instituted by the city, it being a part of his code to pay state taxes and deny the claims of the city. At his best, he was regarded as one of the ablest lawyers in Kentucky.

## Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. Keble, of Nevada, O., says: I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure. Bottles only \$1.00 Size holding 2 1/2 times the trial size, which sells for 50c. ## Chances Good For Money to Be Paid Out In Kentucky.

On or about the first of February 1863, President Lincoln ordered a draft of 500,000 men in the United States. Kentucky had been pretty liberal in sending volunteers to the army and thousands were still going and for this and other reasons the draft was not enforced until 1864.

Now, after a period of forty years the court of claims of the United States has declared the draft not legal on the ground that Kentucky had already furnished her quota.

The chances are good for a large amount of money to be returned to some of the older citizens and heirs of others, as each one drafted was released from service in the army on the payment of \$300. If this amount together with accrued interest is now returned to each one who preferred paying to service in the army it will amount to more than a thousand dollars in each case. If this money is returned it will be the means of bringing sunshine into many needy homes in many counties in this part of Kentucky.

E. T. Lucas, Wingo, Ky., writes  
April 26th, 1902: "For 10 to 12 years  
I had been afflicted with a malady  
known as the 'itch.' The itching was  
most unbearable; I had tried for  
years to find relief, having tried all  
remedies I could hear of, besides  
the number of doctors. I wish to state  
that one single application of Bar-  
lard's Snow Liniment cured me com-  
pletely and permanently. Since then  
I have used the liniment on two se-  
arate occasions for ring worm and  
cured completely. 25c. 50c. and \$1.

Mr. W. B. Kennedy, the tobacco  
ist, has returned from a trip  
and on his way back stopped over  
Jackson, Breathitt county, Ky.,  
business. He found that he was  
object of much curiosity, and when  
he went to the hotel everybody seem-  
ed to eye him. He attracted so much  
attention that after one man was  
rode a horse as fast as it could  
and carried a brace of small game  
had peered at him twice, he asked  
small boy what sort of a curiosity  
was, and was told that he was no  
in particular, only he was the first  
stranger who had been in town  
about two weeks. The attention  
died him finally became so embor-  
rassing that Mr. Kennedy asked  
a room, and retired to it in fear  
trembling. It was not much later  
that he had that night, and he  
glad to be up before dawn the fol-  
lowing day ready to catch the train  
of Jackson. Mr. Kennedy says  
he certainly never saw in so  
short time before such a large  
varied assortment of firearms—

AT THE DAIRY OF W. I.

(From Friday's Daily.)

The creamery of the dairy of V. L. Gore located on his farm near the city on the Canton pike was entirely consumed by fire this morning about 8 o'clock. The building caught in some manner from a stove and the blaze had gained such headway when discovered that it could not be saved. It was a two room building and the contents of one room were saved but everything in the room where the fire originated was destroyed. In this room was some of the dairy outfit, harness, saddle, clothes etc. The loss will amount several hundred dollars and it is not known whether there is any insurance on it or not.

When a postmaster is caught distributing the receipts of his office in order to increase his salary, he is more apt to refund in cases where the department has granted the increase. The controller later finds that the totals were bona fide. In a decision rendered by the controller of the treasury department, the practice of the department is upheld as much to the gratification of the post office officials. About three years ago the postmasters of Louisville and Indianapolis demanded an increase of salary which was declined on the ground that their receipts had not been increased by local solicitation in these cases. However, the postmasters were not guilty of any impropriety themselves. The officials of the two cities went to work, made a red-hot canvass among the business men for larger purchases of stamps. The sales so increased that to warrant an increase of \$1,000 in both cases, but after an investigation the department declined to do so, low it because the increase was only temporary and did not represent a permanent growth of the business of the two offices.

# LARGEST IN WORLD BY GRAND MASTER HEARST AND SULLIVAN CALL EACH OTHER "OUT OF THEIR NAMES."

LOUISVILLE, Ky., Feb. 15.—Louisville stands first among the leaf tobacco markets of the world.

Anent the increase of this business in 1904 as compared with 1903, it is worthy of note that Louisville during the past year succeeded in bringing more leaf tobacco out of Paducah, Hopkinsville, Mayfield and Clarksville districts than ever before in the history of the industry in this section. It is to many foreign countries, as well as places nearer home, that the Kentucky tobacco is shipped. A splendid illustration of this is found in the fact that the dark Kentucky leaf tobacco is constantly finding export to the United Kingdom, France, Italy, Spain, Germany, Holland, Belgium, and other parts of Europe, as well as Mexico, Canada, South America, the West Indies and over as far as Africa.

Some idea of the extent of the export of dark Kentucky tobacco to these countries may be inferred, says an exchange, by the fact that out of over 58,000 hogheads sold in the Louisville market in ten months last year all of it was Kentucky tobacco, and exported abroad besides what is sold yearly in the Hopkinsville market.

(From Tuesday's Daily.)  
A large number of the members of Green River Lodge No. 54, I. O. O. F., were present in their lodge room last night to meet D. L. Bailey, of Louisville, the grand master of the order Kentucky. His coming brought out lots of his old friends for it was in Hopkinsville he received his start into the grand lodge. His untiring efforts and forceful manner had endeared him to all, but until he filled the office of grand master his great ability had not been so clearly demonstrated to the Odd Fellows of Kentucky. He has visited a large number of lodges, giving his advice and suggestions and leaving them more enthusiastic than before. Mr. Bailey, personally and in a most impressive manner gave the charges etc. to Mr. John Stites who was initiated into the order. The degree team was at its best and elicited the praise of the grand master.

Mr. Bailey stated the total number of members of Kentucky was 18,844; the amount of relief paid last year \$64,590.67; assets of Kentucky lodges \$877,329.78.

## SENATOR DEAD.

(Special to New Era.)  
MURRAY, Ky., Feb. 14.—State Senator J. W. Gilbert, one of the most prominent politicians and influential citizens in this region, died today at his home in this city.

### Meet in March.

James D. Wood, of Central City, president of the State Federation of Labor is in Louisville making arrangements for the annual meeting of the United Mine Workers of the western district of Kentucky, which will be held in that city the week beginning March 7. Delegates from the Mine Workers will meet the operators, the object of the conference being to reach an agreement on a scale of wages.

### After Long Illness.

Rev. A. M. Coenen, a well known Roman Catholic priest of the diocese of Louisville, died yesterday at his home at Earlington, where he had been pastor of a church for several years. Father Coenen had been ill for a long time, and his death was expected.

### On Trial Again.

Garth Thompkins, the Madisonville negro who murdered James Brame, a Christian county darkey, about three years ago, and who about two years ago was sentenced to be hanged for the crime, but by a ruling of the court of appeals was given a new trial, is now on trial in the Hopkins county circuit court. The testimony for the commonwealth has been completed and witnesses for the defense are being heard. The killing was over a woman, while Thompkins was drunk.

### State Convention.

A great deal of interest is being aroused in the state convention of the Associated Charities, which will meet Feb. 21-23, in Covington. A number of persons prominent in charity work in this and other states will be present.

At the convention new plans of work of interest to the state as a whole will be considered, and at the same time questions affecting Kentucky cities will be taken up.

Among the reforms will be urged the question of securing better quarters for women and children confined in the prisons. It is claimed the present accommodations are little better than those furnished common criminals.

### Pretty Steep.

## FELL OFF HAND CAR

Wheat Bronaugh, colored, is plaintiff in a suit for damages filed by his attorney, R. N. Lander, in the Christian circuit court against H. M. Dalton and C. P. White. The amount prayed for is \$2,500. It is alleged in the petition that on April 30, 1904, Bronaugh was working in a rock quarry belonging to the defendants near Princeton, Mo. He says he was sent to Princeton on a hand car with eleven other employees and while "pumping" the car which was going at a high rate of speed, he was thrown off by its violent jerking and was run over, his legs being broken and his body bruised and mangled. He claims that the defendants had not properly protected him from dangers by accident. It is stated in the petition that being unable to work and having no means of support, Bronaugh is an inmate of the poor house.

## COLDEST IN YEARS

Not during the last six years has the equal of the present cold weather been experienced in the west.

The area of the cold wave extends from Canada to the Gulf of Mexico and from the Rocky Mountains to the Atlantic. The line of zero weather is about in the latitude of Memphis, but all through the South freezing weather is reported. In the North the mercury has registered anywhere from zero to 45 degrees below, the latter mark being scored at Richmond Center, Wis.

Trains everywhere in the West are from two to twelve hours late, and because of the packing of the fine snow in the cuts it is expected that it will be several days before the roads are able to restore the schedule time, even if the weather moderates. Although details are lacking, it is estimated that about a score of people have lost their lives, the majority of the fatalities being in the South west, where distance between houses and towns are great and shelter hard to find.

The loss of cattle on the ranges, particularly on those lying in the northern part of the southern tier of states, will be very heavy. W. E. Bolton, secretary of the Oklahoma Live Stock Association, declares that the live stock losses in the present cold weather will be the greatest since the blizzard of 1896. He places the number of head lost on the range in Western Kansas, Western Oklahoma and the Panhandle of Texas at 50,000 head. Further north, in Nebraska and the Dakotas and Montana, the stockmen are better prepared to shelter their stock, their cattle are better insured to cold, and it is not expected that their losses will be anything near as heavy as those on the range further South.

### Entitled to Pay.

Attorney General Hays rules that members of the state railroad commission are entitled to pay for expenses incurred in taking trips out of the state to attend interstate commerce commission meetings and gatherings of officials of the several states for railroad legislation.

## TIRADE OF DENUNCIATION IN THE HOUSE.

### ATTACKS WERE BITTER

New Yorker Goes So Far As To Charge Manslaughter.

(Special to New Era.)

WASHINGTON, Feb. 14.—Not in recent years has the national house of representatives witnessed such a spectacle as it with Mr. Sullivan, of Massachusetts, and William Randolph Hearst, of New York, as the central figures. Both indulged in personalities of the gravest character and so stirred the house as to arouse among certain members a feeling of the greatest indignation. Mr. Sullivan heaped upon Mr. Hearst a tirade of denunciation, while the latter, by implication, charged Mr. Sullivan with complicity in manslaughter.

The affair grew out of the recent discussion of the freight rate question in the house, when Mr. Sullivan inquired of Mr. Lamar, of Florida, who was favoring the Hearst bill, why Mr. Hearst did not defend his own bill, this being followed by a criticism of Mr. Sullivan in the New York American and Journal.

Several appeals were made to Speaker Cannon to cause the two men to desist in their abuse of each other. Speaker Cannon, however, allowed them to proceed. Mr. Sullivan entirely concluded, but in the case of Mr. Hearst, the speaker, on reconsideration, noting the temper of the house, decided to allow an accusation of homicide against a fellow-member was not parliamentary because it was calculated to provoke disorder and disturbances. Almost immediately thereafter Mr. Hearst took his seat, hurling defiance and declaring that it would be his pride to continue his hostility to individuals such as he charged Mr. Sullivan to be. He then sprang a sensation which threw the house into an uproar. He declared that John A. Sullivan was one of two Sullivans who had kept a saloon in Boston, where a murder was committed and that the two Sullivans were indicted for manslaughter. "I would like to ask the gentleman from Massachusetts," he calmly inquired Mr. Hearst, "what he knows about that incident?"

## HAYDON SELECTED

At a special meeting of the city council which was held in the council chamber last night, Amos Haydon was elected a member of the police force to succeed George Walker who resigned his position Saturday to return to his trade as a carpenter. Mr. Haydon has had several years experience as a special officer and physically as well as by training is well qualified for the place. He has recently been connected with the special service of the L. & N. railroad. He is about twenty-five years of age.

Mayor Henry believes he will make a model officer.

Officers M. W. Davis and J. E. Ricketts have a lay-off and R. H. Huggins and Charles Davis are serving as substitutes.

### New Suit Filed.

This morning the West Kentucky Asylum for the Insane, at Hopkinsville, filed a petition in circuit court against Lizzie Leonard, committee for Mary Kramer, asking for an alleged debt of \$1,580 for board for her charge.

The Kramer woman was adjudged a lunatic and sent to the asylum. It developed that she owned property and the state is trying to make her committee pay for her board and treatment. A similar suit was dismissed without prejudice Saturday.—Paducah Sun.

## THOUGHT HER DEAD

(Special to New Era.)

LEXINGTON, Ky., Feb. 15.—Nathan Harlow, arrested charged with bigamy, was arraigned before Magistrate Oldham this morning. Harlow, who is sixty, says the action against him is spite work on the part of a relative. He admits that he has two wives living, but says when he married the last time he believed his other wife dead. His first wife, who was Mahala Beckley, Shelby county, died several years ago and he then married Dora Connelly, of Indiana. He says she left him two years ago, and, believing she was dead, he married Martha Harlow, of Henry county, the second wife returned here several months ago and the last Mrs. Harlow returned to her home in Henry county and since then Harlow and his second wife have been living together.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. A sure protection to you is our name on the wrapper. Look for it on all Dr. King's and Bucklen's remedies as all others are mere imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor Canada.

IN VAUDEVILLE—A report from New York says that former Governor Robert L. Taylor, of Tennessee, will appear in vaudeville at a Broadway theater. His initial bow on the stage is to be made on February 20. This is said to be the first instance of a governor of a state going into the merry field of vaudeville entertainment. "Our Bob," as he is known in Tennessee, has made a great success in a humorous lecturer and probably will be a star in the theatrical firmament, if he sticks to it.

## HON. FELIX GRASTY

**CANDIDATE TO SUCCEED SENATOR GILBERT.**

**Announcement Made at Cadiz.—Career of Deceased Lawmaker.**

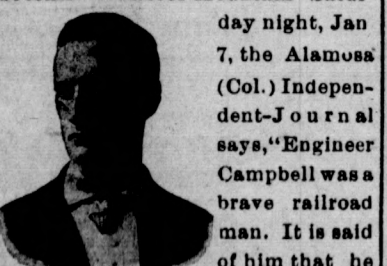

A telephone message to the New Era from Cadiz states that Hon. Felix K. Grasty of that place today announced himself a candidate for state senator from the Third Kentucky district, which comprises the counties of Trigg, Calloway, Lyon and Livingston, subject to the action of the Democratic party. He wishes to succeed Senator James William Gilbert who died Tuesday at his home in Murray. Mr. Gilbert had served about half of his term.

Mr. Grasty is one of the best known politicians in Western Kentucky. He is the present sheriff of Trigg county, serving by appointment.

The late Senator Gilbert had many friends and acquaintances here. He was born in Marshall county, February 20, 1840, and was son of Hugh and Sarah Gilbert, to whom were born 12 children. J. W. Gilbert the deceased, was second son. He spent most of his life in Marshall and Calloway counties, attending the Murray institute. He taught school in his youth, moved to Calloway in 1861, and when the war broke out enlisted in Co. G, First Kentucky regiment, confederate army, and served to the end of the war. After he returned from the war he spent his time in farming and school teaching, principally the former.

In 1876 he went into the tobacco business in Murray, and had since been engaged in it there. His funeral took place yesterday afternoon.

**Warner Campbell.**  
Concerning the late Warner Campbell who was killed in a railroad wreck on Cumbres Mountain Saturday night, Jan. 7, the Alamosa (Col.) Independent-Journal says, "Engineer Campbell was a brave railroad man. It is said of him that he

WARNER CAMPBELL went about his hazardous undertaking without a question concerning the danger when duty called him. The boys on the road always have had many words of praise for him, in that he was brave and true to his friends, of whom he had many. A sympathizing community desires to inform the bereaved, wherever they may be, that they join them in their sorrow."

**Cleared \$785.44.**  
The Owensboro Messenger says:

Mr. J. M. Haynes has furnished the Messenger with some very interesting figures showing what a farmer's wife can do even here in Daviess county. The person concerned is A. G. (Bud) Asher, of the Pleasant Valley neighborhood, and it will be seen that the figures make a very favorable showing in comparison with similar figures that have been published from other points.

The figures given are for 1904 and the products were all delivered by Mrs. Asher to her Owensboro patrons. In this connection it should be said that Mrs. Asher is most hospitable and is nearly always entertaining friends, and right royally does she entertain them, too. She has so systematized her work that the bulk of it is done on two days of the week.

Here are the figures: Butter, \$305.25; milk, \$217.70; chickens, \$27.17; eggs, \$26.70; garden products, \$20; Irish potatoes, \$46.80; sweet potatoes, \$11.95; celery, \$18.10; molasses, \$7.95; hogs, \$34.82; calves, \$31.15; backbone and spare ribs, \$6.05; total, \$785.44.

The farm on which all of the above was produced contains but thirty acres. Besides these articles there were produced some cord, fruits, tobacco and feedstuffs that are not counted. Of these no account is given, as the purpose is to show the value of articles usually not produced on Daviess county farms.

## TO FARMERS.

County Chairman W. W. Radford of the Tobacco Growers Association states that a big mass meeting of farmers will be held in this city as soon as the weather permits. He says that the affairs of the organization are in splendid shape and urges all farmers to hold their tobacco until after the mass meeting.

## GILES-HANCOCK.

Mr. Howard Hancock and Miss Lillie A. Giles were united in the holy bonds of wedlock Wednesday afternoon at the home of the bride near Howell. The ceremony was performed at 3:30 o'clock in the presence of a company of friends and relatives. The Rev. H. C. McGill, of the Baptist church, officiated. Miss Sue Caudle was the maid-of-honor and Messrs. Homer Hancock and Howell Giles were ushers. After the service, a delightful luncheon was spread by the bride's mother and the happy couple came to this city and remained last night at the Hotel Latham, leaving this morning for their future home in Tennessee. The bride is a lovely and accomplished young lady and a daughter of Mrs. Lula Giles. The fortunate groom is a prosperous business man of Lebanon, Tenn. Many handsome presents attested the popularity of the bride and bridegroom.

(Special to New Era.)  
LOUISVILLE, Ky., Feb. 16.—Pat Sharkey, on whose complaint and testimony Richard W. Knott and the Evening Post were indicted, convicted and fined \$500 for criminal libel a few days ago, was himself indicted by the grand jury today, the charge being that he allowed gambling in his saloon.

## DAMAGE SUITS FILED FOR FEBRUARY TERM OF COURT.

J. H. Gilbert, administrator of Amos Gilbert, deceased, has brought suit against the Louisville & Nashville railroad for \$10,000. The petition says that in October, 1904, Amos Gilbert was run over by a handcar and received injuries that resulted in his death. It is alleged that he was an employee of the road and that his death was due to the gross carelessness and wanton neglect of an agent of the company whose orders it was his duty to obey, and to an old and imperfect handcar.

W. A. Riley sues the L. & N. railroad company for \$161 for the alleged loss of a trunk. The same road is sued for \$150 by Harriet Posey, who charges that agents of the company destroyed her crops.

George McKinney, colored, sues E. C. Outlaw and the city of Hopkinsville for \$500. He claims that he was working out a fine on the streets one day last December, being under the charge of Mr. Outlaw, and that the latter assaulted him with a stick, breaking open his scalp and that his injuries kept him confined to his home for a week.

J. P. Brown sues the Forbes Manufacturing Company for \$1620. He alleges that he was hired by the defendant to drive a mule but was put to work to rip lumber and, being left alone and not being familiar with machinery, his left hand was caught by a saw and cut off at the finger joints.

## AUTHOR OF BEN HUR PASSES AWAY AT HIS INDIANA HOME.

(Special to New Era.)

CRAWFORDSVILLE, Ind., Feb. 16.—Surrounded by his family, Gen. Lew Wallace, author of "Ben Hur," one time minister to Turkey and veteran of the Mexican and Civil wars, died at his home in this city last night, aged seventy-eight years.

The health of Gen. Wallace has been waning for several years and for months, despite the efforts of the family to keep the public in ignorance of his true condition, it has been generally known that his vigorous constitution could not much longer withstand the ravages of a wasting disease.

For more than a year he had been unable to properly assimilate food and this, together with his extreme age, made more difficult his fight against death. At no time has he ever confessed his belief that the

end was near and his rugged constitution and remarkable vitality have been responsible for prolonging his life several months.

The death bed scene was one of calmness. Besides his physicians only his wife, his son, Henry Wallace, of Indianapolis, and Mrs. Wallace, were admitted. Two grandchildren, although in the house, were not admitted in the room.

When told by his physician that he was dying Gen. Wallace was perfectly calm and his last words were expressions of cheer to his grief-stricken family. Bidding them farewell he said:

"I am ready to meet my maker," and lapsed into unconsciousness, from which he did not recover.

No definite funeral arrangements have been made.

## SOCIETY OF EQUITY

**WILL MEET AT COURT HOUSE SATURDAY.**

**Organizer McCown Wants Every Farmer to Join the Association.**

The American Society of Equity will meet at the city court room in this city Saturday, Feb. 18th, at 10 a. m. for the purpose of making a more compact organization. The headquarters is at Indianapolis and is called the National Union. Branches called local unions are being formed all over the country. Frequently the merchants and farmers join together and have the meeting place in the town. While this society is primarily for farmers, yet merchants realize that what helps farmers helps them. As the success of this society will help farmers more than was ever dreamed of heretofore, merchants naturally want farmers to organize as their interests are mutual. The society publishes an official paper.

The system of crop reporting is very complete, both at home and abroad.

We want every farmer to join this society. There is nothing binding. We ask you to abide by the best advice as far as you reasonably can. Each member in the county should urge the importance of this meeting. We will try to have some one to interest you. Remember the date, Feb. 18th, 10 a. m. and 1 p. m.

J. R. McCown.

**Skeen-Martin.**

Luckie Hanson Martin, of Nortonville, and Miss Lillie Skeen, of Manington, will be joined in marriage tomorrow night at the home of the bride.

## DANGER SIGNALS.

No engineer would be mad enough to  
run by the flag which signaled danger.  
It is different with the average man  
or woman. They  
attempt constantly  
to run by the dan-  
ger signals of  
Nature and that  
attempts costs  
thousands of lives  
every year. When the  
appetite becomes irregu-  
lar or entirely gives out,  
when sleep is troubled  
and broken, when there is  
a constant feeling of dull-  
ness and languor, Nature  
is holding the danger sig-  
nal. The stomach and its  
allied organs are failing in  
their work and the body  
is losing the nutrition on  
which its strength de-  
pends.

Such a condition calls  
for a prompt use of Dr.  
Pierce's Golden Medical  
Discovery. It cures dis-  
eases of the stomach and  
other organs of digestion  
and nutrition, purifies  
and enriches the blood and  
builds up the body with  
sound, solid flesh.

"I have had so much ben-  
efit from your medicine and to say a few  
words that you may for publication,"  
writes Mrs. J. R. Downes, Crystal Lake, Conn.  
"I had been troubled with a complication of  
diseases for over two years, but kidneys and  
liver bothered me most. Some of my worst  
ailments were headache, frequent pains  
around heart and under right shoulder-  
blade. My hands and feet were cold nearly  
all the time, and I had such chilliness be-  
tween shoulders. Some days could not find  
for food; I lost flesh; felt so tired and mis-  
erable it seemed I couldn't do any house-  
work. Took medicine from my physician,  
but received no benefit. Bought a bottle of  
'Golden Medical Discovery,' and after tak-  
ing it I felt so much better we determined to  
give it a fair trial. Appetite soon improved  
and gradually the disorders disappeared un-  
til now I am well."

## THE SUNDAY SCHOOL.

LESSON VIII, FIRST QUARTER, INTER-  
NATIONAL SERIES, FEB. 19.

Text of the Lesson, John 1, 1-15.  
Memory Verses, 8, 9—Golden Text,  
John 1, 2—Commentary Prepared  
by Rev. D. M. Stearns.

[Copyright, 1905, by American Press Association.]

While reading any book that is worth  
reading (and Christians should have  
no time for others) we do well to note  
that which we learn as we proceed. In  
this gospel we have seen that Jesus is  
the Creator of all things, that in Him  
alone is life, that He is the Lamb of  
God who taketh away the sin of the  
world, that He is the Son of God, the  
King of Israel and that all who receive  
Him become children of God. Chapter  
II suggests a risen Christ, a temple  
cleansed, and points onward to the  
marriage of the Lamb. Chapters III  
and IV show us a religious ruler and  
a sinful woman and many others re-  
ceiving Him as the Christ, the Saviour  
of the world and a whole household in  
Capernaum believing on Him because  
they had seen something of His mar-  
velous power. Now we find Him in  
Jerusalem at a feast of the Jews.

We know that Jesus when in Jeru-  
salem often went to the temple. His  
mother found Him there when He was  
only twelve years old, and in His pub-  
lic ministry He often taught there. We  
find Him there in this lesson also  
(verse 14), but we are not told of many  
other places that He ever visited. It  
was just like Him to visit this Beth-  
esda (house of mercy), where so many  
sick people were, that He might heal  
some of them. The places we choose  
to visit when away from home or  
while on a journey indicate where our  
heart is—whether we are living unto  
self or unto Him.

This pool was by the sheep gate  
(margin), and this takes us back to  
Neh. III, where we find in verses 1, 32,  
that the building of the wall began  
and ended at the sheep gate and that  
the priests began the rebuilding, and it  
suggests that there is no real health  
for body or soul apart from Him who  
for us was brought as a lamb to the  
slaughter and who by the sacrifice of  
Himself provides redemption for all  
who, like sheep, have gone astray (Isa.  
LIII, 6, 7).

The facts mentioned in connection  
with this pool are that at a certain  
season an angel communicated to the  
water healing properties and whoever  
stepped in first was made whole of  
whatsoever disease he had (verse 4).  
How great the contrast between the  
healing of only one at a time and such  
a statement as Luke IV, 40, "All they  
that had any sick with divers diseases  
brought them unto Him, and He laid  
His hands on every one of them and  
healed them." Then notice that the  
man healed after the water was trou-  
bled could not be very impatient, for  
he must get in first in order to be  
healed, and as sinners we are utterly  
impatient.

The case of the man thirty-eight  
years impatient is truly pitiful and  
more fully sets forth the utter help-  
lessness of every sinner. His sad "Sir,  
I have no man to put me into the pool"  
would touch any heart, but how deep-  
ly it touched the heart of Him who  
seeth not as man seeth and who saw  
some special sin back of this impa-  
tience (verse 13).

How necessary are the words, "Cease  
ye from man," and again, "They saw  
no man save Jesus only with them-  
selves" (Isa. II, 22; Mark IX, 8). Lov-  
ing and pitying the man, who did not  
know Him who spoke to him and  
therefore could not have faith to be  
healed, Jesus said to him, "Rise, take  
up thy bed and walk" (verse 8), and  
immediately he was whole and obeyed  
His Teacher. It being the Sabbath day,  
he is soon found fault with by the re-  
ligious critics, who would rather see  
him continue helpless than dare to  
walk and carry his bed on the Sab-  
bath; but he cannot tell them who  
healed him, for he did not know the  
man who spoke to him at the pool  
(verse 13).

How meek and lowly our Lord was,  
ever doing good and desiring to be un-  
known! When the man afterward  
learned in the temple who healed him  
and told the Jews that it was Jesus,  
then these "religious" idolaters who  
made the Sabbath and all their feasts  
to be their gods sought to slay their  
Messiah because they could not or  
would not believe that He was their  
Messiah. There are idolaters every-  
where in Christendom whose suffer-  
ings, unless they repent, will surely  
be heavier than those of the heathen  
idolaters who never heard of Christ.  
Note John's last words, "Little chil-  
dren, keep yourselves from idols" (I  
John V, 21).

Our Lord's "Sin no more" to this  
man (verse 14) and also to the woman  
in chapter VIII, 11, doubtless had refer-  
ence to their special sins of which they  
had been guilty, but I John II, 1, is a  
word for every believer and includes  
all sin. "These things write I unto  
you that ye sin not." He who saves  
His people from their sins (Matt. I, 21)  
is able to do it moment by moment,  
yet we ever need the blood that cleans-  
eth, and He sees sin where we see  
none, for "the thought of foolishness  
is sin" (Prov. XXIV, 9).

In verses 33, 36, 37, 39, of our lesson  
chapter we have four witnesses to  
Christ—John the Baptist, the works of  
Christ, God the Father and the Scrip-  
tures. In verses 28, 29, we have the  
two resurrections of the just and un-  
just at the beginning and end of the  
millennial hour. Compare Rev. XX, 4-6.  
In verse 25 we have the present age  
hour when all who believe live, I shall  
never cease to thank God for verse 24,  
for by it in 1873 I learned that, receiv-  
ing Christ, I had eternal life and  
should never come into judgment for  
sin.

yours by divine right with no more discomfort than that experienced by  
those who by nature are possibly more adapted for the role of motherhood.

## DROPPED DEAD!

You pick up a paper nearly every day and read that some man or woman has died suddenly at a banquet, on the street, at the theater, of "heart failure," 80 per cent of such cases follow heavy eating. The digestive organs are not in condition, the food ferments in the stomach, forming gases which distend the walls of the stomach—which presses against the heart—crowds—suffocates—"Heart failure" results. Take a spoonful of

after eating. It relieves that "full feeling," stops fermentation, aids digestion and prevents biliousness and constipation.

**Dr. G. H. HAMMOND, M.D.,** underdate of May 11, 1914, writes: "For over a year I was unable to help me; finally I noticed an advertisement of Dr. Caldwell's Syrup Pepsin stating that sometimes Heart Trouble was caused by indigestion, and that Syrup Pepsin would cure indigestion and Gas on the Stomach. ## Talmage Sermon

By Rev. Frank De Witt Talmage, D.D.

Los Angeles, Cal., Feb. 12.—Under the figure of a river the preacher shows in this sermon the benefits that accrue to men who serve and obey God. The text is Isaiah xlviii, 18, "Then had thy peace been as a river."

What art thou doing, O prophet of Israel? Art thou taunting thy people with the blessing they had missed through forsaking God and disregarding thy teaching? When trouble swoops art thou one of those who say: "I told you so? If you had only taken my advice you would not be in the difficulty you are in today. If you will make your bed out of thorns and thistles instead of rose leaves, then upon the thorns and thistles you must lie." Are you like an executioner who upbraids and derides the trembling murderer whose life he is soon to strangle with the rope? In drawing your enchanting picture of peace flowing like a river before a people harassed by powerful foreign enemies and disturbed by internal dissensions are you not merely adding to their distress, as the mirage of the desert aggravates the thirst of the dying traveler? Are you saying to your miserable people: "Look at those beautiful banks watered by the river, rich in flora and fauna and singing birds. They would have been all yours if you had not wandered into the desert of sin, but now they are lost to you forever."

"Ah, no," says the prophet Isaiah, "it is not to aggravate their thirst that I tell them of this river, but to invite them to return to the way from which they have wandered; not to exult over their misfortunes, but to warn them of the consequences of sin. I am not here glorifying in the suffering of God's fallen ones. My river is not composed of the black waters of the river Styx, but from the flowing crystal waters of the river of life. I am like a loving father whose wayward son has disregarded warnings and has sinned and brought himself into trouble, and the father sorrows with him and pleads with him to repent and assures him that if he will forsake his sin his wickedness shall be forgiven and his peace shall be like a river, as though he has never sinned." May God help us as we use the banks of the Jordan or the Rhine or the Tiber or the upper Thames or the banks of our own poetic Hudson for a sacred pulp. Such a river bank today may become a sacred pulp as that in the chancel of Westminster abbey or St. Paul's or Canterbury cathedral, even though bishop's hand has not consecrated it or ecclesiastical convention dedicated it.

What the River Teaches.  
The pleading river, in the first place, teaches us that the divine peace which comes to man must come as the result of natural law in the spiritual life. It is not the result of haphazard. It is not a miracle as we in the broad sense term a miracle. It does not come as a miraculous wind which might dig up a seed in some Italian garden and in its teeth lift it above Alpine crag and carry it over land and sea and without human aid plant it as an exotic upon the banks of the Ohio or the Monongahela river. But the divine peace comes to man as the result of a rational cause. It has a rational source, as a river has a natural source; it has a natural flow, as the Jordan has a natural flow, and it has a rational outlet, as the Amazon empties itself into the Atlantic or the Ganges finds a resting place in the huge reservoir of the Bengal gulf.

A river cannot disobey natural law. A river cannot become a free lance among rivers. A river cannot do anything that specific gravity says "thou shalt not do." This fact is demonstrated everywhere. I climb one of the tall pyramids of the Rocky mountains. There upon the highest peak I find what is called a watershed. Then as I stand upon this watershed I repeat to myself the beautiful words of the poet:

God sent his messenger, the rain,  
And said unto the mountain brook,  
"Rise up and from thy caverns look  
And leap with naked, snow white feet  
From the cool hills into the heart  
Of the broad, arid plain."

But, though the mountain brooks may leap from the cool hills into the heart of the broad, arid plain, it makes a great deal of difference into what plain that falling raindrop shall go, whether it falls one inch to the right or one inch to the left of the Rocky mountain watershed. One inch to the right it flows into the gulf of Mexico; one to the left it flows into the waters of the Pacific. The waters of a river must obey natural law. Now, if God's laws are inexorable in regulating the source and the course of a river, are they not equally inexorable in reference to the source and the course of his divine peace, which is like a river?

The Conditions of Peace.  
You must obey God's laws before you can enjoy God's peace. To resist them, to disobey him, is to set yourself against omnipotent power and infinite wisdom. It is not necessary that God should punish you for it; you bring the punishment on yourself in failure and disappointment and eternal wreck. Your whole nature is given over to anarchy and lawlessness. Only as you yield to his will do you put yourself in line with the eternal order and enter into peace. I do not care how much you may think your way is better than God's ways, one fact you must understand—you cannot get the divine

peace and happiness come to us through service to others. No man is so happy as he who has made another happy. No pillow is so restful as that of him who has relieved the anxiety of his brother. The peace that passeth understanding never fills the heart that cherishes selfish desires or turns away from another's misery.

The Secret of Happiness.  
How is it with America? "I would like to see America, but the people are not as great as you think," said Thomas Carlyle to an American visitor. "You may boast of your democracy or any other 'cracy' or any other kind of political rubbish, but the reason why your laboring folks are so happy is that you have a vast deal of land for a very few people." True, Thomas Carlyle, true. But what would our lands be worth if we did not have our mighty rivers to enter them? Whence could our cattle find water to drink and grass to eat but for the rivers? How could our grain lift its golden cheek to be kissed of the sun unless its roots once waded knee deep in the mud? What makes the Atlantic coast, especially New England, have the most fertile valleys? The rivers. What makes Sahara one great sea of sand? The absence of the rivers. Yes, as the Egyptians for centuries worshipped the river Nile because its rise or fall meant to them food or famine or poverty, health or disease, the rivers of our land are the source of fertility to the soil and prosperity to our people. If the peace of our hearts is to be like a river it must give help temporal and spiritual to all around us.

Are we temporal and spiritual "rivers of life" to our fellow men? Some of us are truly "rivers of death" or "rivers of seclusion." Our lives are like the stygian stream in the great Mammoth cave of Kentucky. We are surrounded by grandeur and beauties on every side, but we have walled ourselves in by solid rock, where we can do no good to others and where others cannot do any good to us.

Like Luray Cave.  
Or our lives, if they are not like the Styx of a Mammoth cave, supporting only a few blind fish swimming hundreds of feet below the surface of the earth, may be like the wonderfully suggestive beauties of a Luray cave of old Virginia, which likewise are doing no good to any one. That Luray cave is a marvelous place. Though its beauties were buried for centuries, yet under the flash of light it looks as though its walls had been erected only yesterday and, like the Taj Mahal of India, are a glittering mass of dead precious stones. Yonder stand the columns of stalagmites as stately in vestal garments of purest white. Here are the drippings of a catenara, as though the mad rush of a Niagara had been instantly halted and, like an open mouth, lilt, dared not utter one growl, and though even now we seem to hear the echo of its last wild, mad roar. Yonder the "blue room," where our imagination tells us the nymphs and the fairies used to sport and dance and make merry. Near to this "ball hall" is the "cometary ridge," where those nymphs and fairies were buried ages on ages ago. Here are the "hanging veils of the goddesses," so thin that through them shines the light of our guides' lamps, so red that they seem to have been dipped in the blood of the soldiers who over this very mountain once followed Stonewall Jackson in his last raid into the blood of those soldiers who rode before the cavalry charge of "Lightning" Horse" Phil Sheridan. From yonder cathedral, with its domes and spires and steeples and minarets, and strange carvings, there come echoing up the solemn notes of an organ which roll and swell and thunder and whisper and pray and chant and die. From out of every grotto stretches some hand or lifts some snowbank or flaps some wing or, like a cat's eye, blinks some emerald or, tiger-like, glares the bloodshot eyeball of some ruby or flashes some emerald. And while all the chimes of all the towers are beginning to ring suddenly a state-little many tons in weight breaks loose and crashes upon the floor. It shivers, rolls over once or twice and then lies still, to be decomposed by the coming ages. A marvelous and enchanting place is Luray cave of old Virginia.

All its walls are strangely sculptured, Column high and chasm wide.  
"In the place where all the shadows  
Of the past years' silent hide."  
But when I stood within the walls of that fascinating place I said to myself: How like selfish man is this cave! His heart is a heart of stone. Amid the sufferings and troubles of a sinful world, with all his vast resources for doing good, he buries himself in a wall of citadel, which is called his home or his store. He lives, he breathes, he eats, he sleeps, he works for himself, and himself alone. Oh, brother, may your gospel peace be not like the glittering grandeur hidden in the darkness of a Luray cave in Virginia or of a silent river Styx flowing through the dark halls of a Mammoth cave of old Kentucky! May it be a river of life, bringing peace and joy and hope to all who are willing to bend down their parched and sinful lips to lap of the spiritual waters.

A River of Triumph.  
But I cannot close this sermon upon this beautiful text without finding one more symbol. The pleading river is not only a river of consecration to God, but a river of triumph. It is not only the crystal gates through which, as the Jordan of death, we shall enter the tomb, but it is the crystal gates by which we shall leave the wilderness of trouble and earthly wanderings and enter into the promised land of heaven and eternal joy. Shall our peace, which is like a river, stop at the brink of the grave?

We have read how George Frederick Handel on the river Thames won his great musical victory over the irate George I. of England. When King

George was elector of Hanover he befriended the young unknown musician Handel and made him court musician. But after Handel had won musical fame he tried of the Hanover court and hid himself to London. This greatly enraged the elector. When he became king of England as George I, he would have nothing to do with his old favorite. But one day the king gave a great fête upon the river Thames. As the royal barge moved along another barge followed, playing twenty-five concertos of music. These concertos, gathered together under one musical head, are known as the celebrated "water music" of Handel. Every musical instrument then known was utilized in the orchestra. "Ah," said King George, "no one could compose such music as that but my old court musician, Frederick Handel!" At once the king restored Handel to favor and gave to him a salary of £1,000 per year. But, though Handel upon the river Thames was able to play himself into the good graces of an earthly king, our divine peace, like a river, shall yet open for us a more triumphant entry into the royal courts of heaven. There we shall not have to play as Handel played, but we shall have all the celestial choir which sang for the shepherds above the Judean hills slug for us the halleluiah chorus of a royal and divine welcome.

But I think myself of one suggestive fact about this same river Thames. Though Handel by sweetest harmony may have played himself into the good graces of an earthly king, yet he was playing his "water music" upon the stream which washed the iron gratings of the "traitor's gate" of the old Tower of London. Through this gate the English kings sent their enemies for incarceration or decapitation. Oh, my friends, can it be that you or I must ever pass through the traitor's gate, which is today swinging over the river of death for those who love not God? Can it be that there shall ever come a time when God shall speak to us an eternal condemnation with the following words: "Oh, that thou hadst hearkened unto my commandments; then had thy peace been as a river and thy righteousness as the waves of the sea?" Oh, for the peace, the everlasting peace, of God, which is like a river!

**NEW SPOT.**—A sun spot believed to be one of the largest and best described ever observed has been discovered by Prof. A. H. Cole, a Chicago astronomer. Projected through a small opera glass on a sheet of white paper a disc measuring six inches in diameter was disclosed. Mathematical calculations proved that the spot on the surface of the sun was one-tenth of its total diameter, or over 80,000 miles in its widest part.

The spot is egg shaped and can be easily discerned through a smoked glass. It is situated east of the central portion of the sun and today will be almost in the middle of the luminary. The spot will be visible for several days.

**CIGARETTE LAW.**—Section No. 1227, Kentucky Statutes, reads as follows:

It shall be unlawful for any person to sell or furnish to any person 18 years of age and under any cigarettes or cigarette material or to give same or barter the same to any person whomsoever with the knowledge that the same is to be given or sold or bartered to such child, or persuade, advise or compel any child under said age to do the same.

Any person who violates the provisions of this section shall be guilty of a misdemeanor and upon conviction of same shall be fined not less than five nor more than twenty-five dollars or serve from one to six months in the county jail or both at the discretion of the court.

**LIKE CAMILLE.**—An hour after she had concluded her portrayal of the death of Camille on the stage, Nellie Gibney, an actress, while on her way to the hotel from the theater in Jefferson City, Mo., Saturday night, was seized with paroxysms of coughing and expired. She was enjoying good health, but burst a blood vessel while imitating the coughing of Camille.

**VOICE FROM THE TOMB.**—After an absence of more than twelve years from the ring, John L. Sullivan, who is at St. Louis, has publicly challenged James J. Corbett to a return match. Sullivan declares his sincerity.

"I am on the level," he said, "I can lick Corbett, and all I as is another chance. I am not all in. Eight months to train is all I ask. I am willing to fight, winner to take all."

In reply to the challenge, Corbett telegraphed from Cincinnati: "My answer to Sullivan's challenge is as follows: I wish he had the health and the youth to be able to fight me, or anybody else. That's all the bad luck I wish the poor old fellow."

## GETS BETTER PRICE

**HOW WEED IS SELLING AT PRESENT.**

The Clarksville Leaf-Chronicle says:

"Mr. Felix Ewing returned Thursday night from his trip to Washington City and New York in the best of condition and in high spirits. He was called to New York to confer with a syndicate there that wants this entire crop of tobacco. This syndicate is composed of men under control of John D. Rockefeller. Mr. Ewing is greatly pleased with the situation of our farmers. Everything is working well, and no hitches. There was a mistake in the despatch sent out to the effect that Senator Daniel, of Virginia, was opposing the removal of the tax on leaf tobacco. He is for it and says the Gaines bill is sure to pass."

(From Saturday's Daily)

Mr. J. E. Canler, of Larkin, was in the city yesterday delivering his tobacco. As compared with the 1903 crop the 1904 crop nets him about \$200 more money. Mr. Canler says that as yet the farmers of his section have not as a rule joined the tobacco association but they are deeply interested and will probably all sign the pledges.

## FALLS TO BOTTOM

**AFTER HE HAD SCALED DIZZY HEIGHTS.**

**Poor Old Joe Mulhatten Is Again in a Prison Cell.**

Ten years ago Joseph Mulhatten was one of the most prosperous and successful traveling salesmen in the country. He received a salary of \$15,000 a year with an expense account almost as large.

Today he sits in a squalid cell in the San Francisco police station, answerd to the charge of stealing an overcoat.

Ten years ago this man set the styles. He was somewhat of a Beau Brummel, and his "glad clothes" were up-to-date. When on the road he lived like a prince. No parlor car or high-priced hotel was too good for him.

Today he is clothed in noisome rags. He is a physical wreck. Battered, bleary-eyed, nerve-shattered and dirty, he sits on his bench and is scarcely able to tell his name.

Ten years ago Joseph Mulhatten was the best raconteur in the country. His stories—the invention of an ingenious mind and ready wit—were printed in all the newspapers, and some of them are still going the rounds of the press. He was proud of the title "Biggest liar on earth." His stories set the whole country laughing.

In a few weeks at best Joe Mulhatten will die. And some dissecting student may take that skill in his hands and say, "Alas, poor Yorick."

What brought about the change in Mulhatten? Whiskey. He was a type of the "good fellow." To do this sort of good fellow, you must do as the other fellows do if not more so. Mulhatten went the limit. He was the life of every party. Generous to a fault, he never turned down a friend—and he had a lot of friends those days. He has no friends now. He is unable to get bonds to keep himself out of jail.

His is the old story of trying to conquer booze.

To keep up his end in the drinking bouts he swilled the stuff. It got on to his nerves and jangled them. Then it tackled his stomach and ate out the linings.

As the whiskey was going in his wife went out. He began to forget the point of a story and mumbled it. His sprees interfered with his business. His friends began to say that Joe's pace was too rapid. Then he lost his \$15,000 position. He could not make good. Engaging at a low salary, he took "the cure," but he was too far gone. He became a nuisance. Then he was a tramp, frequenting back alleys and cheap saloons, a common bum.

It isn't worth while to moralize over this man's career.

Booze will bunko the smartest man alive.—Milwaukee Journal.

## HIS WIFE WOKE HIM UP

Connecticut Man Nearly Choked to Death in Night

No comment is needed on the following letter. It tells of fearful experiences that have fortunately been overcome.

"Dear Sirs:—  
"Often in the night my wife had to wake me up because I was almost choking to death with catarrh. I had one of the worse cases that was ever known and skillful physicians said it was chronic.

Fortunately a friend told me of Hyomei and I used this treatment faithfully, and today am free from catarrh. I used Hyomei perhaps five times a day and could soon see a great change. A complete outfit and an extra bottle cured me. I always carry a Hyomei inhaler in my pocket so as to prevent any colds or slight catarrhal attacks that are common at this season of the year.

"Yours Fraternally,  
"Thos. Fincham, Putnam, Conn."

It is the easiest thing in the world to cure catarrh or catarrhal colds if you use Hyomei. Breathe its health-giving, balsamic air for a few minutes and your catarrhal trouble will soon be cured.

The complete outfit costs but one dollar and consists of an inhaler that can be carried in the purse or vest pocket, a medicine dropper and bottle of Hyomei. The inhaler lasts a life time, while extra bottles, if needed, can be obtained for 50c. In Hopkinsville there are scores of well known people who have been cured of catarrh by Hyomei. If it does not help you L. L. Elgin will return your money in accordance with the guarantee he gives with every outfit.

## CABINET RESIGNS

**ALL BUT ONE WILL BE RE-APPOINTED.**

(Special to New Era.)

WASHINGTON, Feb. 10.—The following announcement was made at the White House today:  
"The members of the cabinet have all tendered their resignations, but on March 6 they will be reappointed, with the exception of Mr. Wynne, who is to be appointed consul general at London. George B. Cortelyou will be nominated on March 6 for postmaster general."

The practice of cabinet members tendering their resignations upon the inauguration of a chief executive is established, so no particular significance attaches to the above announcement.

**That is What They Say About Them in Hopkinsville and It Is, Therefore Reliable.**

Another proof, some more evidence Hopkinsville testimony to swell the long list of advocates who endorse the old Quaker Remedy, Doan's Kidney Pills. Read this convincing endorsement of the claims made for that remarkable preparation:

M. W. Davis of Eades & Davis dealers in coal on East Seventh street at the L. & N. R. R. and who lives at 508 North Main street says: "I advise the use of Doan's Kidney Pills in all cases similar to that of my son who for some time complained of backache and was troubled with a kidney weakness which was very annoying at night. We tried many different remedies and he was treated by the family physician but nothing seemed to do him much good. I learned about Doan's Kidney Pills and got a box at Thomas & Trahern's drug store. He used them an there was a noticeable improvement in a short time. After he had taken all of the contents which had proven such an annoyance was entirely relieved. We consider Doan's Kidney Pills certainly worthy of strong endorsement."

## PLEA FOR JOHN D.

PUT IN BY THE NEW YORK WORLD.

**Hard Luck Winter for Standard Oil Co.—Million Spent in Vain.**

Won't somebody please burn a little kerosene oil just to keep John D. Rockefeller in good spirits? This has been a hard-luck winter for the Standard Oil company. Away back in October, 1904, Mr. Rockefeller's kerosene drummers began to report that things were not looking as bright as they should. Cold weather was coming on, the nights were growing long, and the time was at hand when the people should be getting out oil stoves and lighting lamps earlier, but they weren't. So the Standard Oil officials resolved to do a little coaxing. In November they lowered the price of oil a half a cent a gallon. Thanksgiving came, but still the people were not burning enough oil to suit the Rockefeller.

Accordingly, in December, the company reduced the price of kerosene another half a cent a gallon. This was like giving away money, because the oil wells were not flowing, and it was costing the trust more to bring the product to the consumer owing to the cold weather. Christmas came and everybody was happy but the Rockefeller. The people were not burning the expected amount of oil.

In January, a third reduction of half a cent a gallon was made. Still the people wouldn't buy. Even the servants quit lighting the kitchen fire with kerosene, according to reports of insurance companies.

It is said to have cost the Standard Oil company to date this winter about \$1,000,000, in its vain endeavor to coax the public to burn more kerosene. This is an unusual experience for the philanthropists who compose the Standard Oil company.

It was rumored yesterday in Wall street that the Rockefeller trust would make a further and final reduction in price this month, and would issue a book of prices, showing how kerosene may be used in cooking, as a sort of flavoring extract, or something of that kind. Mr. Rockefeller's chemists have shown great ingenuity in utilizing the by-product of petroleum and they are now said to be spending their energies to the discovery of a way to convert gasoline into a rich soup as a palatable substitute for the ordinary breakfast foods.

The sugar trust, too, has been "up against" a perverse public appetite this winter. The trust put up granulated ten cents a hundred pounds on January 19, thinking it had a good thing in sight. But the good thing did not materialize and yesterday the trust lowered the price of granulated sugar ten cents a hundred pounds.

## HAPPY AND HEALTHY.

A Beautiful Canadian Girl Saved From Catarrh of the Lungs by Pe-ru-na.

MISS FLORENCE KENAH.

Miss Florence B. Kenah, 434 Maria street, Ottawa, Ont., writes: "A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently. I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since."

"I now have the greatest faith in Peruna." F. E. KENAH. WOMEN should beware of contracting catarrh. The cold wind and rain, sleet and mud of winter are especially conducive to catarrhal derangements. Few women escape. Upon the first symptoms of catching cold Peruna should be taken. It fortifies the system against colds and catarrh. The following letter gives one young woman's experience with Peruna: Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following: "Recently I took a long drive in the country, and being too thinly clad I caught a cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I considered this money well spent. "You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rose Gerbing. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

### THE STOMACH IN WINTER

Hearty Food Puts Extra Strain on This Important Organ.

Winter is a little more than half over, and the results of its hearty food are shown in the variable appetite, nausea, gnawing at the pit of the stomach, heartburn, salivary skin, furred tongue, headache, backache, and sleeplessness. The stomach has been overworked, the nervous system is unstrung, the blood is in bad condition, the digestive organs are tired out.

It is at this season of the year that Mi-o-na, the only remedy known that gives strength to the stomach and digestive organs, is of especial value.

Mi-o-na is not a hit-or-miss cure, but is an unusual combination of remedies that makes it infallible in restoring health to the stomach and digestive system. It overcomes any acid condition that may be present in the stomach and intestines, soothes and heals the irritated mucous membrane, has a stimulating effect on the solar plexus, and combines peculiar properties that strengthen the nerves of the stomach and puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, any disease germs in the stomach will be destroyed, and the digestive system will be so strengthened that it will extract from the food all the elements that make solid bone, firm muscle, and pure blood. It is a guaranteed cure for all diseases of the stomach, excepting cancer.

The guarantee on Mi-o-na is given by one of our best known druggists, L. L. Elgin, who agrees to refund the price 50 cents, should Mi-o-na not give perfect satisfaction. Ask L. L. Elgin to show you the guarantee he gives with every package.

## AFTER ENTIRE CROP

STATEMENT MADE BY GENERAL SALESMAN.

Farmers Standing Firm.—Large Warehouse To Be Built at Springfield.

A press despatch from Clarksville says:

The Montgomery County Tobacco Growers' Association met yesterday. C. P. Warfield, general salesman for the association, explained some matters in regard to sampling. He said that he was in communication with some men who desired to purchase the entire crop of dark tobacco at the farmers' prices; that the members of the association in the twenty different counties were standing firm and proceeding along intelligent lines, a fact which meant victory in the end; that the banks and other parties living in the dark tobacco district were assisting the association in many ways; that it was up to the farmers to control the production, which will control the price. He said that the 1903 crop had been consumed, and according to statistics, only 65 per cent. of a crop had been raised in 1904. He spoke of the necessity for cutting the 1905 crop, which will reduce the supply still more, thus putting the farmer in a position to command the tobacco situation. He estimates that the plan adopted will reduce the acreage about 30 per cent. Chairman Prince gave out blank contracts to the district chairmen, which are to be signed by all tobacco growers who will agree to reduce the acreage. Stewart, Trigg, Todd and Simpson counties have already adopted the Montgomery county scale, and other counties will follow suit.

SPRINGFIELD, Tenn., Feb. 15.—At a meeting of the stockholders of the Farmers' Union Warehouse Co., the following board of directors was chosen: J. M. Couts, Leo Woodard, R. D. Izor, W. H. Simmons, W. I. Shannon, W. E. Ryan, A. B. Porter, J. W. Long, and Richard Glover. A committee from the board of directors was selected to at once procure a charter, and proceed to buy or build a warehouse.

The reports of the soliciting committees show that of the \$7,500 wanted, \$6,200 has been secured, and now a tobacco warehouse at Springfield is no longer a conjecture, but an assured fact.

## SENTENCE OF DEATH

The jury in the case of Garth Tompkins, colored, charged with the murder of Jim Brame, colored, of Christian county, two years ago last Christmas, returned a verdict, at Madisonville, of guilty and fixed the punishment at death.

Tompkins was tried at the former term and given the death sentence, but the court of appeals reviewed the case and ordered it back to the circuit court of Hopkins county for another trial. The attorney for the condemned man will now enter motion for still another trial and one of the grounds will be that one of the jurors read a newspaper just before the verdict was made up in which paper the prediction was made that the death penalty would again be given the defendant in this case.

Tompkins killed Brame about a woman who had been the wife of both of them. When Tompkins was sent to the penitentiary for eighteen months for some crime, his wife obtained a divorce and married Brame, who had gone from Hopkinsville to Madisonville to work in a coal mine. When Tompkins was released from prison he went to his former home, married his wife, in night clothes and barefooted, at the point of a pistol to the hope of a neighbor, and returned shortly and killed Brame.
