CALIFORNIA

Do you want to live where the climate is mild all year round—where labor is never oppressed by stress of weather, and where animal vitality is never lost by mere conflict with coldness? Do you want to live in a region where the resources are more varied than in any other equal area in the world, where the development of great resources affords a fine opportunity to get a small farm that will assure you a competency? Do you want to live where, with a minimum of labor, you can grow profitable crops of grapes and small fruit, oranges, lemons, olives, prunes and almonds, alfalfa and grain, where crops are sure, business is good and capital easily finds profitable investments?

Then go to California, where both health and opportunity await your coming.

The Chicago, Union Pacific and North-Western Line

is the most direct route to the Pacific Coast, and there are two fast through trains daily via this line, over the famous double-track railway between Chicago and the Missouri River.

Specified round trip rates are in effect via this line throughout the summer to various Pacific Coast points, and the low rate one-way tickets will be on sale during September and October, which give an unusual chance for settlers to make the trip at a minimum of expense.

Daily and personally conducted excursions are operated through to San Francisco, Los Angeles, and Portland, both in a Pullman sleeping car and via Chicago. Chicago, Union Pacific and Southern Pacific Railways.
